The Presbyterian Adult Bible Class held a meeting on Tuesday evening for the purpose of re-organizing the class for the winter season. The following officers were elected: President, Mr. Sutton; Vice-President, Mrs. Burgess; Secretary-Treasurer, Miss Clara Kidd; Teacher, Rev. Jull; Asst. Teacher, Mr. Campbell; Organist, Mrs. Hunter.

CROP OF LAWYERS CREATES RECORD

TORONTO, Oct. 9.—There is no immediate fear of a scarcity of lawyers in this province. So far this year a total of 193 law students have been admitted as barristers and solicitors, according to George M. Lee, registrar of the Supreme Court. This constitutes a record. Another record will be established two weeks hence, when 193 more will be sworn in.

JUDICIAL SALE OF PROPERTY IN THE CITY OF PETERBORO'

Pursuant to an order of the Supreme Court of Ontario, made in the action of Isaac Henry Hammond, plaintiff, and William Henry Baker and Clara Amelia Baker (By Writ of Summons) and Albert H. Stretton, Margaret Smith, Tasmage Smith and Wilbert Smith, the last named two being infants under the age of twenty-one years (made parties in the Master's office) defendants, there will be offered for sale with the approbation of the Local Master at Peterborough, by John F. Thornton, auctioneer, at the Munro House, 300 Water street, in the City of Peterborough, in the County of Peterborough, at two o'clock in the afternoon, on Saturday, the sixteenth day of October, 1920, all and singular that certain parcel or tract of land and premises, situate, lying and being in the City of Peterborough, in the County of Peterborough and being composed of that part of Lots numbers FIFTY-FOUR and FIFTY-THREE, according to Registered Plan Number Thirty described as follows, that is to say: COMMENCING at a point in the northerly limit of Lot number Fifty-four distant westerly forty-seven feet from the south-east angle thereof; thence westerly along the northerly limits of said Lots Fifty-four and Fifty-three, twenty-one feet to a point in the northerly limit of said Lot Fifty-three; thence southerly and parallel with the easterly limit of said Lot Fifty-three to the southerly limit thereof; thence easterly along the southern limits of said Lots Fifty-three and Fifty-four, a distance of twenty-one feet to a point in the southerly limit of said Lot Fifty-four thence northerly and parallel to the western boundary of said Lot Fifty-four to the place of commencement.

On the said land is said to be erected a two-storey brick veneered and shingled dwelling house.

The property is situated on the south side of Albert street, in the City of Peterborough, on the line of the Peterborough Radial Railway Company, and is near the work shops of the Canadian General Electric Company Limited, and is known as number 509 Albert street.

The property will be offered for sale subject to a reserved bid.

The purchaser shall pay ten per cent. of his purchase money at the time of sale to the vendor, or his solicitor, and the balance in thirty days thereafter into Court to the credit of the said action without interest.

The vendor will only be required to furnish a Registrar's Abstract of Title, and to produce such deeds, copies thereof, or evidences of title as are in his possession. In all other respects the terms and conditions of sale will be the standing conditions of the said Court.

Further particulars may be had from A. E. Dixon, solicitor, 397½ George street, Peterborough, Ontario, or from

E. C. S. HUYCKE,
Local Master at Peterborough.

DATED at the City of Peterborough, this eighteenth day of September, 1920.

THE HAND-PAINTED BLOUSE

NOTES FROM PARIS

By Our Dress Correspondent.

Have you seen the new short tunics—they are really little more than casaquin blouses — made of heavy crepe de chine and hand-painted in Japanese designs? They are exceedingly attractive and easily made, the design being simply kimono and the skirt of the tunic reaching about ten inches below the waist.

A fringe of small wooden beads is often added, and this keeps the little garment in perfect position.

Wood Bead Fringe.

A particularly attractive model of this order was made of jade-green crepe, with bold designs which looked like gigantic chrysanthemums splashed on the hem at one side, in black, dark blue, grey and silver paint. All the flowers were massed together at the left side, a few loose petals showing on the front of the V opening, also at the left side.

The hem was fringed with small black wood beads with a single silver bead at the end of each small string and a similar fringe finished off the elbow sleeves. There was a girdle of dull silver cord with black bead tassels.

Japanese Designs.

I have lately seen some delightful cross-over blouses in crepe and taffetas, which were decked out with hand-painted designs. One model of casaquin outline was expressed in old-rose crepe, and it had on the hem some curious Japanese figures and trees—the work bold in the extreme and Futurist in method. Body-colours must be used for paintings of this kind, but mix in as little Chinese white as possible. Every effort must be made to keep the crepe supple.

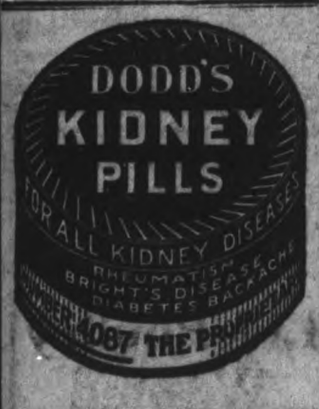
Stencil Painting in Vogue.

Stencil-painting is effectively applied to taffeta blouses and tunics; and very often one finds delicate touches of embroidery added. "Shadow" painting also is lovely on chiffon, voile de soie, or gauze.

The long-waist outline is an established favourite. Blouses, tunics, casaquins—all are made in this way. For one short-waisted model one sees 50 with the waist-line about three inches below the normal. A favourite dressmaker in Paris is making a specialty of long-waisted blouses of "sailor" outline — comfortable little garments banded in rather low on the hips by a length of narrow elastic.

This is indeed a primitive blouse; the sort of thing that small children of both sexes used to wear. But now it is very much "the correct thing," and really these blouses are lovely in heavy crepe or chiffon-taffetas, hand-painted or finely embroidered. I.V.W.

Mrs. T. A. Record, of 634 Rubidge Street, City, has a very wide range of dainty stencil designs, and is prepared to execute work at moderate charges. 1d-85-6979



LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very small cost.

You grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Save Money Regularly

And there will be no guess in regard to the future—it will be a certainty that should your salary stop, sickness or opportunity come, you will be prepared to meet the occasion.

This institution receives Deposits of $1.00 and upward, and pays 3½% interest Quarterly from date of Deposit to the date of withdrawal.

REGISTRATIONS AT CITY HALL

Birth registrations at the City Hall were particularly heavy during September forty-six having been filed:

Mr. and Mrs. Robert J. Byers, son, Mr. and Mrs. Albert D. Tennyson, daughter, Mr. and Mrs. Mike Cavielier, daughter, Mr. and Mrs. Antoine Lazure, son, Mr. and Mrs. Russell Whatman, son, Mr. and Mrs. Angus Lynn Sutherland, daughter, Mr. and Mrs. A. H. A. Robinson, daughter, Mr. and Mrs. Charles Ackerman, son, Mr. and Mrs. H. B. Cowan, son, Mr. and Mrs. A. J. Leonard, daughter, Mr. and Mrs. C. H. Barringer, son, Mr. and Mrs. S. H. Lechy, daughter, Mr. and Mrs. M. Dunkley, daughter, Mr. and Mrs. R. V. Post, son, Mr. and Mrs. M. P. Webb, daughter, Mr. and Mrs. Wm. Donnelly, daughter, Mr. and Mrs. H. Miller, son, Mr. and Mrs. J. W. Sharman, son, Mr. and Mrs. J. Rones, twins, (boy and girl), Mr. and Mrs. Clifford Rank, son, Mr. and Mrs. T. S. Wood, son, Mr. and Mrs. John Hughes, daughter, Mr. and Mrs John Coros, son, Mr. and Mrs. A. Lonergan, daughter, Mr. and Mrs. A. Herbert Hatton, son, Mr. and Mrs. H. E. Raynor, daughter, Mr. and Mrs. Geo. Rose, son, Mr. and Mrs. J. H. Primeau, daughter, Mr. and Mrs. Jas. Price, daughter, Mr. and Mrs. P. C. Nolan, son, Mr. and Mrs. S. Montgomery, daughter, Mr. and Mrs. R. N. McKinley, daughter, Mr. and Mrs. Archie Davidson, son, Mr. and Mrs. H. W. Johnston, daughter, Mr. and Mrs. F. Stabler, son, Mr. and Mrs. B. S. Hall, daughter, Mr. and Mrs. J. A. Stevens, daughter, Mr. and Mrs. H. Allen, son, Mr. and Mrs. R. O. Eaton, son, Mr. and Mrs. Gordon Johnston, son.

Marriages.

The marriages filed were:

John Clifton Deck to Iva Maude Hodgins, Cecil Roy Kempt to Cora Spiers, Charles Dunlop Mathias to Isobel Frances Hay, Roy A. Spiers to Jane E. Huston, Wellington Tate to Eva Irwin, Albert Heather to Eva J. Nesbitt, Donald James McLeod to Keturch Hall, Robert Smith to Elsie Parks, Wesley Harold White to Florence Robinson, Harves S. Smith to Mary Barrie, Frederick Thomas Rapp to Marion Gertrude Lyle, William Krause to Evelyn Peral Byers, James Black to Lillian Weaver, Arthur McGregor Smith to Aimee L. Rathbone Charles Henry Hotston to Florence Black.

Deaths

Deaths during the month were:

Amelia Emily Regan, John Ring, drowned, September 2, Mary Helena Heffernen, Marjorie Palmers, Mary Brown, Cathrine Somers, Joseph Don old Welsh, Margaret Tarbush, Marion Young, James Haggart, Edith Donnelly, Philip Heffernan, Deborah Murphy, Joseph Alphonse Rivard, William Yelland, Baby Johnston.

TRIED TO CUT BELT HOLE BUT KNIFE WENT TOO DEEP

ST. CATHARINES, Ont. Oct. 9.—Walter Liddyard, a chauffeur, is in hospital here with a knift wound that may prove fatal. He said that he had accidentally cut himself while making a fresh hole in his belt. The wound penetrated the abdominal cavity, and an operation was performed in an effort to save Liddyard's life.

All of us think we are superior in this and that, but the unmistakable superiority arises from the knowlege of a Fact others do not know.

CHECK SUGAR DUMPING.

(Canadian Press).

OTTAWA, Oct. 9.—The dumping of U. S. sugar in Canada is checked.

THE snug fit, the fine even knit, the soft material, distinguishes it as a Mercury garment.

First quality materials and careful making combine a principle that goes into all Underwear bearing the Mercury trade mark.

Mercury Underwear for women is made in all the popular textures for light or heavier wear.

Dainty trimmings add a touch of charm to the finer Mercury lines.

THE PILOT.

Have I not heard the Saviour's voice,
And hearing it my Soul rejoiced,
When all within was raging wild,
And I was weeping as a child,
Weeping for fear of coming ill,
When I heard a whisper, "Peace be still."

Let not your heart be troubled so,
For ye believe in God I know,
Believe then also child, in Me,
This trust shall calm your troubled sea;
And when your little life is done,
It's here with me that thou shalt come.

Then all at once a calm ensued,
And I my quiet way pursued,
I'll safely reach the other side,
My Pilot is here by my side;
And while the wind and waves may come,
I know He'll pilot me safe home.

Dr. Henderson's Herb Tablets

Assists Nature.

No medicine will effect a permanent cure of any disease, unless that cure is made by aiding nature to perform its functions regularly and properly. Dr. Henderson's Herb Tablets is truly nature's remedy. It works hand in hand with nature in restoring the diseased organs to their natural condition and then keeping them regulated until they are able to take care of themselves. It is not remarkable, therefore, that the most troublesome diseases yield to the powerful influence exerted over the various organs by this most potent of all remedial agencies. Dr. Henderson's Herb Tablets does not "build up the system," but it gives nature a chance to perform that work as it should be done.

Dr. Henderson's Herb Tablets are put up in three sizes—25c., 50c., $1.00 per box— for sale at Warne's Drug Store, Peterborough.

THE HENDERSON HERB CO., TORONTO, ONT.

Jam Started as Medicine.

Jam in its early days seems to have been regarded as possessing medicinal properties. Gait in "Annals of the Parish" notes "a new luxury that got in among the commonalty about 1760. By our young men that were sailors going to Jamaica and the West Indies heaps of sugar and coffee beans were brought home, while many, among the cabbages in their yards, had planted berry bushes, which two things happening together the fashions of making jam and jelly came to be introduced into the village. It was found that jelly was an excellent medicine for a sore throat and jam a remedy as good as London candy for a cough or a cold or a shortness of breath." Did it ever occur to you that "jam" was abbreviated from Jamaica?

When Hubby Fooled Her.

Mrs. Scatterbrain was constantly bemoaning her lot. Her husband, who was entitled to place half the letters of the alphabet after his name, had the most treacherous memory in the world. He could remember nothing his wife told him, in spite of bits of string around his finger and knots in his handkerchief. Only once did Mr. Scatterbrain remember to do his wife's bidding.

Said a friend to Mrs. Scatterbrain:

"I think you are getting as bad as your hubby. I got a note from you yesterday dated a whole week ahead."

"Heavens!" gasped Mrs. Scatterbrain, trembling with the shock. "My husband must have posted it the very day I gave it to him!"

Cold Rice.

Cold rice should never be thrown away—even the smallest quantity can be used. It can be added to any soup. A good omelet can be made from a mixture of minced meat and rice added to the eggs. It can be used in a dessert in the form of a plain rice pudding or a rice custard. Left over meat can be chopped and mixed with cold rice, then moistened with gravy and put in a baking dish. Cover with breadcrumbs and bake.

Beyond Repair.

"What happened to you down the road?"

"I ruined a tire on a nonrefillable bottle."

"One of those bottles with a patent stopper?"

"No; just the ordinary kind, broken into about fifty pieces."

A Long Reach.

"I thought I put that vase out of baby's reach."

"Well, he yelled for it," explained dad. "What his arms won't reach his lungs will."

A Time Killer.

"I've got an hour or two to kill. I wish I knew what to do."

"Just go over and ask Brown how the new baby is getting along."

Hurt not others with that which pains yourself.

Still a Place for the Good Horse.

Horses have not been meeting a keen demand in Canada since the war broke out and have increased about 850,000 since 1914. However, a real good heavy draft horse is hard to find, and if Old Country markets are any criterion of the trend of affairs an awakening in the Canadian Draft Horse market should soon follow. Draft geldings are selling in England for from $300 to $500 and even up to $1,000 each. A returned officer told me recently of seeing a number of Canadian geldings (artillery and transport horses) sold in Old London for £100. ($500) each. About one-fifth of Great Britain's ordinary supply of work horses went to the war and a number of useful brood mares were also taken. France, Belgium, Russia and Germany, four of the great horse-producing countries, have lost a heavy percentage of their horse stock during the war. Already a shipment of Percherons has gone from Western Canada to France, and it would seem that during the period of reconstruction our horse market will be East and not West. It will pay to breed any horse on the Canadian farm the heavy draft of good quality should turn in most money to his owner.

Word From Br'er Williams.

Don't be in a burry fer de long lane ter turn, fer de lion what's waitin' whar de turn is may be mighty hongry!

Every shadow points to the sun, and sorrow helps us to appreciate happiness.

Home Face Peeling Becomes Popular

No complexion treatment yet discovered seems to have become so generally and so immediately popular as the mercolizel wax process. Evidently the reason is that this method actually gets rid of a bad complexion, which can hardly be said of any other. To temporarily hide or bleach the defective skin with cosmetics cannot compare with the effect of literally removing the skin itself. Mercolized wax takes off the offending surface skin in flour-like particles, a little at a time, until there's none of it left. The new complexion thus produced exhibits a healthy glow and girlish beauty obtainable in no other way. This wax, which you can get at your druggist's, is applied at night in the same way you use cold cream, and washed off next morning

Here is one thing that actually does remove wrinkles, and remove them quickly: Powdered saxolite, one ounce, dissolved in one-half pint witch hazel. Use as a face wash.

Big Profits in Rubber

Safety and income are the two primary considerations in choosing an investment.

The Rubber Industry is one of the most profitable enterprises in Canada. Operations for 1919 show average profits from 28 per cent. to 30 per cent.

The Rubber Co. of Canada, Limited, in their issue of 8 per cent. Cumulative and Participating Preferred Shares—carrying a bonus of 25 per cent. in Common Shares—offer you an opportunity in participating in these profits.

BUILDING AN ICEHOUSE

Good Type for Use on the Average Farm.

Every Milk Producer Should Have One—The Work and Cost of Erection Light Compared With the Benefits.

(Contributed by Ontario Department of Agriculture, Toronto.)

EVERY Ontario farmer who produces Milk,—and most of the farmers do,—should store a quantity of ice each winter in order to make it easier for him to cool the milk down after the evening milking, and to keep it sweet for such short periods,—week-ends for example,—as he may be required to keep it before delivering it at the cheese factory or other point of disposal. In order to preserve the ice satisfactorily some form of ice-house or shelter is necessary. The purpose of this article is to describe in a few words a type of ice-house which will give good satisfaction.

The ice-house does not necessarily have to be expensive, but certain conditions in regard to it must obtain if the ice is to keep well. These I shall emphasize first and they are,—protection of ice from sun's rays, this is the wall, good drainage from the bottom of the house, either natural or artificial, free circulation of air through the top, air-tight foundation, plenty of good quality of dry sawdust on all sides of the mass of ice, and close packing of the ice. If these conditions can be secured in a rough bin built under a shed, or a lean-to on the shady side of a building, all well and good unless one has other good reasons for building a more expensive structure elsewhere. The matter of convenience is often a deciding factor in this case, and the type of ice-house I am about to describe is a good illustration of this fact. Only once have I seen it in use, but there is no reason why it could not be used quite generally.

This particular type consists of a lean-to structure of wood at one end of the barn which has the stable underneath. The size would vary with the amount of ice required, but probably a building 15 feet square and 12 feet high would be large enough for most farmers' needs. In this structure and at the side adjacent to the barn, or rather the basement wall, is built a concrete enclosure about 6 feet square and 5 or 6½ feet high. A door in the basement wall admits one to it. In the side opposite to the doorway there is a row of 3 or 4-inch tile near the bottom for letting in the cold air from the ice which is packed closely to the concrete storage on all three sides and over the top as well. Between the top of the storage and the barn there is a narrow passage-way or flue for allowing the foul or used air to get out, hence good circulation in the storage is provided for. In this particular case the farmer has his milkroom containing cream separator, etc., adjoining this storage and whenever he wishes to cool milk or cream or store it he puts it in this storage. Other articles, such as butter and meat, are also stored at times but of course only for a few days at a time. Hence much handling of ice is saved as well as considerable time. The building is made of wood, the studding being boarded on both sides. It would be advisable to fill the space between the two boardings with planer shavings or good quality sawdust. The roof is covered with shingles. The gables are left somewhat open for ventilation. Plenty of sawdust is used around the ice next to the walls, and also a good depth over the top, none however is used between the cakes of ice. If a few cakes of ice are required for household use they may be easily taken out of the sawdust in the top of ice-house or at one side if more convenient.

It will be seen, therefore, that this type of ice-house does double duty in a degree, namely, providing a small ice-cold storage room, cooled by the ice mass directly, in addition to housing ice for various incidental uses in the summer-time. In a case of this kind there would not be much need for taking out ice except for supplying the household refrigerator as the storage-room would take care of the ordinary cooling and preserving of products.

Believing this arrangement to be valuable, and in many cases practicable on Ontario farms, I have much pleasure in recommending it to farmers in general.—R. R. Graham, O. A. College, Guelph.

Yours to Enjoy!

Mayonnaise

3 tablespoonfuls Borden's Evaporated Milk, undiluted; ½ teaspoonful salt; ¼ teaspoonful pepper; ½ teaspoonful mustard; 2 tablespoonfuls sharp vinegar; ¾ cupful salad oil—any kind. Combine the seasonings, add the milk, and gradually beat in the oil with an egg beater. Then whip in the vinegar. Use as any Mayonnaise. Transfer to covered jar, keeps well in a cool place.

Orange Cream Sherbet

1 cupful Borden's Evaporated Milk; 3 cupfuls water; 1¼ cupfuls sugar; ¼ cupful lemon juice; ½ cupful orange juice. Boil the sugar and water together for five minutes. Chill and add the fruit juices. Freeze slightly in three parts ice to one part salt, then add the evaporated milk and finish freezing.

One Egg Cake

¼ cup Borden's diluted with ¼ cup cold water; ¼ cup vegetable cooking oil; ⅔ cup sugar; 1 egg; ½ teaspoon salt; 1½ teaspoons baking powder; 1 cup barley flour; ½ cup cornstarch; ½ teaspoon vanilla; ½ teaspoon lemon extract. Beat egg light and cream with sugar, salt and flavorings. Combine milk diluted, with cooking oil. Sift dry ingredients together and add alternately to first mixture with the milk. Beat thoroughly, turn into lined, medium-sized pan, sprinkle nut meats, chopped raisins or cocoanut over top. Bake in moderate oven.

Many other equally good recipes are in the Borden Recipe Book, all simple and economical to make. You'll be delighted with the convenience of cooking and baking the Borden way.

Your recipe book is waiting for you.

SATURDAY, OTOBER 9TH, 1920.

IMPROVE THE SILOS.

The recommendation of Deputy Fire Marshal Bishop after investigating the terrible fire in Ennismore on Monday in which two lives were lost, that silos be built with a ladder running up the inside and down the outside is one that should receive the serious consideration of the authorities. Constructed as many of them are the average silo is a fire trap, and some better means of egress in the case of a fire such as last Monday's would seem to be a necessity. The men who were trapped in the Ennismore blaze had little chance for their lives, whereas had the silo been equipped with a ladder such as suggested they would have undoubtedly been able to make their escape. Fire Marshal Bishop's recommendation should be acted upon. It might avert a repetition of the tragedy which has shocked the whole community.

THE AVERAGE HARD WORKER.

An exchange wants to know what has become of the old-fashioned man who had to work hard for a living.

Nothing has hapened to him, points out the Toronto Star, except that he doesn't get mentioned in print as often as formerly. He works as hard as ever and comes as near as before to making a ogod living, without quite doing it.

After consulting with two or three hard workers an enquirer assures us that the average hard worker is better off than he was twenty years ago in this respect, that he has accumulated more "portable property" in the way of home furnishings and things like that, but is otherwise where he was twenty years ago. His life-long condition is to owe accounts here and there amounting to about three weeks' pay not yet earned. Life for him is a race, and his debts having got that start on him, he never catches up until after the funeral, his life insurance comes along, squares everything, and shows that he was a winner.

ARCHDDEACON DAVIDSON.

The banquet tendered Ven. Archdeacon Davidson last night was a fitting tribute to a citizen who in his many years in Peterborough has done much for this city. Archdeacon Davidson has always worked for the betterment of Peterborough. Aside altogether from his church work— and what he has done there is a well known story—he has ever and always placed himself at the service of any movement that had as its object the advancement of the city or its people. No citizen has had a more steadfast faith in the possibilities of Peterborough than last night's guest of honor, and no city has had a more faithful advocate than Peterborough has had in Archdeacon Davidson, who has never failed to raise his voice in tribute to his home city wherever he has been. The speeches that were made last night by representative citizens were impressive because they were sincere and the whole affair was a merited compliment to one who has earned much of his fellow citizens.

THE ONLY SOLUTION.

The proposal to inaugurate a fair rental court in Ontario, as might be expected, finds little favour in the eyes of the Financial Post, which doubts the wisdom of the move, contending that the only real remedy for the high rent situation is the building of more houses. With the later statement little fault is to be found. Undoubtedly there is no other way out of the present carnival of high rents but through the resumption on a large scale of building activity. But there are many people who believe that the establishment of a Fair Rentals Court would have a very beneficial effect and that at least there could be no har mcaused by a trial of the experiment.

"The problem of high rentals and the housing shortage is being put up to the Drury government in Ontario," says the Post. "It is a difficult and complex question, and it is not simplified by the fact that Mayor Church, who can always be expected to play to the gallery, with the Toronto Telegram as a press agent, is behind the move. Whether Mayor Tom would take more satisfaction in doing something to relieve the situation or something to embarrass the U.F. O Government is a question which the reader can answer for himself.

"The cry against the so-called "rent profiteer" grows in insistence and volume largely because of the increasing number of tenants who are becoming dissatisfied with the situation. But what means, legislative or otherwise, are we to decide who is a "profiteer" and who is not? Any reduction of rentals by regulation promises only a temporary solution of the problem for a fortunate few. The only permanent way of meeting the situation is by increasing the number of dwelling—by the building of more houses and apartments.

Paternal housing schemes have failed. Such efforts and the general attitude towards the property owner have aggravated the situation by discouraging the private investor from venturing into house building activities. If the present agitation merely results in further frightening the private capitalist and thereby delaying construction activities, the position of the average tenant will ultimately be worse and not better.

"Growing towns and cities have their periods of housing shortage. They also have their periods of high and low rentals. One condition is the logical consequence of the other. The war has brought about an unusual situation owing to the lack of construction over a period of years. The remedy is in renewed building activity on a larger scale. Will that activity be resumed if house builders are to be legislated out of a profitable return on their investment?

PRICES AND WAGES.

There is at last a well-defined movement for reduction of prices in many commodities. Henry Ford's substantial reduction in the price of motor cars has been followed by smilar reductions in the case of most other makers. Although the use of the motor cars is rapidly extending they can hardly yet be important to the mass of the people. To the great majority the question of the price of automobiles is of no consequence. Nevertheless, Mr. Ford's step is having considerable bearing on the price of things in which the mass are more interested. It is a recognition, by one of the greatest manufacturers of the day, that the period of inflation is at an end and that from this time forward there must be a movement, perhaps not rapid, but unmistakeable, toards something like normal conditions. Hence the price cutting is extending to fields far removed from the garage. The consumer may find less evidence of the reduction than he desires, for it often happens that reductions which are easily apparent in the higher fields of business are slow in getting down to the retail shop in which the householder's transactions occur. Reasons—some of them good reasons—can be given for this slowness of the process which is to reduce the much complained of high cost of living. The retailer who purchased his stock when prices were high will naturally desire to sell at corresponding prices. But these are temporary conditions. The price-cutting movement in many commodities is distinctly seen and it will ere long get down to the ordinary consumer.

There is one commodity however—one that is a commodity and something more—in which there is no reduction movement, one as respect which the parties most concerned are resolved that there shall be no reduction. We refer to labor.

War-time conditions advanced nearly all forms of labor, manual labor especially, to prices previously unknown. Never before did those who are commonly spoken of as "the working classes" receive such high wages as during the past three or four years. Whether, in view of the high cost of living, the workers at the higher wages were any better off than in former times is a question much debated. Workers who had but little responsibility of a financial character have had an opportunity to lay up some money against the rainy day. Those who had families, to maintain have found the sources of supply in the form of wages no more than equal to the demands of the household. Any suggestion of wage reduction will naturally be unwelcome. Some of the leaders of organized labor have already gone on record against any reduction of wages. Organized labor will strenuously resist any such movement and the resistance is not unlikely to lead to friction between the employer and the employee.

Wage reduction is not desirable, but can it be avoided? There is no probability of any return in the early future to the low schedule of wages of bygone years. Nobody will expect or desire a return of the days when a dollar was deemed a sufficient wage for the ordinary laboring man. Time has brought about a higher standard of living and the workers will properly desire to maintain it. But will it be reasonable to expect that common labor can continue to comand $3.50 and $4 per day and skilled labor the wages of to-day? Labor forms a large part of the cost of commodities. How that cost can be materially reduced without any reduction in the price of labor is not easily seen. If Mr. Gompers and those who agree with him that there must be no wage reduction can show how wages can be kept up and the costs of commodities down, they will render a very valuable service.—Journal of Commerce.

A Sure Increase

IN THE MORNING.

A moment in the morning ere
The cares of life begin,
Ere the heart's wide door is open,
For the world to enter in,
Ah, then alone with Jesus in
The silence of the morn,
In heavenly sweet communion
Let your duty day be born,
In the quietude that blesses with a prelude of repose,
Let your soul be soothed and softened,
As the dew revives the rose.

A moment in the morning,
Take your Bible in your hand,
And catch a glimpse of glory
From the peaceful promised land,
It will linger still before you
When you seek the busy mart,
And like flowers of hope will blossom
Into beauty in your heart.
The precious words like jewels will glisten all the day
With a rare effulgent glory
That will brighten all the way.

COAL CONDITIONS CHANGE.

PORT HOPE, Oct. 9.— Cobourg was boasting a few weeks ago that there was no shortage of coal down there. Things have evidently changed in the past few weeks. A resident of the eastern town drove up here yesterday and purchased a ton stating that there was not a pound of coal in Cobourg.

WIRING A TWELVE INCH GUN.

It Takes 117 Miles of Steel Tape to Make the Jacket.

According to the Milligate Monthly no fewer than 117 miles of steel wire are wound on a twelve inch gun that weighs thirteen and a half tons. In appearance this wire, which is of the same quality as piano wire, resembles tape. It is a quarter of an inch wide and a tenth of an inch thick. It is tested to a breaking strength of 110 tons. The wire unwinds from a reel as the gun barrel revolves, and a tension of about fifty tons to the square inch insures mechanical accuracy in wrapping it round the gun.

Various parts of the gun receive different thicknesses of wire. At the breech of a twelve inch gun, where the chief strain comes, there are ninety-two layers, which give a thickness of nine and a half inches of wire, but at the muzzle there are only fourteen layers. Over the wire the gunmakers shrink on steel rings at white heat. When they cool they contract and grip with immense force. The rifling of the barrel is an automatic process, an example of wonderful mechanical ingenuity. When the gun is finished experts test the accuracy of the rifling with plastic guttapercha.

Out of His Class.

"I hear your new son-in-law has brain fever," said the curious man.

"Brain fever, did you say?" chuckled the father-in-law. "The poor booby couldn't have any such sickness. Imagine a jellyfish having a backache."—Puck.

His Decision.

"I have been in your train a long time now."

"I can't marry you," said the girl.

"All right. Here's where I change cars then."

What Started the Jar.

Wife—I wonder how you can look me in the face. Husband—Oh, a man can get used to anything

SCHOOLGIRLS AS HEROINES.

Apparently They Are Considered Only by American Authors.

Scott never mentions a schoolgirl, says H. D. Sedgwick in the Atlantic. Imagine Thomas Hardy fashioning a schoolgirl out of Wessex clay or George Meredith venturing to describe Diana of the Crossways in those early years. Arnold Bennett would have created a little miniature old wife, as Van Eyck and Memling paint babies like miniature old men. H. G. Wells would depict her as incipient temptation to lead Mr. Britling, for instance, into one of a dozen romantic adventures.

Galsworthy would try to fit her into an ethical system, into a niche of social justice or matrimonial ventures. Mr. Howells, one may imagine, might have essayed the task, but he would have tried to meet the difficulty of getting the right values—as a painter dabs blues on yellows to make a green—by adding to a primness reminiscent of the "Vicar of Wakefield," a few delicate hoydenish touches.

As there is no such thing as a schoolgirl on the continent, French and Italian novelists do not mention her. Indeed, the schoolgirl, as we see her, is an American product and modern.

No Wonder He Wouldn't Sell.

Captain Amundsen told an amusing story of one of his arctic expeditions. Several of his dogs having died, Captain Amundsen asked one of the natives in his best Eskimo if he would sell him a few dogs. To his surprise the request was promptly refused. The explorer and the Eskimo had a long argument, the explorer pointing out that he must get dogs somehow and the Eskimo replying that they never sold them.

"Nonsense!" Captain Amundsen exclaimed. "I have often bought dogs."

The Eskimos seemed immensely astonished, and at the end of another argument Captain Amundsen discovered that instead of using the Eskimo word for "dogs" he had been asking the man to sell him some "children."

Fit and Ready for the Day's Work

ONLY a few seconds saved, perhaps, but they are precious seconds in the early morning when a Kitchen work shirt may be slipped on like a coat without "getting a man's goat" as with a closed front garment.

KITCHEN'S "Railroad Signal" OVERALLS and WORK SHIRTS

are not only convenient to wear, but they fit as well as any garments could and are durable to the last button. Wearing quality in material, seams and buttons are the first essentials in Kitchen shirts and overalls.

At the same time the cut is neat, as correctly measured as a tailored suit or shirt. The legs are roomy, the armpits are designed for comfort and the pockets are convenient. The last word in work garments. Say "Kitchen's" when you buy.

What Can Be Done In One Day.

"Every day is such a usual occurrence that its true significance does not come home to us," says a writer in the Woman's Home Companion: "We get so used to our days that we are blind to their universal possibilities.

"In the beginning one-sixth of the whole world was made in a day, yet how many of us feel that we can do one-sixth, or even one-hundredth, of all the things we ought to do in one day?

"Within one day the battle of Waterloo and the battle of the Marne were won. How about all the days between? A man can change the fortune of his entire life in a day."

Loafing on the Job.

Mrs. Woman, are you married? If you are we wish you all of the happiness and the best of blessings a generous world can give you. But let us ask a bold question and probably offend you. We do not mean to be impolite. It is just the perversity of human nature to want to know if you married a lazy man—a man who talks in a loud voice about his back yard garden and lets his wife do all the work.

Catarrh Will Go

Help Comes in Two Minutes—Complete Relief in a Few Weeks

Don't go on hawking yourself sick every morning; it's cruel, it's harmful and it's unnecessary.

If after breathing Hyomei, the wonder-worker, you are not rid of vile catarrh you can have your money back.

No stomach dosing—just take the little hard rubber pocket inhaler that comes with each outfit, and pour into it a few drops of Hyomei Breathe it according to directions. In two minutes it will relieve you of that stuffed up feeling. Use it daily and in a few weeks you should be entirely free from catarrh.

Breathing Hyomei is a very pleasant and certain way to kill catarrh germs.

Get a Hyomei outfit to-day. It's sold by druggist everywhere with guarantee to quickly and safely end catarrh, croup, coughs, colds, sore throat and bronchitis or money back; it's inexpensive. Or by mail $1.35 for complete outfit; 75 cents for extra bottle liquid. Booth's Hyomei Co., Listowell, Ont.

MI-O-NA

Ends Indigestion

It relieves stomach misery, sour stomach, belching and all stomach disease or money back. Large box of tablets 75 cents. Druggists in all towns.

Try Gallagher's Blood Purifier for Constipation or Indigestion

For sale by all our City Druggists, and one or more Stores in your Town. Price—75c.

LOW BLOOD PRESSURE.

First Aid to Those Suffering From Hemorrhage or Shock.

One hears a great deal about the danger of high blood pressure, but not much about the danger of too low a pressure. Yet the latter may be very swiftly fatal. It results often from shock, as well as from severe loss of blood. But there is a very simple means of giving temporary relief, which every one should know, since such knowledge might often be the means of saving life.

A diastolic pressure of fifty millimeters is critical, for the blood tends to accumulate in the abdomen, but death may be avoided if immediate means be taken to raise the arterial pressure. A late number of La Revue gives the following directions:

"The wounded person in whom arterial pressure is low should be placed immediately on an operating table heated by electricity, with his feet elevated for an hour or more some thirty millimeters (about one and one-quarter inches) higher than his head. If the diastolic pressure remains below eighty millimeters an injection of isotonic serum should be made and if necessary repeated. If the pressure does not remain sufficiently high after the second injection another injection is made of adrenalin into a vein, preferably a vein near the heel."

It will be noted that the first part of these directions can be carried out by any one—namely, the application of warmth and the raising of the patient's heels higher than his head. This is so important and so efficacious that the famous French physician and research scientist, Dr. Charles Richet, has made it a practice in his lectures to students to give them the striking object lesson of a dog which had been bled almost to the point of exhaustion, so that death was imminent, being instantly revived by this simple expedient of changing its position. When he was apparently dead while the head remained higher than the extremities, as soon as the head was lowered the waning life returned.

First aid to the injured, therefore, suffering from hemorrhage or shock is to place the victim on a mattress or bench and raise the feet slightly higher than the head.—Review of Reviews.

Sovereigns in Bolivia.

Bolivia has a strange connection with Great Britain in the fact that the English sovereign is the standard gold coin. This is minted from local gold at the capital of the country, La Paz, along with the Peruvian half sovereign, which also is legal tender. Although Bolivia is as yet quite a "new" country and has not had time to adopt a coinage of her own, she has found an opportunity of establishing state monopolies on alcohol, spirituous liquors and tobacco, rendering the prohibition of them at any time an easy matter.—London Chronicle.

SHAPE OF THE HAND.

The Reason Our Fingers Are Not All of the Same Length.

There is no known reason why our fingers should be of different lengths today. In fact it is thought by some people that the hand would be stronger if the fingers were all of the same length, says the Book of Wonders. Certainly, however, the hands would not then be so beautiful and might not be so useful.

The human hand today is perhaps the most versatile thing in the world. You can do more things with the hand than with any other thing in the world. The probability is that the shape of the hand today and the length of the fingers are the result of the different things the human being has called upon the hand to do during man's development up to the present time.

We must go back to the time, however, when man walked on fours, for that is probably the real explanation. Originally man's fingers were of different lengths because all four footed animals had the same peculiarities. The shape and length of the toes and their arrangement were the ideal arrangement for giving the proper balance and support to the body and in moving about and in climbing produced the best toe hold.

A Pie Without Flour or Lard.

Two and one-half cupfuls cold boiled rice, one-half cupful sugar, one-half cupful milk, one egg, one teaspoonful butter, a pinch of salt, grated nutmeg or flavoring to taste, fruit. Brush a pie plate with butter and spread the rice even on the plate. Beat half the sugar, the egg, milk, salt and flavoring together and pour over the rice. Cover top with halves of canned peaches or stewed dried peaches and sprinkle the rest of sugar over the fruit. Put in moderate oven and bake thirty-five minutes.

Any fruit can be used, either fresh, canned or dried stewed fruit.—Mrs. Anna B. Scott in Philadelphia North American.

FREQUENT HEADACHES A DANGER SIGNAL

THE VICTIM NEARLY ALWAYS SUFFERS FROM WEAK, WATERY BLOOD.

There are few ailments that cause more genuine misery than nervous or sick headaches. Only those who have endured the suffering, sometimes for days at a stretch, can realize the agony of the victims. Noises increase the pain; food is unthought of, for it only adds to the distress. When the attack is on there is little to be done until it passes away. These headaches are nearly always a danger signal that too frequently pass unheeded. They are the symptoms of many maladies, such as anaemia, constipation, indiegstion, etc., and when these are cured the headaches permanently disappear. Headaches are more often a sign of weak, watery blood than anything else, and the most successful treatment, therefore, is a remedy that will rebuild the blood and make it rich and red. This can best be done through a fair course of Dr. Williams' Pink Pills, which has a special action on the blood and through the blood on the nerves. In this way Dr. Williams' Pink Pills have been found invaluable in a wide range of diseases due to poor, watery blood such as anaemia, rehumatism, indigestion, after effects of influenza, neuralgia, etc. The effectiveness of this tonic treatment is illustrated in the following case: Mrs. Geo. Arn, R.R. No. 6, Simcoe, Ont., says:—"Some years ago my daughter, then a young girl of eleven, became very much run down and nervous. She was troubled greatly with sick headaches, and frequently with vomiting spells, and although we lived just across the road from the school, she was not able to attend. She was taking medicine all this time, but it did not seem to do her any good. I had often read of Dr. Williams' Pink Pills, and finally decided to give them to her. By the time she had taken two boxes she seemed much better and before the fifth box was finished she was again in the best of health and has always since enjoyed the best of health. I am satisfied it was Dr. Williams' Pink Pills that restored her, and I have since seen equally good results in other cases."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Didn't Do It.

Flatbush—He's always knocking the married men.

Bensonhurst—Yes, I know it.

"Only a few years ago he told me he was just crazy to get married."

"That's right, but it seems he wasn't quite crazy enough."

Caught In His Trap.

"I am in an embarrassing situation," declared Judge Hubdub, former member of congress.

"How is that, judge?"

"Here I am called upon to try to make sense out of a law that I framed myself."

Musical Note.

Mrs. Jones—Does my daughter's piano practicing annoy your husband? Neighbor—Oh, not at all: Jack can't tell one note from another.

The employee who has a horror of working overtime will never own the business.

SAVE WINTER FODDERS

By Putting the Grain-Grinder and Cutting-Box in Shape.

It Pays in Time and Money to Overhaul Farm Machinery—Hints on Knife Adjustment—How to Estimate the Speed of Pulleys.

(Contributed by Ontario Department of Agriculture, Toronto.)

TIME in farm work will be saved by systematically overhauling the implements and machinery. This should be done after the season's work is over. Use tends to disorganize machinery: the fixed parts become loose through vibration, wear, stress, and strain; bearings, gears, joints, all bright and moving parts are attacked by rust, particularly if left out in the weather; oil holes and grease cups become clogged with gummed oil, dust and trash. All this accumulated matter should be scraped off and the parts wiped down with a rag saturated with kerozene; afterward covered with a coating of grease or oil as a protective measure against the devasting action of rust. To render efficient service and to prevent possible accidents these machines should be kept clean, properly adjusted, and run at correct speed.

The grain grinder shaft and bearings should not be allowed to become gummed up with oil and dust: the burrs or plates should be renewed when worn. In replacing them see that they are attached so that they do not wobble, and that the sieves are free from rust, chaff, sand and gritty matter. All running parts should be kept well oiled.

Every working mechanism of the cutting box should be carefully examined and all trash and gummed oil removed from flywheel shaft, feed rolls, bearings and gears; guards and shields placed in position and securely fixed; the feed rolls should move freely up and down and the safety devices in working order. Attend to the cutter knives, have them properly ground and correctly adjusted to the flywheel in relation to the cutter bar; if too far the fodder will not be properly cut; if too close to the cutter bar the draft of the machine is increased, the knives acting as a brake on the flywheel, dulling both knives and cutter bar. Used with a blower it is important that the proper speed be developed as the fan can only create sufficient blast by running fast enough to force air through the pipe at a rate of 9 to 10 thousand feet per minute. Speed is an important factor in operating these machines for efficient service, not only as to the amount done, but also as to the quality, or the amount of work accomplished, but most manufacturers state in their catalogues the speed at which the machine should travel. The operator should figure out the size of the pulley to attain the speed required.

The rule for speeds of pulleys is the diameter of the "driving" pulley multiplied by its speed is equal to the diameter of the "driven" multiplied by its speed: or D x R = d x r in which "D" is the diameter of the driving pulley multiplied by "R" its speed, and "d" the diameter of the driven pulley multiplied by "r" its speed. If we know three of these items we can easily figure out the fourth.

The driving pulley is the one that causes the belt to move.

The driven pulley is the one that is moved by the belt.

Possibly a farmer may have on hand an engine rated 2 h.p., speed 400 revolutions per minute with an 8-inch pulley. He buys a grinder without considering what relation its speed bears to that of his engine. When the grinder is hitched up to the engine it does not deliver the capacity expected of it. This promiscuous buying and want of forethough in purchasing machinery is responsible for a great deal of trouble and dissatisfaction. More attention should be given in this regard when buying additional machinery for the farm. We'll suppose that the grinder bought is rated 2,000 to 2,500 R.P.M., 4 inch or 5 inch pulley; capacity per hour 3 to 10 bushels depending on the condition of the grain.

Relating this grinder to the engine, we find, taking the above formula that

$$B8 \times R\ 400 = d4 \times r = \frac{8 \times 400}{4} = 800$$

R.P.M., but the manufacturer's rating calls for 2,000 to 2,500 R.P.M. Hence the grinder is delivering only two-fifths of its rated capacity or something like 1 1-5th bushels per hour. To get the required speed the driving pulley on the engine should be 20 inches in diameter, worked out as follows:

$$D \times R\ 400 = d4 \times r2000 = \frac{4 \times 8}{400} = 20''$$ pulley.

or the speed of the engine with an 8-inch pulley should be 1,000 R.P.M. worked out thus

$$D8 \times R = d4 \times r2000 = \frac{4 \times 1000}{8/2} = 1000$$ R.P.M.

This method applies also to finding the speed and size of pulleys of the cutting box.—Prof. Jno. Evans, O. A. College, Guelph

Something About Egg Circles.

There are about fifty Egg Circles in the province, ranging in membership all the way from four to 400. The story of all these egg circles and others which have failed would give an almost complete picture of how co-operation should, or should not, be carried on. In reading over the names where the circles are established, we find many of them whose previous market was the small-town local dealer, with his uneconomic method of marketing eggs. Such circles are now receiving, in spite of their distance from the central market, wholesale prices while unorganized points nearer often receive lower prices.

Wild Pigeons.

Until little more than fifty years ago the most abundant bird in North America was the wild pigeon (Ectopistes migratorius). It moved in immense flocks calculated not by thousands, but by millions, and it is not known today if a single pair of this native American bird is alive.

HERE are four of the very latest dance numbers and two of the newest and most popular vocal successes just released on three special

BENEFIT CONCERT WAS BIG SUCCESS

INTERESTING PROGRAMME WAS PROVIDED,

Last evening a successful benefit concert was held in Victoria Hall, under the auspices of Peterborough District L.O.L., on behalf of Miss Elsie Brown. The programme follows:

Chairman's address.
Piano (instrumental) by Miss Gwendolyn Donnelley.
Song—Miss Dorris Donnelley.
9 Point 2—Boys' Comedy Sketch. 1st Act—The Muddy Departure. 2nd Act—The French Estaniment is the Place for Me.
Comic song—Mr. Ketcheson.
Comic song—Mr. McKinley.
Song—Miss Dorris Donnelley.
Nathional Anthem.
Violin selection by Miss Calder.

All talent was local, and no charge being made for same. The 9 Point 2 sketch was well introduced, along with the balance of the programme.

On behalf of the L.O.L. of Peterborough, through the columns of the Examiner, the talent are to be thanked for their splendid service.

SARNIA COUNCIL ACCEPTS TENDER FOR DEBENTURES.

SARNIA, Oct. 9.—The Finance Committee of the City Council has accepted the bid of the Dominion Securities Corporation for approximately $169,000 worth of city of Sarnia bonds, which were under option to the Brent, Noxon Company, the option being later cancelled. This issue includes the soldiers' civic gratuity debentures. This action, it is expected, will be ratified at the next regular meeting of the council, on Monday night, October 11.

BABIES COPPOLD'S

"After-effects of Measles removed by Virol."

791, Champagneur Avenue,
31st March, 1919. Outremont, Montreal.

Dear Sir,—As it may be a matter of interest to you, I am enclosing a photograph of my two little sons, aged respectively four years and one year and a half, which photo was taken in Montreal in July, 1918.

The photo may be interesting to you in view of the fact that the two boys have taken VIROL continuously from infancy on the advice of our doctor, and they certainly love their "candy in the tin," being the name by which they know the VIROL, and I really feel that their robust health and splendid development is due entirely to the regular use of your preparation.

When the elder boy was three years old he had an attack of measles, the after-effects of which trouble were speedily rectified by the use of VIROL.

I never lose an opportunity of recommending it to my friends.

Yours truly,
Mrs. A. COPPOLD.

Virol is invaluable for the expectant and nursing mother herself, whilst for children it supplies those vital principles that are destroyed in the sterilising of milk; it is also bone and tissue-building food of immense value. Virol babies have firm flesh, strong bones and good colour.

CITIZENS OF PETERBOROUGH TENDER HONOUR TO ARCHDEACON DAVIDSON

BRILLIANT BANQUET FOR RECTOR OF ST. JOHN'S CHURCH, ATTENDED BY REPRESENTATIVES OF ALL COMMUNITY INTERESTS.

Over a hundred of Peterborough's foremost citizens last night assembled at the Empress Hotel to do honor to the Venerable Archdeacon J. C. Davidson, M.A., rector of Peterborough and of St. John's Anglican church, who is leaving this city to serve as Peterborough Diocesan Commissioner for the Anglican Forward Movement, with headquarters in Toronto. The proceedings took the shape of a citizen's banquet, brilliant in its setting and replete with happy after-dinner speeches, clothed at times with wit and humor, in which good-natured badinage played its part. The atmosphere throughout was one of general regret at the Archdeacon's departure from Peterborough after 32 years' service for St. John's church, and fully appreciative of his earnest work here religiously and for community uplift and city advancement. The addresses, each and every one, eulogized the reverend gentleman as a broad-minded, consistent churchman, of religious tolerance, an exemplary and charitable citizen, whose removal means Peterborough's loss and diocesan gain.

The Paul Gliddon orchestral trio acceptably played the company through a delectable six-course dinner, served in mine host Chris. Graham's best style, while between bites, so to speak, the cheerful gathering made the rafters ring again and again with snatches of song—patriotic, sentimental and humorous.

Representative Gathering.

The attendance on this auspicious occasion was thoroughly representative of all city interests—denominational, industrial, medical, legislative, educational, civic, legal, business, trade and commerce—and, in truth, a citizens' function in recognition of the worth of a distinguishred guest. The occasion's outstanding feature was its exemplification of the manner in which Peterborough citizens are drawing together for community weal, irrespective of church, creed or politics, and in a foreshadowing of still greater effort in this direction, fostered in no small measure by the local Ministerial Association.

Perfect Arrangements.

The committee on arrangements were Edgar Worth, chairman, who presided at the banquet in a capable manner, and who is President of the Board of Trade; Alderman J. J. Turner, Alderman Joseph Crowe, Ex-Mayor Joseph J. Duffus, Geo. A. Gillespie, Ex-M.P.P., J. Mendell Greene, of the Board of Education, Francis D. Kerr, Joseph Wearing, Thomas Barrie, G. Stewart Cameron, M.D. And every detail was perfect.

During the evening D. Carlisle was heard to splendid advantage in solo numbers, exceedingly well rendered, and to the always-welcome piano accompaniment of John Crane.

The Address.

Toward the evening's close His Worship Mayor A. A. McIntyre, on behalf of Peterborough's citizens, presented Archdeacon Davidson with an address, testifying to the respect in which its recipient is held by citizens generally, and recognizing his earnest work for community welfare, his services as chaplain in the great war, together with his high standing in this city as clergyman and citizen. All of which was coupled with keen regrets at the rev. gentleman's departure for another field of Christian endeavor.

Apart from its excellently expressed sentiments this address is a splendid sample of pen, book-binding and typographical art, and one reflecting exceeding credit on all responsible for its production. The work is in book form ,the cover being of milk white, padded kid, beautifully embossed in Old Tudor type of pure gold finish. The title lettering reads: "Address to the Venerable Archdeacon J. C. Davidson, M.A., from the citizens of Peterborough, Ontario, on Friday, October Eighth, Nineteen Hundred and Twenty." The use of Tudor type for this work is peculiarly appropriate, it being the oldest English display type made (than which there is none to equal it in modern styles), originally designed for the Royal Tudor House of England, and in this case emblematical of the sterling and loyal British character of the gentleman to whom the address was presented. The penmanship of the address proper is beautifully executed, the work of T. Q. Quartermaine in blue-black ink, and quite as legible as any possible type impression. The interior pages are of expensive white Bristol board, with parallel rule border in gold, the last leaf bears a photographic view of of the Archdeacon himself, while the las leaf bears a photographic view of St. John's church. Protecting the inter leaves of cobweb tissue complete an address which is really one of refined elegance ,and freely commented on last night as the best effort in this direction yet seen here. Binding, typographical work and general arrangement of this handsome address is the Examiner's production.

"Our Guest."

In proposing this toast, Judge E. C. S. Huycke had many kind expressions for Archdeacon Davidson, characterizing him as one of Peterborough's best citizens, whom older residents especially will miss. He paid particular tribute to Mrs. J. C. Davidson as one of the finest and most useful ladies in this community, and referred in warmly appreciative terms to her commendable work with associates in the Red Cross during the world war. He hoped in the near future to see erected here some tangible memorial to this society's great efforts. His Honor admired and honored the Archdeacon for his devotion to the God of his fathers, to his church, to his country as chaplain overseas, and felt sure that in doing so he wos only expresing the respect of representatives from all churches and classes. He eulogized the guest of honor for his extension of sympathetic ministration above, beyond and behind his own church. "He has always," the speaker said, not only been an apostle of the Church of England, but of Christianity in general, his hand at all times outstretched to people and clergy of every church. His gospel has always been one of peace, accomplishing much in the spreading of a spirit of religious tolerance with its broadening influences; and no man has been more loyal to King, church and this city than Archdeacon Davdison, ever hoping and working for better things. The Judge also visualized a new diocese created out of that of Toronto-Peterborough Diocese, with this evening's guest as its first bishop.

Rev. Monsignor W. J. McColl.

Rector of the Roman Catholic Church of the Immaculate Conception, East City, here followed in a happy speech, endorsing the previous speaker's commendation of the Archdeacon's clerical life and citizenship the last thirty years, and appreciating his well known deportment as a man of peace of religious toleration. Reverend McColl's address was replete with humor and whole-hearted amity, together with well-worded congratulations to the occasion's guest on the distinguished gathering assembled in his honor.

History Making.

Rev. J. R. Webb said the function's significance lie in the fact that it was history making. Monsignor McColl, he declared, comes here representing the Roman Catholic Bishop of Peterborough, and his assurance of pleasure at being with us is the pronouncement of the Roman Catholic Head of Peterborough city and diocese, heaping honor on the city's Anglican Archdeacon. This will tend to bring us all—of different faiths—more closely together.

This reverend speaker, pastor of Murray street Baptist church, admired Archdeacon Davidson for his cheerful optimism, his religious conviction ,and he loved him, he said, for that fullest measure of real broad charity reposing within his breast.

"A Jolly Good Fellow."

On rising to respond to the toast, the Archdeacon was acclaimed to the echo as "a jolly good fellow." No words, he asserted, were at his command with which to express his appreciation of and deep gratitude for the tremendous honor showered upon him to-night by civic and community representatives of all creeds and classes. He had great faith in Peterborough's future because its citizens are marching onward in unity for a greater and better Peterborough. The reverend gentleman referred in glowing language to his city's progressive industries and their optimistic publicity ever to the forefront throughout Canada and elsewhere. He spoke of housing needs, and regretted that a big building like the Oriental Hotel (now vacant) with a hundred rooms, could not be utilized as a shelter for some unfortunates these troubled days of housing shortage. The speaker next dropped a suggestion that the armouries, erected at a cost of $250,000, in which there is now no enlisting, might be used for public gatherings, led by public-spirited men, in the interest of community uplift. As to the People's chimes, he reiterated that they were subscribed to by and are for the people generally, and are not the property of St. John's church, where they are hung; he wished a more generous community use made of them by our citizens. The Archdeacon here touched on the influence of the Ministerial Association for moral and social improvement, early closing, Lord's Day observance and purer politics. Thirty-two years ago, he declared, many men had no shame whatever in buying votes nor in being bought; but to-day, due in some extent to this association's influence, one can hardly find a man brazen enough to accept filthy lucre for his ballot. In conclusion the distinguished gentleman thought Peterborough people should congratulate themselves on having a body of clergy who live together in close union and Christian brotherhood, and he hoped Peterboronians would go forward with their manhood fully developed as the Almighty intended it to be developed, loyal supporters of this city, ever advancing as beter men and women in the kingdom of our common father.

A Silent Toast.

Before dispersing the company stood for some minutes, at the request of Archdeacon Davidson, in response to a silent toast to the memory of departed citizens of the past who had been influential in fostering this city's growth and social and commercial weal. In this connection names mentioned included the late Peter Robinson, W. S. Conger, Capt. Rubdige, Senator Cox, Bishop O'Connor, Jas. Stevenson, Judge Weller, Geo. Hilliard, Jno. Carnegie, Henry Denne, Ex-Ald. Harry Phelan and Dr. Halliday.

The toast list commenced with one to the King and concluded by the singing in heart and voice of the National Anthem.

Archdeacon Davidson's family are now resident in Toronto, at 583 Bathurst street. He was the guest of Alderman J. J. Turner over last night.

DR. R. W. BELL A VISITOR IN CITY

FINDS FEWER FAMILIAR FACES EACH TIME HE COMES HERE.

A visitor in the city yesterday was Dr. R. W. Bell, Inspector of the Provincial Board of Health, who practised Medicine in Peterborough for 23 years previous to his official appointment in 1900. It is now three years since Dr. Bell has been in the city, and he states that each time he finds fewer familiar faces. Dr. Bell commented favorably on the improvements effected in Peterborough of late years.

WHY A HEINTZMAN & CO. PIANO?

The question is asked why great artists like Caruso, insist on using the Grand piano, made by Ye Old Firme Heintzman & Co., Limited, George and Hunter streets, Peterborough, in their concert tours in Canada. Caruso, the world's greatest operatic tenor, used one of these pianos in his Toronto and Montreal tour. There is really just one answer, the tone and touch of the Heintzman & Co. piano meets the exacting requirements of the great artists. Tone and touch are the essentials to a high-class piano, and the Heintzman & Co. tone stands out distinctive in the manufacture of every instrument bearing the name of this house.

FRENCH SAVED DAY FOR POLES

RUSSIAN ARMY WAS SUPERIOR AS A FIGHTING MACHINE AND BETTER OFFICERED.

Canadian Press.

POSEN, POLAND, October 8th. — An official of the French military mission in Poland has told the Associated Press correspondent that the Polish army would have been conquered by the Bolshevik armies of Russia if the French had not supported the Poles. This notwithstanding the fact that the Poles beat back the Rusian drive on Warsaw.

The French official based his statement upon his belief that the Russian army was superior to the Polish army as an effective fighting machine, with the exception of the German trained troops of Posen. The Frenchman said he believed that the Russian organization has been, and still is, under estimated and because of this tendency to belittle the Russian armies, the menace to Poland's existence, if not to all Western Europe, remains imminent and real.

Not a Rabble.

The official said that some Russian units were poorl yequipped but it was not true that the army was a "barefoot rabble." He was convinced the majority of the Russian divisions were "well organized units of good-fighting men, much better officered than the Poles." The Poles had 25,000 officers but only 5000 of them ever went to the front although they were sorely needed there, he said. There was evidence that certain Polish companies had fought without officers, he asserted, and that during the retreat these were without commanders.

An American artillery officer, who had spent a year in Russia, and had been under fire at the Polish front, told the corespondent he had seen the Poles "plant their artillery in the most ridiculous places, on the exposed sides of hills, and right in the open, when they could readily have concealed it and made it effective."

Neutral Opinion.

A neutral aviator, who had flown over the front several times when "battles" were said to be in progress, said that what he saw of the fighting was "two armies keeping about three hours apart, the Poles retreating as the Russians advanced, and the Russians running when the Poles turned and advanced." He said that this "schedule sometimes got disarranged and there was a collision between opposing detachments." but he had not witnessed any of these clashes.

French Saved Day.

A number of Polish officers with whom the correspondent talked said they were forced to admit the French saved the day, but the weakness of their officers was explained by the fact that in former years Poles had not been permitted to hold commissions in the army, either in Russian, German, or Austrian Poland, and that the time had been too short to develop a staff of highly trained officers.

There Is Still Good Quality In Cressman Clothing

There Always Has Been and There Always Will Be

in spite of the fact that a high standard is hard to maintain in these times with little good merchandise to be had and the market flooded with inferior grades.

It is quality first and everything else afterwards.

If clothing of the reliable sort is uppermost in your mind, then you should be linked up with the host of satisfied men who patronize The Cressman Clothes Shop.

There is Style in Cressman Clothing too.

Not too much or two little—just enough.

Suits for Slights, Standards and Stouts

A great feature of our Clothing Service is that we pay particular attention to all figures—from the slimest to the stoutest. The materials are gathered from the staple products of Canadian mills, with a sprinkling of better English and Scotch Worsteds and Tweeds. The colours are Fancies, Plain Browns, Greens, and Navys, Shadow and Hairline Stripes, and neat Tartans and Overchecks. In price, we begin where we can supply legitimate merchandise. The models are what the well-dressed men of to-day demand. The prices commence at $30.00, and go slowly upward. Sizes for Stout Men are 40 to 52.

Light Weight Overcoats

No man feels he can buy a Coat recklessly to-day; therefore, when you are ready to get a Coat, it will pay you to investigate our new ones. They are well tailored, and have the 1920 touches. One of these Coats is an exceptionally good investment when Quality and Service is considered.

Some are double-breasted and others have fly fronts; many are form-fitting, and you can have a loose-fitting Wrap or a Chesterfield. The materials are mostly Tweeds and Covert Cloths. Of course, there are others; but those named are the most popular. They are priced from $20.00 to $45.00.

There Is Much That Is New and Dignified in the Way of Hats

Prominent among these is the Borsalino. It has strong, forcible lines that men like. Then there is the "King" and "Wolthausen"—good hats, too, but not so high priced as the Borsalino. We have also a fine assortment of those Tweed Hats that so many men favour. They have a dash and fine appearance all their own.

Felts at $4.50 to $6.00.

Tweeds at $5.00.

Derbies at $5.00 to $7.50.

CONVENTION HALL BURNS.—The hall in which the World's Sunday School Convention was to meet in Tokio, and which was burned the day of the opening of the convention. All the delegates escaped safely.

AWARDED DAMAGES FOR DEATH OF WIFE AFTER LEGAL TANGLE IN APPEAL COURT

VICTOR LEBARR, OF PETERBORO, WINS SUIT AGAINST UNITED STATES GOVERNMENT AS ADMINISTRATOR OF THE RAILWAYS—ACCIDENT HAPPENED MAR. 9TH, 1918.

SETTLEMENT FOR CHILDREN

Substantial damages from the United States Government were recently awarded Victor Lebar of this city by the Appellate Court of Pennsylvania for the death of his wife in a level crossing accident at Hummelstown, near Harrisburg, Pa., on March 9th, 1918. Mrs. Lebar died from injuries and shock when their automobile in which she and her husband were driving with two friends was struck by a Philadelphia and Reading train. One of the strongest points in Mr. Lebar's claim against the railway company was the fact that this crossing was guarded by a watchman who had signalled to the automobile to approach. View of the railway from the highway was shut off in both directions by a deep cut. It was also shown that the guard was considerably over the age limit for employees in that duty. The Philadelphia and Reading Railway Company made a settlement in behalf of Mr. Lebar's two motherless children, and subsequently he entered an action for $50,000 damages because of the negligence of the railway's guard at the crossing.

Twice Appealed.

The court's decision was favourable but the railway appealed, and before the Appellate Court arrived at a decision the Government had taken over the control of all the railways in the United States. A judgment against the Government, followed by an appeal, found two appeals over this case before the Appellate Court, which finally decided that the Government was liable for the award to Mr. Lebar because they had assumed full responsibility of the railways, including the Philadelphia and Reading.

It is understood that the amount of the damages ordered by the court, together with the compensation in the company's previous settlement for the children, is between thirty and thirty-five thousand dollars.

Mr. Lebar was himself injured in the accident that robbed him of his wife and nearly died from pleuro-pneumonia complications. He was confined to bed from March until December of that year.

Mr. Lebar was represented in this action by Paul Kunkel, of Harrisburg, and the railway company in the various stages of the case employed twenty-seven lawyers. Mr. John Corkery, of O'Connell and Corkery, was the local solicitor for Mr. Lebar.

48TH HIGHLANDERS' PIPE BAND COMING TO NORWOOD FAIR

This famous band will play at East Peterboro's big exhibition at Norwood, on Wednesday, October 13th. Don't miss hearing them. Three big speeding events, purses $150, $80 and $50. This will be the grand finals of the season's fastest horses. Auto obstacle race, auto driving contest for ladies, hitching and drawing contests for ladies, boys and girls. Baby show with liberal cash prizes, and a consolation gold pin to every baby entered. Larger grounds, handsome new building for the live stock. Reduced railway fares. Special C.P.R. train going west to Peterboro on Wednesday evening. Mark the date. Plan to attend. 1d

The Best Cough Syrup is Home-made.

Here's an easy way to save $2., and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for $2.50.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

CEMENT POURING ON MAIN ARCH IS NEARLY FINISHED

Cement pouring on the main arch of the Hunter Street Bridge will be finished Saturday, it was learned at the bridge to-day. The engineers are pleased with the brand of weather meted out to them during the progress of the work the last few weeks. The weather has been ideal for construction work, and there has been no delays. The falsework for the ten small spans that top off the main support was under construction to-day, and in a week or so will be completed, ready for pouring.

The falsework for the two uncompleted western arches is under construction. These will be poured when the long span is completed. The hand rail is being put up on the east end of the structure.

An engineer on the work to-day told The Examiner that he believed the bridge would be ready to carry traffic before the first of the year. Any finishing touches could be put on in the spring. Everything, he said, now depends on the weather, which up till now has been all that could be wished for.

SARNIA BUILDERS BUSY.

SARNIA, Oct. 9.—To date 848 permits have been issued this year from the office of Building Inspector Harry Walton, totalling in value $619,797, only $22,159.75 less than for the whole 12 months of last year, when the total was $641,956.75. Despite the approach of cold weather, the dwelling construction continues. Four permits have been granted this month to date for new houses.

Here's Proof That

ZUTOO

Ends Headache

Mr. E. F. Tomkins, Ex-Mayor of Coaticook, Que. proves it.

"Your Tablets are a safe and effective remedy for headache"

Mr. Geo. Legge, Editor of the "Granby Leader-Mail" proves it.

"Your Zutoo Tablets deserve to be widely known as a remedy that will stop headache."

A. C. Hanson, B. A., K. C., Colonel of the Hussars, proves it.

"I use Zutoo Tablets and find them a very satisfactory remedy for Headache."

25 cents per box—at all dealers.

FOR STOMACH TROUBLE

Rinso

Soak the clothes—that's all!

Cold water and a package of Rinso—a few hours' soaking—and the week's washing is done. No need to heat water—Rinso washes as well in cold water as in hot. And because there is no rubbing or boiling, your clothes last longer and are cleaner and more fresh in color than when washed in the old way.

At Night—

Soak the clothes in the rich cleansing Rinso suds.

Morning—

Rinse them out, that's all!

Is this hard to believe? ONE package of Rinso, enough for a week's wash, will prove it.

At your grocer's.

ALGONQUIN PARK

A through sleeping car is now operated between Toronto and Algonquin Park leaving Toronto 8.45 p.m. Tuesday and Fridays, arriving Algonquin Park Station ("The Highland Inn") 11.52 a.m. Wednesdays and Saturdays. Returning this car leaves Algonquin Park Station 3.30 p.m Mondays and Thursdays, arriving Toronto 7.30 a.m. Tuesday and Fridays. This will give those desiring to visit the Park during the fall months comfortable means of transportation to this most delightful region. The "Highland Inn" will be open all winter for the reception of guests. For all information inquire of Grand Trunk Railway System Agents, and for reservations at the "Highland Inn" apply to N. T. Clarke, Manager, "Highland Inn", Algonquin Park Station, Ont. 2d 9 16

ASKS FOR INSURANCE ON MONEY BURNED IN PURSE

BRANTFORD, Ont., Oct. 8.—A woman of this city whose house had been damaged by fire and who had been paid the insurance to which she was entitled, made a further claim on the insurance company for $26, which represented money she had in her purse on the mantel to pay her taxes to the city. The purse was charred through the heat from the fire, but she salvaged $2 of it. She put in a claim for the balance. The claim was forwarded by the local agent the head office.

Yesterday has power over to-day, but to-morrow has a still greater. Imagination controls the world of men more than memory.

COL. LECKIE IN SEAPLANE ON HIS WAY TO OTTAWA

Passed Three Rivers on Trans-Canada Flight.

(Canadian Press)

QUEBEC, Oct. 8.—Seaplane F-3, piloted by Col. Robert Leckie, which arrived at Riviere Du Loup at ten last night, set out early this morning bound on its Trans-Canada flight and passed here at eight thirty this morning. It is reported to have passed Three Rivers one hour later. Next stop will be made at Ottawa.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths if all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculee Concepton, Que., writes:—"Myy baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

KINGSTBON FAIR WENT BEHIND IN RECEIPTS

KINGSTON, Oct. 9. — Owing to considerable deficit created by the failure; due to rainy weather, and the inability of the Fair's Secretary to meet all obligations the directors are considering ways and means to meet an unusual situation. Several prominent citizens have expressed willingness to help out by contributions.

MARVELLOUS CURE OF OTTAWA YOUNG LADY

PARALYZED FOR YEARS, WALKS AGAIN THROUGH HEALER'S MINISTRATIONS.

OTTAWA, Oct. 9.—Five and a half years bedridden, her body and limbs below her waist being paralyzed, Miss Edith Lafontaine, for almost six years an inmate of St. Luke's Hospital, has recovered and now walks with the ease and grace of any other girl of her age.

The restoration of the power of her limsb, according to Miss Lafontaine, is the direct result of the ministration of James Moore Hickson, the Church of England lay healer, who conducted a mission in St. Alban's church at the end of JJune last. She is emphatic in her declaration that the physicians attending her were powerless to effect a recovery, and that her healing is due to the laying on of hands and prayer of Mr. Hickson.

A Sure Relief for Women's Disorders—10 Days Treatment Free

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered to normal. As this treatment is based on strictly scientific principles, and acts on the actual location of the disease it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorhoea, falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for ten days, worth 75c, will be sent Free to any suffering woman who will send me her address.

Trade Follows the Merchant Flag of Canada

By willingness and ability to provide ships Canada this year has drawn the West Indies closer to herself and to the Empire. She can make preferential trade agreements with other peoples under the British flag without arousing international complications.

The trade of 45,000,000 people in British Tropical Africa is waiting for us to-day. But we must have ships and a sea-conscious spirit in the people and in the Government.

The West India Trade Agreement

Would not have been worth the paper it is written on had it not been for Canadian ships, and the vision of Canadians who realize those facts.

The Navy League of Canada.

No Job Too Small For Us

It matters not whether it is a large or a small job, you will receive our prompt attention.

A Bad Case

Eczema All Over His Body—His Legs—His Arms Covered

John Clark of Brookville, N. B., crowds a story of great suffering into a few words.

"I was tormented beyond words. I could not sleep. You could not put a pin on my whole body. I tried several doctors. They said it was scrofula. Three dollar bottles of D. D. D. is all I used. I have not had a sore for five months."

Each week we are selecting a letter from some Canadian sufferer to show what can be done to itching, burning skin disease by the clean, purifying liquid wash, D. D. D.

Stop that itch today. You are not asked to use D. D. D. for weeks before you receive results. If you don't get relief from the very first bottle we hand your money back. $1.00 a bottle. Try D. D. D. Soap, too.

MR. FRANK TATTERSALL'S COMING RECITAL

The announcement that Mr. Frank Tattersall, organist of St. Paul's Church, will give a pianoforte recital on Tuesday evening, October 26th, will be received with pleasure by all music-lovers of the city. Mr. Tattersall has already delighted Peterborough audiences by his brilliant accomplishments on the pianoforte, when he demonstrated his marvellous skill in rendering some of the more elaborate productions of the great masters. Doubtless many will make a note of the date of his coming recital, in anticipation of another rare musical treat, which is to take place in St. Paul's Church.

Mother Can Do More Work

A LAD CAME INTO THE OFFICE THE OTHER DAY AND SAID:—

"I want another Bottle of Gallagher's Blood Purifier. Mother says she can do far more work when taking it."

WHY?

Because it is Poison in the Blood which causes us to feel Tired, Weary, Sore, and Useless. Remove the Poison, and we at once feel like a "two-year-old colt," when work is a pleasure. GALLAGHER'S BLOOD PURIFIER puts the Stomach, Liver, and Bowels in a healthy condition, preventing any more Poison getting into the System, and at the same time removes the Poison and Purifies the Blood. Try a Bottle—only 75 cents—at all Druggists and Dealers in Patent Medicines.

SURGEONS IN BUSY NEW YORK STREET AMPUTATE LEG OF ACCIDENT VICTIM

WORK BY LANTERN LIGHT AND WITHOUT ANAESTHETICS TO SAVE TIME SUBJECT MAY RECOVER.

NEW YORK, Oct. 9.—Physicians, working with the aid of one flickering lantern, early yesterday amputated the right leg of Henry Helms a motorman, in order to rescue him from the wreck of two street cars telescoped in a collision that caused injuries to twenty other persons.

Helms, who was pinned under the car when physicians arrived, persuaded them to perform the operation without an anesthetic to save time. Later, his other leg, badly mangled, was removed at a hospital.

Helms, and the conductor, William Wherex, who received a fractured skull, are said to have slight chance of recovery.

The accident happened when the brakes failed to function in the descent of a steep grade on Amsterdam avenue. Many of the passengers, who became hysterical when the car rushed down the hill uncontrolled, saved themselves by huddling together on the back platform.

INSTRUCTIVE ADDRESS TO THE PUPILS

(Continued from page 1.)

to justify the establishment of a technical school, if so what size, and of what quality. If it should be decided the need justifies the establishment of the school, the Government will work on a fifty-fifty basis with the city for the building, and a little better than half for teachers' salaries. He also explained the grant made by the Dominion Government, who have also seen the need for training for efficiency.

A Definite Reason.

Another aspect of the establishment of the technical school is the fact that girls and boys are being crowded by too many subjects in too short a time, and the educational programme is being widened constantly. If, the speaker said, the boys and girls are to have extended study, naturally they must also have extended time, and for this reason the Adolescent Act has been passed, to take effect on 1st September, 1921.

Dr. Miller went minutely into the terms of the Act, explaining definitely about whom it will touch.

Behind the Movement.

In the Middle Ages, the speaker continued, when universities were first established, we found ourselves free to think freely; the power of arbitrary authority over the mind broken; later the power of arbitrary authority over religion likewise gone. In industrial fields we must now have the principles of democracy worked out.

Formerly, the speaker continued, practically all the necessities of life were made in the home. To-day, however, with the ever increasing complexity in fields of opportunity into which the boys and girls are entering, it is necessary for greater training that they may be successful in the complex fields. If the adults of to-day are to play fair with the country, they must realise that the boys and girls in the Peterborough Public Schools will, on reaching manhood and womanhood, face a country with a population greater than Great Britain and Ireland. In terms of responsibility, are we going to fit our boys and girls to take their places so that when the day comes they may look publicly in the face of the situation, unafraid, saying, "Our fathers have provided generously for us," or will they have to say, "We must step back and let the United States and Britain take the leadership"?

The speaker concluded by impressing his audience with the call of fitting the boys and girls for the fulness of opportunity in future life.

Mrs. S. T. Medd thanked the speaker for his interesting address.

Refreshments Served.

At the conclusion of the programme refreshments were served by the Home and School Association.

CORK CITY HALL BOMBED EARLY THIS MORNING

Six Explosions Heard, No Casualties Reported.

(Canadian Press.)

CORK, Ireland, Oct. 9.—Part of the City Hall here was destroyed by bombs about four o'clock this morning. Six explosions were heard, and were followed by considerable rifle fire. So far as it is known, there were no casualties.

Records Destroyed.

Damage was chiefly confined to the rooms in the west end of the building. One of these, which was used by the water department, was burned out by fire, following explosions, and the departmental books and records for fifty years were destroyed. The blaze was prevented from spreading by stone partition walls.

Adjoining rooms, occupied by the public health department, were damaged by explosions, the theory being that bombs were thrown in through the windows.

END FAMILY VENDETTA AFTER YEARS OF MURDER

ROME, Oct. 9.—Eight Sardinian families which have been principals in a vendetta for 65 years, have become reconciled, according to reports to the Giornale d'Italia. Since the feud began there have been 75 murders and much property damage done by members of the families involved.

The Bishop of Tempio, where most of the families reside officiated at the ceremony of reconciliation, which was conducted in a crowded church, there being 200 men identified with the feud in attendance.

CHIEW PRODUCT AT LABOUR BUREAU.

Lumber jacks continue to be the chief product of the Employment Bureau, and bulked the business for the past week.

During the week 48 applications were received for work, 25 men placed locally, 12 shipped to the lumber camps and 27 vacancies reported.

NOTHING LIKE INTERNAL BATHING FOR CONSTIPATION

If people only knew what Internal Bathing is doing for thousands of others there would be fewer Pills and Laxatives swallowed, and very much less suffering from Constipation and the accompanying Stomach and Nervous Troubles resulting from it.

J. A. Darrach, Copper Cliff, Ont., writes: "I have been using your J. B. L. Cascade for the past three months, and am convinced that it is the most modern and scientific method of dealing with Constipation that has ever been devised, and I will lose no opportunity to promote its use among my friends, as I can speak truthfully and enthusiastically as to its merits."

By proper application of Nature's cure, warm water, by means of the J. B.L. Cascade, the lower intestines are kept free from all poisonous waste. Drugs force Nature. Internal bathing assists her.

Dr. Chas. A. Tyrrell of New York, a specialist on Internal Bathing, invented and perfected the J.B.L. Cascade, which has done more during the past 20 years in restoring health and and lessening disease than all other means combined.

Ask at Warne Drug Co., Druggist, Peterboro, Ont., for booklet, "Why Man of To-day is Only 50 Per Cent. Efficient." They will also be pleased to show and explain the J.B.L. Cascade to you or write to Tyrrell's Hygienic Institute, 163 College street, Toronto.

"THE WHITE HEATHER" TOURNEUR'S LATEST THRILLING PICTURE

Film is Based on Famous English Melodrama and Contains Many Novelties.

Maurice Tourneur's new Paramount Artcraft special picture "The White Heather," will have its premiere at the Regent Theatre next Monday. Unusual interest is attached to the production for a number of reasons. First, because it is the first production coming from Mr. Tourneur in months; second, it is the first picture made by the director in California; third, it is described as the best of the melodramas made by the producer of 'The Whip", "Sporting Life", "Alias Jimmy Valentine" and other screen thrillers.

"The White Heather" is based on Cecil Raleigh and Henry Hamilton's famous Drury Lane melodrama, which met with enormous success in London and later in New York. It had had a Broadway run with Amelia Bingham as the heroine. Richard Bennett also appeared in the company

When Mr. Tourneur took his entire studio staff to California he selected "The White Heather" as his first production. The background of the melodrama is divided between the Scotch Highlands, the London financial district, the slums and the ocean The story revolves around the efforts of an unscrupulous nobleman to repudiate his marriage to a pretty commoner, the only record of the ceremony being in the wreck of a yacht at the bottom of the sea.

"The White Heather" culminates in a death struggle between the hero and the villain at the bottom of the sea, both trying to get possession of the fateful paper locked within a water-tight chest. These scenes were actually taken on the ocean floor off San Pedro Harbor, Mr. Tourneur utilizing the newest subsea photographic inventions of the Williamson Brothers.

ST. LAWRENCE POWER.

It is expected that a fine event will be staged in Kingston during the visit of the Joint Waterways Commission. It is understood that Sir Adam Beck will formulate his schemes for the tying up of the St. Lawrence for electrical power purposes, and this will be a notable exposition. Eastern Ontario will be deeply concerned in the project and the mayors of many frontier towns on both sides of the St. Lawrence will be present.

MR. KILLALY INTERVIEWED POWER ISSUE

(Continel from page 1.)

graph above is a complete refutation of such a charge.

In connection with the most recent action of the Peterborough Manufacturers' Association I was greatly surprised, upon my return this morning, to hear that they had met on Thursday evening and had present Messrs. Ireland, Smith and McIntosh of the Hydro-Electric Power Commission staff and that at that meeting the Department was not represented. On Friday, the 1st instant, I was asked by the Peterborough Manufacturers' Association to attend their meeting at 5 o'clock on that afternoon and would not consent to attend unless the Hydro-Electric Power Commission was also to be represented. At the meeting on Thursday evening, the 7th inst., I understand the Manufacturers took action which, no doubt, was largely influenced by the report of the Hydro-Electric Power Commission which appeared in the Examiner of that date. I would like it known that the report referred to is simply filled with errors and misleading information.

While it is nothing to me whether the power users are given what water remains in storage at the present time or no, still the Department's attitude upon this subject is that in their opinion their course has been in the best interest of the community at large, and in their opinion the request for additional flow at the present time is not sound policy. What action the government will take in the matter of the petition is not known to the office.

I might add that records show that since the 28th September, on which date the curtailment to power users first took place, the average flow of the Otonabee river has been in excess of what it was between the 1st and 25th of September, and I submit that, in view of this fact, the Department is at a loss to understand why power users are being cut off since that date when they had ample supply of power during the first four weeks of September.

THE "LIFTUP"
(Patented)

ALL BIAS FILLED CORSETS are designed in conformity with the science of Anatomy.

The "Liftup" a patented invention with non-slip elastic inside belt, gently supports the abdomen, and is very beneficial for use after an operation involving an abdominal incision. Most effective in relieving those physical ailments from which many women suffer.

Write us NOW, for useful hints on fitting and self-measurement. Free upon request.

GETS SALARY MINIMUM.

Every circuit in the Brighton district of the Methodist Church has come up to the new minimum appropriation for minister's salary, $1,500 for salary, and $150 for horsekeep. There are eleven circuits in this district. Eight of these have two or more preaching places.

Facts about her skin that every girl should know

IS your skin a constant source of worry to you? Do you find its care continually perplexing? The clear, smooth, flawless complexion you long for—does it seem to you a special gift of nature that only a fortunate few can hope to possess?

You are wrong if you think that a beautiful skin comes merely as the result of good fortune. Any girl, by giving the skin the special care its special needs demand, can win the charm of a smooth, clear, soft complexion.

Remember that each day old skin dies and new takes its place. You can make the new skin what you will—by regular, persistent care. You can overcome any condition that has been troubling you.

Is your skin marred by blackheads—by ugly little blemishes? Is it too oily? Is it dull, sallow, lacking in color and life? Begin, today, to give it the right Woodbury treatment for its needs, and see how quickly, with this care, its own vital power will help to overcome its defects.

On this page you will find three of the famous Woodbury treatments for improving your skin. Each one of these treatments has been worked out carefully and scientifically to meet the needs of different types of skin. Follow the treatment your skin needs, regularly and persistently—and within a week or ten days you will begin to notice a marked improvement in your complexion — the greater softness, smoothness, clearness that you have longed for.

The very first treatment with Woodbury's will leave your skin with a slightly *drawn, tight* feeling. This means that your skin is responding, as it should, to a more thorough and stimulating kind of cleansing than it has been accustomed to. After a few nights this drawn sensation will disappear and your skin will emerge from its nightly treatment with such a soft, clean, healthful feeling that you will never again want to use any other method of cleansing your face.

Woodbury's Facial Soap is sold at all drug stores and toilet goods counters in the United States and Canada. The famous booklet of treatments is wrapped around every cake. Get a cake today—begin your treatment tonight. A 25 cent cake will last for a month or six weeks of any treatment, or for general cleansing use.

The new treatment for a tender, sensitive skin

Dip a soft washcloth in warm water and hold it to your face. Then make a warm-water lather of Woodbury's Facial Soap and dip the cloth up and down in it until it is "fluffy" with the soft, white lather. Rub this lathered cloth gently over the skin until the pores are thoroughly cleansed. Then rinse your face, first with warm, then with clear, cool water and dry carefully.

By making this treatment a nightly habit, you can gradually overcome your skin's extreme sensitiveness, and give it the power of resistance every normal skin should have.

"Your treatment for one week"

A beautiful little set of Woodbury's skin preparations sent to you for 25 cents

Send 25 cents for this dainty miniature set of Woodbury's skin preparations, containing *your complete Woodbury treatment for one week.*

You will find, first, the little booklet, "A Skin You Love to Touch," telling you the special treatment your skin needs; then a trial size cake of Woodbury's Facial Soap—enough for seven nights of any treatment; a sample of the new Woodbury's Facial Cream, Woodbury's Cold Cream and Woodbury's Facial Powder, with directions telling you just how they should be used. Write today for this special new Woodbury outfit. Address The Andrew Jergens Co., Limited, 356 Sherbrooke Street, Perth, Ontario.

How to remove skin blemishes

Perhaps your skin is constantly being marred by unsightly little blemishes. Authorities on the skin now agree that in the great majority of cases, these blemishes are caused by bacteria and parasites that are carried into the pores through dust and fine particles in the air.

By using the Woodbury method of cleansing your skin, you can free it from such blemishes.

Just before retiring, wash in your usual way with Woodbury's Facial Soap and warm water, finishing with a dash of cold water. Then dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy, cream-like lather. Cover each blemish with a thick coat of this and leave it on for ten minutes. Then rinse very carefully with clear, hot water, then with cold.

Use this treatment regularly and the blemishes will gradually disappear.

For conspicuous nose pores

Do you know what it is that causes conspicuous nose pores? The pores of the face are not as fine as on other parts of the body. *On the nose especially* there are more fat glands than elsewhere, and there is more activity of the pores. These pores, if not properly stimulated and kept free from dirt, clog and become enlarged. Try this special treatment for this trouble, and supplement it with the steady, general use of Woodbury's Facial Soap.

Wring a soft cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in *very gently* a fresh lather of Woodbury's. Repeat this hot water and lather application several times, *stopping at once if your nose feels sensitive.* Then finish by rubbing the nose with a *piece of ice.* Always dry your skin carefully. Before long you will notice how this gradually reduces the enlarged pores until they are inconspicuous.

For the common skin troubles

You will find complete treatments in the booklet, "A Skin You Love to Touch". This booklet is wrapped around every cake of Woodbury's Facial Soap. Among the treatments it gives are—

BLACKHEADS
COARSENED SKIN
OILY SKIN AND SHINY NOSE
BLEMISHES
CONSPICUOUS NOSE PORES
SLUGGISH SKIN
TENDER SKIN
SALLOW SKIN, ETC.

Re-Treading Tires

We have as complete an equipment as can be found in Toronto for Re-Treading and Repairing Auto Tires.

SPORTING NEWS, VIEWS AND GOSSIP

PETERBORO COLLEGIATE SPORTS

The Peterboro Collegiate Institute's annual Field Day of Sports, was favoure with bright sunny weather, a factor upon which the success of any open air event hinges. Fortunately, the weather man smiled sweetly yesterday, and the field day at the Exhibition grounds was a gratifying success yesterday in every way, except in perhaps the attendance, which was not at large as it should have been. This however did not mar the competition in the events and in practically every one the entries were large and the events were necessarily very closely contested.

The field officers were:
Referee—Mr. L. G. Pettit.
Judges—Messrs. Henry, Zavits and Richardson.
Starter—Mr. C. A. Browne.
Timers—Messrs. Graham and Jameson.
Announcers—Messrs. L. Browne, D. Hay.
Clerks of Course—Messrs. F. J. A. Morris, F. Green and K. Kirn.

The championship shall be determined by points. Juniors were those who were not 15 years of age on or before September 1, 1920.

The first event called was the boys' junior, 100 yards. J. Nasimok won in 12 1-5 seconds. Miller, Pulkinghorn and Richardson were respectively second, third and fourth.

The results of the second heat follow:
1 Roberts, 14 sec.
2 Sims.
3 Pogue.
4 Martin.

Other results were—

Boys' Senior, 100 Yards.
1 A. Johnston, 12 3-5 seconds.
2 E. Legon.
3 H. Cole.
4 A. Elliott.

Second heat—
1 Stevens, 11 3-5 seconds.
2 McBrien.
3 Green.

Girls, 50 Yards, Senior.
1 Miss Forster, 9 3-5 sec.
2 Miss Ray.
3 Miss Sharpe.

Girls, 50 Yards, Junior.
1 Miss C. Thompson, 8 4-5 sec.
2 Miss Nelson.

Potato Race, Senior.
1 Miss Forster.
2 Miss Thomson.
3 Miss Kelly.

Junior—
1 Miss Wolstnholm.
2 Miss Taylor.

Shot Put, Senior
1 F. Green, 41 feet.
2 A. Eliott, 40 feet, 1 inch.

Junior—
1 Miller, 27 feet.
2 Pulkinghorn, 26 feet, 2 inches.

Senior, 220 Yards.
First Heat—
1 Stevens, 27 2-5 seconds.
2 McBrien.
3 Legon.
4 Cole.

Second Heat—
1 Finlay, 27 2-5 seconds.
2 Green.
3 Johnston.

Junior, 220 Yards.
1 Pulkinghorn, 32 1-5 seconds.
2 Pogue.
3 Roberts.
4 Richardson.
5 Martin.

Second heat—
1 Nasimok, 28 3-5 seconds.
2 Miller.
3 Sims.
4 Fusee.
5 Thompson.

Girls, 100 Yards.
1 Miss Thompson.
2 Miss Forster.
3 Miss Connelly.

Girls' Baseball.
1 Miss O'Donoghue.
2 Miss D. Cowan.
3 Miss M. Lonergan.

Boys' Senior Half Mile.
1 Cole, 2.29 1-5 seconds.
2 Elliott.
3 McBrien.
4 Green.
5 Legon.

Junior Half Mile.
1 Nasimok, 2.49.
2 Pulkinghorn.
3 Sims.
4 Miller.
5 Pogue.

Jockey Race.
Johnston and Cole.
Brown and Hay.
Stevens and Legon.

Needle and Thread Race, Senior
1 Miss Davidson.
2 Miss Milburn.
3 Miss Mulligan.

Junior—
1 Miss Long.
2 Miss Jackson.
3 Miss Green.

Senior Bicycle, One-quarter Mile.
1 R. Derick, 1.23 1-5 seconds.
2 A. Johnston.

"SAN TOY"

Mr. Fred Walton, the distinguished English comedian, who plays the principal comedy role of Li, in "San Toy", will no doubt be remembered by many Canadians whose visits to New York include a night at the Hippodrome.

His inimitable portrayal of the Toy Soldier in 'Everything" was one of the finest hits of characterization ever seen in New York.

The role of Li is one in which he excels, he having played it hundreds of times in London.

'San Toy', with the all-star cast, which Mr. F. Stuart Whyte has provided for it, promises to be one of the brightest revivals ever seen here in Canada.

"San Toy "will be the attraction at the Grand to-day for matinee and evening performances.

Mr. Wardon Lawler, who plays the Emperor in "San Toy" was the original creator of the role, and has played the part in every important revival of the piece during the past ten years.

DR. N. H. SUTTON.

GLORIA SWANSON in CECIL B. DeMILLE'S production "WHY CHANGE YOUR WIFE?" A PARAMOUNT ARTCRAFT PICTURE

At the Allen Monday, Tuesday and Wednesday.

CECIL DeMILLE'S NEW PRODUCTION IS STRIKING IN THEME

"Why Change Your Wife?" Story of Married Life, Filmed on Lavish Scale.

Cecil B. DeMille's latest Paramount Artcraft production, "Why Change Your Wife?" will come to the Allen Theatre for three days commencing Monday next. It is described as a striking drama of married life lavishly presented. Gloria Swanson and Thomas Meighen are the featured players. The story is by William DeMille.

The plot centres around Robert and Beth Gordon, married for ten years, but now beginning to drift apart. Beth was a charming girl. She has become a too wifely wife and bores her husband with her excessive solicitude for his comforts. He finds diversion in the company of vivacious, pleasure-loving Sally Clark. Literal-minded Beth imagines them in love. A divorce follows, and Robert marries Sally. Too late Beth discovers why she lost her husband and, blossoming like a rose, develops into society's gayest figure. Sally, on the other hand, is transformed by marriage into a worse household drudge than Beth ever was. Robert's eyes are opened when he again sees Beth, and through a dramatic series of events they are brought happily together.

The picture has been produced with all the beauty of setting, mastery of screen technique and admirable attention to detail that was chracteristic of Cecil B. DeMille in "Male and Female" and his other cinema classics. Sada Cowan and Olga Printzlau furnished the scenario.

AGENT WANTED

In This District for the Well-Known

Velie

The VELIE Car is manufactured, in more than a mile of Factory, by the Velie Motors Corporation, one of the oldest and largest Motor Car Manufacturers in America. Despite their tremendous resources, they have not until recently been able to produce sufficient Motor Cars to take care of the demand outside of the American market, with the exception of one or two of the larger Canadian cities.

Production has been enlarged, and we are therefore in a position to appoint a Local Representative for your territory to handle the VELIE "Six" on an exclusive basis.

The Company has recently announced a reduction in Price. The VELIE unquestionably offers a far greater dollar for dollar value than any other Motor Car on the American market. It is powerful yet economical; resilient but quiet; throughout it is built of only the highest grade quality parts known to the automobile industry.

Let us suggest that, for your own personal information, you compare the following VELIE "Six" specifications, not with Cars of like price, but with other automobiles costing even three thousand dollars or more:

Continental Red Seal "4" bearing crankshaft motor. Timken Axles and Bearings throughout. Stromberg Carburetor. Borg and Beck Disc Clutch. Bijur Starting and Lighting System. Atwater Kent Ignition. Stewart Vacuum Feed. Adjustable Pedals. Leather Upholstery. 125in. Wheel Base. 32 x 4 Non-skid Tires all-round. Willard Battery. Curtains open with doors. Boyce Motor Meter, etc., etc.

If you are well known in your community, and feel that you are the kind of man that can give us proper representation, please be good enough to communicate with our Toronto Office immediately, stating your financial position and general qualifications, and we will promptly forward to you complete details of the Agency proposition we have to offer.

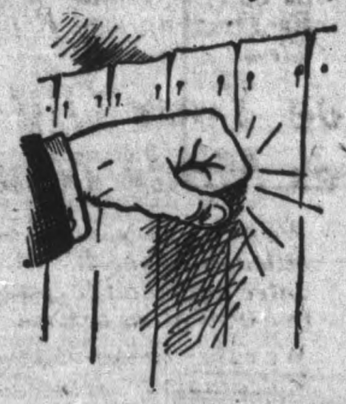
CASCARETS

JOIN THE BAND

"They Work while you Sleep"



Knock on wood! You're feeling fine, eh? That's great! Keep the entire family feeling that way always with occasional Cascarets for the liver and bowels. When bilious, constipated, headachy, unstrung, or for a cold, upset stomach, or bad breath, nothing acts so nicely as Cascarets. 10, 25, 50 cents.

WOMAN CONSTABLE FOR BRANTFORD NEXT YEAR.

Police Board Promises Appropriation in Estimates.

BRANTFORD, Oct. 9.—At a meeting of the Board of Police Commissioners here, Mrs. Livingston and Mrs. Brewster, representing the local Council of Women, presented their case, asking for the appointment of a woman police constable in Brantford. The commissioners commented favourably on the case presented, and promised to have an appropriation in the estimates for 1921. No action could be taken, however, this year, the police appropriation not being sufficient.

The solution of every mystery is a disappointment.

Black Eggs.

The black Cayuga duck, a South American bird, frequently lays black eggs. The coloring does not penetrate the shell, being due to an oily pigment which can be rubbed off. In successive layings the coloring fades and disappears.

Sharing a Sentiment.

"Do you think a man ought to forgive his enemies?"

"Yes," said Senator Sorghum. "But he ought to make the score near enough even to let the enemy do some forgiving on his side.'

CANADIAN PACIFIC OCEAN SERVICES

1 King Street, East Toronto

Russia's Parquetry Floors.

Most flooring put down in Russia is parquetry, and it is generally oak. Even in the unpretentious houses and flat buildings this parquetry is to be found. In some cases, of course, the finish is not so fine as in others, and in ordinary buildings the designs are not so elaborate. One of the most noticeable features of a Russian house is that rugs and carpets are used for wall decorations instead of floor coverings. Floor polishing by professionals, who come regularly once every week or ten days, is considered a part of the regular routine of running a house.

Churchyard Yew Trees.

One reason given why very old yew trees are so often found in country churchyards is that originally these trees were planted to supply the peasants with wood for their bows, for in lawless times it was soon discovered that the only place where trees would be safe from nightly marauders was the churchyard, where the most hardened thief dared not venture between darkness and dawn

Cure For Winking.

Pa—At last I've found a way to make that young scamp of ours stop winking his eyes.

Ma—Really?

Pa—Yes; I'll show him the articles in this science magazine where it says that every time we wink we give the eye a bath.

WHERE THE MULE FAILS.

He Doesn't Relish a Battle When the Artillery Gets Active.

More nearly impervious to heat than any of the other domestic animals, including his own ancestry, the mule has played a prominent part in the development of our southern states. On the sugar plantations and in the cotton fields he is without a peer.

His traditional endurance renders him almost invaluable to the quartermaster's department of armies in the field, but the experienced artillery officer uses horses instead for handling artillery in action.

A mule doesn't enjoy a battle. He doesn't relish its excitement and its terror, that metamorphosis that changes men alternately into poltroons and demigods.

Under a sustained artillery fire a horse becomes unusually docile. He turns instinctively to his master as to a creature of higher power, and his very terror renders him gentle.

But the mule displays no such faith in humankind. In the turmoil of battle he suddenly becomes arbiter of his own acts, and he either bolts or balks. A mule disapproves all that he does not understand, and it is traditional that he is not amenable to reason.

He Liked It.

Jock Russell was a farm servant. One day when Mrs. Brown, the farmer's wife, went into the milk house she found Jock down on his knees before a milk pan, skimming the cream off with his finger and putting it in his mouth.

"Oh, Jock, Jock," she exclaimed, "I don't like that!"

"Ah, wumman," replied Jock, "ye dinna ken whit's guid for ye."—Pearson's Weekly.

They Get Busy.

"I suppose a great many ask for information who have no idea of taking a train?"

"Yes," said the weary official. "When some people spy a free bureau of information there's a strong temptation to stock up."

Setting Her Right.

Freddie had just proposed to Millie.

"No, Freddie," she said, "I cannot marry you. The man who gets me must be a grand man, upright and square."

"My dear girl," said Freddi, "you don't want a man; you want a piano."

Spotted Negatives.

Small, irregular shaped, transparent spots in negatives are known as pinholes. These are usually caused by particles of dust resting on the film during development.

Sad Truth.

"Are you economizing over at your house?"

"No. We're simply eating less for the same money".

"Diamond Dyes" Are Guaranteed

Colors never Streak, Run, Fade or have "Dyed" Look

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes" — no other kind—then perfect results are guaranteed even if you never dyed before. Druggist has color card.

PAYING THE DOCTOR.

Should It Be For Curing You or For Keeping You Well?

We haven't yet learned to take advantage of the resources of civilization to anything like the extent we might. For instance, we wait until we get sick, and then we pay the doctor to help us get well. It would be much more sensible to pay him to help us keep from getting sick.

Fantastic idea, you say. Not at all. It already is working in a large number of college communities, right here in the state universities of Missouri and Kansas, for instance. In both institutions the pupil is charged a fee which is applied to safeguarding his health. In the University of Missouri the plan is still further developed so that the fee covers medical and surgical attendance. The health work in both schools is so interesting, not only for what it is doing for the pupils, but for the example it is setting other communities, that it is only right and proper to call attention to it.

The important point is that these universities and other schools are proving that health can be made much more of a community matter than had been supposed and that the wise thing to do is for groups to pay medical men to keep them well.

A WATER SOAKED TOWN.

Where Nearly a Foot of Rain Falls Every Week in the Year.

"It is a remarkable fact that in India, one of the most arid countries in the world, there is one spot that has the record rainfall of the whole earth," said Dr. William Roberts, British agricultural expert in India, to a correspondent of the Washington Post. "This place is Cherapunji, in Assam. It is in the path of the monsoon and in a valley, and there is almost constant rainfall.

"The average rainfall is 600 inches a year, or fifty feet, which is nearly a foot a week. This seems almost beyond comprehension when it is considered that the rainfall of the United States, for instance, ranges from sixteen to thirty-five inches. In some places there have been as high as sixty-five inches of water in a year, but this is the exception.

"During the rainy season in Cherapunji the waterfall is heaviest, but there is rain throughout the year. Notwithstanding this terrific moisture, the inhabitants of the district raise vegetables and grain. They do this by building terraces which carry the water off."

New England's Charms.

"I have summered the New Englanders and wintered them; they wear," says Rollin Lynde Hartt in the Century. "I have fought with them and made it up. I have tried Montana—Paris, too—and been willing to return. Nowhere am I freer. One can spend little or much, dress as he chooses, know whom he will, devour beans or spurn them, dig potatoes, clams or Greek roots, and be 'a man for a' that' among friends somewhat slow to take hold, but incapable of letting go. As warm hearted as the Montanians, they are as liberal; at moments I have come near saying, 'The further east you go the further west you get.' I love the west. I love the south. Accident, not choice, brought me to New England. In her own quaint phrase, I like here."

The Great Tropical Belt.

Between the thirtieth parallel of north latitude, which runs through New Orleans, north Africa, northern India and southern China, and the thirtieth parallel of south latitude, which cuts through southern Brazil, the southern tip of Africa and the southern part of Australia, is half the land area of the world outside the polar regions and one-half the world's population. Yet the commerce of this great tropical belt, with half the land area and half the world population, is but one-sixth that of the international commerce of the world, and it has but one-seventh of the world's railways despite the fact that the temperate zones are anxiously calling for its products of food and manufacturing material.

Where We Aim.

William Dean Howells in one of his talks about literature said: "Good literature is always condemned on its first appearance. That is because, being original, it is new and strange. Shelley's work was bitterly condemned at first. So was Coleridge's. So was Wordsworth's. So was Stephen Crane's." Mr. Howells paused, then added impressively, "Stones are only thrown at those trees which are heavy with fruit."

Not Melodiously Gifted.

"Don't you love our song, 'The Star Spangled Banner?'"

"I do," replied Senator Sorghum.

"Then why don't you join in the chorus?"

"My friend, the way for me to show real affection for a song is not to try to sing it.'

A Scientific Question.

"Nothing is ever totally lost or destroyed," said the professor of physics.

"In that case," said the simple and frank person, "how do you explain the fact that everybody loses umbrellas and you never meet anybody who has found one?"

Quite Natural.

"The people in the flat opposite bought their piano at auction."

"I suspected as much; it's 'going, going, gone' all the time.'

Capacity.

Spink—Jones told me today that he isn't drinking any more. Spank—I don't see how he could.—Life.

Young Men Don't Get Bald Cuticura Does Much To Prevent It

Dandruff, itching, scalp irritation, etc., point to an unhealthy condition of the scalp, which leads to thin, falling hair and premature baldness. Frequent shampoos with Cuticura Soap and hot water do much to prevent such a condition, especially if preceded by a gentle anointing with Cuticura Ointment to spots of dandruff and itching.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is like 14 Karat on gold. It positively identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

TRINITY CHURCH SUNDAY SERVICES

The services at Trinity Church tomorrow will be especially interesting. At the morning service the Pastor will give the first of a series of 5 minute talks to boys and girls as a regular part of the morning service. At night Mr. Malott will speak on "The Plumb Line", men who are interested in symbolic teaching will be interested in this address. At this service there will be special music by the choir, Mrs. King and a men's chorus. The men will render a special number in keeping with the evening subject. Visitors welcome. Young people are especially invited.

"A GREAT LOVER AT THE FIRESIDE"

The pastor of Murray street church will resume his series of sermons tomorrow night. The subject is "A Great Lover at the Fireside."

At the morning service the monthly communion will be held and in the afternoon the school will engage in its autumn rally. Cars will be sent for members of the cradle roll and their mothers and members of the Home Department who otherwise woud not be able to be present. A splendid program has been prepared and altogether Murray St. Baptist ought to have a great day.

FORDSON TRACTOR DOES GREAT WORK.

Yesterday the Fordson tractor on the farm of Clifford Hancock, two miles from the city, filled with comparative ease a silo 14 feet by 30 feet high, with ensilage.

Many people from the neighborborhood called to see the operation and those who had any doubt regarding the efficiency of the Fordson for such work have a complete change of opinion.

All agreed that it had plenty of energy and expressed their delight to know that such an economically priced machine would now do all kinds of work with entire satisfation, and backed by a firm like the Ford Motor Company.

On Wednesday evening next, at 7.30 o'clock, the Caledonian Club will hold a whist party and concert, to which all the Scotch men and women of the city are invited.

AT HOME

A dance and card party will be held in St. Alphonsus Lyceum under auspices of St. Peter's Ladies Aid in aid of St. Vincent's Orphanage. Good lunch and music. Please come and aid in providing clothing for the children for the winter. Admission 50 cent each. 3d 87

SOUTH CENTRAL SCHOOL

The South Central Home and School Association will meet on Monday evening, October 11th, at 8 p.m., in the kindergarten rooms, when diplomas will be presented to the successful pupils in the recent entrance examinations. An interesting programme of speeches and music will be given. Parents and friends are cordially invited to attend.

"Y" ACTIVITIES.

Those planning to take the basketry class at the Young Women's Christian Association are asked to meet Monday evening at 7.30 to find out the materials, etc., required for the course.

The first lecture in the course on story-telling will be given Tuesday evening, and the first class in French on Wednesday.

Don't forget the sing-song Sunday evening after church.

MISSIONARY SOCIETY MEETING.

The Women's Missionary Society of the Warsaw Methodist church met on Thursday afternoon in the parsonage. There was considerable important business, which was conducted with despatch, after which an interesting study in the study book of the society, "The Bible and Missions," was conducted. Other items of interest, including a beautiful solo by Mrs. James Hawthorne, were given. The attendance was good and the ladies are very hopeful for success in their work this year.

PARK ST., BAPTIST CHURCH THANKSGIVING AND HARVEST HOME

It is purposed that next Sunday shall be a day of special interest. Services appropriate to the season of harvest have been arranged and the decorations of the church has been under taken by the B.Y.P.U. members under the able direction of Mr. Neal Porter, President.

The Pastor, Rev. W. E. Morrow, B. A., will conduct the services.

Special Harvest Anthems and solos will be rendered by the choir.

The Sunday School Orchestra, under the leadership of Mr. Wm. Ford will also take part in the evening service.

All members adherents and friends can show their interest in the services by being present.

Monday evening October 11th the roll of members of the church will be called at 8 p.m. after which there will be a social gathering.

WHAT IS YOUR HUSBAND DOING

A MERRY PICTURE OF YOUTH PRESENTED BY DORIS MAY AND DOUGLAS MACLEAN.

Doris May and Douglas MacLean will be the attraction at the Grand Theatre for 3 days beginning Monday next in a screen version of the stage play, "What's Your Husband Doing?" The picture is described as a rollicking comedy about young husbands and wives and a grand mix-up at a lively roadhouse

Miss May has the role of Beatrice Ridley, newly married and suspicious of the notes which her husband gets every morning from "Honeysuckle Inn." She consults Douglas MacLean, in the role of John Widgast, a lawyer, and they resolve to investigate. In the meantime, the wives of Widgast and Pidgeon, his partner, have become jealous of the divorce business which their spouses find necessary to talk over with pretty corespondents and other designing creatures.

The real reason for young Ridley's letters are that he owns a share in the Inn and is trying to sell it out. On the same evening that he goes to close the deal, taking Pidgeon with him to draw up the papers, Widgast and the lawyers' wives and Beatrice also appear at the roadhouse. And to cap the climax, the place is raided by the police. Matters are cleared up in a most amusing fashion.

The film, which is produced by Thomas H. Ince, is said to provide a fine vehicle for those youthful stars, who have already established themselves in high favor with screen fans.

BIRTH.

CRIPPS—On October 7th, 1920, to Mr. and Mrs. A. Cripps, 49 Crescent Street, a son. 3d-85-6980

Mrs. W. J. Hopwood is down from Toronto for a few days.

Archdeacon J. C. Davidson left this morning for Bowmanville, where he will begin his work in the Church Forward Movement.

ENTERTAINED AT NEW HOME LAST EVENING

Miss Myrtle M. Sucee entertained for the first time, last evening, in her new home, 710 George Street, at a Masquerade Dance. During the evening a delightful programme was given by local talent, Miss Norma Moore, as an Indian princess, opened the programme with a piano solo; Miss Islah Wilson, as a Scotch lass, rendered a vocal solo; Miss Lillian Corbett, of the Conservatory staff, as a Grecian Goddess, a vocal solo; Miss Marjorie Bridge, as a Gypsy girl a recitation; Miss T. Given, as Lady Washington, a vocal solo; Miss Marjorie O'Brien, as a Red Cross Nurse, a selection of popular airs. Two very humorous speeches were given by Mr. 'Bob' Love, as a rube, and Mr. 'Len' Wartman, as a clown. The dancing was resumed and luncheon served at midnight, after which all sang "For she's a jolly good fellow" and the guests departed for their homes in the wee sma' hours o' the mornin'?

TENDERS FOR THE REMOWAL OF SNOW AND SLUSH

SEALED TENDERS, addressed "Chairman Board of Works," and endorsed **"Tenders for Snow Plowing"** will be received at the office of the City Clerk up to 4 p.m. on **Saturday, October 23rd, 1920** for removing snow and slush from the sidewalks and footpaths of the City from time to time as may be required during the Winter and Spring of 1920 and 1921. The City will supply the Snow Ploughs. Tenders will be **received separately** for one or more districts. Bidders will be required to **examine the Specifications** at the office of the City Engineer and satisfy themselves as to the conditions thereof before submitting Tender and will be required to furnish evidence of their ability to properly execute the work, and their tenders must be signed by two parties who will enter into a bond with them for the proper fulfillment of their Contract. The lowest or any tender not necessarily accepted.

R. H. PARSONS,
City Engineer.

Peterborough, Ont., Oct. 9th, 1920.

NEW INSURRECTION AGAINST SOVIET GOVT.

EMBRACES GREAT MASSES OF PEASANTS—SPREADING RAPIDLY.

(Canadian Press.)

WARSAW, Oct. 9.—A new insurrection against the Russian Soviet Government has broken out in the district of Nizhni-Novgorod, 265 miles north of Moscow, according to information reaching the Russian colony in this city. This insurrection, which was inaugurated by the social revolutionary party, embraces great masses of peasants, and is reported to be spreading rapidly in all directions.

New Government.

Insurgents, advices state, have proclaimed a new government, one of the members being Mlle. Maria Spiridonova, a noted woman revolutionary, for years in active movement against the Imperial regime.

The insurrection is said to be endangering the transportation of food and fuel to Moscow from eastern Russia.

Independent of Wrangel.

Insurgents are declared to be acting independently from General Wrangel or any of the other counter-revolutionary movements. They are planning to set up their capital at Nizhni-Novgorod.

NEW YORK STOCK MARKET

(United Press).

NEW YORK, Oct. 9.—Prices were generally irregular at the opening of the Stock Market to-day. U.S. Steel was off ¼ at 87 1-8; U. S. Rubber 78 1-8, off 1-8; Pan American Petroleum 88, off ½; Baldwin 111 3-4, up 1-8; Southern Railway 31 5-8, unchanged; New Haven 34 5-8, up 1-8; Southern Pacific 99¼, off 1-8; Baltimore and Ohio 46½, off ¼; American Beet sugar 72½, up ½; Texas and Pacific 23 1-8, off 3-4; Texas Co. 49½, off 1-8; Reading 97 3-4, up ¼; Central Leather 43 3-8, off 3-8; Mexican Petroleum 185½, off 1¼; Canadian Pacific 127½, unchanged.

A drive against prices was made by professionals, who took advantage of the absence of many trades owing to the Saturday half holiday. Market observers feel that prices are getting as near the lowest levels they will reach this year.

EXCHANGE MARKET.

(United Press).

NEW YORK, Oct. 9.—Opening quotations on the foreign exchange today included: Demand sterling, $3.50¼, off 1 cent; francs demand $.0668; lire demand, $.0404; marks demand, $.0158.

STOCK NEWS BULLETIN

Campbell, Stratton & Co., Oct. 8, 1920
Members Toronto Stock Exchange

In the New York Market:—On rumors from New York that Packard Motor car was about to fail there was an unloading of that stock on local exchange 13 3-8 to 11 7-8. The Packard Motor Car Co., here states that rumor is absolutely false and without a particle of truth, and that the Packard Motor Car Co., is in splendid financial shape. The market continued to say off during the balance of the afternoon trading. The copper stocks became a little more active and were quite weak. Continued cutting of price of copper metal without any resulting stimulation of demand is most discouraging as production is now very low and the small amount of profit is gradually being eaten into. The motors did not sell off further when specific rumors of trouble were denied in Detroit, but neither was there much ability to rally. Public utility stocks were one group which had a fair rise during the afternoon despite the weakness elsewhere, and general sentiment on their outlook is favorable. The reaction in rails did not go far and closing figures were not much below the high prices of the day, except in certain scattered instances.

The local market took on a quieter air this morning, not unattended by signs of weakening prices. On the other hand C. P. R., Mackay, Sugar and Steamships common were all slightly lower. Funds continued to be scarce in both Montreal and Toronto Whatever movement takes place is perforce concentrated in one or two issues. Recently it has been the tractions and rails in Toronto. These now appear to have run their course—with the exception of Brazilian and Duluth.

LARGE MARKET RECORDED TO-DAY

GOOD ASSORTMENT OF VEGETABLES —THE DAIRY MARKET.

To-day's market was favoured with ideal October weather. The sun streamed brightly down on the rigs to-day in direct contrast to last Saturday's dismal hand out. For this reason there was a very large market both of waggons, cars and baskets. There was a large influx of buyers from 9.30 on and upstairs the market was nearly as crowded as on a cold winter day.

The Vegetables

The waggons contained a very choice assortment of vegetables and fruits which will be off the market in a few weeks. Potatoes were sold fairly plentifully at 1.50. There were only a few baskets of tomatoes on the market. What there were sold at 50 cents a peck or some were even lower at 35 and 40 cents. Cabbage and cauliflower were mostly 10 and 15 cents. There were apparently onions of every known shape and variety in their glistening coats to-day. Pickling onions were 60 to 80 cents a basket or by the quart 10 or 15 cents. Winter onions sold at 60 cents or $3.00 a bag. Pickling beets were 25 cents a peck and nice baskets of carrots were the same price. By the bunch they were 5 and bunches of 3 or 4 winter onions were the same. Green and red pepers were $1.00 a basket. Celery was 15 cents or 2 bunches for 25 cents. Nice bunches of lettuce could be had for 5 cents and radishes were the same. In a few rigs there were green tomatoes. Housewives paid 20 cents a peck buying them for pickling Green corn, the end of a perfect crop sold at 25 cents.

Apples, apples everywhere. In every rig was almost every known and some unknown varieties. The price prevailing was 25, 30 and 35 cents, of course the better grades bringing a better price. Rosy cheeked they all were though and universally of a superior quality. Lovely looking, shiny crabapples were 25 cents a peck. Grapes were piled high in one gardener's waggon. The price depended on the size of the measure but for 25 cents one could get a nice small measure but for 75 cents the big measure represented a good buy. Wild grapes of which there were only a few baskets were 40 cents. The gourd family were all assembled to-day each one vying with the other in the matter of bright adornment. Monster pumpkins were only 10 and 15 cents and squash, canteloupes and citrons were the same price. There were bushels of little canteloupes about the size of a good sized apple at 5 and 10 cents.

In the basket market there was unusual activity. Chickens were 30 cents a pound. At $1.50 a really nice bird could be had. There were a few ducks displayed "40 cents a pound asked one lady "This year's bird", asked the Examiner. "Oh, yes," she replied apparently a little hurt that there could be any doubt about its tenure of life. Eggs were 68 cents a dozen but one farmer's wife who believed in starting at a good price wanted 75 cents. Butter was 68 cents.

The Dog Market

Peterboro might do well to erect a few kennels at the Market Equare to accommodate the terriers, collies, and other canines that are brought there weekly to be sold. Five weeks old terriers were only $3.00 a piece and young hounds that had already learned ta yap, yap yap, were marked at the same price. Little white mice and rats may be pretty and they are said to be more effacious than a spring mouse-trap in ridding the house of their gray brethren but somway they give one and uncomfortable crawling feeling. One boy didn't so and in his little waggon on the market, he had a whole box full and a lot af posteboard boxes all ready to put them in. All for 25 cents a pair.

Six weeks old pigs were $15 a pair on to-day's market.

Amongst the conglomeration of goods to be auctioned off in the mart there was one interesting reminder of the past— A tan leather container for a tall "plug" hat. It had seen better days and was now consigned to the mart to bring what it could. It seemed almost broken down and reminiscent over its tumble, from its once lofty position and social distinction it once enjoyed.

Mrs. Rose and Mrs. O'Connor, who spent the summer at Chemong, returned on Thursday to their home in Toronto.

Why So Many Recommend Fowler

Because hundreds suffering with severe headaches have been permanently cured with "Peblo" glasses, fitted by Dr. Fowler.

Because, Dr. Fowlers' records show over 40,000 satisfied wearers of his eye-glasses.

SILO FILLING IN THE COUNTRY

BUSY SEASON FOR PETERBORO COUNTY FARMERS.

Silo filling, threshing, ploughing, and harrowing represent the principal agrarian activities in the vicinity of Peterborough. There are many farmers who have not threshed yet, and do not expect to be able to get the busy outfits for some time. The fall wheat is looking particularly well, the fine weather coaxing it along nicely. There is still some buckwheat that has not been cut. In its maroon coat it makes many fields look particularly attractive. The fresh brown earth lies dark and glistening behind many a plough in Peterborough County, and in these misty October mornings there is no more stirring sight than the brown furrows being turned back by the glistening plough.

Potato digging is general, and in the city most of the gardeners, amateur or otherwise, are raising their tubers, and recounting with no little pride their yields, in some cases as high as 2,000 per cent.

Hay is coming into the city in greater quantities, and is selling now at $30.00 a ton, an advance of $2.00 over the price that has prevailed all summer.

WEDDING BELLS

MATTHEWS—CRAREY.

On Wednesday evening, Oct. 3rd, Rev. J. D. P. Knox of Warsaw, united in marriage Mr. William Russell Matthews of Dummer and Miss Arvilla May Crarey, late of Michigan.

The ceremony was conducted in the home of Mr. and Mrs. Henry Bell, uncle and aunt of the bride, in the presence of about twenty-five invited guests.

Mr. and Mrs. Matthews will reside at the home of the groom's father, Mr. James Matthews.

OBITUARY

MICHAEL HORAN.

Michael Horan, a former resident of Ennismore, died yesterday morning in St. Michael's Hospital, Toronto, after a week's illness, from pneumonia. Deceased was born in Ennismore, and had resided in Toronto since sixteen years of age. He leaves of the immediate family three brothers: C. Horan and Patrick, of Ennismore, and Gerald, of Detroit, also one sister, Mrs. John McGuire, of 182 Wescott Street.

Funeral on Monday morning. Service at Sacred Heart Church. Interment at Ennismore.

IN MEMORIAM.

In loving memory of Russel Scriver, killed in action Oct. 9th, 1918.
Friends may think we oft forget him,
When at times they see us smile,
But they little know the sorrow
That's concealed behind that smile.
—Inserted by his Brother.

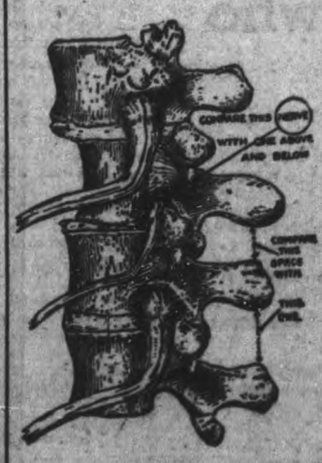
DIED.

BLAIN—At his son's residence, 1701½ Sell street Fort William, Septemebr 19th, Peter Blain, aged 69 years, formerly of Peterboro.

FOUND.—On October 9th, 1920, at 610 Bethune Street, the infant son of the late F. G. Found and Mrs. Found.

The funeral at Bowmanville. Particulars later.

Miss A. L. Turner of Toronto, is visiting Mrs. S. Jay, Riverlyn Gardens, North Monaghan.



The Greatest Thing in the World

is a working knowledge of the law. If you are ignorant of the laws upon the statute books you are bound to get into trouble. If, knowing them, you disregard them nevertheless, you will get into trouble. It is certain that when the laws of health are violated punishment will follow. Statuary law is administered by human beings who are sometimes lax or unable to enforce the laws. The laws of health are immutable. Their penalties are always enforced.

If you stand in front of a moving train or drop from a tree, you have violated two different laws of nature and you suffer accordingly. But more intricate laws govern your internal economy. Lack of function may cause improper digestion of food, causing self-poisoning or auto-intoxication. Improper elimination may produce constipation or even tumours.

These malfunctions and all others are caused by **pressure upon nerves by segments** of the spine becoming displaced by twists, falls, strains, etc. This is the violation of the laws of Nature. Disease results. To restore health, let your Chiropractor remove these impingements upon nerves by the spinal segments. Allow the mental impulses or nerve energy to be transmitted normally. Every part will then be normal, and health will result, because all functions are in harmony with Nature's laws.

VOL. XVLII. NO. 85 PETERBOROUGH, MONDAY, OCTOBER 11, 1920 PRICE THREE CENTS

POLISH GOVERNMENT DOES NOT APPROVE OCCUPATION

VILNA OCCUPIED IN DEFIANCE OF ORDERS—POLES AND REDS WILL SIGN ARMISTICE.

(Canadian Press).

PARIS, Oct. 11.—The Polish Government disavows the occupation of Vilna by General Zeligouski and his troops, according to advice received by the Foreign Office this morning.

The army statement to-day says the action of General Zeligouski's units was in defiance of orders of General Sikorski, who commands the Polish Army on the northern front. General Sikorski telegraphed headquarters here that several days ago he endeavoured to pacify a dissatisfied group, which was composed of elements from the district affected by the latest Lithunian Polish agreements.

Opposed to Reds.

(Canadian Press).

HARBIN, Manchuria, Oct. 11. — General Ungernsternburg, chief lieutenant of General Semenoff, anti-Bolshevik Cossack leader, is reported to be gathering insurgents against the Bolshevik regime in Siberia in his march to Cut Kyakama high road, 70 miles south of Verkhyne Udinsk, capital of the far eastern republic. A general revolt against the Bolsheviki is said to be in progress in Southern Baikaldist, and the Verkhyne Udinsk Government is moving its treasury to Misovaia, on the western shore of Lake Baikal.

Will Sign Up.

(Canadian Press).

RIGA, Oct. 11. — The Polish and Bolshevik delegates engaged in negotiations here will sign an armistice agreement to-night. Hostilities will cease six days after the signature of the covenant. The armistice will run for twenty-five days, and forty-eight hours' notice will be necessary before either side can legally break it. If it is broken for a period of twenty-five days it will continue automatically in effect for an indefinite period, with the provision that it may be broken on ten days' notice.

MALE QUARTETTE ST. JOHN'S CHURCH

SANG THE OFFERTORY NUMBER LAST EVENING.

A new combination, the St. John's Male Quartette, sang the offertory number at last night's service in St. John's, which was a setting of "Hark, hark my soul." The voices blended well together, and as six men are rehearsing, it will be possible to get a quartette when wanted in case of indisposition of any of its number. Mr. Roberts, Mr. Marshall, Mr. C. H. Devey, Mr. Eldred, Mr. Coleman and Mr. Johnson form the combination.

All the men of the choir will rehearse to-morrow night (Tuesday) at 8.30 at the home of Mr. R. J. Devey, 285 Park Street, for the forthcoming choir concert.

General concert practice in the School after choir practice next Thursday.

ANOTHER PATCH ON GEORGE STREET

LEAK IN THE WATER MAIN IS GIVEN AS THE REASON.

A few more patches will decorate the George street pavement as a result of the exploration of the depths of the street which is being conducted in an effort to locate the leak in the water main which has caused a stream of water to ooze up through the bricks beside the street car tracks and trickle down the street.

At the corner of Simcoe street, where the source of the brook is, a by-stander was heard to remark, "Probably when the finish the job they will find that they've left a wrench in the pavement and dig it up again."

WHERE TO GO TO-NIGHT

GRAND— Douglas Maclean, and Doris May in "What's Your Husband Doing?"

ALLEN — "Why Change Your Wife?"

EMPIRE — Eugene O'Brien in "Sealed Hearts."

REGENT — Paramount Special, Great Drury Lane Success, "The White Heather."

WATER STREET BOWLING ALLEYS.

SCHOOL CHILDREN'S EYES.

If every child who attended school and whose eyesight is defective, had proper glasses fitted to htem, much time would be saved and a greater contribution would be made to their future efficiency. See W. H. Lacey, Optometrist, 410 George street. Open Wednesday and Saturday evenings.

GOVERNMENT MAY LACK A MAJORITY

(Canadian Press).

FREDERICTON, N.B., Oct. 11. —Supporters of the New Brunswick Government were confident to-day that with the final checking up of votes cast in the Provincial election last Saturday, their candidates would be found to be elected in King's and perhaps Charlotte Counties. The return of the Government candidates in these two constituencies would give Premier Foster a majority, whereas, according to returns available on Saturday, his party only broke even with the Opposition, Farmers and Labour parties.

FLAGRANT CASES OF CARLESNESS

CONSTABLE DISCOVERED FIRE IN THE SOUTH END.

Saturday, which was Fire Protection Day, saw several flagrant examples of carelessness, the police say. About midnight on Saturday a policeman saw a large bon-fire burning in the back yard of a terrace near the corner of George and Perry streets. The fire was in a narrow enclosure, which was surrounded by frame sheds. All the residents had evidently retired.

The officer wakened all the residents of the terrace and inquired as to who had lit the fire. He received no information. Several pails of water were required to extinguish the blaze.

LEGAL PROTECTION GIVEN REFINERS, OTTAWA STATES

OTTAWA, Ont., Oct. 11.—That no artificial protection, beyond that provided for by law is being afforded Canadian sugar refiners through the occasional innovation of the anti-dumping clause and regulations of the Customs Act, is the statement of the Customs authorities here. Section six of the Act provides that "In the case of articles exported to Canada of a class or kind made or produced in Canada if the export on actual selling price to an importer in Canada be less than the fair market of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada, there shall be in addition to the duties otherwise established be levied, collected and paid on such article, on its importation into Canada, a specitl duty (or dumping duty) equal to a difference between the sail selling price of the article for export and the said fair market value thereof for home consumption, and such special duty (or dumping duty) shall be levied, collected and paid on such articles, although it is not otherwise dutiable."

Is Limited.

The special or dumping duty, however, shall not exceed 15 per cent. ad valorem in any case, and does not apply to goods bearing an ad valorem duty of 50 per cent. or to goods on which an excise tax is charged or to sugar refined in Great Britain.

It is further provided that the duty does not apply when the difference between the fair market value and the selling price to the importer does not exceed five per cent. of the fair market value. This margin, however, may be changed by order-in-Council.

When it is considered that the ordinary specific duty on sugar equals 22.09 cents per pound, that the freight is 1-2 cent per pound and that exchange is 9 per cent. authorities say it is difficult to see how, even at eleven cents per pound (the lower figure in the United States) sugar can very profitably be sent to Canada where the lowest price is 19 3-4 cents. The application of the dumping clause would cause the market to disappear completely.

Slashing is Ignored.

The department, in applying the clause, declares that it does not take cognizance of local 'slashing.' In arriving at fair market value it has reference to the quotations for instance of reputable trade journals. If this is objected to, recourse may be had to investigation.

The only further protection which could be given to the Canadian refiners in the matter would be for the Governor in Council to reduce the margin provided for in the regulations.

The margin, as has been stated, is now for five per cent. So far as the Board of Commerce is concerned, little information on the subject is to be gained. The Board claims that present holdings of refined sugar in Canada are the product of high priced "raws" and that unless an undue profit is made by the dealers, no interference can be justified. The Board has nothing to do with anti-dumping.

Engineer Sent Here

WILL MAKE A REPORT ON THE LOCAL POWER SITUATION—DEPARTMENT ACTS.

Definite action in regard to the power situation has come at last in the detailing by the Department of Railways and Canals of one of the most prominent hydraulic engineers of the Dominion to visit Peterborough and investigate the situation here. This engineer will investigate the relative claims and charges of the Hydro-Electric Commission and the Trent Canal, and will endeavour to ascertain the cause and suggest the remedy of the present power shortage.

The name of the engineer and the the time of his arrival were not known to those having information regarding this latest development this morning.

The Department is evidently attempting to keep this latest step a secret. H. O. Fiske, manager of the Utilities Commission, stated that he had been informed of the matter this morning, and that he had diseussed it over the telephone with Mr .Killaly.

Ald. G. N. Gordon, chairman of the Manufacturers' Committee of the City Council, who has so far been one of the leaders in the fight for definite action, admitted that he had information that the engineer had been appointed.

PRESENTATION TO MR. ED. HANRAHAN IN MONTREAL

Before leaving Montreal on Friday night for Toronto, where he will be married this week, Mr. Ed. Hanrahan was honoured by the choir and dramatic club of St. Patrick's Church. In both these organizations Mr. Hanrahan has taken a prominent part since he went to Montreal. From the choir he received a handsome clock, and from the Dramatic Club silverware. His many friends in Peterborough will be glad to know that his singing, so often enjoyed by local audiences, has shown steady improvement. Among the tributes paid to Mr. Hanrahan's work was the warm appreciation expressed by Rev. Father McShane, pastor of St. Patrick's. The presentations were made during a social evening that was largely attended, especially by the young people of the church.

ACTIVITIES AT THE Y.W.C.A.

About thirty-five young people attended the Sing-Song at the Young Women's Christian Association last night after church. After singing a lot of favourite hymns, refreshments were served and a short social time was spent.

Special attention is called to the various educational classes which begin this week. The basketry class will meet to-night to find out what is needed in the way of materials etc. The first talk in the Story-Telling Course will be given Tuesday evening, and on Wednesday evening, the two Bible Discussion groups will be held at 7.30 and the French Class at 8 o'clock. The first reunion of all those who were up at camp will be held Friday night.

Come and share our work and play!

Monday, 4.30 —Junior Aesthetic Dancing; 7.30—Senior Gymnasium Class; 7.30—Basketry.

Tuesday 4.30—Senior School Girls' Gym; 6.00—Athena Club; 7.00—Jolly Juniors; 7.30—Story-telling Course; 8.00—T. M. T. M Club ;8.00—Good Cheer Club.

Wednesday 4.30—Junior School Girls' Gym; 7.00—Special Aesthetic Dancing Class; 7.30—Junior and Senior Bible Study Classes; 8.00—French 8.00—Ladies' Gym Class

Thursday, 7.30—Intermediate Gym Class.

Friday, 4.30—Junior School Girl's Gym; 8.00—Camper's Reunion; 8.00—Merry Maids Club.

Saturday, 9.30—Junior Gym Class; 10.30—Little Tots Gym Class; 2.00—Ever Bright Club; 2.00 — Sunshine Club.

Sunday, 8.30—Sing-Song.

EGGS AND POULTRY

Toronto and Montreal markets closed last week at unchanged prices. Winnipeg firm current receipts jobbing fifty-six eight, extras sixty-five seven, retail sixty-five seventy-five. Two cars of storage eggs rolling seaboard for export. Chicago current firsts fifty-eight half, storage firsts sitxy-one half. New York current extra firsts sixty-six eight, current firsts sixty-two five, nearby specials eighty-six ninety-eight.

RUSSIAN SUBS TO GET WARM RECEPTION

LONDON, Oct. 11.—Any Russian subs encountered on the high seas are to be sunk at sight by the British fleet.

BUILDING PERMITS FOR THE LAST WEEK

Permit Issued for School Building Several Months After Work is Started.

Building permits for the past week were heavier than for the same time during the past year.

Bell Telephone Company, $2,000, repairs and alterations on the building, 192 Hunter Street. Finnie and Gordon, contractors.

J. H. Seals, $1,050, making 525 Homewood Avenue into a duplex house. R. V. Joues, contractor.

Charles Matthews, $140, alterations to 506 Sherbrooke Street.

E. Ward, $25, verandah, 525 Cedar Street.

Ed. Pemberton, $250, alterations to 282 Dalhousie Street.

S. King, $125, addition to 601 Water Street.

Largest Permit.

The largest permit issued was to the Board of Education for the new Prince of Wales' School, to be completed on March 15th, 1921. The permit is for $208,671. W. and W. R. L. Blackwell, architects; R. Sheehy and Sons, contractors, and George A. Brenton, plumber.

RUNS WERE FEW TO-DAY

WALTER MAILS BLANKED BROOKLYN, CLEVELAND WINNING BY 1 TO 0 IN GREAT DUAL OF SOUTHPAWS.

SHERROD SMITH BEATEN

CLEVELAND, Oct. 11.—Brooklyn Dodgers primed to-day their big gun, Sherrod Smith, to check the rushing offensive of the Cleveland Indians, who have started a batting spree. Brooklyn must win to-day or their chances for the championship will be reduced almost to the vanishing point.

"I have Smith ready," said Manager Robinson, "and if necessary can pitch Pfeffer. Remember if we win to-day we will be even again."

Duster Mails, the Indians' southpaw, was all set to pitch for the American League champions. Weather was hot and the sun burned fiercely in an unclouded sky. It was a real August baseball day.

With two southpaws on the rubber, both managers planned to make the usual changes in the line-ups so as to increase the number of right-handed hitters. An early selection follows:

Brooklyn—Olson s.s., Sheehan 3b., Neils r.f., Wheat l.f., Myers cf., Konetchy 1b., Kilduff 2b., Miller c., Smith p.

Cleveland—Evans l.f., Wambsganss 2b., Speaker c.f., Burns 1b., Gardner 3b., Wood r.f., Sewell s.s., O'Neill c., Mails p.

TWENTY-FIVE GOVT. MEMBERS ELECTED

New Brunswick Elections Show a Win for Premier Foster.

(Canadian Press.)

ST. JOHN, N. B., Oct. 11. — An announcement that the Government had elected 25 members in the New Brunswick elections as against 23 by the Conservative, Farmer and Labour Oposition, was made here this afternoon by E. S. Carter, Premier Foster's secretary.

Mr. Carter said that the vote in King's County, had been re-counted, with the result that Keith, Liberal, was shown to be ahead of the Convative candidate by one vote.

LORD MAYOR LIVETH.

(Canadian Press).

LONDON, Oct. 11.—Lord Mayor of Cork passed a fairly good night at Brixton Prison, according to a bulletin issued to-day by the Irish Self-Determination League. His condition was said to be virtually the same as yesterday. This is the sixtieth day of MacSweney's hunger strike.

Election Outcome

COALITION WITH FARMERS AND LABOUR MEN MAY BE NECESSARY TO CARRY ON.

(Canadian Press.)

ST. JOHN, N.B., Oct. 11.— With some doubt still existing regarding at least one seat the best figures available for the provincial general elections held on Saturday give the Government 24 of the 48 seats, the Opposition 13, the United Farmers 9 and Labor 2. The Government claims one additional seat from the Opposition in King's County. Even with this extra seat the Government will find it necessary to depend on the support of some Farmer or Labor members in order to carry on, but in a speech on Saturday night after the results had been made known, Premier Foster announced that assurances of support he had received made him perfectly confident that he would be able to carry on. Two of his Ministers, Hon. Robert Murray, Northumberland, Provincial Secretary, and Hon. J. F. Tweeddale, Victoria, Minister of Agriculture, were defeated.

The success of Premier Foster and his three colleagues in St. John City, where formerly he had held only one seat, was one of the interesting features of the contest.

Feeling at Capital.

(Canadian Press.)

FREDERICTON, N.B., Oct. 11. — The general impression here as to the outcome of the Provincial elections held on Saturday seems to be that Hon. Walter E. Foster, Liberal Premier since 1917, will be able to carry on, although the returns at this moment show an absolutely even division of the House between the Government and the groups opposed to the administration.

There are several counties in which only a few votes separated the winners from the losers, and friends of the Government here are hoping an additional member or two of the Government party may prove to have been elected.

On the other hand it is said tonight that the Opposition will carry on the objections raised on nomination day in Queen's County to the candidature of George H. King, Government supporter re-elected Saturday, deficiencies in his nomination papers being claimed by the Opposition

TAG DAY RECORDS BROKEN SATURDAY

OVER $1,400 COLLECTED FOR THE CHILDRENS AID SOCIETY.

With a total of $1400 in the boxes, and additional subscriptions of $200, Children's Aid Tag Day records were broken on Saturday. Last year, the boxes and subscriptions totalled $1500.

Mrs. J. J. Knox, who took charge of the tagging, stated that no stone was left unturned and that everyone was covered in the canvass. She was more than satisfied with her assistants who she stated were most efficient.

Taggers who are anxious to know the individual results of their boxes can obtain the figures from Mr. G. W. Powell, agent for the Society. Space will not permit their publication.

The Cheques.

The following cheques were received:

E. L. Goodwill	$15.00
B. F. Ackerman	25.00
Dr. Wood	5.00
R. E. Elcome	3.00
R. Hall and Son	10.00
A. Brown	5.00
J. D. Collins	8.00
W. G. Gemmell	25.00
F. D. Kerr	5.00
Mrs. G. N. Gordon	10.00

"WHY CHANGE YOU WIFE?"

A Rhymed Review.

By Russell Holman.

Are you married? (Pardon, ladies,)
Treat your husbands like a lord?
Care for them like grown up babies?
Don't do that! It makes them bored.

Husbands! Shun that "other woman;"
Beauty may begin at home;
Wives are often very human;
There's no need for you to roam.

Cecile B. DeMille has taken
To the screen a theme from life
Sweethearts! Husbands! Wives! Awaken!
Better see "Why Change your Wife?"

At the Allen, Monday, Tuesday and Wednesday.

THE WEATHER

While a change has come over the weather conditions to-day, the past three or four days have been been as nearly perfect as we ever get them. Bright sunshine, cloudless sky, warm and gentle breezes, with the countryside a mass of variegated colors — who could have anything but a thankful heart. When we have fine weather in October it is of Al brand, but when it is bad the least said about it the better.—W. P.

SALARIES TO BE RAISED AT QUEEN MARY HOSPITAL

PRINCE OF WALES REACHES OLD LAND

(Canadian Press).

LONDON, Oct. 11.—The Prince of Wales, who reached Spitzad yesterday on the battle cruiser Renown, made a triumphant entry into London on his return from his six months' tour of the Empire. Hundreds of thousands of persons turned out to give the Prince one of the greatest welcomes of the kind in the history of the country. From Victoria Station, where he was met by the Royal Family, the Premier and other dignataries all along the route to Buckingham Palace, the streets were lined with cheering multitures, eager to catch a glimpse of the Prince.

A COLLISION ON GEORGE STREET

MOTORCYCLE COLLIDED WITH AUTOMOBILE.

The corner of McDonnel and George Streets was the scene of another accident on Sunday morning at 10.20 o'clock, when a motor cycle driven by R. Stavert, 360 Simcoe Street, crashed into an automobile driven by F. Dobson, 473 McDonnel Street. Dobson's car was considerably damaged, and Stavert sustained a sprained ankle.

At the time Dobson was driving east on McDonnel Street, and was about to turn north on George Street. Stavert was proceeding south on George Street. Dobson claims that Stavert failed to protect his car with his right hand. Stavert claims that he lost control.

Stavert was taken to Dr. E. V. Frederick's office for treatment.

RETURNED SOLDIERS TO ENFORCE GAME ACT

OF 33 OVERSEERS APPOINTED 24 SAW WAS SERVICE OVERSEAS,

TORONTO, Oct. 9. — Hon. F. C. Biggs announced the details of his plan for reorganizing the game and fisheries inspection service, which is now being put into effect.

Until the minister took charge the enforcement of the game and fishery laws of the province was in the hands of some 243 overseers all of whom were part time men. Some of them received only nominal sums for the work they were to do and the natural result was that the interests of the province suffered. The new system does away entirely with the part-time overseer. All the men employed will be whole time men, devoting themselves exclusively to the work of the Department.

The province has now been divided into four districts each in charge of a warden, who will be paid $1800—approximately $35 a week. London will be headquarters for the Western Division, Ottawa for the Eastern, North Bay for the Central and Northern and either Port Arthur or For William for the Northwestern. Under these four wardens there will be 33 overseers or inspectors who will receive a little more than $21 a week.

LOTS OF HOME BREW IN CITY

MANY APPLICATIONS FOR LICENSES TO MAKE GRAPE WINE.

In the opinion of several local fruit dealers, the citizens of Peterborough are making grape wine in plenteous quantities, even if the price is 55 and 60 cents a basket. One dealer believed that it was the immense consumption because of this home-brewing, and the cry of the Americans for more Canadian grapes to satisfy their thirst, that was keeping up the price at the unusually high level. He pointed out that the Americans buy at a distinct advantage, because of the exchange situation, and the stream of trucks and cars laden with grapes across the line was unprecedented.

Following an item in Friday's issue, reminding grape wine edicts that to make the wine legally and above board, the permission of the Inland Revenue preventive officer was necessary, there have been numerous such permissions given at the local office. From the numbers of people who sought the official sanction, it would seem that the manufactured grape wine will have a poor sale in Peterborough this winter.

INHALED DEADLY GAS.

TORONTO, Oct. 9.—Miss Catherine Walls, aged 65, was found unconscious in her room at 216 George Street Thursday afternoon, suffering from gas poisoning, and removed to St. Michael's Hospital. Her condition is critical. It is believed that Miss Walls, when turning out the light on retiring, accidentally opened the jet again.

BOARD OF HEALTH HELD A MEETING THIS MORNING—LIST OF ACCOUNTS PASSED.

The Board of Health met at 10 o'clock this morning and in an hour and a half wormed their way through considerable business. The members present were Messrs. G. Duncan, chairman, E. F. Mason, J. Lynch, Dr. T. W. H. Young, M.O.H., and C. S. Stapleton, Sanitary Inspector.

The monthly report of Miss A. M. Price, Matron at Queen Mary Hospital, was as follows:

Number of patients in the hospital on Sept. 10, 1 of typhoid.

Number admitted during the month 4 made up of scarlet fever 1, diptheria 2, smallpox 1.

Total number of cases for month 5, three of which were city cases, the other being doubtful as to their classification.

Number discharged in month, 1.

Number in the hospital on Oct. 1, 4. made up of scarlet fever 1, and diptheria three.

The total expenditure at Queen Mary Hospital for the month was $1.331.32.

From Indian River.

From Indian River came an anonymous letter complaining of the odour emanating from some dairy there. As the writer had got the wrong number tor egister complaints at from that section nothing was done with it.

The question of what steps the Board should take to make Mr. G. T. O'Connel carry out an alleged verbal agreement between him and the city whereby the city night soil is disposed of by him on his land north east of Downer's Corners for a stated sum annually came up when a letter was received from a resident who alleges that the odour is unbearable. It is stated that Mr. O'Connell is paid $300 a year for allowing the city the privilege of depositing the night soil there. With the verbal understanding that he is to plough it in and obviate the nuisance that would otherwise be caused. This it is said he has not done. The resolution passed this morning reads: That the Chairman of the Property Committee of the City Council be informed that complaints have been received of the manner in which Mr. G. T. O'Connell is disposing of night soil and that some acton must be taken at once to abate the nuisance or action will have to be taken by the Sanitary officers.

A Resignation.

The resignation of Miss H. N. Casey, nurse at Queen Mary Hospital, to

ELLIOT'S STORE

Mr. J. A. New, for some years attached to the firm of Gordon and O'Brien, as a law student, and for three years overseas, has successfully finished his course at Osgoode Hall, and was yesterday called to the bar. Mr. New before entering the study of Law was a reporter on the Examiner and is well known and has many friends in Peterborough.

We congratulate Mr. New upon being called to the Bar and becoming a member of the legal profession.

LOCAL GIRL DISAPPEARS WITH LINDSAY MAN

LINDSAY, Oct. 9.—A phone message was received from Peterboro last night by Constable Parkes, relative to the disappearance of a young girl said to be in the company of a Lindsay young man. The local authorities were asked to arrest the man, but they declined to do so, as no warrant had been issued. The young girl in question, in company with another girl from Peterboro, were in Lindsay some time ago, and were located by the police and sent home.

SALTS IF BACKACHY AND KIDNEYS HURT

Stop eating meat for a while if your Bladder is troubling you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

MISSING BEAVERTON WOMAN FOUND DROWNED.

BEAVERTON, Oct. 9. — Mrs. Stephen Webb disappeared from her home on Sept. 28th. Since then friends have been scouring the country for traces of the missing woman. Forty men started out to make a systematic search, but failed to find the slightest clue.

The mystery was solved Wednesday morning, when the body of the unfortunate woman was washed ashore in front of the Victoria Park Hotel. She is survived by her husband and a boy eleven years old.

SHIPS FOR CANADIAN FLEET LIKELY TO SAIL SOON.

OTTAWA, Oct. 9.—While advices are still lacking as to the exact date on which the small fleet which has been presented to Canada by the British Admiralty will leave for this side of the Atlantic, the hope is expressed that the departure of the vessels will not be delayed beyond the first week in November.

Should the warships start for Canada early in November, it will still be possible to carry out the plan to have them come up the St. Lawrence River as far as Montreal before the close of navigation on the St. Lawrence River.

In addition to the Aurora, and the destroyers Patrician and Patriot, the little flotilla will include two modern submarines.

MERRY BANDITS ON THE BROAD HIGHWAY

AUTO CARS HOLD UP PEOPLE IN COUNTRY DISTRICTS.

LINDSAY, Oct. 9.—Dr. Hall, of Little Britain, is one of the latest to have experience with the nervy customers on the broad highway. He was recently held up by four bandits while on his professional trips and had to hand over $16 it is said.

The story is told that an auto party which passed through Lindsay a few days ago en route for Oakville, had a thrilling experience near Seagrave. After leaving the hamlet and out about two miles, they saw a car at the side of the road with three men who appeared to be busily engaged making repairs. One of the men had a rail in his hand, as if in the act of placing it under the rear wheel. When the auto party neared the scene the car was stopped for the purpose of rendering aid. One of the trio flourished a revolver and politely asked the party to disgorge. The sum of $42, it is said was cashed in, together with a valuable kodak, after which the men were allowed to depart.

Another story is told of a couple of Brock township residents who were held up recently. The car contained a case of liquor which one of the men had received by express. The hold-up men were undoubtedly after money, but when they saw the case they posed as liquor spotters and told the occupants of the car they would have to seize the liquor, as the Government was determined to put a stop to bootlegging. The owner of the case protested but one of the bandits told him he ought to consider himself in luck. If this was up around Windsor, they said, he would be jailed and fined. They would let him go, however, with a warning.

It is believed these auto bandits are from Toronto and leave the city at night on their marauding tours in the country.

GOVERNMENT OWNED PULP MILLS

TORONTO, Oct. 9. — A plan for operating a pulp and paper mill as a Provincial enterprise has been receiving the serious consideration of the Ontario Cabinet for the past three months, it became known recently. The establishment of such a plant as a publicly owned and operated concern is stated to be by no means improbable. According to the plan under consideration, the mill would be established in the Nipigon district at some point to which power could be transmitted from the new Hydro-Electric power development plant at Nipigon Falls.

While neither the details of the plan nor the general policy has yet been decided upon, it would occasion no surprise in Government circles if a favourable conclusion was reached. The plan is unique in that it would be the first time an Ontario Government had ever undertaken the utilization of the Province's pulp resources for the production of paper as a publicly-owned enterprise. If decided upon it is probable that the large timber limit in the district chosen will be set aside for the project.

The Nipigon Hydro-Electric plant will have a surplus of power available for some years. A Government-owned pulp mill, supporters of the idea argue, would furnish a good customer and the basis for a mutually satisfactory contract for power. Another important feature from the Government's standpoint is the results obtained in a plant of this nature would provide the means of ascertaining with far more definiteness than is now the case, what remuneration the province is entitled to in return for timber and pulpwood concessions granted to private enterprises.

SALARIES TO BE RAISED AT QUEEN MARY HOSP.

(Continel from page 1.)

take effect on Oct. 17 was received. Miss Casey told Dr. Harvey over the telephone that she might stay if an increase to her present salary of $35 a month was given. The salary question was provoked out of this and a resoluton was finally passed on motion of G. Lynch and E. F. Mason that the Chairman and Dr. Young be given power to deal with this resignation, and also the question of increasing the salaries to the nurses on the 10 staff. Sanitary Inspector Stapleton was given authority to have the ashes removed from the hospital for the use of the roads commission in repairing Water Street. The Medical Officer of Health was given authority to have the furnace at the hospital repaired and Mr. Stapleton was authorized to buy supplies needed by his department.

The Board will again press on the Council the urgency of having the road leading up to the hospital illuminated with two additional lights.

If we're going to do anything we should do it now or let it drop, emphatically stated G. Lynch when Dr. Young ponted out that Peterboro should avail itself of the assistance given by the government in the establishment of venereal clinics. At a meeting during Dr. McPherson's regime the whole things was threshed out and the Board recommended in favor of establishing a clinic and empowered the chairman and M.O.H. a committee to see the Council or the Finance Committee in regard to the matter. This resolution represented the Board's activity in this matter and nothing else has been done.

It was decided at the meeting today that Dr. J. W. McCullough, Provincial Medical Officer of Health, be asked by Dr. Young to state the exact part they are willing to play in establishing a clinic.

The Accounts.

The following accounts were ordered to be paid: Aaron Comstock, $3.50; Pet. Utilities Commission, $15.00; Pet. Hardware Co., $1.65; A. M. Price, 60c.; Miss E. Graystock, $7.70; G. J. Jopling and Sons, Ltd., $20.54; Higgins Hardware Co., 80c.; Grant and Thorpe, $15.39; W. J. Kent, $16.20; W. H. Hamilton, $62.50; J. Nasimok, $2.59; J. Juby, $9.45; Can. Packing Co., $4.07; D. Minicola, $22.30; J. E. A. Fitzgerald, $16.00; Bell Telephone Co., $12.38; William Brown, $12.30; Nugent Drug Co., $1.80; McDermid and Jury, $4.70.

CEREMONY HELD AT LITTLE LAKE

MONUMENTS UNVEILED TO DEPARTED MEMBERS OF W.O.W.

A very beautiful and impressive service marked the unveiling at the Little Lake Cemetery yesterday afternoon of the three monuments erected by Sherwood Forest Camp of the Woodmen of the World, to mark the graves of Sovereigns Smith, Mrs. Elliott and Pearson.

The Camp assembled as their hall, George street, at 2 o'clock and marched to the cemetery. Representatives from Hastings, Port Hope and the Head Camp were present. Sov. Simpson, Council Commander, represented Hastings; Sov. Brotherson, Council Commander, Port Hope, and Head Council Commander Clair Jarvis, the Head Camp. During the unveiling several hymns were sung by a local quartette.

In a splendid address at the graves Sov. Jarvis touched on the character of the deceased Sovereigns.

About four o'clock the Woodmen marched back to the hall where a hearty vote of thanks were tendered to the visiting Woodmen and also to Sov. S. Jackson, who filled the office of Marshal very ably.

The regular meeeting of Sherwood Forest Camp will be held to-night, when Head Council Commander Jarvis will address the large number of members it is hoped will be present.

TO PROTECT SHEEP.

The Act respecting dog tax and sheep protection, which comes into force on April 1, next, makes it compulsory for all owners of dogs to procure numbered tags, to be supplied by the council, and for killing dogs without tags. The minimum penalty for not procuring a tag is $10. County councils are authorized to pass by-laws requiring all dog tax and license fees collected after 1920 to be paid to the county treasurer and form a sheep protection fund, all claims to be paid by the county, for which purpose county valuators are to be appointed.

AMERICA AWHEEL.

The Case of Pippkins Will Do to Illustrate the Point.

"My neighbor, Pippkins, has changed his manner of vacation," declares Edward Hungerford in Everybody's. "In other years his annual outing was a rather portentous affair. The family began to plan it some months in advance. There were railroad and steamboat and hotel booklets on the library table. When the time came Mrs. Pippkins and the girls went to a huge wooden hotel on the edge of a lake. They dressed three times a day. When Pippkins ran down on one Friday of each fortnight he boarded a hot, dusty, overcrowded train and rode for five uncomfortable hours. They insisted that he don a Tuxedo each evening for dinner. He used to wonder if the game was quite worth the candle.

"Today there are no such doubts in Pippkins' mind. He has a car—so have four-fifths of the families in our quiet street. Pippkins caught the fever early in the game. Today he is a veteran and hardened motorist. He talks earnestly and learnedly of gears and of transmission, and he is superlatively critical of every car except his own. I might write a story upon how that car and its predecessors in the Pippkins family have changed their very soul, but this is not the time nor place. Sufficient is it to say that Pippkins is now a motor expert, and Dr. King down at our corner says that Pippkins has grown ten years younger.

"Mrs. Pippkins and the girls have all but forgotten when they have been on a railroad train in summer. They live in the family car.

"Multiply Pippkins all the way across the face of the land, and you begin to have a definite perception of America awheel."

THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on *your* body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

30c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

FOR THE GUMS

LAKEFIELD NEWS

LAKEFIELD, Oct. 11. — The Women's Mission Circle of the Baptist Church held a very successful and enjoyable open meeting in the church on Thursday evening.

The attendance was large and representative of all the churches in the village.

Miss Northcott, who is home on furlough from China, gave an interesting address on her work among the women and children of her district. Miss Northcott is a nurse, but her care of her charges involves much medical attendance as well as nursing, and her address was informing as well as interesting.

Mrs. Pettit, of Peterborough, gave readings which were also greatly enjoyed. Local talent contributed excellent musical numbers, and Rev. Mr. White presided in his usual efficient way.

At the close of the meeting refreshments were served to the visiting friends from Peterborough.

The Programme.

The programme is appended:
Devotional exercises.
Reading—Mrs. Pettit.
Duett—Miss Quinn and Miss Webster.
Address—Medical missionary work in China—Miss Northcott.
Solo—Rev. Mr. White.
Devotional closing.

A Roast.

A jolly roast held at Strickland's Point on Thursday evening was attended by about fifty young people, and, judging by the bountiful provision made for the feast, every one must have had "a great plenty," as the Americans say.

After the supper adjournment was made to the pavilion at the wharf, where a dance to victrola music finished a very happy evening.

A Funeral.

The funeral of the late Mrs. James Watson was held Friday afternoon, the service being held in St. John the Baptist Church, of which the deceased was a devout member.

The beautiful burial service was conducted by Rev. Frank Vipond, the Rector in charge, and suitable music was rendered by the choir.

The late Mrs. Watson, whose maiden name was Elizabeth Hetherington, was born in Smith Township 61 years and 6 months ago. She was one of a large and highly-thought-of family, and her own inborn gentleness and beauty of character endeared her to her wide circle of friends. Like all her family, her attachments were warm and sincere, and her manner quiet and unassuming, and her passing will leave sadness in many hearts. Her long illness was borne quietly and patientely, and at the last she went away suddenly and unexpectedly. She leaves her husband and one son, Percy, to mourn the loss of a faithful and devoted wife and mother. The following are her sisters and brother who will lament her deeply: Mrs. Patterson of Essex, Mrs. Thomas Watson of Lakefield, Mrs. William Roseborough, Smith, Mrs. Sweeting of Cavan, Miss Annie Hetherington—her twin sister—of Lakefield, Miss Susie Hetherington, also of Lakefield, and James Hetherington, of Peterborough.

The pall-bearers were: Messrs. Lewis Hunter, Robert Jory, Wm. Nugent, Wm. Frankish, Richard White and Rev. A. W. Mackenzie.

The funeral and service were attended by a large number of friends and relatives, amongst the latter being Mr. T. James Watson, nephew, wife and daughter, of Cobourg.

LAKEFIELD, Oct .11. — Mr. and Mrs. A. Fawcett were in Peterboro on Saturday.

Mrs. Hamlin and Mrs. Andrews of Norwood were week end guests of Mr. and Mrs. Fred Richardson.

Miss Ena Sanderson of Peterboro, was in the village for the week end.

Miss Elsie Ogilvie, who spent the past month in the village, returned to Toronto Saturday.

Mrs. John Sanderson and Miss Ione have returned from a visit to friends in Renfrew.

Mr. and Mrs. Theodore Crawford were at their cottage "Rough and Ready," at McCracken's Landing on Thursday.

Mr. M. M. Wood of the Royal Bank at Peterboro, has been transferred to the local branch as accountant.

Mrs. J. C. Smith left on Thursday for Avonmore to visit her father, Mr. R. N. Leighton, who is very ill.

Dr. and Mrs. Finnemore were in Peterboro on Saturday.

Miss Jean Thomson of Peterboro, spent the week end with her parents, Mr. and Mrs. C. Thomson.

Mrs. Hull was a visitor to Peterboro on Saturday.

Miss Edith Grifin was the guest of friends in Peterboro for the week-end.

Miss Loretta Watley of Peterboro, was a week end visitor in the village.

The New Dam.

Work on the dam is going forward rapidly. The centre span is now almost complete. The ideal weather conditions have been of great value to the workmen. The dam is going to be an imposing structure when completed and will be a great improvement to the village.

The Junior team from the P. C. I. played a friendly game of Rugby with "The Grove" team on Saturday.

VERY LIKELY "WORM" LEADS FOUR TO COURT

BRIDGEBURG, Ont., Oct. 11.—An old-fashioned still, similar to those in the hills of "Old Kentucky," was found near Allanburg by Ontario license officials last week and the presence of large quantities of "moonshine" whiskey among the foreign section at last explained.

In the last ten days there have been four accidents near Thorold among foreigners, largely due to to over-indulgence in "moonshine," and the authorities are determined to locate the source.

In the rolling hill country near Allanburg it was found. Four Hungarians had installed there a worm of no mean capacity and activity. A number of barrels of completed brew and bottles containing the stuff were seized and the four will be held to be tried under the inland revenue act.

LABOUR LEADERS CRITICISED.

TORONTO, Oct. 9.—The feature of the last District Labour Council meeting here was the severe criticism of the delegates atending the recent Windsor convention for having shelved the radical resolutions sent there for discussion by the local Council.

President Gompers of the A. F. of L., and President Tom Moore, of the Dominion Labour Congress, came in for more abuse than praise.

Delegate Marks, who was one of the severest critics, concluded by making a strong plea for unity.

The Provincial executive of the Independent Labour Party is very desirous of having a conference with the Labour members of the Legislature to discuss matters affecting the workers before the next meeting of the House.

EMPLOYED IN LINDSAY NEGLECTED HIS FAMILY

Two Women Claim to be Wife of York Man.

LINDSAY, Oct. 11.—Chief Short has received a message from a county constable of York county to arrest a man employed in a local factory, who was charged with neglecting to supply the necessaries of life for his wife and family. The Chief visited the plant and placed the man under arrest. He had a pound of butter in his possession which he wished to leave at a house on Kent street east before going to the jail. The Chief assured him that he would deliver the butter. After taking the accused to the jail, the Chief took the butter to the house where he was received by a young woman who claimed to be the wife of the accused. She was informed by the Chief that accused had a wife in Toronto, and did not seem to be disturbed by the announcement.

Chief Short notified York County authorities of the arrest, and an officer will come down for the prisoner.

MUSIC AND DRAMA

SAN TOY

Mr. F. Stuart-Whyte's production of "San Toy" at the Grand on Saturday delighted two large audiences. It was a typical Whyte production hand somely staged with beautiful scenic and lighting effects and a splendid company well balanced in every particular that did full justice to the tuneful score of the delightful comic opera. A number of favourites from Mr. Whtye's pantomines were seen in the caste notaby Miss Zara Clinton, who played the title role in charming fashion. Her acting was refreshing while her vocal numbers were presented in a manner that won new laurels for Miss Clinton. Fred Walton a most entertaining comedian was Li and he got every last ounce of fun out of the part. J. V. Farrell-Lennard well remembered for his work in Red Riding Hood and other pantomines was Sir Bingo Preston. The other roles were capably looked after. The splendid music which features 'San Toy" was admirably handled and all the old favourites "A Party from Over the Sea" "Six Little Wives", "Love Has From Lotus Land", "The Moon Song" and the other proved as popular as ever

"Peterborough Presents Possibilities Unsurpassed."

MONDAY, OCTOBER 11TH, 1920.

AN EXPLANATION.

The power shortage which has so seriously inconvenienced industrial firms in Peterborough during the past two weeks is the reason why The Examiner to-day does not contain as much news as usual, and why the editorial columns and other departments are necessarily curtailed.

The Examiner was without any power to operate its linotype machines until noon to-day, and as a result the paper appears in its present form. The blame rests entirely on the shoulders of those responsible for the power famine that is crippling industries in this section.

CLEAN-UP.

The action of the Fire Department in inspecting business houses and also private dwellings this week with a view to the removal of any fire hazards that may exist, is a practical manner of carrying out the Safety Week campaign. Members of the Fire Department are now engaged in the important work, and the citizens are urged to co-operate with them by cleaning up their premises, getting rid of old boxes, papers, and other rubbish of a nature likely to cause or spread a fire. Many disastrous fires are the direct result of the accumulation of rubbish under stairs, or in back yards or sheds, and the present week should mark the disappearance of much of the danger from this cause so far as Peterborough is concerned.

ALL-BRITISH PRODUCTIONS.

Canadian playgoers owe much to Mr. F. Stuart-Whyte, who in the last few years has presented in this country some splendid all-British attractions, and whose production of "San Toy" here on Saturday delighted two large audiences. Mr. Whyte's companies and programmes have invariably been British in every essential particular, and have been a welcome novelty when contrasted to the cheapness and slapstick methods of some of the attractions which American booking agents have been good enough to allow Canadians to patronise. There is a different atmosphere about Mr. Whyte's offerings—a feeling that seems to link players and audience.

Mr. Frank Fair, dramatic critic of the Montreal Herald has expressed it neatly when in referring to another British production, "The Maid of the Mountains," which Peterborough is to have the good fortune to see shortly, he says: "We all felt that we were really at home in our own theatre, with our own people not only in front of the curtain but behind it, and in charge of it, and running it for us. It is a pleasant sensation. It is one thing to enjoy a show; it is quite another thing to be proud of one. Montrealers not infrequently experience the former feeling; the latter is a bit rare."

The words might have been written with equal justice of any of Mr. Whyte's productions; they will always be sure of a warm welcome here.

FRENCHMEN FIRST.

At the Orleans Labour Congress, the French trade union leaders gave their answer to the fiat of Moscow. Lenine, the Russian dictator, seeks to dominate the world by the power of an idea propagated through the Third Communist Internationale, a political organisation represented in many European labour bodies. Lenine's recognised leader in France is Marcil Cachin, who laid down at the Orleans congress the conditions drawn up in Moscow. The tried leaders of French labour rejected the proposals because they were not a political party and did not wish to attempt an immediate violent revolution, the course advocated by the Bolsheviks of Russia, and finally they were "Frenchmen before they were internationalists."

In considering the attitude of the French toward Bolshevism, it is well to remember the French Revolution, when the people responded to the slogan, "Liberty, Equality, Fraternity." The horrors of that Revolution are not likely to be forgotten while the French language lasts. Bolshevism differs only in that it seeks to strike at the foundations of every civilised nation and create a world revolution, the consequences of which not even Lenine and his apostles can foresee. No subtler blow was ever aimed at the root of civilisation than that contained in the Bolshevik doctrine which seks to find response in individual dissatisfaction with existing conditions of life.

In a country such as Russia, where the vast majority of the people are ignorant and the least advanced industrially and politically, it is no wonder that the artifices of the Socialist fanatic succeeded in securing a sufficient following to enable him to seize the governing power. How that power is maintained and exercised is, however, quite another question. After three years it still remains a military dictatorship as complete and ruthless as that of the late Tsar, a condition that would not be tolerated by the self-governing people of the advanced countries of the world. While there are nominal local governing bodies, they exist only by the grace of the central government which holds unquestioned sway in national affairs. But its prestige has received a hard blow at the hands of the Poles in the abortive attempt to capture Warsaw. Latest advices from Paris predict that the Bolshevist rule will crumble before the end of the year.

The action of the Orleans congress is interesting as showing the determination of French workmen to be independent of Red control. By a vote of 1,478 to 602 the proposal to co-operate with the Moscow Internationale or active revolutionary party was rejected. The majority declared unreservedly that the "revolutionary objects are incompatible with present institutions and with capital and its political expressions." At the same time the improvement of the workers socially and industrially is urged by the spread of unionism.

The secret of French solidarity is that the country has gone through nearly a century of socialist agitation of one form or another, and in every political upheaval the people paid an appalling sacrifice in blood, and groaned for the establishment of settled government. Well may French labour pause to consider the "Reign of Terror," and the dictatorship of Napoleon, before embarking upon another nightmare of horrors. Loyalty to the state is the sheet anchor in the storm of Bolshevist agitation that is disturbing men's minds to-day, for what would it profit a man or group of men if in an industrial revolution the governing power should pass to a clique of assassins who hold human life as of no value? The French have had their lesson, a lesson that all people who consider their own happiness and that of their fellow men, should consider.—Brockville Recorder and Times.

Lightens Work and Heightens Pleasure

It costs no more to get a really good Working or Outing Shirt—one that fits right, feels good, and wears splendidly. All you have to do is ask for, and see that you get, a "Deacon" Shirt. Sold at all good stores.

TRAIN STRUCK AUTO FLAGMAN ARRESTED

OSHAWA COUPLE SEVERELY INJURED AT TORONTO CROSSING

TORONTO, Oct. 9.—Mr. and Mrs. James Burke, of Oshawa, Ont., were badly shaken up and sustained sundry cuts and bruises when the automobile they were driving in was struck by a backing freight train at the railroad crossing at Eastern Avenue and Don Esplanade. As a result of the accident, Patrick McGinnis, a flagman at the crossing, is under arrest on a charge of criminal negligence. Mr. and Mrs. Burke are in St. Michael's Hospital recovering from their injuries.

According to the police McGinnis was away from his post at the time the train backed towards the crossing. The automobile was going west, and as there was neither flagman nor gates at the crossing, and he could not see the train, Mr. Burke, who was driving, kept right on. The car was demolished, and its occupants escaped death by a miracle.

EUGENE O'BRIEN PREFERS FRIENDS AND FLAPJACKS TO FRILLS AND "FLOSSIES"

It has been the fate of Eugene O'Brien, the Selznick star, who is at the Empire theatre this week in his second Selznick Picture, "Sealed Hearts" to be cast for hero roles ever since he's been in the movies. But O'Brien has no use for the soft pedal "hero" stuff in daily life, and here is his own emphatic assertion on the subject.

"Just before an actor fits into the hero parts of a picture and is successful in them," says Eugene O'Brien, 'that is no reason for jumping to the conclusion that he goes mooning through all his nights and villain-smashing through all his days. In reality, the two things I long for most in life are good flap-jacks and good friends."

While some screen celebrities might enjoy the sensation of being lionized, this is decidedly not the case with O'Brien. This Selznick star is and wants to be known as a plain mortal with his feet planted firmly on solid ground.

Although he has been on the stage since his graduation from the University of Colorado, his consistent success both behind the foot-lights and on the screen has in no wise turned his head. He is the same whole-souled, likeable chap with a firm hand-clasp and a steady look in his eye.

Furthermore, he treats women in the same open, above-board manner as he treats men. The girl who can oppose him in a strong game of tennis, or ride a horse as hard and long as he can, will win his friendship and esteem and hold it, while the young lady who hints at a stroll through lover's lane or a canoe trip under a full moon, will find herself not included in his party the second time.

Rheumatic Pains

Quickly Eased By Penetrating Hamlin's Wizard Oil

A safe and effective preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out the soreness, and limbers up the stiff aching joints and muscles.

Wizard Oil is a good dependable preparation to have in the medicine chest for first aid when the doctor may be far away. You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for earache, toothache and croup. Always keep it in the house.

Generous size bottle 35c.

If you are troubled with constipation or sick headache try Hamlin's Wizard Liver Whips. Just pleasant little pink pills at Druggists for 30c.

LT. COL. LECKIE AGAIN HAS ENGINE TROUBLE

Resumed Trans-Canada Air Flight This Morning.

OTTAWA, Oct. 9.—Lieut.-Col. Leckie, in his F-3 seaplane left here at eight-thirty this morning for North Bay, resuming his trans-Canada flight. The Lt.-Col. arrived in Ottawa yesterday afternoon. Two attempts were made to resume flight, but trouble with the engine made a get-away impossible until this morning.

Yours to Enjoy!

Mayonnaise

3 tablespoonfuls Borden's Evaporated Milk, undiluted; ½ teaspoonful salt; ¼ teaspoonful pepper; ½ teaspoonful mustard; 2 tablespoonfuls sharp vinegar; ¾ cupful salad oil—any kind. Combine the seasonings, add the milk, and gradually beat in the oil with an egg beater. Then whip in the vinegar. Use as any Mayonnaise. Transfer to covered jar, keeps well in a cool place.

Orange Cream Sherbet

1 cupful Borden's Evaporated Milk; 3 cupfuls water; 1¼ cupfuls sugar; ½ cupful lemon juice; ½ cupful orange juice. Boil the sugar and water together for five minutes. Chill and add the fruit juices. Freeze slightly in three parts ice to one part salt, then add the evaporated milk and finish freezing.

One Egg Cake

¼ cup Borden's diluted with ¼ cup cold water; ¼ cup vegetable cooking oil; ⅔ cup sugar; 1 egg; ½ teaspoon salt; 1½ teaspoons baking powder; 1 cup barley flour; ½ cup cornstarch; ½ teaspoon vanilla; ½ teaspoon lemon extract. Beat egg light and cream with sugar, salt and flavorings. Combine milk diluted, with cooking oil. Sift dry ingredients together and add alternately to first mixture with the milk. Beat thoroughly, turn into lined, medium-sized pan, sprinkle nut meats, chopped raisins or cocoanut over top. Bake in moderate oven.

Many other equally good recipes are in the Borden Recipe Book, all simple and economical to make. You'll be delighted with the convenience of cooking and baking the Borden way.

Your recipe book is waiting for you.

HUNGARIAN ARRESTED; CRIMINAL ANARCHIST

NEW YORK, Oct. 11.—Police arrested Daniel Weiss, 22, a Hungarian banker who, they allegd, was found placing handbills bearing anarchistic statements in the mail box of a hallway in Eaast 86th street. He was charged with criminal anarchy.

The handbills, which were typewritten, were headed, "dynamite and bombs." They contained an attack on capitalists, the government and the press, ending with the statement, "all power to the workers." They were signed, "The United Communist Party."

All Fat People

Easily Reduce

The world owes a debt of gratitude to the author of the now famous Marmola Prescription, and is still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. They are so convenient to take, and as pleasant as candy. One after each meal and at bedtime will quickly reduce your weight, two, three or four pounds a week, and leave no evil effects such as loose, flabby skin and unsightly wrinkles. Just go on eating what you like—leave exercise to the athletes—take your little tablet as directed and soon you will be your natural self, cloaked in firm flesh and trim muscles. Marmola Prescription Tablets may now be obtained at all drug stores, or by writing direct to the Marmola Co., 22 Garfield Building, Detroit, Mich., and their reasonable price—one dollar for a good size box—leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal proportions.

HEROISM IN THE NAVY.

It Is Not an Event, but a Mere Matter of Everyday Duty.

Our navy is crowded with men who will face any danger. Some years ago one of our battleships was on the battle range, with bags of powder stowed in her turrets to save time in loading and firing the guns. A spark got to the bags of powder. There were an explosion and a fire. Directly underneath was the handling room. Burning pieces of cloth fell from the turret down into the handling room. The crew of that handling room could have jumped into the passageway, made their way up a ladder and so on to the free and safe air of the open deck. What they did was to stand by to stamp out what fire they could.

Leading from the handling room were the magazines. The doors of the magazines were open. Men jumped into the magazines and buttoned the keys of the bulkhead doors so that there would be no crevice for sparks. In doing that they locked themselves in, and once in they had to stay in. Above them, they knew, was a turret full of men and officers dead and dying. They knew that fire was raging around them, too, and that the next thing would be for the people outside to flood the magazines. The magazines were flooded. When things were under control and the doors opened the water in the magazines was up to the men's necks.

While that was going on below decks in the turret were other men and officers, including the chaplain, not knowing what was going on below and expecting every moment to be blown up into the sky. But there they were, easing the last moments of the men who were not already dead. Thirty all told were killed in the turret. All concerned behaved well, but no better than they were expected to behave.

A few years ago there was a destroyer off Hatteras. It was before daybreak of a winter's morning in heavy weather. A boiler explosion blew out her side from well below the water line clear up through to her main deck. Men were killed by the explosion; others were badly scalded. A steam burn is an agonizing thing, yet some of these scalded men went back into that hell of a boiler room and hauled out shipmates who, to their notion, were more badly burned than themselves. One such rescuer died of his burns. The hole in the deck and top side of that destroyer was twelve feet across, yet her commander and crew got her to Norfolk under her own steam. Commander and crew behaved well, but no better than they were expected to behave.—James B. Connolly in Collier's Weekly.

How Norway Finds Sailors.

Norway's navy, being a young service, is built expressly for defense and not defiance. But, though her ships are few, the quality of her men is high, the hardy fishermen of the coast providing an abundance of excellent material, and her officers are chosen and trained with the utmost care. A cadet has to serve at least one year in the merchant service before he can enter the naval college at Horten, and his qualifications before obtaining the rank of sub-lieutenant must include a thorough knowledge of English, French and German, with ability to speak English and one of the other two languages fluently.

Swimming as an Exercise.

There is no exercise like swimming. The breast stroke builds arm and shoulder breast muscles. The forward thrust and backward sweep are guaranteed to develop those back muscles which cure the scholar's stoop. The scissors kick of the side stroke will do more for the legs than all the gymnasium tricks yet invented. The arduous labor of the trudgen and the crawl compels deep breathing. And when one's wind, grown short in office or chair or over workbench, is spent you turn upon your back and rock, as in a cradle, looking at the sky.

Motor Wheel Rims.

How many automobilists are there who ever remove their rims from the wheels until forced to do so by reason of tire trouble? Very few, is the answer. If they did take the rims off after having run the car for a short time and use a little graphite in between the wheel and the demountable rim they'd find tire changing easier later on. As it is, rims are sometimes so rusted and plastered on that they take an unconscionable time to remove when the need finally does arrive.

To Cure Scars.

Scars are often very ugly things and disagreeable marks when they exist in prominent places on the skin. Probably nothing can remove a big scar the tissue of which has become fibrous and unyielding, but the following recipe, to be applied on lint and allowed to remain on the part for a little time daily, will effect an improvement in small scars and blemishes: Borax, one and a half ounces; salicylic acid, twelve grains; glycerin, three drams; rosewater, six ounces. Mix.

Have to Be.

"I have been visiting one place, at least, where men are always guarded in their conduct."

"And what might that remarkable place be?"

"The penitentiary."

True Politeness.

"Does your wife listen to your advice?"

"Listen? Of course she does. My wife is very polite."

When you meet an obstacle use it as a stepping stone.

Literature.

"Dasher your favorite author? Why, he doesn't average one short story a year."

"That's why he's my favorite author."

It is better to say, "This one thing I do" than to say, "These forty things I dislike in."

LUX

for Voiles, Linens, Batistes, Cottons

Do not think of LUX as a cleanser for only georgettes, chiffons, tricolettes, crepe-de-chines. The bubbly LUX lather means double life to anything you can wash—anything that pure water will not harm. Chiffon or linen, it's all the same—use LUX.

WOOD WANTS $2.50 FOR WESTERN WHEAT

Government Could Set Minimum Price Without Losing to Itself.

CALGARY, Oct. 11.—The setting of a minimum price for wheat, which should be no less than $2.50 a bushel, is probably the only means now open to the government to counteract the ill-effect of the abolition of the wheat board. This is the opinion of H. W. Wood, president of the United Farmers of Alberta.

If this minimum price be set, and a thoroughly capable man appointed to handle the wheat purchased by the government, Mr. Woo dbelieves that the government would yet be able to clean up the crop of 1920 without loss to itself.

CONVEX LENS OF THE EYE.

A Burning Glass That Adjusts the Sight to Varying Distances.

One of the manifold wonders of the human eye is the convex lens with which the focal distances of sight are made instantly and without mental effort. This lens in the eye is a literal "burning glass," as may be shown by the simplest of experiments.

Let the person at midday hold a straw against the face of the sun and focus his eyes on the straw. He can look at the straw, with its background of a dazzling sun, and without discomfort. But the moment he looks at the fiery ball of the sun itself subconsciously the lens of the eye comes to its proper focus, with the result that a "burning" sun spot appears on the retina of the eye, and it is said that a few seconds of such looking would burn out the retina as if by fire itself.

In the subconscious adaptability of the eye lens to adapt itself to different distances lies its value to the human sight. The man with a camera adjusts the focus of his lenses by sliding them forward and back. The lenses of the human eye, by changing their curvatures, allow of one looking at fine print six inches from his nose and in a fraction of a second to look up and away, probably fifty miles to a mountain peak that in an instant is in true camera focus.

NEGLECTED FOODS.

Their More Liberal Use Would Be a Help in Home Economy.

Among the foodstuffs that American housekeepers have scarcely utilized are turnip tops, radish tops, mustard plants, sorrel and chick peas among the vegetables and the cheese product that can be extracted from whey.

The greens mentioned may all be cooked like spinach or they may be made into delicious cream soups, as they have been for centuries by European housewives. Enough sorrel grows in the average vacant lot in every city to make many purees or cream soups.

Chick peas are as nutritious as beans and when served in a broth are just as tasty. They also can be made into a puree.

Radish tops and mustard leaves make a cheap and appetizing salad.

Professor Mary F. Rausch in a lecture at the University of Washington gave some hints about home economies, one of which was that foods in shallow pans cook more rapidly than in deep pans, thus saving gas. Another was that not a scrap of fat of any sort need be thrown away, but all should go into a double boiler and be tried out for use in frying or as shortening for pastry.

With the Fair Flower.

Friend—What kind of car did you buy? Retired Sea Captain—Well, she draws about fifty feet of dust and displaces half my bank account.

Catty.

Miss Sharpe—She's her own chaperon, Greene—How's that?

"You ought to see her face."—London Answers.

CANADIAN SHOES FOR CANADIAN PEOPLE

A thousand rumors do not make one single fact

ALL of us *want* to believe the rumors regarding further reduction in footwear prices. If they were founded on fact—or even probability—we would have been ahead of Rumor in announcing the good news.

BUT rumor, as usual, ignores the one fact that controls the situation—that prices to the retailer are governed by the cost of raw materials and labor.

High prices are not of our making or seeking. They have been imposed upon us and you by the tremendously increased cost of every single thing that enters into the making of shoes.

And these high material costs, together with to-day's wage scale, which govern and dictate our shoe prices, show no immediate tendency to permanently seek lower levels.

THAT is why we cannot make any definite promise to you that our prices to the retailer will be any lower this season than those in effect for Spring, 1921, styles.

Irresponsible Rumor ignores these facts—delights in "sensational news"—and, as is so often the case, hurts everybody indiscriminately until its falseness and viciousness become apparent.

We appreciate our responsibility to you; we want to help towards cheaper living and we are earnestly striving to improve matters. We ask your confidence and belief to encourage us towards that end.

OUR advice to you—and we give it in all sincerity—is to BUY NOW any shoes you need for yourself or your family for Fall and Winter. Don't buy extravagantly or recklessly, but do so carefully and judiciously.

SHOE MANUFACTURERS ASSOCIATION OF CANADA

COL. MACHIN DENIES CHARGES OF BRIBERY

PORT ARTHUR, Oct. 11.—"No such transaction ever took place," said Col. Machin, testifying at the Riddell-Latchford timber inquiry here Saturday, in answer to the evidence of Charles Greer, given last June in Toronto, to the effect that he had paid Col. Machin $1,000 for the use of his influence in securing timber concessions.

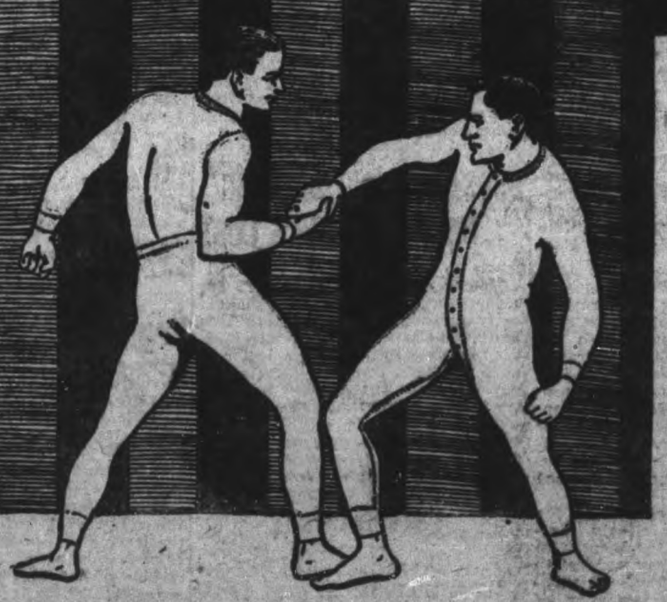
Col. Machin denied all the features of Greer's evidence reflecting upon him. Copies of Col. Machin's bank book wer presented and they failed to show any deposit that would corroborate Greer's evidence.

Asked if he had ever received any money for his influence, Col. Machin declared the question was an insult and such a thing was impossible.

Col. Machin said that had he gone to Sir William Hearst, then minister of lands and mines, with an improper suggestion, he would have found the door closed against him, to stay closed. Sir William, he said, was a man of the highest honor and integrity and his own differences with him were only on matters of policy.

STANFIELD'S *Unshrinkable* UNDERWEAR

"It wears longer"



"Stands Strenuous Wear"

STANFIELD'S *Unshrinkable* Underwear is made in all sizes and all weights. The elastic closed crotch, and the elastic shoulder insert, give delightful comfort and freedom of movement.

New Hats for Fall that will Win Your Admiration and the Price

$8.00

The charming simplicity of these new fall hats is one of their best assets. They are simple but not plain, and some of course are more elaborate than others, but all are very lovely and becoming. Some are from our own workrooms, others are New York importations. The styles are varied and any woman or miss can find a becoming hat at a very special price. Each, $8.00

RICHARD HALL & SON LIMITED

FUEL CONTROL

OTTAWA, Oct. 8.—Details of the fuel control order promulgated here show that the general plan for the coming winter follows very closely on the lines of the scheme in effect throughout the Dominion during the coal shortage of the winter of 1918. Contraventions of any section of the order will result in prosecution and penalties.

The policy set forth dealing with the provincial organization and licensing of dealers is that the Government of each of the Provinces of Canada may appoint a Provincial fuel administrator or Board of Administrators for each Province. It may also create such central provincial organization as it may deem necessary. Any expense so incurred shall be borne by each Province. The duty of the Fuel Administrators, subject to the orders of the board, is to supervise the distribution of all coal and other fuel imported into or made available within such Province; to develop the demand for and supply of wood and other coal substitutes to the greatest possible extent, also to promote within the Province the greatest developement of any coal areas available. To issue orders to dealers, consumers and others within the Province regarding the distribution and use of coal and to license brokers and others desirous of engaging in the business of selling coal, are other powers conferred by the board.

Municipal Situation.

Municipally, the board deals with the situation in a manner similar to that drawn up for the Provincial administrators. The duties of the municipal fuel commissioner are chiefly to co-ordinate the work of fuel scarcity within such municipality delivering coal during any period of fuel scarcity within such municipality and to institute when necessary, a system of controlling retail coal deliveries through orders on dealers within the municipality issued by the fuel commissioner.

Part B of the order, in dealing with the restriction of coal deliveries, reads: No dealer shall sell or deliver to a consumer, and no consumer shall receive any quantity of coal which, added to the quantity of coal which the consumer may then have on hand, would conatitue more than an estimated supply for such percentage of the consumer's normal needs to March 31, 1921, as may from time to time be determined by the Fuel Administrator.

Restrict Consumption.

The clauses referring to the restrictions in the use of coal in part say: "The Fuel Commissioner, with the approval of the Fuel Administrator, may issue orders to any or all fuel dealers within the municipality prohibiting such fuel dealers from supplying coal for any stated period or until otherwise directed, to any individual or group of consumers requiring coal for purposes not deemed vitally important."

The requisitioning of coal by the Fuel Commissioner is clearly outlined, and if, in his judgment, an emergency exists he may, subject to the approval of the Fuel Administrator, requisition any quantity of anthracite coal in the possession of any consumer in excess of the supply permitted, viz: The consumer's normal needs to 31st March, 1921.

Requisition Vehicles.

The Fuel Commissioner may by written notice to any fuel dealer, carter, or any other person within the municipality, requisition the use of any horse, wagon, sleigh and other delivery equipment owned by or being in the custody of such person for the purpose of expediting coal deliveries.

Every retail coal dealer may be required by the Fuel Commissioner to post in a prominent place in that portion of his office to which the public has access, a conspicuous typewritten or printed notice containing a list of prevailing retail prices of all classes and sizes of coal handled by him.

Heavy Penalty.

Dealers are to give the commissioner details of coal received, orders booked, prices charged etc. For failure to comply with the regulations they are liable to a fine of not less than $20 and not more than $5,000. Where any information is laid against any dealer or broker for an offense onus shall be upon the defendant to establish that the prices charged by him did not exceed those authorized by these regulations.

SCOTT'S EMULSION

Scott & Bowne, Toronto, Ont. 20-15

SUNDAY SERVICES AT MARK STREET

The congregations at Mark street yesterday were, as usual, large and appreciative "God's Wheel of Fortune', was the subject of the morning sermon, and was based on Ezekiel 1 16th. "And their appearance and their work was, as it were, a wheel in the middle of a wheel." The following points:

1st Ezekiel stood on the banks of the river Chober with God at midnight, and beheld in the northern heavens a whirlwind, in the centre of which was a black cloud with a light and shining border. In the midst of the cloud an amber coloured fire glowed, and in the centre of the fire, four living creatures. The living creatures had wings and hands under these pinions. They had the face of a man, a lion, and ox, and an eagle. The living creatures were accompanied by wheels that moved forward and upward and were full of eyes. This whole beautiful vision represents the province of God.

2nd This was not a wheel of fortune that appeared to Ezekiel, but the wheel of Divine providence. There is no chance work. Perhaps the last agricultural exhibition was the best in the history of Peterboro, but every decent man and woman was ashamed of the 'Midway". We have reason to believe that this nest of gamblers will receive a cold reception another year. The honest young man to-day does not want something for nothing. He has no time for raffles or fortune-telling. He will scorn to own a motor car that just cost him one dollar, while a thousand other men each have a dollar in the machine. He will ride in his own car, or wait till he can buy his own. Beware of raffles, fortune-telling, and witches, when King Saul, went to the Witch of Eudore, he severed the last golden link that bound his soul to God.

3rd. The wheel of God's providence is a living wheel. It's motion is upward and forward in a straight line. No blind chance, for the wheel is full of eyes. As the world is an island surrounded by the seas, so the providence of God surrounds the world of men. The providence of God mounts on the wings of love, the Spirit of God flashes through the wheels, there is the face of a man in the vision indicating wisdom; that of a lion, which means strength, that of the ox for endurance and that of the eagle for swiftness. So the providence of God is wise, strong, enduring and swift, as the eagle in his flight.

4th. You will notice that these living creatures had hands of a man under their wings. Now, the vision is human and Divine. The human hand is under the Divine wing everywhere and always in all moral and spiritual progress. The very humanity of Christ means the human hand beneath the wing of the Divine, and the heathen millions must be saved by the human hand under God's wing. Is not religion itself simple our poor weak, trembling hand resting beneath the warm wing of the Divine Father? Let us, then, make much of God's providence, for it is ever bearing us upward and forward to higher and better things, until it will carry us onward through the gates into the Eternal city.

CANNOT DESCRIBE TERROR IN LONDON

AIR RAIDS ALMOST COMPLETELY SHATTERED MRS. HUNT'S NERVES, BUT TANLAC RESTORES HEALTH.

"Tanlac has built me up from a nervous wreck to where I am, a well woman feeling finer than I have in years," recently said Mrs. Kathleen Hunt, of 32 Dartnell Ave., Toronto, Ont.

"I was in London during the war, and as the result of the air-raids my nerves were almost completely shattered. Night after night I used to lie awake in fear of the Zeppelins and Gothas, and when they did come we all had to get down into the basement of the house, and the noise of the bombs dropping all around, and our guns trying to bring the enemy down was most terrifying. I simply can't describe what we went through and it is no wonder that the health of thousands of people gave way under the strain.

"I lost all desire for food and my digestion became so upset that I couldn't eat a thing without suffering distress afterwards. My blood became thin and I fell off in weight until I was a mere shadow of what I used to be. I constantly had headaches that almost drove me distracted and altogether I was in a sad plight.

"Well, that was the condition I was in when I came out to Toronto, and soon after I got there I was advised by a druggist to try Tanlac as the best possible medicine for troubles like mine. It was really surprising how it helped me. It wasn't long before I had a good appetite and could sleep better at night.

"I soon found that I could eat anything I wanted without suffering in the least from indigestion, and I improved right along. I haven't had a trouble of any kind now and in fact never felt better in my life. I shall always have a good word to say for Tanlac, for I think it is a perfectly splendid medicine.

Tanlac is sold in Peterborough by the Warne Drug Co., Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co., Ltd., in Fowler's Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son. (Advt.)

FLIGHT RESUMED.

(Canadian Press).

WINNIPEG, Oct. 11.—The trans-Canada air flight was resumed here at 5 o'clock this morning, when Air Commodore A. K. Tylee and Captain J. B. Home Hay left St. Charles Airdrome here for Moose Jaw. They expected to reach that city by 9 a.m.

"The Hoover" Electric Suction Sweeper

Is the Answer to the Call of Centuries

—the call for some efficient implement to thoroughly clean rugs and carpets and restore them to their natural color, and it does it so much better than any other that well it might be said "It is the answer to the call of centuries."

Gentle handling and thorough cleaning are vitally important to the long life of your fine rugs and fabrics. Keep the nap brushed straight and you will add years to your velvety surface rugs.

Thorough beating is necessary to remove the grinding, destructive grit. And powerful suction surely completes perfect rug cleaning.

Let us show you, by demonstration on your own floors, how well the Hoover performs these three functions. Then we will show you why the Hoover is the world's largest selling electric cleaner. You will want us to deliver you one.

We Sell that fine Old Silver Plate "1847 Rogers Bros."

There are three outstanding patterns and we stock them all—Old Colony, Cromwell and Louvain. The latter is our most recent edition It is made in but one quality — the best It is named in honor of that historical city in Belgium and its stately and graceful design appropriately typifies the sturdy, inflexible will of Louvain's brave defenders.

Electricity Simplifies Many Household Tasks

—This being granted, then it is necessary to select the electrical appliances. Undoubtedly the Canadian Beauty and Manning Bowmann makes are unbeatable from a standpoint of endurance and economy—and that is the only standpoint worth while. Our stock of these makers' goods is comprehensive.

AMERICAN GOVERNMENT GETS AFTER PROFITEERS OF COAL

ALSO ORDERS RAILWAYS EAST OF MONTANA AND WYOMING TO RUSH EVERY AVAILABLE CAR TO THE MINES.

WASHINGTON, Oct. 11. —Two divisions of the Government are in action here to insure a supply of coal for domestic consumers throughout the country and to keep down price.

Under special new orders of the Inter-State Commerce Commission, all railroads east of Montana and Wyoming were rushing every available coal car to the mines to increase production.

Acting on direct orders from Attorney-General Palmer, district attorneys and special agents in all big cities were collecting evidence of alleged profiteering by coal dealers. The evidence will b presentd to grand jurors under the Lever anti-profiteering law, before October 18.

CHEAPER SUGAR AT LAST IN SIGHT STATES DIRECTOR OF REFINING CO.

MAY GO DOWN TO SEVEN CENTS POUND AT END OF YEAR IF PRESENT STOCKS OF RAWS ARE DISPOSED OF.

The present sugar price situation is something of a mystery to most consumers. New York sugar quotations have steadily fallen till Saturday some refiners were offering granulated sugar at 11 cents a pound. Toronto wholesalers continue to quote 19.7 cents a pound to retailers on best granulated and 18 1-2 cents on the poorest grade of yellow sugar.

Why the discrepancy? Would it not profit Canadian sugar consumers to pay the duty, exchange, freight, and costs of handling and buy their sugar in New York at 11 cents a pound.

This, as a fact, is what some of the larger sugar users have been doing. The head of a large candy manufacturing concern recently stated that he was able to bring in several car loads of sugar from New York, pay the spread in price due to exchange, duty, etc., which he estimated at about 3 a pound, and still have something like 4 cents a pound.

Blame Commerce Board.

The Government have stopped this practice . Announcement was made following an interview between the big refiners and the government, that what is virtually an embargo will be placed on cheap American sugars being brought into Canada. The object of the embargo is to protect the Canadian refiners.

But why do the refiners need protection? Why do they have to sell so much higher than the New York refiners? An explanation of the problem was suggested by a director of one of the largest refining companies in Canada.

"The Board of Commerce a while ago, when sugar was scarce," said he, "compelled the Canadian refiners to stock up with raws, in order that a constant supply might be assured. Board's order required refiners to lay in sufficient to carry them through till January 1, 1921. This they did, and only three weeks ago there was 60,000,000 worth of raw sugar on hand in Canada—which is about enough to last till the new year. Most of this had to be purchased at peak prices, ranging from 19 to 21 cents a pound. It is being sold now, refined, at an actual loss.

Drop Coming Soon.

"But I think I can say," added the director, "that as soon as present stocks of low sugar are used up the price will drop. It may even go as low was seven cents a pound, though such forecasts cannot be reliable. And the refiners would perfer to see it at seven cents, for they will probably make a wider margin of profit then than now, when it is selling at 19 cents.

New York Market.

Asked to explain the spectacular drop in the New York market during the last fortnight, he continued, "Attracted by the high prices that prevailed, Dutch, German, Czecho-Slovak and other foreign sugars were suddenly poured on the market. The price began to fall, and in some cases the banks began in consequence to draw in credits, and some refiners were forced to liquidate. I do not think, however, actual pressure by the banks has been so important a factor as the influx of foreign sugars. The latter can be sold very cheaply, and still yield handsome returns to European vendors, owing to the premium on American funds."

"Do you think the present price of 11 cents a pound, quoted in New York, is stable, or will prices rise again soon?" asked The Examiner.

"Prices may rise steadily until the new crop comes in, but they will if anything go even lower when the new stocks are on hand."

Buyers May Hold Back.

When questioned as to why refiners had issued a statement this week announcing that no immedaite drop in Canadian sugar was in prospect, the authority above quoted declared that if it were widely understood that sugar was coming down soon, no person would buy, present stocks would not be disposed of speedily, and the drop in price would thus be delayed."

COMPANY GOT LITTLE LUMBER "IN OVER-RUN"

RECORD OF PIGEON RIVER LUMBER CO. PRESENTED BY GOVERNMENT ACCOUNTANT.

PORT ARTHUR, Oct. 11.—In comparison with the records of other lumber companies whose operations have previously been the subject of enquiry before the Riddell-Latchford Timber Commission, the over-run obtained by the Pigeon River Lumber Co., Ltd., of Port Arthur, would appear to be strikingly small.

Mr. Harbinson, Government accountant, who took the stand on Saturday afternoon, testified that he had examined the company's books covering a period of ten years. The average over-run on the jack ladder scale, computed on the Doyle rule, including rotten culls and everything else, was 55.09 per cent., while the over-run on the merchantable timber was only 9.13 per cent.

"This is exceedingly important if the figures can be substantiated with reasonable accuracy," commented Justice Latchford.

Edward Johnston, assistant manager and auditor of the company, stated that they employed about 500 to 1,600 men and their sawing outfit had a capacity of 100,000 feet for ten hours.

Alonzo Nuttall, a lake mariner, who admitted at the morning session that he had staked numerous mining claims for W. H. Russel, a lumber operator, and his nominees for the sole purpose of obtaining pulpwood, resumed his evidence.

Asked by Crown Counsel Harding if he consulted Russell before staking these mining claims, he replied that Russell would inform him when he was short of wood and "I would go and find some."

"You were his man, Friday," remarked counsel.

Witness frankly admitted that in many cases all the men who were represented by the documents as doing the ninety days' statutory work on mining claims had been in reality cutting pulpwood.

Justice Riddell:—"And all of them in most cases?" "Yes."

In many cases no discovery posts were put up, continued Nuttall, explaining that in numerous instances no mingral discoveries were made, "so that discovery posts could not be put up."

Witness had patented 147 mining claims and 20 gravel and other claims.

Russell is the head of the Russell Timber Co., against whom writs were issued by the Ontario government for an accounting of timber taken from mining locations.

Mr. Harbinson, Crown accountant, recalled, said he had examined the books of the Keewatin Lumber Co., Ltd. During the last ten years their over-run averaged 48 per cent. on Scribners Rule. This he estimated would be 88 per cent. computed on Doyle Rule.

RECEIVE $1,000 A DAY AS RAIN INSURANCE

Directors of Kingston Fair First in Canada to Guard Thus Against Wet Weather.

KINGSTON, Ont., Oct. 11.—It is stated that Kingston's fair is the first in Canada to be insured against wet weather. Directors carried insurance with Henry W. Ives and Co., Montreal, at the rate of one thousand dollars per day providing rainfalls in a day were one-fifth of an inch. According to records at Queen's Observatory rainfall reached this amount on Sept. 30th and October 1st. Records have been sent to the company and a check for $2,000 will be forwarded to the fair directors.

GHOULS STEAL URNS FROM BERNE CREMATORY

And Offer to Return Them for a Cash Consideration—Police to Lay Trap.

BERNE, Switzerland, Oct. 11. — Thieves broke into a crematory situated in Bienne, near Berne, a few nights ago and stole a few sepulchral urns containing the ashes of member of wealthy families.

Prominent families of Berne and Zurich are receiving letters, offering to return the urns for a consideration varying between 2,000 and 4,000 francs, according to the financial standing of the owners.

The police hope to lay a trap for the ghouls.

CUBAN BANK SUSPENDS AND EXCHANGE CLOSES

HAVANA, Oct. 11.— The International Bank of Cuba provisionally suspended payments Saturday morning. Rumors late yesterday caused runs on several of the banks.

The Havana exchange has suspended operations during the crisis.

The situation is claimed to be due to heavy loans on sugar when prices for that commodity were at high water mark.

The liabilities and assets of the International Bank have not yet been announced.

MANUFACTURERS MUST BUCKLE DOWN, SAYS M.P.

Should Not Take Advantage of Tariff—Thinks Luxury Tax Will Be Dropped.

WINNIPEG, Man., Oct. 11.—There will be a reckoning with the manufacturers who are taking advantage of the tariff to profiteer, when a revision is made at next session of Federal Parliament," Dr. M. R. Blake, member of the Union Government, said here. "Manufacturers of Canada must buckle down and sell thier products as cheaply as they are sold in the United States, or the duty will have to be cut down to force them to do so," he declared.

Dr. Blake declared there was opposition to imposing any tariff on cotton and other goods imported from the United States, which are not produced in Canaad.

He said the report to the effect that exces profits tax would be abolished at next session of House seemed quite probable. Business men feel that this tax is bleeding their business and, in addition to that, it overlaps with income tax. He thought it probable that the luxury tax would be withdrawn.

CITY HALL CLOSED TO NOTORIETY SEEKERS

Officials to Be More Particular in Giving Public Receptions.

TORONTO, Oct. 11.—Toronto is going to be a bit more particular hereafter as to the persons who will be given official receptions, and also as to the nature of those receptions. That is the information that has leaked out at the City Hall. The Mayor is said to be minded to draw the lines tighter. Recent criticism of the use of the City Hall as an advertising medium may have had something to do with the change of policy.

Be that as it may, it seems that the day of the posing on the City Hall steps of film stars and prize fighters is over. To have their pictures taken in front of the civic structure, surrounded by admiring controllers and aldermen and besides the Mayor of the city, has been the seventh heaven of publicity promotion for not a few actors and pugilists. Some of them could hardly be described as stars. The real stars, like E. H. Sothern and Julia Marlowe, when they came to the City Hall in the war years, did so to aid recruting.

However, an order is said to have gone forth that there are to be no more City Hall official welcomes for any but distinguished guests. Stars of the screen and the boxing ring would be unwise to apply.

PETES WIN GREAT GAME AND TIE UP SERIES WITH HAMILTON

DARING BASE RUNNING BY CHERRETT SCORES WINNING RUN IN ELEVENTH AFTER GREAT PITCHING DUEL BETWEEN MILLER AND ROSE.

A SENSATIONAL BATTLE

Daring base-running and fleetness of foot on the part of Roy Cherrett brought victory to Peterborough in the second game of the O.B.A.A. final series at Riverside Park on Saturday afternoon just when the fans had vision of a drawn battle and a replay. The score was 1-1, the stage was the eleventh innings and the shades of night were closing in on the ball yard when Cherrett, dashing madly home from second on Murray's smash to Reaume, eluded the sweeping arms of the Hamilton catcher with a perfect fall-away slide and touched the rubber with the run that gave the Petes a 2 to 1 win over the Hamilton Plowites, and made the Ontario championship series fifty-fifty, with a third game a necessity.

It was a fitting climax to one of the most exciting ball games that Peterborough has ever seen, and two thousand fans went stark mad with delight when the outspread hands of Umpire Burke signalled that Cherrett was safe and the tense battle over and won.

The crowd was the largest that ever witnessed an amateur game here and all parts of the district were represenpted. They were rewarded with a game full of thrills and excitement, marked by sterling pitching and smart fielding plays.

It was a real pitcher's battle, a grim duel between Lornie Rose, the Petes' crack little twirler, and Miller, the Plowites' pitching ace, who up to Saturday had not known the taste of defeat. Rose won the decision and should have won it in the regular number of innings, a bad toss by the usually reliable Micky Murray, spilling the beans with two out in the ninth and setting the stage for the Plowites to push over the tieing run.

The Petes' pitching star was almost invincible in the pinches. He was in trouble frequently, several times through misplays of his team mates, and other occasions by his own bad luck in hitting batters, but with men on the bases the Hamilton crew could not solve his delivery and no fewer than thirteen of the visitors were stranded on the runways. In each of five innings the first Hamilton batter to hit got on safely, and on two other occasions the visitors got a couple on the sacks with only one out, but outside of the ninth innings the necessary hit was never forthcoming, Rose baffling them with a quick breaking curve, mixed with a fast one that they could not get hold of. Six of them succumbed by the strike-out route and most of the fanning was done with men on the bases. It was a great exhibition of steadiness in the pinches and of cool nerve and courage, for there were many opportunities for a less steady twirler to have blown completely.

Big Miller, the Hamilton gunner, was in great form, and the brand of pitching he delivered would have won for him under ordinary circumstances, for he only allowed the Petes four hits, no two in one innings, and whiffed nine of the Solomon crew. Miller had a fast ball that cracked into Cumpson's glove like a rifle shot and he varied it with a curve that broke wickedly, and the Petes had all kinds of trouble trying to figure out his delivery. It was the first game Miller has lost this season and he has been in thirty-six of them altogether. Incidentally the Plowites have only been beaten twice in 39 starts, Guelph doing the trick the week before last against a second-string pitcher.

The only run scored before the ninth came in the sixth when, with two out, Peterborough bagged a counter that looked as big as next month's rent. Murray started the trouble by slashing a grounder down first base way which Smith tried to field. Miller ran over to take the throw but the Hamilton first sacker fumbled and Murray was safe. He promptly stole second and went to third on a passed ball. It was up to Bob Ross, and with three and one on him. Ross stepped into a fast one and the ball sailed out on a line between left and centre. Murray walked home with the first run of the game and Ross was at third when the ball came back to the infield. Swanston tried hard to bring him home, but Behrens grabbed his fly to left.

The one run looked enough for victory, but you never can tell about a ball game. The first two men up for Hamilton in the ninth were easy, but Mellanby, one of the weakest hitters among the visitors started trouble by smacking a clean single over third on the first ball pitched to him. With two out the crowd did not worry much over this safety, but the whole complexion of the game changed a moment later when Manager Cosy Dolan of the visitors, sent N. Carroll up to bat for Barrett. The pinch-hitter tapped a feeble grounder to Murray and the crowd started for the exits, only to stop in consternation as they saw Murray throw the ball into the dirt ten feet in front of Harrison, the pill bouncing over the first sacker's head, while Mellanby raced around to third and Carroll pulled up at second. Red Cumpson, the Hamilton catcher, and one of the most dangerous of the Plowites' wrecking crew, was next up and there was trouble in the air. Cumpson slapped a single through short and Mellanby trotted in with the tieing run. Smith, another hitter to be feared, tried hard to put his team in the lead, but McCarney averted disaster by a fine catch of his long fly to left centre.

Peterborough did not have a chance to score in their half of the ninth or in the tenth, but the visitors were dangerous in the first extra innings when Reaume led off with a single and was sacrificed to second. Miller however, struck out and Holyman made a fine stop of Behren's hard smash.

In the eleventh the visitors had another royal chance. With one gone, Rose plugged both Mellanby and N. Carroll, and with Cumpson up the situation was far from pleasant. The Hamilton catcher, however, forced Carroll at second, relieving the pressure a little. The game nearly slipped away a moment later when Smith cracked a fast one down the first base line on which Harrison made a great stop, retiring the side.

The Petes won out in their half. Jack McCarney started it by working Miller for a pass. Cherrett's bunt, intended for a sacrifice, went right to Miller, who nailed McCarney at second. Cherrett immediately stole second, making a nice slide for the bag. Then came the play that broke up the game. Cherrett started to steal third and as he was tearing for the difficult corner Murray cracked a vicious grounder to Reaume. The Hamilton second sacker made a nice stop and had his arm up to throw Murray out at first before he realized that Cherrett had not stopped at third, but was streaking for the plate. Reaume made a desperate throw to Cumpson, but the peg was a little wide and high and when the back-stop swung around to tag Cherrett the runner eluded him with a slide that just hooked the corner of the plate and the game was over.

In addition to the closeness of the battle there were some fine fielding plays that made the game a notable one. Bob Ross pulled down a drive from Miller's bat in the sixth with one hand in sensational style. Hap Harrison covered first like a big leaguer, and his circus stop of Smith's smash in the eleventh asved the game. There were two on the sacks and the play cutoff two runs. Jack McCarney made a beautiful running catch of Reaume's vicious drive to right centre in the eighth. The blow looked good for two bases at least, but McCarney made a long run and gathered in the ball while going at full speed. The best Hamilton fielding play was contributed by Reaume in the fifth when he took Ray Rose's grounder through the box and got the runner with a snap throw to Smith.

The game was well looked after by Umpires Larry Burke of Hamilton, and Alex. Kay, of Peterborough.

The story of the game by innings follows:

First Innings.

Hamilton—Cumpson singled cleanly to right on the first ball pitched and went to second when Smith grounded out to Harrison. Reaume lifted a high fly back of third, which Murray gathered in. Murray then tossed Carroll out on his roller down the third base line. No runs, one hit, two errors.

Peterborough—Cherret bunted and was out, Miller to Smith. Murray fanned. Ross grounded to Smith. No runs, hits or errors.

Second Innings.

Hamilton—Cherrett fumbled Miller's grass-cutter and the big pitcher was safe. Behrens bunted for a sacrifice and reached first on Swanston's fumble. McQueen struck out. Mellanby hoisted an easy fly to Holyman and Barrett fanned. No runs or hits, er errors.

Peterborough — Swanston struck out, Harrison had two strikes on him when Miller uncorked a wild pitch which Harrison, using his "bean," swung at, reaching first easily. A moment later he was caught between first and second on what looked to be a deliberate balk by Miller. "Hap" dashed for second and made it when Reaume lost the ball in tagging him. The pill rolled towards left and Harrison tried to go to third, but was out, Mellanby to Carroll. Manager Soloman kicked so strenuously about Miller's balk motion that he was given the gate by Umpire Burke. Ray Rose wound up the innings by striking out. No runs, or hits, one error.

Third Innings.

Hamilton—Cumpson singled to second, a roller which Holyman reached and fumbled, but on which the runner would have been safe in any case. Smith sacrificed neatly, L. Rose to Harrison. Reaume grounded to Holyman, who also took Carroll's fly. No runs, one hit, no errors.

Peterborough—Holyman was easy on a fly to Smith. Lornie Rose got the first hit off Miller, a Texas Leaguer back of first. McCarney sacrificed him along to second and he went to third on a wild pitch. Cherrett fouled out to Cumpson. No runs, one hit, no errors.

Fourth Innings.

Hamilton—Miller fanned. Behrens drew a pass and McQueen was hit. Rose got out of the hole by getting Mellanby on a pop to Holyman and striking out Barrett. No runs, hits or errors.

Peterborough—Murray drew a pass, but was forced at second when Ross bunted in front of the plate. Ross in turn was forced by Swanston on a tap to Carroll. Barrett gathered in Harrison's long fly to right. No runs, hits or errors.

Fifth Innings.

Hamilton — Cumpson rolled to Holyman, Murray threw out Smith. Reaume's smash to first was taken care of by Harrison. No runs, hits or errors.

Peterborough—Ray Rose bounced a hard one over Miller's head, but Reaume robbed him of a hit by gathering in the ball and making a lightning peg to first. Holyman struck out and Lornie Rose popped to Carroll. No runs, hits or errors.

Sixth Innings.

Hamilton—Carroll died, L. Rose to Harrison. Miller drove a long fly to right which Bob Ross partially misjudged and then gathered in with his gloved hand in sensational style. Ross also made a nice catch of Behren's high one a mouent later and was given a great hand when he came in to the bench. No runs, hits or errors.

Peterborough—McCarney went out, Carroll to Smith. Cherrett was tosed out by Cumpson on a bunt in front of the plate. Murray rolled one to Smith and was safe at first on the first baseman's fumble. He stole second and went to third on a passed ball. Ross enrolled himself among the heroes at this stage by slashing a beautiful triple to left centre, scoring Murray, while the crowd went wild. Swanston tried to drive in another counter, but Behrens took his fly to short left. One run, one hit, one error.

Seventh Innings.

Hamilton — McQueen singled through short and went to second on Mellanby's out to Harrison. Barrett was hit. Cumpson hoisted one back of third which Murray took care of. Smith smashed a hard one back at Rose, who deflected it to Cherrett and the latter tossed to Holyman for a force out of Mellanby at second. No runs, one hit, no errors.

Peterborough—Harrison singled over second and stole second and third while Ray Rose and Holyman were striking out. Lornie Rose flied to left. No runs, one hit, no errors.

Eighth Innings.

Hamilton—McCarney made a beautiful catch of Reaume's hard smash to right centre. Carroll flied to Murray and the later then tossed out Miller. No runs, hits or errors.

Peterborough—McCarney singled to right. Cherrett popped a fly to Cumpson in trying to sacrifice. Murray flied to Reaume. McCarney was out stealing, Cumpson to Reaume. No runs, one hit, no errors.

Ninth Innings.

Hamilton— Behrens grounded to Harrison. McQueen fanned. Mellanby singled over Murray's head. N. Carroll, batting for Barrett, tapped a weak one to Murray who threw low to first, Mellanby going to third and Carroll to second. Cumpson singled through short, scoring Mellanby with the tieing run. McCarney made a nice catch of Smith's fly to left centre. One run, two hits, one error.

Peterborough—Ross fanned. Swanston flied to centre. Reaume threw out Harrison. No runs, hits or errors.

Tenth Innings.

Hamilton—Reaume beat out a roller to Holyman. G. Carroll sacrificed, Murray to Harrison. Miller fanned and Swanston's quick peg caught Reaume off second. He dashed for third and made it when Murray dropped Holyman's throw. Holyman made a fine stop of Behren's hard smash for the third out. No runs, one hit, one error.

Peterborough—R. Rose fanned. Miller tossed out Holyman and nailed L. Rose's pop fly. No runs, hits or errors.

Eleventh Innings.

Hamilton—McQueen popped to Cherrett. Mellanby was hit and so was Carroll. Cumpson forced Carroll, Cherrett to Holyman. Harrison made a great stop of Smith's vicious grounder down the first base line. No runs, hits or errors.

Peterborough— McCarney drew a pass and was forced at second on Cherrett's bunt to Miller. Cherrett stole second. Then Murray smashed one at Reaume and Cherrett scored all the way from second with the winning run.

Hamilton . . . . . 00000000100—1

Three base hit—Ross. Sacrifice hits—McCarney, Smith, Carroll, Behrens. Struck out—By Rose 6, by Miller 9. Bases on balls—Off Rose 1, off Miller 2. Stolen bases—Cherrett, Murray, Harrison 2. Wild pitch—Miller 2. Passed ball—Cumpson. Hit by pitcher—By Rose 4 (McQueen, Mellanby, Barrett, N. Carroll). Left on bases—Hamilton 13, Peterborough 4. Umpires—L. Burke, Hamilton, at the plate; Kay, Peterborough, on the bases.

MARQUARD ARRESTED SATURDAY

CLEVELAND, Oct. 11. —Richard "Rube" Marquard, one of the star left-handed pitchers of the Brooklyn team, was arrested here Saturday on a charge of ticket "scalping."

Marquard was arrested in the lobby of a downtown hotel on a warrant issued by Assistant Prosecutor Edward C. Stanton. He was charged with offering for sale, eight world series box seats, the original cost of which was $52.80, for $350.

He was released on his own recognizance to appear before Municipal Judge Silbert, Monday, to answer to the charge of ticket "scalping." Two other arrests were made. Fred Hooper was arrested at the ball park trying to sell a $4 ticket to John O'Farrel of Salt Lake City, Utah, for $14.50.

CLEVELAND WON SATURDAY'S GAME

FOUR BROOKLYN HURLERS FAIL TO STOP AMERICAN LEAGUERS' SMASHING ATTACK.

League Park, Cleveland, Ohio, Oct. 11—Cleveland Indians put joy and new new hope into the hearts of 27,000 raving Ohio fans here Saturday afternoon by defeating the Brooklyn Nationals 5 to 1 in the fourth game of the world series and evening the count for the world's title. Stanley Coveleskie, the big Polish spitballer, registered a well-earned win over the Robins, holding them to five hits.

Coveleskie has won both of Cleveland's victories in the big series and his work Saturday was every bit as effective as on his first appearance in the opening game.

The batting eyes of the Indians returned to them when they cut loose on their home field Saturday. Going after a quartette of Brooklyn pitchers they amassed a total of twelve safe drives. The Indians were a fighting band from start to finish. They attacked Leon Cadore in the opening round and before the impetus of their initial drive had been spent, two runs were across the rubber. With Covaleskie pitching unbeatable ball, two tallies were sufficient and the game was virtually over.

Fine Pitching Maintained.

The wonderful fielding that has marked the series from the start was maintained Saturday. Hi Myers, the Robins' centre fielder, undoubtedly carried away the highest fielding honors by virtue of two wonderful catches. Running at top speed in the third round, Myers took a drive off his shoe tops and rolled over and over, coming up with the ball. He pulled another catch off Evans' in the fourth round that was classy.

The infield of both clubs worked in regular world series fashion. Wambsganss, at second for the Indian, planted himself firmly in the affections of his home town fans by his sterling work. Cleveland's offensive in the opening round started after Jamieson had crashed a terrific liner into Cadore's glove. This was a taste of what was to come. After Wamby walked, Speaker drove a single to centre and both scored on Smith's wicked smash over second.

Cadore Batted Out.

Sewell and O'Neill continued the attack in the second and Robinson was forced to rush Mamaux in to relieve the faltering Cadore. The slugfest was stopped momentarily, but it broke forth with renewed fury in the third. Wamby and Speaker led off with singles in this round. That was enough for Mamaux, and Rube Marquard took up the pitching burden. He grooved one for Burns who was batting for Smith, and a stinging single sent in two more runs.

The final Indian tally came across in the sixth inniug from a single by Covelskie. A wild pitch and singles by Eavns and Wambsganns.

Brooklyn threatened in only one inning—the fourth. A vicious single by Jimmy Johnston folowed by a tremendous double off Griffith's bat, sent Johnston across the plate.

AN UNTIMELY END.

"Ring," the faithful mascot of the 247th Battalion hockey team, a fine British bull dog, was killed on Friday night by a taxi. Ring will be missed by many who followed the hockey team and other since that time who had known of his many good traits.

WILL SETTLE CHAMPIONSHIP IN GUELPH ON WEDNESDAY

Peterboro and Hamilton will settle the championship of the Ontario Baseball Amateur Association, on Wednesday afternoon with a sudden death game at Guelph, the O.B.A.A. having decided on the Royal City as a suitable place for the play off. It is a long jump for the Petes but they have accepted the ultimatum cheerfully and will leave for Guelph to-morrow in order to get a good night's rest before the battle that will decide the amateur championship of the Province. It promises to be another great fight. In twenty innings the two teams have scored six runs each which gives an idea of how closely they are matched. Guelph has a good ball grounds, the former Canadian League Park, and the Petes are assured of lots of support as the Guelphites have no particular love for the Hamilton crew.

RUBE MARQUARD'S CASE ADJOURNED

HEARING OF CHARGE OF TICKET SPECULATING DEFERRED UNTIL FRIDAY.

(Canadian Press.)

CLEVELAND, Oct. 11. — Pitcher Rube Marquard of the Brooklyn National League team, charged with ticket speculation in connection with the world series being played here, appeared in the municipal court to-day, and was given continuance until Oct. 15th.

Marquard was one of twelve ticket scalping cases heard during the forenoon. The Boorklyn pitcher, when he faced Judge Silbert, personally requested that the charge be carried over until later in the week, and after listening to Marquard's plea, Judge Silbert fixed next Friday as the day for the hearing.

SENSATIONAL BALL IN SUNDAY'S GAME

CLEVELAND WON BY 8 TO 1, TAKING THE LEAD IN SERIES.

CLEVELAND, Oct. 10.—More than 27,000 crazy fans saw Tris Speaker's Indians rout Brooklyn to-day by the score of 8 to 1, taking the lead in the series with the count of 3 wins to 2 in a game that was packed with thrills and sensational baseball. Wambsganss, Cleveland's second-baser, made a triple-play, unassisted, the third time in the history of baseball; Elmer Smith, the Indians' right fielder, hit a homer with the bases full; Jim Bagby hammered out a homer with two runners ahead of him after, and provided another feature by allowed thirteen hits that yielded Brooklyn only one run. The scene that followed Wamby's triple play was indescribable.

CATTLE MARKET

(Canadian Press).

TORONTO, Oct. 11.—Cattle receipts heavy; trade slow. Quotations: Heavy beef steers, $14 to $15; butcher steers, choice, $12 to $13; butcher cows, medium, $7 to $9; calves, $18 to $19.50; sheep, $7.50 to $8.50; lambs, $12 to $13.50; hogs, fed and watered, selects, $20.25.

NOTES ON THE BIG GAME.

The paid attendance was approximately 2,000.

Some weather, some crowd, and some game.

There haven't been so many sore throats in Peterborough since the flu epidemic.

The Petes' fielding wobbled a bit at times, but the defence was there in the pinches.

Saturday's battle was about the most exciting ball game ever staged at Riverside Park.

Bob Ross, with two fine catches and his timely triple, grabbed a goodly share of the afternoon's honours.

Reaume, the Ottawa boy who plays second and captains the Hamilton team, is the well-known hockey goal-keeper.

The Petes had tough luck in their bunting. Several attempts at sacrifices resulted in the base runner being picked off.

Manager Solomon took a chance when he sent Cherrett in on Murray's tap in the eleventh, and was handsomely rewarded.

Max Swanston, who got three hits against Miller in Hamilton, went hitless on Saturday, while Red Cumpson, the Hamilton catcher, who could not get a safety on his own grounds, niched Rose for three blows here.

Cosy Rolan, manager of the Plowites, used to pitch for the Hamilton Canadian League team, so that Riverside Park was a familiar spot to him.

Hamilton never took a chance on Swanston's throwing, and had no stolen bases, while the Petes, with fewer opportunities, purloined four on Cumpson.

In answer to a number of inquiries, it might be explained that Murray does not get credit for a hit on his smash in the eleventh innings on which Cherrett scored. The play was a fielder's choice on which Murray could have been thrown at first.

Among the baseball celebrities here for the battle were Mick Dulmage, of Guelph, secretary of the O.B.A.A., Sandy Lockington, of Port Hope, president of the Central Ontario League, Dicky Butler, the Lindsay umpire, and Ford Moynes, of Lindsay, member of the Central League executive.

COMRADES REGISTER SECOND WIN AGAINST DE LAVAL BY 3-2 SCORE

TIMELY PASS BY DUNKLEY LET MARTIN SCORE—M'DOUGALL ADDED TWO MORE—JACK LINDSAY CONVERTS A PENALTY—MALLINSON KICKED THROUGH HIS OWN GOAL—COMRADES 3, DE LAVAL 2.

Down at the Exhibition Grounds, the DeLaval and the Comrades met in a League fixture on Saturday afternoon before a poor attendance of spectators.

Referee Jack Clark lined up the teams promptly at 3.30 p.m., as follows:

DeLaval—J. Long, goal; J. Godfrey and B. Hartshorn, backs; W. Brown, R. Lindsay and J. Lindsay, half backs; J. Murray, J. Rhamm, E. Abraham, R. Hanson and J. Brown, forwards.

Comrades—J. Young, goal, R. Jolliffe and F. Mallinson, backs; A. Nicholls, H. Cowie and A. Morris, half-backs; F. Hartshorn, M. Dunkley, B. Martin, W. J. McDougall and W. Warman.

Referee, Jack Clark.

The Game.

Even and exciting exchanges were the result of the first ten minutes play but J. Murray at the DeLaval right was about through the Comrades defence to be checked by Mallinson. The play was confined to infield for a long time until a breakaway on the extreme left by Warman was centred nice by W. Dunkley, who slipped the ball forward to Ben Martin to open the scoring with an excellent shot. Time and again the De Laval would raid the Comrades' goal to finish very poorly. From centre-field McDougall broke away to defeat the defence completely by running into goal to register the second goal. Nice combination by Rhamm and Murray was spoiled by Morris to let away McDougall again on an individual run to completely baffle the goal keeper with a great drive from 10 yards out. Just before half time the DeLaval were awarded a penalty through Malinson handling and Jock Lindsay came forward to give Young no chance whatever to stop the ball. Half time, Comrades 3; DeLaval 1.

Half Time.

After the usual interval, DeLaval made a raid on the Comrades' goal to be repulsed by the defence. A raid on the right wing by Hartshorn and Dunkley transferred the play to the other end for R. Lindsay to clear in the nick of time. Cowie returned the ball to Warman who missed the mark by a few inches.

Nothing of interest transpired for a while with both teams showing poor finishing in front of goal.

Ten minutes before full time Mallinson conceded a corner kick to Murray who placed a beauty in front of goal for the Comrades' fall ball—Malinson to kick through his own goal. Full time: Comrades 3, DeLaval 2.

Goal scorers: Comrades, Martin, McDougall (2); DeLaval, Jack Lindsayl, Mallinson kicked through his own goal.

VETS WON 1-0 AGAINST C.G.E. IN KICK AND RUSH FOOTBALL GAME

VETS WON THE TOSS—WILLIAMS' EXCELLENT EFFORT—SHARMAN'S NICE FOOTBALL—TURNER'S GREAT PLAY—HALF-TIME NO SCORING—PELL INJURED SECOND TIME—STYLES SCORED —GASH ORDERED OFF—JONES BRILLIANT IN GOAL —VETS 1, C.G.E. 0.

On Saturday afternoon at Nicholls Oval, the Great War Veterans' played the famous C. G. E. team under local Football auspices before a very satisfactory attendance of spectators. Both teams showed new faces in their line up from the previous game. "Wag" and Ted Hotston were replaced by J. Williams and J. McDonald. In the G. W. V. A. team J. House and A. Styles occupied Bishop and Gamble's place who reported themselves unfit. Referee Frank McKinley started the game prompt at 3.30 p.m., with the C. G. E. minus Bartley, who was late. The final score was 1—0 in favor of the Vets.

The Teams.

C. G. E.:—C. Griffnie goal. J. Davis and J. McDonald backs, A. Parkins, H. Turner and H. Bestard half backs, A. Manders, A. Gash, J. Williams, J. Williamson and Ted Bartley forwards.

G. W. V. A.:—W. Jones goal, J. House and N. Crowe backs, A. Styles, P. D. Ryan and J. Peel half-backs, S. Curtis, F. Monks, H. Burrows, A. Edwards and J. Sharman forwards.

Vets Won the Toss.

Williams kicked off against the sun for the C. G. E. and made a raid on the right wing for Peel to check Gash, who punted up to Burrows to travel into goal that made Griffnie kick-out to clear. Manders broke away along the wing in great fashion to beat Peel and centreing across to Williams but the Vets' full-back, Crowe, gave one of his long-legged punts up field. McDonald made an attempt to breast the ball for to hit his arm taht let Ryan put past from the goal-kick. Griffnie kicked out to Bartley who beat along the wing to put across abeautiful centre that went out to touch. From the throw-in a foul against Parkins transferred the play to the other end. J. Lavis returned the play for Parkins to give away another foul that did not do any damage.

Williams' Excellent Effort.

Turner spoiled a Vets raid and forcing his way up the field slipped the ball forward to Williamson, who shot it forward to Bartley. The outsides left beat House in the corner and swinging across a beauty, Williams just missed the mark by striking the upright to go out. Jones kicked out to the left wing for Sharman to have the first kick at the ball, with Turner getting the advantage that went up the wing to Manders. Peel checked to give a corner. The C. G. E. outside right placed a beautiful corner-kick to Turner who sent in a rocket shot for Jones to touch the ball over the bar for another corner. Bartley's parting kick went into play that brought the C. G. E. a foul from the touch line. Bartley sent in a beautiful try that Jones cleared, amid great excitement, to mid-field with Turner trying a low ground shot that made the Vets goal-keeper go to his knees to clear. Williams charged Jones legitimately but Williamson made an awful kick to get the ball that immediately gave the Vets a foul-kick.

Sharman's Nice Football.

Crowe kicked out the ball to the Vets outside left who beat Manders, Parkins and Davis in rotation but he was stopped by the C. G. E. captain who gave Manders a glorious opportunity that was put past. At this point of play Vets changed their team around to strengthen the defence that proved a great asset. A foul against Bartley relieved the pressure. Burrows slashed the ball down to Curtis who was accidently injured by McLonald but resumed after a little attention. Immediately thereafter Edwards beat Davis to give Monks a timely pass that left McDonald bewildered and travelling into boal Griffnie saved in brilliant fashion. The Vets now were making a better showing with Sharman outclassing them all, to end up his play with a left foot drive to goal. Griffnie cleared. Turner went up the field along with Gash and Crowe miskicking, Jones ran out of goal to clear. Quick as a flash Edwards at the other end tested Griffnie. Curtis put past from a corner kick. Twice in succession the C. G. E. players were called up for off-sides.

Turner's Heady Play.

A raid on the Vets goal necessitated the referee cautioning players from rough tactics. Turner was playing a great game at centre half and swinging the ball out to Manders the outside right returned it to Turner, Ryan kicked theb all at the same time as C. G. E. man that made the ball spin up in the air. Turner touched forward to Gash who tested Jones from close range. Nice combination by Curtis and Monks transferred the play to the other end. Burrows sent in a long drive from mid-field to give C. G. E. goal-keeper difficulty in clearing. Just then the whistle sounded for half time with neither team scoring.

Half-Time.

On resuming, Crowe cleared from Gash in nick of time. The ball went to Bartley, who beat House and travelling into goal Jones picked the ball up from Williamson's foot to throw out. Manders overturned the play that went wide. A solo run down the field by the C. G. E. outside right ended with Peel getting kicked on the head, to stop the game a few minutes. From the goal-kick Sharman's individual play evoked great praise from the spectators in his attempt to break through the C. G. E. defence. Parkins cleared to Manders who sent a great drive across the goal mouth with nobody to accept the pass. Burrows cleared to Curtis, Monks accepted the pass back to swing across to Sharman. Davis intervened at the critical moment to punt up the field that was returned by House. Monks worked a corner of Williamson that was unproductive. Turner caught the ball and travelling at a fast pace went down into Vets' area to test and rush Jones. Crowe cleared, Williamson returned the ball to Manders.

Peel Injured Second Time.

Manders and Peel went to get the ball at the same tim that unfortunately resulted in Peel getting a shaking up in the collision. Play went across to the C. G. E. outside left to get a corner off House that was placed to the foot of Gash who shot wildly past the upright.

Styles Scored the Only Goal.

From the kick-off the Vets' forwards went down in a body with Monks and Curtis using the ground tactics. Williamson stopped the raid for Curtis to left the ball across to Sharman who headed it back to Monks. The inside man touched it gently to Sharman, Davis checked to go to Styles who lifted the ball into the net after twenty minutes' play. A break away by Gash and Manders resulted in Crowe being upset unlawfully. The Vets' full-back kidked the ball to Parkins' foot who let drive from thirty yards out to land into the corner of the goals, Jones fisted out with Bartley charging Jones unlawfully. Crowe conceded a corner that was placed by Bartley to Wiliams who again tested the Vets custodian.

Gash Was Ordered Off.

Just a few minutes later the same play was repeated but Jones this time dropped upon the ball to save his goal. Williams tried hard to get the ball along with some more of the C. G. E. players that resulted in the referee awarding the Vets a foul-kick and cautioning the offending players. An argument ensued among the players and the referee that left the C. G. E. team with ten men through Gash doing something unlawful to be ordered off the field. A corner was taken by Bartley that went out of touch at the other side. From the throw-in Parkins drove a hard one for goal that landed into the far corner of the goal, Jones cleared with Ted Bartley right there with him.

Jones Brilliant in Goal.

A nice piece of football manipulating was performed by Manders who had the Vets' defence guessing all the way until right in front of the goal he made a great attempt to score but Jones judged the play to perfection to clear. Curtis and Monks transferred the play to the other end for Sharman to put past. McDonald broke through the Vets' defence and travelling into goal Crowe kicked to touch in a quick recovery.

C.G.E. Famous Last-Minute Rally.

From the throw-in Bartley shot the ball across to Manders who put it to the foot of McDonald, with only Jones to beat but to his own astonishment Jones outplayed him. The C. G. E. captain was playing all over the field to try and even up the score, but the Vets' defence held out until the final whistle announced the winners of two valuable points. G.W.V.A. 1 goal to nothing.

Analysis of the Game.

The following analysis will show the decision of the official referee:

C.G.E.	1st half	2nd half	Total
Goals	0	0	0
Goal-kicks	6	6	12
Corners	2	6	8
Fouls	3	2	5
Offsides	2	0	2

G.W.V.A.	1st half	2nd half	Total
Goals	0	1	1
Goal-kicks	6	9	15
Corners	1	3	4
Fouls	0	2	2
Offsides	0	0	0

Summing Up.

After three minutes play the referee had to chastize two players for "booting" one another, no player is justified in returning illegal tactics on the field. The first period of the game the Vets were very unsteady, until they made the change in the team. Neither of the teams showed football because it was "get the man not the ball" by all means, in fact, after the Vets got the deciding goal some spectators went after the referee by "baracking" and using personal language against him. During the last twenty minutes it was a kick and a rush. Then to finish the fiasco a few individual spectators went after the players and referee in a threatening manner. The Football Excutive was at the game and no doubt they will make a "clean-up" to prevent unsportsmanlike "followers.

COLLEGIATE II. LOST AT LAKEFIELD

On Saturday 8th the Collegiate II met defeat at the hands of a combined team of the "Grove" and Lakefield High School. The game was played on the Grove grounds and the final score was 32 to 10.

The Collegiate boys, strengthened by several players from their first team, relied chiefly on line bucking while their opponents depended more on their speedy half backs. The tackling on both sides was fierce and hard and every yard gained had to be fought for. This is the first of a series of four games to be played this season.

THOMAS McVITTIE, TUESDAY EVENING.

On Tuesday evening next, the 12th inst., in the Board of Trade Rooms, horticulturists and lovers of flowers will be favoured by a lecture by Mr. Thos. McVittie, of Toronto. Mr. McVittie is the well-known landscape gardener of Sir Henry Pellatt, and recently acted as official judge for the Peterborough Horticultural Society's lawn and garden contest. The lecture will be profusely illustrated with lantern slides, showing the growth and formations of plants and bulbs, and will be followed by a practical demonstration of the planting of cuttings and bulbs. The lecture is under the auspices of the Horticultural Society, and will be both interesting and instructive. Plan to be there, it is open to the public.

RUGBY RESULTS

VARSITY DEFEAT OLD BOYS.

Peterborough was well represented in the Varsity-Old Boys rugby game in Toronto on Saturday afternoon. Pete Campbell was at his old position as quarterback, Dick Sheehy at outside wing, and Wilfrid Stratton on the half-line. The Old Boys led by 5 to 3 at half-time, but faded before this year's regular Varsity team, and lost out by the score of 14 to 6.

Other U. of T. stars of former years on the line-up were Charlie Gage, Smirlie Lawson, and Jack Maynard.

QUEENS 5—McGILL 31.

KINGSTON, Oct. 8.—Queen's University made their first touchdown in two years toward the end of the first quarter in to-day's game with McGill. Shaughnessy's team won by 31 to 5, holding the local students scoreless through the last three-quarters. Queen's presented one of the strongest lines in years. Evans at outside smashed through the McGill wings repeatedly. The half-time score was 14 to 5.

ARGOS 10—M.A.A.A. 6.

MONTREAL, Oct. 10.—Toronto Argonauts gained a strong hold on the Interprovincial Rugby Championship when they defeated M.A.A.A. on their own grounds here on Saturday by 10 to 6. This gives them two victories over Montreal, last season's champions, who counted on duplicating their 1919 success.

Argos were leading by 4 to 3 halfway, and at the end of the third quarter by 5 to 3. Montreal went ahead in the last session, but with the score 6 to 5 against them, Argos bucked twice for yards, then booted to the M.A.A.A. line, and bucked over for a touch on the next play. The teams were evenly matched, and resorted to straight football nearly all the way.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Oct. 11. — Most shares were lower in early trading on the stock exchange to-day. Prices follow:

U. S. Steel 87 3-8, off 1-4; Texas Co. 49 5-8, off 3-8; American Woollen 72, off 3-8; General Motors 17 7-8, unchanged; Southern Railway 31, off 1 1-8; Baltimore and Ohio 46, off 1-2; Mexican Pet. 188, up 1-4; New Haven 33, off 1-2; Northern Pac. 88 3-4, off 1-8; Texas and Pac. 28 1-2, up 1-4; Marine 19, off 1-4; Union Pac. 126, off 1-4; Southern Pac. 99 1-2, up 1-4; Bethlehem B 69, off 1-4.

Stock prices showed great resistance to depressing news during the forenoon. Bank reports and growing evidence of business depression cut quotations down at the start, but buying later regained most of the lost ground. Mexican Petroleum advanced 2¼, to 190, and Corn Products rose 1¼, to 81½.

EXCHANGE MARKET.

(United Press.)

NEW YORK, Oct. 11. — Demand Sterling was off 7-8 on opening foreign exchange to-day. Prices were: Demand Sterling $3.49 1-2, off 7-8; Francs $.0661. Lire $.0403. Marks $.0156. Canadian Dollars $.9194.

LINDSAY TAKES ALARM FROM FACTORY WHISTLE

LINDSAY, Oct. 9. — Wednesday morning at 4.30 the engine room whistle of the Carew Lumber Co.'s sawmill started to blow for some as yet unaccountable cause, and all efforts of the engineer to stop it proved fruitless for some time. The residents of the district, to whom the mill whistle is law and gospel, immediately divined disastrous happenings and rang in a fire alarm. The brigade, as well as quite a number of North Ward citizens thus rudely awakened from dreamland, made a quick run through the grey mists of early dawn and succeeded in silencing the disturber of the peace.

FAMOUS DANCER IN THE CAST OF "WHY CHANGE YOUR WIFE"

Theodore Kosloff Returns to Screen in De Mille's Fine New Production.

Theodore Kosloff, the famous Russian interpretative dancer, is a member of the all-star cast of the new Cecil B. DeMille production, "Why Change Your Wife?" which will be shown at the Allen Theatre for three days, commencing to-day. Kosloff, who is well known throughout the world, made his screen debut several years ago in "The Woman God Forgot," also produced by Mr. DeMille. He was very axious at that time to continue with the cinema, but stage contracts prohibited.

The opportunity to reappear in pictures came a few months ago when Kosloff was planning his Australian tour. Upon receiving the offer from Famous Players-Lasky Corporation, the trip was cancelled and Kosloff agreed to play in two DeMille specials, of which "Why Change Your Wife?" is the first. In this story, which was written by William DeMille, Kosloff has the role of a Russian musician, who forms the fourth party in a matrimonial square.

Thomas Meighan and Gloria Swanson figure prominently in the cast of "Why Change Your Wife?", though every player is a screen personage of note. Olga Printzlau and Sada Cowan furnished the scenario. It is a Paramount Artcraft picture.

PACKED WITH LAUGHS

"What's Your Husband Doing?" Is a Gay Picture.

The motion picture coming to the Grand Theatre to-night, Tuesday and Wednesday, is declared to be a laughing cure for the blues as well as an inside tip to young wives who are suspicious of the recently young husband. It is called "What is your Husband doing?" and features Doris May and Douglas MacLean, the two lively and attractive young players, whom Thomas H. Ince recently raised to stardom.

The story concerns a newly wed wife, played by Miss May, who suspicions the scented notes received by her husband every morning and bearing the crest of a notoriously speedy roadhouse, "Honeysuckle Inn." The wife enlists a youthful lawyer in her aid, whose "better half" is in turn jealous of him—and well, there are amusing complications galore and it all ends in a fine police raid and explanations and a hapy ending at the police court the next morning. It's a Paramount-Artcraft picture.

The farm consists of 100 acres, more or less, being the **East Half of Lot No. 4 in the 6th Concession of North Monaghan.**

JAS. RODDY, Auctioneer.

6d87 1w 2988.

ST. PAUL'S CHOIR.

The congregation of St. Paul's Presbyterian church may be justly proud of its efficient choir. Its full thirty members yesterday morning gave an uplifting impulse to the service. The vocal selection of the lady solist was impressive—she sang "I Heard the Voice of Jesus Say," with ease and grace. And the morning anthem went to the point of richness, being evenly balanced sacred melody. Mr. Tattersall, the resourceful organist, is to be congratulated.

WILL ADDRESS THE ENGINEER'S THURSDAY

The speaker at Thursday's meeting of the Peterborough Branch of the Engineering Institute of Canada will be the Hon. W. A. McLean, Deputy Minister of Highways for the Province of Ontario. He will describe the construction of roads in the Province and explain the programme of the Government in this respect.

Mr. McLean is bringing some moving pictures and lantern slides to illustrate his lecture.

The meeting will be held in the Board of Trade Rooms at 8.00 p.m. All citizens will be welcome.

FORDSON TRACTOR DOES GREAT WORK.

Yesterday the Fordson tractor on the farm of Clifford Hancock, two miles from the city, filled with comparative ease a silo 14 feet by 30 feet high, with ensilage.

Many people from the neighborhorhood called to see the operation and those who had any doubt regarding the efficiency of the Fordson for such work have a complete change of opinion.

All agreed that it had plenty of energy and expressed their delight to know that such an economically priced machine would now do all kinds of work with entire satisfation, and backed by a firm like the Ford Motor Company.

Thursday, 8—Choir practice. Boys at 7.15.

Saturday, 9—Boys' choir practice.

REV. HAROLD YOUNG GAVE AN ADDRESS

Meeting of the Ministerial Association this morning.

The Ministerial Association held a meeting this morning at which regular business was transacted and a much appreciated address was given by Rev. W. H. Young on his experience in the province of Quebec.

AIRMEN ARE FORCED TO LAND AT REGINA.

Canadian Press.

REGINA, Sask., October 11. — Engine trouble caused the pilots in the Trans-Canada flight to make a forced landing at Regina at 8.30 this morning.

The machine came down just south of the aerial service companys' airdrome, and a good landing was made.

Several hours will be lost making the necessary repairs before the flight can be continued to Moosejaw, where a relay machine is stationed.

Social and Personal

Dr. and Mrs. E. V. Frederick left Sunday night for Montreal where Dr. Frederick is attending The Congress of Surgeons of North America. Dr. Frederick will be out of the city until Friday.

Dr. and Mrs. E. E. Harvey, 212 Brock street, are spending a few days in Montreal, where the doctor will attend the Congress of the American College of Surgeons, being held in that city. They will be the guests of the Rev. A. J. and Mrs. Thomas.

Miss Kathleen Dolman of Campbellford, spent the week end with Miss Vera Knox, Gilmour street.

Miss Stella Lennox, Lakefield, spent the week end with Mr. and Mrs. J. Knox.

Mrs. R. Harstone, the Misses Harstone, Miss Phyllis Cumberland, Mrs. Gordon Grahame and Mr. Fred Collins were guests of Mr. and Mrs. Archibald Lampman at Lakefield yesterday.

Mr. and Mrs. H. McKean, of St. John, N.B., are visiting Mrs. J. Scott, East City.

The Peter Robinson Chapter, I.O. D.E. are holding a tea dansant at the G.W.V.A. rooms on Thanksgiving afternoon.

FIFTEEN YEARS IN PRACTICE

WEDDING BELLS

SHEEHY—MERRELL.

In St. Peter's Cathedral, at eight o'clock this morning, the wedding was quietly solemnised of Mabel Maud, daughter of Mr. and Mrs. W. S. Merrell, Homewood Avenue, and J. Kelley Sheehy, son of Mr. and Mrs. Richard sheehy, George Street, Rev. Father Cookery, cousin of the groom, officiating. The bride entered the church on the arm of her father, Mr. W. S. Merrell, to the strains of the wedding march, played by Miss Doherty, and looked lovely in a gown of pale pink satin and georgette and large black hat. She carried a huge shower bouquet of pink ophelia and sweetheart roses. Miss Marguerite Merrell, sister of the bride, who acted as bridesmaid, was very pretty in orchid satin and georgette, large black hat, and carried a bouquet of roses and maiden hair fern. The groom was supported by his brother, Mr. Sarsfield Sheehy. During the signing of the register, Mr. E. Hanrahan, of Montreal, sang, and immediately after the ceremony the bridal party drove to the home of the bride, where a wedding breakfast was served. Later Mr. and Mrs. Sheehy left by the noon train for Montreal, Mrs. Sheehy travelling in a chic tailored suit of navy tricotine, seal furs and small black hat. They will reside in Peterborough.

It's Confidence that does it.

OBITUARY

F. T. FLAGLER.

Frankie Theodore Flagler, son of Mr. and Mrs. Frank Flagler, 179 Adeline Street, died last evening at 8.30 o'clock, aged seven years, after an illness of one year's duration. Three brothers and one sister survive. Funeral to-morrow morning at 9 o'clock to St. Peter's Cathedral and St. Peter's Cemetery.

MRS. JOHN McCOLL.

Mrs. John McColl died this morning in St. Joseph's Hospital after several weeks' illness, aged 75 years. Deceased, who was born in Sydney Township, near Frankford, had resided in the city for the past two years. She leaves of the immediate family four sons and three daughters, namely Monsignor McColl, rector of the Church of the Immaculate Conception, Peterborough, Bruce, of Frankford, J. B. of Cobourg, Frank of Trenton, Mrs. J. F. Galvin of Peterborough, Mrs. Tom Regan of Frankford, and Miss Eunice at home. The funeral will be announced later.

MILK SOON TO BE 11 CENTS A QUART IN KINGSTON

KINGSTON, Ont., Oct. 11.—Milk consumers in the city will shortly be able to purchase milk at 11 cents a quart. This is to be made possible by the action of army and navy veterans, who are ready to enter into contract with certain farmers living in the close vicinity of the city as soon as the farmers premises and cows are inspected by the inspector, Mr. Bell.

JUDGE CRITICIZES LANDLORDS.

TORONTO, Oct. 9. — The action brought by George Thompson against Walter Evans in the Division Court was productive of severe criticism of some landlords by Judge Morson. The defendant rented a house from the plaintiff for $50 a month, but was unable to move until 13 days after the month's notice had elapsed. The plaintiff claimed $50, but was awarded only $30, and it will be paid in instalments of $2 a month.

LINDSAY BOY BROKE JAIL IN SHERBROOKE.

LINDSAY, Oct. 11.—The Lindsay youth who was sentenced to St. John's Industrial School, Toronto, for burglarising Grandy's warehouse (along with a number of other boys) is in trouble in Sherbrooke, Quebec. Word has been received here from the Chief of Police in that City, and the information was forwarded that the boy was wanted at the Industrial School. For some days after his sentence he evaded the authorities, and finally left the limits.

Chief Short was notified by the boy's father on Saturday that the boy had been placed in the cells for the night. In the morning when the police went to visit him it was found that he had made his escape and no trace of him could be found.

South Russian Front Breaking Before Wrangel's Advance

ADDITIONAL CASUALTIES IN IRELAND

ATTACK ON MILITARY LORRY RESULTED IN ONE DEATH—CONSTABLE SHOT.

(Canadian Press.)

CORK, Oct. 12.—Attack on military terday morning resulted in the death of the driver and the wounding of three soldiers. It developed into another fight between soldiers hurried to the scene and the attacking party, which, according to military headquarter's report, numbered 150 men. It is said that they were armed with machine guns, rifles and bombs. Unlike Saturday's engagement at Newestown, yesterday's conflict was a long range affair and it is not believed there were any casualties which are not already reported. The scene of the ambush was near the town of Kanturk, residents of which later closed their houses and shops and fled to the country, fearing reprisals.

CONSTABLES SHOT.

(Canadian Press.)

LONDONDERRY, Ireland, Oct. 12.—Constables Kenny and Crawford were shot dead and a sergeant and two other constables were badly wounded when a police motor car running between Roscommon and Ballaghaderreen, County Mayo, was fired upon this morning.

PASSED A GOOD NIGHT.

(Canadian Press.)

LONDON, Oct. 12.—Lord Mayor MacSweney of Cork, passed a very good night at Brixton prison, and this morning was in the same rested and peaceful condition that was reported yesterday, said a bulletin issued by the Irish Self Determination League. This is the sixty-first day of hunger strike.

SMYTH KILLED.

(Canadian Press.)

BELFAST, Oct. 12.—A report that a brother of the late Commissioner Smyth of the Royal Irish Constabulary, has been killed near Dublin. As the Commissioner was in Cork last summer it has caused a sensation here. If the Major Smyth who was killed proves to be a relative of the late Commissioner, it is feared there will be a renewal of disorders in Ulster.

THE LAST WEEK

MILLER'S SALE OF HIGH-CLASS BOOTS, AT $3.00 OFF, IS NEAR ITS CLOSE.

The last week of J. W. Miller and Sons' Shoe Sale will likely hasten the selection of their best fall and winter footwear by many who have delayed their purchases for different reasons. The store management advises all who have been hesitating to get in early this week and have the benefit of still unbroken lines, complete in sizes and the very last word in style. The saving of $3.00 a pair on all the $15.00 boots has been greatly appreciated by customers for Miller's best shoes, and is of course continued for this last week of the mark down sale.

SAYS THE INNOCENT NEVER TAKE OWN LIFE

(Associated Press)

PARIS, Oct. 12.—Henri Landru, who is shortly to be placed on trial on charges growing out of the disappearance of 11 women to whom he had promised marriage and who has acquired quite a reputation as a dry wit since his incarceration 18 months ago, showed deep interest in the health of the Mayor of Cork, Terence MacSwiney, on a hunger strike in a British prison.

Every morning he inquired of the jailer whether MacSwiney were still alive.

For a few days Landru showed a strong disinclination to partake of the usual prison fare.

"Are you trying to do the MacSwiney stunt, starve yourself?" the jailer inquired.

"The innocent never commit suicide," responded Landru sententiously.

WATER STREET BOWLING ALLEYS.

ESTIMATED VALUE OF BRIDGE SALVAGE IS SOLE TENUOUS CREDIT UNTIL OCT. 24TH

Only the value of the salvage, estimated at $15,000, is keeping the wolf from the Hunter street bridge door until the new by-law authorizing the borrowing of $130,000 to complete the work is submitted to the poeple on Thursday, October 21st. The liquid credits provided by the two preceding by-laws and the contributions from the Government and Railway Board have been mopped up, and the last of the available collateral will likely be spent by the time the ratepayers have declared whether or not they will furnish the money required to bring the work to completion.

In the meantime the main arch is rapidly approaching the finished stage and other sections of the work are being pushed along under the advantage of favorable weather.

The present progress strengthens the Council's appeal to the ratepayers for their support of what has been declared to be the final appeal for funds. The only alternative now to raising the requisite $130,000 is the suspension of the work, and it is pointed out that any delay would occasion additional expenditures which can be avoided by permitting the construction to proceed without any break in the operations.

It is understood that the contractors have not recently drawn any of the balance of their account in order that the remaining funds might be stretched as far as possible to cover the ordinary expenditure.

Henry Holdgate Is Asked Investigate the Power Trouble

MEETING WAS HELD THIS MORNING—DEPARTMENT OFFICIALS TAKE ACTION—LOCAL REPRESENTATIVES PRESENT—WILL ABIDE BY MR. HOLDGATE'S DECISION.

"The Department of Railways and Canals is quite satisfied that their engineering staff—Chief Engineer W. A. Bowden and Superintendent of the Trent Waterways, A. L. Killaly — have used their best endeavors to look after the interests of power users in this district, that everything possible has been done, and we have implicit confidence in them. For the moment the department is not concerned with navigation, but are keenly interested in assuring that the utmost use is made of available water for generating power. And such is also the wish of the goverment. There are no jealousies so far as the Department of Railways and Canals is concerned."

Such was the assurances of Major Graham A. Bell, Deputy Minister of Railways and Canals, to a gathering in the Board of Trade chambers this noon of local and district industrial magnates.

The meeting was called hurriedly last night, and any district interests not represented there are invited to meet Henry Holgate, of Montreal, here in Petrborough next Thursday morning, to talk over the water and power situation. Mr. Holdgate has been selected by the Deputy Minister to give independent advice on this vexed power question now agitating public opinion in all districts served by the Trent waterway.

Those Present.

Besides local power users and local power and Trent waterway officials, there were also present with the Deputy-Minister, Major Bell, W. A. Rowden, Chief Eng. Dept. Railways and Canals; C. Fowlds, of Hastings; J. F. Smith, chairman Campbellford Light and Power Commission; Major Hay of Campbellford; G. B. Smith, manager operating department Hydro-Electric Central Ontario Power Commission, Belleville; J. H. Burnham, Ex-M.P.; R. R. Hall, ex-M.P.

Best in Canada.

Deputy-Minister Bell practically opened the discussion by stating that he had suggested to the Department of Railways and Canals and the Government the expediency of calling in an outside expert on the water and power question. He (the Minister) had been in touch with half a dozen engineers from whom his choice had been fixed on Henry Holdgate, of Montreal one of the best hydraulic engineers in Canada, who will visit Peterborough Thursday morning next to meet power users and go thoroughly over the whole situation; reach a determination for action, and report to the department as early as possible. He hoped this course would be acceptable to all interested. Incidentally, Major Bell remarked that he did not know whether Hydro-Electric had oversold power or not.

The proposition for independent inquiry by Mr. Holdgate, of Montreal, met with general acquiescence, and that gentleman will meet power users here on Thursday morning.

Proper Steps.

Mayor Hay, of Campbellford, thought the department is taking the proper steps.

Mr. Fowlds had no kick coming. He said Mr. Killaly had always given his town of Hastings whatever water for power was needed.

Fifty-Fifty.

H. A. Fife, of the local Hydraulic Power Co., declared he was getting all the power required for the Quaker Oats Co., and been giving Hydro-Electric Commission 50 p.c. of watever electric energy developed by his plant.

Depends on Weather.

R. R. Hall declared getting enough water from the back lakes hinged on whether the weather was wet or dry. Present day conditions, he said, would be recurring from time to time, and he thought it up to Hydro-Electric to make provision for an auxiliary service. He suggested a steam power generating plant to meet emergencies of the nature under complaint, as similar conditions are bound to arise again. Or let the Commission develop more and more power until all our natural resources are utilized.

Burleigh Falls.

J. H. Burnham could not see why, if this district is not going to have sufficient water to draw on for meeting what he understood to be a shortage of 4,000 h.p., Burleigh Falls are not developed. There are, he said, a 23 ft. head there which might be readily brought into requisition.

Wants Early Relief.

J. W. Meyers, of the Peterborough Cereal Co., declared his faith in surplus water from our back lakes during winter months. But he regretted to say his mills are suffering from present lack of power, and he hopes for early relief.

No Agreement.

The Deputy-Minister made it quite clear that there existed no agreement between Hydro-Electric and the Dominion Government on the question of power.

Abide by Decision.

Expressions of opinion asked for by Major Bell were all in accord with the apointment of Henry Holdgate as a disinterested authority to investigate the situation.

Major Bell emphasized the fact that Hydro-Electric and all other interested parties were welcome to present their cases to Mr. Holgate on his arrival on Thursday.

C. J. Smith, of Belleville, representing Hydro, said that Hydro would abide by Mr. Holdgate's decision.

Chief Engineer W. A. Bowden, of the Department of Railways and Canals, staed that it was merely a question of credibility between Hydro engineers and those of his department, and stated that he was satisfied to leave the matter in the hands of Mr. Holdgate.

H. O. Fiske, C. E. Sisson, P. B. Westbye, R. H. Parsons, City Engineer, Ross Dobbin, Superintendent of the City Waterworks, all expressed themselves as satisfied. The engineers present spoke of Mr. Holdgate's standing as an hydraulic engineer as high, and Ross Dobbin stated that he was regarded by the members of his profession as a "little tin god."

Use Board of Trade Chambers.

At the meeting's close Deputy-Ministre Major Bell was offered the use of the Board of Trade Chambers and staff for inquiry business by Mr. Holdgate and others.

EXAMINER WILL BULLETIN GAME

A RUNNING REPORT WILL APPEAR IN TO-MORROW'S ISSUE.

Arrangements have been made by the Examiner to secure a running report of to-morrow's game in Guelph between Peterboro and Hamilton.

The results will be bulletined and a complete report will appear in to-morrow's issue.

CAN LEAVE IN THE MORNING FOR GUELPH

For the benefit of fans who wish to go to Guelph to-morrow it may be stated that they can leave here on the 5.16 C. P. R. train to-morrow morning and make connections for Guelph in plenty of time for the game.

PRICES ARE DOUBLE PRE WAR LEVELS

STAPLE LIST SHOWS DROP OF ONE DOLLAR SINCE LAST JULY—IMPROVEMENT CONTINUES.

(Canadian Press.)

OTTAWA, October 12. — A continued downward movement in prices is shown by the report of the cost of living branch of the Labour Department prepared for publication, in the September issue of the Labour Gazette.

The report states that the Departmental index number of the wholesale prices was down to 326.6 in September as compared to 356.6 for May —the high point.

For September, 1919, the index number was 301.5. Prices are still far more than double those prevailing in pre-war times. The average cost of a list of 29 staple foods in terms of retail prices at the middle of September was $15.95, or a dollar less than than in July and eight dollars more than September, 1914.

CLEVELAND CHAMPIONS

WON DECIDING GAME TO-DAY, DEFEATING BROOKLYN BY THE SCORE OF 3 TO 0.

COVELESKI'S GAME

(Canadian Press.)

CLEVELAND, Oct. 12.—Wilbert Robinson selected Burleigh Grimes to-day in the last hope of checking the Indians' rushing drive toward the world championship. Against the Broklyn ace, Tris Speaker sent in Stanley Coveleskie.

Cleveland fans and Manager Speaker were confident that this afternoon's game would terminate the season, and that Broklyn would travel home alone.

THOMAS M'VITTIE LECTURE TO-NIGHT

WILL SHOW A NUMBER OF LANTERN SLIDES.

Mr. Thos. McVittie, the well known horticulturist of Toronto, will be in the city this evening. His visit is a particular favor to the Horticultural Society as he will attend the meeting at the Board of Trade rooms at 8.00 p.m. and give a practical demonstration on planting cuttings and bulbs, and will also show lantern slides, illustrating various phases of horticulture.

The future activities of the Horticultural Society will largely be determined by the support given to the executive in the attendance this evening of all citizens who love flowers and plants and have a vision of Peterborough as the "City of Flowers." Ladies particularly are invited to attend the meeting, and all are welcome.

EMPHATICALLY NOT.

"Did these articles belong to your roomer?" asked the detective of the landlady. "A button, 3 cents, and a receipted bill." "A receipted bill, eh!" she replied. "Th n it ain't him."

J. G. Guise-Bagley Was Sentenced by the County Judge

HAS SERVED OVER NINE MONTHS IN THE COUNTY JAIL—WILL GO BACK TO ENGLAND—A PAINFUL DUTY FOR JUDGE HUYCKE.

James G. Guise-Bagley left the County Court a free man this morning after His Honour Judge E. C. S. Huycke had sentenced him to imprisonment of nine months less one week to run from the date of his arrest nine months less one week ago.

F. D. Kerr, counsel for Bagley, made an eloquent plea in his defense He spoke of the painfulness which must result to the Judge in having to deal with a member of the bar. He dwelt upon the fact that Bagley now 59 years of age had reached his life ambition five years ago when he was admitted to the bar and had started out handicapped by his years. His practice had been poor and he had succumbed to temptation. Mr. Kerr pointed out that the prisoner had raised a family of seven children. Two of the sons had been successful two of the daughters were well married, one son had been killed in the war, and another maimed, and the invalid daughter, her father's favourite, had died while he was in jail. He emphasized the fact that restitution in full had been made by a bond of Bagley's brother in Engand which guaranteed full restitution to the clients who had lost their money to the satisfaction of the counsel, B. D. Hall, G. N. Gordon and V. J. McElderry. Bagley, he declared, had been incarcerated for nearly nine months and had suffered bitterly. He was now a broken man of 59 years of age. There was no true law of God or man which downed a man forever. Counsel asked for suspended sentence.

Crown Attorney G. W. Hatton stated that he did not wish to recite the particulars of the theft and dwell upon the enormity of the offense. The bond of restitution was satisfactory to him.

Unpleasant Case.

Judge Huycke then delivered sentence. He said that the case had given him much anxiety as it was unpleasant to deal with a member of the bar with whom relations had been intimate and many of whose qualities he had respected and admired. At one time in fact he had considered the advisability of calling in an outside judge to try the case.

He understood the painfulness of Bagley's situation and that his family had done him credit. Their success reflected creditably upon the father.

He had been nine months in jail and the judge considered that he had already suffered bitterly He did not wish to send him out to begin life anew with the stigma of suspended sentence. There was no law of God or man which crushed a man. He did not believe him a broken man; there was still hope.

The judge then sentenced him to nine months less one week to run from the date of his arrest in January which left him a free man.

Bagley as he stood to receive his sentence trembled visibly and tears came to his eyes. His voice shook with emotion when he spoke.

"You are at liberty to go now," said the Judge.

His Honour alluded to the help of Bagley's brother in England, whom he said, was a brother indeed.

Bagley told the court that his brother, who was nearly blind had asked him to come to England and assist him in his business there. He intended to do so.

MAN O' WAR SIX LENGTHS

WON CLASSIC RACE AT WINDSOR ON FAST TRACK BEFORE BIG CROWD.

Kenilworth Track, Windsor, Oct. 12.—"Man o' War" proved his claim as the horse of the century here to-day when he defeated Sir Barton over a mile and a quarter at Kenilworth Park. Clarence Kummer piloted the great colt owned by Samuel Riddle to victory, while a crowd of 50,000 cheered wildly. The race was for a purse of $75,000 and a $5,000 cup, all going to the winner.

Man o' War led by a length and a half at 3-4 mile and increased lead to 6 lengths at the finish.

Time—2.03, or 62-5 better than the track record.

United Press.

WINDSOR, Oct. 12. — Old King Sol came out in all his glory this afternoon for the classic event of turf history between Samuel Riddle's "Man o' War," and J. K. L. Ross' "Sir Barton."

At one o'clock the stands were fairly well crowded.

The eKnilworth track to-day is the Mecac of all racing enthusiasts on the American continent. Every train brings new arrivals and acocrding to predictions at noon 30,000 people will be inside the park to witness the big sporting event.

The cost of staging to-day's event will be $125,000 including the $73,000 purse and $5000 gold cup.

This amount will probably be more than taken care of by the increased admission fee, motion picture rights and the mutual percentage.

Many Notables Present.

Many notables have already made reservations. Enrico Caruso, the famous singer, will witness the spectacle from a special box. Among others are included Sir Reginald Grey, E. W. Beatty, K.C., President of the C. P. R., Mayor Winter of Windsor; the Windsor city council; District Attorney A. J. Grosbeck, Detroit; the directors of the Dominion Bank; the Cuban Consul; E. M. Statler, proprietor of the Statler Hotels; Allen Pinkerton, head of the detective agency, and under whose jurisdiction the two racers are being specially watched; Charles Miller of Toronto, and Major Wiliam Hendrie, of Hamilton.

Lord Shaughnessy and a party of Montreal race followers, have arrived by motor. They include Sir Montague Allen, President of the Montreal Jockey Club; Richard Neville, a noted horseman; Major Ogilvie, Captain G. L. Ogilvie and Major McDougall.

Man o' War's Career.

Man o' War, during his racing career, has won 19 races out of 20 starts, while Sir Barton in three years, has won 13 out of 27. Man o' War's total winnings in stakes and purses has been $160,465, while Sir Barton has won for his owner $114,807 since he has been racing. Should the Riddle colt win his winnings will approximate a quarter of a million dollars. If the Ross four year old turns the trick his three years' racing will have netted $200,000 for his owner.

The only horse that has finished in front of Man o' War is Whitney's Upset which beat the Riddle colt by a head in the Sanford Memorial Stakes last season. Man o' War has since decisively beaten the Whitney colt on more than four occasions.

WERE SPEAKER'S GUESTS AT MEMORABLE GAME

C. G. GRAHAM AND T. H. HOOPER BACK FROM CLEVELAND—BRING GROUP PICTURE.

The large postergraph picture of the Cleveland American League baseball team shown in Trebilcock's window is a souvenir Mr. Chris. Graham brought back with him from Cleveland, where he and Mr. T. H. Hooper were guests of Tris Speaker at Sunday's memorable game. The Indians' leader provided every accommodation for his two Peterborough friends. Speaker will arrive in Peterborough early next week for a holiday at Rice Lake and probably Pigeon Lake also, where in fishing and duck shooting he will forget for the time being such excitements as winning a world's series and making extraordinary baseball history.

ARE YOU IN NEED OF GLASSES

Some folks say they can't tell whether they really need glasses or not. If you are in doubt at all about the matter, let a careful eye examination settle the question for you. See W. H. Lacey, Optometrist, 410 George street. Open Wednesday and Saturday evenings.

THE SOVIET GOVERNMENT ON THE RUN

GENERAL WRANGEL IS ADVANCING ON THE SOUTH RUSSIAN FRONT—TOWNS CAPTURED.

WARSAW, Oct. 12. — Conditions along the South Russian front have assumed a serious aspect for the Russian Soviet government, according to the advices that have been received here.

Baron Wrangel's troops are continuing to advance north of the Crimea and the Sea of Azov, and Nikolaiev, the principal Russian naval station on the Black Sea, is said to have been captured by Anti-Bolshevik insurgents.

In spite of the fact that an agreement looking to an armistice, had been reached with Poland, and large numbers of Soviet troops are in a position to be rushed to South Russia, the Soviet government is reported to have made peace proposals to General Wrangel.

WRANGEL ADVANCING.

Ukranian insurgents have occupied Kiev, the Bolshevik forces that have been holding the city abandoning it, according to the advices received here. Kiev is the chief city of Ukranian.

General Wrangel, the anti-Bolshevik leader, has launched his expected offensive against the new sixth army of Soviet forces. Sheltered behind the Dneiper River, General Wrangel is carrying out a pinching movement, converging on the town of Kahkovka, northeast of Kherson.

WENT FIFTY-FIFTY IN STOCK OF LIQUOR.

(Associated Press.)

NEW YORK, Oct. 12.—When the Court granted Mrs. Eugene S. Willard, wife of a wealthy real estate broker, a divorce, a stipulation was made that she and Mr. Willard go fifty-fifty on the liquor in the town and country residences which the couple had been occupying.

The Court called for a complete list of all "wines, liquors, and cordials" in the possession of the Willard family, and both plaintiff and defendant agreed to an equal distribution.

ADRIFT ON LAKE ONTARIO FOR THIRTY-SIX HOURS

KINGSTON, Ont., Oct. 12.—Grant Hutchinson, keeper of Duck Island Light in Lake Ontario, twenty-four miles from Kingston, was adrift for thirty-six hours, without food in a motor boat, during the storm on Saturday night. He was finally rescued by George Bilkey, a fisherman. Hutchinson went out Saturday to haul his nets and was caught in the gale. Fuel gave out and the wind blew him away from the islands. By using oars to keep the craft's head into the waves he kept afloat until rescued.

SYNOPSIS OF A PROPOSED BY-LAW FOR BORROWING THE SUM OF $130,000.00 IN ORDER TO COMPLETE THE BRIDGE OVER THE OTONABEE RIVER AT HUNTER STREET:

The purpose of the proposed by-law is to borrow on the sinking fund plan the sum of $130,000.00 in order to complete the construction of a high level bridge over the Otonabee River at Hunter street. The amount required to be raised annually for the payment of the debt will be $4,365.63, and the payment of the interest will be $8,450.00. The amount to be borrowed is to be payable in 20 years from the date of the issue of the debentures.

TAKE NOTICE that the foregoing is a synopsis of a proposed by-law of the Corporation of the City of Peterborough to be submitted to the votes of the electors on the 21st day of October, 1920, between the hours of Nine o'clock in the forenoon and Five o'clock in the afternoon ,at the following places:

Polling Sub-divisions Numbers One and Three—Place: M. H. Halpin's, 59 George street.

Polling Sub-divisions Numbers Two and Five—Place: T. J. Murray's 111 Rubidge street.

Polling Sub-division Number Four—Place: Fitzpatrick & Geraghty's, 198 Rubidge street.

Polling Sub-divisions Numbers Six, Seven, Eight and Nine—Place: City Hall Chambers.

Polling Sub-divisions Numbers Ten and Eleven— Place: Fitzpatrick & Geraghty's, 356 Charlotte street.

Polling Sub-division Number Twelve—Place: Mrs. Lyle's House, 301 Pearl Avenue.

Polling Sub-divisions Numbers Thirteen and Fourteen — Place: N. Routley's, 392 Brock street.

Polling Sub-divisions Numbers Fifteen and Eighteen—Place: T. Hooper's Store, 601 George street.

Polling Sub-divisions Numbers Sixteen and Seventeen — Place: J. S. Black & Son's Store, 599 George street.

Polling Sub-division Number Nineteen — Place; J. T. Braund's, 720 George street.

Polling Sub-divisions Numbers Twenty and Twenty-One — Place: Mrs. Swanston's House, 46 Hunter street east.

Polling Sub-division Number Twenty-Two — Place: M. Kylie's House, 558 Rogers street.

And that the 20th day of October, 1920, at 10 o'clock, in the forenoon at the Clerk's Office, in the said municipality has been fixed for the appointment of persons to attend at the following places, and at the final summing up of the votes by the Clerk.

And that if the assent of the electors is obtained to the said proposed by-law it will be taken into consideration by the Municipal Council of the said Corporation at a meeting thereof to be held after the expiration of one month from the date of the first publication of this notice, and that such first publication was made on the 28th day of September, 1920.

TAKE NOTICE FURTHER that a tenant who desires to vote on said proposed By-law must deliver to the Clerk not later than the 10th day appointed for taking the vote a declaration under The Canada Evidence Act, that he is a tenant whose lease extends for the time for which the debt or liability is to be created, or in which the money to be raised by the proposed by-law is payable, or for at least twenty-one years, and that he has by the lease convenanted to pay all Municipal taxes in respect of the property of which he is tenant other than local improvement rates.

Dated, Peterborough, September 28th, 1920.

S. R. ARMSTRONG,
City Clerk.

3d-28-5-12-2833.

TENDERS FOR THE REMOVAL OF SNOW AND SLUSH

SEALED TENDERS, addressed "Chairman Board of Works," and endorsed "Tenders for Snow Plowing" will be received at the office of the City Clerk up to 4 p.m. on Saturday, October 23rd, 1920 for removing snow and slush from the sidewalks and footpaths of the City from time to time as may be required during the Winter and Spring of 1920 and 1921. The City will supply the Snow Ploughs. Tenders will be received separately for one or more districts. Bidders will be required to examine the Specifications at the office of the City Engineer and satisfy themselves as to the conditions thereof before submitting Tender and will be required to furnish evidence of their ability to properly execute the work, and their tenders must be signed by two sureties who will enter into a bond with them for the proper fulfillment of their Contract. The lowest or any tender not necessarily accepted.

R. H. PARSONS,
City Engineer.

Peterborough, Ont., Oct. 9th, 1920.

OLD TIME FENIAN DIES IN IRELAND, AGED 95

Assisted in Rescue of Daniel O'Brien From Clonmel Prison.

(Associated Press.)

WATERFORD, Ireland, Oct. 12.—Richard Power, who died here a few weeks ago at the age of 95, was closely identified with the Fenian movements in 1848 and 1867. In the latter year he assisted in the rescue of Daniel O'Brien from Clonmel prison and his escape to America.

When Captain Kelly, who was associated with Allen, Larkin and O'Brien in the Manchester prison van tragedy, was a fugitive in England, Richard Power arranged his escape to Waterford in the brig he used in the coal trade and the subsequent flight to America.

NO FEAR NOW OF INDIGESTION

A Host of People Seem to Thrive on What Used to Provoke Indigestion Before They Learned of Stuart's Dyspepsia Tablets.

When the stomach becomes sour, with gassiness and heartburn due to

indigestion or dyspepsia relief may be had by one or two Stuart's Dyspepsia Tablets. Simply chew them, no hot water nor any other fillers for a stomach perhaps already too much overcrowded.

These tablets supply to the stomach the alkaline effect which is what relieves the sour acid condition. They also contain pancreatin to help digest the starchy foods such as potatoes, rice, oatmeal, white flour, etc.

The fact that these tablets are on sale everywhere in the U. S. and Canada shows how generally recognized they are as an efficient aid when the dyspeptic stomach needs a little help.

TIME HAS COME FOR SUGAR RECKONING

MANAGER WRIGLEY COMPANY SAYS REFINERS SHOULD TAKE A LOSS.

TORONTO, Oct. 12. — That the William Wrigley Company, Limited, had been offered 5,000,000 pounds of the best grade white cane sugar at ten cents per pound in cars and ready for delivery, which would mean 13.54 cents per pound delivered here with duty, exchange and all incidentals paid was the statement made by J. Allan Ross, manager of the Wrigley Company, in an interview. Mr. Ross expressed the view that the time had come for Canadian refiners to accept a loss in order to bring the price to Canadian consumers down to about midway between what they were now paying and what American users were paying.

He remarked that his firm was the largest individual user of white powder sugar in Canada and while they did not desire to bring sugar in from the United States and had no intention of doing so, it seemed hard to be forced to pay 19 1-2 cents per pound when they could secure American sugar for about 14 cents. He admitted that if Canadian refiners were compelled to drop their prices to meet those of American sugar laid down here, some of the large concerns might be crippled financially. "Canadian consumers do not desire to ruin the refiners but the time has come for a reckoning," he commented. "As far as we are concerned for the sake of doing our part to help stabilize the sugar refining business in Canada, we are willing to pay between 16 and 17 cents and stay out of the American market."

GOOD WORK DONE BY AIRPLANE FOREST WATCH

(Associated Press.)

WASHINGTON, Oct. 12. — Airplane forest patrols in California were able recently to reach the scene of a fire forty-five hours sooner than had they proceeded by train and pack mule, a report to the army air service shows. An aerial observer spotted its blaze in Lassen forest while all other foresters were engaged in fighting another fire in the Merced forest. Planes picked up the fire-fighters in the Merced zone and rushem them to the Lassen fire.

"In three hours," says the report, "the fire-fighting personnel was on the job fighting the flames, whereas, had they proceeded by train and pack mule, 48 hours would have been consumed.

"The day will come when men and equipment will be carried by airships to the scene of fire, both men and equipment dropped by parachute, while the airship will rain down fire extinguishing chemicals from above."

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With It to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

CANNOT RAISE EMBARGO ON CANADIAN CATTLE

LONDON, Oct. 11. — Lord Lee, Minister of Agriculture, has reiterated to a deputation of Scottish agriculturists and meat traders that the Government is still unable to raise the embargo on Canadian store cattle. He admitted that Canada's cattle record was one of the cleanest in the whole world, but that it was impossible to import from any quarter of he globe without incurring risk.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross"

PREMIER DRURY VISITS THE TRENT WATERWAY

UNOFFICIALLY INSPECTS CANAL SYSTEM BETWEEN SIMCOE AND GEORGIAN BAY.

THREE STRETCHES

ORILLIA, Sept. 12. — Premier Drury Thursday made annunofficial inspection of that stretch of the Trent Waterway lying between Lake Simcoe and Georgian Bay. The Premier was the guest of the Orillia Water, Light and Power Commission and on the forty-eight mile motorboat trip he was accompanied by:

Mr. C. H. Hale, chairman of the commission Mr. Duncan C. Anderson, Mayor of Orillia and commissioner; Mr. F. H. Horne, commissioner; Mr. R. H. Starr, engineer to the commission; Mr. George Page, superintendent of plant; Mr. H. D. Lumsden, one of the engineers who made the original survey for the C. P. R. in '71; Mr. M. T. Mulcahy and the Rev. J. R. S. Boyd.

Leaving the Orillia Wharf at ten o'clock in the morning, the party headed northward on the historic Couchiching. Here, in vivid contrast to the wispy and disphanous clouds, the palely blue sky and the pearly green water there stood fairy shores where maples and oaks flaunted in a flaming and gorgeous riot of scarlet and gold and crimson. Probably Lake Couchiching looked but little different from this on that day three hundred and five years ago when the stout-hearted Champlain and his flotilla of birchbark war canoes—with paddles flashing in the morning sun—hurried grimly southward against the hated Iroquois. But the day of the courier de bois is past. However, romance survives under new forms and the day is not far distant when these deserted lakes and rivers will be again populated with merchant adventurers, and with a great procession of staid and leisurely barges carrying the golden wheat of the West to hungry Europe.

Discussed in 1833.

It was in 1833 that Canadians first began to seriously discuss the project of joining Lakes Ontario, Simcoe and Huron by means of linking up the strings of lakes and rivers that run from Trenton on the Bay of Quinte through Peterborough and Orillia to such natural harbors as Midland and Port McNicoll on Georgian Bay. This waterway would provide a cheap means of transit for barges and shallow draft vessels and it would effect a saving of 250 miles on the distance between Port Arthur and Montreal as against the present Detroit and Welland route, while on the trip from Port Arthur to Liverpool, it would be 727 miles shorter than by going through Buffalo, the Erie Canal and the Hudson River. Work was actually commenced on the Trent Valley Waterway about 1835 and, despite the recent war, the work has been gradually progressing until now a continuous inland route between Quinte and Georgian Bays could be provided by the expenditure of a few hundred thousand dollars. The value of such a system of light-draft water-transport may be proved by a mere reference to the part which these canals have played in the commercial and industrial development of England, France, Belgium and Germany.

Used by Over 1,000 Boats.

On the northern section of the Trent Waterway over 1,000 vessels (mostly motor launches) have this summer passed through the Washago Lock, while about 4,000 have gone over the marine railway at Big Chute portage. Since the Couchiching (Washago) Lock was opened last July, it leaves between Lakes Simcoe and Huron only three stretches to prevent the free passage of barges and scows of thirty-foot beam. These are at Swift Rapids, Big Chute and Port Severn.

Travelling through the Trent Valley Waterway one quickly realizes what a misnomer it is to call it a "canal," for over two-thirds of the waterway consists of open lakes and rivers. Going north from Orillia, the first canal met is at Washago, where a cut of about one and a half miles has been made, and where a drop of 21½ feet is covered by the Couchiching Lock. This will accommodate a barge of 30-foot beam, 150-foot length and 9-foot draft, and it will pass a boat through in from five to ten minutes. The drop here will also provide the logical site for the erection of the next of Simcoe County's Hydro-Electric plants.

After passing through the upper Severn, there is a rock-cut of about half a mile running between precipitous walls of laminated red gneiss. Emerging again on the river, one sees where the original Orillia power plant was located at Ragged Chute, and after two more miles the generating station at Swift Rapids is reached. When the dam was constructed here, the level of the water was raised about 47 feet for two miles up river, thus giving in some places of depth of 150 feet. Watery fiords and gulfs were made where before there had been only dry gullies, while one island on which a summer cottage had been built was almost completely submerged. This dam is the highest on the continent, and until the proposed lock is completed it forms a barrier to through traffic. However, an inclined railway carries launches of 35 feet or under from one water level to another, and it similarly provides for the transfer of freight from barge to barge. The power plant here, which is capable of developing 6,260 horsepower, is about 28 miles from Orillia and it is owned and operated by that municipality.

Relying on the many rocky miles which separate the little red school house beside the foaming white waters of Swift Rapids from the ever watchful eye of the Honorable the Minister of Education, sitting majestically in the pall of murky smoke that enshrouds Toronto, the school teacher here has proclaimed a public holiday in honor of the Premier's visit, and all four students are enjoying it to the full.

After a brief visit the party pushed on to the Big Chute which is eight miles farther down the Severn and where the Hydro-Electric Commission has a generating station. This plant has ten feet more head than the one above but at present it only develops the same horse-power which it distributes to Collingwood, Midland, Barrie, Pt. McNicoll and numerous other towns. A canal and lock are going to be built here but the present marine-railroad will continue to carry the small craft over the portage in order to save both time and also the water required to work the locks.

Below the Big Chute the present outlet to Matchedash Bay is by Port Severn. Here, however, the lock is only 25 feet wide and the eventual means of egress will be by a canal leading from Gloucester Pool to South Honey Harbor. Suitable transshipping facilities to enable the lake steamers to transfer their cargoes to the inland barges will be available at Midland, Port McNicoll and other harbors along the bay.

On arrival at Port Severn, Premier Drury found that he was all but late for his meeting at the Oro Town Hall and so, commandeering a motor, he jammed down the accelerator and disappeared with the pious wish that, if there were any bread-wagons loitering along the King's highway, they might display more agility than those he had met during the past week.

SOFT COLLAR PRICES REDUCED

TROY, N. Y.—Reduction in the price of soft collars, which in the cheaper grades correspond to the cut in the cost of starched collars last June and makes the twenty-five cent soft collars again a retail possibility, was announced to-day by Cluett, Peabody & Co. The wholesale price of the standard Arrow soft collars has been fixed at $2.10 per dozen a reduction of 30 cents.

TUESDAY, OCTOBER 12TH, 1920.

THE NEW BRUNSWICK RESULTS.

The outstanding feature of the results of the New Brunswick Provincial elections seems to be the introduction of the group system as opposed to the old two party system. What the outcome will be, it is difficult to prophesy, but it appears probable that the United Farmer members who were elected will ally themselves with the Liberal Government, giving Premier Foster a working majority. The Government succeeded in capturing twenty-four seats, the Opposition thirteen, the United Farmers nine, and the Labour two. The success of the Farmers was not as spectacular as the showing made by the United Farmers' organisation in Ontario and Manitoba, for their standard-bearers were badly beaten in many ridings. The electors recognised the fact that the U. F. candidates were in the field merely to gain political power, and not as a protest against the Foster Government, against which they have no serious grievance, and the record of which has been marked by progressive and efficient administration of public affairs, and in the majority of ridings in which the Farmers had candidates the verdict was an adverse one. The nine Farmers who were elected can do little on their own account, and will likely be found supporting the Government when the Legislature meets.

MOTHERS' ALLOWANCES.

The Mothers' Allowances Act is beginning to function in Ontario, and committees are being organised in various centres to administer this fund, the result being that public attention is being directed to the measure which has been criticised by a number of newspapers on several counts, principally because the maximum allowance of $55.00 a month for a mother and five or more children is not considered adequate in the face of the high cost of living. The amount is certainly not large, but the fault seems to lie in the fact that the amount voted by the Legislature for this year's operations was not ample enough to allow of bigger pensions being provided. The defect will doubtless be remedied at the next session, for it is difficult to think that a Government progressive enough to recognise the need of such an Act, and to put it into force, would be so niggardly in its provisions of funds as to nullify the effect of the measure. There are other features in connection with the Act that will doubtless be altered in answer to the pressure of public opinion, notably that a provision should be made for the paying of an allowance to the widow with one child, who at present is not included in the scope of the Act. No case of distress should be left uncared for as far as the jurisdiction of the Mothers' Allowances measure is concerned.

THE SPEED CRAZE.

If there is any class in the community that should have safety week and its meaning called to its attention it is composed of those motorists who have developed a mania for speeding. There is no greater menace to the public safety than the man who ignores the speed limit and the dictates of common sense and tears through city streets and along country roads at a mad rate in a car that may at any time be the cause of his own death or that of somebody else. Figures issued at the annual convention of the American National Council of Safety show that fatalities due to automobiles amounted to three times the number of fatal accidents in factories, mines and railways. During June, July, August and September, some one was killed every thirty minutes by a motor car and the deaths from such accidents were twenty-five per cent. more numerous than in the corresponding period last year. Recklessness and fast driving are the reasons assigned by the National Council for this terrible destruction of life. The investigators indeed say that the United States has gone speed crazy. The conditions in Canada are not much better and the Winnipeg Free Press is right when it says: "But because the killings have increased in an even greater proportion than the number of automobiles in use has the situation should be given immediate consideration by the automobile makers of the country, unless they expect soon to be confronted by a great volume of hostile public opinion. It must be clear that such a staggering death-rate cannot continue without causing unusual action."

THE SALE OF A SOUL.

A New England writer of excellent repute describes the baseball scandal lately laid bare at Chicago, as the legitimate product of current American ideals and practices. Judged by recognised conceptions and examples, the predominant motive of the day is to get money. That achievement seems to be regarded as the first and chief end of man, and not what is set forth in the standard definition of the Shorter Catechism, with which Scottish-Canadians are especially familiar. Is not the use of the citizen in church or state or household usually measured as a bringer in of "good money?" Without it in the average society there appears to be a minimum of honour going, but within its magic circle recognition abounds, and not always a disposition to inquire closely into the methods of its acquisition. Small wonder then that the high-priced professional player in the field of sport should sweep along in the gilded current that swells the tide of passion and prosperity. There is a note of something more hopeful latent in the general expression of resentment and repudiation concerning the disclosures, and an apparent insistence upon an effectual retribution for such wrong-doing. This, however, has been in some degree credited to apprehension of a reaction against the future success of a national pastime, which must have the sustenance of public confidence. While that is reassuring, there remains the danger that the glint of the dollar may still be obscuring those deeper and wider lessons that suggest themselves. Conditions call for a truer criterion of achievement than the currency of the realm. Something different is needed than just material efficiency. That might be attained by a mere machine. The requisite is a standard indicative of moral, intellectual, and spiritual distinction, wearing the badge of service in Christian brotherhood. This will grow out of a priority of purpose in that kingdom of righteousness promulgated by the Redeemer upon principles never yet abrogated.

Interwoven in the very warp and woof of man's moral nature, as well as inscribed upon ancient tablets and inspired writings, are those inviolable injunctions, observance of which can never be disregarded without doing violence to relationship with the Divine and "thy neighbour." Thou shalt not covet and thou shalt not steal may be inconvenient to persons who, by hook or by crook, want to secure something without squarely earning it, but those homely old mandates are just as binding and wholesome as ever they were. The individual may become calloused, obsessed, and seemingly insensible, but within sits a monitor, vigilant and inexorable, whose indictments presage somehow or somewhere an arraignment for judgment. That inward Counsel for the Crown of Heaven can neither be cajoled nor evaded. When, in the Chicago Criminal Court one of the culprits made his confession of taking a $10,000 bribe to defraud his employers and the public, he broke down with anguish and tears. "I have lived a thousand years in the past twelve months," he cried out; "why did I ever do it? I am disgraced; my family is disgraced! Where can I go? What can I do?" He realised in all its cogency the teaching of the Apostle that none liveth nor dieth to himself. As the surface of a lake feels the disturbing ripple of the thrown stone, so the little circle of the star pitcher was broken by the widening spread of moral disorder. As the Scripture hath it, his sin had found him out, and although to others the consequences were lamentable, penalty more dire had fallen upon himself. What recompense in that humiliating hour was he afforded by the ten thousand dirty dollars? None, absolutely none! No luxurious brown stone flat, nor sumptuous fare, nor any tinsel and trapping of life could replace what he had parted with. He had trafficked away his soul for which the Master teaches there can be no adequate exchange. More than that, he had sold himself into the power of gamblers, more unscrupulous than himself and heartless withal. Often during the long year of misery he had doubtless wished himself free and rid of the accursed stuff. "If it were done when 'tis done," Macbeth cries out in the drama, but of that there could be no hope. The assassination could never trammel up the consequence and catch with the end success, nor deliver the soul from its blight. Judas of old, the arch traitor and thief, bartered his soul for thirty bits of silver, which, in remorse, he flung back to the merciless beings who had bribed him. Then he passed out into the night of dark despair, adding to the already black category of his perfidy the guilt of self-destruction.—London Advertiser.

Just a minute, please!

HAVE you got $3.25? All right, this advertisement is written to tell you how you can invest that $3.25 for five years—maybe ten—and get dividends several times a day.

For time is money and an Ingersoll Maple Leaf—price $3.25—keeps time—good time—and with any sort of care lasts five or ten years. Less than a cent a week for time-keeping service!

The dividends are in moments saved, which mean money earned.

And the Ingersoll doesn't fall down on the job just because it happens to fall out of your pocket occasionally. Such an accident is a mere incident to the Maple Leaf—it's a catastrophe to most watches.

One repair bill on an expensive time-piece would buy a Maple Leaf, with enough left over to pay for that wonderful 75c Radiolite Dial that tells time in the dark.

Maple Leaf Radiolite, $4.00

POCKET STILLS.

Latest Device Captured by Prohibition Officers.

(Associated Press.)

ASHEVILLE, N.C., Oct. 12. — A pocket still is the latest device captured by the Federal Prohibition officers. The whole outfit was so small the officers put it in their pockets and brought it to the city for exhibition purposes. The officers called it a parlour still. It is of a table glass capacity, and manufactured an article for home consumption.

LOW SPEED CARGO AIRSHIPS FOR TOWING.

(Associated Press.)

CARDIFF, Wales, Oct. 12.—Low-speed cargo airships for towing other airtraft were suggested by Wing Commander T. R. Cave-Browne-Cave in an address before the Engineering section of the Conference of the British Association for the Advancement of Science held here.

When no speed greater than 35 miles an hour is required and when reasonably favourable weather can be waited for, even small airships can be used for transport over otherwise impossible country, he stated.

It has been demonstrated that airships with a gas capacity ranging from 70,000 to 2,400,000 cubic feet can transport at slow speed from 0.73 to 48.1 tons when used as airships with crew and machinery, and from 1.3 to 52 tons when used as "dumb" vessels.

Such an airship service, the Commander said, would be of inestimable value in civil engineering, such as the construction of railways and in prospecting for oil and minerals by transporting material. It would be possible to land one or two men or even a survey party by means of slings from a strong wire while the airship was practically stationary.

INDIAN STYLES SEEN IN LATEST BLOUSES

NEW YORK, Oct. 12.—All of the season's fashion offerings are announcing that this is to be a combination salad year as far as garb is concerned and blouses are heralding this fact more loudly of all style trophies.

The day of the one-color, one-material blouse is a thing of the sartorial past. Two colors and two fabrics are an absolute necessity, and the nearer the garment is to a Joseph's coat effect, the better. Another high spot in blouse style is that any blouse that's in, must be out. It can stay outside the skirt band in one of many ways—tie-back, long Russian peplum, apron, panels—but never inside can it be.

The Avenue is showing chic models every day that exploit these new fashion trends. One of the most novel combinations is that of georgette or satin with fine leather or vivin kid panels. A leading house shows such a model in rust georgette with a front panel of the same colored kid. The blouse is shirred into a short peplum which falls over the skirt, and soft ribbons of rust catch the fullness of the georgette sleeves at the wrist.

Panels of duvetyn on blouses of georgette or satin are very popular. These panels are generally of a contrasting hue and are lavishly adorned. Thus, one house shows a model of peacock blue georgette with panel of chow brown duvetyn. This panel is covered with a scroll design in gold braid. Other models are shown in such color combinations as leaf brown and burnt orange, midnight and electric blue, rust and canary yellow, cherry or "folly" red and black, or reseda and emerald green, georgeous skirts of heavy brocaded satin that a season of skirts and decollete blouses rather than bona fide evening gowns is prophesied.

The less pretentious realm of blousedom shows hand-made models of batiste, linen, lawn, or voile plentifully adorned with hemstitching, drawnwork, lace, tucking, or medallion inserts. It is only this type of waist that is shown in the lighter shades of flesh, pink, or white. Georgettes and satins employ only the deeper and brighter colors.

The vogue of garish and elaborate trimmings is still on, but the Oriental seems giving way to the Indian, both as to design and coloring. Thus, the overworked combination of Chinese red and Algerian blue is giving way to the Aztec coloring of crimson and canary, or touches of brick.

Scroll work and conventional patterns continue to be worked out in gay wools, chenile, metallic gold or silver threads, or beads and buttons. The ordinary tin trouser button is found upon many elaborate three-figured blouses. Bugle, irridescent, and jet beads and running the gayer beadings a close race. One house is showing a very expensive blouse developed in cherry red duvetyn and trimmed with great pailletes of jet beads. Festoons of the beads drip from the elbows and wrists of the georgette sleeves, and a banding of irridescent beads finish off the blouse hem.

Another novel trimming is narrow ribbons formed into a pattern. A taupe duvetyn garnished with a bow-knot pattern made from olive and cherry ribbons is shown. Insets of patent leather, oil cloth, kid, and heavy leather are plentiful.

Batik blouses abound. They employ shades of brick, plum, wistaria, or flame, with real patterns rather than the intricate maze of their first season. Elephants, totem poles, camels, and the scarab seem popular patterns.

JAPAN DOES NOT FAVOUR SMALL NAVIES

PEACE OF WORLD WOULD BE MENACED BY POWERFUL SEA POWER OF AMERICA.

(Associated Press)

TOKIO, Oct. 12. — Japan is not likely to subscribe to the idea that the naval strength of nations which are members of the League of Nations, shall be cut down or their increase stopped, in the opinion of the leading daily, the Nichi Nichi.

"All powers are agreed on that proposition on principle, observes the Nichi Nichi in its political news column. "But the United States, which was the power that proposed curtailment of naval expansion, has not as yet joined the league and she is fast increasing her naval strength. Even if other powers should strictly and faithfully adhere to the principle of reduction, the peace of the world will just the same be menaced by the powerful naval power of America.

Accomplish Nothing.

"Thus, the general conference of the League of Nations will not accomplish anything, except that each of the members present will search into the heart of another." (The first meeting of the Assembly of the League of Nations has been called at Geneva for November 15).

The Nichi Nichi therefore observed that the Japanese navy would consider the question from the peculiarly Japanese point of view regardless of whether any definite program be formulated by the conference as to the naval restriction and regardless of the attitude of France, England, Italy and other powers. Already an investigation had been conducted in the navy by such officials as Rear-Admiral Yasuho, Captain Kiyokawa and other members of the Investigation Committee. A policy of the Japanese Empire has already been decided upon, but "owing to the lack of information as to what attitude England, France, Italy and other countries will be," the nature of the policy was not made public, the Nichi Nichi says.

Policy Summarized.

"But, briefly speaking," the Nichi Nichi goes on, "the policy, it may be understood, may be summarized as follows:

"The eight battleships and eight cruisers plan, which had been a long cherished idea, and which was approved by the recent session, is insufficient as the minimum strength to perfect the defense work of the Empire. In other words, in case the powers present in the conference propose to limit naval construction on the basis of its not going beyond the plans now in process of completion, the Imperial Japanese navy will have to maintain that the recent plan approved of (the eight and eight unit) is by no means its final plan of national defense. As was explained at the 41st session of the Diet by the Navy Minister, the Empire must have as the minimum naval strength necessary for defense two units of eight battleships and four cruisers of latest type and of the serviceable age—that is about eight years or younger—or three units of eight ships, totalling 24 principal vessels. This plan must be completed regardless of the time of completion.

"If because America is not a member of the League of Nations, the members present should consider any action made as useless and should content themselves with simply meeting each other in a conference, the Empire's representatives may not express the view of the Empire at all."

LADY ASTOR DESIRES WOMEN IN EMBASSIES

LONDON, Oct. 11.—Lady Astor, M.P., is anxious that diplomatic posts should be open to women. This ideal she shares with Mrs. Maude Nathan, an American woman, who was a delegate at the International Suffrage Convention held at Geneva.

Lady Astor and Mrs. Maude Nathan met in London and agreed to use their influence to have women attaches appointed at the respective embassies. Mrs. Nathan has promised to use her good offices to bring about the appointment of a representative American woman to the office of the American Ambassador in London, and Lady Astor will urge that Sir Auckland Geddes should have a similar representative at the Embassy at Washington. Both feel strongly that the women of Britain and America should have a large place in international affairs.

SPENT ALL SUNDAY AFTERNOON IN ELEVATOR

ST. CATHARINES, October 12. — A funny little incident that occurred on Sunday afternoon has just leaked out. It apepars that for the purpose of making some repairs to the machinery the Lincoln Power Company arranged to turn off the juice between the hours of one and five p.m., and did so. About two minutes past one the power house got a telephone message asking that the power be turned on for just half a minute. It was impossible to comply with the request as the connections had been cut. Why all the the urgency?

"Well, this is the Murray House, when the power went off our elevator was left stranded half way between two floors, and there is a young business man in there who very earnestly wants to get out."

But nothing could be done, and the young business man spent a very quiet and isolated Sunday afternoon in the stationary elevator.

WOMAN FOR MAYOR

(Associated Press.)

NEW YORK, Oct. 12.—Mrs. Clara M. Brown, of Roselle Park, N.J., has thrown her bonnet into the political ring. She is a candidate for Mayor on the independent ticket.

What are Peps
Peps provide a new treatment for coughs, colds and lung troubles. They are little tablets made up from Pine extracts and medicinal essences. When put into the mouth these medicinal ingredients turn into healing vapors, which are breathed down direct to the lungs, throat and bronchial tubes. The Peps treatment is direct. Swallowing cough mixtures into the stomach, to cure ailments and disorders in throat and lungs, is indirect. Peps are revolutionizing the treatment of colds and their price is within the reach of all. All dealers, 50c. box. Send 1c. stamp for FREE TRIAL PACKAGE.

BUILDING QUADRUPLED SINCE CLOSE OF WAR

HOUSES AND INDUSTRIAL STRUCTURES SHOW GREAT ADVANCE IN MONEY VALUE.

Residential and industrial building activity, in point of view of money value, has almost quadrupled in Ontario since the close of the war, according to the latest statistic compiled by MacLean Daily Reports, Limited. The figures cover building actually contracted for in all the cities, towns, villages and rural districts of the Province, and make comparisons of totals for the first nine months of the last three years as follows: 1918, $25,437,200; 1919, $67,045,200; 1920, $92,076,900.

Corresponding totals for the Dominion of Canada are: 1918, $82,545,400; 1919, $138,597,400; 1920, $213,200,300.

For Ontario the figures represent the composition of building by the various types as follows:

	No.	Value.
Residences.		
Frame ..	188	$ 502,300
Brick ..	347	1,717,600
Total ..	...	2,219,900

LINDSAY APPOINTS NEW G.W.V.A. SECRETARY

The Lindsay Branch G.W.V.A. has by unanimous vote appointed Com. Frank Garton Secretary of the organization.

Lindsay Vets have got away to a good start with their program for fall and wnter entertaining.

Just One Application and the Hairs Vanish
(Modes of To-day)
A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hair, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results buy the delatone in an original package. Mix fresh as wanted.

METHODISTS WILL SPEND $1,300,000 ON MISSIONS

TORONTO, Oct. 12.—At the concluding session of the General Board of Missions of the Methodist Church on Saturday morning, the appropriation for the expenditures on missionary activities for the year 1920-21 was finally fixed at $1,300,000. The morning was devoted to a discussion of ways and means of reducing the budget, but increased costs in all departments prevented any greater reduction than $12,000 on the figure previously announced. Arrangements were completed for the placing of the financial situation before the church in an effort to secure the increased revenue necessary to meet the situation.

CUSTOMS DEPARTMENTS TO CONVENE IN LONDON

OTTAWA, Oct. 12.— Representatives of the Customs Departments of Great Britain and all the British Dominions are to have a conference in London, England, in February next. The object of their meeting is to bring about, if possible, uniformity of forms—such as entry forms, invoices and the like—used in the Customs services throughout the Empire. Canada will be represented at the gathering. It has not yet been definitely decided who will attend but the name of S. W. McMichael, Chief and General Inspector of Customs, has been mentioned.

Lantic Sugar

fine!

FREE
This week only
At any drug store named below, a 10-day tube of Pepsodent. Simply present the coupon. Let this new way prove itself. Judge by results what it means to you. Learn now the way that millions know to whiter, safer teeth.
For Beauty's Sake
Remove that film-coat from your teeth
Teeth cannot glisten with a film-coat on them. You who want white teeth must learn how to remove it.
This week your druggist offers—free—a new way of teeth cleaning. Millions now employ it. Leading dentists everywhere advise it. Go make that test. One week's results will be a revelation.
Film—the great enemy
But this is more than a beauty question. Film ruins millions of teeth. Most tooth troubles are now traced to it.
Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste cannot end it, so the tooth brush has left much of it intact.
It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.
Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing, because brushing failed to end that film.
Now a new dental era
Dental science, after years of research, has found ways to combat film day by day. The methods have been proved efficient by many careful tests. High authorities endorse them. And millions of people now employ them, largely by dental advice.
These methods are combined in a tooth paste called Pepsodent. Together they combat the film as nothing else has done. And they are fast bringing, the world over, a new era in teeth cleaning.
That is the tooth paste you are urged to test. See the instant results—watch the effects for ten days. Then decide for yourself between the old ways and the new.
The unique effects
One ingredient of Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.
Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.
The Pepsodent effects come with every application. Day by day they fight the teeth's great enemies. And teeth are protected as they never were before.
See and feel it act
Present this coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.
The results are quick and apparent. A little book tells the reasons for them. For your own sake learn how much they mean.

Now daily used by millions
Millions of people are now using Pepsodent. You can see the results wherever you look—in glistening teeth.
Women who think their teeth white now should see how they look with the film gone.
With men who smoke the films are apt to be particularly discolored. They will see the most conspicuous results.
But children need Pepsodent most. Their teeth are most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. It may save them troubles life-long in effect.

SON SUES HIS FATHER FOR $5,000 DAMAGES

CASE WITHOUT PRECEDENT IN THE PROVINCE OF QUEBEC LEGAL ANNALS.

MONTREAL, Oct. 12.—A case, declared without precedent in the legal annals of this province, was decided in the Superior Court here when Sarto Marchand, sued through his tutor and uncle, Alphonse Marchand, and obtained a judgment against his father for $5,000 damages for injuries suffered through being crushed under his father's automobile at Ste. Genevieve in June, 1919.

Counsel for the defence at one stage of the proceedings informed the court he would withdraw from the case as it was obvious that his client wished to lose the case and had apparently sanctioned the action with that end in view solely. Later, he agreed to hold a watching brief for his client.

PROSPECTS FOR A GOOD, HARD WINTER

PLENTY OF SQUIRREL FOOD AROUND PETERBORO COUNTY.

If a profusion of nuts indicate a hard winter, as Dan Whetung would ominously predict, Peterborough is in for a cold session. Beech nuts, butternuts and walnuts have been particularly plentiful in the country this fall. The beech nuts are now nearly over, but there are still many of the butternuts on the trees, though the trees are hard to find. Old residents can recall when there were trees on every farm and some farms boasted of a whole row. Nearly every one of thse trees have disappeared, many before the wood cutters axe, to provide the material for a piece of exquisite furniture or many through sheer carelessness on the part of the owner to give them a little attention. The butternuts, however, have not changed through the passing years and are of as fine a flavour as ever, but strange to say they are unappreciated by many farmers who are lucky enough to possess a tree. Numerous city families have journeyed to the country and returned with not a few bags to store in the attic for future reference after they have lost the slight bitter tang noticeable now. Walnuts, it is said, are plentiful and the farmers have been stocking up with these. In many parts of the country they are very plentiful and thanks to frequent planting of young trees there is no apparent danger of the waluut family becoming extinct. The squirrels have now nearly finished stripping the trees of beech nuts and on only the top branches can one see any nuts. Hickory nuts are also abundant this year.

SMALL CROP OF WINTER APPLES

EARLY APPLES ARE BEING FED TO THE PIGS.

Orchards in this country were blessed with abundant crops of early apples but the same, it is declared, cannot be said of the late or winter varieties. Out in the country the farmers are feeding their early apples to the pigs for they are unable to dispose of them. There is no great crop of late apples anywhere, in this district, local fruit men say, and the price cannot fail to be high. Barrels are now worth $1.75 and they are hard to obtain at any price. "You can't get men to go in the swamps and cut elm now," stated one local dealer to-day, when asked why they had advanced so high above the pre-war figure.

Peaches are still coming into the city. The tide of yellow fruit that has flooded into this city this year has eclipsed all former records in the opinion of one fruit man. Innumerable carloads have been sold and they are still selling. Plums are obtainable yet but their tenure of life is short. Grapes are exceedingly dear this year. The Americans are buying up all they can lay their hands on, declare the fruit dealers, at the expense of the Canadian public. Grapes at the vines cost 40 cents and there is now little hope of any cheaper grapes. Out along the stump fences in the country are tons and tons of blue wild grapes that sell at forty or 50 cents a basket in town, but may be had for the picking by anyone fortunate enough to own an automobile or other conveyance to reach these inaccessible by-ways.

U.S. Labor Department says a 50 per cent. drop in building material prices would still leave them 178 per cent. over pre-war figures.

A VEHICULAR TUNNEL UNDER HUDSON RIVER

(Associated Press)

NEW YORK, Oct. 12.—Construction of a vehicular tunnel under the Hudson River between New York and Jersey City starts to-day with the breaking of ground for one of the tube's big airshafts. State, county and municipal officials from both states have been invited to participate in the ceremonies in Manhattan this afternoon.

Engineers expect to complete the structure by 1924. The cost, estimated at $29,000,000, is to be borne equally by the two states. Shore works, including shafts and approaches, will require 18 months to construct, after which actual work of boring under the river is to begin.

Continued congestion at the ferries between New York and New Jersey prompts the belief of tunnel engineers that 5,600,000 motor and horse-drawn conveyances will use the tube in 1924, with traffic showing a steady increase, reaching an annual figure of 22,000,000 vehicles by 1943. Tolls based on the ferry rates will be levied for 20 years to pay for the tube, and then it would be free for the use of all.

Four driveways, two in each direction, will be provided. A sidewalk, two feet in width, also is planned. The tunnel, comprising twin cast-iron tubes each with an external diameter of 29 feet, will be six feet wider than the Pennsylvania Railroad tubes under the Hudson East Rivers.

Traffic blockades, now common on ferries, would be precluded by providing at each end of the tube derrick-equipped trucks to take stalled automobiles in tow. Three driveways in each direction will be furnished on the approaches, because slight inclines there are expected to slow down the movement of the vehicular queues.

Ventilation to rid the tunnel of carbon monoxide gases from automobile exhausts will be furnished by four large shafts and also by an air duct under the roadway and an exhaust above. Smoky vehicles circulate poisonous gas freely in closed places, but chemists working on the tunnel ventilation system estimate that at the highest point of saturation there will be only 3 1-2 parts of carbon monoxide to 10,000 parts of air in the tube. It requires 8 parts of the gas to 10,000 parts of air, they figured, to give a man a headache.

HOW TO RIPEN GREEN TOMATOES INDOORS.

A method of ripening green tomatoes that has been found successful is to wrap each tomato in paper and place them in a closed box or drawer in a warm room. Another method is to pull the vine before there is any sign of injury from frost and suspend it from the ceiling of a warm room or the cellar. In some cases if the conditions are favorable the fruit will go on ripening until Christmas. A dark place is preferable and a temperature of 50 to 65 degrees suitable.

Mother Can Do More Work

A LAD CAME INTO THE OFFICE THE OTHER DAY AND SAID:—

"I want another Bottle of Gallagher's Blood Purifier. Mother says she can do far more work when taking it."

WHY?

Because it is Poison in the Blood which causes us to feel Tired, Weary, Sore, and Useless. Remove the Poison, and we at once feel like a "two-year-old colt," when work is a pleasure. GALLAGHER'S BLOOD PURIFIER puts the Stomach, Liver, and Bowels in a healthy condition, preventing any more Poison getting into the System, and at the same time removes the Poison and Purifies the Blood. Try a Bottle—only 75 cents—at all Druggists and Dealers in Patent Medicines.

Yard Wide Striped Flannelette, 33c Yard

It is that good quality Canadian made flannelette that so many women have learned to appreciate. It is between 35 and 36 inches wide. We have carried it in stock for twelve months—hence the very low price. Your opportunity To-morrow.

45c Heavy Quality White Flannelette, 33c Yard

It is a heavy quality and is 34 inches wide and has a soft combed finish. To-day's cost is as much as our street floor price of 55c yard. There is a limit of 20 yards to one buyer and it will be sold in 5 and 10 yard lengths only.

LEADER

Four Hundred Yards of New 65c Dress Ginghams, 33c Yard

HALF-PRICE FOR A NINE O'CLOCK RUSH SALE

This is a shipment that has just arrived. We should have received it in April. There are only two pieces in the lot that are not regular 65c values. First buyers will find an especially attractive range of novelty plaid patterns.

65c Curtain Scrims to Clear at 39c Yard

This is a clearaway of Six Pieces. First buyers will have choice of all-over patterns; Cream centres, with conventional designs, and plain centres with coloured borders. This price is considerably less than To-day's wholesale cost.

6c Bars of 'Lenox' Laundry Soap, 8 Bars for 25c

TWENTY CASES ONLY

Practically only half price for this twenty case lot of "Lenox" Laundry Soap. It is the regular 6c size bars and is a popular Proctor & Gamble product. Come early for the quantity will hardly last throughout the day. At this rate the price is only a little more than 3c a bar.

Ladies' 50c Cashmerette Gloves 39c Pair

These special 50c Cashmerette Gloves have a warm fleecy lining and double dome fastened wrists. The colors are black and white. There is a good range of sizes in each color.

Ladies' Black Cashmere Hose, 2 Pairs for $1

HALF PRICE SALE

The reason for this sale price is that we have size nine only. They are a splendid quality, seamless, stainless hose that have the popular narrowed ankle.

Children's 69c and 75c Long Black Drawers, 49c

If the children are to be warmly clad it is just such garments as these that will be required. They are "Yorknit"—a splendid quality, ankle length and have snug fitting jersey waist bands.

Children's $1.25 to $1.50 Sleepers, 95c

These warm, cumfy garments for the Kiddies are in a light Grey colour, and have snug fitting feet, button backs, and drop seats. The regular Prices run from $1.25 to $1.50, according to size.

LEADER

One Hundred and Fifty Dress Goods Ends, Priced at $1.95 and $3.90 an End

They are in 2½ and 5 yard lengths, and the materials are serges, roxanas, lustres and popular cloth. First buyers will find a colour selection that includes black, cream, dark red, green, navy, marine blue, taupe, brown and Copenhagen. If they were on the piece they would sell at $1.25 or $1.35 a yard. Thanksgiving Annex Sale Leader prices are

2½ Yard ends, $1.95 an end.
5 Yard ends, $3.90 an end.

LEADER

85c Habutai Wash Silks, 49c Yard

500 YARDS

Truly, a remarkably low price for these habutai wash silks. There is a range of twenty colours, including black and white, for nine o'clock buyers. The width is 27 inches. It washes perfectly.

"Matchless" Floor Wax, 47c

This is a favorite brand for hardwood and softwood floors, linoleum and furniture. A little of it goes a long way and the price for to-morrow is an economical one.

Three Furniture Items Feature the Thanksgiving Annex

$26.50 Golden Oak Dressers, $16.75

This price is considerably less than to-day's wholesale cost. They have a thirty-four inch case and a bevelled, British plate mirror—12 in. x 18 in. There are also three spacious drawers. It is certainly exceptional to be able to offer dressers at this price.

$38.50 and $45 Golden Finish, Royal Oak Buffets, $27.50

There are four only of these buffets with golden grain finish. They have British plate glass mirrors and two small drawers and one linen drawer and a large china cupboard with oak or leaded glass doors.

$24 Royal Oak Extension Tables at $14.75

These tables match the buffets. They are a square shape, and have five heavy legs. You have choice of two sizes, with extensions to six or eight feet.

Men's $1.50 Fine Merino Drawers for 59c

There is size 36 only in these Fine Merino Drawers, but there are about six dozen to be cleared in the Annex to-morrow at only about one-third of the regular price. They are an especially fine quality and are a suitable weight for fall wear, and the street floor price was $1.50. To-morrow's price 59c pair.

Ladies' Regular 20c Handkerchiefs, 3 for 39c

Twenty cents would, indeed, be a very moderate price for such lovely sheer qualities. Some are embroidered with white and others with colors. A number are edged with lace. We really bought them for Christmas selling, but we place them on sale now and no doubt many people will purchase them for Christmas giving, even at this early date.

Get a small box of Korein at the pharmacy; or write for free booklet (which will come to you in plain wrapper), to KOREIN COMPANY, 277-D, Toronto, Ontario.

TO PREVENT AIRPLANES FROM FLYING TOO LOW

(Associated Press.)

THE HAGUE, Oct. 12.—So many continental airplanes lines now cross Holland that some of the Dutch cities have adopted ordinances to prevent the air liners from flying so low as to become a source of danger. An ordinance adopted by this city requires air pilots to keep more than 800 feet above the level of the city.

SUCCESSFUL PUPILS ARE PUBLICLY HONOURED BY SCHOOL ASSOCIATION

INSPECTOR A. MOWAT OCCUPIED THE CHAIR—THE ADDRESSES.

Every available chair in South Central School was occupied last evening when the Home and School Association of the school publicly honoured the successful pupils in the recent entrance examinations.

Inspector A. Mowat, who occupied the chair, addressed the large assembly briefly, first congratulating the pupils on their success in passing the entrance which Mr. Mowat considered the most important step in a pupil's educational career, marking as it does the turning point in his life, when he chooses whether to go on or to take some other course. Continuing, he spoke of Dr. Miller, Provincial Director of Technical Education, whose mission in the city, which, if his survey of the town convinces him the establishment of a technical school is necessary, will make it possible for students to choose from more than two courses. He stated that in 1921 the Adolescent Act will come into force, requiring all pupils in the city to attend school until 16 years of age. There are, he said, loopholes for school children until 1922, when every pupil must attend school for at least 400 hours in the year.

Principal's Record.

Referring to the high percentage of pupils successful in the recent entrance examinations when 91 per cent. of the Peterborough Public School pupils were successful, the speaker said that such success was due not only to the teachers but to the parents who have sent the children regularly to school. He also referred to the splendid record of Mr. Keith St. C. Wightman's entrance pupils, only one of whom he recommended having failed. Referring to the many ways in which the Home and School Associations may help in the schools, he laid particular stress upon the importance of physical welfare and concluded by advising that all mothers should become very closely associated with the teachers.

Mr. A. A. Fowler.

Mr. A. A. Fowler, who with Dr. F. C. Neal, represented the Board of Education, congratulated the pupils on their success and spoke briefly upon the splendid asset a Home and School Association is to a school, bringing as it does the parent and teacher so closely together and assured the members of the support of the Board of Education.

Dr. F. C. Neal, the last speaker, before presenting the diplomas, spoke of the sympathetic hearing all requests for improvements in the local schools were given, by the Board of Education, the members being only too anxious and willing to do anything for the betterment of the boys and girls of the city. Referring to the activities of the Board, he spoke of Mr. A. A. Fowler's tireless efforts in bringing about such improvements in the schools as were necessary, he having given unsparingly of his time in going into the smallest detail. He also spoke of the work accomplished by Mr. E. G. Patterson and other members, who at their own expense have made surveys of out-of-town school in getting ideas for the city schools. The Board is at present working on plans for the enlargement of the Collegiate Institute in order to give pupils the education to which they are entitled. In addressing the successful pupils Dr. Neal advised them to start in their High School course by doing systematic work and to look upon their teachers not as masters but as helpers.

Won Diplomas.

The diplomas were then presented by the speaker to Irene Chambers, F. Freeman, Burwood Collinson, Kenneth French, Nellie Francis, Kenneth Goheen, Lizzie Heard, Mary Heard, Ross Lord, George Noftall, Allan Neal, Ethel Reynolds, Madeline Redmond, Dorothy Dyrer, Jean Taylor, Marion Webber, George Cunningham, Violet Goodson, Eleanore Akey, Connie Downs, John Marcham, Edna Cross, Clarence Cornett.

After presenting the diplomas Dr. Neal urged the pupils to remain loyal to the school and urged similar loyalty to their new field of education at the Collegiate.

Musical Programme.

A short programme interspersed the addresses to which Miss Hazel Davidson contributed several readings, Miss Eagleson solos and Miss Dorothy Clarke a solo. Each item was enthusiastically encored.

IN POPULAR VICTROLA RECORDS

Whether in vocal or instrumental music almost any selection will be found in the large assortment of records in the Victrola Parlors of Ye Olde Firme of Heintzman & Co., Limited, George and Hunter streets, Peterborough. The new victrola catalogue of 620 pages telling of 9,000 selections, and containing much information of value to every musician, portraits of great artists, etc., will be sent free on application.

INDIAN BOY KILLLD IN AUTO ACCIDENT

BELLEVILLE, Oct. 12.—Hilton Brant, a 15-year-old Indian boy, is dead as the result of being run down by an automobile on the Mohawk reservation Sunday.

The accident occurred shortly after noon. Young Brant with another boy of about his own age had been attending the morning service at the Mohawk church. After the service they mounted their bicycles and were going along the road towards home. They had proceeded only a short distance when they heard the "honk" of an automobile, and they separated, one boy taking the right and the other the left of the main track, apparently in the expectation that the driver of the car would pass in between. Unfortunately this expectation was not realized for the car struck the bicycle on which Brant was riding and the boy was thrown violently to the ground. When he was picked up it was realized that his injuries were of a very grave character and he was at once rushed to Belleville hospital. Four local physicians attended to the wounds but as the skull had been fractured it was believed that there was little hope of recovery. The end came Sunday night.

The driver of the car was a Mr. Maracle, also a resident of the reservation who was himself also returning from church.

Hilton Brant was the son of Mr. F. C. Brant.

NEW METHODIST CHURCH FOR GORE'S LANDING

Many from Cobourg and surrounding districts as well as from Camborne circuit attended the laying of the corner-stone of the new Methodist church at Gore's Landing. Capt. the Rev. Ernest Harston is pastor. The ceremony was performed by H. W. Ackerman, Belleville. Addresses were made by Rev. J. S. I. Wilson, Chairman of the Cobourg district. Rec C. S. Applegath, Port Hope; Rev. C. S. Washington, Baltimore, and Rev. Simon Smith. A fowl supper, attended by some six hundred persons, and an entertainment followed. The Methodist S.S. orchestra and Port Hope Male Quartette assisted in the program. A sterling silver trowel was presented to Mr. Ackerman.

DOMESTIC REPARTEE

She—I just love to sing. I should have been a bird.
He—And I a gun.

SOUR STOMACH

MI-O-NA PUTS THE STOMACH IN FINE SHAPE IN FIVE MINUTES

If your stomach is continually kicking up a disturbance; if you feel bloated and distressed; if you belch gas and sour food into the mouth, then you need Mi-O-Na Stomach Tablets.

Mi-O-Na stomach tablets give instant relief, of course, but they do more: they stop the poisonous gases. They stop excess fermentation of food and thoroughly clean, renovate and strengthen the stomach so that it can readily digest food without artificial aid.

Mi-O-Na stomach tablets are guaranteed to end indigestion, acute or chronic, or money back. This means that nervousness, dizziness and biliousness should disappear. Druggists everywhere sell Mi-O-Na, or by mail, 75 cents. Booth's Hyomei Co., Listowell, Ont.

HYOMEI
(PRONOUNCED HIGH-O-ME)

Ends Catarrh or money back. Just breathe it in. Outfit including inhaler $1.35. Extra bottles 75c. All druggists.

BURGLARS AT PORT HOPE.

PORT HOPE, Oct. 12.—Burglars visited the store of John Curtis & Son Sunday night, but evidently were frightened off. They used a brace and bit on the back door, expecting to be able to reach a bolt after they had bored a hole through. The hole, however, was only bored partly through, so it is evident they became faint-hearted on the job.

FOR THE NERVES

If you are nervous, if your nerves are weak, if you are run down, no life, just try Vital Tablets, the French Remedy, your nerves will be made strong, and all nervousness will disappear. Price 50c. a box, 6 for $2.50, at all drug stores. The Scobell Drug Company, Montreal, Que. Sold in Peterborough by Warne Drug Co.

Let Us Get Our Heads Together and

tell the people who have been suffering from backache, kidney troubles and rheumatic ailments that there is no remedy the equal of Dr. Banta's Kidney and Rheumatism Pills.

For sale by all dealers.

Featuring a Sale of High-Class Winter Coats for One Day Only

NINE FALL and WINTER COATS---Specially Purchased and Specially Priced

Brown Tweed $22.95

For the misses this splendid quality of Brown Tweed made up into a smart coat, with box pleat in back, belt passing all around, pockets handily placed and large convertible collar, is most becoming and will give unlimited service. Priced for one day's selling $22.95

Blanket Cloth Coats at $27.50

Always look well and give the one desirable warmth. These Coats are made with the full back effect, caught in at waist by means of a belt, convertible collar and half lined. Colors are: brown, burgundy and green. All sizes.

Here is a Coat of Velour at $55

That will meet with the approval of the most fastidious in style, color, quality of material and service-giving ability. The color is a rich brown and looks exceedingly well in this design with the pleated back, large cape collar, with fancy stitching as trimming along with buttons. It is half lined and priced for one day only.

A Reindeer Velour at $55

This is one of the newest of fall shades and is becoming very popular, especially in this cloth. The style of this coat is very new, with the high waist line and narrow string belt and large warmth - giving collar. The trimming consists of embroidery with chenille. This coat is half lined with very pretty material.

A Coat for the Larger Woman at $65.00

Made in the long line style which is most becoming to this type of figure. The material is a velour, excellent quality and in a dark brown shade. The pockets are inset, and the collar the large cape style. This coat also is priced for one day sale. Wednesday only..... $65.00

A Salt's Plush Coat for $65

An exceedingly good looking plush coat of Salt's Esquimitte plush—best quality. This style of coat always is in good taste. The large shawl collar and narrow string belt which forms a tie is very popular; lined throughout with Salt's satin lining. For Wednesday only..... $65.00

A Misses' Coat Specially Priced at $60.00

In the new Reindeer shade, velour cloth is the material, and an excellent quality. The groups of pin tucks in back and two large box pleats give this model a purely misses' style; large collar and beautifully lined for this low price.

An All-Wool Silvertone $25

A beautiful coat for the school miss, who wants a good style and good wearing coat at a moderate price. The silvertone material is exceedingly popular this season and in a smart style such as this coat with convertible collar, full back and belted one could make no mistake. Priced for Wednesday only at $25.00

Another Line of Coats Priced at $57.00

In a good assortment of colors such as reindeer, brown and taupe, very smartly tailored on full line. Fancy stitching and buttons are the only trimmings. The large convertible shawl collars and belted all around are most prevalent, half lined with very pretty lining. All specially priced for Wednesday shoppers.

OUR TOILET DEPT.

TO BE WELL-GROOMED IS A GREAT SOCIAL AND BUSINESS ASSET

RIGHT TOILET ACCESSORIES

ARE VITAL TO BEST APPEARANCE OF MEN AND WOMEN

The man who is careless about his personal appearance carries a very great handicap to business success.
The woman who neglects those attentions to her face, hands, and hair, that give her the well-groomed look, is at a very great disadvantage, when compared with the woman who is more fastidious about her personal appearance.

The clear, pink, healthy skin, the white, well-brushed teeth, the neat, well-coifed hair, will accentuate the beauty of the fairest face and, with the aid of a pleasant smile, will make the plain face radiant and good to look at.
The skin that is well nurtured with right creams; the teeth that are daily cleansed with right dentifrice; the hair that is daily rubbed with the right tonic, will give their possessor many added years of youthfulness and be a constant social and business asset.

And, after all, doesn't one owe it to friends and family to look one's best all the time?
Here are all the tried and proven Toilet Aids—the right use of which will give daily gratification to the individual and add years of youthfulness to the personal appearance.
These are shown at our Exclusive Toilet Department, north aisle, main floor:

Melba Toilet Water, in an assortment of odors, bottle	75c, $1.50 and $1.75
Melba Perfume, per oz.	$1.00 and $2.00

A BANQUET FOR CHURCH MEMBERS

MR. AND MRS. P. A. FERGUSON HONOURED LAST EVENING.

Mr. and Mrs. P. A. Ferguson were guests of honor at a farewell banquet given for them last evening in the Sunday school room of St. Paul's church by the elders and teachers of the church. Mr. Ferguson has been an elder at St. Paul's for the past five years and assistant Sunday school superintendent and the Session did not wish him to leave the city without expressing publicly some appreciation for his services in connection with church work, and the Sunday school joined with the Session in tendering the banquet.

A Presentation.

At the conclusion of the banquet, at which about seventy persons sat down, on behalf of the Session, Sheriff Hall presented Mr. Ferguson with a handsomely bound copy of Schofield's Bible. Short addresses expressing the regret at Mr. and Mrs. Ferguson's leaving the city and the appreciation of their hearty co-operation in all church work were given by Mr. Wm. Madill, chairman of the evening, Sheriff Hall, Inspector A. Mowat, Mr. O. Fiske, Mr. H. B. Cowan and Rev. Robert Pogue. Mr. Ferguson made a suitable and feeling reply assuring the assembly of his continued interest in all activities of St. Paul's.

HIGH SCHOOL MEMORIAL UNVEILED AT TRENTON

TRENTON, Oct. 12.—The High School here unveiled its memorial tablet Friday night. Lieut.-Gen. Sir Sam Hughes performed the ceremony and gave an address, Brig.-Gen. King G.O.C., Military District No. 3, also spoke. The tablet contains the names of 102 pupils and ex-pupils who served in the great war. Ten were killed in action, ten medals were won, there are three Lieutenant-Colonels, W. H. Craig, A. Miller, D.S.O., M.C., and James A. Little. Thirty held commissions, four were nursing sisters.

400 MILES IN CANOE.

Ex-Mayor of Peterborough Makes a Long Trip Through North.

Four hundred miles by canoe in the wilds of Northern Manitoba has been the experience of two Winnipeg men, R. F. McWilliams and Prof R. C. Wallace, commissioner of Northern Manitoba, who returned recently from the Hudson Bay. The trip started at Norway House and the route down the Hayes River was that taken by the Selkirk settlers. Two Indians piloted the canoes.

R. F. McWilliams referred to above is an Ex-Mayor of Peterborough, son of the late J. B. McWilliams, and brother of Theodore McWilliams, of Peterborough Hardware Co.

UNLOADING A STORE

CLIMAX OF VALUE-GIVING AT BOTNICK BROS'. ALTERATION SALE.

Perhaps the most powerful Clean-up Drive of the season in New Fall goods, is having a big run at the extensive "Unloading Sale of $15,000 worth of goods at the store of Botnick Bros. 430 George street. It seems that this unloading sale has been brought about by important alterations to be begun in the store. About half the stock must be cleared out of the way to make room for the carpenters and workmen. Rather than move the goods out of the store to another shop, Botnick Bros. are smashing prices unmercifully all this month to secure a rapid clearance. Bargains have been handed out to the crowds of buyers the past three days and the offerings for this week will cause a mighty movement of bargain seekers. Get a copy of the large bills with the sensational prices

POTATOES NINETY CENTS BAG IN PORT HOPE

Potatoes sold at all kinds of prices in Port Hope on Saturday. One load brought $1.25 a bag; another sold for $1.00, while a load of thirty bags were disposed of at ninety cents per bag.

OMEMEE NEWS

OMEMEE, October 12. — The annual Thanksgiving and Harvest Home Festival will be observed in the Omemee Methodist church next Sunday and Monday, October 17th and 18th. Rev. Prof. McMichael of Victoria College, Toronto, will be the special preacher for the occasion.

The choir is preparing special music and Lady Eaton of Toronto, will sing at each occasion.

On Monday evening, Prof. Quintele of the Toronto Conservatory of Music, and harpist of Sherbourne street Methodist church, will provide a treat for the music loving people of Omemee. He will also act as accompanist for Lady Eaton.

Mr. Ernest Bushnell, a former Omemee boy and now tenor soloist at St. Paul's Presbyterian church, Toronto, will also assist.

The balance of the programme will consist of readings, solos, drills and a pantomine, by local talent.

Refreshments will be served in the Sunday school room following the programme.

The Ladies' Aid Society for the last 30 years have utilized the thanksgiving anniversary to augment their funds and this year are appealing for a liberal thank offering.

UNEARTH OLD TABLET OF FIRST WATERWORKS

Bears Names of Brockville's Past Enterprising Citizens.

BROCKVILLE, Oct. 12.—Municipal employes engaged at the lower waterworks shop Thursday unearthed from the debris a mounted brass plate celebrating the erection of the waterworks building in 1882, and bearng the names of the members of the town council of the time, as well as the directors of the Brockville Waterworks Company which installed the works.

The inscription on the plate, which is in excellent preservation and which used to appear in the waterworks building is as follows:

"W. H. Comstock, Mayor and M. M., the Councillors: G. T. Fulford, Robert Bush, John Murray, John Culbert, A. F. Stagg, R. Bowie, J. W. Mann, Thomas Price, George Smith, James Quigg. With the Brockville Water Company, John McMullen, Esq., President, and M.M., the Directors, W. H. Cole, Vice-President, Allan Turner, George Dana, Thomas Gilmour, J. B. A. Beique, Builder, 1882. O. E. Liston, Architect.

Of these, the only ones living now are Robert Bush, of Brockville, and Thomas Gilmour, of Toronto.

The tablet will likely be replaced in position at the waterworks.

MYSTERY SURROUNDS MAIL DISAPPEARANCE

QUEBEC, Oct. 12.—Mystery still surrounds the disappearance of a mail bag, which is alleged to have been stolen from a mail cart in transit from the post office to the C.P.R. station the night of October 5th.

The police and the post office authorities refuse to speak, but Chief Detective Walsh left the city to-night and it is thought his mission has some connection with the missing bag.

Although it was stated at first that the amount of money contained in the missing bag was $15,000, it is now alleged that it was $50,000 or more.

CAPT. McRAE, INJURED AIRMAN, BEAVER BAY

Beaverton Express:—There has been current for some days a report based on a paragraph which appeared in the Toronto Press a few days ago that Capt. Russell McRae, one of the unfortunates who figured in the aeroplane accident near Brooklyn, is lying in the Toronto General Hospital with his back broken as a result of the accident. Capt McRae is a Beaverton boy and many friends will be anxious for his recovery.

Last Week of Miller's Sale

Saturday Closes our most successful Three Weeks Sale which has saved Hundreds of buyers $3.00 a pair on the purchase of their High-Grade Fall and Winter Boots.

"MAN-O'-WAR" MAY SET PACE

Only sickness or accident can prevent Man o' War and Sir Barton from getting to the post thoroughly fit in the great $75,000 and $5,000 gold cup race of one mile and a quarter that has been arranged for Tuesday at Kenilworth Park, Windsor. The Fair Play 3-year-old, which has been breaking records all season—he has made a new world's record of 2.15 1-5 for one mile and three furlongs, and a new world's record of 2.40 4-5 for one mile and five furlongs—trained brilliantly at Belmont Park. With an exercise boy weighing about 130 pounds in the saddle, Man o' War galloped one mile and a quarter in 2.02 2-5 on Tuesday, the first three-quarters in 1.12, the first seven furlongs in 1.24 flat, the first mile in 1.37 flat, and the mile and a furlong in 1.40 2-5. Man o' War rocked along through this trial in his usual way, stepping out 25 feet at every stride, and raising his plated hoofs hardly six inches above the surface of the track. Man o' War is not the handsomest horse in the world, according to American standards. He is the English type of thoroughbred, which is to say he is on the light, lean flanked side and inclined to legginess. But there was never a racer of any age that possessed smoother action. Riding him is like riding in a Royce Rolls machine over a metalled road.

Man o' War a Free Runner.

Man o' War shipped from Belmont Park to Windsor on Wednesday, and Louis Feustel, the capable young trainer who has handled him with such rare skill these two seasons, says that he will have one stiff mile and a quarter gallop over the course on which he will race Sir Barton for the greatest purse ever offered anywhere for a special between two horses. Probably he will have this hard gallop to-day or to-morrow, and it is a safe bet that he will get one mile and a quarter in as quick time as was ever made at Kenilworth Park if he does not shade the record by two or three seconds.

It is impossible to restrain Man o' War. The jockey capable of checking or doing aught with him beyond steering him straight has not yet come into being. It is the collective opinion of the horsemen who have seen Man o' War train and race this season that he will take the track from Sir Barton at the start of the great race to-day and go on at a pace under which the little chestnut cannot live. Man o' War has been able to sustain his own pace in all of his races so far this season and although it is generally agreed about New York that in Sir Barton he will meet the most formidable thoroughbred after himself in the United States or on the North American continent, nobody about New York apprehends that Sir Barton will do more than make the three-year-old champion run somewhat faster than he has run so far.

Sir Barton's Training.

Sir Barton began his course of training at Havre de Grace immediately after Samuel D. Riddle, Commander J. K. L. Ross and A. M. Orpen, of the Kenilworth Park Jockey Club, signed up for the match. He had a couple of brisk gallops of one mile and a furlong at Hayre de Grace and he developed high speed on a course that was in September considerably slower than it had been before. It took Man o' War 1.44 4-5 to go one mile and a sixteenth in front of Wildair and Blazes and Paul Jones in the $10,000 Potomac Handicap on September 10th. If the Harford County course had been as fast as it used to be Man o' War would have stepped one mile and a sixteenth in 1.42 or thereabouts. All this considered, Sir Barton's two gallops of one mile and a furlong in 1.54 were most encouraging. Sir Barton moved over to Laurel Park in the last week of September, and twice at the Maryland State Fair track before shipping to Kenilworth Park he turned mile and a quarter in better time than 2.09. Laurel Park going also is slow this fall. Man o' War won the Maryland Handicap under 1.33 pounds at the Laurel Park last October in 2.02 2-5. It is questionable whether he could get one mile and a quarter in 2.02 at Laurel this fall. Sir Barton is not betraying the least evidence of soreness this fall. He is as sound apparently as he was on the day of his foaling. Trainer H. Guy Bedwell is quite confident of the outcome and thinks his horse may surprise everybody when the test comes.

GUELPH READY TO WELCOME PETES

"WILL CHEER THEM TO VICTORY," SAYS MESSAGE TO EXAMINER.

From a Guelph fan the Sporting Editor of the Examiner received the following message to-day.

Hearty congratulations to the members of the Peterboro Ball Club on their fine showing Saturday against the so-called "Invincible" Plowites of Hamilton. Five thousand Royal City fans will welcome you boys here on Wednesday to cheer them to victory.

DE LAVAL ARE READY FOR HOCKEY

WILL PLACE A TEAM IN THE CITY LEAGUE THIS WINTER.

A meeting was held on October 8 and the following officers were elected for the De Laval Hockey Club, for the year 1920 and 21.

Honorary Patron, Mr. Breyfogle.
Honorary President, Mr. J. A. Robinson.
Honorary Vice President, Mr. W. Sangster.
Honorary 2nd Vice President, Mr. E. F. Lawrence.
Honorary 3rd Vice President, Mr. C. Cooke.
President, Mr. E. J. Ruiter.
Vice President, Mr. French.
Manager, Mr. Ben Stacey
Assistant Manager, Mr. W. Fitzgerald.
Secretary, Mr. J. H. Train.

Executive Committee

Mr. W. Tinns, Mr. G. A. McDonald Mr. C. Prest, Mr. W. Garrow.

Delegates to League

Mr. A. Fitzgerald, Mr. W. Stacey, Mr. W. Cooke, Mr. E. J. Ruiter.
Trainer, Mr. B. Todd.

The De Laval Hockey Club will enter in the City League this winter.

LOCAL FOOTBALL GOSSIP

EXECUTIVE MEETING TO-NIGHT IN G.W.V.A. ROOMS AT 8 P.M.—OTHER ITEMS OF INTEREST.

The regular monthly meeting of Peterboro Football Executive will be held in the G.W.V.A. Rooms to-night at 8 p.m. prompt. Please note the time.

The referee's reports of Saturday's games will be placed before the Executive and will be considered to-night.

The Caledonian Football Executive will hold a special meeting to-morrow evening in the Woodmen of World Hall at 7.30 p.m. prompt. Business important.

Some of the Football Players in the C.G.E. and G.W.V.A. game are congratulated in the stand they took to protect the referee from the crowd that attempted to express their feelings publicly.

It is rumoured that the De Laval will drop ot of the League owing to them being unable to find players that are employed in the shop.

D. F. A. Rules:— Law—14—Two linesmen shall be appointed, whose duty (subject to the decision of the Referee), shall be to decide when the ball is out of play, and which side is entitled to the corner kick, goal-kick or throw in; and to assist the referee in carrying out the game in accordance with the laws. In the event of any undue interference or improper conduct by the linesman, the referee shall have power to order him off the field of play. Linesmen please note.

Carrying by the goal-keeper is taking more than two steps while holding the ball, or bouncing it on the hand.

When any players jumps off the ground into the air to charge another player he commits a foul. It is all right for a player to charge while his feet are on the ground.

Jack Peel is carrying three beautiful souvenirs of Saturday's game. The one he has on the face must have been an awful smash. This is not foot ball, it is manslaughter.

During the week Mr. James Shaw of the Caledonians was transferred to the Canadian Woollens at his request.

A very clever cartoon is depicted this week by Edwards of the Vets' and candidly speaking places the football situation in a nutshell. Don't forget to see it this week.

There is a current rumour in foot ball circles that Charlie Fenner and Matt Shaw are transferring their valuable services to Canadian Woollens. Matt is one of the best in the city and we wish him every success.

OLD COUNTRY FOOTBALL RESULTS

AT THE ALLEN

When Cecil B. DeMille produced that excellent photoplay, "Don't Change Your Husband," some time ago, it scored immensely because it presented in a charming manner a subject of intense interest to married folk. Now he has followed it with a companion picture, which presents the other side of the question treated in the story mentioned, namely, "Why Change Your Wife?" which was shown at the Allen Theatre with enor-smsoucusec etaoin shrdlu shrdluhm mous success yesterday.

Mr. DeMille has risen to great heights in his depiction of the wife, who in her overwhelming love for her husband tires him to the degree that he finds solace in the companionship of a pretty divorcee. The wife who forgets to make a playmate of her husband, and who has changed remarkably since their marriage ten years previously, obtains a divorce and he marries the other woman. It then develops that his second wife grows to be the very opposite to what she was when he married her, and trouble ensues.

Meanwhile, the first wife, beautiful and charming and extravagant—all that she had not been in her marital life, meets her rueful husband and wins back his love. Both have learned the salutory lesson that a wife to be a wife must be his playmate as well as his married mate, if they hope to be happy. And so the future looms up for both with the promise of ultimate happiness.

Mr. DeMille has done excellent work in this photoplay, the roles of which are interpreted by highly competent players such as Thomas Meighen, who will be remembered for his delightful portrayal in "The Miracle Man," Gloria Swanson, who was the leading woman opposite Mr. Meighen in "Male and Female," has the leading feminine role, while Bebe Daniels is the other woman. The cast throughout is excellent while the costuming is exceptionally rich. The picture proved a delight to the large audiences that witnessed the presentation.

"WHAT'S YOUR HUSBAND DOING?"

A Rhymed Review.

By Russell Holman.

Here's a picture packed with pep.....
A tale of youth and joy of living;
A film on which we'll risk our rep
And boom it strong with no misgiving.

It's all about the funny mess
A spoilt, but pretty little wife
Kicked up to make a man confess
He led a scarlet double life.

Though hubby was as good as gold,
It sure did start a peck of trouble;
With jealous wives and lawyers bold
And topsy ladies seeing double.

At lively "Honeysuckle Inn"
Where complications, 'mid the pops
Of fizzy bottles, raised a din
That brought a raiding squad of cops.

The "morning after" cold and grey
Brought sober thought and grim repentance,
'Till wits and beauty won the day;
The smiling Judge suspended sentence.

A wealth of smiles in ev'ry scene;
You're S.O.L.? Then stop your rueing;
See Doris May and Doug MacLean
Spread cheer in "What's your Husband doing?"

GUY BROTHERS HERE ON MONDAY

MATINEE AND NIGHT PERFORMANCE FOR THANKSGIVING DAY.

Guy Bros.' Minstrels are one of the good things that come to Peterboro. One of the oldest Mastrel organizations on the road this show is noted for its clean refined and up-to-date performance. Mr. Guy this year has availed himself of the opportunity to enlarge and better his show. Surprises, novelties, and effects galore, 15 big hits this year. Composing the show that have an arrangement of artists that are worth while looking at. Geo. and Cal. Kenyon, jugglers of high degree, Geo. Guy and Tom Mee a pair of hot foot gentlemen, Chas Guy Hilton, Bails, Arnold, Ginterman, Harry Belknappp all in their turn give a little act that will please the most dignified nature. You can't help but laugh at the funny antics of that old time comedian Geo. R. Guy. He is the youngest old man in the business. Acrobats, dancers, nilmics. Everything is positively brand new this season. Then to add a touch of refinement to this show we have a lady, Miss Lillian Guy as interlocutor in the first part and she displays a truly unusual amount of ability in this position. Guy Bros. will present for your appreciation this wonderful show at the Grand, Monday, matinee and night.

WILL GET SCORES OF THE BALL GAME

The Regent Tailors will get the score of to-morrow's O.B.A. game between Hamilton and Peterborough by innings. Fans are invited to get the returns there.

MALE VOICE CHOIR MEETING TO-NIGHT

PROMOTERS HOPE THAT IT WILL BE LAUNCHED WITH AN "HARMONIOUS BANG."

All the men of the city who are interested in the Peterborough male voice choir are reminded of to-night's meeting in the auditorium of the J. M. Greene Music company's building.

Mr. J. H. Renwick, who has been appointed musical director, has certain work laid for an initial practice in order that a beginning may be made at once. The promoters of this choir hope that its first rehearsal will be largely attended.

NEW YORK STOCK MARKET

STOCK NEW BULLETIN, Oct. 11, 1920

Campbell, Stratton & Co., Members Toronto Stock Exchange.

In the New York Market.—President Menocal, of Cuba, issues proclamation of Moratorium effective to Dec. 1, following closing of Havana Exchange and suspension of payment by International Bank of Cuba. Crisis due to large loans made on sugar.

Action of money market on Friday regarded as indicating that arrangements for meeting Anglo-French loan on Friday will have no disturbing influence on banking accumulation but money will be in good supply at moderate rates and that bullish operations will be made easy.

Conflicting statements as to status of sugar industry are keeping Wall St. guessing. In statement Saturday J. B. Floyd statistician of "Flying Squadron" of department of justice predicted shortage latter part of this year and first of next year more pronounced than any through which country has passed. He believes people will use 150,000 tons more this year than in 1919 notwithstanding smaller crops. His views agree with those of certain sugar producers who claim that bottom in raw and refined sugars has about been reached. There is a large short interest in sugar stocks.

The industrial tone continued heavy this afternoon. The oil stocks, leathers and sugars remained weak features. Royal Dutch and Shell were quite heavily sold for foreign account and this rather unsettled the rest of the oils. The equipment stocks, especially Baldwin, were an exception to the downward trend and there appears to be a substantial demand for these issues despite the trend in other industrial lines. Certain of railway stocks picked up this afternoon, notable among them being the St. Paul issues, Reading and N. P. Money climbed up to 9 p.c., and indications are that tighter money conditions will prevail this week than for some time past.

The New York market's heaviness tended to discourage local traders. Prophecies of easier money continue to be made regularly, and just as regularly belied by events. Those who think that economic deflation has much farther to go yet appear to be justified in their views by the present situation. Brazilian and C. P. R. were easier this morning again at 36¼ and 138. The present conduct of C.P.R. proves plainly that there was more than an investment aspect to the recent buying movement. Steamships preferred was 1 point stronger and fairly active this morning. It continues to be regarded as the most favored of the merger issues. Steamships common and Iron though no cheaper were not in demand.

Two women being deported to Italy jumped overboard as the steamship Patrio was leaving Brooklyn. They were rescued.

What to Do when You "Can't Sleep"

© Simmons Limited, 1920

WHEN anyone fails to get good, sound sleep every night something ought to be done about it. It will not do much good to call in the doctor unless you are sure your sleeping equipment is not at fault.

Sleeplessness is often caused by the slight swaying or creaking of a poorly constructed bed—a wooden bed, or ordinary metal bed, or a spring that lets you down into a hollow. Perhaps it is a lumpy or unsanitary mattress or pillow.

Many an "insomniac" has found sound, dreamless sleep again by using Simmons Sleeping Equipment — *built for sleep* by Simmons Limited.

The Simmons Metal Bed is noiseless.

Just as the *sleep-inducing* Spring is a Simmons "Waldorf," of specially tempered spring coils. Fine Springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmons Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sunlit factories. Used in thousands of fastidious Canadian homes.

And Simmons Pillows, which rest the head and neck exactly as they need to be rested.

Simmons Limited specialize in *Twin Beds*.

Simmons Steel Beds, Brass Beds, Springs, Mattresses, Pillows, and Children's Cribs are the most popular sleeping equipment in Canada today—in the stores of leading merchants right here in town. And at prices little if any higher than for the ordinary.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established *beautiful and authoritative design* in Metal Beds.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

BRANCH GARAGES—NORWOOD AND MILLBROOK

AT THE EMPIRE

The Selznick production, "Sealed Hearts," featuring Eugene O'Brien, the popular screen actor, was shown at the Empire Theatre last night and with a Hank Mann comedy that caused a laugh every 10 seconds, Pathe News and Natural History scenes, made an interesting, well-balanced programme. Eugene O'Brien was seen at his best in last night's picture. He was given scope for his histrionic ability and he assumed the role with remarkable ease. As the supposed son of Robert Marchbanks, a wealthy self-made steel baron who has spurned love, he is found the very extreme of his parent and in love with a prominent young society girl. The father cuts the love skeins that bind the two through his attempt to bribe the young lady to break the engagement. He fails to buy her but succeeds in the ultimate final purpose. He reveals that he is not Roy Marchbank's father, but both son and guardian agree to a pact whereby neither is to care for the society of women and each is to marry another, work. This they do faithfully, but the father finally has to take a rest and on this vacation he meets a young woman who has a strange appeal for him. The pact between he and the son is broken and as the girl's father is desperate financial straits he buys her as he would a plaything. It is an unequal match. How youth triumphs and Roy finds in her his life mate and how Marchbanks is destroyed by the very love he formerly sneered at, is told in this Selznick production in an interesting way.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

USE SLOAN'S TO WARD OFF PAIN

You can just tell by its healthy, stimulating odor, that it is going to do you good.

"IF I only had some Sloan's Liniment!" How often you've said that! And then when the rheumatic twinges subsided—after hours of suffering—you forgot it!

Don't do it again—get a bottle today and keep it handy for possible use to-night! A sudden attack may come on—sciatica, lumbago, sore muscles, backache, stiff joints, neuralgia, the pains and aches resulting from exposure. You'll soon find warmth and relief in Sloan's, the liniment that penetrates without rubbing. Clean, economical. Three sizes—35c., 70c., $1.40. Made in Canada.

Sloan's Liniment Pain's enemy

NORTH MONAGHAN ST. WANTS WATER SERVICE

A petition from the residents of Brown street, North Monaghan, for a water service was presented to the Utilities Commission last night by a deputation that urged a favorable consideration of their request. Mr. R. Hicks, chairman, promised a main would be laid on Brown street if there was assurance that the cost of the work would be met by the revenue from prospective consumers. A definite decision was deferred until the Commission secures further information as to the number of services that would be applied for and also the cost of this extension.

MARQUARD WAS FINED $100.00

(Canadian Press.)

CLEVELAND, Oct. 12.—Richard Marquard, of the Brooklyn Nationals, was fined $1.00 and costs in the local Municipal Court here this morning on a charge of violating the Exhibition Ticket Ordinance.

President Heydler, of the National League, who was in Court with Marquard, stated that as the violation was merely technical, he would take no further action in the matter.

NO VICTORY LOAN.

No Necessity For It This Fall, Says Drayton.

(Canadian Press)

SASKATOON, Sask., Oct. 12.—Sir Henry Drayton, chairman of the Tariff Commission, said that while the itinerary of the commission would not be discontinued, upon arrival in Ottawa, a delay of ten days would occur to enable the ministers to attend to departmental business.

The itinerary will be continued as far as Sault Ste. Marie and from there the commission will proceed direct to Ottawa.

There will not be any necessity for victory loan this fall, said the Minister.

Curling Hair Like This Promotes Its Health

For those whose hair is straight and lank nothing better could be recommended than the silmerine method. This insures a beautiful curliness which is perfectly natural in appearance, and the health of the hair is not affected as where the heated iron is used. A few ounces of liquid silmerine—which can of course be had at any drug store—lasts a long time, so it is quite economical to use. It is pleasant to use, too, being neither sticky nor greasy, and is easily applied with a clean tooth brush. The hair should be moistened the full length before doing it up. The pretty wavy effect in evidence in three hours is surprising to those who try this simple method the first time. The liquid also serves as an excellent dressing, giving the hair a delightful gloss.

TELEGRAPHERS AFTER ANOTHER INCREASE

OTHER DEPARTMENTS OF RAILWAYS BENEFIT BY NEW SCALE.

No increase in pay has been forthcoming to the telegraph operators and celrkes of the C.P.R. and C.N.R., the Examiner was informed to-day. The telegraphers have not received any increase since Oct., 1918 and have, since the increased rates on passenger and freight service went into effect, expected announcement of an increase daily. It is understood that the matter is now being arbitrated in Montreal before the company by union officials and a decision is expected soon. The clerks in the C.N.R. have not yet been granted an increase. It is said that this matter is also under arbitration at Montreal.

The outside employees of the companies, that is the section men, engineers, firemen eand othrs received a substantial increase on Sept. 1, it is stated.

CASCARETS

"They Work while you Sleep"

PALESTINE ASSEMBLY MEETS AFTER DEALYS

WILL ESTABLISH FUNCTIONS OF COURTS OF JUSTICE.

JERUSALEM, Palestine, Oct. 12. —After delays and postponements covering a period of nearly two years, the Constituent Assembly of Palestine, to which delegates have been elected by the entire adult Jewish population of the country, has convened here, for the purpose of adopting such legislation as may be deemed essential for the political organization of Palestine's Jewry.

The Assembly, which has now the sanction of Sir Herbert L. Samuel, British High Commissioner to Palestine, will also be called upon to establish the status and functions of the courts of arbitration.

The last prior date which had been fixed for the meeting of this body was May 6, but on that day Jerusalem was recovering from a bloody clash between the Arabs and the Jews. The military authorities thereupon forbade the convening of the Assembly, owing to fear that it would serve to create more friction and possibly lead to new riots.

The plan for the Constituent Assembly was worked out at several preliminary conferences of representatives of all political parties in Jewish Palestine during the winter of 1918, and it was hoped that its first meeting could be held during the following spring. But the ultra-religious elements in Palestine's Jewry held that the extension of suffrage to women on a basis of equality with male voters was in violation of tradition. The agitation against universal suffrage was so strong that the Zionist Commission, under whose auspices the preliminary conferences had been held, felt compelled to postpone the elections. They made it clear, however, that it would not yield to the demand that women be excluded from either voting for or being candidates as delegates to the Assembly.

The elections were finally held last April, and the women not only voted in large numbers but several were elected as delegates, two from Petach Tikvah, the oldest Jewish agricultural settlement in Palestine. The result of the election, on the whole, will give to the labor elements of the land a majority of the delegates.

"DANDERINE"

Stops Hair Coming Out: Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

MAY BE DEPORTED.

PORT HOPE, Oct. 12. — William Robertson was arrested as a vagrant by Chief Ruse and was remanded for a week. He is a Scotchman who landed in Canada on May 4th. He does not appear to be overly bright, and the Immigration Department at Ottawa is to be communicated with tending to his deportation to the land of the heather and porridge.

ATTEMPTED SUICIDE WITH SAFETY RAZOR

Makes Bad Gash in Throat With Safety Razor Blade.

Albert Hynes, who was in the county's jail at Cobourg, on a week's remand, attempted to commit suicide Wednesday afternoon by cutting his throat with a safety razor blade. Hynes just missed the jugiar vein, and while he gave himself quite a gash he will recover. He claims that while he was asleep three men went into his cell and cut is throat. He was taken to Cobourg hospital and his injuries dressed by the jail surgeon.

IRISH SPY WILL NOW RUN FOR COGBRESS

(Associated Press.)

NEW YORK, Oct. 12.— Jeremiah A. O'Leary, Irish agitator, who was arrested and tried for violation of the Espionage Act during the war, but freed when the jury disagreed, will run for congress in the 18th New York Congressional District as candidate of the Farmer-Labor Party.

IF FARMERS GO ON STRIKE.

By Mrs. Walter Buchanan, Grey Co., ... Ontario. .....

We hear of strife on every hand,
We hear of great unrest,
We hear of strikes to beat the band,
All carried out with zest.
We know the cost of living's high,
We ne'er have known the like;
But dear, dear, friends 'twill reach the sky
If farmers go on strike.

In Bible times God made the world,
Made all things small and great;
And man because he fell, was forced
To work for what he ate.
Since then man worked from sun to sun,
If he's put in a day,
And woman's work was never done,
Though she got little pay.

'Twas then they labored till the sweat
And moisture damped the brow,
But lots who worked for what they ate
Don't want to do it now.
For nowadays man likes to bluff,
And sometimes feels like sin,
And thinks he's worked quite long enough
When eight hours are put in.

This eight hour day our progress blocks,
And has since it begun;
Man easily can change the clocks,
But cannot change the sun;
Man cannot change the sun, by jings,
A mighty good job, too,
For if he could there's other things
That he might try to do.

The world is short of food to-day
And will continue so,
Unless the people till the land
And cause the stuff to grow;
And farmers won't work double time
As servants, if you please,
While others think hard work a crime,
And loll about at ease.

Let those who think that living's high,
Who write so much abuse,
Let them to hard work draw nigh,
Go to it, and produce;
Because I say you can't suppose
Whate'er it may be like
If farmers cast their duddy clothes
Dress up, and go on strike.

CREW STRUCK RATHER THAN TAKE A BATH

(Associated Press)

CONSTANTINOPLE, Oct. 12. — The crew of the Italian steamer Polacky went on strike upon the arrival of the ship here the other day because the health officers insisted that they should take a bath before landing, as steerage passengers must do. The crew refused to bathes unless first-class passengers also were compelled to go swimming. The strike ended when first-class passengers agreed to this.

Crew, steerage and first-class passengers all entered Bosphorus, taking sea bath, then returning to the ship which proceeded to Naples.

POLICE HAVE LOVE LETTERS.

(Associated Press.)

NEW YORK, Oct. 12.—Police headquarters still have a big stack of love letters awaiting claimants. They were dropped by people in the panic following the Wall Street explosion. Two large hampers of letters of all kinds were picked up in the neighbourhood by the police.

FORDSON TRACTOR DOES GREAT WORK.

Yesterday the Fordson tractor on the farm of Clifford Hancock, two miles from the city, filled with comparative ease a silo 14 feet by 30 feet high, with ensilage.

Many people from the neighborhood called to see the operation and those who had any doubt regarding the efficiency of the Fordson for such work have a complete change of opinion.

All agreed that it had plenty of energy and expressed their delight to know that such an economically priced machine would now do all kinds of work with entire satisfation, and backed by a firm like the Ford Motor Company.

Deaths and Funerals

BELLEGHEM—KNAPMAN.

The marriage of Alma Gould, eldest daughter of Mr. and Mrs. J. S. Knapman, Toronto, to Mr. Walter Tovell Belleghem, son of the late Mr. and Mrs. Daniel Belleghem, of this city, took place very quietly to-day at St. Clair Avenue Methodist Church, Toronto, Rev. Mr. Johnston officiating.

The bride who was unattended, wore a smart tailor-made navy blue tricotine suit, small French hat and ermine fur. The corsage bouquet was of violets and sweetheart roses.

Mr. and Mrs. Belleghem left immediately after the ceremony for New York, Washington and Atlantic City, and on their return will reside in Peterboro.

OVEREND—RUTHERFORD.

tA 8 o'clock this morning, in St. Peter's Cathedral, in the presence of a large congregation, Madeline, daughter of Mr. and Mrs. Christopher Rutherford, was united in marriage to Mr. Frederick Overend. The ceremony was performed by His Lordship Bishop O'Brien, assisted by Father Cantillon.

The bride, who was given away by her father, looked lovely in a petalled gown of white taffeta, silver and moleskin hat, and carried a shower bouquet of pink roses. She was attended by Miss Mary Bradley, of Toronto, who was prettily attired in a petalled gown of pink satin and georgette and large black hat. She also carried a shower bouquet of pink roses and maiden hair fern. The groom was supported by Mr. John Rutherford, brother of the bride. The bride's mother wore a charming gown of navy charmeuse, with hat to match.

The wedding march was played by Miss Mary Lonergan, and during the ceremony Miss Ernestine McManus sang, also St. Cecelia's Choir. Immediately after the ceremony the bridal party returned to the home of the bride, where wedding breakfast was served, Mr. and Mrs. Overend later leaving on a motor trip to Chicago, Mrs. Overend travelling in navy suit and hat, with moleskin furs. Out of town guests included Mr. George J. Overend and the Misses Overend, of Orillia, Mr. Harold Overend, of Hamilton, Dr. and Mrs. C. B. Coughlin, of Belleville, Mr. E. Rutherford, Mr. L. Lannage, and Mr. Otto F. Maske, Chicago.

FITZGERALD—CARLOW

In St. Joseph's church, Douro, this morning at 9 o'clock, Rev. Father McGuire officiating, Thomas J. Fitzgerald of Douro, was united in matrimony to Mary Carlow of Dummer They were attended by Miss Margaret Fitzgerald, sister of the groom, and Mr. Raymond Carlow, the bride's brother.

OBITUARY

MRS. RICHARD SHELTON.

Minnie Alice Metherel, beloved wife of Richard Shelton, 146 Murray street, died last evening at the family residence, aged 49 years, after an illness of about one week.

Deceased was born in Peterborough and had resided in the city all her life, taking, until a few years ago when failing health prevented her, an active and helpful interest in all church work at George street church.

She leaves of the immediate family her husband and three children, Ada and Marion at home and Bertram of Toronto.

Funeral to-morrow at 2 p.m. Service at the house conducted by Rev. W. Harold Young. Interment at Little Lake cemetery.

JOHN MILES.

(Contributed.)

Mr. John Miles passed away early on Thursday morning, 7th October, at his home in Warsaw. He had been in poor health for a few years, having been stricken with paralysis. He had been a prosperous farmer and had lived all his life in the township of Dummer, where he was very highly respected. Though unassuming, he was well known because of his devotion to the principles of the Gospel, and he sought to bring up his family in the faith. The funeral service was conducted on Saturday, 9th October, at his late home, and the burial took place at Norwood. Rev. J. D. P. Knox officiated, and was assisted by Rev. Mr. Graham. The text for the occasion was Psalm xxxix., 4. The widow and family will greatly miss husband and father, but have the strong Christian hope of a re-union.

BRIDGET HADYN

Bridget Hadyn died on Sunday afternoon at the Albion House, East City aged 75 years, after an illness of two days duration. She was born in Douro and had resided in Rochester for a number of years coming to the city to visit her brother, Mr. P. H. Hogan, about five years ago.

The funeral took place this morning at 9 o'clock. Service conducted by Rev. Father Cote was held at the church of the Immaculate Conception Interment took place at St. Peter's Cemetery.

SAMUEL CRAIG.

Word was received in town this afternoon that Samuel Craig, a former resident of East City, had passed away in Toronto. Deceased was a brother of J. G. Craig of this city. The remains will be brought here on the Thursday C.P.R. noon train for interment in the Little Lake Cemetery. Funeral from Comstock's parlours.

MRS. PALMER.

Mrs. Palmer, 641 Chamberlain St., died this morning in the Nicholls Hospital, aged 37 years. She leaves her husband and four children.

Funeral on Thursday afternoon at 2 o'clock to the Litle Lake Cemetery, from the residence of Mrs. Blake, 639 Chamberlain street, Adjt. Bunton officiating.

JAMES FAIR.

The funeral of the late James Fair, which was largely attended by old friends and relatives, took place Tuesday, October 5th, at 2.30 p.m. from the residence of his son in law, Mr. Thomas Thorne, lot 12, concession 16, Otonabee, and proceeded to St. Paul's cemetery, Cavan.

The pall-bearers were four sons-in-law, Messrs. Thomas and Robert Thorne, William and Thomas Bradshaw and two nephews, George Eagleson and Ernest Barnard.

Rev. C. R. Spencer and Rev. A. H. McConnachie had charge of the obsequies.

Social and Personal

Dr. H. M. Yelland left last night for Montreal to attend the Congress of Surgeons of North America. Dr. Yelland will be out of the city until Friday.

Dr. and Mrs. H. M. Yelland and son spent a few days in Hamilton, where Dr. Yelland attended the annual medical clinic of that city.

Mr. and Mrs. R. F. Patten of Monaghan, have returned home from a pleasant trip to Toronto and Kitchener.

Dr. Bruce E. Marshall will be in Guelph to-morrow.

Mr. T. A. Hay is in the city visiting Mr. and Mrs. Charles Mathias.

Miss Lena Denne was a guest at the tea given yesterday in Toronto by the University Club.

HAY SCARCE ON THE LOCAL MARKET

No fewer than half-a-dozen buyers were seeking hay at the market to-day but there was none to be had even at the prevailing high price of $30 a ton. The market was as bare as Old Mother Hubbard's cupboard. The farmers are too busy with the multitudinous tasks on hand now to be able to take time to bring in the hay in the Examiner was assured at the market.

It's Confidence that does it.

HAVE RETURNED HOME

Mr. and Mrs. Louis Yeotes and two little children Sophia and Speros have returned from New York after a very pleasant holiday there and in Buffalo. Mr Yeotes and two children returned on the "Big Greece' from Greece a week ago after spending a year in the home land. Mrs. Yeotes states that money is plentiful but goods and commodities of all kinds are impossible to get at any price. There is much turmoil in the country and food is particularly high in price. Mr. Yeotes met his family when they arrived in New York.

He was the guest at a dinner today at the Empress Hotel given him by several friends.

VOL. XVLII. NO. 88 PETERBOROUGH, THURSDAY, OCTOBER 14, 1920 PRICE THREE CENTS

DOCTORS AT CONGRESS

SEVERAL PETERBORO DOCTORS ATTENDING THE CLINICAL CONGRESS IN MONTREAL.

The formal opening of the Clinical Congress of the American College of Surgeons took place in St. James' Methodist church, Montreal, on Monday night. It is estimated that there are 1800 members of the profession from the four corners of the globe in attendance and of this number there are several doctors from Peterborough. The formal opening was the occasion for a demonstration of international amity that took shape in the presentation by the Consulting Surgeons of Great Britain of a ponderous silver mace to the American College of Surgeons, the presentation being made by Sir Berkeley Moynilian, C.B., M.S., R.R.C.S., of Leeds, England, supported by two colleagues, Sir William Taylor ,C.B. of Dublin, Ireland and Mr. Albert Carless, C.B. E., F.R.C.S. of London, England.

Church Crowded.

The capacious church was crowded from floor to the topmost gallery when the proceedings opened. Invocation was made by the Rev. Dr. James Henderson. Dr. George E. Armstrong, of Montreal, the new president, was installed in the chair by Dr. William J. Mayo, of Rochester, Minn., the retiring president.

Sir Arthur Currie extended a welcome to the delegates. Sir Arthur referred to the expression of good-will between the great Anglo-Saxon nations that was reflected in the meeting. He eulogized the profession and referred to the immeasurable work carried on during the war by the physicians and surgeons of Great Britain and the United States.

The Presentation.

In presenting the mace Sir Berkeley Moynilian acted as spokesman. In part he said: "In our desire to perpetuate the memory of those days of duty done together, we, the representatives of the Consultant Surgeons attached to the British army during the war, ask you, the American College of Surgeons here in session in one of the great Dominions to accept this Mace." Dr. Armstrong responded.

Dr. William J. Mayo opened the professional side of the meeting with an address that covered a wide field in cancer operations and abdominal surgery in carcinoma cases. He dwelt on the advances made since the discovery of radium.

Dr. George E. Armstrong gave the president's address a scientific treatise on cell life and similar abtruse subjects. Sir Berkeley Moynilian pronounced the "John B. Murphy Oration on Surgery." Sir Berkeley gave his own personal experiences with the great surgeon and followed this by a historical sketch of surgery from the Neolithic Age to the present day.

The session was concluded with the singing of the National Anthem. A series of professional lectures began which will cover practically every phase of surgical practise.

TEACHERS' INSTITUTE PROGRAM FOR TO-NIGHT

The Public are cordially invited to be present at an open gathering in the Collegiate Institute Assembly Hall to-night, commencing at Eight o'clock. The Entertainment will be worth while, and includes:

WATER STREET BOWLING ALLEYS.

ARE YOU IN NEED OF GLASSES

Some folks say they can't tell whether they really need glasses or not. If you are in doubt at all about the matter, let a careful eye examination settle the question for you. See W. H. Lacey, Optometrist, 410 George street. Open Wednesday and Saturday evenings.

C. M. Alexander, internationally known singing evangelist, who yesterday died suddenly at his home in England.

TEN MILE ROAD RACE ON MONDAY

SEVERAL GOOD ENTRIES PROMISED FOR THE EVENT.

Ten mile road race scheduled for Thanksgiving Day promises to be one of the biggest sporting events held here in some time. In addition to Albert Smoke, the entries so far include Moorcroft of the Gladstone Athletic Association, Toronto, who defeated Smoke in the modified marathon at Toronto Exhibition, Charles White of the same Association who ran neck and neck with Smoke for nine miles in the fifteen mile Olympic trial at St. Catharines, T. J. McAuliffe of St. Bridges' Y.M.A., Ottawa, who ran here in the last Examiner Road Race and who won the two miles race at the Ottawa Exhibition ,and Tresider of the Broadview Y.M.C.A., Toronto, one of the most prominent Toronto track men. White, Moorcroft and Tresider are entered for the race at Hamilton on Saturday.

The course for the holiday race will be from Riverside Park to Nassau on the east side of the river, returning to the park on the west side of the river.

ADJUSTMENTS IN STREET MARKET

STEEL PRODUCTS SHOW A BETTER DELIVERY.

In its summary of the iron, steel, metal and machinery markets for week ending Oct. 14, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

The market in steel is running pretty true to expectations, and one development of the past week has been that Canadian buyers are deserting the premium mills. Although there is still a demand for the products of these mills the chance of financing any considerable tonnage at a high figure is too speculative to be inviting. Steel sheets are showing a better delivery, but as a general thing the car situation, judged by the recent performance, has been worse instead of better. Some reports have it that applications are being made to the mills for cancellation on sheets, but it is doubtful if there will be any concession in this line. Cancellations are the one thing that the whole business fabric will likely fight hard to prevent. Once they start they are too far-reaching in their influence, and the feeling is that the time to stop them is at the start, and this can probably be done, as nearly all business has been booked in the last six months or a year on the no-cancellation understanding.

There is no large buying in the machine tool market, although several of the houses say they have done a good business in the last month, and are finding a number of good inquiries coming into the market. Buyers anticipate some announcement in regard to price adjustment, and while this has the tendency of slowing business generally, it does not cancel the orders, but merely postpones their coming into the market. So far there has been no general move on the part of the machine tool builders to make concessions, although stock must be accumulating fairly rapidly at some of the plants now.

HALIFAX GROCERS REFUSE TO OBEY

WILL NOT ABIDE BY ORDER OF BOARD FIXING SUGAR PRICE.

(Canadian Press.)

HALIFAX, Oct. 14.—At a meeting to-day at Halifax the members of the Wholesale Grocers' Guild, it was decided to refuse to obey the order of the Board, fixing the price of sugar in Canada."

DISORDER REPORTED.

(United Press.)

STOCKHOLM, Oct. 13.—Disorders are reported in Moscow. The authorities are alarmed by the anti-Soviet demonstrations.

Sugar Magnates Appeal to Ottawa.—Some of the sugar manufacturers who persuaded the Dominion Government to take action against a drop in sugar prices. Left to right: John Wilson McConnell, president and managing director of the St. Lawrence Sugar Refineries, Limited, Montreal; Douglas Lorne McGibbon, president of the Atlantic Sugar Refineries, Limited, Montreal; Huntly R. Drummond, president of the Canadian Sugar Refinery, Montreal, and David R. Turnbull, secretary-treasurer of the Acadia Sugar Refinery Co., Halifax, N. S. The Board of Commerce has fixed the price of sugar at twenty-one cents in order to stop imports.

Oshawa Delegation Arrived Here To-day

THEY WERE SATISFIED WITH THE EXPLANATION OFFERED BY MR. A. L. KILALLY OF THE TRENT CANAL—EXPECTED TO SEE MR. HOLDGATE.

Mayor Stacey and Ex-Mayor of Oshawa and William Smith, M.P., South Ontario, formed a deputation to Peterboro to-day to interview Mr Holdgate, the engineer appointed to investigate the power shortage, and to ask for immediate action. The deputation saw A. L. Killaly, superintendent af Trent Canal on their arrival and were completely satisfied after a long conference that everything possible is being done to remedy the shortage When seen after the conference with Mr. Killaly Mayor Stacey stated that the deputation would probably not wait to interview Mr. Holdgate as they felt that the Trent Canal was doing everything in its power and that Mr. Holdgate would be unable to do anything further for them.

The deputation arrived on the Canadan National Railways train shortly before noon and went at once to the Trent Canal offices. They went into a conference with Mr. Killaly at 11.55 o'clock this morning from which they emerged at 1.40 o'clock this afternoon

Were Satisfied

Mayor Stacey told The Examiner after the conference that the opinion had prevailed in Oshawa, that the Trent Canal was holding back water in the Kawartha Lakes unnecessarily nd that they had been appointed to come to Peterboro to ask that immediate action be taken to release this water. They had expected to see Mr. Holdgate this morning but upon learning that he would not arrive until this afternoon they went at once to Mr. Killaly. He satisfied them that there was no truth in the Hydro fairy tale that the canal was wilfully holding back water and backed his statements conclusively with figures. They were satisfied that nothing further could be done at present and as the matter had been left entirely in the hands of Mr. Holdgate they decided to return.

Mayor Stacey told The Examiner that conditions in Oshawa are serious and that many of the factories there are almost closed down for lack of power.

Improvement in Flow.

BELLEVILLE, Oct. 13. — That there was a small but gratifying increase in the flow of the Trent River was the announcement made by Hydro-Electric officials here to-day. And the officials went on further to state that they had hopes that by the end of the month the power shortage would be relieved.

Investigation yesterday showed that the flow had increased from 30 to 40 cubic feet a second. For the past two weeks the total flow of the river has been around 1,000 cubic feet a second. Ocasionally it has fallen as low as 900 cubic feet. To operate at reasonable efficiency the Hydro requires from 1,250 to 1,350 cubic feet to the second.

The officials believe that the Canal authorities have now stored all the water they think they need, to create a reserve for the winter months. Therefore the natural flow of the river should soon be coming down the channels. If the increase, small though it is, goes on growing until the end of the month the famine will be relieved. There is also the further hopeful fact that evaporation is virtually at an end. In the summer season, well over half the total volume of the rainfall is speedily taken up again by evaporation.

Lakefield Represented.

E. W. Bailey, superintendent of the Lakefield plant of the Canada Cement Company, is in the city to interview Mr. Holdgate this afternoon.

L. G. Ireland Here.

L. G. Ireland, general manager of the Central Ontario Division of the Hydro, is said to be in the city, and if so, will probably present the Hydro's case personally to Mr. Holdgate.

Arrival of Mr. Holdgate.

On his arrival on the 3.20 o'clock Canadian Pacific Railway train, Mr. Holdgate is expected to proceed directly to the Board of Trade rooms, where he will open his investigation. No civic arrangements have been made to meet him as it is considered without the province of the city, he being a government representative on governmental business.

MR. BURNHAM FAILS TO SEE WHY SUGAR MAGNATES NEED PROTECTION

SAYS IT WOULD BE BETTER FOR THE GOVERNMENT TO BUY OUT THE REFINERIES—PUBLIC WILL NOT STAND FOR IT.

The fixing of the price of sugar by the Board of Commerce of Ottawa at 21 cents when it can be imported so much more cheaply is a crying shame said Mr. J. H. Burnham ex-M.P., today

If the Board determines that the equities require some consideration for the refiners who by the way are not so poor as some of the consumers it would be better for the government to buy them out. No system of economics can long stand such work as this and assured the consumer will not long stand for it. There are some parts of socialism that afford the only possible relief and this is one of them.

At Stirling Mr. Meighen is reported to have said in his announcement of policy thathe was in favour of granting the manufacturer a slight advantage in th ehome market. On this point I cannot agree with him The farmer or any other class is just as much entitled. It is not protection. This is robbery. It is an attempt to beat the farmer out by grabbing the chance first to rule the people to the gain of a class. This action af the Board explains much that of late has seemed inexplicable.

EGGS AND POULTRY

Toronto firm track shippers paying fifty-eight, sixty, cases returnable, making sales at sixty-one for current receipts and sixty-four f.o.b. for firsts, other prices to be noted, chickens twenty-three, fowl eighteen, twenty-five. Montreal market somewhat quieter, specials seventy-five, extras sixty-eight, firsts sixty, seconds fifty. Export movement on contract account heavy, no report of new contracts. Chicago current firsts fifty seven half sixty half. New York current extra firsts sixty-six eight firsts sixty-two five. London cable eleventh home supplies getting short English 43-9, Irish 38, 40, Danish, 40, 42, Canadian 35, 37, Morocco 30, 31, Argentine 36, 37, Syrian 34, 35. Poultry unchanged. Washington reports a decrease of one five one four triple naught cases in the coolers October first as compared with some date last year.

ONE MILLION DOLLARS FOR LAVAL UNIVERSITY

(Canadain Press.)

QUEBEC, Oct. 14.—At a Provincial Cabinet meeting this morning the sum of one million dollars was voted as the Government's subscription to a fund being collected in aid of the Laval University, Quebec. One million dollars has already been collected by private subscription.

E. S. H .Winn, of British Columbia, elected president of the Associated Workmen's Compensation Boards of Canada.

CHILDREN'S HOUR AT THE LIBRARY

PARENTS INVITED TO SEND THEIR CHILDREN.

Although there have often been notices in the paper regarding the Children's Story Hour at the Public Library, comparatively few seem to know yet of its existence. Parents are invited to bring or send their younger children to this Children's Hour held every Saturday morning, 10.30 till 11.30 a.m. in the Lecture Hall of the Library.

CARRIED UNCONSCIOUS MATE TO TERRA FIRMA

PERILOUS TRIP DOWN HUNDRED AND FIFTY FOOT MAST

(Canadain Press.)

TORONTO, Oct. 14.—While hundreds of people stood breathless on terra firma, Joseph Moulday, construction foreman, carried the unconscious body of Frank Carvell, a fellow workman, down the 150 foot steel mast of a hoist derrick at the King Edward Hotel extension here.

Carvell had the fingers of his left hand taken off in hoisting machinery aloft and he fainted. Moulday will be recomemnded for the Humane Society's life saving medal.

A SUDDEN STOP

THE HALF-PRICE SALE OF BOOTS AND SHOES HAS ONLY TWO MORE DAYS TO RUN.

People who have been putting off their shoe purchases, thinking that the Bankrupt Sale at the Walk-Easy store would continue for some time, will be startled into activity when they see Mr. Chesler's large advertisement to-day, announcing that there are only two days left of this half-price opportunity.

The sale has been most successful, and for these two final days the clearing bargains will be greater than ever. Many of the lowered prices do not stop at half-way, but are dropped to ridiculously small figures to ensure an immediate clean-up of the lines that have only a few odd pairs left.

Monday morning the sale signs will have disapeared and the big event will be over.

AMNESTY GRANTED.

Italy Frees Political and Military Offenders.

(United Press.)

ROME, Oct. 14.—Italy grants amnesty to political and military offenders.

QUIET DAY ON WHEAT MARKET

DOMESTIC MILLING DEMAND WAS SLOW.

(United Press.)

Chicago, Oct. 14.—The wheat market had a few ups and downs to-day, but the finish was under the close of the day before. With 608,000,000 bushels of wheat held in all positions, according to yesterday's report, there was less apprehension over the future, and selling by locals and lower prices featured the opening. Commission house buying rallied the market, but heavy eastern selling caused a material set back, from which prices had a partial recovery later on short covering for profits.

Domestic milling demand was slow. The market closed 1½ to 2¼ cents lower. December 208 to 207¾ and March 203¾ to 203½.

EXPERIENCED CLOTHING SALESMAN WANTED AT ONCE. —APPLY TO REGENT TAILORS, 326 GEORGE STREET. 3d-91

BRITISH MINERS WILL NOT ACCEPT THE OFFER BASIS LINE PRODUCTION

BUTTER PRICES HAVE A SLUMP

AT AUCTION SALE CREAMERY BUTTER SOLD 31-8 TO 37-8 CENTS PER POUND LOWER THAN PREVIOUS SALE.

MONTREAL, Oct. 14.— The receipts of butter here were 985 packages, as compared wth 1,691 for the same day last week, and 871 for the corresponding day a year ago. The exports of butter from here last week were nil as against 100 packages for the same week last year. The total shipments for the season 1920 to date show a decrease of 422,190 packages, as compared with the same period in 1919.

The feature of the trade was the decidedly weak feeling which developed in the market, and prices realized at the auction sale show a drop of 3 -38c. to 3 7-8c. per pound, as compared with the previous sale. This was not altogether unexpected as there has been no outlet of late for the surplus supplies coming forward on account of the high prices ruling, and in consequence stocks have been steadily accumulating on spot. The market on the whole was quiet, the demand being principally for small lots to meet actual wants.

The receipts of cheese here were 5,228 boxes ,as against 6,478 for the same day last week, and 5,730 for the corresponding day a year ago. The exports of cheese from here last week show an increase of 17,178 boxes as compared with the previous week, and an increase of 14,851 boxes with the same week last year, while the total shipments for the season to date show an increase of 213,989 boxes with the same period in 1919.

There was no important change in the condition of the market, the undertone being easy owing to the unsatisfactory state of the foreign exchange situation, and the fact that cables coming forward from the United Kingdom show little or no improvement and business on the whole is quiet.

COLLINGWOOD ASKS FOR $200,000

"GENTLEMAN'S AGREEMENT" NOT TO COLLECT SAID TO BE CANCELLED BY REMOVAL OF PLANT TO TORONTO.

TORONTO, Oct. 14.—A "gentleman's agreement" between the Cramp Steel Co. and the town of Collingwood for the non-collection of arrears of taxes on its 25-acre plant in that town is said to have been cancelled following the sale of the plant to the Baldwin's Canadian Steel Corporation, Ltd., and the later company's action in proceeding to remove the plant to the Ashbridge's Bay site in Toronto. When Collingwood awoke to the fact that it was losing an industry it promptly made a seizure of the plant, claiming arrears of taxes of $64,000, which, with compound interest, are said to have reached the sum of $200,000. As the only purpose the Baldwins had in buying the plant was to remove it to Toronto, there ensued an impasse.

Got Receipted Tax Bill

Before the Baldwins bought the property they secured a certificate from the treasurer of Collingwood to the effect that there were no arrears of taxes, and they secured also a receipted tax bill for 1919. The company subsequently entered action against the town of Collingwood. Mayor Holden and other officials of the town for an injunction restraining them from seizing the property. An appearance was made to the action by J. Birnie, K.C., the town counsel, but no statement of defence had been filed in answer to the statement of claim. On Thursday the Baldwin Company will move at Osgoode Hall for judgment for the injunction in default of any defence.

MEMBER OF MOTHER'S ALLOWANCE COMMISSION

LINDSAY, Oct. 14.—Mr. A. G. Bruce of Lindsay, has received official notice of his appointment to the investigation Staff of the Mothers' Allowance Commission, appointed by the Provincial Government. He assumes his duties at once and his territory will include the counties of Victoria Halsburton, Muskoka, Parry Sound, Nipissing and North Hastings.

The Mother's Allowance Act, which was passed by the Ontario Legislature recently came into force 1st of October.

REJECT PROPOSALS

(Special to The Examiner.)

LONDON, Oct. 13.—The miners have rejected the owners' proposals. Further negotiations are necessary.

THIS MEANS THAT THE THREATENED STRIKE MAY COMMENCE NEXT MONDAY—RESULT OF THE VOTE.

(Canadian Press.)

LONDON, Oct. 14.— Coal miners' delegates at meeting this morning in connection with crisis resulting from miners' rejection of owners' wage proposals decided that the strike notice given some time ago should expire this coming Saturday. This means that the great coal mining strike which has been feared will begin next Monday unless there is some new intervention to prevent it.

Official figures of the ballot taken by miners to decide upon acceptance or rejection of basic lines of production offered by owners beyond which increase of wages would be granted was given out to-day and showed 181,000 for acceptance and 635,000 against. This made the majority against acceptance of over 450,00. To-day's meeting was presided over by Robt. Smillie. On its behalf a statement was issued announcing decision of executive committee that by virtue of balloting, strike notices be allowed to expire Saturday. It was then decided to send the result of the ballot and conferences decision to Lloyd George.

THE TRIPLE ALLIANCE

Triple Alliance, Railwaymen Transport Workers and Miners, probably will meet immediately and it is expected that either the Alliance or some trade union will make efforts to set up meditation machinery Miners conference adjourned at mid-afternoon without receiving any communication from the Government. Delegates will meet again to-morrow to make final arrangements for the strike. No sooner was the news of the decision received in the Yorkshire Steel district than iron and steel manufacturers there began preparations for closing their works.

SERIOUS SITUATION

United Kingdom to-day was faced with perhaps most ominous industrial crisis in its history, to decision of coal miners to allow strike notices to become effective Saturday night following their rejection of a compromise offered to their demand for two shilling per shift increase in wages. It seems certan that unless government or mine workers concede demanls of the men or make fresh and attractive offers more than eight hundred thousand miners will not return to the pits Monday thereby throwing hundreds of thousands of workers in other industries out of work and paralyzing the life of the country.

GOLF

KENDRY TROPHY.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Oct. 14.—The stock market opened irregular to-day. The prices were:

Lehigh Valley 54 off 3-8, Mexican Petroleum 187 up 1-4, Baldwin 113 1-4 up 1-4, Southern Pacific 10 up 1-8, Texas and Pacific 21 1-4 unchanged, Baltimore and Ohio 47 off 1-8, New York Central 81 up 1-4, Reading 99 7-8 up 1-4, New Haven 34 off 3-8, U. S. Steel 87 3-8 up 1-8, Northern Pacific 90 1-4 up 1-4, U. S. Rubber 79 off 3-8, Retail Stores 72 7-8 up 5-8, Texas Co. 44 1-2 up 1-4, Canadian Pacific 126 1-2 off 1-8.

Rails retained their advances of yesterday when banking interests were good buyers. Steel stocks continued strong, the favourable report of the Lackawanna Co. for the third quarter being accepted generally to mean that others will show good earnings for the period.

EXCHANGE MARKET.

(United Press.)

NEW YORK, Oct. 14.—Foreign exchange opened unchanged to-day. Prices were: Sterling $3.49 up 1-8; Francs $.0657 unchanged; Lire $.0304 unchanged; Marks $.0144 off $.0005; Canadian dollars $.9050.

STOCK NEW BULLETIN

Oct. 13, 1920.

Messrs. Campbell, Stratton & Co.,

In the New York Market—Pres. Pardee of Amn' Elec. Railway Assn' addressing convention at Atlantic City says prosperity is more general in electric railway business to-day than in any time in last two years with outlook for future bright.

In important circles opinion expressed was again bullish. Insisted that action of U. S. Steel common and Baldwin indicate clearly absorption is in steady progres. Petroleum group alo regarded as in strong position. Talk about rails is bullish.

Lack. Steel advanced nearly two points on September quarter statement showing profit after all taxes and charges of $3,282,144 or 9.35 a share against a mere 90c. a share in same quarter 1919. Going into third hour copper stocks continued to sell off and selling was accelerated by announcement that metal is being offered at 16 3-4 cents a pound without acceptance. On the other hand dividend paying rails moved forward and both S. P. and Reading got above 100. Nickel Plate led lower priced issues with common up over 5 points and the first preferred 5 points and the 2nd preferred over 6 points. A further slight rise in money to 10 p. c. had little effect except some slight shading of prices from profit taking in the last few minutes of trading.

Atlantic Sugar provided the sensation of the morning on the Toronto market, when following on the seven point break in Montreal, local holders grew alarmed and began to throw over some of their holdings.

The rest of the market acted unevenly, the papers being distinctly weaker with Brompton down two points to 79, and Abtibi at 75, though not much traded in.

The tractions were unchanged. Brazilian is still heavy at 35 3-4, and Toronto Rails did not get above 44. C. P. R. however appears to have turned the mark and a progressive recovery of 1 3-8 was made.

Trading was more active than yesterday, and there were several strong points, such as MacKay at 70, which stood out in contrast with the weak Montreal tone.

EVEN PHYSICIANS ARE SUPERSTITIOUS

TWO LADDERS ON GEORGE STREET BRINGS OUT TRAIT.

Few parapets in the war zone caused such consternation as two simple ladders ranged against a store on George street caused this morning, and all due to a matter of superstition. Directly the ladders are erected the public commenced a detour around the road in order to avoid such horrible calamity as might befall anyone walking under them, each person adding about half a block to their journey in their safety first measures. Professional people, including a well known physician, paused, took in the situation, and hurried out of ladder range. Flocks of teachers en route for the Teachers' Institute meeting, shuffled from the beaten path to the road, confiding to one another that it is best to be safe. Two small boys, evidently having the interest of the community at heart, composed a self-appointed committee to warn passers-by "that it's awful luck to go under a ladder." Meanwhile the painters at the top of the ill-fated ladder enjoyed themselves with an occasional glance at the superstitious public.

PARLOUR JOKERS AS HUSBANDS

What kind of a husband does the usual parlour joker make? How does a man who is always the "life of the party" at any social gathering act toward his wife in the privacy of their home? "What Every Woman Learns"—Enid Bennett's new picture at the Grand Theatre to-night, Friday, and Saturday—asks and answers these questions on the screen, and the results are not too favourable toward the man. Amy Fortesque, the heroine played by the star, has been taught by her old grandfather to think of life only as a means of pleasure, and she marries the gayest, most amusing man of her acquaintance. But once he possesses her, his mood changes. He is like a spoiled child, not even good-natured, but narrow, jealous, and altogether a cad. And Amy becomes the saddest spectacle in the world—a disillusioned bride.

Embarrassing Hairs Can Be Quickly Removed

(Beauty Culture.)

Hairs can be easily banished from the under-arms, neck and face by this quick, painless method: Mix into a stiff paste some powdered delatone and water, spread on hairy surface and in 2 or 3 minutes rub off, wash the skin and it will be free from hair or blemish. Excepting in very stubborn growths, one application is sufficient. To avoid disappointment, buy the delatone in an original package and mix fresh.

GUY BROTHERS AT THE GRAND

There is a class of theatre-goers who do not want to see anything but Shakespeare, there are others who have a craving for acrobatic farce comedy mingled with buffoonery and horseplay; again you will find many who have a desire for comic opera, with its physical and spectacular display; but there is probably no class of entertainment that has a more popular hold on public patronage than a bang-up minstrel performance. Its delightful "first-part," with its exhilarating music, sweet singing, etc., go to make up a night of unalolyed pleasure.

Guy Brothers' Minstrels, who appear here on Monday next, have been strengthened considerably, and while it contains no high salaried "stars," they give a clean, bright, original show. They dress their first-part in silk and satin. They will be at the Grand Opera House on Thanksgiving Day for matinee and evening performances.

SEIZURE OF VILNA

May Produce Serious Results.

(United Press.)

WARSAW, Oct. 14.— Crisis over the seizure of Vilna may be more serious than that over Fiume.

Soap 25c., Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

GUARDING CONVENTION OF PURCHASING AGENTS

CHICAGO, Oct. 13.—Detectives and private guards mingled freely with the throngs in and around the Gold Room of the Congress Hotel, where the National Association of Purchasing Agents is in fifth annual convention. This precaution was the result of a bomb threat received by the president, and interpreted to be an answer to the advice of the agents to the house to buy nothing but essentials until prices come down. The message was signed "A Radical." It was turned over to the Federal authorities.

UNCERTAIN YET.

Poor Italy cannot yet tell whether the war bled her white or red.

ENGINEERS WILL HOLD A MEETING

TWO WELL KNOWN ENGINEERS IN CITY TO-DAY.

The Hon. W. A. McLean, Deputy Minister of Highways for Ontario, who will address the Peterborough branch of the E.I.C. on Thursday evening, will motor to Peterborough, inspecting the working on the intervening Provincial highways on the journey. If he arrives in the city in time he will be taken over the roads in this vicinity and impressed with Peterborough's needs in this respect.

Mr. McLean will be the guest of the Engineers at a dinner at the Empress Hotel Grill Room in the evening.

Henry Holdgate, the consulting hydraulic engineer engaged by the Department of Railways and Canals to report on the power situation in this locality, will likely be present.

The meeting in the Board of Trade rooms will start at 8.00 p.m. and will be open to all citizens who are interested. The members of the Motor League are especially invited.

The meeting promises to be an excellent one and Mr. McLean is bringing an operator from Toronto to operate the moving pictures machine. Films illustrating the construction of the Provincial highways will be shown.

MINE HOST OF BOWERY BY RAISING PRICES HITS HOBOES HARD

NEW YORK, Oct. 12.—Patrons of the lodging houses of New York's famous Bowery—"Knights of the road", hobbes, panhandlers and more prosperaus individuals—are aroused with the announcement that rates have risen. The Bowery "hotels" have increased their prices from the fifteen and twenty cent schedule maintained for many years to double those rates in many cases, with an average rate now of forty cents.

In connection with the increased rate many of the proprietors have eliminated the clean towel, formerly thrown in with the night's lodging.

Her sleepy head upon the pillow falls;
Over her drowsy eyes, the eyelids creep,
Tired of her play, her teddy-bear and dolls,
Healthy, content and happy—she falls asleep

After her cup of FRY'S

FREE

This Week Only

At any drug store named below, a 10-Day Tube of Pepsodent. Simply present the coupon.

Watch the results—they are quick and apparent. You will know then what this method means, both to you and yours.

Go get this tube today.

We Invite You

To see how really clean teeth shine

Men who smoke will see a quick, conspicuous change

Tobacco stains the film-coat on the teeth. So men who smoke will see a great change quickly. But millions of teeth have that same film-coat with a lesser stain.

Children's teeth are most affected by the film. Young teeth seem most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. Otherwise, decay is almost certain.

Pepsodent brings to women whiter, prettier teeth. But that means cleaner teeth and safer. The luster comes from constant film removal and the high polish given to the teeth.

Your teeth are coated with a film. When fresh the film is viscous—you can feel it with your tongue. Later it forms a cloudy coat. It enters crevices and stays. It dims the teeth, and now we know that it causes most tooth troubles.

There is now a way to end it. This week your druggist, if you ask, will give you a 10-Day Tube. Get it and see what it does for your teeth. Learn what film removal means.

Old ways don't end it

Old ways of brushing do not end film. Millions of people know that. Teeth discolor and decay despite the daily care.

The reason lies in film. It clings and hides, and very few escape its damage.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing — some have grown alarming. And all because we knew no way to daily fight the film.

A new dental era

Dental science has for years studied to combat film. Ways have now been found to do it. Able authorities have proved those methods by many careful tests. Now leading dentists everywhere are urging their daily use.

These methods have been combined in a dentifrice called Pepsodent. Millions of people have come to employ it. You can see the results wherever you look — in glistening teeth, in teeth you envy, maybe.

A new dental era has begun, due to these discoveries. And these are benefits everyone should share. So you are urged to let this 10-Day Tube show what Pepsodent can do.

Brings five effects

Pepsodent brings five distinct effects. All are apparent, some are quick. A few days' use will leave no doubt about them. And a little book will tell you what each one means to you.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling.

The alkalinity of the saliva is multiplied at once. This is to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Every application brings the Pepsodent effects. Together they mean tooth protection like you never had before.

Watch these effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Compare your teeth now with your teeth in ten days. Then judge this new-day method by what you see and feel and know.

A large crowd gathered at the hall on Monday night when Mr. and Mrs. James Guiry were presented with two handsome leather rockers and an address, read by Mr. Percy Lucas. Mr. and Mrs. Guiry leave shortly for Peterborough where their future home is.

HIGH WAGES DRAW MANY FARMERS TO FLAX MILLS

NEWCASTLE, Oct. 14.—The high wages paid at the flax mill at Orono are stated to have been the inducement that has led to a number of farmers of the district seeking employment there.

New Hair Growth After BALDNESS

"On legal affidavit, John Hart Brittain, business man, certified to this: "My head at the top and back was absolutely bald. The scalp was shiny. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth. "Yet now, at an age over 60, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs." Mr. Brittain certified further:

INDIAN'S SECRET OF HAIR GROWTH

"At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian 'medicine man' who had an elixir that he asseverated would grow my hair. Although I had but little faith, I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and are long my hair was as prolific as in my youthful days.

That I was astonished and happy is expressing my state of mind mildly.

Obviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertilizing potency of the mysterious remedy.

I negotiated for and came into possession of the principle for preparing this mysterious elixir, now called Kotalko, and later had the recipe put into practical form by a chemist.

That my own hair growth was permanent has been amply proved."

After hair growth

Photo when bald.

How YOU May Grow YOUR Hair

It has been proved in very many cases that hair roots DO not die even when the hair fell out through dandruff, fever, *alopecia areata* or certain other hair or scalp disorders, Miss A. D. Otto reports: "About 8 years ago my hair began to fall out until my scalp in spots was almost entirely bald. I used everything that was recommended but was always disappointed until at last I came across Kotalko. My bald spots are being covered now; the growth is already about three inches." G. W. Mitchell reports: "I had spots completely bald, over which hair is now growing since I used Kotalko." Mrs. Matilda Maxwell reports: "The whole front of my head was as bald as the palm of my hand for about 15 years. Since using Kotalko, hair is growing all over the place that was bald." Many more splendid, convincing reports from satisfied users.

KOTALKO

FOR FALLING HAIR BALDNESS, DANDRUFF

For Sale at all Busy Drug Stores

Kotalko is wonderful for women's hair.

"Peterborough Presents Possibilities Unsurpassed."

THURSDAY, OCT. 14TH, 1920.

ENTERTAINING VISITORS.

The members of the Peterborough baseball team and the supporters who went with them to Guelph yesterday, have returned home loud in their praises of the hospitality of the Royal City and emphatic in their admiration of Guelph itself. These feelings were largely caused by the fact that the Chamber of Commerce did everything in their power to make the visit of the Peterborough crowd enjoyable. Prominent citizens placed their cars at the disposal of the Chamber for the occasion and the visitors were given every opportunity to see the many points of interest in Geulph. Similarly in the afternoon cars were ready to take the Peterborough team to the grounds, and at all times during their stay they were made to feel at home. As a result Guelph has gained in the members of the Peterborough ball club twenty enthusiastic supporters.

The question naturally arises as to whether here in Peterborough we pay enough attention to such matters as entertaining sporting organizations. The Board of Trade might do well to consider the question.

THE OUTLOOK.

Pessimism should have no place in the daily walk and conversation of the business world just now, says The Brockville Recorder and Times. What is required is not only optimism but optimism backed by confidence and determination.

It is the part of wisdom, however, to courageously face the facts and conditions with which business is now confronted. Shutting our eyes will not help any.

For the past sixty days there has been a real slump in business, and travellers are wondering how long a time will elapse before a recovery may be expected.

Generally speaking, merchants are far from flush with cash. The banks are carrying all the load they can in financing the crop movement, and are not in a position to make new loans or extend lines of credit.

Merchants or industries requiring cash are told to realize on the goods on hand, which, under present conditions, is very difficult.

In the face of a prospective decline in prices merchants are in a dilemma just what to do. They can sell only at a loss, but if they hang on to the stocks on hand they are liable to lose more heavily. It can readily be understood why the wholesale trade is dull under such conditions, for retailers would be very foolish to stock up just now.

Eventually the atmosphere will be cleared, but for the present the only hope lies in caution and sailing close to the wind as possible.

ENLIGHTENING THE PUBLIC.

Dr. Edgar Davey, at the conclusion of the learned address on cancer, given by Dr. R. H. Gaylord at the medical dinner at the Connaught Hotel on Saturday evening, referred to certain criticisms which had been made regarding the propriety of inviting the general public to hear such a discourse on such an occasion. But the event fully vindicated the judgment of those who were instrumental in arranging the function. The lecturer was listened to throughout with the keenest attention, and it is safe to say that his remarks will be productive of valuable results. This is an age of inquiry, of combative action against all forms of misery and evil. A universal crusade is going on against disease and wretchedness. It is recognized that public health is as much in the keeping of the public itself as in the hands of the few specialists who make it their particular study. Ignorance is the hardest thing to overcome; with a general dissemination of knowledge, the battle against disease would be half won. Dr. Gaylord expressed his conviction that the alarming death rate from cancer could be cut in two if only the patients recognized its symptoms earlier, or sought expert advice before such advice became unavailing.

Though little of a definite character is known as to the real nature or cure of the group of diseases commonly designated as cancer, Dr. Gaylord was able to bring to his hearers a message of hope and reassurance. Progress in research has been marked, and certain facts are now definitely established. In the first stages, the disease is localized—the early tumor is a protestive growth which walls off the affected part from the healthy tissue. By the excision of that growth, the disease can be eliminated. The importance, then, of early diagnosis is obvious. The public should know this truth, and the danger of ignoring early symptoms should be strongly impressed upon the popular mind.

There is a class of people—fortunately, it is becoming smaller and smaller in numbers—which seems to imagine that the best way of facing the unpleasant facts of life is not to face them at all. Disease, squalor, vice, ignorance, poverty, crime—these things exist, always have existed, and apparently always will exist. Specialists devote their lives to dealing with such problems; why, therefore, should they be obtruded on the consciousness of a public already overburdened with anxieties The answer is that all these things, in large measure, are the result of that very policy of ignoring them, which has been one of the worst features of the social life of the past, and the reversal of which constitutes one of the brightest hopes for the future. Bring a dark and evil thing out into the sunshine of knowledge and sympathetic action, and it will steadily diminish, if not entirely disappear. "The patient must minister unto himself." Doctors can do little without the willing co-operation of the laity. Malignant diseases, social diseases, vice and crime thrive in secrecy; they cannot stand the light. Such public functions as that of Saturday night are a cheering evidence of the new spirit which is dawning—the spirit of honest collaboration in the great task of surmounting human disabilities.—Hamilton Spectator.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

WOOLLEN DROP AFFECTS PRICES

CAMPHOR AND OTHER CHEMICALS CHEAPER THAN DURING WAR PERIOD.

MONTREAL, Oct. 14.—The retail price of Canadian woollen yarn made a sensational drop this week when the price of the cheapest grade came down from $3.25 a pound to $1.85. This is the first manufactured article to reflect the very low values of raw wool, although it is expected that goods by the yard will soon be brought down also by the action of the American manufacturers. Silk ties are also cheaper and the new lines for winter will be sold by the retailer for at least ten to fifteen per cent. lower than those he asked last winter. Spring clothing will be down say merchants, who are now ordering their next year's goods at a substantial reduction from last season's rates.

Drugs are following the downward trend and will be among the first of commodities to return to anything like a pre-war level. Camphor which during the war was difficult to obtain at $5.00 a pound is now being sold for $1.25. The camphor output of the world comes from the Island of Formosa and is controlled by the Japanese Government. The unusual demand for the gum during the war sent the price sky-high, and only so much could be obtained by each nation, as it was carefully apportioned out by the Japanese, according to the needs of every allied country. Turpentine has dropped a dollar a quarter a gallon wholesale, cocaine $5.00 a pound, while ether and sugar of milk should also soon be cheaper to the consumer. —Montreal Star.

U. S. Labor Department will establish a women's section of the immigration Bureau with women to be admitted to inspectorships on equal terms with men.

WORTH OVER $5,000 BUT AT WASHTUBS

ELDERLY WIDOW FOUND TO HAVE FORTUNE AFTER SHE DROPPED DEAD.

CHICAGO, Oct. 14.—Neighbors of Mrs. Alice Berkman, who knew her only as an elderly widow eking out a precarious living by drudgery over washtubs, heard with surprise today that after she had dropped dead yesterday the police found more than $5,000 in her clothing and in banks.

In one of her stockings was a package containing $2,100 in currency, she had a deposit of $5,000 in the Illinois Trust & Savings Bank, and a considerable sum was pinned inside her corset. Mrs. Berkman's husband died several years ago, and she sold most of their belongings and took up her abode in a one-room house on the edge of the lonely prairies. She had been engaged by a number of families to do their washing, and while thus engaged at the home of D. N. Harnely she fell dead over the washtub.

Police who took away her body thought it a case for Potter's Field, but the ambulance physicians suggested a search of her clothing, which brought forth astonishing results. It is believed she made practically all the money by hard work as a washwoman.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BANDIT COOLY DENIES TWO MURDER CHARGES

BASSOF APPEARS UNCONCERNED IN CRIMINAL DOCK AT LETHBRIDGE.

(Canadian Press) ....

LETHBRIDGE, Oct. 14.—Tom Bassof, train bandit and alleged murderer of Constable Bailey of the Alberta Provincial Police and Corporal Usher of the Mounted Police, stood in the dock at the Criminal Court assizes at Macleod yesterday and pleaded not guilty on all three charges against him, two of murder and one of holding up C.P.R. train No. 63 at Sentinel on August 2.

Mr. Justice McCarthy, who is sitting on the case, on learning from Bassof that he was not represented by counsel, appointed J. D. Mathieson of Macleod to defend him.

Bassof presented a much different appearance than when he was arrested at Pincher four days after the gun fight in the Bellevue Cafe on August 7, when Usher, Bailey and the bandit Acroft were all killed. Since his arrest he has been under close guard at the Lethbridge Jail, but he has wholly recovered from the wound he received in the fatal battle, has taken on flesh, and appears little concerned over the serious charges against him.

HASTINGS NEWS HAPPENINGS

HASTINGS, Oct. 13. — The Ladies' Aid of the Methodist church, held a successful 'chicken pie social,' in the basement of the church, on Wednesday evening. Supper was served from 6.45 to 8 p.m., the menu consisting of hot chicken pie, potatoes, pies and cakes in great variety.

After ample justice had been done to the bountiful repast, the tables were removed and a good miscellaneous programme was rendered which was much enjoyed by all.

Wedding Bells.

A wedding of interest locally was solemnized in Toronto on Wednesday last, the participant in the important event being Miss Hazel McCormick of Toronto and Mr. Sid Spooner, the only son of Mr. and Mrs. A. E. Spooner of Hastings. Mr. and Mrs. Spooner will take up residence in Hastings.

A little daughter was born on Friday morning to Mr. and Mrs. A.Scriver, of town.

Mrs. J. Sargent of Westwood, has been visiting Mr. and Mrs. James Stewart, at the village.

Miss Moise is a guest of her sister, Mrs. Hawking.

Mrs. N. Bexis is visiting at the home of her son, Mr. Gordon Beavis, of Colborne.

A number from here attended the fair at Warkworth on Friday.

Mr. and Mrs. George Hormel of Campbellford were in town on Monday.

Mr. William Carey of Peterboro, visited friends here on Tuesday.

The many friends of Mr. Bert McMillen will be sorry to learn of his serious illness.

Mr. P. Wark of Cobourg, was in town on Saturday.

Mr .and Mrs. A. E. Spooner attended the wedding of their son, Mr. Sidney Spooner, in Toronto, last week.

Mr .and Mrs. Lloyd Hess, and little son Earl, spent Sunday in Colborne.

Mr .and Mrs. David Scriver of Toronto, are moving back to the village.

The Misses Fowlds have returned to Toronto, where they will spend the winter months.

Mr. and Mrs. Pittman of Foxboro, spent a few days at the home of Mr. and Mrs. E. C. Prentice.

Mr .and Mrs. A. Sayer have moved to Colborne.

Mrs. Turney and Miss Gertrude Turney of Trenton, are the guests of Dr. J. H., and Mrs. Hess.

Mrs. W. Turner is visiting friends in Montreal.

Mr. Herman McMillen of Toronto, is visiting his brother, Mr. Bert McMillen.

A DANGEROUS WARNING —BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

KEENE NEWS

KEENE, Oct. 13.—Mrs. (Dr.) Victor McWilliams, of Toronto, was a guest a few days this week of Miss Margaret Bryce.

Mr. Garrow, Peterborough, spent Wednesday last at the home of his daughter, Mrs. Stanley Taylor.

Miss Margaret Bryce visited Peterborough friends a few days last week.

Mr. and Mrs. William Jeffries and little daughter have returned to Peterborough after a few days' pleasant visit at the home of Mr. and Mrs. W. R. Wedlock.

Mrs. Fred Mowry, of Peterborough, was a guest last Wednesday at the home of Mr. and Mrs. H. McLachlan.

Miss May Newman returned home on Saturday after a week's pleasant visit at the home of Mr. and Mrs. M. Weir.

Mr. and Mrs. William Bell and little daughter, of Peterborough, were in the village on Saturday.

Mr. John Reid, of Peterborough, visited at the home of the Misses McCrea last Wednesday.

Mr. and Mrs. W. A. McIntyre, of Toronto, passed through the village last Saturday.

The Bethel Church held their annual anniversary and thankoffering last Sabbath. Rev. L. S. Wight, of Cannington, occupied the pulpit morning and evening. The day was very much enjoyed by all present.

Mr. W. H. Fletcher visited in Peterborough on Sunday.

Mr. John McCarm, of Peterborough, was a guest a few days last week at the home of Mr. Marshall Weir.

Mrs. Roland Boothe and little son, Duncan, have returned to their home in Minnesota.

Mr. W. R. Wedlock visited at the home of his parents at Peterborough on Sunday.

Mrs. Morgan, of Peterborough, spent a few days the past week at the home of Mr. Duncan McFarlane a few days last week.

Mr. James Churchill has returned to his home at Toronto after two weeks' pleasant visit at the home of Mr. and Mrs. William Kempt.

Mr. Henry Knowles and daughter, Jean, visited Keene friends last Wednesday.

On Wednesday of last week the four-year-old son of Mr. and Mrs. William Redpath died after a few weeks' illness. The funeral was held on Friday afternoon. Interment in Keene Cemetery.

Mrs. Robert Churchill, of Toronto, spent the week-end at the home of Mr. and Mrs. William Kempt.

Mrs. Harry McLachlan spent the past week at the home of Mr. and Mrs. Fred Mowry, Peterborough.

Mrs. George Blakely is visiting friends at Bailieboro this week.

HER TOOTH IN HER LUNG.

Extraordinary Operation on Montreal Woman is a Success.

MONTREAL, Oct. 14.—A remarkable operation in which the crown of a woman's tooth was removed from her lung, where it had lodged for a year and a half, was recently performed successfully at the Western Hospital by Dr. R. H. Craig, with the aid of the bronchoscope and fluroscope, handled by Dr. Colin Ross. This operation saved the woman's life. It has been learned that the tooth was accidentally swallowed during its extraction by a local dentist.

FIRST SESSION OF NATIONS LEAGUE

TO MEET NOVEMBER 15TH—MATTERS TO BE DEALT WITH

(Canadian Press.)

GENEVA, Oct. 13.—It is not possible at present to give a complete list of the agenda for the session of the Assembly of the League of Nations which meets here on November 15 but it is expected that the following matters will be dealt with at the first session:

Election of president and vice-president.

Appointment of committee to examine and report on the credentials of representatives.

Examination and adoption of agenda.

Discussion and adoption of rules and procedure.

Admission of states not named in the appendix to the covenant.

General report on the work of the Council of the League.

Report by the Secretary-General on the organiation and work of the Secretariat, and resolution of the Council with regard to the seat of the League.

The first and second budgets of the League, covering the period to December 31, 1920.

Provisional estimates for the 1921 budget.

Plans for the establishment of the Permanent Court of International Justice.

Establishment of a Permanent Health Organization.

Establishment of a permanent organization to deal with communications and transit questions falling within the sphere of the League under the treaty of Versailles.

Tribunal for the settlement of differences referred to in Articles 336, 337, 376 and 386 of the Treaty of Versailles, and in corresponding Articles of other Treaties.

Relations between technical orgatizations and the Council and Assembly of the League.

Recommendations of the International Financial Conference recently held at Brussels.

Method of apportionment of the expenses of the League.

Preparations required to enable the economic weapon of the League to be used in case of necessity.

Report from the Statistics Commission.

Supervision over the execution of agreements with regard to the traffic in women and children.

Questions submitted for the consideration of the Assembly by members of the League are to include.

Amendments to the Covenant. Proposals by the Danish Norwegian and Swedish governments.

General supervision over the execution of agreements with regard to the traffic in opium in accordance with Article XXIII of the Covenant (at the request of the government of the Netherlands.

Asthma

Positive relief is sure, renewed health certain.

RAZ-MAH

GERMAN STATE WILL NOT SEIZE COAL FIELDS

(Associated Press.)

BERLIN, Oct. 13.—The Socialisation Committee appointed by the government, comprising 21 leaders of the industrial labour world and economic experts, has reported by a majority of one, that it is opposed to the immediate seizure of the nation's coalfields.

The Commission was divided into two groups, the smaller of which demanded the nationalisation of the entire production and distribution of coal. This group supports the findings of the first commission which has since been disbanded, but whose majority recommended immediate confiscation.

Eleven members of the newly organised commission endorsed Walter Rathenau's proposal to give the state absolute control over every ounce of coal produced, thus depriving the operators of any voice in determining the method of disposing of their product or fixing its price. The output of the mines would be taken over by an imperial coal council, which would have authority to fix the prices and reimburse the operators.

The commission was unanimous in favour of "far-reaching elimination of capitalistic gains from coal production." The majority of the commission was also convinced of the desirability of withdrawing the nation's coal assets from private ownership, but it was divided over the method by which this is to be achieved.

Rathenau's plan, which was given a small majority of support, provides for the indemnification of the operators for the use of their plants, payment of interest on invested capital, allowances for wear and tear and new equipment and fixed interest for actual capital required for operations.

The commission also favoured allowing workers fixed bonus premiums for increased production and social welfare institutions, but also suggested penalties in the nature of deductions for decreased output due to the fault of the workers.

The majority group pointed out that if its recommendations were put into effect the operator would at once be deprived of the opportunity of juggling prices as he would no longer be able to market the coal himself.

The majority of the commissoin designated the present plan a provisional procedure, which will logically terminate in complete socialisation not later than 30 years, assuming that the ultimate confiscation is fully warranted by the progress of economic developments.

PREDICTS 50 PER CENT. DECLINE IN PRICES

Cheerful Forecast by Delegates to Chicago Convention.

CHICAGO, Oct. 14.—That there will be a falling off in prices amounting in some instances to as much as 50 per cent. within the next six or seven months was the opinion expressed here by delegates to the convention of the Purchasing Agents' Association which opens to-morrow.

"We do not believe there is going to be any crash or panic," said A. H. Reinhart, vice-chairman of the convention committee, "but all of the hundreds of buyers I have talked with seem to believe that the peak in prices has been reached and that there will be a steady decline from now on, in some instances as much as fifty per cent.

"I have found no one who believed that there would be a return to pre-war prices for at least a couple of years, but all appear to have faith in the tendency downward."

Every big city in the United States and pratically every state in the union will have representatives among the 2,000 delegates who will attend the convention. More than forty will be from Canada.

ANNUAL CONVENTION TEACHERS' INSTITUTE OPENED HERE TO-DAY

INTERESTING ADDRESSES BY MR. R. F. FLEMING AND MR. A. MOWAT.

The annual convention of the Teachers' Institute opened this morning in the Public Library. The appointment of the Nominating committee was followed by an interesting address by Mr. R. F. Fleming, of Ottawa. Mr. A. Mowat, local Inspector of Public schools, closed the session with an interesting address on "Recent Regulations and Instructions."

Blackboard Illustration.

Mr. R. F. Fleming spoke of the value of proper illustration and decoration of blackboards. He referred to their cheerlessness and directed his efforts to show how this might be relieved. The blackboard is the chief medium of instruction; things placed there make the most indelible impressions on the child's mind of all that he receives at school.

The speaker demonstrated the uses of the difficult primary colors to get various tones of color. He emphasized the desirability of the teachers being able to represent most of the objects referred to in various lessons. He drew several objects to illustrate this, as for example a basket of fruit, scenes from history, georgraphy and literature, and other scenes familiar to children. Drawings need not be elaborate to be effective. All people are imaginative and have good pictures in their minds and the idea of drawing is to enable pupils to see what we use and thus develop their imaginations.

Stencils are used for general decorative purposes. They can be used on parts of the blackboard not used extensively, for other purposes and add a beauty and attractiveness. An appropriateness can be had by representing scenes of the different seasons.

The teachers appreciated Mr. Fleming's remarks and illustrations as they were particularly practical and helpful.

Mr. Mowat's Address.

Mr. A. Mowat gave a short address on the recent regulations and instructions.

In opening his address he read a quotation from Fisher encouraging reading by the teachers. He also referred to the "Six Tests of an Educated Man or Woman."

Referring to the regulations he mentioned the Adolescent School Act, which says that all children from the ages of 14 to 16 must attend some school in 1921 unless regularly excused He pointed out that the Act will not be of great value next year because of the fact that parents may make a disposition before the attendance officer that they need the assistance of their children and have them excused. In 1922, however, all children between the ages of 14 and 18 years must attend school a certain number of hours. He also mentioned the Technical school proposed for Peterborough and his visits to the factories of the city during the past week.

Mr. Mowat then stressed greater care in composition and the writing of boys, especially in the schools. He also referred to contemplated changes in the Superannuation Act.

Hevey, prominent in the Labor ranks of the city.

Teach Men to Loaf.

"From all over I hear of increased production in the factories. If prices drop and wages are maintained at the present level I think that the 'Red' element will drop out of sight in the Labor movement. Their idea was to cripple production, drive the manufacturer out of the business and then attempt to take his place. There was even a lecturer here last winter to tell the workmen how to loaf successfully. At the labor conference, there were only about a dozen 'Reds' and they had no influence," said Mr. Hevey.

Workers produce More.

The Goodyear Tire and Rubber Co. report that production now shows a slight increase. The attendance is very much improved and the standard of work is easier to enforce. "We have had to lay off some men, but they are all keeping in touch with us," said an oficfial. During the war labor was hard to hold but the men are sticking to their jobs now, and giving good output.

The Sheet Metal Products Company also claim an improvement in production although this has been usual with the approach of winter. Reduction of prices of various goods was also given credit for producing a new attitude on the part of labor.

Getting down to Work.

It was stated that labor leaders of the city have advised the men to get down to work, speed up production, and prove that increased production could prevent any decrease in wages. Other firms in the garment trade, the carpet manufacture, metal trades and various forms of business, agree that production has taken an upward trend. A general satisfaction with the labor outlook is expressed.

A CIVIL WAR.

Socialists Advicate Civil War in Germany.

(United Press.)

HALLE, Germany, Oct. 14.— Socialists advocate civil war as a weapon to establish proletariat state in Germany.

TOM SYKES COMING TO PETERBOROUGH.

One of the most outstanding men of the Brotherhood Movement is the man popularly known in England as "Tom Sykes." He is now attending the great World Brotherhood Congress in Washington, D.C., and on Tuesday, 26th October, the people of Peterborough will have an opportunity of hearing him.

The Canadian Brotherhood Federation of Canada have secured the use of Trinity Church in this city for this meeting. A men's choir will lead the singing. Both men and women are invited to this meeting. Mr. Sykes, who is secretary of the British Brotherhood Federation, has been one of the leaders in Brotherhood work for the past ten years. He is a big man with a great message. No one should miss this opportunity of hearing Mr. Sykes.

NORWOOD FAIR MAINTAINED ITS RECORD

Continued from page 9.

ed at Norwood create in any room an atmosphere of refinement, and place at their owner's command musical harmony which delights and holds the most critical. For a good piano and a square deal one cannot do better than purcase the Newcombe make. This Company's Peterborough agent is P. J. Scollard, 439 George street, while Jas. Craighead, Havelock, looks after the Newcombe interests in that town and surrounding country. Mr. Charles M. Quinn, sales manager, Toronto, was in charge of the exhibit.

A MILKER THAT STANDS SUPREME.

"The best ever" was the general concession of dairymen and farmers who in hundreds took a look into the manifold premier qualities of the De-Laval Milker here demonstrated to convincing effect yesterday. Visitors were quick to recognise improvements resulting from the thoughtful study of requirements by super-skilled mechanics, which make this machine the last word in construction and utility. This exhibit included a milker run by a three horse-power gas engine serving two single units, and capable of milking 25 cows an hour with the assistance of only one man; or even a 15-year-old boy. There was also demonstrated one of this company's famous separators, operated by a 1½ horse-power gas engine, with 1,000 pounds capacity the hour. Both of these machines bring wonderland within the reach of all who use them. They solve one of the farmers' biggest problems to-day—that of help, and stand without peers for simplicity in operation and positive dependability. Both possess many exclusive advantages, save time and money, and are highly recommended for economy in maintenance and the maximum of life.

J. R. Hughes, the company's courteous and genial superintendent for Peterborough Division, and Joseph Rylott, Havelock, the local manager, spent a busy day answering inquiries. The De Laval Co. is one of this city's biggest and most progressive industries.

COMING TO PETERBOROUGH GETS PRESENTATION.

DOWNEYVILLE, Oct. 14. — A large crowd gathered at the Hall on Monday night when Mr. and Mrs. James Guiry were presented with two handsome leather rockers and an address, which was read by Mr. Percy Lucas. Mr. and Mrs Guiry leave this week for Peterborough, where they will make their future home.

FORMER PETERBOROUGH BOY SERIOUSLY ILL IN KINGSTON

Thomas J. Connor, a war veteran and winner of a distinguished conduct medal, is critically ill of typhoid pneumonia in the Hotel Dieu Hospital, Kingston. His parents, Mr. and Mrs. T. P. Connor, formerly of Peterborough, have been summoned from their home at Waupun, Wisconsin, and are now with him.

MAKES BLOOD

If your blood is watery, thin, and poor, just try Vital Tablets, the French Remedy for making and purifying your blood; your skin will become clear, and colour will return to your face. Price 50c a box, 6 for $2.50, at all drug stores. The Scobell Drug Company, Montreal, Que. Sold in Peterborough by the Warne Drug Co.

LARGER OUTPUT IS IN PROSPECT

WORKERS ARE BEGINNING TO PRODUCE MORE.

TORONTO, October 14. — Declining prices in various commodities and reports from manufacturers of increased production mean the end of the "Red" effort to dominate organized labor, in the opinion of W. J.

FINE FAMILY GROCERIES

Customers placing orders with us for groceries may have the full assurance of securing the best grades at moderate prices. A full line of canned vegetables, catsups and preserves. Those preserves of ours in glass jars are strictly high class.
BERT HEARD, Grocer
239 George street. Phone 687.

ROUTLY-BRAUND, Limited

Formal Re-Opening Sale!

Our new, more than doubly enlarged Store on Charlotte Street, with the attractive wide open front, just opposite the White House, is ready for the firing of the first gun. We have never stopped doing business, but we always planned to celebrate our Re-opening with a Memorable Introductory Event and here it is. Just when Boots are wanted for Fall and Winter weather, we have prepared a veritable Bargain Feast.

Fifteen Days of Startling Get-Acquainted Values, Commencing Friday and Ending October 31st

Nothing Over $9.00

Just take notice of this feature. Not a man's boot in the store, even if formerly priced at $15, will now be sold at over $9.00. All are brought down to $9.00 or less, so there is no war tax to pay on them.
Also all our $15.00 Ladies' Boots will be sold at $9.00 or less during this sale. This sale is just what we say—an event to be long remembered.

Everything at Reduced Prices

In addition to the slashing reductions on ourhighest priced boots, every pair of boots in the store will be on sale at prices away below the value. No other sale of solid value boots and shoes will compare with this one. We want the buying public to know where our store is, get acquainted with us and we with you.

Easy to Find Us, and You'll be Glad You Came if You Buy

Routly-Braund, Ltd. 174 Charlotte St. Oppose the White House

...uses one, in keeping with the quality | $1.35. Extra bottles 75c. All druggists. | a mistake by having a good kidney flushing any time.

When You Are Down Town Step Into The Redfern Store

IT IS CONVENIENTLY SITUATED ON THE GROUND FLOOR

It has more to recommend it than convenience. It houses many lovely garments.

There are coats, suits, dresses, blouses, etc. that have been selected with the greatest care.

They were purchased to suit the tastes of Peterborough women.

Good sensible garments with just the proper amount of style.

An All-Wool Velour Coat for $60.35

(This Price includes the Luxury Tax)

Its colour is Mulberry, and at the back, descending from beneath the yoke are four corded darts that are finished with Silk arrows. Two rows of self-covered buttons adorn the back. The collar is convertible, and is charming when buttoned up or lying flat. The pockets are jutted and trimmed with buttons. It is lined to the waist with Floral Italian Satin.

Another Coat—This One Is of Silvertone Velour, $78.75

(This Price includes the Luxury Tax)

Its colour is one of those mid-shades of Brown that is so much admired. The side panels below the pockets are divided into a series of three-inch sections by welted seams. The narrow belt does not go all around, it crosses the front only. You will admire the set-on cuffs and the deep collar of Opossum will be much to your liking. A floral Pussy Willow Taffeta Silk lining is used throughout.

A Coat of the Loveliest Silvertone Imaginable $99.15

(This Price includes the Luxury Tax)

To add to its beauty is the colour—a perfect shade of Nubian Brown. The yoked back is apparent from beneath the collar, and gradually develops into a wide panel that descends to the hem. The jetted pockets poke out pertly and the Raglan sleeves contribute a positive distinctiveness. The collar of Electric Seal will be wonderfully warm, as well as ornamental. An elaborate floral pattern of Pussy Willow Silk is used for a lining.

A Dress of Black Duchess Satin at $47.50

Choose Black, if you wish to be sure of something becoming. This model has a Smocked Blouse, with a tie girdle that is apparent only at the back. The round yoke is garnished with pleated Cream Net, edged with Turquoise Blue, and the sleeves are finished in the same manner. The lower edge of the Blouse is trimmed with knife pleating, and both sides of the decidedly straight-line Skirt are adorned with perpendicular rows of knife pleating, and there is also a circular row at the hem, which is slightly narrowed and has two rows of Cording.

A Dress of Navy Blue Taffeta at $39

The Bodice of this one is quite plain, and the sleeves are Kimona style and elbow length. The sleeves and neck are trimmed with rows of knife pleating, and the three deep tiers of the Skirt are treated in a like manner. The waist line is emphasised by a crushed girdle and a tie at the back.

SCHOOLS IN THE CITY ARE CLOSED

The Peterboro Normal School closed yesterday to allow the faculty to attend the Teacher's Institute meeting. The Collegiate closed this afternoon and the Public Schools yesterday. The pupils in all these educational institutions have gladly welcomed the additional holidays preceeding Thanksgiving Day, allowing them an appreciable respite from the studies that will continue unbroken from now till the Christmas Holidays

AUSTRIANS MIGRATE TO ARGENTINA

BUENOS AIRES, October 13. —Immigration of Austrian Workmen to Argentina is being promoted by Dr. M. Fuchs, former consult general of Austria-Hungary here, who has been sent back to this country by the Minister of the Interior of the Austrian Republic to establish credits to be used in aiding workmen to emigrate and in building up Austrian industries.

Dr. Fuchs said that the decline in the exchange value of Anstrian money makes it almost impossible for workmen to pay their own passages in order to emigrate.

At the same time he says the condition of the republic is such that it is imperative to reduce the population of the country.

BIG FIRE LOSS AT TILLSONBURG

DAMAGE TO CANADIAN CEREAL MILLS WILL BE HALF A MILLION.

(Canadian Press.)

TILLSONBURG, Oct. 14.—Fire of unknown origin, which was discovered at one-thirty this morning, sweeping through the big dry kilns of the Canadian Cereal Company's mills, spread through the fire wall to the main mill and from there to the big elevator, 175 feet high, destroying all and causing a loss of half a million dollars. When the blaze was discovered by the night watchman it was already licking up the five-story drying kiln and nothing could be done to save it. The head office of the company is at Stratford.

It was due to the good work of the fire fighters that the flour mill, pea mill and barrel mill were saved. It is stated here to-day that there is a likelihood of the plant being moved to London where a big mill is available. The mills destroyed had been completely overhauled during the past year and about $100,000 worth of modern machinery installed.

GLYCERINE MIXTURE SURPRISES PETERBORO

The quick action of simple glycerine, buckthorn bark, etc., as mixed in Adler-i-ka, is surprising. One spoonful relieves ANY CASE gas on stomach or sour stomach. Adler-i-ka acts on BOTH upper and lower bowel and removes all foul accumulated matter which poisoned stomach. Often CURES constipation. Prevents appendicitis. One lady reports she has no more pain in back of head or gas on stomach since using Adler-i-ka.

McDermid & Jury and E. L. Payne, druggists.

DEPRECATE METHODS ADOPTED AT CARNIVAL

NIAGARA FALLS, Ont., Oct. 14. —The Ministerial Association of Niagara Falls passed a motion of censure here on the methods adopted at the carnival held all last week in aid of the hospital. A Ford car and many other things were raffled off. They commended the cause for which the carnival was held, but deprecated the methods adopted.

APSLEY MAN IN A COLLISION ON AYLMER STREET

When Hugh McCall of Apsley, drove out of a local repair garage at 1 o'clock today, he thought he was through with repair bills. As he drove his car along he thought it never performed better. But fate works along strange and devious lines and the illusion he was under was shown to him with in a few minutes when he rounded the corner of Simcoe and Aylmer in a sweeping curve southward bound he discovered that his steering gear refused to function when he endeavoured to avoid Dr. E. Wood's car which was on Aylmer street. The accident could not be averted and before the Apsley man could stop the car he had wedged his front wheel in under the left rear fender of the other car in an indescribable way and was completely tangled up when willing hands from the Fire Hall came to separate the two flivers from their clinch. Strangely enough the doctor's car was not damaged beyond a broken hub cap but the luckless driver from Apsley estimates htat his little mishap will cost him $25 to get new radius and steering rods.

BREAD PRICES UP IN LONDON

ANOTHER IMPOSITION ON THE WORKING CLASSES

(Canadian Press.)

LONDON, Oct. 14.—English working classes are faced with another crisis in cost of living. London master bakers have announced that next Monday price of bread will be increased from one shilling to one shilling four pence for four pound loaf and it seems probable that the rest of the country will follow suit. Main reasons assigned by newspapers for increase is that government which maintained subsidy wheat when prices were high, does not wish to bear loss on market which has fallen.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hearing and have Catarrhal Deafness, go to your druggist and get 1 ounce of Parmint (double strength), and add to it ½ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

LEND AN EAR

You will suffer no longer from those dreadful rheumatic pains, if you will take Dr. Banta's Kidney and Rheumatism Pills, according to the directions.

For sale by all dealers. 4d-4-7-11-14

MISCELLANEOUS SHOWER FOR MISS MONTGOMERY

A miscellaneous shower for Miss Geraldine Montgomery in honour of her approaching marriage was given by about forty of her friends last night. The first part of the evening was spent in cards and dancing after which Miss Montgomery was the recipient of many useful and valuable gifts showing the high esteem in which she is held by her friends. After dainty refreshments were served, music and dancing was resumed until twelve o'clock, when after wishing Miss Montgomery every happiness for the future and singing "For She's a Jolly Goodfellow" and the National Anthem a very happy evening was brought to a close.

HEAR CARUSO EVERY DAY

Not everyone the Dominion over had the opportunity of hearing the great tenor, Caruso, but it is possible for one to hear any of his great songs on the Victrola. Heintzman & Co., Limited, George and Hunter Streets, Peterborough, will be glad to furnish any of Caruso's songs on Record, or will send you list of the selections of this great Artists.

POLES STILL FIGHTING

More than Seven Hundred Reds Have Been Captured.

(Canadian Press.)

WARSAW, Oct 14.—Official communique reports Polish fighting with Reds in region of Koidenoff, southwest of Minsk. Poles have captured more than seven hundred Reds dividing three Bolshevik divisions by one line. Defined by terms of armistice.

TRIBUTE TO A VICEROY.

"From 1910 to 1916 he was Viceroy in India, governing the Dependency through very critical years and enjoying general esteem, as was made clear in 1912, when an attempt was made to assassinate him at Delhi." —Daily Mail on Lord Hardings. It sounds like a success d'estime.—London Punch.

Maple Leaf (plain dial) $3.25
The lowest-priced Ingersoll. Sturdy, accurate, reliable, good-looking—the watch for men and boys who want to buy time-keeping service at lowest cost.

Maple Leaf Radiolite, $4.00
The lowest-priced Radiolite. All the value of the Maple Leaf *plus* the ability to tell you the time in the dark—at 75 cents extra. The 24-hour-a-day watch.

Waterbury (plain dial) $7.00
The 12-size, jeweled Ingersoll. 12-size is the small, stylish size so much in vogue. Jeweled at the point of greatest friction. Antique hue and cream.

Waterbury Radiolite, $8.75
The Waterbury with Radiolite dial—at 75c extra. Choice of black face, as shown here, or of "silver" face.

Reliance $5.25 (Nickel case)
The 7-jewel Ingersoll Bridge model. The *thinnest* 16-size, 7-jewel watch made in America. Factory tested in 6 positions. Solid nickel case.

Reliance $10.50 (Gold-filled case)
Back view of the Reliance in a gold-filled case. Just one of the several designs. Plain gold if desired. Front view practically same as at left.

Low-priced, yes; but of smart appearance

INGERSOLLS, famous for the low prices at which they are sold, are not only the strongest and hardiest watches made—but they're as seemly and smart in appearance as you could wish.

Why even the Maple Leaf—$3.25—the lowest-priced Ingersoll, is really handsome. No thicker than watches that cost a whole lot more, with good lines and a dial that is simple and artistic.

Then when you move up to the Waterbury at $7.00 you find a small—twelve-size—jeweled watch of distinction and charm, still thinner than the Maple Leaf and with refinement of finish and design that pleases the most critical eye.

As for Reliance—"the Ingersoll with a college education"—he's an aristocrat. Slim, seven-jeweled, with bridge movement, Reliance is the kind you pull out of your pocket not only to tell time by, but to exhibit to your friends. Yet this slender, patrician timepiece costs but $9.25 in nickel case, $14.50 in gold filled.

There are many other Ingersolls—the Eclipse, a thin watch at $4.75; and its twin, the Eclipse Radiolite that tells time in the dark, price, $5.50; the Midget Radiolite, $6.25, for women, a "cutie" watch that appeals especially to the feminine taste; the Wrist Radiolite at $6.75; and the Radiolite Two-in-One, $4.25, a Maple Leaf in a case that makes it into a desk or bureau clock which, like all Radiolites, "tells time in the dark."

All these Ingersolls possess the faithful, sturdy time-keeping qualities that have made Ingersoll a synonym for accurate performance under all sorts of conditions, and all these Ingersolls also have the good looks, the pleasing appearance and the refinement which upset the logic that "you can't have everything."

You get everything in an Ingersoll—and you get it for less than seems possible. It *is* possible because of the huge number of Ingersoll sales—5,000,000 watches a year. Get your Ingersoll today.

21 CTS. POUND FOR SUGAR

THIS IS PRICE FIXED, PLUS FREIGHT, BY BOARD OF COMMERCE— ORDER UNPOPULAR.

(Canadian Press.)

Ottawa, October 14. — The Board of Commerce in an order issued here last night and which is to be operative to the close of the year, fixes the maximum retail price of granulated sugar at 21c per pound, plus frieght.

It requires the wholesales to fix their prices at a figure which will enable retailers selling at 21 cents a pound to realize a margin of 2 cents a pound. It calls upon the refiners so to price their goods that the wholesalers and retailers will be able to carry out the terms of the order. In other words it orders the refiners to sell at $18.50 a hundred pounds to the wholesalers. In order that its regulations with respect to prices may not be rendered abortive by importations from the United States the Board restrains Canadian retailers and manufacturers from buying supplies except from the Canadian wholesalers and Canadian wholesalers from buying except from the Canadian refiners.

Bitter Opposition.

There is a belief in well informed circles that the government is likely to exercise its authority under the Board of Commerce Act and intervene to vary this sugar order issued by the board last night.

Not in recent years probably has any order aroused so much adverse comment. A veritable flood of communications has already begun.

"There is no doubt," remarked one member of the Cabinet to-day, "that the order is unpopular."

Cabinet Meets.

A special meeting of the Cabinet council sat till 1.30 this afternoon but a final decision was not reached as to what action if any will be taken by the government in regard to the sugar order.

The Cabinet meets again to-morrow morning. The authorities it is understood are being consulted as to the legal situation involved.

Caustic Comment.

This morning following the arrival of the Prime Minister, a special meeting of the Cabinet Council was summoned. The sugar situation, with other business, was down for discussion.

Previously there was much consultation in official circles on the rights of appeal granted under the Board of Commerce Act.

The provisions of the Board of Commerce Act give power to the Governor-General in Council to vary or rescind any order of the Boad.

Communications pouring into Ottawa, show the unpopularity of the Board's order, while editorial comment in practically all the newspapers in the Dominion is caustic in this connection.

Save Refineries.

The Board in a statement which accompanied its order frankly indicates that its object is to save the refining companies from "losses of great magnitude."

A fall in prices to present United States levels would, the Board intimates, result in a "commercial disaster so serious that there would be little hope of limiting its effects to a single interest or to the few important establishments directly concerned."

The order, the commissioners' statement asserts, "will have and is intended to have the effect of preventing the purchase of refined sugar outside of Canada thus permitting the marketing at a loss, but not a ruinous loss to refiners of the refinery stocks on hand, and increasing the prospect of a speedy resumption of operations on the part of Canadian refineries."

RUMOR GOVT. TO BLAME FOR SUGAR SITUATION

Where does the blame for the present high cost of sugar in Canada lie?

The general public has been blaming the refiners, and strong protest has been made against the invocation of the 'anti-dumping" clause to prevent the entry of cheap sugar from the United States.

A rumor is current on the street to-day, however, that the blame is really to be laid at the door of the Government. The rumor is to the effect that Ottawa advised and practically ordered all refiners last year to stock up with at least two years' home supply of sugar.

It is understood that the Canadian refiners obeyed the request, and accumulated supplies which they could have sold in outside markets at the high figures then obtaining. At the present time against the result of their following the Government's advice.

It is further rumored that the refiners, when they followed instructions, pointed out to Ottawa the probable course of the market, and that consequently they consider it is up to the Government to prevent their being stranded with huge stocks accumulated against their own judgment.

OCTOBER BATHING IN LAKE ONTARIO SETS NEW RECORD

GRIMSBY, Oct. 14.—California has nothing on Grimsby for balmy weather. The weather here the past week has been the finest on record. Sunday was a beautiful warm day, and lovers of the water realized it to such an extent that the lake shore was dotted with bathers in great numbers all afternoon. Oct. 10 is pretty late in the season for swimming, as it breaks all records known of by at least four weeks.

ONE QUART CONTAINS TWENTY-TWO DRINKS

In the report of the police court proceedings yesterday, through an error it was stated that Mrs. Mary Doig was charged with illegally selling liquor. This should have read Mrs. Minnie Doig. License Inspector J. Stewart gave evidence in the witness box to the effect that a quart bottle of liquor contained twenty drinks. This he is prepared to prove. The Inspector made a test last evening and discovered that one imperial quart contained sufficient for twenty-two drinks. This was one of the chief points brought out by the prosecution.

GUARANTEED FOR THE LIFE OF THE TIRE.

NORWOOD FAIR MAINTAINED ITS RECORD WITH SWARMING CROWD

PETERBOROUGH'S CONTINGENT REQUIRED SPECIAL TRAIN OF FOUR COACHES COMING HOME LAST NIGHT—ATTENDANCE ESTIMATED AT 9,000 YESTERDAY—TURNSTILES COUNTED 6,000.

EXHIBITS NUMEROUS

The turnstiles at the Norwood Fair yesterday afaternoon registered 6,000 paid admissions, and according to some of the exuberant directors as many more visitors passed through the broad gate provided for automobiles. A moderate estimate of the crowd, however, would probably place it between eight and nine thousand. To all appearances the attendance was larger than that of last year when a new record for East Peterborough's agricultural exhibition was set up. The exhibits were also satisfactory, and in the attractions the directors expended an item of $300 in the engagement of fifteen pipers and drummers of the 48th Highlanders of Toronto. The Kilties immediately caught the attention of the crowd and held it all afternoon. For two or three hours, it seemed, and with comparatively brief intermissions the bagpipes sounded up and down a long lane lined two and three deep from one end to the other with the admiring farmers of four counties. Fortunately the band's repertory was not less than their powers of endurance with the result that their programme seemed almost unbroken and of continuous variety. You couldn't escape them had you wished for the music was plainly and agreeably heard all over the grounds, but when the ear grew accustomed to the rythm of reels and hornpipes it was suddenly brought up by a swift change in the music without muting the drones or losing a beat, from Miss McLeod's reel to "Coming Through the Rye" played to slow three-quarter time to which the Kilties kept step as they paraded. And as a parting tatoo they asecnded to the bandstand when the people were beginning to make a move homeward and the sun had at last set on a perfect autumn day, and swept through a stirring suite of selections with a rousing effect that Peterborough will find a stimulant when Piper Thom's Caledonian novices appear in the plaid of the Camerons with pipes to which they are no longer strangers.

It is customary for the advocates of the Norwood Fair, especially those who appeal to the County Council for a grant equal to that which the Peterborough Exhibition has received of late, to contend that theirs is purely an agricultural fair and that the people are deeply interested in the farm stocks and grains, implying at the same time that Peterborough runs too largely to circus stunts and grandstand attractions. The Norwood Fair does bring out good exhibits, but in the main it simply provides a social gathering and a big holiday for the people of the eastern townships and the lower Trent district. And this city by the way never fails in its quota. Last night the special train that left Norwood at seven o'clock was made up of four coaches, every one of them comfortably filled. There were no vacant seats even after Indian River was passed, but the train was emptied at the local station.

Youthful Orators.

Quite an interesting feature of the exhibition was the competition in oratory for school children. There were five aspirants for the honours of winning the award of the judges, Messrs. R. G. Lawlor and F. C. McRae, and the prizes were given by Mr. E. N. McDonald, M.P.P.

The first prize went to Miss Florence Burgess, whose subject was the Norwood exhibition, its first beginnings and development up to the present.

Hiram Anderson won second prize, speaking on "New Ontario and Its Future."

Miss Lillian Greenbank took third. Her subject was "School Gardens."

Evelyn Hawthorne ranked fourth with her discussion of the high cost of living, and Miss Anna Brethen was fifth. Her subject was the Norwood Exhibition.

Mr. McDonald gave prizes to the two later girls as well as to the first three winners.

These young folk spoke to a large audience. Their efforts were most creditable, and the Exhibition Board are doing an exceptional service to the boys and girls by encouraging them and giving them the opportunity to address a public audience. They received an attentive and kindly hearing that in itself provided a kindling atmosphere for the young disciples of Demosthenes.

The Baby Show.

Presumably a farmer can see the superior qualities and points of his neighbour's cattle or horses when they are decorated with the red badges while his were rated only third or even failed to win a prize, but it is unthinkable that there can be any such admissions by the mothers who line up with their youngest born in a baby show. This event yesterday brrought together in one of the large tents the proudest group on the grounds, and although each mother expected to win the first prize, the judges, Dr. Sutton of Norwood and Dr. Delamater of Hastings announced their decision as follows: 1st Herb McMillan, 2nd Mrs. Jes Hunt, Campbellford and 3rd Mrs. W. W. Theobald of Peterborough.

The Horse Races.

And then there were the horse races, one of the marvels of Norwood's Fair. For a long stretch of the course cuts through the paths of the crowds from both gates and the exhibits building to the central part of the grounds and only a kind and vigilant Fair prevents accidents year after year.

Before yesterday's card could be opened the Fair Board had to telegraph ten dollars to the Canadian Trotting Association for membership, otherwise the horsemen contended, all the starters would have been automatically placed in the free-for-all class in future races under the Association's jurisdiction. To avoind that penalty Secretary Jack Roxburgh acceded to the requests of the owners of the horses and applied for the Norwood Fair's membership in the association. This is a new regulation imposed during the last year by the Trotting Association. The result of the races were as follows:

Open Trot.

Bub-C. Moyse, Port Hope	1	1	1
Lloyd George, E. W. Jones, Peterborough	2	2	2
Jack Brooks, J. Dinsdale, Keene	3	3	3
Uric M., F. Johnston	4	4	4

Green Race.

Peter Ray, R. Elmhirst	1	1	1
Kittie Wilks, H. Elmhirst	2	2	2
Jim Tod, N. M. Henry	3	3	3
Darkey Hal, E. Dunn	4	4	4

Farmers' Trot.

Lena River, A Fee, Omemee	1	1	1
Sunny Jim, C. Moyse, Port Hope	2	3	2
Little Wana, Blake Stapleton	3	2	3

The officials in charge of the races were: I. M. Nattress, Millbrook, starter; Fred E. Jones, Peterborough, and Dr. J. N. Simmons, Sterling, judges; George Lipsett, Peterborough, timer.

Contests For Scouts.

The Norwood troop of Boy Scouts held the interest of a large section of the crowd by their demonstration of their drills, first aid work and other phases of their training. They were in charge of Rev. A. J. Terrill, pastor of the Methodist church, as scoutmaster, and Clive Dean, assistant scoutmaster. Patrol leaders were Wesley Wildman and Harry Baker.

The troop was inspected by Col. Everitt Birdsall. The tenderfoot test, including the tieing of knots, woodcraft, the promises of the scouts, the composition of the Union Jack, and other details, was won by Wesley Beavis and D. Garlick second.

The bandaging contest resulted as follows: 1st Jas. Mullins, 2nd H. Baker, 3rd John Webb.

The competition for the best all-round scout produced the following winners: 1st W. Beavis, 2nd Stanley Fennell, 3 Keefe McLaughlin.

FAIR EXHIBITS

EXHIBITS WORTH WHILE

As usual with district fairs, the special interest holding exhibits at Norwood were those made by enterprising and progressive Peterborough business houses, in company with the De Laval Company, Limited, this city, whose products never fail to impel inspections. But even at that, with the weather man on his best behavior for this occasion, an enormous crowd of sight-seers, together with the popularity of Norwood's annual fair generally for miles around, the special showing of manufactured commodities might to advantage to all concerned have been considerably multiplied.

THE FORDSON TRACTOR.

Of course Duffus Motor Sales of Peterborough were there with an exceptionally attention-impelling exhibit of Ford elegant Sedan, comfy Couplet and relisble Tourers, together with a substantially-built Ford one-ton Truck and a Two and One-half Ton heavy Beaver truck—all of the latest models, and money-savers in motive vehicles these days when economy is the prevailing cry. Enthusiasm reigned supreme around the Ford exhibit, demonstrating that for all-round service, running a maximum distance with a minimum consumption of fuel and for general economy in maintenance, these cars are growing more and more popular with the passing years. Closed cars are increasingly in demand, and this was exemplified yesterday by the interest manifested in the Ford Sedan and Couplet, both of which have been commanding striking notice at Peterborough and district fall fairs this year.

That farmers are appreciating the marvellous power and multiplied utility of the Fordon Tractor, coupled with its companion machine, the Oliver No. 7 Tractor Plow, was also quite in evidence. A Tractor was generously demonstrated in the presence of such crowds as are seldom seen at a demonstration. In fact Ford's space was a main centre of attraction, and the ease with which this help-saving machine covered the ground was freely commented on as simply wonderful. The Fordson Tractor has many uses; for plowing, discing, harrowing, hauling, in fact it is an indefatigable servant where power is needed, and economical in the bergain. Premier Drury uses one. In keeping with the quality of Ford cars and Tractor it should be remembered that the service is world-wide and available in every community. And thus parts and repairs are readily attainable.

THE STUDEBAKER CAR.

Messrs. Eastwood & Stock made quite a hit with a couple of their stately Studebaker Roadsters, renowned for power, comfort, riding ease and beautiful constructive lines. The machines shown were a Big Six Passenger Car and a Special Six Five-Passenger Car, both queens of the highway in roadster build. These models impresed themselves on the attention of visitors for their refined yet substantial fittings, than which it is difficult to conceive of anything to be further desired. Roomy, speedy, dependable, powerful six cylinder, hill-eating motive vehicles, these Studebakers won their way into the hearts of prospective buyers. Studebaker cars are of guaranteed efficiency and afford a maximum of every-day service, day in and day out, the year round with the new Rex All-Seasons Utility Tops. Farmers especially should make a note of this, for it is possible to acquire from Eastwood & Stock a Studebaker Car, with Rex Top which will enable them to make winter trips to town, school, church, and to friends' homes in comfort, ease and confidence. Mr. W. B. Eastwood was in charge of this exhibit. Eastwood & Stock are located on Charlotte street, Peterborough.

GRAFTON & CO. TO THE FRONT

Merrily flew a multigenerous display of patriotic flags above the striking exhibit of Grafton & Co., Ltd., Peterborough, which easily dominated in quite irresistible manner the whole scene. The showing of men's youth's and boy's wear was attractively arranged with no small degree of artistic regard for color design, in a spacious marquee, resplendent with flags, buntin and foliage decoration. And the inquiring and interested crowds which thronged this exhibit clearly demonstrated general appreciation of that first quality and "Down on High Prices" policy for which this firm is noted. Messrs. Lorne Conway and M. Cottingham were in charge and had a busy day with prospective customer. Among a host of desirable wearing apparel were to be seen fall and winter men's suits in English worsteds, Scotch Bannockburns and Botany Serges (blue and black); young men's specially warm overcoats, the very latest three quarter belted back model with double breast and ulster collar; men's heavy all-wool Melton top coats, full length, dark grey in color and all-wool tweed lined. Grafton's far-faimed Nobby soft hats, all shades, to say nothing of refined elegance in beautiful knitted silk scarves. Then a marked feature of this showing were splendid lines of boy's and girl's durable, warm blue and green Chinchilla doube-breasted coats with broad belt and embelished with brass buttons Cloths of all the wear reflected dependability, while the tailoring is unexcelled; perfect fit and finish is also guaranteed for clothes sold direct from manufacturer to wearer, thus eliminating the middleman's profit. Both patterns and shades are inviting and come in commendable variety.

Grafton & Co., are now celebrating their 86th Anniversary by offering remarkable bargains in men's, youth's, boy's and little one's wear, including underwear, sweater coats and pullovers. Prices are marked down to the lowest pre-war level and selling is quickening everyday. Their Peterborough premises are on George street, the double store which never disappoints.

NEWCOMBE PIANOS.

In the main building there was demonstrated to arresting advantage, the tuneful qualities of upright and player pianos manufactured in Canada by the Newcombe Piano Co., Ltd. Two exhibits were in evidence — a satin finish bur walnut style Louis XV player, and a highly polished mahogany upright, style Louis XIV. Both are striking instruments in construction, tone and finish, and attracted the fullest measure of interest. They embody all the latest improvements and devices known to the piano building trade, and carry behind them enviable recommendation in that they have won gold medals at no less than five world's expositions for all-round perfection. Such pianos as exhibit-

(Balance on page 6.)

DON'T SPOIL A GOOD MEAL WITH A BAD STOMACH

It is really a pitiful sight to see so many thousands of people worrying about what they can eat and what they can't eat.

Dyspeptics, they call themselves, but they stretch the imagination when they can't eat.

All these people need to make them healthy, cheerful and of sound appetite is a box of Mi-O-Na Tablets.

The stomach of a dyspeptic is overworked and run down. It needs help to digest the food, but more than that it needs a prescription that will cleanse, renovate, strengthen and put elasticity into the stomach walls.

Mi-O-Na is the prescription that will do this and do it so promptly that you'll wonder why you didn't try it before.

It stops belching of gas and distress after eating in five minutes. It is undoubtedly the greatest stomach tonic ever given to the public by a specialist in stomach diseases.

Leading druggists everywhere sell Mi-O-Na on the money back plan, or by mail, 75 cents, Booth's Hyomei Co., Listowell, Ont.

HYOMEI (PRONOUNCED HIGH-O-ME)

COMMUNITY PLATE

A Source of Pride

COMMUNITY PLATE appeals to every woman because it is a wonderful combination of correct pattern, beautiful, exclusive designs and a heavier plating which has a thick overlay of pure silver wherever wear is greatest.

The housewife who wants tableware she can be proud to own, and to use, should insist on having only COMMUNITY PLATE.

Because of its moderate cost and remarkable service COMMUNITY has become the vogue in tableware.

All COMMUNITY patterns are standard. You can start your set with a single serving piece and add to it from time to time.

The Better Shops are glad to show COMMUNITY.

Send for our attractive Booklet— "Correct Service with Community Plate"

SPORTING NEWS, VIEWS AND GOSSIP

PETES LOSE 9 TO 4 IN FINAL O.B.A.A. BATTLE

FINE HAMILTON RALLY IN SIXTH INNINGS GAVE PLOWITES SEVEN RUNS AND EARNED THEM AN EASY VICTORY.

A fusilade of base hits rattling from the bats of the Hamilton crew in the sixth innings of yesterday's play-off game at Guelph for the Ontario championship knocked Lornie Rose out of the box, gave Howard Kirn who succeeded him a very distressing five minutes, scored seven, runs, put the Petes on the shelf for the season and earned the Plowites the News Trophy and the title of Ontario amateur champions. Hamilton won the game by 9 to 4.

Up to that disastrous session it had been a repetition of the first two battles between the two clubs. Peterborough earned a run in the first and the Plowites had got two in the fourth that wre not earned and it was 2 to 1 when the blow up came.

Yesterday's game was won and lost on the rubber. Hamilton got the same superb pitching yesterday that the new champs had received all through the series; Peterborough didn't. In other words, Miller was the same Miller while Rose wasn't the same Rose.

The Peterborough twirler, who held the Plowites to only one run in eleven innings on Saturday, was bothered with a sore arm early in yesterday's battle and from the start did not have his usual speed or control. The Plowites were hitting his offerings viciously in the early innings, but some super-fine fielding averted disaster for the time being. Bob Ross cut off three runs in the third by a sensational catch of Reaume's terrific drive to rnght. The blow had home-run written all over it when the ball left the bat, but Ross, who was playing deep tore over and pulled down the drive. There were two on the sacks at the time with two out and if the hit had got by Ross there would have been a trio of counters in. The play earned the biggest applause of the day and Ross was wildly cheered when he came in to the bench.

A fast double play started by Holyman, and with Cherrett as the pivot, helped a lot in the second, and Hap Harrison saved a counter in the fifth when, with Cumpson on third he tapped Reaume's wicked slash down the first base line and got Cumpson between third and home.

The defence wobbled in the fourth when a miss of a fly by McCarney, who was bothered by the sun in centre field and a ground ball that got away from Bob Ross gave the Plowites their first two counters.

The sixth was the session that broke the tension and killed the Petes' chances. Behrens opened by a double to right which Ross dived for but failed to reach. Miller, who hit like a crazy man during the battle, cracked one of Rose's slow ones for a clean single to left and Behrens trotted in. Rose's control was bad and he was in the hole when he had to put the ball over for Miller. He then plugged Mellanby and there were two on the bases. McQueen laid down a perfect sacrifice. Barrett singled cleanly to left, scoring Miller, while the others moved up to second and third on the throw in.

With two runs in, base warmers on second and third and one out, Kirn was sent to the rubber, but he was unequal to the task of stopping the Hamilton rally. He faced the head of the batting order and Cumpson showed him what to expect by cutting the first ball to left for a single that scored Mellanby. Miller was hit, filling the bases and then Reaume, who had been hitting the ball on the nose all through the series but with no luck, slashed a triple to right, scoring three runs. Carroll's single sent Reaume home. Behrens forced Carroll at second and after Miller walked Cherrett threw out Mellanby to wind up the disastrous session.

"Hap" Harrison took up the pitching for the Petes in the seventh and the big fellow showed so much stuff and smoke that there was regret in the Peterborough camp that he had not started the battle or gone in when Rose first began to weaken. Harrison blanked the Plowites easily in the last two sesions and they did not look very much at ease up at the plate when he was zipping his fast one by them.

Miller for the winners, pitched the same great ball he has shown in the whole series. He fanned eight of the Petes, and outside of the seventh when they nicked him for four hits, he was a mystery to the Solomon crew. In addition Miller had three clean hits and fielded his position superbly. He is one sweet pitcher and the Pets, players and fans alike take off their hats to him.

The Petes got off to a good start. Cherrett opened with a walk and stole second easily. Murray's infield out moved him up to third and Ross singled to right to send in the first run. Swanston beat out a bunt but Harrison and Ray Rose were easy.

The Solomon gang did not score again until the seventh when they staged a rally. Ray Rose opened with a single but Holyman grounded out and Kirn fanned. McCarney singled to right, scoring Rose and when Cumpson on Barrett's throw to the plate threw high to second McCarney went round to third. Cherrett slashed a hot one down the first base line for a triple to right, scoring McCarney, and scored when Reaume threw over Cumpson's head. Murray doubled to right. Ross ended the fun with a smash to McQueen.

There was a big crowd in attendance, over 2,500 being in the stands and along the side lines, while motor cars were parked deep in the outfield. Hamilton had fifty lusty rooters with them, but the main part of the crowd was with the Petes and gave them every encouragement.

The box score:—

HAMILTON—	AB	R.	H.	PO	A.	E.
Cumpson	4	1	2	8	2	1
Smith 1b	3	1	2	15	0	0
Reaume 2b	3	1	1	1	2	1
Carroll 3b	3	1	1	1	4	0
Behrens lf	3	1	1	0	0	0

Bases on balls, off Miller 2, off Rose 3, off Kirn 1. Hits off Rose 7 in 5 1-3 innings, off Kirn 3 in 2-3 innings, off Harrison 2 in 2 innings. Double play, Holyman to Cherrett to Harrison. Left on bases, Hamilton 8, Peterboro 5. Wild pitch, Miller 1, Kirn 1. Hit by pitcher by Miller 1 (Harrison,) by Rose 1, (Mellanby,) by Kirn 1 (Smith). Umpires, Kay, Peterboro, Burke.

MORE CITY IMPROVEMENTS

THE ROUTLY-BRAUND SHOE STORE NOW SPORTS A MODERN NEW FRONT.

The Braund Brothers have again shown their faith in Charlotte Street by going to big expense in company with the Routly-Braund shoe business, in enlarging and greatly improving the front of their brick block, the home of the store. This store was built by the company a few years ago, and the lower flat made into two stores, one of which was occupied by the City Fotwear Store and the other used as a restaurant. As a consequence of their usual aggressive business methods, the shoe business grew in volume until the small store was inadequate for the proper handling of the stock, and it was decided to utilise the entire lower floor as a shoe store. Early this season the work started, and there is now ready for business a beautiful, modern, roomy store, with a handsome front, that would be a credit to the best street in any city. Not only has this made the store the equal of any business place in the city, but it has greatly added to the appearance of that part of Charlotte Street, which has gone another step higher in its place as the street second in importance in Peterborough.

The activities of the Braund Brothers is seen more in the block between George and Aylmer Streets on Charlotte than anywhere else in the city. The Greene Music Co. building and the Routly-Braund block were the first field of operations for these useful citizens, followed later by the acquiring of the Snowden House and its metamorphose into the Charlbond Apartments, with a handsome buff brick front, and the building of the fine block in front of the Curling Rink, now occupied by C. R. Banks auto garage, with well planned apartments above. These four blocks are the outstanding features of Charlotte Street, and it is evident that Messrs. R. C. and J. T. Braund's faith in this thoroughfare is being rewarded, for every part of all four is occupied, and must yield a handsome revenue.

The Routly-Braund Store, enlarged to two and a half times its former size, and already overflowing with the splendid stock the firm is noted for carrying, is now announcing its re-opening sale, and promising a record-breaking list of bargain prices in a "let's-get-acquainted" way, that will likely make a stir with the Peterborough public, especially at this opportune season, when fall and winter footwear is in urgent demand.

SERIAL COMEDY

CALEDONIAN CLUB WHIST PARTY A GREAT SUCCESS

NEARLY 300 SCOTS PEOPLE SPENT A PLEASANT EVENING TOGETHER.

A great gathering of the various clans from Scotland were represented last evening in the Woodmen of the World Hall at the Whist Party of the Peterboro Caledonian Club, when about three hundred people enjoyed themselves throughout the contest. At the finish it was found that Mrs. Jack Gillespie and Mr. E. B. Hardie won the first prize and Miss S. Ingram and Mr. Harry Taylor, the second prize. The Boo-bee prize went to Mr. Low and Mrs. Wm. Petrie.

After the usual procedure the company partook of the refreshments supplied by the club.

During the evening Miss Pattison rendered one of Scotland's new songs that was highly appreciated.

Mr. Grieves in the Humorous Scotch Dialogue amused the crowd in how "Auld Grandfaither" told his good son about "Wee David and the Killing of Goliath."

Mr. Mitchell singing of "Marguerite", in a good tenor voice, was excellent.

The tendering of the "Old Fashioned Town" by Mr. Wm. McCrone was a novelty.

Pipe-Major Thom of the Pipe Band played a number of selections to the company.

The Tib-bit of the whole proceedings was the comic song by Mr. Calder in singing "Oh What a Terrible Riot," brought another song that kept the assembly in roars of laughter.

Mr. J. Grieves was heard to advantage in "Land of Hope and Glory" and an encore.

A song composed by Mr. Moyes entertained the company on local conditions in "The Good Old Summertime".

Mr. Harry Taylor sang "Soldiers of the King".

The night's enjoyment was brought to a close by singing 'Auld Lang Syne."

SAM HUGHES TO URGE IMPERIAL PARLIAMENT

PREPARES MOTION TO BE PRESENTED AT NEXT SESSION OF COMMONS.

(Canadian Press)

LINDSAY, Oct. 14.—Below will be found a copy of an important notice of motion that will be introduced in the Federal House at the next session by Lieut.-Gen. Sir Sam Hughes.

"(1) That in the opinion of the House the time has arrived, much too long delayed, when all parts of the British Empire should be given, on an equal basis, full responsibility and representation in the Imperial Parliament of Great Britain and Ireland—rights which have always been theirs, but which have not been extended to them or exercised by them; and to that end that the present Imperial Parliament of Great Britain and Ireland should be organized on a proper basis to give representation to the non-represented portion of the Empire on the same basis as would be given to the present represented portions. That this—the sovereign Parliament—should deal only with matters international, Imperial or international-Imperial, inance, trade, exchange, defense and such other questions as might be determined upon without the loss of any material privilege which the integral parts now possessed.

Maintain Units.

"(2) That for other purposes the Empire should be, as now, divided into integral component parts: (a) Great Britain and Ireland, (b) Canada, (c) Australia, (d) New Zealand, (e) South Africa, (f) India, (g) Newfoundland, each with a Parliament of its own dealing with such matters as may be determined to belong thereto.

"(3) That Parliaments within each of these integral parts and under the direction thereof should be established, as deemed advisable, to consider matters of Provincial importance.

"Further, that no sovereign powers, that is, powers pertaining to a great Imperial Parliament, should be at any time conferred upon any individual portion of the Empire, and that no portion of the Empire should be entitled to or be granted special laws and special privileges in so far as sovereign questions are involved.

WOMAN GIVES BLOOD TO SAVE MAN; REFUSES NAME

(Canadian Press)

MONTREAL, Oct. 14.—A young woman who refused to allow her name to be published here gave two pints of her blood in order to try and save the life of J. J. Carey, Lawrence, Mass., shot in the abdomen during a fight on the street last night.

THOMAS H. INCE Presents ENID BENNETT in

"WHAT EVERY WOMAN LEARNS"

THINKING that happiness was laughter, she had married a parlour clown only to find him a cad with the heart of a coyote!
Now he had come with a friend, in a plot to besmirch her name.
Maddened by the terrible truth, she fired—fired to save a decent man who loved her.

A scene that will cling to your memory for weeks. A story that goes to the depth of things that relate to love and marriage.
Played by a brilliant cast, including Theodore Roberts, Milton Sills and Irving Cummings. Enid Bennett in one of the greatest roles of her career. A picture you are bound to see!

AT THE ALLEN

What is the lure of Tarzan How do you account for the fact that the Tarzan books have outstriped every popular fiction seller of the past few years—and are still selling steadily in the hundreds of thousands? Why did six thousand newspapers in every part of the world choose the Tarzan stories to run in serial form? And why did the first Tarzan motion picture history as the most sensational popular success ever screened?

The huge demi-god of the jungles, swinging from limb to limb of the tallest trees with his tribe of giant apes, leaping swiftly through the underbrush to hunt his food with his bare ands or figting breast to breast with his enemy, a lion, is a figure that exerts an indescribable fascination over the public. Perhaps it is because all of us in our secret and innermost consciousness, conceal a fierce hunger for the primitive. Do we not in our dreams picture tremendous scenes of adventure in which we occupy the central position — scenes of danger, of battle, of defiance to convention?

* * *

In "The Return of Tarzan," shown here Thursday, Friday and Saturday, the latest development of the Tarzan epic is presented in a plot that simply tingles with thrills. It is easily the most exciting picture you will ever have the pleasure of seeing —hand-to-hand fights between Tarzan and two full-grown, blood-thirsty lions, a spectacular shipwreck, stirring scenes in the underworld of Paris, of wild animals in their native haunts, adventure and a love story that threads the plot like a vein of gold. If you want to be lifted out of yourself and thrilled to the core, make sure that you see "The Return of Tarzan."

WILLIAM RUSSELL DUE IN ROLLICKING PLAY

William Russell is coming to the Regent Theatre to-night in a rollicking romance, "Leave it to Me," that is said to possess exceptional entertainment value. The Fox star is a screen favorite with all lovers of manly characters.

This photoplay, according to those who have seen it, is jammed with tense situations and contains a sparkling humor that makes it a well-balanced picture. It is from the pen of Arthur Jackson and has been staged under the direction of Emmett J. Flynn, who has many Fox triumphs to his credit.

The story is set in a town environment and brings into collision extremes of the social scale—members of local society" and leaders of the underworld.

The company that supports William Russell includes Eileen Percy, Marcelle Daley, Hal Cooly, Lucille Cavanaugh, Harvey Clark, William Elmer and Milla Davenport.

"BABE" RUTH PROFITS BY KILTIES' FAILURE

NEW YORK, Oct. 14.—"Babe" Ruth is the "clean-up kid" in more ways than one. In the last two weeks he has made $22,500 playing independent baseball, which is cleaning up considerably. The Babe did his best to help the Kilties get into the World Series, and it was no fault of his that they did not. Ruth is firmly convinced that the man who first said: "It's an ill wind that blows nobody some good," spoke an earful, because if the Kilties had won the penant he would have had to be content with a "paltry" $5,000 or so for his "bit" out of the series.

BANK CLEARINGS FOR THE WEEK

Clearings for week ending 14th October—$1,034,664.
Same week last month—$1,073,971.
Same week last year—$756,252.
Same week two years ago—867,285.

"THE MAID OF THE MOUNTAINS"

Direct from it's record breaking run of five years (1,352 performances) at Daly's Theatre, London, England, the greatest musical comedy of all time, "The Maid of the Mountains," is now on a limited tour of Canada prior to its New York opening, and will be the offering at the Grand Wednesday, October 27th, for one night only.

The wonderful success attained by this musical play may fairly be attributed to the fact that it possesses to a full degree the four elements which are essential in musical plays —story, song, music and spectacle. These are splendidly balanced in this piece.

The settings are beyond compare. The first act showing the bandit in retreat in the mountains is a rare landscape gem. The second setting is that of the courtyard of the Governor's palace, where all is regal gorgeousness. The final act is laid on a lonely bay on Devil's Island, giving a wonderful marine view from the rugged coast. Here the beautiful heroine, half Carmen and all maid, is again re-united with her lover, whom she has betrayed in a fit of jealous anger.

The music of "The Maid of the Mountains" is almost operatic in its brilliancy.

GRAFTON & CO., LTD.

Canada's Greatest Clothing Makers Selling Direct to the Customers

OUR 68th ANNIVERSARY AND GREAT FALL OPENING SALE OF

MEN'S, YOUNG MEN'S AND BOYS'

WINTER OVERCOATS AND SUITS

In appreciation of the loyal and constant patronage of our thou ds and thousands of cus tomers during all these years and to practically demonstr our ability to still lower clothing costs, we have determined to make this sale

THE ONE BIG OUTSTANDING VALUE EVENT OF THE YEAR

Is now going on, and we are giving a feast of bargains in C f-ton Clothes, the like of which u have never before se in Peterborough. WE ARE GOING TO SHOW YOU wh CAN BE DONE IN THE WAY OF VALUE GIVING, when the right determination to DO IT is applied.

Men! This is not a reduction sale—it is something greater than that. It is a fight to lower high prices. WE HAVE ALWAYS BEEN A FOE TO HIGH PRICES, as our record shows in the past, and until low prices prevail again our business pocket book will suffer just as your personal pocket book suffers. We have something to gain in this fight, as well as you. No store or stores could deliberately do the thing we are doing for any length of time and exist; but just as long as we can do it, we will; so you needn't wait for prices to come lower. THEY'RE DOWN TO ROCK BOTTOM NOW AT GRAFTON'S.

GRAFTON'S SALE OF Boys' Overcoats

Mothers! Your romping, rollicking boy needs sturdy clothes. Grafton's boys' clothing is made to go everywhere a boy goes—and come back whole.

Straight as the crow flies, Grafton-made boys' clothes go direct from tailors' bench to wearers' back—one organization, one operation, one compensation. Your only right course is to buy from Grafton, the source, and thus save all in-between costs.

SNAPPY, UP-TO-DATE OVERCOATS

The Jewel of Your Person

To Everyone a Correct Setting

To find this "setting" for feature and form which nature has endowed you with,

To bring the charm of your personality to the surface—

To disclose that touch of gentle breeding, innate artistry and refinement amid a wide distinction of raiment—

The selection of suitable Furs makes the "setting" far surpassing all others.

¶ **BARRIES LTD.,** Peterborough's well known Manufacturing Furriers, can ably assist you in suggesting **your** requirements in type, form and shading; as they take a real sympathetic interest in turning out just the right article for each individual need.

¶ **BARRIE** Furs are always spoken of as high quality, fashionably made; and they carry with them the **guarantee of being exactly as represented.** They make no pretence of competing with the many "hurly-burly" women's - wear shops, but their **prices** are **invariably** the **lowest** when quality, workmanship and materials are considered.

¶ Buying directly for cash from trappers, selecting only the "prime" skins, manufacturing in their own factories — every department organized to function at its best, the **"BARRIE"** guarantee is one that carries not only the fact but the spirit of the guarantee through every department—even to the price of the article.

¶ We might add, **Furs are cheaper** — that, bought at the present low price basis, they save purchasers many dollars, — that now is the time to buy before prices go to a higher level.

¶ The conditions reported in the Fur Trade from New York market records this month, indicate an increased sale over last year from all the larger centres, also a better demand from Europe. This is depleting the stock of Fur Skins, which each year has been a diminishing quantity owing to the gradual extermination of the wild Fur-bearing animal life throughout the world. Consequently this shortage and this demand is stiffening prices, and prospects are they will be much higher than the reductions now prevalent.

¶ **BARRIES** invite comparison—knowing they can convince by quality, style and price eventually. Why not now?

WINTER TOURS

Why not plan now for a winter tour to California or some other Pacific Coast point, or to some of the well known winter resorts in the Southern States, Bermuda, Cuba and the West Indies. Golfing, tennis, polo, bathing, fishing etc., or just for rest. For information as to fares, routes, etc., apply to any agent of the Grand Trunk Railway System, or to C. E. Horning District Passenger Agent, Toronto.

OBITUARY

SIDNEY JACKSON.

Sidney Jackson, 1 Meldrum Apartments, Water Street, died suddenly this morning, the result of heart failure. Deceased, who for many years has been a baseball enthusiast, attended the Hamilton-Peterborough game in Guelph yesterday, and returned to the city on the midnight train, apparently in his usual good health. This morning, however, he got up and called his children, and returned to bed, and expired a few minutes later, about 8 o'clock.

The late Sidney Jackson, who was 57 years of age, was born in London, England, and came to Canada a number of years ago. In April he came to the city to take over the managership of the Regent Tailors' store, on George Street.

He leaves of the immediate family his wife and two small children, Marion and Mervin.

The funeral ceremony will be conducted by a Rabbi of the Hebrew faith, in Toronto, the date to be announced later.

IN MEMORIAM.

FAGAN.—In loving memory of Albert Edward Fagan, who died on 14th October, 1918.

Two years have gone, and still we miss him,
His loving voice is still;
The hands that once we clasped in ours
Lie low in death, cold and chill.

We often sit and think of him
When we are all alone,
For memory is the only thing
That grief can call its own.

—Inserted by Father, Brother, and Sister.

NOT THE OTHER KIND.

It is probably unnecessary to explain that the druggist who displayed a sign, "Say it with a brick," in his window," was referring to ice cream.

DANCE AND CARD PARTY

The dance and card party given last evening in St. Alphonsus Lyceum—under the auspices of the Ladies' Aid of St. Peter's, in aid of St. Vincent Orphanage—was a complete success, and was attended by about fifty couples. During the evening vocal selections by Mr. Ed. Hanrahan, of Montreal, were thoroughly apreciated. A few of those present were: Misses Irene Thornton, A. Gallagher, M. Mulhall, C. Fisher, A. Fisher, G. Girard, T. Ahern, E. Overend, B. Conroy, C. Shevlin, A. O'Brien, G. Delaire, M. Walsh, and Miss Smith; Messrs. Tom and George Rutherford, B. Hickey, Bob and George Leonard, Fred and George Carson, V. Killoran, H. Thornton, E. Riley, E. Pethick, F. Rush, A. Costello, George Kelly, E. Judge, E. Sheehy, Alf. Taylor, Alf. Weatherhead, E. Sheehan.

Social and Personal

Mrs. W. J. Gallagher attended the Norwood Fair yesterday.

Mrs. Gadsby, who has been the guest of Mr. and Mrs. Wm. Madill, left yesterday for St. Catharines en route for her home in Pittsburgh.

Mrs. J. H. Dixon, who has been visiting her mother, Mrs. Davidson, Aylmer street, returned this week to her home in Winnipeg.

Mrs. H. I. Fairweather left recently for Boston, where she will study art.

Mrs. Robinson, who came to Canada, recently, to visit her mother, is spending a few days with her sister, Mrs. Wm. Blackwell, en route for her home in England.

Miss Dench's of Best's Station, is spending a few days with Mr. and Mrs. Wm. Blackwell.

Miss Ethel Rae entertained the young ladies of the Farm and Dairy staff last evening, at a miscellaneous shower given in honor of Miss Dorothy Fenwick, whose wedding takes place this month. The rooms in which the shower was held were prettily decorated in Hallowe'en fashion and bunches of autumn leaves and salvia.

Miss Pearl McCann, Keene, is in the city for the Teacher's Institute meeting.

Mrs. Andrew Walker, 303 Stewart street, left this afternoon for Calgary where she will vsit her daughter Mrs. Morse.

Dr. H. M. Yelland returned from Montreal to-day after attending the Clinical Congress of the American College of Surgeons.

Mrs. J. Hutchison, R. R. No. 2, Peterborough, wishes to announce that she will receive on Tuesday, 26th October, afternoon and evening—First Wednesday of every month. 3d-91

Mr. Joe Succes, Mrs. Charlie Stenton and Mrs. Robert J. Saunders spent Wednesday in Norwood with their only aunt and uncle, Mr. and Mrs. James Drury.

Miss Marjorie Cunningham of Weller street, is spending her vacation with friends in Toronto.

Mr. and Mrs. Chill Turner, Mr. Morriss, and Mr. J. J. Howden motored to Guelph yesterday.

PASSED A GOOD NIGHT.

(Canadian Press.)

LONDON, Oct. 14.—Lord Mayor of Cork passed a fairly good night, but was reported this morning as extremely weak. This is the sixty-third day of his hunger strike.

WEDDING BELLS

LEE—MOTHERAL.

The home of Mr. and Mrs. J. O. Motheral, Waterloo, was the scene of a quiet ceremony when their daughter, Norma Wilhelmine, was married to Albert A. Lee of Toronto, son of Rev. W. D. Lee, D.D., and Mrs. Lee, of Millbrook, formerly of Waterloo, the groom's father conducting the ceremony. The bride wore a navy blue broadcloth suit with squirrel trimmings, and a navy blue velvet hat to match, and her corsage bouquet was of Ophelia roses. After the ceremony a buffet luncheon was served and later Mr. and Mrs. Lee left for a honeymoon trip to Lake Rosseau, Muskoka. They will live at Gloucester Mansions, Toronto.

The First Essential

To get a pair of glasses which will satisfactorily correct the defects of your eyes, a thorough examination is the first essential.
It is because we make our eye tests so thorough that our service is so satisfactory.
Then when we fit you with the right **"Peblo"** Lenses, your eyesight becomes perfectly natural.

Over One Million Coal Miners In Great Britain Prepare For Big Strike

THE CABINET SUSPENDS SUGAR ORDER

ALL PARTIES CONCERNED MAY PRESENT VIEWS TO COUNCIL ON OCTOBER 20TH.

OTTAWA, Oct 15.—The Cabinet yesterday evening passed an order-in-Council suspending the order of the Board of Commerce fixing 21 cents as the price of sugar and prohibiting its importation. This Government suspension remains effective until Otobeer 20th, when all concerned will be given opportunity to present their views.

Hon. Doherty's View.

The decision of the Government was arrived at after a full consideration of the effect of the regulations passed yesterday by the board. This decision, which is contained in an order-in-Council based upon a report made by Hon. C. J. Doherty, Minister of Justice, sets out the view that the regulations passed by the Board of Commerce are very probably illegal, and that, whether strictly illega or not, they are of a character never intended by the legislation establishing the board. The view is further explained that they seem designed to effect a purpose wholly outside the board's authority.

For and Against.

On these grounds the Government has acted on its own motion, and has declared the order inoperative. In view of the very great importance of the question involved, opportunity will be given to all interested, for and against, to be heard by the Governor in Council if they so desire ,and Wednesday, October 20, at 10.30 a.m., has been fixed at the date of the hearnig.

The order-in-Council, after quoting the paragraphs of the Board of Commerce order, which would have had the effect of prohibiting the importation of refined sugar into Canada, proceeds to quote the opinion of the Minister of Justice, which forms the basis of the decision arrived at. It is in part as follows:

Board Has Not Power.

"The Minister observes that there arise on the face of the regulations embodied in said paragraphs questions of the gravest importance, among others that of the power of the board to enact these regulations. Upon consideration of these questions the Minister is convinced that the board had no power under the statutes applicable to it to make said orders or regulations, but even if the provisions of the statutes could by any ingenuity be construed as conferring upon it such power the Minister cannot conceve that such a construction would be in accordance with what was intended or contemplated by the Government in introducing or by Parliament when enacting the provisions of the Board of Commerce Act and the Combines and Fair Prices Act, 1919, nor that it was contemplated or intended the powers thereby conferred could or would be exercised in the manner they have been by the said orders or regulations, or for purposes such as those sought to be attained by the said orders and regulations; that is to say, so as to restrain, for the purposes of enhancing or maintaining prices, buyers or sellers of commadities from dealing with the public at large, and to limit them to buying or selling from or to only certain specified classes of the community, with the effect practically of prohibiting importation into Canada.

"The Minister is inclined to the view that said orders and regulations ought to be, in the exercise of the powers conferred by section 41 of the Board of Commerce Act upon your Excellency in Council, rescinded, but having regard to the grave importance of the questions involved as outlined above, on the one hand, and the serious consequence that even the temporary enforcement of said orders or regulations might entail on the other, he recommends that the said orders or regulations should not be operative until such time as a hearing can be had before your Excellency in Council at which all parties interested may be represented and heard."

Misconstrued Act.

The Minister of Justice states his conviction that the Board has misconstrued the Act under which it is operating, and believes the order should be rescinded. In the meantime the incident has had the effect of disorganizing the Premier's Western tour, which is postponed until after the hearing of the case on the 20th of October.

ARE YOU IN NEED OF GLASSES

Some folks say they can't tell whether they really need glasses or not. If you are in doubt at all about the matter, let a careful eye examination settle the questian for you. See W. H. Lacey, Optometrist, 410 George street. Open Wednesday and Saturday evenings.

Peterboro Road to Port Hope Will Be Finished Next Year

HON. W. A. M'LEAN, OF THE DEPARTMENT OF PUBLIC HIGHWAYS, GIVES THIS ASSURANCE—WORK IS WELL UNDER WAY.

The information given to the Examiner by Hon. W. A. McLean Deputy Minister of Public Highways, in an interview this morning that the Provincial Highway from Port Hope to Peterboro will be finished late next year will be of vital interest to the many hundreds of city dwellers, who have occasion to use this important artery and to the farmers in the adjacent district to whom the roads means much in increasing their land value and in providing them with a highway ensuring more speedy transport of their farm produce to the markets.

Hon. McLean pointed out that the amount of work done, the improvements made and the surface used would all depend on the requirements. No census of the travel on this artery this so far been made but Hon. McLean said that the need would all show itself later and be met.

Rebuilding Road.

In rebuilding the "Gravel" road, the minister stated that they would first put the highway in a reasonable state of repair. Then all culverts and bridges are built and following this a survey is made to determine the best surface. If it is impossible at once to put on the needed permanent top they keep the road in first class repair till such time as it is possible

Mr McLean stated that it had made itself apparent that a better roadbed was needed for a certain distance out of the cities where travel was heaviest. How far the heavier construction on the "Gravel" road out of Peterboro will be extended will depend solely on the traffic. This road was taken over by the department about the middle of August and this year they have only made a start on the work but users of the road declare it is already in a better condition than in years. Next spring the construction of culverts and bridges and the making of the roadbed will be begun and a large gang of men employed. A careful survey will be made of the acquirement but the road will be gravelled in all probability. It is hardly possible we will put a macadam surface on", replied Hon. McLean to the Examiner's query. 'They have not had sufficient drainage. That has been the great fault of the roads of Ontario" emphatically stated the minister, when asked if he considered the roads in the past had been built with an eye to the future. He added that the same was apparently true all over the continent and in the roads they are building they are ensuring perfect drainage.

Control of Roads.

Hon. McLean explained the control of the roads. The township roads are wholly under the control of the township councils, the county roads under the county councils and the provincial highways under the sole control of the government. All of the road work of the townships and counties, however, is subject to inspection by the department for them to get the provincial subsidy. The department do not assume the responsibility of the direct management of the work.

Lack of System.

Asked if he considered there had been a short sighted policy followed in these public works in the past, he said that there had been a lack of system and of far sighted policy on the part of municipal councils in mapping out these works that has made waste. They had not allowed for future expansion and the result was that the roads had to be torn up and rebuilt. The same was true in the planning of streets and parks which in the past had been given little regard.

"There is need of town planning and city planning if our future development is to be taken care of", he stated. Hon. McLean and his party return to Toronto to-day by motor. Hon. McLean has "killed two birds with one stone", in coming to Peterboro for besides bringing the assurance of good roads for this district to Peterboro he has inspected many of the construction works on the roads enroute.

W. A. M'LEAN ADDRESSED LOCAL ENGINEERS AT A MEETING LAST EVENING

DENIES CHURCH RIGHT TO ANNUL MARRIAGES

ANGLICAN CHANCELLOR ASKS PRESBYTERIANS TO SUPPORT BISHOP'S VIEW.

(Canadian Press.)

MONTREAL, Oct. 15.—A strong condemnation of ecclesiastical decrees which could make null and void marriages, legal according to the civil law of the land, was contained in an address, "The Marriage Laws of the Province of Quebec," by Dr. Davidson, Chancellor of the Anglican Diocese of Montreal, before a session of the Presbyterian Synod. Dr. Davidson explained clearly the conditions which exist to-day, mentioning specific instances where, through an ecclesiastical impediment, marriages had been annulled "ab initio," thereby reducing the children of such marriages to the status of illegitimacy and stigmatizing the women as adulteresses in the eyes of the church.

A law permitting the annulment of marriages "ab initio" was considered by the speaker to be worse than the divorce laws of any country, for these laws did not do away with the original marriage contract, though they annulled it for the future. The children were not wronged or branded for life as illegitimates.

The sacredness of the home, he asserted, was being violated, and the people of the Dominion could be sured of no safety as long as such marriage annulments were allowed. He also urged strongly that the Presbyterian church should support the stand taken by the Bishop of Montreal on the subject, or should take steps to place itself on record as being opposed to any interference with the rights and liberties of people by authorities who have no rights of jurisdiction under the civil laws.

YOUNG WOMAN WANTED FOR TEA ROOM. APPLY HOOPER'S CENTRE STORE. 3d90 3157

MR. HENRY HOLDGATE, OF MONTREAL, AND OTHERS PRESENT AT THE GATHERING—THE GOOD ROADS MOVEMENT.

Hon. W. A. McLean, M. E. I. C. Deputy Minister of Public Highways for the Province of Ontario with George Hogarth, M.E.I.C. Chief Engineer of the Department of Public Highways D. W. Bews, A. M. E. I. C. resident engineer of the department and F. H. Severn of the Provincial Motion Picture Bureau, Toronto, reached Peterboro by motor yesterday afternoon about five o'clock.

At 6.30 the Minister and his party were the guests at a dinner at the Impress Hotel of the local branch of the Engineering Institute of Canada at which over twenty of the members and affiliate members were present to do honour to Hon. Mr. McLean and to Henry Holdgate of Montreal, the prominent hydraulic engineer, who is here to determine the cause of the power shortage and who was a guest at the dinner. The engineers were presented to the Hon. Minister and his staff before the dinner.

The President.

R. H. Parsons president of the local branch of the E. I. C. was chairman of the evening. On his left at the main table sat Hon. McLean and on his right Mr. Holdgate Following the dinner there were very brief speeches by the chairman Hon. McLean, G. Hogarth, H. Holdgate and other engineers. The chairman introduced the Hon McLean in a very few words.

Protective Legislation

"I am happy to be here this evening more especially so as on the first occasion when I was asked to meet you I was unable to attend," said Hon. McLean. He referred warmly to the progressive influential branch if the Institute in Peterboro and declared with emphasis that the engineers needed more of this kind of co-operation. His brief remarks were of

(Continued on page 4.)

Dr. H. L. Paddon, senior colleague of Dr. Grenfell, of Labrador, who is accompanying the famous missionary on his present campaign to raise an endowment fund of $1,500,000.

Enquiry Started

INVESTIGATION INTO THE POWER BEHIND CLOSED DOORS.

The investigation into the power shortage will not be open to the press, Henry Holdgate, the engineer who is conducting the inquiry for the Department of Railways and Canals, told The Examiner yesterday afternoon on his arrival. Mr. Holdgate gave as his reason that the investigation was purely an engineering matter, not one of guess work, and as it would consist almost entirely of examining data and figures as to water levels and flow and power development, it would be impossible for the press to be present and fully report the proceedings.

Mr. Holdgate arrived on the 3.20 o'clock Canadian Pacific Railway train yesterday afternoon and went at once to the Trent Canal office, where he began an examination of the data as to water levels and flow in the hands of the canal authorities.

He told the Examiner when seen there that he would continue the investigation the following morning in the Board of Trade rooms where deputations from interests affected could interview him.

CHOICE OF THIS COLLEGE

WHERE THE HEINTZMAN & CO. PIANO IS IN DEMAND.

No capable teacher of the pianoforte will think of using a second-rate instrument in teaching. A good pianoforte has much to do with successful teaching. This is a point practically illustrated in all the leading Conservatories of Music. Take for example, the Toronto Conservatory of Music. This institution has a preponderance of pianos manufactured by Ye Olde Firme of Heintzman & Co., Limited, George and Hunter street, Peterboro—twenty three uprights and three Grand Pianos. Mr. Voght, Musical Director of this institution, has said: "It gives me pleasure to testify as to the superior quality of the Heintzman & Co., piano, now in use by me in my class at the Conservatory of Music. The pure and singing quality of the tone and the admirable evenness and elasticity of the action, as well as the artistic regulating and the fine finish in all parts of the instrument, are such as to reflect the utmost credit upon your house and upon Canadian skill and enterprise."

BRIDGE BY-LAW THURSDAY NEXT

THE BOARD OF TRADE WILL SUPPORT THE MEASURE.

Thursday next is the date set for the vote on the by-law authorizing an additional debenture issue of $130,000 for the completion of the Hunter street bridge and preparations are being made to poll a heavy vote. The Board of Trade intend to support the by-law and will marshal their forces and a fleet of motor cars to carry the ratepayers to the polls.

WHERE TO GO TO-NIGHT

GRAND—A big feature, "What Every Woman Learns."

ALLEN—'The Revenge of Tarzan.'

EMPIRE—Mary Miles Minter, a Cumberland Romance.

REGENT — William Russell in "Leave it to Me."

WATER STREET BOWLING ALLEYS.

TAKE NOTICE THAT LAW OFFICES IN THE CITY WILL CLOSE AT 3 P.M. EVERY SATURDAY.

6d-2-6-8-15-22-29-2944

Was There a Plot To Free Convicts In Kingston Prison

SENSATIONAL STORY THAT GUNS, NITRO-GLYCERINE, FUSES AND RIFLES WERE UNEARTHED AT OR NEAR PORTSMOUTH PENITENTIARY DENIED BY PRISON WARDEN.

Special to the Examiner.

KINGSTON, October 15. — Warden J. C. Ponsford, of the Portsmouth Penitentiary, interviewed this morning, says that there is nothing at all to the story sent out by the Canadian Press last night to the effect that a big find of arms had been found hidden in the penitentiary, and that only the closest vigilance had prevented a general jail delivery.

The Kingston Whig made enquiries at Ottawa and at the Superintendent's office and it was stated that the story sent out was regarded as fiction.

THE STORY AS TOLD.

The story in question was widely circulated yesterday to the effect that sensational and astounding discoveries of a master plot to make a general jail delivery from the Portsmouth Penitentiary and to blow the entire institution to atoms have just been made at the penitentiary.

According to the Kingston Standard, while the officials of the penitentiary refused to discuss the matter, it was learned that suspicion had been entertained of a plot for some time, and as the result of rigid investigation the discoveries were made. A general search was instituted and after certain portions of some structure were torn away several cans of nitroglycerine together with fusees, were found, while elsewhere a number of rifles and guns were unearthed.

It was also stated that the officials had knowledge that everything was not right in the institution and suspicions of a plot were entertained to such an extent that for several weeks four of the most notorious convicts in the penitentiary have been kept in close confinement, segrated from one another. Symondski, who in August, 1914, escaped from the penitentiary, and almost killed Guards Dowsley and Tatten, and who was apprehended again at North Bay; "Cigarette" Brown, a notorious criminal; Wash Kalis, who was so dangerous that he was sent from Edmonton to the Portsmouth Pententiary for safe keeping, and a prisoner named Johnson, are the four prisoners who have been kept in confinement, and the most rigid investigation is being held.

Analyze Contents of Cans.

The report, which to-day is denied, also declared that Warden Ponsford would not make any statement regarding the reported discovery of a number of cans of nitroglycerine with fuses attached and some rifles hidden under some old structure within the walls of the Provincial Penitentiary at Portsmouth, and whose recovery is reported to have suggested an attempted delivery of prisoners. A sample of the contents of the cans has been sent to Queen's chemical laboratories for analysis but it is not announced what the analysts found the liquid to be.

OVER ONE MILLION COAL MINERS READY TO THROW DOWN TOOLS ON MONDAY

BRITISH GOVERNMENT HAS ISSUED AN ORDER PROHIBITING THE EXPORT OF COAL—READY FOR THE BATTLE.

(Canadian Press)

LONDON, Oct. 15.—Unless some unforeseen intervention developes more than one million coal miners throughout Great Britain will be on strike Monday and the country's all important coal industry will be paralyzed. This decision was reached this morning at a conference of the miners' delegates who announced that in view of the Government's unsatisfactory reply to the miners' claims for increase in wages there was nothing left to do but strike. It was announced that some of the men in the engineering departments would remain at work to keep the mines in order. Coincident with the strike decision came announcement that the Government had placed a ban on the export of coal, which move will have far-reaching effects in neighboring countries, more or less dependent upon Great Britain for their supplies.

The question whether railway men would unite with miners was the subject of deep public concern to-day, but no indications as to its course was forth coming from the railway union. The government has made every preparation to cope with the situation, maintain food supplies and provision of other necessaries, and no fear is expresed of food shortage in the immediate fuutre.

YOU WILL DO BETTER IN PETERBOROUGH

IF YOU BUY YOUR LADIES', GENTLEMEN'S AND CHILDREN'S CLOTHING AND MILLINERY AT P. BLACK'S.

Hundreds of people are saving their money. Why not you? Below are just a few of the wonderful bargains for Saturday Specials:

Ladies' Gloves white or black, 39c.

Ladies' heavy or lisle hose, 39c.

Men's all wool heavy socks, 39c

Girls' pleated Skirts, all wool serge navy, $3.98.

NOT ENOUGH ATTENTION OFTEN PAID HISTORY

DEAN PACKENHAM SPEAKS TO OXFORD TEACHERS' INSTITUTE.

WOODSTOCK, Oct. 5.—More than 200 county teachers met here yesterday at the sixtieth annual session of the Oxford Teachers' Institute. Miss E. L. Houston of Plattsville, the first lady teacher to be honored with the Presidency, was in the chair. Dean W. Pakenham of the University of Toronto Faculty of Education spoke on "History in European Schools," explaining the systems employed. History is a comparatively new subject, he said, and one to which insufficient attention is paid in many cases. J. H. Putnam, Senior Inspector of Public Schools in Ottawa, addressed the convention this evening. The resignation of Wm. Munro of this city, who has been Secretary-Treasurer since 1897, on account of ill-health, was received. Many complimentary things were said about his services.

SATISFIED WITH BRIDGE PROGRESS

BRIDGE WILL BE OPEN FOR TRAFFIC EARLY NEXT YEAR.

H. L. Seymour, of Toronto, representative of Frank Barber, stopped in the city on his return from Ottawa to-day to see what progress is being made on the bridge. He expressed himself to The Examiner as highly satisfied. The pouring, he said, is being carried forward at a faster rate than was expected, due to the exceptionally fine weather.

In regard to the contractor's statement that the bridge would in all probability be open for traffic by the early part of next year, he said that he saw no reason to doubt it.

DIPTHERIA AT OSHAWA.

A serious outbreak of diphtheria has occurred in the south-east district of Oshawa, 14 cases having already been reported to the health authorities, resulting in one death.

THANKSGIVING DAY ON STONEY LAKE.

ON MONDAY, OCT. 18TH, (THANKSGIVING DAY) STEAMER ISLINDA WILL LEAVE LAKEFIELD ON ARRIVAL OF MORNING TRAIN AND WILL LEAVE LAKE TO CONNECT WITH 4.40 P.M. TRAIN. 2t

PLEAD WITH SOCIALISTS JOIN "REDS"

CHIEF OF SOVIET RUSSIA MAKES PLEA FOR A WORLD REVOLUTION.

(Canadian Press.)

HALLE, Germany, Oct. 13.— For fully four hours last night Zinovieff, chairman of the executive committee of the third international and one of the four big chiefs of Soviet Russia, pleaded with Independent Socialists at their convention here to join with Moscow, create a revolution in Germany and help carry out the proletariat programme for world revolution. At the conclusion of the Russian's address the radicals of party and the audience in packed galleries stood with bared heads singing the "Internationale," while Conservatives walked out of the hall. A great ovation was then accorded Zinovieff with many "hocks" and cries of "Long live the Internationale" and waving of hats. It is expected a vote as to whether Independents will adhere to the Moscow organization will be taken some time to-day.

Throughout his impassioned argument the Russian orator was the storm centre of cries of approval from the left wing in his audience, followed by biter words from the right. At one time he charged German Labor unions with being "no better than Noskes' white guards." The entire audience hissed its disapproval and many right wing leaders, with shaking fists raised to the rostrum, threatened the speaker and demanded retractions.

G.W.V.A. AUXILIARY MEET AT TORONTO

ENTHUSIASTIC ATTENDANCE—LOCAL LADIES PRESENT.

The Provincial Command of the Woman's Auxiliary of the G.W.V.A. met at Toronto yesterday in commendable strength. Representatives from all over Ontario were present—from as far east as Brockville and as far north as the Soo.

Considerable business was transacted. Keen enthusiasm and forceful patriotism, together with a splendid time generally, are reported by all concerned as characteristic of this splendid convention of Canada's womanhood.

The delegates from Peterborough were Mrs. W. R. Morris, president of the Provincial Command, Mrs. Jos. Mills, and Mrs. McLeod.

ELLIOT'S STORE

OFFICERS ELECTED FOR COMING YEAR

INTERESTING ADDRESSES AT THE TEACHERS' CONVENTION.

At the afternoon session of the Teachers' Institute, which is being held in the Public Library, the officers elected for the ensuing year were:

President—Miss Runnings.
Vice-President—Mr. M. H. Park.
Sec-Treas—Miss Walker.
Executive Committee — Miss Halpin, Miss Buck, Mr. Brown, Mr. Bolton, Mr. Mowat.
Committee on Reading Course — Mr. Wightman, Miss Cadwell, Miss Caldwell.
"Social and Athletics" Committee—Mr. Munro, Mr. Kerr, Miss Thompson, Miss Rae, Miss Burges, Miss Bonnycastle.
Auditors—Mr. Mattice, Mr. Wagar.

Instructive Address.

Mr. J. P. Cowles, Provincial School Attendance Officer, gave an interesting and instructive address along the lines of the necessity of regular school attendance for efficiency in education.

School attendance, he said in part, should be compulsory in order to promote efficient education. In a democracy the masses must be educated as well as the classes. Some communities do not, in their actions, accept the principle of compulsory education. These believe in free education nevertheless.

There is a great impetus along the lines of education at present. Schools are crowded, not only here, but also in Europe. The speaker referred to conditions in France. France, during the war, restricted fuel, food, light, but never gave up her schools or processes of education. England, during the stress of war, brought forth the Fisher Bill to promote matters of education. All great labor leaders also are emphasizing education. They demand equality of opportunity and compulsory attendance at school. If not educated the labor element is subject to be exploited by agitators. Child labor is cheap and not too satisfactory.

Educational Advantages

The welfare of the country economically depends on educational advantages. The earning power of educated nations is greater than that of others. The wealth per capita is greater also. Nations as England, Germany and France are in advance of nations as Russia and Spain in wealth and productive power. Canada loses large sums annually from a lack of education or advanced education. One person educated produces much more than a host of barbarians can possibly be expected to.

The School Attendance Act was passed without opposition. The new government concurred in the act. The act simply tightened up the old Truancy Act. Pupils from 8 to 14 must attend school. Pupils enrolled from 5 to 8 years must attend during the term for which they were enrolled. Attendance officers are appointed in cities and teachers must report absentees to him. In rural sections the attendance is still under the control of the township councils. If pupils do not attend after warning, the officer must take the matter to the courts. A card is being planned for the province to detail the attendance and conduct of a child all through his school course. This is intended to help in tracing pupils who move around from place to place.

Canada was not the pioneer in raising the age limit as in the Adolescent Act, which says pupils must attend school up to sixteen years of age. Life is more complex these times and so extensive education is demanded. A boy of fourteen is not able to choose an occupation for himself. They are apt to be misfits. A boy of fourteen has not learned to discipline and control himself. Adolescents from 14 to 16 must attend school beginning September 1st, 1921. Those from 16 to 18 must attend part time beginning September, 1923.

The Exceptions

Certain exceptions are allowed as physical deformity, passing matriculation, where services in some satisfactory employment are required for maintenance of parents.

All the facts necessitate a complete census of municipalities. In New York there is a daily continual census. All carters have to report all moves in the city. A census is thus kept up-to-date. Similar things will have to be done here. The law will probably be amended so that assessors will have to keep track of the ages of all people within school age. It is probable that pupils who have left school already will not be brought back if they are in gainful occupations.

Juvenile Crime

Juvenile crime bears a distinct relation to irregularity of attendance. The records of the boys at the industrial school at Mimico proves that the first step in crime begins in irregularity. The regular routine of school life promotes control amongst boys but when that is lacking boys do not develop this quality.

Public Libraries

Miss A. Halpin, the next speaker, dealt with work in public libraries, first describing the inner working of a library, and the great amount of work to be done by the librarian. She showed the labour required to choose the books, examine them after they are received, classify them, catalogue them, etc.

Miss Halpin then referred to the great value of a public library in educating the masses and especially the children. Children are more easily impressed than adults and the impression is more often lasting.

Her address was followed by a much apreciated solo by Miss Doris Pilling.

Delegate to O.E.A.

In a report of her visit to the O.E.A., in April last, Miss Tobin gave an interesting review of papers read at the convention by Mrs. Courtice, Dr. Clark, Dr. Bruce and others. She spoke of the formation of the Men Teachers' Federation and of a discussion of the Salary Circle, by Mr. Charles G. Fraser. Dr. Cody's address was also reviewed by the speaker.

Miss Walker also made a brief and interesting report of her visit to the O.E.A.

She emphasized the value of the attendance of so many teachers at the association. It has a broadening effect for teachers to come in contact with people from various parts, and hearing new ideas expressed.

She gave a resume of the addresses by the new Minister of Education, the president of the Association, Mr. Moore, President Hutton, of Toronto University, Professor Artman of Chicago University, Rev. A. Robb and Miss Marty.

These all stressed the importance of the teachers to the community and dealt with matters that will make them better and more progressive.

The salary and superannuation problems also received their due attention as rewards should be adequate in consideration of the claims put on the teacher.

A discussion dealing with the points brought up in these reports then took place. There is a distinct feeling amongst the teachers that forty years is a long time to serve in order to share adequately in the superannuation.

Some teachers think also that the widows of deceased teachers ought to share in the superannuation.

DEPOT REGIMENT C.M.R. ANNUAL RE-UNION

The second annual re-union of the depot regiment, C.M.R., will be held at the Royal Connaught Hotel, Hamilton, on October 29th at 6.30 o'clock, and it is expected that several Peterborough veterans of the corps will be on hand as they were last year. The regiment, a squadron of which was recruited in M. D. 3, had several Peterborough men in its ranks, as well a few holding commissions, from the 3rd P. W. Dragoons. Those who will be on hand at the re-union are asked to write Capt. Stewart Chambers, Chambers & Co., Spectator building, Hamilton, before Oct. 22nd.

AUTOS COLLIDE.

LINDSAY, Oct. 15. — Two cars came together at the corner of Kent and William streets Wednesday night. One car was driven by a girl and it crashed into the other car, which suffered the worst damage. A tire bursted, the front axle bent and the springs damaged.

Notice to Creditors

IN THE SURROGATE COURT OF THE COUNTY OF PETERBOROUGH.

IN THE MATTER OF THE ESTATE OF WILLIAM C. GOWAN, LATE OF THE CITY OF PETERBOROUGH, IN THE COUNTY OF PETERBOROUGH, AND PROVINCE OF ONTARIO, DENTIST, DECEASED.

NOTICE IS HEREBY GIVEN, Pursuant to the Revised Statutes of Ontario, Chapter 121, Section 56, that all Persons having CLAIMS against the Estate of the said WILLIAM C. GOWAN, Deceased, who died on or about the Fifteenth Day of Septemaer, A.D. 1915, at the said City of Peterborough, intestate, are required to send by post prepaid or to deliver to the undersigned Solicitor for Aylesworth Gowan, of the said City of Peterborough, Widow, the Administratrix of the said Estate, on or before the First Day of November, 1920, their names and addresses, full particulars of their Claims, and the nature of the security (if any) held by them respectively, duly verified Statutory Declaration.

And after the said last-mentioned date, the said Administratrix will proceed to distribute the Assets of the Deceased among the Parties entitled thereto, having regard only to the Claims of which she shall then have notice, and she will not be liable for the Assets of the said Estate, or any part thereof, to any Person or Persons of whose Claim notice shall not have been received by her at the time of such distribution.

Dated at Peterborough, Ontario, this 20th Day of September, A.D. 1920.

A. E. DIXON,
397½ George Street, Peterborough, Ont.,
Solicitor for the said Administratrix.

STOP LOOK and LISTEN

before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.

MAGIC BAKING POWDER

Contains No Alum

Overland Prices Down but Quality Stays Up

On October 1st, reductions of from $100 to $375 were made in Overland and Willys-Knight prices. Further fuel-saving devices are among the various improvements to the new Overland that has already so many Economy records to its credit—32.6 miles to the gallon on its 3000-mile Coast-to-Coast trip, 30¼ miles average among 191 cars in the United Kingdom one-gallon test, and scores of 25 to 35 miles to the gallon on tests by Canadian owners. Triplex Springs and fine alloy steels are the secret of Overland's operating economy.

New Overland prices—touring and roadster $1315.00, coupe $2040.00, sedan $2200.00—are for cars completely equipped, f. o. b. Toronto, including excise and sales taxes.

Overland

The Monthly Cheque

That Never Fails

How the Money was Lost

"You see I had only a few thousand dollars left after the estate was settled—

and my brother borrowed some to help him along; of course *that* went and then—

I simply *had* to help father with his business, he was so worried—

and I thought it best to invest something in real estate at once. Well, *that* failed—

and, really, if it were not for the monthly income cheque from the Canada Life I don't know how I should be getting along now."

It is all so simple and effective!

Just a few dollars set aside regularly, and the Canada Life will guarantee to your home a continuous monthly income.

What a relief to know that no matter what may happen, the monthly cheque that never fails, issued regularly by the Canada Life, will come to *your* home!

Your present Life Insurance will no doubt "clear the mortgage," pay off the obligations of your estate, and leave something for your family, but

Consider This

In addition to a "lump sum" of money, you should provide a definite *income* that cannot fail.

A weekly or monthly income is the natural thing for most people.

A woman can keep a family together on even a small income, provided it is *regular*.

Financial problems should not be thrust upon a woman who is not used to business deals.

The hands of unscrupulous men are always outstretched for money held by the unwary.

The Monthly Income Plan

You will be surprised to learn what a reasonable proposition can be made to you; how only a few dollars saved and set aside from your regular earnings can be multiplied into a substantial income for your Beneficiary.

"Peterborough Presents Possibilities Unsurpassed."

FRIDAY, OCTOBER 15TH, 1920.

ANOTHER CRISIS.

Once more the labour situation in Great Britain is approaching a crisis. The long-threatened strike of the coal miners, narrowly averted on several occasions, is announced for Monday unless some new turn of affairs again prevents what will be nothing less than a national calamity. The negotiations carried on during the last few weeks seeking to settle the difficulty have completely failed and the miners have rejected the basic lines of production offered by the owners, beyond which an increase of wages would be granted, by a vote of 635,098 to 181,428. Following this vote it has been announced that the strike notices would be allowed to expire to-morrow and that on Monday the strike would materialize. There had been a general feeling that the miners would again suspend action until further mediation had been attempted and the refusal to do so brings the difficulty to a head. The outlook is even darker than it was last month.

SAFETY FIRST.

Much has been published in the newwspapers of Canada during the present week to impress upon the public the necessity of taking every precaution to avoid accidents. Editorials, news paragraphs, cartoons, photographs and advertisements have been lavishly used in the publicity campaign in conection with safety week and good advice has been offered on every hand. No fault is to be found with the manner in which the publicity work has been carried out, but after all the success or failure of the effort depends altogether upon the public. Advice, no matter how good or how plentiful, is of no avail unless acted upon. If the people have absorbed and will carry out one quarter of the instructions they have received during this week, there should be an appreciable decrease in the number of accidents recorded, for undoubtedly the majority of these mishaps are the direct result of carelessness and neglect. There is room for great improvement and it is to be hoped this week's effort will be crowned with the success it deserves.

THE BOARD OF COMMERCE.

The storm or protest that followed the order of the Boardof Commerce fixing the price of sugar for the benefit of the refiners, has once more brought that body before the eyes of the public and the question is being asked, as often in the past, "What has the Board of Commerce done to protect the consumer?" The answer may be given in two words, "Practically nothing." The new Board, composed of Capt. Wm. White, Ottawa, chairman, F. A. Acland, Deputy Minister of Labour, and Commissioner G. A. P. Dillon, Purchasing Agent of the Department of Justice, appointed in July after the former commissioners had resigned, has apparently made no attempt to complete the investigations opened by the old Board nor has it accomplished much on new lines. It is true that an order was issued restraining the producers from raising the price of milk. The ultimatum was issued with a flare of trumpets, but before the echoes of the fan fare had died away a deputation of the producers had visited Ottawa and succeeded in securing a suspension of the order so that once more the consumer had to take second place. There has been little accomplished, indeed, in the interest of the public and the sugar order will result in a general demand for the heads of the commissioners.

Probably, however, the secret of the whole failure of the old and the new Boards to deal effectively with the high cost of living is contained in the famous letter sent to Sir Robert Borden by Mr. James Murdock ,member of the former Board, in which he said:

"I am convinced that the majority of the cabinet, of which you are the honoured leader, are not and have never been in sympathy with the provisions and intent of the Board of Commerce Act and the Combines and Fair Price Act."

THE LEAGUE THE ISSUE.

In these last weeks of the Presidential battle in the United States it is becoming clear that the position of the Republic towards the League of Nations is to be the chief issue in the contest. In some degree it has been a leading issue throughout the campaign, but in both political parties there was an inclination to adopt what Theodore Roosevelt would have called "Pussyfooting." A Democratic President had been one of the principals in the preparation of the League scheme. Therefore the Democrats from the beginning had to recognize their responsibility for it. A Republican Senate had refused to ratify the treaty of which the League was a part. Therefore the Republicans had to stand before the country as opponents of the League. But on both sides there was a disposition to approach the subject cautiously until the trend of public opinion could be ascertained. Of course, some cautious Democrats said, they were favorable to the treaty, but they did not wish to take an extreme position in support of it. If reservations could be devised which would make it clearer, without in any way impairing its force, they could be considered. On the Republican side there was a similar hesitation. The cautious Republicans said they had opposed the treaty, but perhaps it could be made acceptable by reservations, etc., etc. They pointed out some eminent Republicans—notably Mr. Taft—had approved of the treaty. So, of course, they must not be considered as irreconcileable opponents.

This was the attitude of the two parties in the early weeks of the campaign. Both were apparently reluctant to make the League the dominant issue. Both were willing to direct the attention of the people to other matters. But in the present stage of the battle it has become evident that attention is to be concentrated more on the League and the electors are to be asked to make it the main question. The Democratic managers have called for the help of President Wilson, who will give it only on the condition that the League is kept to the front in the fight. The Republican managers, alarmed by the threatened defection of Senators Borah and Johnson, have required Mr. Harding to take a firm stand. Thus both Presidential candidates find it necessary to make clear-cut declarations. "I am against the League" said Mr. Harding in one of his latest speeches. At Nashville, Tennessee, Governor Cox recognized the challenge and accepted it. "Senator Harding," said Mr. Cox, is against the League; I am for it." The "Pussyfooting" on both sides has ceased. The issue is to be squarely faced. Are the American public for the League of Nations or against it? This is the main question to be answered at the polls next month.—Journal of Commerce.

PRICE OF COFFEE WILL BE REDUCED

BY JANUARY TEN CENTS A POUND WILL BE DROPPED.

MONTREAL, Oct. 15.—Coffee is coming down, say the importers. The housewife will notice a slight difference in the price of the fragrant beans in November, followed by a similar decline in December; and by January ten cents a pound will have been taken off the present price, if the retailer does his part in passing on the reduction. J. Anderson, manager of Chase and Sanborn, Ltd., states that the lowering of the value of coffee was due to the cheapness of the raw product in Brazil, which this year sold for the same figure as before the war. The very cheapest grades could be obtained for eight cents a pound, but these were not sold in Canada. The best Brazilian coffee went for fifteen cents, but it took six months for the beans bought to reach Montreal, and the low-priced article was only purchased in July.

Therefore, Canadians wouldn't have the full benefit of the drop until January. The high cost of coffee now was attributed as partly due to the Government tax of five cents a pound which is imposed. The cost of this article, said Mr. Anderson, has only gone up twenty-five per cent. during the war, and will therefore not drop as much as other commodities which have advanced seventy-five and a hundred per cent. Mr. Anderson said that the coffee sold in this country was not Brazilian coffee, but a mixture of beans from that country and the East Indies.

WAITING FOR GOOD WEATHER.

REVEL STOKE, B. C., Oct. 15.—Trans-Canada airplane to hop off soon as the weather clears.

A. M'LEAN ADDRESSED LOCAL ENGINEERS AT MEETING LAST NIGHT

(Continued from Page 1.)

interest from the engineers viewpoint. He spoke of the need for protective legislation for the engineering profession. "I believe if there is co-operation, success will be ours. I wish you every success."

The ministers abbreviated message to the engineers was warmly applauded.

George Hogarth of the minister's party, also commended the Peterboro branch on the advance made during its first year and the many activities they had carried to a successful completion. He was emphatic of the need for legislatian.

Engineering Centre

Mr. Henry Holdgate's words were fewer than the members expected and he confined them entirely to the work of the Engineering Institute. "As to legislation", he said, 'my own opinion is that you want to go slow on that. For many years I was opposed to it." However, he declared he was gradually coming around. Opposition from him he declared came because legislation proposed was too drastic. He spoke of Peterboro favourable situation as an engineering centre. He wished the local branch continued success.

Mr. Parsons replied thanking the engineers for their good wishes and he advised the Montreal member that they were taking his advice and "going slow" but added that that did not mean that they were not working for it. The chairman, at this his first opportunity expressed his thanks for his election to the highest office in the local branch.

To the Deputy Minister of Public Highway Mr. Jas. Mackintosh expressed on behalf of the Engineers their commendation of his requiring the forty or fifty engineers supervising the highways program to be qualified engineers.

Good Roads.

The engineers adjourned to the Board of Trade rooms, where the Ministers' address on the Good Road's program illustrated with motion pictures and lantern slides was given. Not only were there many engineers heard the address but representatives of every class and industry were there. Mayor McIntyre, several aldermen, Warden Nicholls of the County, with two or three councillors supporting him, city and county officials and several interested citizens were in the gathering.

Necks were craned eagerly forward when the Chairman R. H. Parsons asked Henry Holdgate to say a few words. He spoke of the object of his visit and with a smile added that he had already given the engineers advice He had met engineers from both sides he said and advised them to pray earnestly for rain, but he went on jocularly to say that he didn't think they had enough faith to raise the Otonabee that much!

Help both Sides.

"I don't know that I can say very much, only this." His instructions from the Department of Railways and Canals is that they take no fixed stand. They want to help both sides he said. "I hope with the aid I am going to get from both sides, and the data which so far as I have seen, has been well kept, the outcome will be all right."

Hon. Mr. McLean.

"I am I find blamed for all the bad roads of Ontario and that you can understand at the present stage is carrying a pretty heavy load. The roads of Ontario are a wide topic." Thus Mr. McLean opened an address that from every viewpoint was enlightening, not only to the layman but to the graduate engineer. "Taking only Southern Ontario into consideration, we have about 45,000 miles of road. It can be shown that 20% of these roads carry 80% of the traffic—that is 8,000 to 10,000 miles are the most heavily travelled and serve the most people—farmers as well as urban centres."

He told how these roads had been formerly cared for and of the beginning of the Good Roads programme covering these 8,000 to 10,000 miles. Of these 1800 miles are Provincial highways. To the county roads the province pays 40 to 60%. On the provincial roads the counties through which they pass contribute 20%. The rest the province pays with the exception that recent Dominion legislation contributed 6,000,000 towards the cost of construction or 40%.

Townships will Help.

"This year," he said, "we expect that the townships will pay $2,000,000 on highways, the counties $7,000,000, and on provincial highways the government will spend $4,000,000. These appropriations, he went on, were made from the revenue from motor vehicle licenses.

Ontario, he declared, deserved and needed good roads because it was such an agricultural province.

"The people of Ontario are knockers of good roads and do not appreciate what they are doing for them," stated the Minister. He pointed out that the roads now being built would have many branches and not be only main line arteries like the American roads. There were just as bad roads there as here, he said. "So I say we have 10 miles of surface roads in Ontario to one mile in other states and elsewhere. At present 3,000 men are working on country roads and an equal number on the provincial highways," he said. He detailed the numerous provincial highway roads. He dwelt on the importance of building these roads on a strong foundation, and draining them properly. Much of the expenditure of the past has been for inferior construction, he declared. The same fact he declared was true of all municipal undertakings in Ontario for years past. "We are not paying for the service we are getting to-day but for the inferior way these things were handled in days gone by," was a final shot at the mismanagement of public affairs a generation ago.

Motion Picture.

The motion pictures illustrating the many operations in the construction of different kinds of roads, with many slides and diagrams, were shown and explained by the speaker.

The type of road being built was shown and dwelt on clearly. He pointed out the foresightedness being shown in building a road that could be gradually made permanent, while all the time providing a first class highway. He said that by the end of next year he expected the county provincial road from Port Hope to Peterboro would be constructed.

Only Constructed.

"We have only started to build roads in Ontario. What we need as much as stone and cement is cash.

In concluding he asked the people to show patience and not expect, as some Americans had, that the after the appropriation was made, the highway would be there.

The chairman thanked Hon. Mr. McLean for his excellent address and called on Warden D. Nichols for a short commentary on good roads.

Mr. Nicholls referred to the information given in the address and said that the county was going ahead with their programme although they were a little short of funds.

Reeve J. McIntosh referred to Peterboro finally taking up the stand for Good Roads, and Mayor McIntyre spoke his appreciation of the information given in the Minister's remarks and of the excellent illustrations shown.

Mr. C. R. Banks, president of the Peterboro Motor League, commented warmly on the scheme for better roads.

EGGS AND POULTRY

Toronto current receipts were very light, and prices unchanged. Poultry receipts were heavy, market easy at decline. At Montreal warm weather has brought forward a good supply of fresh gathered which sold at 64-66. Demand is good for specials at 75; extras 68, firsts 60. Chicago, current, firsts 57-58 1-2. New York no change. Export demand is dull.

Sore Throat

Coughs, Colds, Croup, Catarrh Relieved in Two Minutes

Is your throat sore?
Breathe Hyomei.
Have you catarrh?
Breathe Hyomei.
Have you a cough?
Breathe Hyomei.
Have you a cold?
Breathe Hyomei.

Hyomei is the treatment for nose, throat and lung trouble. It does not contain cocaine, morphine or other dangerous drugs and does away with stomach dosing. Just breathe it through the little black pocket inhaler that comes with each outfit.

A complete outfit costs but little at any reliable druggist and Hyomei is guaranteed to banish catarrh, croup, coughs, colds, sore throat, and bronchitis or the money back. A Hyomei inhaler lasts a lifetime and extra bottles of Hyomei can be obtained from druggists for a few cents.

MI-O-NA Ends Indigestion

It relieves stomach misery, sour stomach, belching and all stomach disease or money back. Large box of tablets 75 cents. Druggists in all towns.

IOWA FARMERS BURN CORN INSTEAD OF COAL

A Fairy Story From the Iowa Corn Belt.

With soft coal at $22.50 a ton delivered at the farm, Iowa farmers will use a large percentage of this year's corn crop for fuel, declared President Howard, of the American Farm Bureau Federation. The farmer receives net 55 cents a bushel for his corn.

"A bushel of corn averages about seventy pounds. The farmer receives about 55 cents a bushel for his corn at the elevators when freight charges and other incidentals are deducted. This brings the price of corn on the ear to about $15.75 a ton. Corn possessess the same amount of heat units as coal. The Iowa farmers have come to the conclusion that it is much cheaper to burn their corn instead of soft coal this winter."

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child ($1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

NORWOOD FAIR PRIZEWINNERS

(Continued from Page 3.)

Beans, yellow field—1, A. Humphries; 2, W. D. Lennox; 3, W. J. Campbell.

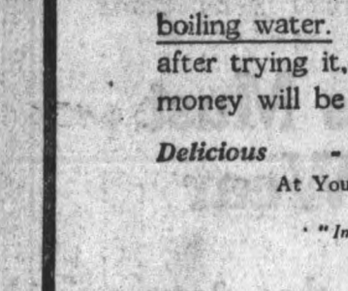
Ten ears dent corn named variety—1, Dunham & Son.

Ten ears flint corn—1, J. McCoy, Norham; 2, G. Hutchinson; 3, W. D. Lennox.

Ensilage corn—1, Dunham & Son; 2, W. J. Campbell; 3, P. McConnell.

Red Clover Seed—1, E. Terrill; 2, E. Stillman.

Timothy Seed—1, E. Stillman; 2, E. Terrill.



The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous a method to force the weight down. However, in Marmola Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or violent exercise, and have the added advantage of cheapness. One little tablet after each meal and at bedtime—as pleasant to eat as candy—will reduce your weight two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by druggists at the reasonable price of one dollar, or if preferable they may be obtained by sending the amount to the Marmola Co., 94 Garfield Building, Detroit, Mich. They will reach you by mail, prepaid, in plain, sealed cover.

Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

Potatoes.

Early Ohio—1, J. McCoy; 2, T. E. Rorabeck.

Rural New Yorker—1, T. E. Rorabeck.

Irish Cobbler—1, A. Humphries; 2, Barrie & Son; 3, C. O'Reilly.

Green Mountain—1, H. Dafoe; 2, R. T. Greenbank; 3, Barrie & Son.

Any other variety, white—1, S. McMillan; 2, Barrie & Son; 3, E. Stillman.

Any other variety, colored—1, T. E. Rorabeck; 3, J. McCoy.

D. Barrie's special prize for Green Mountains—1, H. Dafoe; 2, R. T. Greenbank.

Field Roots.

Turnips, Swede—1, H. McMillan; 2, A. Humphries; 3, F. C. Hendy.

Turnips, Greystone—1, Dunham & Son; 2, W. C. Brackenridge.

Turnips, white globe—1, W. C. Brackenridge; 2, Dunham & Son; 3, H. Cuthbertson.

Turnips, any new variety—1, F. C. Hendry; 2, Mrs. W. Comstock; 3, Dunham & Son.

Mangels, long red—1, R. S. Fennell; 2, Dunham & Son; 3, A. Townsend.

Mangels, intermediate red—1, R. S. Fennell; 2, Dunham & Son.

Mangels, long yellow—1, J. McCoy; 2, J. Williamson; 3, H. Cuthbertsaon.

Mangels, intermediate yellow—1, Dunham & Son; 2, A. Townsend; 3, H. Cuthbertson.

Mangels, yellow globe—1, W. E. Matthews, Centre Dummer; 2, A. Townsend.

Sugar beets, red top—1, A. Townsend; 2, Dunham & Son; 3, T. E. Rorabeck.

Sugar beets, Danish—1, H. Cuthbertson.

Sheaf oats—1, N. King, Havelock; 2, Barrie & Son.

Carrots, white Belgian—1, Dunham & Son; 2, W. J. Campbell.

Carrots, white intermediate — 1, Dunham & Son; 2, A. Townsend; 3, J. McCoy.

Cattle squash—1, W. J. Campbell.

Yellow pumpkin, mammoth—1, W. J. Campbell; 2, J. McCoy.

Common yellow pumpkin—1, J. McCoy; 2, F. C. Hendy; 3, G. Hutchinson.

Garden Vegetables.

Directors—Messrs. A. Knox, T. Dunham and D. Barrie.

Celery, giant—1, A. Townsend.

Celery, dwarf—1, A. Townsend.

Beets, turnip blood—1, Barrie & Son; 2, J. McCoy; 3, Dunham & Son.

Carrots, early horn—1, T. E. Rorabeck; 2, Dunham & Son; 3, R. S. Fennell.

Carrots, intermediate—1, Dunham & Son; 2, T. E. Rorabeck; 3, W. D. Lennox.

Tomatoes, red—1, E. Terrill; 2, W. J. Campbell; 3, A. Townsend.

Tomatoes, yellow—1, W. J. Campbell.

Tomatoes, largest and best collection—1, R. T. Greenbank; 2, W. J. Campbell.

Salsify—1, R. T. Greenbank.

Cabbage, summer—1 N. King, 2 R. T. Greenbank; 3, Dunham & Son.

Cabbage, winter—1, E. Terrill; 2, N. King; 3, Dunham & Son.

Cabbage, savoys—1, R. T. Greenbank; 2, W. J. Campbell; 3, T. E. Rorabeck.

Cauliflower—1, N. King.

Roots, parsnips—1, W. J. Campbell; 2, R. T. Greenbank; 3, A. Townsend.

Onions, red, from seed—1 J. McCoy; 2, R. S. Fennell, 3, Dunham & Son.

Onions, yellow, from seed—1, J. McCoy; 2, N. King; 3, Barrie & Son.

Onions, white, from seed—1, J. McCoy; 2, R. S. Fennell.

Onions, English, potato—1, J. Williamson; 2, W. J. Campbell; 3, Mrs. J. M. Wright.

Onions, pickling—1, W. J. Campbell.

Peppers—1, W. H. Puffer; 2, W. J. Campbell; 3, Barrie & Son.

Peppers, collection—1, W. J. Campbell; 2, R. T. Greenbank.

Pop corn—1, R. T. Greenbank; 2, J. McCoy; 3, Barrie & Son.

Squash, summer or fall varieties, for table use—1, W. J. Campbell.

Squash, winter hubbard, for table use—1, J. McCoy; 2, W. D. Lennox; 3, A. Townsend.

Water melons—1, G. Hutchinson; 2, E. Terrill.

Musk melons—1, E. Terrill; 2, W. J. Campbell.

Citrons, for preserving—1, G. Hutchinson; 2, A. E. Wilson; 3, W. J. Campbell.

Garden herbs, largest and best collection—1, W. D. Lennox; 2, R. T. Greenbank.

Garden vegetables, largest and best collection—1, R. T. Greenbank; 2, W. J. Campbell.

Domestic Manufactures.

Pair knitted socks, coarse—1, Mrs. W. Comstock; 2, E. Terrill.

Pair socks, fine — 1, Mrs. S. A. Lockwood, Belleville.

Pair knitted gloves, plain—1 Mrs. J. M. Wrignt, Havelock.

Pair knitted gloves, fancy—1, Mrs. Lockwood; 2, E. Terrill.

Pair knitted woollen mitts, plain—1, Mrs. Lockwood; 2, E. Terrill; 3, Mrs. Comstock.

Pair knitted woollen mitts, fancy—1, Mrs. Wrigit; 2, Mrs. Lockwood; 3, Mrs. W. R. Dawkins, Warkwortn.

Skein woollen yarn, plain—1, Mrs. Lockwood.

Skein woollen yarn, double and twisted—1, Mrs. Lockwood.

Kitchen apron and cap—1, Mrs. Lockwood; 2, E. Terrill.

Cotton coverlet—1, Mrs. Lockwood.

Rag rug—1, W. Baker, Warsaw; 2, Mrs. Lockwood; 3, E. Terrill.

Woollen rug—1, Mrs. Lockwood.

Patchwork quilt, cotton—1, Mrs. Lockwood; 2, E. Terrill.

Patchwork quilt, woollen—1, Mrs. Lockwood; 2, Mrs. Comstock; 3, E. Terrill.

Log cabin quilt—1, Mrs. Lockwood.

E. P. Cuffe's special for the best pair of hand knitted socks—Mrs. Lockwood.

House Plants.

Director—Chas. O'Reilly.

Geranium—1, Mrs. M. Faux, Norwood.

Potted rose—1, Mrs. Faux.

Begonia, red—1, S. McMillan.

Begonia, any other variety—1 and 2, Mrs. C. O'Reilly.

Foliage plant—1, Sam Scott; 2, C. H. Curtis.

Fern—1, Mrs. Faux.

Hydrangea—1, Mrs. Faux; 2, Sam Scott.

Rubber plant—1, J. A. Robb.

Special Prizes.

for best window box of flowers, any variety—1, Mrs. Faux.

For best hanging basket of flowers, an variety—1, H. Pealow.

By Mrs. Geo. Grover, for best collection of house plants grown and exhibited by one exhibitor—1, Sam Scott.

For best begonia—1, S. McMillan.

For best house plant, other than begonia—1, Sam Scott.

Ladies' Work.

Fancy quilting—1 Mrs. S. A. Lockwood, Belleville; 2 E. Terrill, Wooler.

Counterpane, crocheted—1 Mrs. Lockwood.

Counterpane, knited—1 Mrs. Lockwood; 2 Mrs. W. Comstock, Norwood.

Lace work, point or Honiton—1 Mrs. Lockwood; 2 E. Terrill.

Lace work, Duchess—1 Mrs. Lockwood.

Crochet work in cotton or linen—1 Mrs. Lockwood; 2 Mrs. W. R. Dawkins, Warkworth; 3 E. Terrill.

Crochet work in silk—1 Mrs. Lockwood.

Crocheted work in wool—1 E. Terrill; 2 Mrs. Lockwood; 3 W. Baker, Warkworth.

Filet crochet—1 W. Baker; 2 Mrs. Dawkins; 3 E. Terill.

Knitted lace—1 Mrs. Lockwood; 2 E. Terrill.

Boudoir cap—1 E. Terrill; 2 Mrs. Lockwood; 3 Mrs. Dawkins.

Darning on huckaback—1 E. Terrill; 2 Mrs. Lockwood.

Drawn work—1 Mrs. Lockwood; 2 E. Terrill.

Tatting—1 Mrs. Lockwood; 2. E. Terrill; 3 Mrs. C. Stinchombe.

Netting—1 E Terrill; 2 Mrs. Lockwood.

Embroidery on silk or satin—1 E. Terrill.

Embroidery on bolting cloth—1 Mrs. Lockwood.

Embroidery, punch work—1 Mrs. Lockwood; 2 E. Terrill.

Eyelet embroidery—1 E. Terrill; 2 Mrs. Dawkins; 3 Mrs. Lockwood.

Tea Cloth, embroidered—1 E. Terrill; 2 Mrs. Lockwood; 3 W. Baker.

Monogram on handkerchief—1 Mrs. Lockwood; 2 E. Terrill.

Coronation braid work—1 Mrs. Lockwood; 2 Mrs. Dawkins.

Ladies' embroidered blouse—1 Mrs. Lockwood.

Bulgarian work—1 Mrs. Lockwood; 2 Mrs. Dawkins.

Pillow shams—1 E. Terrill; 2 Mrs. Dawkins.

Set table mats—1 Mrs. Dawkins; 2 Mrs. Lockwood; 3 Mrs. Stinchombe.

Set doylies, embroidered—1 Mrs. Lockwood; 2 E. Terrill.

Set doylies, crochet—1 Mrs. Lockwood; 2 E. Terrill.

Sofa pillow, linen—1 E. TerriN; 2 Mrs. Lockwood.

Irish crochet—1 Mrs. Lockwood; 2 E Terrill; 3 Mrs. Dawkins.

Lady's collar and cuffs—1 Mrs. Lockwood.

Embroidered pillow slips—1 Mrs. Dawkins; 2 Mrs. Lockwood; 3 E. Terrill.

Embroidered towels—1 Mrs. Dawkins; 2 E Terrill; 3 Mrs. Lockwood.

Applique—1 Mrs. Lockwood.

Walachian—1 Mrs. Lockwood; 2 E. Terrill.

Roman embroidery—1 E. Terrill.

Stencilling—1 Mrs. Lockwood.

Mont Melick—1 Mrs. Lockwood.

Fancy knitting in cotton—1 Mrs. Lockwood.

Fancy knitting in wool—1 E. Terrill; 2 Mrs. Lockwood.

Soft or carriage Afghan—1 E. Terrill.

Knitted soldier's scarf—1 Mrs. Dawkins.

Embroidered lunch set—1 Mrs. Lockwood.

Curtains, crochet or scrim—1 W. Baker; 2 Mrs. Lockwood; 3. E. Terrill.

Baby's dress, hand-made—1 W. Baker; 2 Mrs. Lockwood.

Ryrie Bros.' special for best piece of fancy work—E. Terrill.

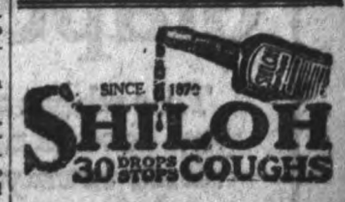
CANNOT EXPORT COAL TO EUROPE

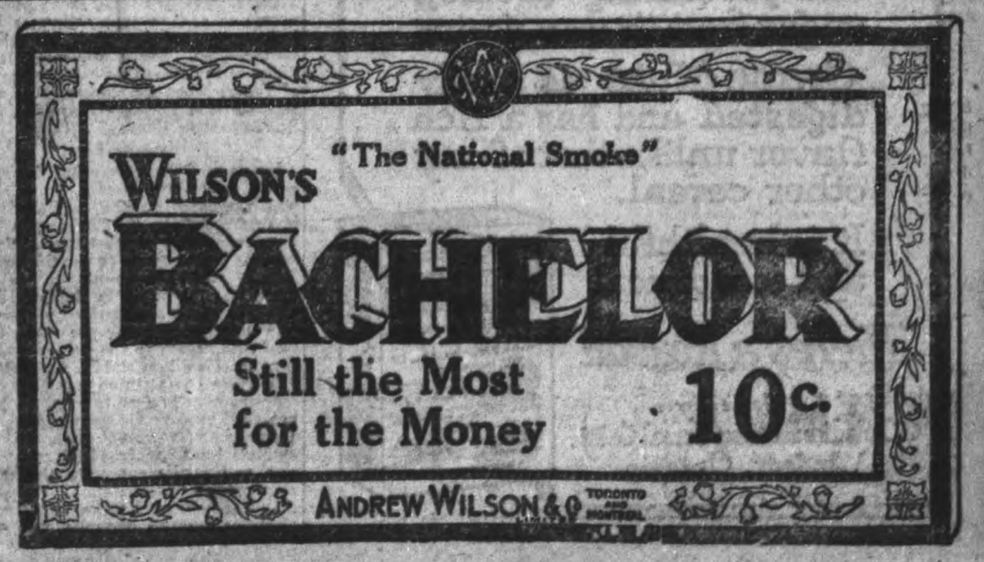
MUST ALSO SECURE PERMIT FOR EXPORTATION TO STATES.

Coal from Eastern Canada cannot be sold to Europe. The Board of Railway Commissioners, acting in its capacity as fuel controller, passed an order on July 22 prohibiting the export of coal from the Atlantic, St. Lawrence or Gulf ports, except to United States or Newfoundland. Yesterday, by another order, the Board screwed the lid down just a little tighter.

Under the new order of the Board, instructions will issue from the Department of Customs to port collectors in the Maritime Provinces to insist that exporters shipping coal by water to United States must procure a permit for such export from the Railway Commission. When applying for such permit, shippers will be required to state that the coal is not intended for reshipment from United States to Europe.

Several applications for permission to ship coal from Canada to Europe have been received by the Board and in every instance have been refused, and during the last few days the Board has been particularly satisfying itself that shipments to United States are not intended to go further.





The Home Smoke

YOUR wife will welcome your smoking "OLD CHUM" about the house.

When supper is over, and you settle down to read or chat, fill up your favorite pipe with "OLD CHUM" and puff away.

The mellow fragrance of this choice tobacco makes it Canada's favorite.

OLD CHUM

Canada's Favorite Pipe Tobacco.

HYDRO RADIAL SCHEME RIPPED FORE AND AFT AT A MEETING OF O.F.U.

THE AUTOCRAT BEFORE WHOM PETERBORO CIVIC DELEGATIONS BOW COMES IN FOR CRITICISM.

NEWMARKET, Oct. 14.—At a U.F.O. meeting here last night, President A. A. Powers, of the Farmers' Co-operative Company, after giving some figures showing the remarkable growth of the co-operative movement, referred to the Hydro radials question, which, he said, was the most important issue before the Province. He said there was a concensus of opinion among the solid elements of the Province that the Government had done very wisely to have the radial schemes investigated before pledging the public credit for over fifty millions of dollars for lines that were only a fraction of the twenty-five hundred miles which Mr. Gaby told the Sutherland Commission had been surveyed at the Province's expense.

Never, said Mr. Powers, had a public investigation been more quickly justified than this. In a merely preliminary cross-examination by Mr. Robertson, Mr. Gaby had made admissions which more than justified the probe. First, he admitted that the estimates put before the Commission were not those which were voted upon by the municipalities, and presented to the Government, early last summer, with a demand for a guarantee of the bonds.

The Toronto Eastern estimated cost had been increased over eighteen thousand dollars per mile, or more than the entire cost per mile of the radial now running from Hamilton to Beamsville. The interest rate, it was now admitted, must be six per cent., as against five which the Hydro had the hardihood to submit to the municipalities and the Government. And the earnings had been increased, though it was to cost less to get them than was represented to the municipalities and Government. Decreased operating expenses with increased earnings involved some astonishing figures which, if they had been put forward by anybody but the Hydro, would have been laughed to scorn by the newspaper twins of Melinda Street.

Costs Increase.

Since last ear, when the Toronto Eastern estimates were prepared, railway wages of all kinds had gone up; and operating ratios had correspondingly increased—so much so that the Toronto Street Railway could not now pay the city the proportion of its earnings that had been regularly paid for twenty-nine years. But the Toronto Eastern was to run forty-six passenger cars against the twenty-seven estimated to the municipalities and the Government a few months ago, and was to maintain six miles of double track in the Toronto urban area, instead of single track, at a less cost than the smaller amount of labour and maintenance was to need.

The ratio of operating expenses to revenue had been reduced from 58.9 to 49.3, according to Mr. Gaby. The drop from 58 to 49 was fifteen per cent. Mr. Gaby professed that it was due to increased passengar rates that were to be charged in comparison with those presented to the Government and the municipalities. But anybody with a respect for simple arithmetic could see what a flim-flam this was.

M. Gaby admitted that the Ontario Railway Act allowed a maximum of two cents per mile for passenger fares on Ontario electric railways. Of course, at the Hydro's bidding, the Legislature was to allow the Hydro to increase rates beyond the present law, and thus cause an increase of rates on every electric road operated under a Provincial charter. Mr. Gaby said the estimated fare was raised from 2 to 2⅛ cents per mile, to come up to the London and Port Stanley, which, until Mr. Gaby spoke, thousands of people had believed was charging only a cent a mile. That was an increase of over 43 per cent. over what was lawful when the by-laws were voted on. But the gross passenger earnings of the Toronto Eastern outside the city were only to increase by 7.3 per cent—which suggested that there was something fishy about the way either the first of the second estimates had been prepared. In the city, though, it was professed, fares were increased from four to five and six cents—or 25 per cent., on the lowest computation, the gross receipts were only to be increased 7.3 per cent.

A Deficit.

Mr. Gaby admitted that if the operating ratio of the Toronto Eastern under the new estimates worked out at the 58.9 per cent. represented to the Government, there would be a deficit. He also admitted that if the interest were raised to 6 per cent. and the gross earnings remained where they were estimated to, the Government, there would be a deficit. The London and Port Stanley line had been held up to the people as the model public ownership road. Its operating ratio, with increased passenger and freight rates, had gone up to 70. If the Toronto Eastern were run on the London and Port Stanley's proportion of expenses to earnings, and if it carried all the traffic claimed for it, there would be a deficit of $223,000. On the six mile Toronto end of the now estimated cost, on a 10 per cent. better operating ratio than the Toronto Railway Company was getting earnings of $910,000 would be required to pay the interest. The Gaby estimate of earnings was $545,000.

The Toronto Eastern, said Mr. Powers, was the only road whose operating and revenue estimates had been presented to the Sutherland Commission. But it was possible to judge of the mess that had been made of things from the construction estimates of the Toronto, Hamilton, and St. Catharines line.

Retroactive Law.

It was made to appear that this road would cost little, if any, more than was estimated to the municipalities in 1916. But the Hamilton costs had been reduced by at least two millions, because it was hoped to use the Grand Trunk right-of-way—as to which there was reason to be dubious, despite Mr. Gaby's assertions. But it was possible to know the real situation with regard to the section of line between Hamilton and St. Catharines. The mere construction costs of 27½ miles had been raised to a point which exceeded by over $10,000 per mile, the entire amount voted upon by the municipalities concerned for construction and equipment. On the most conservative computation, the line that was estimated to cost the municipalities $122,000 per mile, was now to cost over $182,000 per mile. A retroactive law had been passed since they voted, which compelled them each to shoulder a proportion of the liability which the township of Saltfleet, had refused to vote. Saltfleet's refusal was partly because the liability represented 28 per cent. of the total assessment of the township. The total assessment of Saltfleet was $3,462,197, with a population of 3,903. The amount voted on was $1,002,296, which works out to 28 per cent. instead of 25 per cent. Assuming that Toronto should be obligated for radials on the same basis as Saltfleet, on an assessment of $703,645,395, Toronto would have to obligate herself for $197,000,000. If the commitment were on a per capita basis, in proportion to the Saltfleet per capita bases, of $256 per head, it would work out at $140,000,000, on a population basis of 550,000.

It has been shown at the inquiry, Mr. Powers said, that the radial agreements accepted by the municipalities had not fulfilled the law. They had first violated the law and had then been shamelessly validated by processes unknown to British legislatures until the Beck supremacy in Ontario.

When the facts really reached the people, Mr. Powers said, they would recognise the unparalleled autocracy they had allowed to be set up in their midst—an autocracy that was as reckless of the established safeguards of responsible government as it was ruthless in its lordship over the municipalities whose unquestioning servant it loudly professed to be. The truth was, that the late Government was overawed by the body it had created. It passed legislation that would be unbelievable if it were not in cold print.

Organised Idolatry.

Ontario was the scene of an organised idolatry, that had nothing to learn from Potsdam. Never before had it been a British law that a body, the creation of a legislature, could spend trust funds without regard to the purposes for which they had been subscribed. Mr. Powers quoted from the Act amending the Power Commission Act, Section 4, Sub-section 6B:

"All special funds and the income "and revenue thereof and all mon- "eys and revenues which now are "in or shall come into the hands of "the Commission whether as agent, "trustee, owner or otherwise, shall "form one fund to be called 'Gen- "eral Fund,' and the Commission "shall have power from time to "time to make any and all expendi- "tures out of the said fund for the "purposes and objects of the Com- "mission without regard to the spe- "cial trust or purposes under which "the same or any part thereof may "come to its hands."

Never before had a Minister of the Crown attempted to destroy responsible government by demanding that servants of the Crown, hitherto holding office during pleasure only, should be independent of any department or any Minister. This had ben done by Sir Adam Beck during the war, and had been anplauded by men who were vowed to be true to the responsible Government for the inviolability of which Canadians were dying in thousands.

Never before had a servant of the Crown been known openly to charge the King's Government with "effrontery," when that Government merely asked for details of proposed expenditures of public money to be submitted to it. This had been done by Sir Adam Beck.

Never had the King's Government been threatened with a revolution if it did not keep its hands off an international question that was the subject of international treaty. This was done publicly last March by Sir Adam Beck in Toronto.

It was unfortunately true that the radial railways schemes were fashioned harmoniously with these characteristics of the autocracy before which the Drury Government, to its everlasting honour, refused to bow down. The Sutherland Commission had asked for the data on which municipalities had voted, and the Government had been asked to guarantee the bonds. Its request had been coolly ignored, and another set of figures proffered, without a voluntary word of explanation or excuse. It was time the public woke up to what had been going on, and watched with increasing closeness the proceedings before the Commission. In that regard, Mr. Powers said, the press that had presented practically nothing of the facts about half-baked plans it lauded to the skies, was on trial as the conveyor of the truth, the whole truth, and nothing but the truth, to the people.

Gillette Safety Razor

GREATER production is the key to many of the world's more pressing problems today. And nature has assuredly shown the way with record crops.

The bountiful harvest—now safely garnered—spells Prosperity, and gives ample cause for heartfelt thanksgiving.

MADE IN CANADA — TRADE Gillette MARK — KNOWN THE WORLD OVER

Canada's grain, her cattle, and her daily products are sorely needed by the Old World. And Canada is proud to be able to answer the call—not only for the riches of her land, but for the products of her factories!

For the world needs Canada's manufactures, too—as witness the Gillette Safety Razor, Made in Canada, Known the World Over.

Canada strengthens her world position with such QUALITY products, which are in demand, not only throughout the British Empire, but in the countries that are not coloured *red* upon the map. 758

Thanksgiving

No Need to Sweeten Grape-Nuts

This wheat and malted barley food is naturally sweet, since twenty hours' baking and processing develop sugar from its own grains.

Grape-Nuts is easily digested and has a rich flavor unlike that of any other cereal.

It is healthful and economical

THIS LITTLE WOMAN WROTE VERSES AND SOLD BOOT POLISH

LONDON.—A modest paragraph in The Times concerns a "well spoken little woman" at Tottenham who wrote verses and sold boot polish of her own manufacture. She was charged with the heinous oxence of sleeping under a hedge. Her father, we are told, was a cousin of a bishop, and Queen Alexandra and "other influential people" had written thanking her for her poems.

At first sight there may not seem to be any great affinity betweeh poetry and blacking. Poets have "graduated" into verse from almost every conceivable trade and calling, and it will not be surprising to be told that the makers or sellers of boot blacking have taken their part. But at the moment we cannot recall the name of any one thus distinguished. Charles Dickens, who was a bit of a poet, is said to have been employed in his early years by a firm, still existing, which made blacking. That, however, is not the only link in the chain which connects the two callings.

In 1832, when Dickens was a young man of 20, there were at least two London firms which manufactured blacking; one of these was that in which Dickens was for a time said to be employed, and the other was Robert Warren, of No. 30 the Strand, a firm presumably extinct, or absorbed by some other house. If Mr. Warren was not a poet himself, he at least was a firm believer in the power of verse to advertise his goods. He was known to Dickens, as we gather from chapter X. of "the Posthumors Papers of the Pickwick Club," which began to appear in 1836. It will be remembered that Sam Weller is introduced in the act of cleaning a pair of boots in the yard of the White Hart Inn. There is a demand for the boots of No. 5 (who turns out to be our old friend Mr. Jingle), and, stimulated by the reflection that if No. 5 is "anything of a gen'lm'n he is worth a shillin' a day, let alone the arrands." Sam Weller "brushed away with such hearty good will that in a few minutes the boots and shoes, with a polish which would have strück envy to the soul if Mr. Warren (for they used '——the rival firm's,' at the White Hart) had arrived at Number 5."

Why haven't Dickens collectors made more fuss about Mr. Warren? Any "grangerized" copy of "Pickwick" is flagrantly imperfect without some specimens of his poetical advertisements. Mr. Warren may have had a taste for the fine arts as well as for poetry, for he patronized the advertising columns of Arnold's Library, of the Fine Arts, an excellent periodical which ran for some years, to the extent of half a page monthly. He here assures us that his "easy-shining and brilliant blacking" is sold, in paste and liquid, in every town in the kingdom, and urges us to "Be particular to inquire for Warren's 30, Strand," as "all others are counterfeit," an obvious slap at the rival firm. Mr. Warren or his tame poet (one is almost tempted to suggest Mr. Wilkins Micawber) did not depend entirely on his own originality, but, like the French writer, took his good wherever he found it. For his "Address to His Northern Friends" he pressed into his service "Scots Wha Hae," and this is how, in the last of the four stanzas, he butters over what he calls "Scotia's honoured race."

"Wha in elegant array,
"Justly then wad bear the sway,
"Fashion's kindly call obey,
"Warren's mart or agents see,
"Land where native heroes dwell,
"Land of beauty now farewell!
"O'er her foes may Scotia swell
"Aye the note of victory!"

Perhaps Mr. Warren was of Scottish descent, or it may be, he married a Scottish lady. Another of his advertisements is headed "The Turtle Dove" (air, "Jessy of Dumblain"), and is very properly saturated with sentimentalism of various kinds; but Mr. Warren alwalys comes down to boots. There are seven stanzas in all, but it must be sufficient to quote the last one of all, a sort of final kick:

"I pity'd the dove, for my bosom was tender—
"I pity'd the strain that she gave to the wind;
"But I ne'er shall forget the superlative splendour
"Of Warren's Jet-Blacking—the pride of mankind."

Catarrh Of The Stomach Is Dangerous

"Thousands Have It and Don't Know It," Says Physician. Frequently Mistaken for Indigestion—How To Recognize and Treat.

"Thousands of people suffer more or less constantly from furred, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind and stomach acidity, and call it indigestion when in reality their trouble is due to gastric catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous, because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluids cannot mix with the food and digest them. This condition soon breeds deadly disease in the fermented, unassimilated food. The blood is polluted and carries the infection throughout the body. Gastric ulcers are apt to form and frequently an ulcer is the first sign of a deadly cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bisurated Magnesia in half a glass of hot water as hot as you can comfortably drink it. The hot water washes the mucous from the stomach walls and draws the blood to the stomach, while the Bisurated Magnesia is an excellent solvent for mucus and increases the efficiency of the hot water treatment. Moreover, the Bisurated Magnesia will serve as a powerful but harmless antacid which will neutralize any excess hydrochloric acid that may be in your stomach, and sweeten its food contents. Easy, natural digestion without distress of any kind should soon follow. Bisurated Magnesia is not a laxative, is harmless, pleasant, and easy to take, and can be obtained from any local druggist. Don't confuse Bisurated Magnesia with other forms of magnesia, milks, citrates, etc., but get it in the pure Bisurated form (powder or tablets), especially prepared for this purpose.

For Ladies

Said Mrs. C—— to Mrs. T——
One bleak and cold and wintry day,
"You know, my dear, this time of year
Is hard on folks.
If only we could feel assured
Of health and comfort, 't would be fine,
But it seems we can't, in such a clime."

"Well, do you know", smiled Mrs. T——
"I used to think this time of year,
Meant colds and sickness always near,
But we heard of an easy way,
To be healthy and comfy every day.
You know Mrs. Wise, across the street,
(Just the picture of health and always neat)
Well, she was told by a doctor friend
She'd never regret the money she'd spend
On good wool 'Undies,' the 'Ceetee' kind,
Made by Turnbull's of Galt, I think she said.
An advertisement somewhere then she read—
Telling folks how that particular kind
Was fashioned by experts—and that you'd find
The 'Undies' they made were the better kind—
Fashioned of wool that was not one bit 'tickly'
(Others, you know, tickle and seem sort of prickly)
That all "CEETEE" garments are so downy and soft,
We'd just love to wear them—in fact, very oft
Mothers buy them for babies, all fears to allay
Should they go for an airing on a stormy, chill day—
Why! the rain would'nt matter, neither wind, snow or frost—
"CEETEE" garments, in truth, are worth twice their first cost.
They're the finest of high-grade underwear,
And the thriftiest, best-dressed women who care,
Know that it pays to buy none but the best;
Don't you think we'd do well to give them a test?"

"CEETEE" for ladies is made with low cut neck and no sleeves—also with elbow sleeves and in higher neck and long sleeves.

"CEETEE" is knitted on very fine needles—this makes it very warm, soft and light.

Any doctor will advise you to wear wool next the skin: it is a non-conductor, thus retains the warmth of the body, keeps out the cold—and safeguards your health.

Why not try it this winter?

Manufactured only by Turnbull's of Galt ONTARIO Worn by the best people Sold by the best dealers

PLOTZ SAYS TYPHUS MENACES THE WORLD

NEW LORK.—The typhus plague raging in Poland and other parts of Central Eroupe is a world problem, and unless other nations take measures to stamp it out the disease is bound to spread beyond their borders, according to Dr. Harry Plotz of the staff of Mount Sinai Hospital, who has returned from Poland, where he made a survey of conditions for the Joint Distribution committee. In an interview at the Biltmore, Dr. Plotz outlined a plan which he will present to the Government for joining with other countries in fighting the menace.

Dr. Plotz is credited with having been the discoverer of the typhus germ in 1913. While in Bulgaria in 1915 he was captured by the Germans under General Mackensen, who at once utilized his services in studying cases among the German troops. When the United States entered the war, Dr. Plotz joined the Medical Corps in the United States Army with the rank of Lieutenant-Colonel. He had charge of the hygienic measures taken to prevent returning soldiers from bringing back vermin on their bodies.

"The seriousness of the typhus situation in Poland canot be overemphasized," Dr. Plotz said. "With a death rate at present of 25 per cent. and a greater mortality is certain to occur during the coming winter, as typhus is a winter disease, the Poles are in no position to combat the scourge. Help must come from the outside. If the epidemic spreads to other countries, and I am not inclined to minimize the possibilities, there will be a pandemic, just as in the case of influenza. And, speaking of influenza, if this disease had been stamped out in Southern Russia, where it originated, 10,000,000 people throughout the world would have been saved.

"Some idea of the suffering in Central Europe from typhus may be gained when I tell you that in one hospital I visited in Vilna, Lithuania, the medical staff did not have even such essentials as iodine, bed padding and bandages with which to aid the sufferers. Poland purchased all the machinery used by the A. E. F. in removing vermin from the troops, but I understand the Bolshevik have captured all of the units. In stamping out the typhus it is absolutely necessary to have such plants since the disease is spread by lice.

"The people of other countries must recognize the fact that the epidemic can only be stamped out at source. Other nations must join together in cleaning up the plague spots of Central Europe. If we don't join we will have the plague here. England is ready and willing to cooperate.

"The plan which I will lay before the authorities is that money should be raised either by Congress or by private subscription to send physicians and workers from the United States to join with the representatives of other countries in fighting the disease I estimate the cost of the project at $75,000,000. I believe each country would have to send 100 physicians to the plague zone."

Dr. Plotz said the first step toward stamping out the typhus in Poland would be to submit the entire population to a treatment to rid them of vermin. There was a noticeable indifference among the poorer classes to the presence of vermin on their bodies, Dr. Plotz said. He told how a British authority had counted 30,000 lice and 200,000 units on one man. Dr. Plotz favored innoculation. Medical supplies in great quantities would have to be sent into the region, he said.

NOT ENOUGH COFFINS FOR VICTIMS OF PLAGUE

Dread Disease Raging in China—Victims Buried in the Trenches.

(Canadian Press.)

NEW YORK. — Carpenters are unable to build enough coffins for the cholera victims in West China, according to letters received by the American Baptist Foreign Mission Society here from Dr. Joseph Taylor, its representative in Cheng-tu. The letter dated August 10, says:

"The cholera is raging in Cheng-tu. People are dropping dead in the streets and the supply of coffins has run out. Although the carpenters are working night and day the dead have to be buried in trenches.

"The people look upon the scourge as a visitation of the Supreme Being, who is punishing them for their sins. Add to this pestilence a state of war in the province and it would seem as if the cup of sorrow for these Szechuanese is filled to overflowing.

"It may be necessary to postpone the opening of the Union University, as the cholera is on all the roads which our students have to travel."

Lieut. F. H. "Hardboiled" Smith, convicted of cruelty to prisoners of the A.E.F. in France, has not served a day of his prison sentence. He is said to have been allowed his freedom on a War Department parole.

Back Ache

Limber Up With Penetrating Hamlin's Wizard Oil

For Lame Back, Sideache, Shoulder Pain, Stiff Neck, etc., use Hamlin's Wizard Oil. It penetrates quickly, eases the pain and drives out the soreness. Keep it in the house.

Wizard Oil is a good dependable preparation to have in the medicine chest for first aid when the doctor may be far away. You have no idea how useful it will be found in cases of every day ailment or mishap, when there is need of an immediate healing, antiseptic application, as in cases of sprains, bruises, cuts, burns, bites and stings.

Generous size bottle 35c.

If you are troubled with constipation or sick headache try Hamlin's Wizard Liver Pills. Just pleasant little pink pills at druggists for 30c.

INVADE PARIS WITH TURRETED MOSQUE

PARIS.—Within the next few months Paris will take its place as one of the most important of the world's centres of Islamism, with a turreted mosque, from which a devout Muezzin will daily call the faithful to ——ers, and a library and conference hall which will be the gathering place for Mohammedans from all parts of Asia, Africa and Europe.

This will constitute France's token of appreciation of the services rendered by her colonial natives during the war, although the scheme was first presented twenty-five years ago by the Prince d'Arenberg. The Chamber of Deputies, however, has granted a credit of 500,000 francs to the Ministry of Foreign Affairs for the installation of the memorial to Mahomet, and the Islamic society known as the "Habous," charged with the preservation of the holy places of Islam, has agreed to direct the construction.

This society includes the highest Mohammedan officials of Morocco, Algers, Tunis, a score of chamberlains, sheiks, grand viziers and even ministers of religious justice, whose appointment is the Sultan's prerogative. It is undoubtedly the greatest of the religious associations of north Africa, and has organized numerous pilgrimages to Mecca.

The Habous intend to direct the most capable African students toward Paris, where they will be instructed in the Koran, Mohammedan theology and Moslem law in the new memorial, while receiving the advantages of the Sorbonne in the study of languages and fine arts. The original plan for a Mohammedan university called for the selection of a site in north Africa, but such intense rivalry developed between the French colonial cities it has been decided, to avoid jealousy, to merge the religious and secular teaching in the recognized capital of the French Mohammedans.

WELCOME.

Welcome, as peaceful calm, after rude tempest
Welcome, as sweet music's soft soothing strain
Or after the bleak, chilly frost winds of winter
Fair springtime's returning with jubilant train.

Welcome, as green fields and mild summer breeze
As radiant dawn, after phantom filled night
On eastern skies, rosy splendors of sunrise,
To enraptured lovers, the moon's silvery light.

Welcome as homestead, to travel tired roamer,
As rest to the weary, as joy, after pain,
Woodland lilies in May, red robin's blithe carol
As food, to the famishing, sun after rain.

Welcome, as all of these rare priceless pleasures
That at Heaven's behest, on us, mortals attend.
After long anxious, waiting, and wishing and hoping,
The letter that comes from a dear absent friend.

—Mrs. A. F. Calder, Peterborough, Ont.

"OUCH! THAT OLD RHUEMATISM!"

Get out your bottle of Sloan's Liniment and knock the pain "galley-west"

WEREN'T ready for that last quick switch in temperature, were you Left you stiff, sore, full of rheumatic twinges?

Helpful in attacks of lumbago, sciatica, external soreness, stiffness, strains, aches, sprains. Get a bottle at your druggist's. 35c, 70c, $1.40. Made in Canada.

Sloan's Liniment (Pain)

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair good, even color, which is quite sensible, as we are living in an age when youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

Feels Lost Without It

"We had never used Zam-Buk before but could not feel without it now," writes a grateful Ontario mother, Mrs. T. G. Miller, of Winona.

"Whilst at play," she says, "my little two-year-old baby-boy came across a cross-cut saw and gashed his forehead badly.

"As we happened to have a box of Zam-Buk in the house I got it down and applied a dressing to the injury. It speedily soothed away the pain.

"After treating the wound with Zam-Buk twice daily for three days, it healed so well that I was able to leave off the bandages. There's not even a scar now, thanks to Zam-Buk."

Our files hold thousands of similar letters confirming the wondrous soothing and healing power of Zam-Buk in Cuts, Burns, and Scalds, and for ending obstinate attacks of Eczema, Poisoned Sores, Ringworm, Ulcers, and Piles.

There is need of a thoroughly reliable antiseptic healer like Zam-Buk in every home. It ensures safety from festering and blood-poison; prevents little sores from developing into obstinate and chronic skin disease. Zam-Buk has medicinal properties never associated with any ordinary ointment or salve, and it's purely herbal.

Get this unique herb-remedy to-day! Of Druggists and Stores, 50c., or Zam-Buk Coy., Toronto.

SMART USE OF FUR.

Fur is used profusely despite its price. One house shows as a substitute for fur cuffs and collar, "fur" of ribbon loops. On heavy faille this is very pretty. Padded collars and cuffs are still smart, and there are also quilted collars—the stitching being done most decoratively on the padded collar. In faille or satin—the silk cloaks are lined with velvet or duvetyn—these collars are very smart.—Good Housekeeping.

LOCAL CADETS OFF TO TORONTO

WILL COMPETE IN RIFLE ASSOCIATION MEET.

Six cadets, two N.C.O.'s and two commissioned officers of the 73th Peterborough Cadet Battalion left on the 3.20 C.P.R. train yesterday afternoon for Toronto to compete in the cadet series of the Ontario Rifle Association meet at Long Branch, Toronto, to-morrow. The following were Peterborough's quota: E. T. W. Bailey, regiment commander; S. Curtis, musketry instructor; B. B. Dawson, company leader; W. G. Russell, half company leader; Cadets F. L. Stevens, C. Wilson, W. N. Miller, C. G. Crawford, N. L. Elliott and F. C. Miller. These cadets were selected at the shooting competition at the rifle range last Monday as the most eligible to shoot at the meet.

Firing commences at 9.30 to-morrow morning. The first match is the cadets, open to all qualified cadets under 18 years. Ranges are from 200 to 500 yards in this match.

The following are the prizes for this competition:

First prize, Strathcona Gold Medal and	$20 00
Second prize, Strathcona Silver Medal and	15 00
Third prize, Strathcona Bronze Medal	12 00
Fourth prize, Strathcona Bronze Medal and	10 00
Fifth prize, Strathcona Bronze Medal and	8 00
Sixth prize	7 00
10 prizes of $5.00 each	50 00
15 prizes of $4.00 each	60.00
20 prizes of $3.00 each	60.00
12 prizes of $3.00 each for cadets under 16 years of age who do not win a prize in the above list	36.00
Total	$278 00

The "Logie" silver spoons are given to cadets making the highest aggregate score in the cadets' match. The "Logie" six silver spoons were presented by Major-General W. A. Logie, C.B., in memory of Gentleman Cadet James Wylie Logie, R.M.C., captain Hamilton C. I. cadets, 1912, drowned at Kingston May 2, 1913.

In addition to these individual prizes the following team prizes are given:

Rirst prize, the Pellatt Challenge Trophy, value $120.00, donated by Col. Sir H. M. Pellatt, and	$25 00
Second prize	20 00
Third prize	15 00
Fourth prize	10 00
Total	$70, 00

This cup is to be won three times by any one cadet company before becoming its absolute property. A miniature of the cup will be given to each member of the winning team.

A test of real marksmanship is given in the King's Challenge Cup match. Firing is at different ranges in different position with advances of several hundred yards between shots.

The following are the prizes:

First prize, the "Kings" Challenge Cup and	$20 00
Second prize	15 00
Third prize	12 00
Fourth prize	10 00
Fifth prize	10 00
Five prizes, total cash	$67 00

The cup is to remain in the possession of the winning corps one year. In addition, the C.N.E. executive have donated 10 silver and 10 bronze medals for the first and second teams.

A bill passed in New York appropriates $3,000,000 to build a 1,000-bed hospital to care for New York war veterans who have become mentally deranged.

COOKERY COLUMN

Cocoa Caramels

3 cups brown sugar
½ cup milk
1 tablespoon molasses
¼ cup butter
¼ teaspoon cinnamon
9 tablespoons Cowan's Cocoa
1 teaspoon vanilla
½ cup chopped nuts
½ cup sultana raisins

Method:—Put all ingredients in a saucepan except vanilla, stir over gentle heat till sugar is dissolved. Boil until a soft ball may be formed when tried in cold water. Cool slightly, beat until creamy, add nuts, vanilla and raisins. Pour on to greased plates and mark in squares before it hardens.

POSTMAN'S ORIGIN FOUND IN ROME

Very few look upon the postman as a historic figure. Until recently, when he has come to the public eye by the presentation of his need for increased pay, this agent of the Government has performed his important duties so unobstrusively that he is far less familiar to most of us than the figures much less important in our daily life. In a recent article in the National Geographic Magazine attention is called to the postman and his value through the centuries.

"The history of the Postal Service and its employes extends to the days of the Romans, when the earliest known means of transmitting a message was by courier," says the article. "These admirable organizers, the Romans, marked by a 'post' the place in the road where the relay of one runner by another was affected; thus they named our system long before it was born.

"The first letter post seems to have existed in the Hans towns in the thirteenth century in order to facilitate relations between the merchants of the various members of the 'Hanseatic League.' The British Post Office had its beginning in the sixteenth century and our own Colonial methods of handling mail were inherited from our British forefathers. Long before the people had any means of exchanging either personal or official leters, the King had established a system for conveying his personal messages and official documents by royal messengers. In the reign of King John a large sum was paid for a postal service and charged to the household and wardrobe accounts. Trusted messengers were sent the whole distance and were paid according to the length and danger of their journeys. When Edward IV. found the Scots were too hot upon his trail he decided that he needed a system of communication between his own headquarters and those of his fighting forces, so he had horses placed at twenty-mile intervals on the road between England and Scotland. That was our present Post Office system in embryo. Finally, in 1512, Sir Brian Tuke became the first Postmaster General of Britain, and personally took charge of all the royal messengers.

"Persons of less importance than kings had to arrange to send their letters by their servants, messengers, merchants or friends, but there is evidence that by the close of the fifteenth century regular couriers between a few main points were employed.

'In a Privy Council proclamation in 1603 the duties of mail carriers were made extremely arduous. The postman had to have two leather bags lined with 'bayes,' or cotton for his letters; he had to toot a horn whenever he saw any one approaching, or at least four times in every mile; he might not delay more than fifteen minutes at any point, and he had to make at least seven miles an hour in summer and five in winter. Besides this, he had to keep a record of the name and address of the sender and recipient of each letter.

"In 1638 New England proposed to the British sovereign that a post office system be established in the colonies, as it was 'so useful and absolutely necessary.' His Majesty paid no attention to the plea, but Richard Fairbanks, in the same year, set up an office in Boston to receive letters from ships. He undertook to deliver the letters received and charged a penny for each letter. He also received mail for outgoing ships, but no one was forced to send mail through his office.

NEW BANK FOR LAKEFIELD.

PROGRESS OF PRICES WEEK BY WEEK

Sugar, wheat and flour, silks, and motor cars, are among the commodities which have fallen in price this week. With the exception of one make of automobile, however, reductions have been of little benefit to the Toronto public. New York, Chicago, Winnipeg and Montreal have been the storm centres. Toronto continues nimbly to side-step all price-slashing onslaughts.

Sugar in United States.

The first cut in sugar was made in New York on Tuesday, when one refiner quoted fine granulated at 12½ cents a pound, while others asked 13 cents. On Wednesday the Federal Sugar Refining Company knocked off 1 cent, bringing the price down to 11½ cents a pound. Next Day this quotation was further cut to 11 cents. Canadian refiners' quotations to the retail trade remained at 19.7 cents a pound.

Wheat and Flour.

Wheat has fallen with a crash, the big slump occurring mid-week in Chicago, when the price of both December and March futures went below $1.90 a bushel. By yesterday March wheat had pulled up to $1.91 again. In Winnipeg the price decline began on Monday and reached a climax two days later when December futures sold at $1.98¾, below the $2.00 for the first time this season, and a long call from the fixed price of $3.15 of all last year. Cash wheat meanwhile has been selling as low as $2.17½ in Winnipeg.

Flour has fallen, though not in keeping with wheat. It is estimated that a drop of 40 cents a bushel in ½ wheat should produce a drop of 1 cent in the price of a large loaf of bread. Thus theoretically bread should be 2½ cents a loaf cheaper. But the milling companies are slow to come into line. There are roughly 4 bushels of wheat in a barrel of flour, and a drop of $1 a bushel in wheat should produce a drop of $4 a barrel in flour. The high water mark for flour this year was $14.85 a barrel. Flour declined 80 cents a barrel in Winnipeg this week and 50 cents in Montreal on Wednesday. First patents are now quoted at $12.40 in Toronto, a drop of $2.45 from the prices of early summer. Thus while wheat has fallen enough to warrant a reduction of 2½ cents a loaf, flour has fallen only enough to warrant a drop of 1½ cents a loaf. A drop of 1 cent a loaf has actually been allowed by Montreal and Ottawa bakers. Toronto bakers continue to declare any reduction impossible.

Cheaper Motor Cars.

A reduction in the price of Willys Overland motor cars, ranging from $100 to $300 per car, was announced on Wednesday.

Recent reductions in the price of silks, reported by local dealers this week, bring goods of a quality which sold at $3.50 per yard at the beginning of8 this year down to $6.50 a yard.

RUMOR THAT JUDGE MAY SOON RETIRE

OTTAWA, Oct. 13.—The Department of Justice is unable to confirm a report that Judge Robidoux of the Superior Court, Montreal, is about to retire from the Bench, the resignation not having yet been received by the Minister of Justice. As Judge Robidoux is advanced in years, it is thought to be not improbable that he is desirous of retiring in the near future.

LAKEFIELD BOY SCOUTS' MEETING

REORGANIZATION MEETING ATTENDED BY DEPUTATION OF SCOUTS.

LAKEFIELD, Oct. 14.—A meeting of the Boy Scouts was held at St. John's rectory on Tuesday evening, which resulted in the Scouts being re-organized by Rev. F. Vipond.

A deputation of Scouts waited on Mr. Vipond and asked him to undertake the work.

Mr. K. S. Madill was appointed assistant Scout Master and J. T. Langley deputy-assistant Scout Master.

The leader of patrol 1, Loon Patrol, is Roy Green; assistant leader, Roy Everett.

The leader of patrol 2, Eagle Patrol, is Jack Ridpath; assistant leader, Willam Harvey.

The leader of patrol 111, Crow Patrol, is Fred Webster; assistant leader, Eugene Dixon.

Trooper bugler, Frank Erskine.

The third patrol is composed mainly of members of the Wolf Cubs, who have reached the age to qualify them as Scouts. They are a remarkably well trained body of boys and are a credit to the efficient training of Sergeant Stenner. For the past two years Miss Hilliard and Mrs. Waldon took charge of the Cubs and Sergeant Stenner acted as drill master. Last Dominion Day the Cubs gave a splendid exhibition of the physical drill and flag drill in Apsley at the celebration.

A meeting will be called in the near future of interested citizens in St. John's Sunday School room to arrange for the formation of a council to assist the Scouts.

It is very creditable that the original Boy Scouts should turn out so splendidly after a lapse of nearly two years. Rev. Cecil Spencer was the former Scout Master.

SMALLPOX OUTBREAK IN TOWNSHIP OF THURLOW

BELLEVILLE, Oct. 14.—There is a somewhat serious outbreak of smallpox in the Cannifton neighborhood in the Township of Thurlow. There are in all about ten cases reported to date. The public school was closed several days ago by order of the township medical health officer. Two of the pupils had become infected with the disease. The disease is of a very mild type and that very fact produces a greater danger of spreading the contagion. The disease is so mild that people refuse to consider it seriously and neglect to report to the M.H.O. as the law compels them to do. A local physician reprimanded very severely people of this description who scatter disease and death through their own carelessness. All summer the health authorities in Belleville have been endeavoring to stamp out the serious epidemics of smallpox and diptheria that were prevalent here last winter and that since caused no end of expense and trouble. There is even yet a single case of smallpox under quarantine in the city and there have been sporadic outbreaks during the past six months.

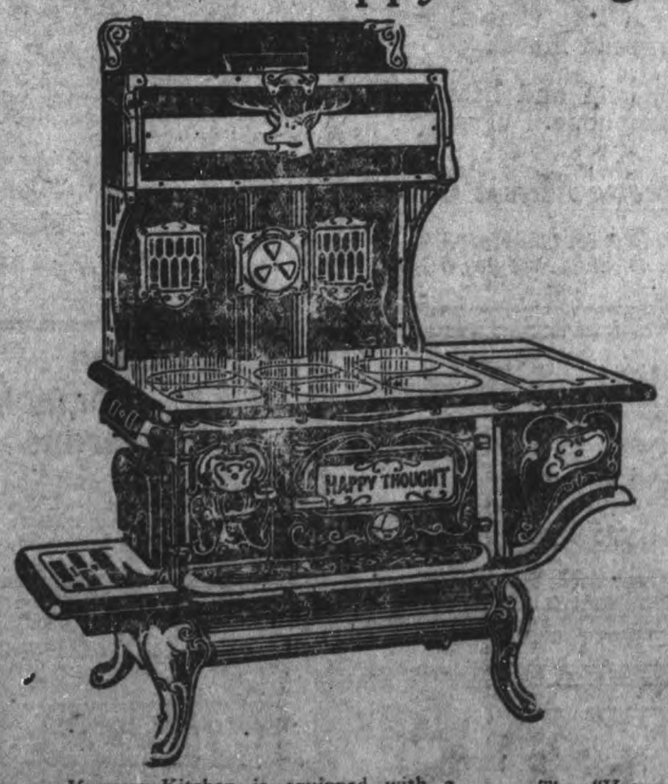
Buck's "Happy Thought" Range



Make It Your Kitchen Partner

If your Kitchen is equipped with a "Happy Thought" this Winter, you can produce Cooking and Baking results par excellence. With this Range, success is always possible, failure so rare it will become a thing of the past.

There are so many users who attest to the ability of this Range. They state with enthusiasm that it lessens anxiety, adds more interest to every meal.

The "Happy Thought" makes happy homes happier. It carries brightness with it because it is so handsome, so pleasing in design. Make it your Kitchen partner.

We are very anxious that you should see one of the Ranges—you are therefore the more cordially invited to visit our store and have the "Happy Thought" demonstrated. You will be under no obligation.

CAMPBELL & BEST

134 HUNTER ST.

Colds & Common Sense

You have a cold, or your child has a cold: a cough; a tight feeling across the chest; a soreness in the breathing tubes.

In the past how have you treated such? You have bought some cough mixture, and swallowed this down into your stomach. Now, why? Your stomach was not ailing; and there is no direct connection between your chest (where the trouble is) and your stomach! Then why swallow into your stomach *any* mixture when the trouble is in your lungs and bronchial tubes?

It's a mistake; and Peps is the remedy provided to correct this un-commonsense treatment. Peps are little tablets, which contain highly beneficial Pine essences, combined with other medicinal extracts. These healing extracts are so prepared that as soon as you put a Pep into your mouth they are liberated in the form of healing vapors. You breathe these vapors down to the throat and lungs, and thus treat the organs that are inflamed, *direct*. In a way, it is like breathing from a vaporizer or bronchitis kettle, except that there is no apparatus needed, the little Peps providing everything needful for the treatment! The very small portion of Peps which you swallow has a slightly tonic effect upon the stomach and does you good, but the use of Peps is not for stomach troubles, but for lung, throat and bronchial troubles. Peps relieve these as no ordinary treatment can.

Children like Peps and they are best for the little ones because Peps contain no morphine, laudanum or other poison found in so many of the old cough mixtures.

Druggists and stores everywhere sell Peps 50c. box or from Peps Co., Toronto, for price. Remember the name—four letters only:—

Peps

CURLERS FOR SCOTLAND

The 32 Canadian curlers, of whom Chief of Police Airth, of Renfrew, is one, who will represent this country in Scotland next winter expect to leave for the old land on the steamer Empress of France, December 30th. The boat will be taken at St John, N.B., and the passage price each way is $207. While in Scotland the visitors are expected to pay their travelling expenses from place to place, but so far as board and entertainment is concerned the Canadians' money will be regarded as counterfeit the different Scottish clubs bearing all the outlay.

Dr. Wilfred and Mrs. Grenfell.—Latest photo of the famous missionary, who has worked for 28 years in Newfoundland and Labrador. He is now visiting Ontario.

CHARGES ATROCITIES AGAINST SOVIET TROOPS IN POLAND

NEW YORK,—Bringing reports, signed by alleged eyewitnesses, of atrocities committed by Soviet troops in Poland, with photographs of the victims, Henryk Arctowski returned to this country yesterday on the French liner Lafayette, on his way to Washington. He was sent in May last on a special mission to Karsaw by the Polish Legation in Washington, and had charge of 850 refugees returning to this country, leaving Warsaw twelve days ago.

Mr. Arctowski was visibly moved yesterday as he drew the photographs from a portfolio to show them to a Times reporter. "When I see these pictures and think what my poor suffering countrymen have under gone at the hands of these savages, I can hardly control myself," he said.

"Nothing that was done by the Germans in Belgium or any other part of Europe in the early days of the great war," he continued, 'could compare with what the Bolsheviki are doing in Poland today. The Poles are fighting, with their backs to the wall, for civilization and Christianity against savage hordes who want to overrun Europe and destroy every form of humane government. Not content with torturing the civilians, men and women, in the towns they have captured, they behave like banditti and leave the bodies of their victims lying nude by the wayside or in the charred embers of their houses.

"Their favorite method of torture is to rive steel nails into the brains of their captives. Another method is tearing their eyes out and leaving the victim to die in agony, after stripping the body of all clothing.

"A third torture is what the Bolshevist fiends call giving a pair of gloves with a sharp knife and then drawing the skin down over the hands."

At this point the Polish Attache produced several photographs showing the naked bodies of civilian inhabitants with their faces full of small holes made by steel nails.

One photograph showed the body of a Polish Red Cross nurse in uniform. She had been shot and left on the field after being given first aid treatment. Later her eyes had been torn out. Near her body was one of a Polish surgeon, in Red Cross uniform, who had received similar treatment.

Another set of pictures showed ten boy scouts who had been surrounded by Soviet soldiers and hacked to pieces in Ploskirow, Podoli, about 400 miles southwest of Warsaw. Some of the photographs showed fully fifty or more naked bodies lying on the ground with marks of the nails in their faces and skin hanging over their hands that were too terrible to gaze upon. It was the sight of these pictures so agitated that he could not talk.

"I am taking these pictures to Washington and another set of them has been sent to London and one to Paris,' rM. Arctowski said. "It is impossible that men and women in America and Great Britain should dream for one moment of making an alliance with the Bolsheviki. Poland is fighting for the Jews as well as the Christians. The reports of pogroms in Poland are chiefly the work of agitators among the Jews in the big cities and are deplored by the Hebrew community, who realize the harm such propaganda is doing to our common cause.

"When I left Warsaw twelve days ago the booming of the guns could be heard and the enemy was not very far from its gates. Since then the Bolsheviki have been driven back, and they must be crushed before we can ever have an real peace on earth.

"After I have visited the Legation in Washington and made my report I intend to circulate these pictures and will give addresses in the churches in the United States, with lantern slides, in order that the laboring men who have refused to handle munitions to help Poland may know the kind of people they are working for. The sympathizers of the Bolsheviki will say, perhaps, that the stories of the atrocities are exaggerated, but in addition to the photographs we have the time and place where these deeds were committed and the survivors who saw them enacted."

Another passenger who returned from Poland on the Lafayette was Henry Colodny, a New York business man, who said the situation in Poland as the Soviet armies advanced toward Warsaw was very bad. Hundreds of Polish refugees, mostly Jews, who had been forced to leave their homes and flee to Warsaw, had waited for weeks to get a wire from the United States Consul in that city to enable them to embark at Danzig for America. The wait was so long that in many cases, he added, the refugee's little stock of money was eaten up and he could not afford to pay the high steerage fares now charged by the steamship companies If America did not help Poland, and the Bolsheviki were permitted to swarm over the country, they would continue into Germany and Austria and that would be the end of the world as far as modern civilization was concerned, he asserted.

Canada is the Eighth Maritime Power

Seventy Years Ago Canada Was Third

There are 8,700 ships under the Canadian Flag to-day.

The value of the Merchant Fleet of Canada is $250,000,000.

Through lack of interest of Canadians in their maritime affairs these ships are neither officered nor manned by Canadians.

To-day the protection of Canadian Trade Routes is not given by Canada.

The burden of the British Navy is Seventeen Dollars per head of British taxpayer. The "burden" of the Canadian Navy is twenty-five cents per head of Canadian taxpayer.

BUYING DIRECT FROM THE MANUFACTURER SAVES the MIDDLEMAN'S PROFIT.

HOW PRICES FELL

Now that a contest in waiting has developed on both sides of the line, regarding the sale of the 1920 wheat crop, it is of interest to glance at the grain prices which have ruled during the past few years. Unexpectedly heavy declines in wheat prices have been a shock to the farming community, and have led business and financial people generally to speculate as to the outcome. Deliveries of wheat are light in the Western States, and the threat is made by the farmers that they will hold it until the price is more to their liking. Crop prospects south of the Equator will have a bearing on the world wheat price in a few months. Australia and Argentina are expecting a heavy crop, while even India will have 50,000,000 bushels for export.

Local financial opinion appears to be strong against any return to control of price, particularly as values are falling rapidly on other commodities, in which the business man may stand to lose large sums. That he has profited heavily during the past few years as prices went up is no more consolation to him than the fact that the farmers made well under high wheat prices will lead the agriculturists to accept this year's prices with good grace.

The following table of prices at Chicago gives an idea of the great changes that have taken place in grain, provisions and live stock prices in the past few years, the quotations covering the prices seven years ago, the record price in the intervening period and the present price:

	Oct. 12, 1915.	Record price.	Present price.
Wheat ..	85⅞	3.50	1.08¼
Corn ..	68½	2.30	85½
Oats ..	40½	1.29	55⅜
Rye ..	66⅞	2.95	1.65
Pork ..	19.57½	56.00	22.40
Lard ..	10.65	35.85	19.50
Short ribs	10.75	30.00	16.50

SLICING A HAM IS TRULY A FINE ART

History tells us that Louis Phillippe prided himself on this accomplishment. During the time that he occupied the Tuilleries there was never a dinner served, no matter how ceremonious the occasion, that a large smoking ham was not placed before the King. Rising and signaling for silence during the delicate operation, Louis Phillippe would operate upon the ham like a conjuror.

The rapidity and precision with which he would dissect the dainty, appetizing piece of pork, the size and wafer-like thinness of the slices, the dexterity with which he would place them upon the waiting plates is said to have been a truly remarkable performance.

Disraeli records a conversation with the Monarch, in which Louis informed him that he learned the trick from a waiter at Bucklersbury, where, during his period of exile, he was in the habit of dining at ninepence the meal.

SORROW.

There is a strange possibility of gladness latent in all sorrow. That is why the people who suffer and struggle most are often among those who are most surely happy. Your soul was made for joy as surely as a harp was made for music. You cannot escape it. A friend of Dr. Johnson spoke for many of us in his naive confession that he had tried to be a philosopher, "but somehow cheerfulness was always breaking in."

Have you considered that, owing to increased values of practically everything within the last few years, you may not be protecting yourself by carrying enough

Thanksgiving

To give thanks in earnest is a beautiful thing to do. But to give it, and in return we do nothing for which to be thankful, is the highest form of hypocrisy.

That is something which we strive always to avoid. Sometimes there are occasions when one's patience is worn to a thread.

But it is things of this sort which makes for betterment and for our part we are glad of it. For since last Thanksgiving Day, there have been many obstacles to surmount. Good merchandise has been scarce. Prices have been high. Besides other things which have tested the mettle of every merchant. Notwithstanding these things, our business has grown; the confidence the public has in this store and its personnel has increased. For these and other things we are very thankful.

Three Piece Chesterfield Suite $198.00

COUNTY TEACHERS MEET IN ANNUAL CONVENTION YESTERDAY

HELPFUL ADDRESSES BY THE TEACHERS—IMPROVEMENTS RECOMMENDED.

The annual convention of the teachers of the County of Peterborough opened in the Normal School yesterday morning with the president, Mr. R. Hanna, in the chair.

The minutes of previous meeting were adopted as read. Nominating and press committees were appointed. Inspector Lees advised the use of the new arithmetics and specially the new text-books on grammar and composition.

The president in his address dwelt on the fact that teachers are not only educationists, but should feel the responsibility of being character builders, and he thought it would be a good idea that teachers should have a distinctive badge or button of some kind.

Mrs. Alice Stilson gave a very instructive and comprehensive report of the Ontario Educational Association. Among others the following points were noted: Clay-modelling is a very helpful and necessary part of the plan of instructing the young. The health of the pupils should be first, last and always kept in mind by the teacher. This is very difficult in the ordinary rural schools due to the lack of provision for ventilation. The "two and three" story Public School is doomed to extinction, and a one-story building having play rooms as well as recitation rooms.

Test System.

The benefits of an intelligence-test system of promotion in all educational institutions were dwelt upon and the prophecy made that this will be the usual method in ten years from now.

Miss L. Armstrong.

Miss Jean L. Armstrong, of Keene, also gave a further report on the O. E. A., "Children should be trained to take their place in the home community." The school curriculum is too extensive and over-burdened and school hot lunches should be given in all rural schools. We need a new kind of rural education. Farms are growing larger and the population less, so that even now many rural schools are closed. Singing and music should be a part of the daily exercises of every school. Music is the oil that keeps the school machinery running smoothly. The whole world is only beginning to realize how important education is.

A hearty discussion followed the above report, which developed into a story-telling contest to which several responded. A vote of thanks was tendered the delegates for their full and instructive reports.

Writing for Beginners.

In the afternoon the convention was favoured by an address on "Writing for Beginners," by Mr. McKone. The first thing necessary being proper blackboard space for pupils use, and adjustable seats. An outline of the various steps of proceedure was given. Writing is learned by the sight and tracing method, and is presented in connection with the present system of teaching reading. Proper position at desk is of great importance. A good plan for teaching the proper position of the pencil is to tie a string around the pencil and have thumb at one side and forefinger on the other. The proper order of teaching the letters also was given. A good discussion followed the address.

Helpful Address.

Dr. Pulford then gave a very helpful and instructive address on "The Need of Dentistry in the U. S." "Health is necessary for progress in education." Unhealthy mouths are a detriment to all progress. The small amount of cost to provide adequate care of the teeth up to 18 years of age would be returned with greater health and efficiency in all school work. Good teeth are necessary for mastication, vocal enunciation and facial appearance. Diseased teeth are a menace to health, as many diseases follow. Therefore, teeth sould be examined at least twice a year, and a tooth-brush drill in the Public Schools was recommended, and the hope expresed that in the nar future free and adequate care of the teeth in the schools will be provided. A vote of thanks was tendered for his helpful address.

More Accommodation.

Mr. J. P. Coholes, Provincial School Attendance Officer, then addressed the convention. The increased interest in education in our Province has manifested itself in the demand throughout our cities for increased accommodation in the schools especially the urban ones. If we could destroy illitteracy in our Province we could increase our productivity annually by sevent-five millions of dollars. The amendments to the School Act regarding compulsory attendance were referred to and discussed fully, especially the duties of the teacher in relation to the same. Monthly reports to the attendance officer of non-attendant are obligatory. Attendance officers should be kind, but firm. The great difficulty seems to be the securing in each municipality of a person who is willing to assume the responsibility of an attendance officer. A standing vote of thanks of those who promised to do their part in the carrying out of the Act was unanimous.

The subject of "B. B. Illustration and Decoration" was taken up by Mr. R. F. Flemming. This is a difficult proposition with most teachers, especially those who are not artistically inclined. The color-chart and its application was explained by several illustrations on the B. B., such as a basket of fruit, a club-bag, in picture form. B. B. illustration in literature and history, etc., is very effective, as pictures leave a lasting impression on the mind. Several other illustrations were given in line, color and mass pictures.

B. B. decoration by the use of stencils was also illustrated.

NEGLECTED CAR BRAKE WENT OVER EMBANKMENT

PORT HOPE, Oct. 14.—When Dr. M. S. Hawkins drove into his yard Tuesday evening he jumped out of his car and carried some parcels to the house. He neglected, however, to put on the brake and when he returned the big car was over the steep embankment north of the house. The car was removed with considerable difficulty and was damaged to quite an extent.

MRS. ROSE E. TUTTLE, of Portland, Maine, who says she feels like she has taken a new lease on life since taking Tanlac. Her rheumatism and other troubles have been overcome.

"Tanlac is the grandest medicine on earth, and I just wish it was so every woman who suffers like I did could know what it will really do," said Mrs. Rose E. Tuttle, of 293 Congress Street, Portland, Maine, recently.

"No one will ever know how I suffered," she said. "My stomach was so disordered I had to be very careful about what I ate. Potatoes and other starchy foods would completely upset me. Frequently after meals I would have terrible pains in my stomach, my breath would get short, and I would have a depressed and uneasy feeling about my heart. Often I was troubled with pains under my shoulder blades and I frequently had bilious attacks.

"I also suffered with rheumatism, and this, together with my other troubles, was simply wrecking my health. I felt weak, nervous and rundown all the time, and seemed to be losing weight and strength every day. My sleep was poor, and often I was in such misery I wouldn't close my eyes all night long.

"Before I finished my first bottle of Tanlac I realized I had at last found the right medicine. My condition improved daily as I continued taking Tanlac, my appetite picked up and I was soon eating three hearty meals every day without suffering in the least afterwards. That horrible indigestion has disappeared, I am no longer nervous, I sleep soundly all night and feel splendidly all during the day. My strength has been increased until I can now do all my housework with ease. I am praising Tanlac every opportunity I have."

Tanlac is sold in Peterborough by the Warne Drug Co., Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Golden by A. J. Scott, in Westwood by G. Pringle & Son. (Advt.)

It Is the Thanksgiving Season and Our Store Is Overflowing with Wonderful New Goods

We Are Told That Thanksgiving Was Celebrated for the First Time in 1621, By the Pilgrim Fathers

after they had gathered their first harvest.

And now, after nearly three hundred years, one day is still set aside for Thanksgiving, after the harvest has been garnered.

This year should surely be a year of Thanksgiving all over our land, for the fields of Canada have yielded in abundance.

In observance of the time honored and righteous old custom of Thanksgiving, this store will be closed all day Monday, October 18th.

The Cressman Co. Ltd.

Regular $1.50 Linoleum for $1.35 Sq. Yard

Seven hundred yards of this extra heavy quality Linoleum. You have choice of floral, tile and Persian designs. It is four yards wide and the colors are light and medium.

$5 Scotch Madras Curtains, $3.39 Pair

These are twenty-five pairs of these. We wish there were more. The designs are floral and conventional and the color is a cream shade. The length is 2½ yards.

$1.35 Japanese Axminster Door Mats, 98c

They are Axminster weave and have a silky finish and the design is an Oriental effect; the ends are fringed. They measure 15 inches x 30 inches.

The Bargain Annex

WILL BE OPEN ALL DAY SATURDAY

—LEADER—

Ladies' 85c Knit Ribbed Vests, 49c Garment

When we tell you to-day's actual wholesale cost of these Fall and Winter Weight Undervests is eight dollars a dozen—almost seventy cents each—you will fully appreciate the Leader price for to-morrow. We purchased a tremendous quantity late in 1919, and by carrying them in stock for nearly a year, we are able to offer this extraordinary value. They are splendid quality, knit, ribbed garments with button fronts and long sleeves; choice of white or grey.

We cannot accept 'phone orders on this line and there will be a limit of six to one buyer.

—LEADER—

55c Heavy White Flannelette, 39c Yard

(SEVEN HUNDRED YARDS)

It is a heavy quality and is 34 inches wide and has a soft combed finish and to-day's regular cost is as much as our street floor price of 55c yard. There is a limit of 20 yards to one buyer and 'phone orders will not be accepted. Sold in 5 and 10 yard lengths only.

—LEADER—

Yard Wide Striped Flannelettes, 33c Yd.

These are Canadian made and a good quality and the patterns are pretty striped designs. They are a good weight and the widths run from 35 to 36 inches. If they were purchased on to-day's market the lowest possible selling price would be 45c yard.

Twelve Other Annex Lines That Are Sharply Reduced

55c Curtain Nets and Scrims, yard..... 39c
85c Habutai Wash Silks, yard..... 49c

Bread and Butter
Pot of Tea or Coffee

Women Who Really Want Blouses Will Be Interested in These $12 Georgette Crepe Ones for $7.95

The styles are many. There are round yokes, high necked and collarless styles. Pretty bead patterns, tucks and embroidery supply the garnitures. You will find it difficult to decide which of these lovely colors you will want—flesh, white, peach, maize, taupe and black. There is a good assortment of sizes.

$8.50 Blouses of Voile for $5.95

The voile is a good quality, and styles are in keeping with the material. Some of the sleeves are long and others short and some of the yokes are square and others pointed and several are high necked ones. The trimmings are widely different and on many of them a combination of one or more are shown. Tuckings, val. Venise, filet and torchon laces are greatly used and also dainty hemstitching and ribbon touches.

$7.25 "Lustrite" Petticoats, 4.95

It is a serviceable material with a good sheen and is light in weight. The top is finished with an elastic and the bottom is tucked and frilled. The colors are: green, navy, grey and black.

Coats at $34.95—They Were $39

They are much smarter than you would suppose. The materials are silvertone, leather and whitney. The colors included in the assortment are brown, beaver, platinum grey, oxford, navy and black. The three-way collars are desirable and the pockets are seen in a variety of modes. Shoemaker stitching and cordings are liberally used.

$47.50 to $49 Coats for $39.95

Rarely are such coats marked at such price so early in the season. They have many desirable features and much style. The colors are elk, beaver, taupe, navy and grey. The materials are lovely warm qualities of silvertone, goldtone, velour and velourette. The pockets, belts and trimmings are novelly arranged. Obtainable in sizes 36 to 42.

On Saturday in The Redfern Store

We Have Decided to Sell $52 and $62 Suits for $42.95

This is quite a reduction, and with the tendency of the weather to stay warm, you will get much wear out of them. They are smartly tailored of serge, tweed and goldtone. They are made in this season's chic styles. The coats are trimmed with pin tucks and buttons. The collars are convertible style and the coats proper are lined with heavy satin.

Ten Georgette Crepe Blouses at $12.50 Each

They are worth a great deal more, but they are the last of their kind so a good reduction is made. They are trimmed with hemstitching, tucks and beads. The color range includes maize, flesh, navy, black and white.

$6.95 Is Really Too Little for One of These Serge Skirts

They are made in two-piece style and have a narrow belt and are smartened with pockets and button trimming. They are smartly cut and moreover are of fine wool serge. Can be had in either navy or black and in all sizes.

$4.95 Silk Blouses at $3.98

Habutai silk is employed in the making. One of the splendid features of this silk is that it washes perfectly. These are trimmed with clusters of tucks and the cuffs are hemstitched and the collars are convertible style. Obtainable in either black or white.

A Special Price on House Dresses, $3.19

They are made of percale and some have long sleeves and others ¾ length. The predominating colors in the different garments are navy, black, white or grey.

Our $69.50 Suits for $52

A Thanksgiving Special

The materials are silvertones, serges, goldtone, gabardine and tricotine. You have such wonderful colors to select from as pheasant brown, navy, black and dark brown. We could tire you with endless descriptions of styles and go into details about cordings, buttons and braid trimmings, but it is sufficient to say that you will not be disappointed. Everyone is this season's model.

Our Shoe Department Makes Some Unusual Saturday Propositions

Ladies' $11 and $12 High and Low Heeled Boots, $8.75

You have choice of either black or brown. Real modish boots they are of fine calfskin with recede toes and shapely heels. Nothing cheap or shoddy about them in appearance or quality. Obtainable in a good range of sizes.

$2.50 "Venus" Silk Hosiery at $1.95 Pair

"Venus" is one of the leading brands of silk hosiery and these are perfect in quality and fit. They are obtainable in black, white, mid-grey, taupe, Russian calf and dark brown. **There is no tax on these. On sale in our Shoe Department, 2nd floor.**

Children's $1.75 Golf Socks, $1.39

They can be had in sizes 7 to 10 and are presented in a large assortment of tops. They are ideal for this season of the year.

Ladies' $12 Brogue Oxfords, $8.75

These are the regular brogues with the fancy perforations. They are made of select calfskin and have nice weight welted soles. We would not think of selling them at this price if it were not that there are only a few sizes left.

Ladies' Party Slippers

They are patent pumps with high heels and can be had in a good range of sizes. Regularly we sell them for $7.50. Saturday the price will be $6.49.

There Is a Ladies' Shoe Shine Stand in Connection with Our Ladies' Shoe Department on Second Floor

TRINITY CHOIR HELD A BANQUET

FORTY MEMBERS OF THE CHOIR PARTICIPATED.

Forty members of Trinity Church choir attended the annual choir banquet held last evening in the Reid Street Hall, and the entertainment was a huge success. After the fowl supper, served from a table prettily decorated with French roses and ferns, the election of officers took place, which resulted in Mr. J. Kennett being reappointed president and Mrs. A. Fife, secretary.

Short Addresses.

The president, Mr. Kennett, briefly reviewed the year's work, and spoke of the untiring efforts of Mr. and Mrs. George King in bringing the choir to its present high standard.

Rev. F. E. Malott endorsed Mr. Kennett's appreciation of Mr. and Mrs. King's services, and spoke of the success of Mr. King's pupils, especially those who have joined Trinity choir.

Mr. King thanked the speakers for their words of appreciation, and assured the pastor, Rev. Mr. Malott, that while he predicted a jubilee year for the church, a jubilee year for the choir is also assured. Mr. King also referred to the excellent work of the choir committee.

The choir members then adjourned to the church, where the first choir practice for the ensuing year was held.

NO CHANGE IN BREAD PRICES

BAKERS CLAIM GROCERS ARE SACRIFICING THEIR PROFIT.

"Only to catch trade," the bakers of the city told The Examiner when asked why some of the stores in the city had lowered the retail price of bread and all claimed that there is no immediate prospect for a lowering in the wholesale price. Flour, one of the bakers said, has not all to do with the price of bread, coal featuring very largely in the manufacture of it and with the much advanced price of coal the bakers have to keep the price of bread up. Wages are also responsible; the average baker paying time and a half for overtime or 90c. an hour. Bread may be had at the factory for 13 cents a small loaf at all times, one baker said, and the grocer who sells at 13 cents is merely sacrificing his profit in order to advertise.

WORLD HAPPENINGS

SUSPENDS THE SUGAR ORDER.

(Canadian Press.)

OTTAWA, Oct. 15.—The Cabinet has suspended the sugar order of the Board of Commerce, raising the price to 21 cents per pound.

NOMINATE CANDIDATE.

(Canadian Press.)

TORONTO, Oct. 15.—The Liberals of North-East Toronto have nominated Major Kippen, D.S.O., M.C. with bar, to carry the standard on 8th November next.

CLEARS GOVERNMENT.

(Canadian Press.)

LONDON, Oct. 15.—Lloyd-George states that the Government has done its best to avert the calamity of a miners' strike.

DELAYS TRIP.

(Canadian Press.)

OTTAWA, Oct. 15.—The sugar situation has held up Premier Meighen's intended trip to the West.

POT BOILS MERRILY.

(Canadian Press.)

LONDON, Oct. 15.—A political tempest rages in England—Asquith attacks Lloyd-George, while Carson attacks Asquith. There have been acrimonious exchanges over the Irish question.

DEFY THE ALLIES.

(Canadian Press.)

VIENNA, Oct. 15.—The Jugo-Slav troops have ocupied the towns in the plebiscite zone in defiance of the Allies.

PLOT DISCOVERED.

(Canadian Press.)

KINGSTON, Oct. 15.—A big plot has been discovered to blow up the Penitentiary. Enough nitro-glycerine was found to destroy the whole prison. Unknown parties on the outside are sai dto be the leaders in the plot.

PETERBORO LADY AT CONVENTION IN TWEED

Mrs. James Kendry of the city, was a welcome visitor at Madoc's twenty-fifth annual meeting of the W. M. S. Tuesday. Mrs. Kendry is treasurer of the Bay of Quinte Conference of W. M. S. and has rendered many years faithful service. She spoke of her work and was especially pleased to hear the roll call of names so familiar to her as contributors during a lengthy period.

The local representtaives on the Mothers' Pension Allowance Board have been selected as follows: Convenor, F. H. Dobbin, Miss Mary Stratton, S. Whatley, T. McMurray and Mrs. E. G. Hardie, Murray street.

TURNBULL'S
Annual Harvest Festival

Commences Saturday, October 16th, and Continues Until Saturday, October 31st

A Twelve Day Celebration. In the midst of the harvest season, when the gathering in of the products of the soil into store houses, granaries, barns, etc., is taking place, preparatory, against the winter's cold and harshness, so that all may be supplied with food during the long months to follow.

But not alone with food do we need to be supplied, Warm Clothing of every description is essential to withstand the change in season, which is now taking place. And it is in this need, that we are more prepared to cope with, than in any other previous fall. For months past we have been preparing for this harvest festival of better values and are ready to supply the wants, great or small, of each and every individual.

As a Feature Attraction for the first day of the Great Harvest Festival Sale, an Orchestra, "The Syncopated Three," will render Two Concerts, one in the Afternoon from Three to Five o'clock, and the other from Seven-Thirty to Nine-Thirty in the Evening, from the Balcony, Main Floor. You are cordially invited to attend.

Aunt Ruth's Beauty Notes

ESSENTIALS FOR EVERYDAY TOILET USE.

Some stores sell Toilet Goods because they have to. Some keep them as a side line in the Notion Dept. Some have beautiful cases filled with High-class Perfumes, and really sell only a few Soaps and Dentifrices.

Our *Toilet Department* is made up of *Essentials for Everyday Use.* Most men and women think it is sheer vanity to use Toilet Goods; they think of it as doing something that is artificial in order to deceive people about their age and appearance. Yes, that is a cold, hard fact, silly as it sounds. Would those same people say that it was trying to deceive people about their strength to take daily exercises and enlarge their muscles and give new and youthful vigour to their whole system? Nonsing of the sort.

Well, the treatment of the Skin is exactly the same as the treatment of the muscles. Working the muscles simply creates new circulation, that makes the blood carry the new energy to cells that were inactive before.

Massaging the face is simply creating new circulation that makes the tissues more healthy, and makes the blood more active, hence the skin more rosy, filling up the wrinkles with new tissue.

The Face looks younger because it is younger, not because of something that has been put on it necessarily, but because of what has been done to it to give it new life and vigour.

Aunt Ruth

OPENING

Our Soda Water Fountain on the Main Floor, rear of Centre Aisle, on Saturday. Meet your friends here, while doing your shopping

High-Class Menu

The Harvest Festival is being Celebrated in the Housefurnishing Department, 4th Floor

MORE DEVELOPMENTS IN BASEBALL SCANDAL

JOHNSON, OF AMERICAN LEAGUE, SAYS WE MUST KNOW WHO'S WHO IN GAME.

(Canadian Press.)

CHICAGO, Oct. 15.—Startling developments in connection with the reconvened special grand jury's investigation of baseball gambling next week were indicated to-day by President Ban Johnson of the American League, in discusing his reason for sending a telegram to President Seydler of the National League, opposing as premature the conference of club owners here Monday, to frame a new governing tribunal for professional baseball players.

Johnson said: "It is my information that clews are now in hands which may lead to a disclosure of more facts than have yet been dreamed of. I believe that all attempts to reform baseball by a new tribunal should be deferred until we know who is who in baseball.

"Some people are sore by exposures already made. More may be made sore when information likely to come before the grand jury next week is known. I believe developments of the coming week will be even more surprising to the public."

MAY BE RED HOT RIOT IN OTTAWA

TROUBLE OVER MEETING OF ALLEGED SINN FEINERS EXPECTED.

OTTAWA, Oct. 15.—A dangerous situation has developed in connection with the approaching convention here to-morow of the Self-Determination for Ireland League that must be taken into consideration if riot and bloodshed are to be avoided. It is certain, if one may judge from expressions of opinion heard on every hand in this city, that the loyal elements who see in such a meeting sinister aspects of treason and disloyalty, are not going to lie down while resolutions misrepresenting the thought of the Canadian people are framed to be sent broadcast among the entmies of Canada and the British Empire.

Counter-Demonstration Plans.

Particularly menacing are the remarks of soldiers who served in the recent war. One was heard to say:

"We fought for this country and this Empire. W're not going to let any renegade of the type of Lindsay Crawford come here and injure the cause we served."

And then he added with considerable show of feeling:

"The canal is close by. For those who choose to be traitors to Canada and the British Empire, we'll use it. If that meeting is held there will be a riot. It's a Sinn Fein outfit, thinly disguised."

There are indications that a counter demonstration, which will be marked by violence, is being carefully organized.

Says It "Breathes Treason."

A professional man, discussing the question, wanted to know who as responsible for introducing this question into a peaceful community. "Too many sins have already been committed under the name of free speech," he said. "This organization that breathes treason, while on its lips is the catch phrase of an American president—self-determination—is looking for trouble, and it is going to get it. Britain needs friends today as never before. There has been too much treachery, too much stabbing in the back. Returned soldiers and loyal citizens are not going to let this affaiffr be staged under their noses."

Inviting a Clash.

It has been pointed out that the holding of the mass meeting of the loyalist citizens and of the self-determiners in adjoining halls is inviting a clash, and it is expecting too much of human nature if order could be maintained under the circumstances.

"The authtrities might as well realize first as last that the Self-Determination League is bringing to this city a menace. This meeting is a challnge. Very well, we accept it," added the citizen quoted above.

Work for the Police.

The foregoing quotations are typical of many and are given merely to impress all the elements concerned, including the authorities, that the situation is full of danger. Names are withheld for obvious reasons.

WHEAT ADVANCED IN PRICE TO-DAY

(United Press.)

CHICAGO, Oct. 15.—Wheat made a big advance in price to-day after the news became public that President Wilson had asked Governor Allen, of Kansas, for information which might indicate that the recent big fall in wheat was due to any artificial causes.

December delivery ran up 13 to $2.21, and closed unsettled at $2.17 1-2.

MILK DRIVERS ASK $70 WAGE

DEMAND FOR INCREASE WOULD GIVE THIS TO MANY OF MEN WEEKLY.

NEW YORK, Oct. 15. — Conferences will be held this week between members of the New York Milk Conference Board and union leaders in an effort to avert a pending strike of the milk waggon drivers in this city and in New Jersey. Board officials say that the proposed new wage rate to the men and a daylight delivery schedule will require drastic revisions of prices to the consumer.

An annual increase in the city's milk bill of $8,000,000 or more will follow if the drivers get $10.00 or more weekly which they are asking.

In many instances the new scale will give the drivers $60.00 to $70.00 a week.

Railroad platform men, superintendents of stores, and other handlers of milk by-products will get pay increases if the agreement is made. The present wage agreement ends on 1st Novmbr.

Although union officials have not announced their intentions, a strike is expected by those familiar with the situation.

MANY SWISS COMING TO NEW YORK.

They Find High Consular Fees a Great Burden.

BERNE, Oct. 15.—The Swiss Parliament has been discussing the continued emigration of Swiss, especially the mountain-bred peasants, who are leaving by the thousand for the United States, while a very much greater number of foreigners from the neighbouring countries—Germany, France, Italy, and Austria—are flocking into Switzerland. In 1920, 8,000 Swiss emigrated, while 80,000 foreigners entered Switzerland.

At the American Consulates in Switzerland it was said that applications come mostly from respectable, hard-working young men whom any country would be glad to receive. Most of them are poor, however, and find charges of $10 for a vise and $8 on entering the United States very heavy. The emigrant must also pay for a French or Italian vise. The fees amount to almost as much as a steerage passage. In the opinion of the American Consuls, emigration from Switzerland to the United States is likely to continue, for everything points to much unemployment this winter in Switzerland.

WRANGLE IS VICTORIOUS CAPTURES MUCH BOOTY

(Canadian Press)

PARIS, Oct. 15.—Offensive begun by General Wrangel, the South Russian anti-Bolshevik leader, on right bank of the Dnieper River, has been pursued successfully, says an official statement issued by the Wrangle administration, Monday, and received here to-day. "We defeated the sixteenth and twenty-first regiments of Bolshevik cavalry and part of the third division of sharpshooters. We captured six cannon and other booty," the statement adds

FARMERS STILL PRESS FOR WHEAT CONTROL

CABINET REPORTS FURTHER CONSIDERATION BEFORE DECISION.

Canadian Press.

OTTAWA, October 15. — Pleas of the western farmers for the resumption of wheat control, were again under consideration at this morning's sitting of the Cabinet Council, but further consideration will be neecssary before a final decision is reached as to the course of action to be followed.

The difficulty in the resumption of control lies in the danger of the government attempting to guarantee a minimum price.

Any such guarantee ,it is pointed out, in so unstable a market, at at present, and taking into consideration the reported world surplus of wheat, might easily involve the government in heavy financial losses.

SUGAR ORDER WAS A SURPRISE TO CABINET

EMPHATICALLY DENIED THAT GOVERNMENT INSPIRED MEASURE.

(Canadian Press)

OTTAWA, Oct. 15.—An emphatic denial is made to-day to statements that the Cabinet in any way inspired the order of the Board of Commerce affecting sugar. One Cabinet Minister describes ahe order as a "bolt from blue." "We know nothing of it. It was a complete surprise," he added.

When sugar refiners appear before the Cabinet on October 20th full particulars will be required af all profits made during recent years. The present situation of refiners is regarded in official circles as worthy of sympathetic consideration. But it is felt that inquiry should not rest with the present financial difficulties of refiners. There is also the question of profits made in the war period. The entire financial history of refiners will have to be submitted.

GOVERNMENT'S ORDER AFFECTS EXCHANGE

ATLANTIC SUGAR DROPS TO 101—SLIGHT RECOVERY AT NOON.

(Canadian Press)

TORONTO, Oct. 15.—The effect of suspension by the Government of the order of the Board of Commerce regarding sugar was early apparent on Toronto stock exchange this morning, when Atlanic sugar dropped in a few moments to 1.01 after opening at six points. Down at 1.09. Over three hundred shares changed hands, and after the liquidating movement had spent itself there was a slight recovery, stock closing at noon at 1.03 for a net loss of twelve points.

ATTELL WANTED IN BASEBALL EXPOSURE

IS LIVING IN MONTREAL—"CAN'T TOUCH ME HERE," HE SAYS.

(Canadian Press.)

MONTREAL, Oct. 15.— Abe Attell, ex-pugilist, whose name has figured prominently in connection with baseball exposures in the United States, is residing in Montreal, according to the Herald. When interviewed here by a Herald reporter, Attell said that he had been living in Montreal since the investigation began, and intimated he proposed to stay here until what he termed "the stink," had blown over. When told he was being sought in the United States, Attell said, "They can't touch me here, and here I stay."

Brothers Were Rivals in World Series—'Doc' Johnston, left, Cleveland first baseman, and Jimmy Johnston, Brooklyn third sacker ,are the first brothers to play against each other in a world's series.

CHINESE AFFAIRS ARE IN A MUCH DISORDERED CONDITION

Since the death of Yuan Shi Kai Chinese affairs have been in much the same disordered condition as those in Mexico since Porfirio Diaz was forced to abdicate. The land is in anarchy, with the authority of the central government in Pekin being derided by millions of Chinese. Nor is there any prospect that the existing government will be able to extend its powers. The country is being ruled by the Tuchuns, and there are hundreds of them, all self-appointed. A Tuchun, strictly speaking, is a military officer with rank corresponding to that of major-general in charge of a division, and his authority should be subordinate to that of the civil governor But as a result of the conditions which have existed since the rebellion of 1911 the Tuchuns have been the only source of authority and so have set themselves up in great numbers and are governing China from their little thrones. The Tuchuns are not unanimously or perhaps even generally bandits or anarchists. They are maintaining some sort of order. Only they refuse to recognize the authority of the central government at Pekin, and since this authority over the greater part of China is non-existent, they may be justified.

The Super-Mandarin.

The most powerful of these Tuchuns, the man who has all Manchuria in the hollow of his hand, and is today master of more territory and a greater number of Chinese than any man since the death of Yuan Shi-Kai was recently the subject of an article written by Mr. J. O. Bland, a correspondent of the London Times. Though dwelling in distant Mukden, Mr. Bland found that the name of Chang-Tsolin was known in every part of the empire. The other Tuchuns agree and he is easily the most powerful and the ablest among them, and many declare that he is the man fit to step in to the shoes of Yuan Shi-Kai, who was the only great ruler produced by China since the days of Li-Hung Chang. They said that it would be an almost impossible task for one man to restore order in China and place the country again on the ordered path of government from which it strayed at the time of the revolution. Nevertheless, with co-operation among the Tuchuns the feat could be accomplished. The Chinese people themselves are willing to set up a government that will maintain order. So anxious indeed are they for the suppression of disorder that they will readily obey any leader who can do this much for them, no matter what litle claim to rulership he may possess.

Chang-Tso-Lin.

Chang is in his forty-seventh year, being comparatively young, like most of the leading Chinamen of the day. His former history is somewhat obscure and it is more than hinted that he is a reformed bandit, though how far reformed is a matter of conjecture. In the interview he had with the chief Tuchun, Mr. Bland was greatly impressed by the fine intellect of Chang. He says "He had the subtle instinct of the super-mandarin, which tells him just how far he may go without undue risk in any direction, and in the matter of official trading his countrymen (no mean judges) regard him as a positive genius." It also was plain that Chang had an understanding of Chinese character the equal to that possessed by the late Empress Dowager, ever a model of Oriental state-craft. Though dwelling in splendor, Shang wears sober civilian attire, and gives the general impression rather of a scholar and dilettante of the classical type than of the forceful man of affairs and powerful military leader. He has a polished manner, and as a diplomat should take high rank, but it is because of other qualities that he has become the chief figure in China.

Banking Up-to-Date.

The wisdom of the serpent and the rarer quality of self-reliant courage are responsible for Chang's success, Mr. Bland continues:

"He manages his own bank, his own farms, has a finger in every commercial enterprise, and his influenec is felt, like a live wire, throughout the three provinces. As banker and Tuchun combined, his methods of dealing with his competitors in local finance appear to be somewhat drastic. It is reported, for example, that when certain local banks engaged in a combine to control exchange in a manner unduly profitable to themselves, Chang called a meeting of those chiefly concerned, and in his role of Tuchurn genially intimated that any further attempt to corner the cash market would result in the summary execution of the offenders. The stock of the Tuchun's own bank has been a 'good market' ever since. In the bean trade, the rice trade, the timber business, and the opertions tf the railway transport companies the supple hand of Chang-Tso-Lin pulls the strings, and his privy purse takes toll. Not only in Manchuria but in Pekin and down south his emissaries are many and active. If report speaks truly, they play a leading part in the speculative but profitable opium traffic."

A Benevolent Despot.

The trade and industry of the three Manchurian provinces pay tribute to him, and the tolls he takes must be prodigious. Nevetheless, the Manchurians are willing to pay, because Chang gives them protection for life and property, and has relieved them of the expense of making contributions to the central government at Pekin. Chang-Tso-Lin has a large army, and it is well paid. He knows that it is only by playing fairly with his troops can he maintain himself in power. He sees that the soldiers are well fed, and he runs his own commissariat. Under his self-appointed despot the people of Manchuria are more contented and more prosperous than they have been for many years. They are not concerning themselves about the wonderful constitution that was drawn up for them several years ago, and which would in course of time have given the Chinese people complete self-government and democratic institutions. Chang may have been a bandit at one time; he may now be amassing one of the greatest fortunes in China, but he has banished lesser bandits from Manchuria, and would probably banish them from all China if he had the power, and the power may yet be his.

Another line of Men's **WOOL SHIRTS.** Regular $2.75. Sale price. **$1.69**

432 GEORGE STREET Opposite Mason's Grocery

THURSDAY'S SESSION OF TEACHERS' CONVENTION CLOSED WITH ADDRESS

MR. F. J. A. MORRIS GAVE AN ADDRESS ON "J. M. BARRIE, THE SCOTCH HUMORIST."

At the evening session of the Teachers' Institute, held in the Collegiate Assembly Hall, Mr. F. J. A. Morris gave an intensely interesting address on "J. M. Barrie the Scotch Humorist."

A Humorist.

The speaker at the outset discussed the difficulty of explaining the term humorist which term, he said, is more easily illustrated than explained. An humorist is more than a funny man who may be nothing more than a practical joker. There are so many types of humor amongst the real humorists in English as Steele, Addison, Goldsmith, and others, that it makes the task of defining still more difficult. Humor seems to be a mixture of love and wit and is thus both emotional and intellectual. Humorous selections are not necessarily brief, and humor is often found in situations and actions without requiring words at all. Mr. Morris did not seriously attempt to define humor, but read a selection from one of Barrie's books where different Scots were discussing amongst themselves the question of humor. In Barrie's books humor and pathos are commingled just as tears and laughter are in ordinary life.

Leader of Group.

Barrie was much influenced in his writings by R. L. Stevenson and belonged to the same school as Ian Maclaren and Crockett; in fact Barrie was the leader of his group. His early life was spent in Thrums. He later went to the south of Scotland to school and to Edinburgh University. He was fond of literature with a strong desire to go to London. One of his writings from Thrums attracted an English editor and led to his ambitions being satisfied. His writings depict Scottish life in his native village and the characters in his books represent real persons, including himself and his family circle. Probably he is best known by his two books, "A Window in Thrums" and "The Little Minister."

Early Successes.

His early success was due to his delightful novels. Later he became distinguished as a dramatist.

Mr. Morris read several selections from Barrie's books which showed the keen sense of humor of the writer and provided for the audience a most delightful evening's entertainment.

After Mr. Morris had finished it was moved by Mr. Mowat and seconded by Miss Gordon, that an expression of thanks be made to Mr. Morris and to those who furnished the musical part of the programme for the pleasure they had given the audience. This was enthusiastically carried.

The singing of the National Anthem ended the evening's programme.

Musical Programme.

The musical part of the evening's programme consisted of solos by Mrs. R. Turner and Mr. M. H. Park. Both solos were rendered in the singers' usual pleasing style and were much enjoyed. Each artist generously responded to the hearty encores of the large audience.

PARIS SUPREME AMONG AMERICANS WHO SEEK DIVORCE

"Rich Americans, when they weary of matrimony, go to Paris."

Announcement of the Parisian divorce of Cyril and Barbara Hatch Prompted the satiric comment, and recalled that several other prominent members of New York's most exclusive set recently have found the French courts far more considerate in the dissolution of marital bonds than American tribunals.

There is much mystery regarding the immediate cause of this divorce, just as there was over the determination of the romance of Barbarba's sister, Margaret Rutherford Mills, and her husband, Ogden L. Mills. The traditional triangle did not figure in either affair. Nothing so vulgar as a co-respondent was ever suggested. Margaret and her husband divided on the time-honored excuse of incompatability of temperament, Barbara and Cyril did not even offer that reason. There seems to have been simply a divorce by disagreement with their baby's time divided between the parents and no defence offered worthy of the name.

The records indicate that Paris is beginning to bid for the business that made Reno famous and kept the courts of Rhode Island and New York working overtime. Reno was inconvenient and common. Now Paris, with speed, secrecy and smoothness!

Divorce While You Holiday.

There's a flair about an imported divorce decree, and the ordeal—if the simple preceedure may be so called—is always over before an inkling gets into print. Also, one may go abroad for any ostensible reason—reconstruction work in the devasted countries, attending to one's foreign financial affairs touring, or what not—and merely stop over in Paris for a divorce. It combines with business or pleasure adirably, and it's quite painless as a rule.

Mrs. Rita d'Acosta Stokes Lydig M. Thomas are also in possession of Parisian decrees issued since the war.

Mrs. Rita d'Acosta Stokes Lydig had previously divorced W. E. D. Stokes.

Frank J. Gould obtained a declaration of independence in the French capital—but Mr. and Mrs. Clarence Mackay really discovered Paris as the ideal point of strategy for a marital finale about a decade ago. The war wiped it out for divorces of convenience for Americans, but with the passing of the war its peculiar advantages are being heavily capitalized. And gossip that at least two more couples well known to the higher social circles are preparing to utilize Paris as a base of separations.

WATCHMAN WAS SHOT AT.

KINGSTON, Oct. 14.—On Sunday evening at the plant of the Canadian Industrial Alcohol Company at Corbyville, Mr. John Orr of Belleville, night watchman, was fired at by an intruder and received a bullet through his cap from a weapon in the hands of the stranger.

AUDITORS TO REPORT ON RADIAL SYSTEMS

PREMIER'S FAMOUS LETTER TO THIS EFFECT READ COMMISSION.

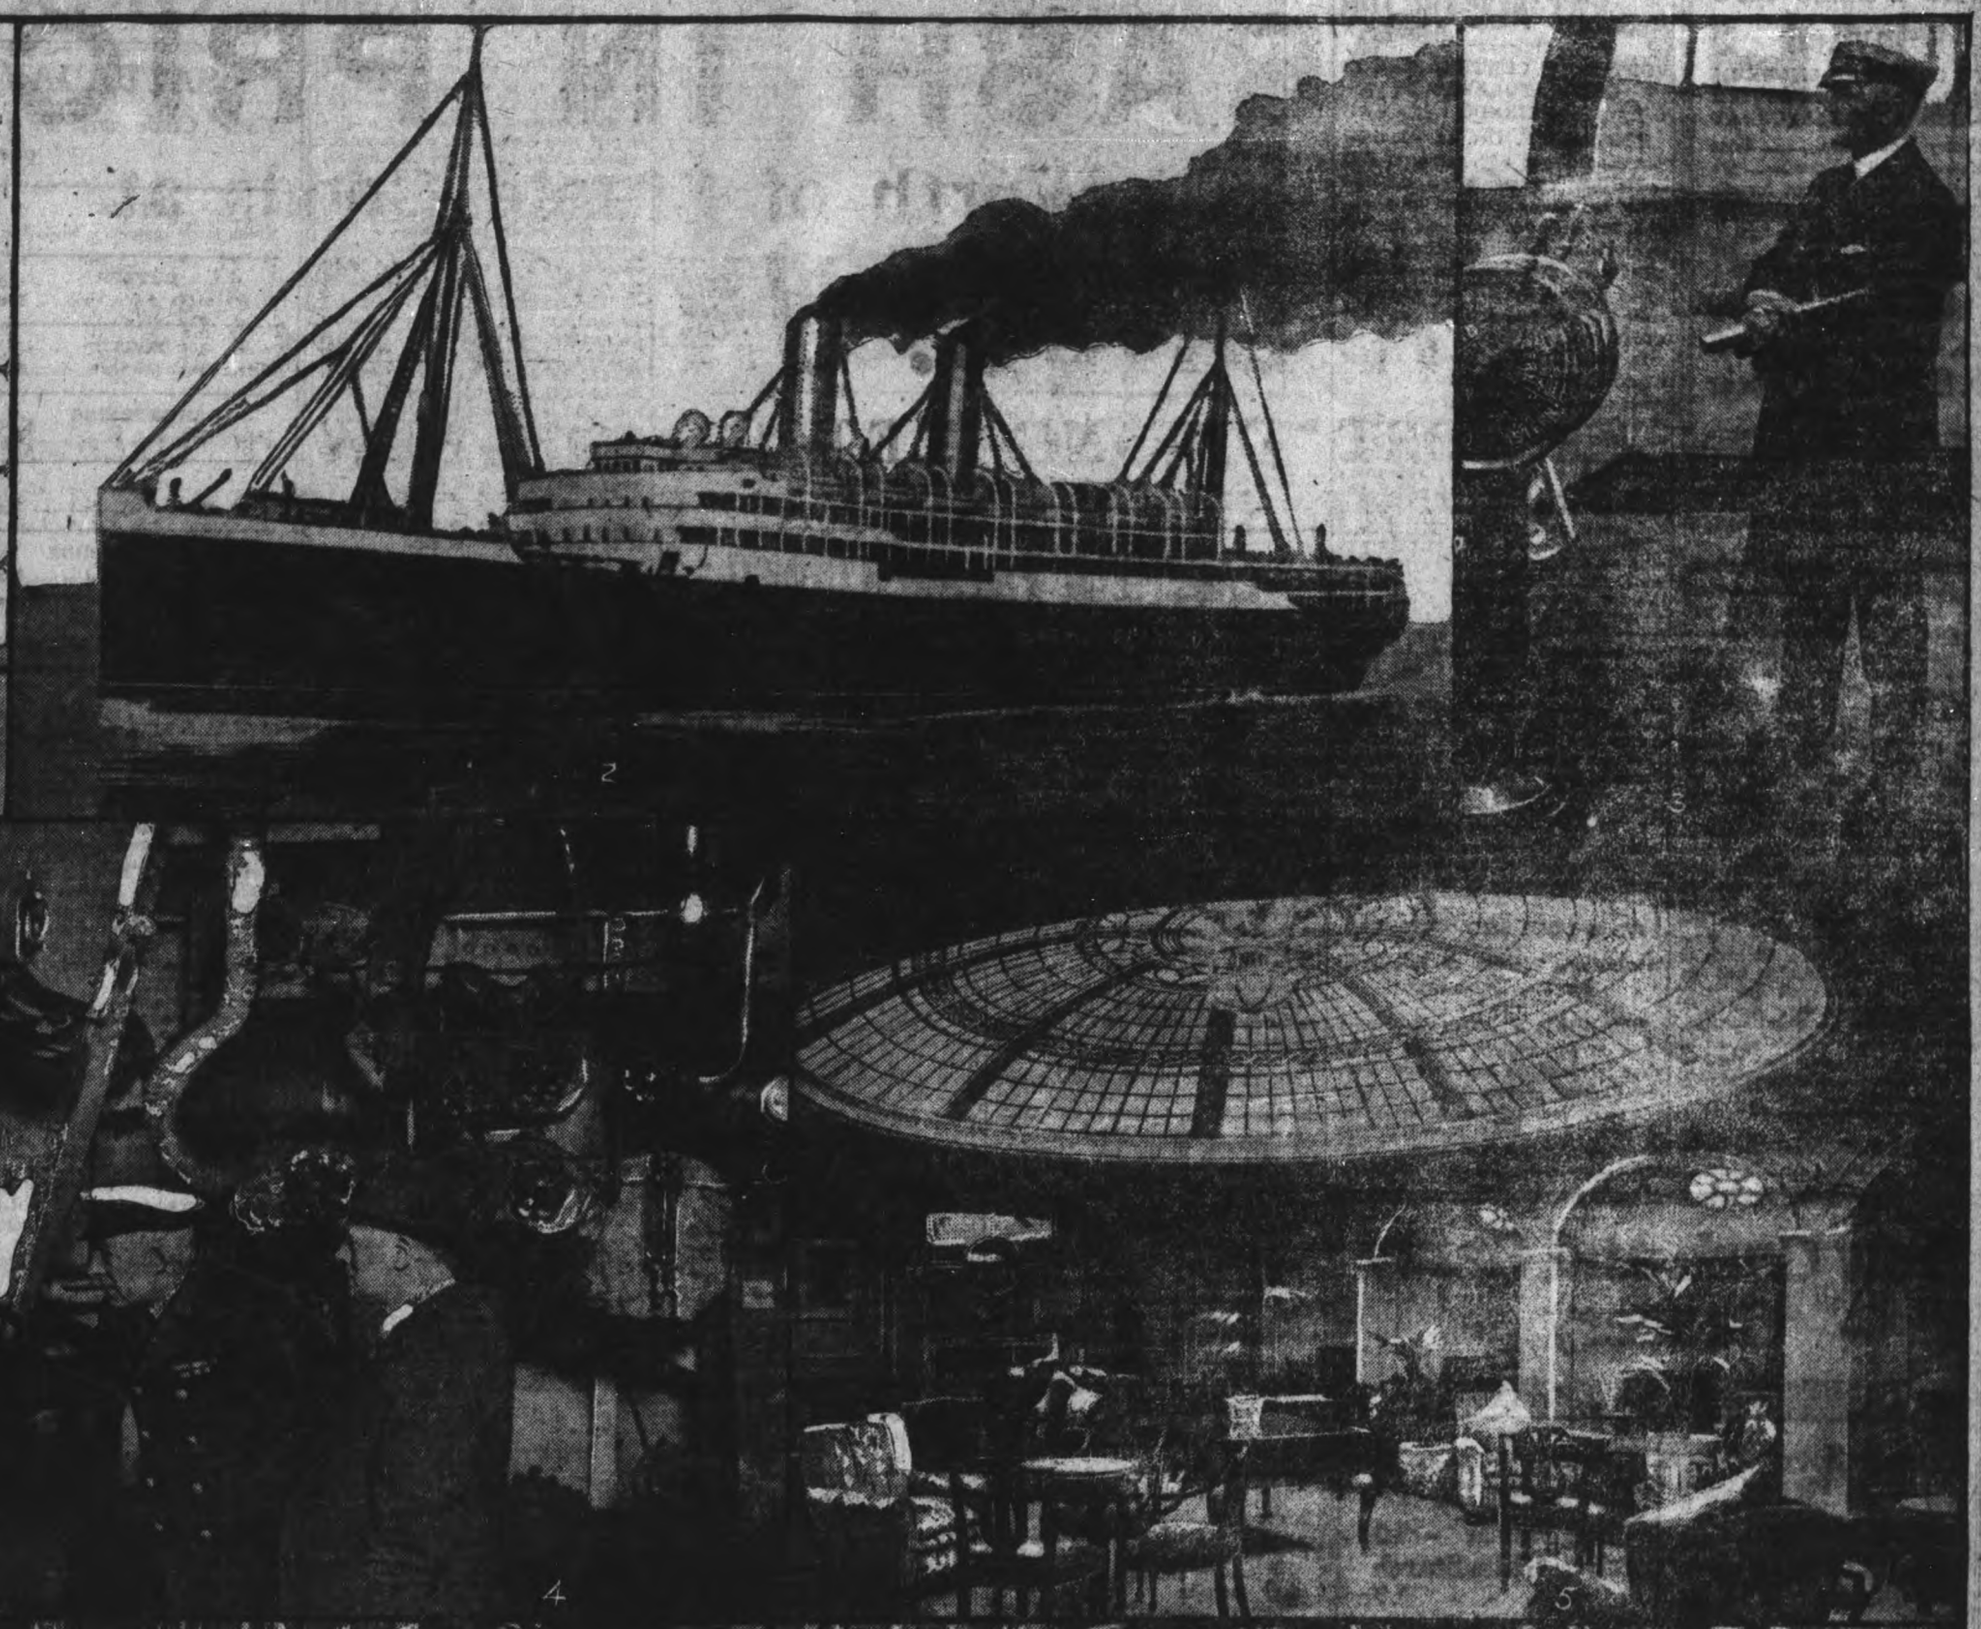
(Canadian Press.)

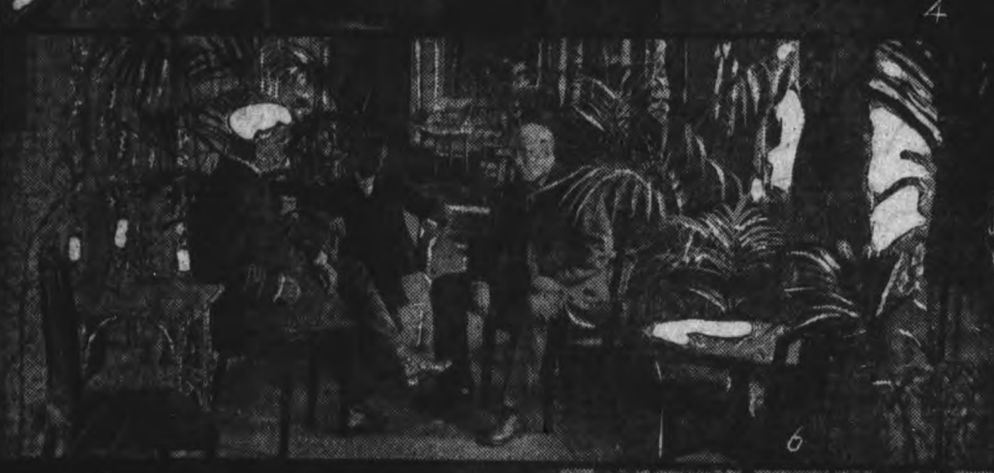
TORONTO, Oct. 15.—The famous letter of Premier Drury to Sir Adam Beck, dated 18th March, 1920, asking for particulars of the various power and radial projects being undertaken by the Ontario Hydro-Electric Commission, was read to the Commission on Provincial and Radial Purchase and Extension this morning.

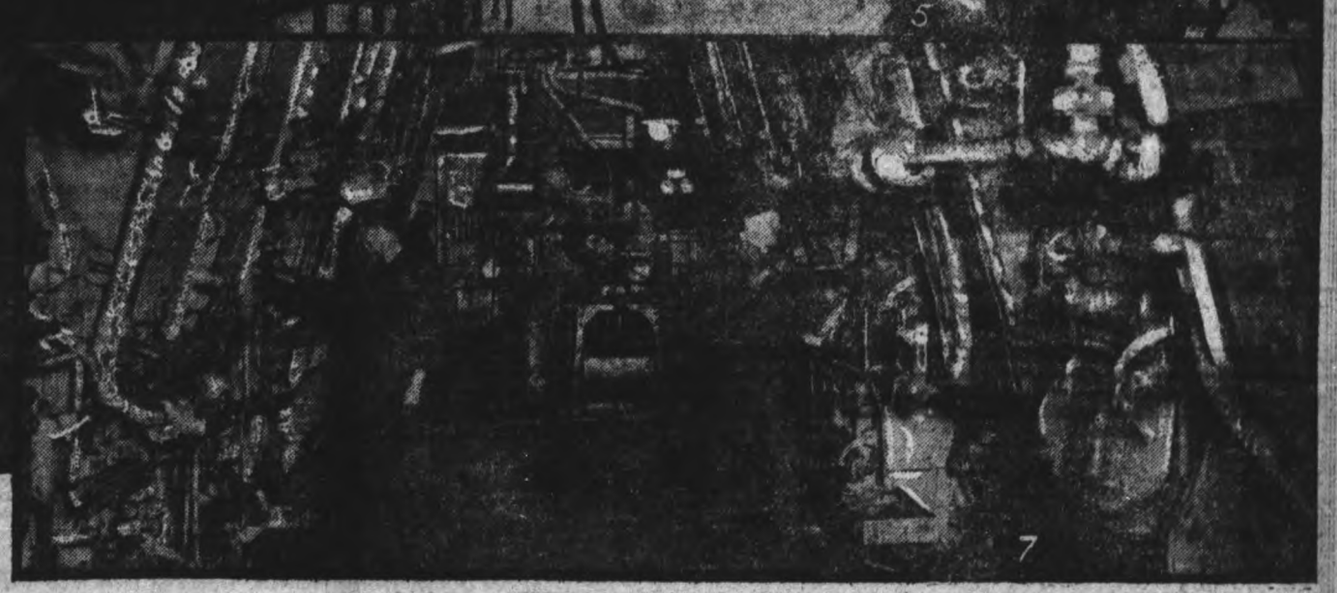
In this letter, the Premier informed Sir Adam, as chairman of the Commission, that he had instructed the auditors to report on the state of affairs in each system, and approximate amount of money to be advanced by the Province to the Commission to complete the work and liquidate the maturing liabilities.

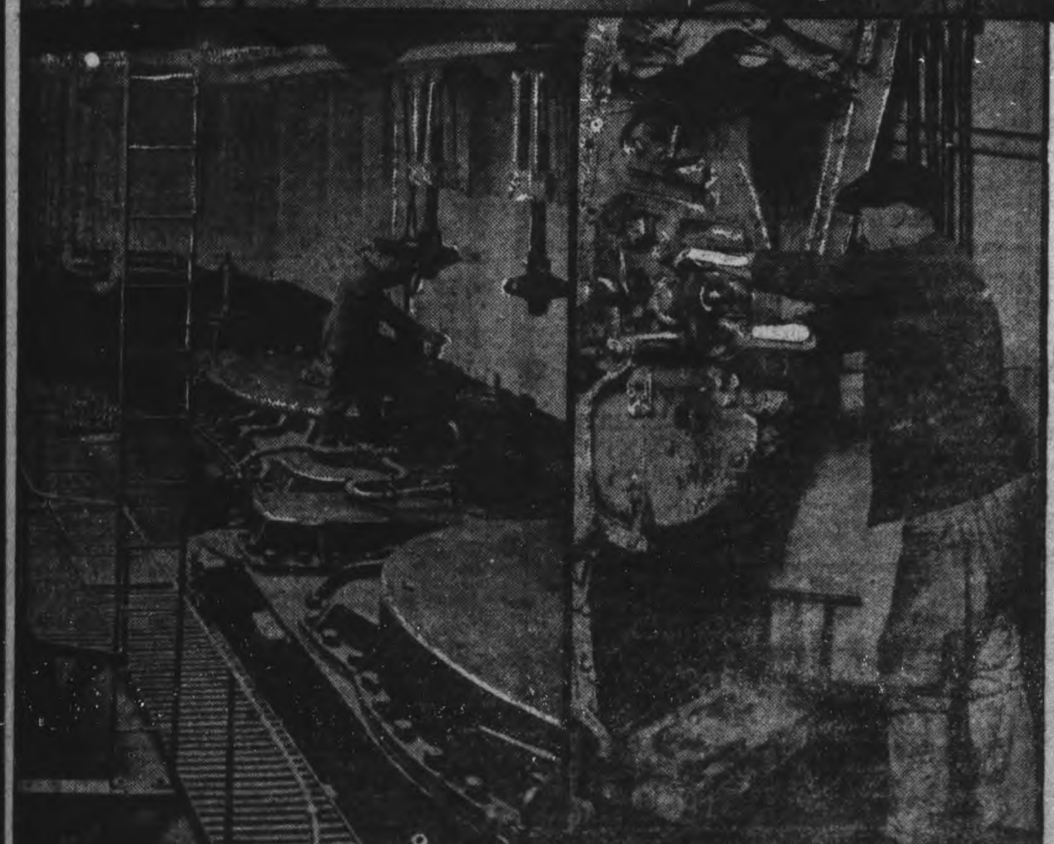
The auditor had also been asked to express his opinion on the soundness of each undertaking.

THE EMPRESS OF BRITAIN AS AN OIL BURNER









(1) Sir Thomas Fisher on board the Empress of Britain. (2) The Canadian Pacific Ocean Services Liner Empress of Britain, now an oil burner. (3) Captain Griffiths, of the Empress. (4) Chief Engineer A. E. Phelp, R.N.R., and Engineer Admiral G. W. Roome, late R. N., of C. P. O. S. Examining the flame in one of the furnaces. (5) Lounge of the oil burning Empress of Britain. (6) Winter Garden in the Empress of Britain. (7) General view of the No. 3 Furnace Room of the oil burning Empress. (8) Cylinder heads of the Empress of Britain. (9) Stoking the oil burning furnaces under actual steaming-up conditions.

The Canadian Pacific Ocean Steamships liner Empress of Britain, one of the crack boats on the route between Canada and Great Britain, recently arrived at Quebec as the first steamship to make the trip from Liverpool to Quebec, using oil fuel instead of coal. The Empress of Britain came in charge of Capt. Griffiths, who was accompanied by Engineer Rear-Admiral G. W. Roome, late of the Royal Navy, to watch the working of this experimental trip. Both Capt. Griffiths, Admiral Roome and the passengers agreed that the test had proven a complete success in every way.

Considerable changes were necessary for the experiment, the old furnaces being altered so as to provide for oil burners, the crude oil being fed with a spray under the boilers. Instead of bunkers for coal the Empress had been fitted up with tanks to carry the necessary supplies of oil.

From the point of view of the passengers the change was decidedly welcome. There was none of the dust or dirt that used to be experienced sometimes from handling coal on board, and there was little smoke from the funnels, the combustion of the oil being practically complete. In addition to this the Empress made one of the fastest trips she had recorded averaging 18.56 knots per hour during the entire trip across the Atlantic. Great interest was evinced by the passengers in the experiment, many of them visiting the boiler rooms, where the comparative coolness and absence of dirt and dust were specially remarked on.

As to the practical side of the experiment, Admiral Roome, who had vast experience with oil fuel on warships with the British Navy during the war, said he was completely satisfied, providing sufficient supplies of oil could be secured at a fair price. On the experimental voyage the Empress used 1,453 tons of oil fuel as compared with an average of 1,800 tons of coal, while a steady boiler pressure of 220 pounds had been easily maintained throughout.

A great advantage of the oil fuel was the saving of labor and space. With coal the Empress had to carry a total complement of 120 stokers and trimmers, but with oil this number was reduced to 27, and much of the heavy labor was done away with. This not only reduced labor expenses, but meant a considerable saving in space occupied by the crew, so that with a permanent use of oil fuel the ship could be rearranged so as to carry a number more passengers.

"The system of using oil fuel instead of coal on this trip of the Empress of Britain has proved a success in every way", said Admiral Roome. "We kept steady steam and a steady fast clip with the ship, while the cleanliness of the installation was comfort to the passengers. From my experience on this trip, with the start made by the C. P. O. S., I am convinced that the future use of oil as fuel for the best class of passenger liners will only be limited by the economical supply of oil."

Admiral Roome spent some time in Montreal discussing his experience with the officials of the C. P. O. S., and consulting as to the advisability of further use of oil to replace coal on their trans-Atlantic liners.

BELLEVILLE FAMILY NEARLY ASPHYXIATED

BELLEVILLE, Oct. 14.—The family of Frank Cousins, 57 South George street, had an extremely close call from death by asphyxiation from coal gas Tuesday night. Mr. Cousins was away from home engaged in his usual occupation of fisherman, but there were in the house his wife, three children and his wife's brother. The latter awakened about 6.30 o'clock Tuesday morning with a feeling of intense nausea and difficulty of breathing. He at once guessed the cause and immediately opened doors and windows. He then discovered that the remaining occupants of the house were sleeping soundly and could not be awakened so medical aid was hastily summoned. The physician soon arrived and by the prompt adoption of restorative measures, was able to bring all back to consciousness. The trouble was occasioned by a new coal fire being stomped down too closely. And herein lies a warning to others to exercise particular care at this season of the year when lighting new fires or stopping down the drafts too closely in mild weather.

PLAYS THE PIANO AT AGE OF 100

PORT HOPE CENTENARIAN IS CONGRATULATED BY FRIENDS.

PORT HOPE, Oct. 14.—To hear the piano played with technical skill and artistic expression and the best music beautifully rendered by a woman 100 years of age was the remarkable experience of visitors who called yesterday at the home of Miss Lydia Barham, on William street, to offer their congratulations on her 100th birthday.

In good health and with all her faculties, Miss Barham is a very interesting conversationalist to-day. She reads widely and is well informed upon world affairs, particularly in connection with developments in China. She keeps up her music and practises upon the piano every day the music of the great oratorios, in which she takes great delight.

Although several years ago she met with an accident, which rendered her lame, she takes frequent walks with the aid of her crutches, along the streets of the town. Friends from far and near dropped in upon her today and were entertained to afternoon tea. Miss Barham was born on October 13, 1820, in London, England, and does not consider thirteen an unlucky number, but on the contrary. She first came to Canada in 1843 as a governess with a prominent Toronto family, and in that capacity with several families since has lived a very useful and happy life.

In recent years she has made her home in Port Hope with Miss Ward on William street, and is much beloved by the people of this town.

ROAD CUTS SHOP FORCES.

Norfolk and Western to Release 20 Per Cent. To-morrow.

ROANOKE, Va., Oct. 15.—Notice of a 20 per cent. reduction in the shop forces of the Norfolk and Western Railway system, beginning with labourers and helpers, effective tomorrow, have been posted in the company shops, it was learned here.

Royal Exchange Bells Being Recast.—The thirteen bells of the Royal Exchange, London, Eng., have been removed to be recast. The photo shows the bells being broken up. Their ringing is missed by countless Londoners, who were accustomed to set their watches by them.

LAKEFIELD VILLAGE COUNCIL

LAKEFIELD, Oct. 15.— The regular monthly meeting of the village council was held in the Council Chambers on Monday evening.

The members present were Reeve Strickland in the chair, and Councillors Marling and Spence.

The minutes of the last regular meeting were read and confirmed. Tenders were received for the inside hardware for the new Memorial Hall.

Moved by Councillor Spence, seconded by Councillor Marling. That the tender of H. G. Fitzgerald for inside hardware, amounting to $225.00 be accepted, material to be furnished by October 15th and that the Clerk notify Mr. Fitzgerald of the acceptance of the tender as above.—Carried.

Moved by Councillor Spence, seconded by Councillor Marling, That we purchase a baton and flash light for the Constable. Carried.

Moved by Councillor Marling, seconded by Councillor Spence, That the Corporation have Mr. W. Webster build a cement sidewalk along the east side of the new Memorial Hall, from north to south end of building, under directions of Councillor Spence.—Carried.

Moved by Councillor Marling seconded by Councillor Spence, That the Corporation pay half the service rate on telephone in Constable Watson's residence.—Carried.

Moved by Councillor Spence seconded by Councillor Marling, That a By-Law No. 581, entitled a By-Law to fix the assessment of land of the Canada Cement Company, Limited, having been approved by the ratepayers by a vote of 193 to 8, be now read a third time and passed, and that Clerk sign same and attach seal of corporation.—Carried.

Finance Committee

The Finance Committee presented a report recommending payment of the following accounts:

W. Hill, fence, etc., $8.00; N. A. Moore lumber, $16.56; Lakefield News printing $140.70; W. Stalker, attending fire $9.00; O. A. Langley, legal advice, $15.00; A. Fairbairn, wages $72.00; J. Reid, wages, $44.00; W. Gifford, wages, $10.50; P. Gonley wages, $3.15; P. Payne, wages, $12.25; R. Alford, wages $7.00; A. Davis, wages, $19.25; W. Tedford, wages $3.50; S. Pearson, wages, $3.50; S. Preston, wages $13.65; A. J. Kidd, repairs, $26.50; W. W. Leonard, hardware, $163.18; W. Stabler, freight, $1.50; E. J. Millage, metal work, $225.00; H. J. Clark, digging well, $231.00; G. T. R. Freight $2.40; S. R. Leggott, salary, $100.00; H. E. P. Co's August light and power, $341.17; Municipal World, $2.73; W. Sherin, election expenses $23.00; D. Darling engine and labor $49.00. Total $620.68.

The report was on motion received and adopted.

The Council then adjourned.

TESTED ACTIVATED SLUDGE SYSTEM

A six months' test of the activated sludge system of sewage disposal installed at Mt. Vernon, N.Y., was recently conducted by Dorr Co., Engineers of New York City, who have developed a modification of this method known as the "Dorr-Peck Process." Among the conclusions were: Purification is effected by six-tenths of a cubic foot of air per gallon of sewage treated with the detention period ranging from 8 to 10 hours; a 90 per cent. removal of bacteria is effected. The report says that the sludge disposal was only slightly investigated without definite results.

When the Peterborough Council decided to object to the Provincial Board of Health's order for the adoption of the activated sludge system they were largely influenced by the difficulty of disposing of the sludge. The Mount Vernon test apparently offers no information on this point.

RAPACITY OF REDS IN THE LIMELIGHT

(Associated Press)

LONDON, Oct. 9.—The bearded baggageman on the platform of the Kazan Railway station in Moscow demanded 100,000 rubles for unloading from a car the baggage of 15 British officers and The Associated Press correspondent when they arrived in Moscow in July after a journey from Siberia across Russia. It had taken 10 minutes for him and a dozen other men to do the work.

The British officers were prisoners They had been members of the Allied railway organization in Siberia under John F. Stevens, the American engineer, and had been captured by the Reds at the same time as Colonel Blunt and his party of American engineers at Nova-Nikolaevsk, Siberia, in November 1919. The Americans had been released and left Russia through Vladivostok, but the British officers were sent to Moscow.

"One hundred thousand rubles for unloading luggage!" exclaimed Major R. E. Vimey, R.E., ranking officer. "We can't pay it; we're prisoners; we haven't the money." And he appealed to his Bolshevik guard.

"Who asks 100,000 rubles for unloading baggage?" shouted the Bolshevik commissar in charge when informed af the situation. "Show me the man', he demanded. He was directed to the group of baggagemen.

"I'll pay you 100,000 rubles," he said sarcastically. "Yes, I'll pay you, seechass," using the Russian word indicating time, present or future, usually some indefinite hour in the distant future. "What are your names?" The names were given.

'And now you, Ivan Ivanovitch, and you Peter and Nicholas and your companions", said the commissar when the names had been written, "you all are under arrest. You are servants of the state and you have no right to ask money for your work."

There were violent exclamations; that the daily ration of black bread wouldn't keep a mouse alive. "Bread is 1,000 rubles a pound," said one. "One hundred thousand rubles is 10 pounds of bread for each of us. Long ago, before the great war, 10 pounds of bread cost only half a ruble and what is that for handling a foreigner's baggage."

But the baggagemen went to jail for speculation; the British officers went to prison for counter-revolutionary activity in Siberia, and the American reporter went into house arrested for being in Russia without permission. Only the Bolshevik commissar remained free.

A WARNING TO WAGE-EARNERS

"A bird in the hand is worth two in the bush—hang on to your jobs, people." So advises Superintendent J. A. Miller, of the Ontario Employment Bureau, and so echoes civic and other agencies.

"Serious outlook?" the Ontario official was asked.

"Perhaps, but not serious enough to say that 12,000 returned men are out of work," he replied. "It is true that Toronto industries are not clamoring for workers; in fact there is no boom in employment, but no physically fit man need be out of work if he will take a job outside of the city.

To Wise to Say.

There isn't an unemployment "student" in the city who will gauge the present number of out of works. They shake their heads and say nobody knows, nor can they ascertain.

Secretary W. E. Turley, G.W.V.A., estimates that there are not fewer than 6,000 ex-service men idle.

"Obviously the condition is serious" he stated. "I have had more callers on job hunting expeditions within the last two weeks than during the whole three months previously. It is especially difficult for married men. If all the single chaps would take the outside vacancies it would ease things a bit in the city."

No Statistical Facts.

Up to date September's registry at the Ontario Bureau is about 2,000, and some two thirds of them have been placed.

"Supposing one man in four registers here," Superintendent Miller pointed out, "that would give a total of only 8,000 unemployed. I don't see where the data comes from to back up a public statement made recently that 12,000 veterans are out of work.

"At any rate, I don't expect a repetition of either 1907 or 1914 conditions."

Supt. Arnold, of the Civic Bureau, supports Mr. Miller's report, that local industries, especially the machine shops, are laying off workers. They attribute this action to lack of material and over-stocked warehouses.

"Right now I could place 150 men in the province," said Supt. Arnold, "and quantities of others are needed for bush work, saw milling construction, mining, and even carpentering. We find it rather difficult to place ex-soldiers, especially those who were gassed or are otherwise physically unfit to do hard work.

"Most outside work is heavy, but 'gased' men require the combination of outside and light employment."

Old Land Seekers.

Another phase of this winter's labor situation is the vast influx of old country people, especially ex-service men. They too are applying at bureaus in search of one of those Utopian positions as visualized from a 3,000 mile perspective. These hunters have the added difficulty of ignorance of localities and direction. Two unemployed old country youths still in their teens, were looking in Toronto for the fare to Nova Scotia a few days ago. They wanted it for two reasons—primarily because Nova Scotia was nearer the coast of England on the map and temporarily to earn the pasage money to the Nova Scotian mines.

Hard on Clerks.

Attached to the Works Department at the City Hall, Mr. Leslie conducts an office exclusively for placing war veterans in that or other municipal employment. His opinion is that 90 per cent. of the out of works are not Toronto men at all but transient workers who drift from point to point and grap oportunity whenever she pops up.

He is employing 50 per cent. more soldiers now than ever before, and points to steadier, more settled employed service men.

A register of reasons given by those who leave the department shows too many "no reasons" as the chief reason.

One source of information declares that 1300 clerks are out of work in the city. It is a fact that both the Ontario and the Dominion civil services have long waiting lists for bookkeeping and clerical work. And so, to quote Superintendent Miller: "Hang on to your jobs, people."

DR. J. C. MILLER ADDRESSED LABOUR ORGANIZATIONS OF CITY

DISCUSSED PURPOSE OF PRESENT SURVEY OF THE CITY—THE ADOLESCENT ACT.

Dr. James C. Miller, Provincial Director of Technical Education, met in conference with the presidents and secretaries of the various local trades unions of the city to indicate to them the purpose of the survey now being conducted in the city.

After indicating to the large assembly that his inquiry was with a view to determining whether or not there is need for a vocational school in the city and the extent and nature of such need, Dr. Miller presented the main provision of the Adolescent Act proclaimed recently by the Governor in Council. It appears, the speaker stated, that the Act is to be brought into force gradually in order that parents, employers and school authorities may have time to adjust themselves to the new requirements.

The Terms.

In the autumn of 1921 it is understood that all boys and girls between 14 and 16 years of age who have not the equivalent of a high school education will have to register with the attendance officer. Those who are not attending school full time will have to have a "home permit" from the attendance officer if they are to stay at home, and those working for wages will have to have an "employment permit" issued by the attendance officer, under the provision of the Adolescent School Attendance Act. In the autumn of 1922 it is expected that all school boards will be in a position to provide the necessary accommodation and teachers to care for the "part time instruction" for boys and girls from 14 to 16 years of age required under the Act. Those boys and girls within this age limit who have not a high school education and who are not attending school full time will be required to attend under the part time clause for at least 400 hours a year. In the autumn of 1923 all boys and girls from 16 to 18 years of age who have not the equivalent of a high school education and who have not attended school full time until 16 years of age will be required to attend part time classes for at least 320 hours each year.

The wisdom of the Government in bringing the Act into force gradually over a period of years will be appreciated by all who are familiar with the way in which this extension of secondary education will affect industries employing minors and parents who have heretofore depended more or less upon the wages earned by their children.

Fundamental Ideas.

After presenting the purpose of the survey and the essential points of the Adolescent School Act, Dr. Miller proceeded to discuss some of the fundamental ideas which lie at the basis of the proposed extension of the educational system. He pointed out that the application of science to the problems of utilizing nature's materials and of so arranging and controlling nature's forces as to make them serve man's purposes had resulted in revolutionizing the whole field of transportation, production and communication. The increased productive power resulting from such applications of science has made possible from an economic standpoint (1) the elimination of slavery, (2) the elimination of child labour, (3) the restriction of woman labour, (4) the shorter working day, (5) a period of education for all children, (6) a definite extension of the period of education to include education during the adolescent period for all boys and girls.

The Fisher Bill.

This last extension has been provided in Great Britain under the Fisher Bill of 1918 and has been provided in no less than twelve of the states of the United States. Ontario is the only province in Canada which has passed the Adolescent Act.

The economic and industrial situation of to-day has not only made such an extension of educational opportunity possible to all boys and girls from an economic point of view, but has made such an extension necessary. The complexities of modern commercial and industrial life and the responsibility of citizenship in the modern democratic country make it necessary for us to give a more adequate preparation to our boys and girls if we are to expect them to be successful in meeting the responsibilities of adult life. We have, the speaker continued, been giving extended training in the high schools for those looking forward to professional life. We need to make just as adequate a provision for the preparation of boys and girls about to enter the industrial, agricultural and commercial life.

Unfortunately up to the present too many of our boys and girls have dropped out of school life before completing the requirements for entrance to high school. When they have dropped out of school they have apparently ceased to be a matter of concern to the educational authorities, while they in reality were probably more in need of assistance and help toward meeting the responsibilities of life than those who were able to remain in full time attendance at school.

The provisions of the Adolescent Act and the extension of secondary school work to include preparation for industrial, agricultural, commercial and home-making activities will ensure for boys and girls a more adequate and satisfactory preparation for citizenship.

Responsibility of Adults.

In closing his remarks the doctor laid special stress upon the fact that it is the responsibility of adults of to-day to see that Canadian boys and girls are given an adequate training to enable them to meet their responsibilities as citizens of the Canada of to-morrow in competing with the young people trained in Great Britain and the United States under the extended educational programme being provided in these countries.

Canada of To-morrow.

The Canada of to-morrow in which our boys and girls of to-day will find their adult opportunities will be a Canada of 25,000,000 people with all than means in responsibility and opportunity. Will, the speaker concluded, our boys and girls at that time be able to lead and to undertake without fear because their adults of to-day have provided generously and wisely for their education and training?

NOT NECESSARY TO BOIL WATER

WATERWORKS SUPERINTENDENT SAYS DANGER HAS BEEN REMOVED.

It is no longer necessary for the citizens to boil the water, Mr. R. L. Dobbin, waterworks superintendent, announced to-day. The chlorine dose has been lowered to five pounds per million gallons of water, only two pounds over the minimum allowed. This represents only half the amount that has been used till recently. The water has shown a decided improvement each day and the dose has been lowered until Mr. Dobbin is now convinced that there is little danger in the use of the water without first boiling it.

CANADA'S TOWNPLANNER AT ST. LOUIS CONVENTION

ST. LOUIS, Mo., Oct. 15.—City planning along comprehensive lines to promote the development of various communities is being discussed at the twenty-sixth annual convention of the American Society for Municipal Improvements here.

Thomas R. Adams, town planning adviser for Ottawa, Ontario, read a paper on developing territory adjacent to cities, at the opening session.

POTATOES SELL VARIOUS PRICES

SEVERAL CASES OF ROT REPORTED —LARGE YIELDS.

Potatoes are now selling at $1.25 a bag in the city stores. Out in the country the farmers are selling them at 90 cents and $1 a bag and in Port Hope the tubers are said to be selling at 75 and 90 cents a bag. It is stated that there are many cases of rot in some of the crops and in certain sections of the country it is stated that there is hardly a solid potato. Remarkable yields are recorded by some of the potato growers and yields of twenty to thirty bags from one of seed are not uncommon. The high price of seed in the spring—$5 to $7 a bag—compared with the wholesale market price of $1 a bag or less now has left many gardeners wondering whether they will make anything or not and many of them declare they will not.

LAKEFIELD NEWS

LAKEFIELD, Oct. 14. — A large number of citizens took advantage of the delightful weather and motored to the Norwood Fair on Wednesday.

The Misses Dickson and Mrs. Hazlett of Peterborough, motored to the village on Wednesday and were guests of Mr and Mrs. Roland Johnson.

Mrs. Wm. Northey and Mr. Percy Northey of Mt. Julian, were in the village on Wednesday.

Mr. and Mrs. James Weir of Harvey, spent Wednesday in the village on business.

Mr. Lewis Melldowie of Montreal, passed through the village on Wednesday to visit Mr. and Mrs. E. Walter at "Pompadour Island," Stoney Lake.

Mrs. Fred Young and children of Young's Point, were in Peterborough on Wednesday.

Mr. E. Walter, who has been in Ottawa on business, returned to his summer home on Stoney Lake on Wednesday.

Mrs. Wm. Church of Peterborough, passed through the village on Wednesday en route for Burleigh Falls and Mt. Julian, where she will visit friends.

Mr. C. S. Tanner and Dr. J. C. Smith were in Peterborough on Tuesday.

Mr. A. G. Fawcett has rented the frame store on Queen street owned by Mr. Robert Cotton and intends to open an electrical supply shop.

The regular meeting of the Anglican Young People's Association will be held on Tuesday evening, Oct. 19th.

TWO KILLED.

DUBLIN, Oct. 15.—Two killed, four wounded, including policeman, in clash this afternoon.

MASTIFF DOG RESCUES SMALL BOY.

For the second time within a year, Bernard, a big mastiff dog, belonging to E. G. Foster, of St. John, N.B., has proved himself a hero. On Tuesday afternoon he rescued Leo Dunham, a five-year-old youngster, from the water. The boy was playing on a wharf and fell in, and was in about six feet of water. His cries attracted the attention of two women, and they started for the slip. On the way they saw Bernard dash from his master's yard and leap into the water. Grasping the youngster by the arm, the dog made his way to a flight of steps leading from the top of the wharf to the water, and held the little boy until one of the women descended and lifted the youngster from the water. It is less than a year since Bernard figured in a rescue somewhat similar.

SPORTING NEWS, VIEWS AND GOSSIP

THE ONCE OVER

BY H. I. PHILLIPS

THAT FIRST 1919 WORLD SERIES GAME.

First Inning.

First Half—Cicotte hits Rath with the first pitched ball, ringing up first payment on $10,000. Cicotte throws the next ball over the plate so slowly "you could read the label." Daubert reads the label. Doesn't like the printing; hits it over second base for a single. Rath goes to third. Cicotte throws another readable label to Groh. Groh, not being much of a reading man, flies to Jackson. Jackson pauses to decide whether to throw ball or throw the game. Does a little of each. Rath scores. Abe Attell warming up.

Second Half—Jackson hits ball by mistake, reaching second on Kopf's wild throw. Consternation among the sure-thing gamblers. Felch sacrifices, Jackson reaching third. Jackson now in a tight place; may be obliged to score. Gandil fails in desperate attempt to strike out; hits safely. Jackson scores with much indignation. Snubs Gandil from this time on. White Sox gold diggers call conference and decide next three batsmen up must wear blinkers and hat with a section of garden hose. The side is retired. Fans having a fine time at $5 a glimpse.

That Fourth Inning.

First Half—Cicotte throws slow ball, which Kopf fails to hit. Cicotte, very puzzled, find Kopf can't read labels without his glasses and calls for ball with a larger label. Kopf hits safely. Gamblers slide to hotel and put bank rolls under pillows of White Sox players. Neal singles. Wingo singles. Cicotte now using his famous "Get-the-money" curve. Reuther drives out a three-bagger. Gamblers ask hotel clerk for larger pillows. Rath hits to the outfield, but the White Sox fielders are busy paying off mortgages on the old homestead and fail to notice it. Rath gets to second on the hit. Daubert drives a liner to Risberg, who is looking over a folder giving first-cabin rates to Europe. Groh flies out to Feish. Three out, counting G. Cohan and Monte Tennes.

Score: Cincinnati 6, White Sox, about $50,000.

Game called on account of banks closing at 3 o'clock, which makes it impossible for White Sox to play further and still get their funds deposited that day.

Entitled "The Thinker."

Gambler—"Two thousand beans if you do yer bit to throw the series. Whaddye say?"

Cicotte—"Think of my wife and child?"

Gambler—"I'll make it four thousand dollars if you say so."

Cicotte—"Think of my wife and child!"

Gambler—"Well, $5,000 then?"

Cicotte—"Think of my wife and"

Gambler—"How about $7,000?"

Cicotte—"Think of my wife—"

Gambler—"Eight thousand?"

Cicotte—"Think of—"

Gambler—"Ten thousand dollars?"

Cicotte—"All right, kid. You're on."

SEVEN-THREE WINS

A baseball fan wants to know the nearest correct score of the following, Hamilton 7 and Peterboro 3, or Hamilton 6 and Peterboro 4. The correct percentage of Wednesday's game was 692 therefore 7-3 wins with a percentage of 700. The percentage of 6-4 is 600.

INJURED AT SPORTS.

LINDSAY, Oct. 15.—Run over by another cyclist when he fell off his own wheel in the bicycle race at the Fair grounds Wednesday, Harvey Cuthbert, an L.C.I. boy, suffered painful injuries, which necessitated his removal from the field. It is announced that his injuries are not very serious.

LOCAL FOOTBALL GOSSIP

WOOLLENS VS. CALEDONIANS AT OVAL—DE LAVAL VS. C.G.E. AT EXHIBITION GROUNDS—OTHER ITEMS OF INTEREST.

Two excellent league fixtures under local football association auspices, takes place to-morrow afternoon. At Nicholls Oval the Canadian Woollens and Caledonians play the return game. It should have been played on the Scotsmen ground, but they agreed to play at the Woollens ground. The other game is betwen the De Laval and the C.G.E. team at the Exhibition grounds on the west pitch owing to the other field being in an unsatisfactory condition.

All games for the rest of the season will start at 3 o'clock prompt, and this includes Saturday's games.

The executive appointed the following referees for Saturday: Woollens vs. Caledonians, Mr. Alex. McKinley, and C.G.E. vs. De Laval, Mr. Frank Keller.

This morning, Mr. Fred Sutcliffe, Secretary of the Association, received official notification that the De Laval would forfeit Saturday's game against the C.G.E. and on Monday against the Canadian Woollens, but would fulfill the last game of October 30, against the C.G.E. A number of the players are leaving the city on a vacation and the De Laval Executive do not go outside the jurisdiction of the factory for more players—hence the reason. They intend to carry on in the Spring as usual.

Throughout the week the final transfer of Mr. James Shaw of the Caledonians was completed and no doubt he will do his best to get a goal against his old team.

It is a question if the Vets will have a compelte team for Monday's game because seven of their players have been hors de combat since their last game. At any rate the football enthusiasts hope the Vets will put the strongest team on the field for Thanksgiving afternon at the Oval when they meet the Scotsmen.

Two days ago the Canadain Woollens executive were very fortunate in securing the services of Matt Shaw of Caledonians, who desired a change. It is expected C. Fenner will be with them also.

The Woollens have no less than four goal-keepers on their list: Sam Calladine, J. D. McFadden, F. Wetton and Charlie Fenner. Will Jones has not lost a goal yet.

The cartoon this week by Edwards is excellent and is good advice to football players and enthusiasts. It is represented by two cliffs with a hot fire in between, and on one cliff is old nick in all his glory (as unsportsmanlike spectator), crying aloud: Come on, come on, to the football player who is blindfolded walking to the precipice but there is a life-line in the air representing football executive replying, "Take the bandage off your eyes before you take another step." "The way to kill sport."

The Caledonian team against the Woollens to-morrow at Nicholls Oval will be: Wm. Calder, goal; T. Service, and Sam McMillan, backs; Herb. Frost, Stewart McMillan, and J. McMillan, half-backs; J. Roberts, R. Hannah, R. Dingwall, A. McCrone, and R. McDowall, forwards. Reserves: H. McDonald, J. Brown, and J. Clark.

Rumour has it that the De Laval will drop out for the want of players. What's the mater with the committee. Get together and everybody help.

At the executive meeting a few nights ago it was agreed by all the members present that unless the rough tactics are cut out they may as well quit right now because thy demand clean sport and intend to have it. They do not object to fair criticism but they object to the improper language. The next player that comes before the executive will have to toe the line.

A very improtant meeting of the C.G.E. football club will be held tonight (Friday) in the Montreal house at 8 p.m. sharp. All members of the executive and all the players are urged to attend.

The following by-law of the local association will be of interest to football enthusiasts: "That any player or official having business with the executive should be allowed into the meetings to state their reasons when asked." This was put through by Representative Cairns, C.G.E.

During last week end the Caledonians signed on a new forward in the person of Mr. Hector McDonald.

The Canadian Woolens team against the Caleys will be Sam: Calladine, goal; J. Cridland and J. Hilman, backs; J. Montgomery, T. Metcalfe, J. Roberts, half-backs; Charles Thorpe, H. Jones J. Chambers, J. Shaw and E. Jones.

When is a player offsides and onsides." It is really astonishing, too, the number of players—some of them with long experience in professional football—who would be floored if they were to present themselves for examination as a referee. A famous player just scraped through an examination at the third attempt—his weak point being "offside"—and yet this player had, doubtless, often chided a referee for not knowing the game, and may be offered to buy him "a book of rules." How can offside be explained? On paper, Law VI is simplicity itself. Thus, a player once offside, cannot possibly put himself onside. This can only be done for him in three ways, viz.: (1) If an opponent next plays the ball. (2) If he is behind the ball when it is next played by one of his own side further from his opponents' goal than himself. A player cannot be offsides if he is behind the ball when it is last played, nor from a throw in, a goal kick or a corner kick. The point, therefore, for a player always to remember is, not his position when he receives the ball, but his position when the ball was last played. Thus, when he receives the ball he may have three opponents between him and their goal-line and yet be offsides, bcause at the moment the ball was last played, he had not the required number between him and the goal.

CLOTHING PRICES THAT ARE VERY REASONABLE

ONE CANADIAN FIRM THAT IS DOING ALL IT CAN TO KEEP DOWN HIGH COSTS.

Every cloud has a silver lining, and the one bright spot in the high cost of men's clothes is the fact that the Regent Tailors, whose store in this city is at 326 George street arcade, offer any man a suit or an overcoat made to measure for only twenty-seven dollars.

The Regent Tailors' business has been steadily increasing ever since they opened here. Their clothes have given the utmost satisfaction. No such values are obtainable anywhere else in this city. The fact that they make a genuine worsted, tweed or serge suit or a light or heavy overcoat or ulster to order for only $27 is a credit to their splendid organization. They are really wholesalers who deal direct with the public through ther own stores instead of through middlemen.

It is worth any man's time to call at the Regent Tailors' store to see the wonderful values for himself. Those who may not have time to wait for a suit or overcoat to be made can buy the handsome model suits or overcoats shown in the windows or the store without extra charge. All sizes and styles are shown. As Monday is Thanksgiving Day no doubt many will want to take advantage of ths fact to secure new clothes at once.

MERCHANT A SUICIDE.

Silk Dealer Lost $2,000,000 in a Deal

NEW YORK, Oct. 15.—Isaac Mendelson, 48 years old, a wealthy silk merchant, was found dead in the offices of his firm on the ninth floor of th building at 44-60 East Twenty-third Street. Beside him was a bottle which had contained lysol and a glass containing some of the poison. It is believed he committed suicide. Mendelson lived in the Belnord Apartments ,Broadway and Eighty-sixth Street.

Relatives said Mr. Mendelson had lost about $2,000,000 recently in a silk deal, and that this may have led him to take his own life.

(Canadian Press)

OTTAWA, Oct. 15.—Deluge of protests hits here against restraint of sugar trade.

The creation of a new motion picture star is always an event; and a new one will shine forth from the screen within the next few weeks. It is Alice Calhoun, the comely young actress, who has been playing important roles in various Vitagraph productions. Albert E. Smith, president of the Vitagraph Company, makes this announcement this week, but Miss Calhoun's elevation is really due to the public, for many hundreds of letters have reached Mr. Smith since Alice Calhoun appeared in her first Vitagraph picture, and the tenor of most of the letters was: "When will Alice Calhoun be starred" ?

THOMAS H. INCE Presents ENID BENNETT in

"WHAT EVERY WOMAN LEARNS"

THINKING that happiness was laughter, she had married a parlour clown only to find him a cad with the heart of a coyote!
Now he had come with a friend, in a plot to besmirch her name.
Maddened by the terrible truth, she fired—fired to save a decent man who loved her.

A scene that will cling to your memory for weeks. A story that goes to the depth of things that relate to love and marriage.
Played by a brilliant cast, including Theodore Roberts, Milton Sills and Irving Cummings. Enid Bennett in one of the greatest roles of her career. A picture you are bound to see!

AT THE ALLEN

Gene Pollar, who plays Tarzan in the newest screen sensation of the day, entitled "The Return of Tarzan," is six feet three inches tall and shaped like a modern version of a Greek God. The handsome Gene was chosen to play what is perhaps the most difficult role in motion picture history, not only because of his appearance but because of his nerve and athletic prowess.

He needed them all in "The Revenge of Tarzan." In one scene, Pollar fights single-handed against a gang of ten ruffians in an apache dive, and throws them about the room like so many nine-pins. In another, Gene drops from a tree upon the back on an enormous lion, hungry and spoiling for a fight. The ensuing battle is one of the most thrilling episodes in a gorgeously exciting photo-play, at the Allen Friday and Saturday.

U.S. WILL PROBE BIG WHISKEY RING

BOOTLEGGERS IN CHICAGO ALLEGED TO HAVE CLEANED UP MILLION.

CHICAGO, Oct. 15.—Government investigation of the activities of a ring of whiskey dealers operating on a national scale has been begun as the result of confessions, obtained from several Chicago saloonkeepers, it was declared by Federal agents here.

The confessions are said to have implicated officials of several distilling companies and politicians in various parts of the United States and to have revealed plans to make Chicago the centre of their proposed scheme.

According to Federal agents H. A. Sadler, former New York stockbroker, is said to have declared that he paid $45,000 to a Chicago politician who has been employed as a deputy United States revenue agent in the office of Collector Mageer, to secure influence in the issuance of forged Federal permits under which whiskey running in Chicago has been carried on.

The indictment of at least a score of persons on charges of conspiracy to violate the Prohibition Amendment will be asked this week of the Federal grand jury, it is stated.

The information placed at the disposal of the Federal authorities by Sadler is said to have disclosed that the boot-legging already carried on in Chicago by the whiskey ring has been so extensive as to have netted those engaged in its operation close to $1,000,000.

It was disclosed, it was said, that those engaged in the traffic had not found it necessary to forge permits for the removal of liquor, but had been able to obtain bona fide ones and also later to remove incriminating records from the offices of the prohibition officials through the corruption of those entrusted with the task of suppressing the sale of liquor.

THE REVENGE OF TARZAN

Harry Revier, who directed "The Revenge of Tarzan"—showing at the Allen to-day and to-morrow—had the most unusual cast of performers that any director was ever called upon to direct. In addition to six hundred human artistes, Mr. Revier was blessed with sixty-three animals, some of which had no previous experience working with groups of people and others totally new to captivity.

Nine lions, five leopards, fifteen apes, six tigers, two chimpanzees, two elephants, and twenty-four monkeys provide no little excitement in a photoplay that is packed from start to finish with hair-raising thrills.

INITIAL MEETING OF LOCAL BOARD

Following are the appointments to the local board of the Mothers' Allowance Commission, confirmed by the Commission yesterday: F. H. Dobbin (convener), Miss Mary L. Stratton, Sidney Whatley, Thomas McMurray, Mrs. M. C. Hardy.

Asked this morning when the first meeting would be convened, Mr. Dobbin said that that had not yet been definitely decided, as the local board was awaiting the arrival of an official from the parent board to explain the regulations and the workings of the Act. It is expected that this official will arrive some time next week.

The new widened guaze railway in Palestine has been completed. Sir Herbert Samuel drove the last spike.

SUPPER HELD LAST EVENING

At a supper held in the Y.M.C.A. last evening, the membership campaign was organised with enthusiasm which promised results.

Twenty teams of five men each will enter the competition, standing to be judged by points based on the number of members secured.

The twenty teams were divided into two groups in order to secure more competition.

On Tuesday evening the twenty captains and their lieutenants will meet at a supper to complete the campaign arangements.

Togo territory, a former German possession in Central Africa, has been turned over to the French by the British.

"THE MAID OF THE MOUNTAINS"

"The Maid of the Mountains," the biggest spectacular comedy success in the world's history, with the entire London company, will be the attraction at the Grand on Wednesday, October 27th, for one night only.

"The Maid of the Mountains" comes here direct from Daly's Theatre, London, Eng., where it ran for five years, breaking all world's records for a continuous run of one musical comedy.

The piece is described as a musical play in three acts, with the book by Frederick Lonsdale, lyrics by Harry Graham, F. Clifford Harris and Valentine, music by Harold Fraser-Simson and additional numbers by Jas. W. Tate.

It is a George Edwarde's production, brought intact to Canada under a special arrangement with the estate of George Edwardes and will be offered here as originally staged by Oscar Asche.

Among the musical numbers, most of which have already found their way to Canada via "His Master's Voice," are: "Friends Have To Part," "Live For To-day," "My Life is Love," "Farewell," "Dividing the Speil," "We're Gathered Here," "Love Will Find a Way," "Save Us," "Dirty Work," "A Paradise for Two," "Husbands and Wives," "A Bachelor Gay," "I Understood," "When Each Day," "Good People, Gather Around," "When You're in Love," "Over There and Over Here" and "Friendship and Love."

The music in "The Maid of the Mountains" is almost operatic in its beauty, soul-stirring grandeur and brilliancy, and it requires a cast and chorus of highly trained voices to interpret it. For that reason the entire London company is being brought here intact.

After a limited tour of the larger cities in Canada the piece goes to the States where it will undoubtedly have long runs both in New York and Chicago.

GREAT LEVIATHANS ARE ROTTING AWAY IN HOBOKEN'S MUD

WASHINGTON. — The gigantic trans-Atlantic liner Leviathan, formerly the Hamburg-American liner Vaterland, and a sister ship of the Imperator, the last named now in the regular trans-Atlantic service of the Cunard line, may never again be seen on the high seas.

This is due to the fact that the great liner now in the mud of her Hoboken dock, has deteriorated to so great an extent that it will require an outlay of no less than $8,000,000 to put her again into condition for sea-service. As a matter of fact, this liner, one of the four largest trans-Atlantic passenger carriers in the world—the others being the Imperator, Olympic and aquitania—is so far on the way to the junk pile that when she was recently offered for sale by the Shipping Board, not a single bid was received.

The above facts were recently admitted at the Shipping Board. The Leviathan has been lying idle, with only her little crew of caretakers on board, for over a year, or since Sept. 8th of last year. Every day her condition becomes more serious, her plates become a little more rusty, she sinks a little deeper into the Hoboken mud, her engines become a bit more obsolete ,and so on, the result being that to-day the Shipping Board has on its hands a new liner, the original cost of which was more than $15,000,000, but which in the short period of little more than one year has been permitted to rot away to probably less than one third of her first cost.

At the present time, and it has been the same for months, the Leviathan is manned by a skeleton crew of caretakers who are doing their best to prolong the life of the famous ship by keeping pipes open and as far as possible vital parts of the vessel protected from too hasty decay.

The story of the Leviathan, when it is told in all its details, will be one of the saddest in the maritime history of America. No feat of the naval construction corps was more applauded during the war than was the repairing of the Leviathan after her German officers and crew had, as they thought, damaged her beyond all hope of repair. She carried to Europe more American soldiers than any other ship and she also brought more of the American boys home than did any other vessel in the wartime maritime service.

Hearst News Blamed.

But for the oposition of the Hearst News, the Leviathan would probably now be plying the American flag in the trans-Atlantic service between New York and Southampton. In January last the liner was all but sold to the International Mercantile Marine, which company offered to pay $3,500,000 for the ship. It would have cost a great deal more to put the ship in condition but the sum would have been small compared to what it will now cost to put the liner in service shape.

For a time it appeared definitely settled that the Leviathan would become the flagship of the International Mercantile fleet, but the Hearst newspapers began a fight against the sale and in the end the deal fell through, and the Leviathan was then placed in charge of her little crew of caretakers and tied up in Hoboken.

The Leviathan, it is understood, is still for sale, but the records indicate that she is not wanted by any of the big lines or individuals engaged in the overseas passenger and freight traffic. When the ship was offered for sale recently it developed that the International Mercantile Marine, which nine months ago was anxious to add the great ship to its fleet, was no longer interested in the matter. As already stated, not a single bid was received by the Shipping Board. It was also ascertained to-day that the Shipping Board has back on hands the Von Steuben, formerly the crack North German Lloyd liner Kronprinz Wilhelm. A few weeks ago the newspapers announced the sale of this vessel to Ford Eggina, of New York, who, it was stated, had bought the vessel for $1,500,000 and had agreed to spend an additional $3,000,000 to put the ship in sea shape condition. This would indicate that the Von Steuben is in almost as bad shape as the Leviathan. When Mr. Eggina bought the Von Steuben it was said that he was going to send her on a commercial cruise of the world ports to advertise American-made goods. Mr. Eggina, however, it now appears, was not able to live up to the terms of his contract, and the Von Steuben was turned back to the Shipping Board.

It is reported that the Shipping Board has over 100 ships idle in New York waters, and more than 175 in the same situation in Norfolk waters.

Many of the largest of the German ships seized by the Government after Congress declared war on Germany in April, 1917, are being returned to the German trade, but under American ownership. Among the ships so returned, it was said at the Shipping Board, are the Agamemnon, which was formerly the North German Lloyd liner Kaiser Wilhelm II.; the Mount Vernon, which was the Kronprinzessin Cecilie, also a North German Lloyd ship, and the George Washington and the President Grant, two of the finest ships in the old Hamburg-American fleet.

SPEAKS FOR SOVIETS

Expresses Strong Sympathy With Bolshevik Ideals.

LONDON, Oct. 15.—H. G. Wells, the British novelist, who is visiting Russia, is reported in a Moscow despatch to The Daily Herald, organ of Labor, as saying in a speech before the Petrograd Soviet on Oct. 7 that he, with others sharing his opinions, was working for the same ideal as the communists. This ideal, he is declared to have asserted, was the creation of a "universal realm of social equity, serving every citizen according to his needs."

"My Government," Mr. Wells is reported to have said, "has caused, and is still causing, destruction and misery in your country, but the welcome you have given me shows that, notwithstanding your immense hardships, you can understand our difficulties. Russia and Great Britain, despite mistakes on both sides, can still love and understand each other, and will work together for the benefit of humanity, and for the new world which is being born amidst darkness and calamities. The British people desire peace with Russia, and will not cease agitating until that peace comes."

WORTHLESS CHEQUES.

TORONTO, Oct. 15.—Charged with passing thirteen worthless cheques on various merchants throughout the city, Louis Griffith, alias Walter Elmer, Robert Street, was taken into custody by Detectives Clarkw and Winters. Among the many merchants alleged to have been victimized by Griffith are Harry Rosenfield and Lumbers and Co.

BIG FIRE LOSS.

OTTAWA, Oct. 15.—Coulonge House Hotel, two Roman Catholic schools, general store and eight residences at Fort Coulonge, Que., destroyed by fire. Loss $60,000.

SPORTS DAY AT LAKEFIELD SCHOOL YESTERDAY AFTERNOON

THE WEATHER WAS IDEAL—LIST OF THE PRIZEWINNERS:

LAKEFIELD, Oct. 14.—Yesterday afternoon was Sports Day at the Lakefield School and the events were well contested. A fair showing of parents were present to encourage the teachers and children in their efforts. Mr. Simpson and his corps of teachers were indefatigable in their efforts to make the field day a success. The weather was ideal and the boys and girls enjoyed the afternoon to the full.

The following is the prize list.

I (a)—25 yard foot race, Boys of Miss Burgess' room, 1. Bobby Stenner, 2. Roy Hope, 3. John Allan.

I (b) 25 yard foot race. Boys of Miss Burgess' room, 1. Roland Kennedy, 2. Gerald Kennedy, 3. Jack Leonard.

If you will use Delmay's "Vitalene" French Hair Tonic your hair will become attractive, full of life—you try it. Sold in Canada at $1 per bottle. One agent in every town. Sold in Peterboro by the Bond drug store.

NO INTERFERRANCE IF ULTERANCES LOYAL

OTTAWA, Oct. 15.—It is intimated by Mayor Harold Fisher that there will be no interference on the part of the Police Commissioners or civic authorities with the meetings which the local branch of the Self-Determination League for Ireland intend to hold in St. Patrick's Hall on Saturday and Sunday next. If incidents should occur at the meeting, or utterances be made which could be considered of a treasonable nature, such action as may be considered necessary will be taken by the authorities to have the offenders dealt with according to law. Preparations have been made for the reception of 500 delegates who are expected to attend, mostly from Ontario. The chief speaker will be Lindsay Crawford. Miss Kathyrn Hughes, of Toronto, and Frank Cahill, M.P., will also be among the speakers.

PENITENTIARY INQUIRY.

KINGSTON, Oct. 15.—Monday next has been set for the opening of the Penitentiary investigation by Colonel Biggar upon the complaint of two guards, G. McCauley, P. Dowsley and one instructor, R. Paynter, that they were wrongfully dismissed. Cases will not be heard at the penitentiary, but probably in the City Hall or the Court House. G. H. Smith, of the inspector's office, Ottawa, is in the city in connection with the cases.

Ross Hamilton himself, and as "Mar jorie" with the "DUMBELLS," at the Grand on Friday and Saturday, Oc t. 22nd and 23rd, with Sat. matinee.

CHILD OF THE HOUSE

Every normal child possesses an instinctive love of beauty. It is seen in the trembling eagerness of the babe to grasp in his tiny hands the daisy or daffodil. If, in his joy, he tears and destroys the fragile thing, it is only because of ignorance and inexperience, and if wisely taught, he soon learns that destruction always brings, as its result, unhappiness and regret.

Later, as he begins to toddle about, the child will bring his mother bits of bright cloth or paper, pebbles or shells. If older eyes could see what the child beholds in these apparently insignificant things what wonders would be spread before them!

In the winter time, if the mother is wise and sympathetic, the child will show her his wonderful discovery of snow and frost crystals, or the mystery of ice forming on a stream with the shadowy water slipping beneath it. To be able to see with the eyes of a little child is indeed a privilege!

The poet Wordsworth has said: "Heaven lies about us in our infancy." How is it we can lose it if we once possessed the secret of its ownership How can we be enabled to hold, through all the years, the gift with which a wise and loving Father endowed us?

Much depends upon the mother and later upon the teachers of the child. If the inborn love of beauty is wisely fostered and cultivated and the field of observation continually expanded until the trees, the mountains, the sunsets, the clouds and the stars are loved as familiar companions, a bulwark will gradually be built up against the disillusionments of life.

MORE LIGHT ON ONT. TEMPERANCE ACT

TORONTO, Oct. 15.—Gradually the interpretations of the Ontario Temperance Act are being worked out, and another mystifying point was cleared up in the City Police Court here. George Foster was charged with having liquor in a place other than his private dwelling. From the evidence given in court, it seems that Foster's father objects to liquor, and so the son ordered a case and had it delivered to the home of a friend. Under the cover of darkness he sneaked it into his father's house. Despite the allegations of the prisoner's counsel that both places were legal according to the Act, Magistrate Denison ruled that neither residence was Foster's dwelling place, and he was fined $200.

SHOT IN BACK BY MAN HE WAS DRIVING TO ASYLUM

MONTREAL, Oct. 15.—Abraham Dupere, proprietor of the Chateau Dupere, Tetrauville, a noted road house, was shot three times in the back Tuesday night by a man whom he was driving to the Longue Pointe Asylum. According to Dupere, who is now lying in a serious condition in the Notre Dame Hospital, he had taken the man, who was under the influence of liquor, to the asylum to recover, but having failed to persuade him to enter, he was driving back again when the shooting took place. A man, who gave the name of Napoleon Lebrun, was arrested by two detectives, charged with firing the shots.

A GRACEFUL WINNER.

Will Irwin, in an address in Greenwich Village, on birth control, told a story of a chap named Higgins, who got home one night to learn that his wife had given birth to triplets —three healthy, bouncing boys.

Higgins, overjoyed, went to the boss's office next morning and recounted the rare and wonderful thing which had befallen him. The boss felicitated him heartily, and the next day Higgins was sent for.

He hurried to the office again, to find the entire firm assembled there. A handsome silver cup stood on the mantel, and this trophy, in an eloquent speech, the boss presented to him in recognition of the triple blessing which he had bestowed upon his country.

Higgins took the cup in his hand, bowed respectfully, and said:

"Excuse me, sir, but is this cup mine now, or do I have to win it three years in succession?"—Boston Globe.

ALLEGED TO BE VIOLATING LAWS OF FRIENDLY NATIONS

EDINBURGH, Scotland, Oct. 15.—Advertisements appearing in Scottish newspapers, in which it is charged certain distillers claim, in substance, their business with the United States has greatly increased since the 18th amendment to the United States constitution went into effect, will be brought to the attention of the Department of Justice at Washington. William E. (Pussyfoot) Johnson, prohibition leader, addressing a meeting here last night, discussed these advertisements and asserted he would take this action regarding them.

He charged that, if the advertisements told the truth the distillers were "violating the laws of a friendly nation."

Common Sense Clothes Talk

In buying clothes you usually get what you pay for---its impossible to buy guinea gold for the same price as the "filled article," while through the plate glass window they may look the same.

KING OF LONDON NEWSIES IS MARRIED.

LONDON, Oct. 15.—Sam P. Coles, London's King of the Newsboys, married Adela Victoria Robertson, at St. James, Piccadilly, on Wednesday last. The bride is 31 years old. She came to England from New York with the Canadian Red Cross, and is now attached to St. John's Ambulance. She wears a row of decorations.

The marriage was to have taken place on Tuesday, but was postponed 24 hours because of a technicality concerning Miss Robertson's passport.

Miss S. Hamilton a bye.

BAND CONCERT.

The band of the 57th will play a sacred concert in Victoria park Sunday next in the afternoon from 4 till 6, by permission of Col. Clegg and officers, under Capt. R. Gliddon. Programme will be published in Saturday's paper. In the event of inclement weather the concert will take place in the armouries.

BROTHERHOOD MEETING.

The coming of Mr. Tom Sykes, the great Brotherhood man of England, is an event of more than ordinary importance. The citizens of Peterborough will have an opportunity of hearing this rare and gifted man on his return from the great congress in Washington. He will speak in Trinity Methodist church on Tuesday, Oct. 26th at 8 p.m. There will be no collection or offering. Every one will be welcome. Keep the date open.

MEMORIAL SERVICE TO LATE DR. THERRIEN.

On Thursday evening a public memorial service to the late Rev. A. L. Therrien, D.D., was held in the French Baptist Church, Mauce Street, Montreal. Among the speakers were Rev. Dr. Campbell, of the Presbyterian denomination, who has been a pastor in Montreal for fifty-four years, and Rev. J. R. Webb, of Peterborough. Dr. Masse, of Marieville, Quebec, gave the French address.

Dr. Therrien was an uncle of Mr. Homer Fisk, of this city, and had been pastor of Mauce Street Church for over thirty years.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, Oct. 15.—The market opened higher in New York Exchange to-day. Prices included: Sinclair 31 3-4, up 1-8; Baldwin 115 1-4, up 5-8; Studebaker 58 7-8, up 1-8; Southern Railways 32 1-4, up 1-4; Pennsylvania 43 3-4, off 1-8; U. S. Steel 88 3-8, up 1-8; Nor. Pac. 98 1-2, off 1-8; Retail Stores 73 1-2, unchanged; Mexican Pet. 187 7-8, up 1-8.

Announcement that a coal strike undoubtedly would be called in England was a depressing factor in Foreign Exchange.

EXCHANGE MARKET.

(United Press.)

NEW YORK, Oct. 15.— The Foreign Exchange market opened slightly lower to-day. Prices were: Demand Sterling $3.47, off 3-8; Francs $.0651, off $.0052. Lire $.0391, off $.0001. Marks $.0142, off $.0003.

Stock News Bulletin, 14th October, 1920, from Campbell, Stratton & Co.:

In the New York Market.—The motor group is thoroughly liquidated in the opinion of financial men associated with automobile interests and General Motors is a general favourite. Little has been heard about the corporation's truck business, which is expanding rapidly. The Industrial stocks continued to show considerable strength this afternoon. The short covering movement in the motors kept up and the earlier gains were added to before the close. Chandler and Studebaker benefited more than the rest, but the whole group acted in a manner to confirm the feeling that they have been well liquidated. The Steel and equipment stocks also moved higher, although probably their stimulus came from different sources, as the equipments appear to have benefited from new buying, while the purchasing of steels was presumably short covering. Money was fairly well supplied, although the rate did touch 10 per cent. for a relatively small amount. The oil stocks and tobaccos strengthened up towards the close and as the rails also were firm, the market showed considerable improvement on the day.

In the Toronto market.—The downward movement commenced at the very opening, was suddenly accelerated towards morning. Then at noon some support flowed in, several of the papers made fractional recoveries, and Atlantic Sugar, which was the real sinister influence behind the general slump, appeared to be stabilised at 115. The papers were also weak, sharing the unfavourable sentiment toward sugar. Brompton was the most active, selling down to 77 1-2. Western Canada Pulp and Spanish River were weaker. Cement dropped 2 points to 62. Brazilian was scarcely bought at all, even at 35 1-2. Steel of Canada was weak again at 65 1-2. Abitibi and Barcelona were heavy. C.P.R. at 140 was about the one strong feature on the board.

WANT MAN O' WAR TO MEET EXTERMINATOR

PHILADELPHIA, Oct. 15.—Samuel D. Riddle, owner of Man o' War, said he was considering the offer of the Kentucky Jockey Club for a race between his champion and Willis Sharp Kilmer's five-year-old Exterminator which won two stakes at the recent Toronto meeting, for a purse of $50,000.

"I am considering the offer," he said, "but as I have not heard from Mr. Kilmer direct I cannot say as yet whether anything will come of the proposition."

Social and Personal

Mrs. J. Hutchison, R. R. No. 2, Peterborough, wishes to announce that she will receive on Tuesday, 26th October, afternoon and evening—First Wednesday of every month. 3d-91

Mrs. James Dixon and Miss Fanny Dixon have returned home after spending the past six weeks at Kawartha Park.

Mr. Cumberland McQuaig, of the Nippissing Construction Company, Port Arthur, is in the city visiting Mr. and Mrs. J. Knox, Gilmour Street.

Mrs. Giles Stone has returned home after being absent a month. She was visiting her son and his family at Renfrew.

Mrs. William Staples, of Apsley, is spending the week among relatives in the city.

Mr. and Mrs. J. E. L. Goodwill left this week to spend a few days n Buffalo.

Miss E. Flett, Toronto is visiting her sister, Mrs. James Flett

Mrs. W. R. Morris is in Toronto attending the conventon of the Provincial Command of the G. W. V. A. Auxiliary.

Mrs. Wm. Blackwell left to-day for Montreal whence her sister, Mrs. Robinson, sails for England.

Miss C. Kennealley is in Toronto to-day.

Miss Elinor Collins is spending the holiday with Miss Reta Mairs, Toronto.

Mr. Harold Adams of the Royal Dental College is home for Thanksgiving.

Mr. Alexander Stewart from Chicago is visiting friends in the city.

OBITUARY

MRS. ELIZABETH HOLMES

IN MEMORIAM.

In loving memory of our darling babe, Ruth Lowden, who died Oct. 15, 1919:
One year has passed our heart's still sore,
As time rolls on we miss her more.
It was hard to lose you, Ruthie dear,
But God who knoweth best
Held wide his loving arms and said,
Come unto me and rest.
Sadly Missed by Mother and Family.

The First Essential

To get a pair of glasses which will satisfactorily correct the defects of your eyes, a thorough examination is the first essential.
It is because we make our eye tests so thorough that our service is so satisfactory.
Then when we fit you with the right "Peblo" Lenses, your eyesight becomes perfectly natural.

Britain Prepares For Opening Phase of Miners Strike

THE BATTLE IS SCHEDULED TO OPEN MONDAY---SPECULATION AS TO WHAT RAILWAYMEN AND TRANSPORT WORKERS WILL DO.

Canadian Press.

LONDON, Oct. 16. — Preparations for the great industrial struggle precipitated by the decision of the British coal miners to cease work, went forward grimly to-day. The machinery established by the government to cope with the crisis was working smoothly and at full speed.

The miners for their part were equally active. Some of them, notably in Derbyshire and Nottinghamshire already had ceased work at the end of their shifts. Meanwhile the public was waiting anxiously, even fearfully, for the real beginning of a battle whose outcome none could foresee, since the action of the miners hits at the vitals of the country.

The issue of the greater importance which was hanging in the balance was whether the railwaymen and the transport workers would give their active support to the miners.

This morning the executive committee of the National Union of the railroad men decided to call a special confeence of the delegates for Wednesday next when a decision will be taken as to whether the railwaymen shall support the miners through a sympathetic. Meanwhile the railway employees will remain at work. The National Federation of Transport Workers declined to indicate its position. The question may be considered at a meeting of the executive committee on Monday.

With few exceptions all works on the Teeside were closed to-day and about twenty thousand have been thrown out of employment. From Sheffield comes the report that while some of the big factories have supplies of coal sufficient for three weeks, staple trades will be immediately affected, as the average supply of coal is sufficient for one week only. At the end of that time it is estimated there will be 80,000 steel, iron, engineering, cutlery and electro plate workers idle.

On the marine side, ocean liners have been instructed to obtain bunker coal abroad as much as possible.

Lloyd George to-day addressed a message to the nation with regard to the strike. He said the government had done everything possible to avert the calamity but that the miners by rejecting all offers, were now trying to gain their ends by force. The nation, declared the Premier, would resist such an attack with all its strength and there can be no doubt as to the issue.

YOUNG BOY MAY LOSE HIS EYESIGHT

NORWOOD, Oct. 16.— Harold Davis, the little six year old son of Mr. Alex. Davis of this village, met with an unfortunate accident last week when he was hit in the eye with a stone thrown by another lad. It is feared he may lose the sight of his eye. He was taken to Peterborough by Mr. Bruce Livingstone by automobile the night of the accident, and Dr. Buchanan, eye specialist, placed him in the hospital, where an operation was made on the optic.

This is the second occurrence in this village of a child losing its eyesight through being hit in the eye with a stone. Parents should impress upon their children the danger of throwing stones.

L.O.L. JUVENILES HAD SOCIAL EVENING

INTERESTING PROGRAMME WAS PROVIDED—ADDRESSES GIVEN.

A very pleasant social evening was enjoyed by L.O.L. juveniles, No. 3, District, in Victoria Hall last evening. The following programme was rendered:

Violin selection—Master Roy Rome.
Song—William McKinley.
Gramaphone selection—F. Eldon.
Song— Mr. Malcolm, the English comedian.
Gramaphone selection—F. Eldon.
Violin selection—Master Rome.
Piano selection—Miss Gower.

Addresses were given to the boys by Bro. O'Brien, Bro. Crawford, Bro. C. M. George Porter, after which the programme concluded with another song by Mr. Malcolm.

Refreshments were served at the conclusion of the programme.

OFFICERS ELECTED FOR COMING YEAR

MEETING OF THE R.K.O.T. HELD YESTERDAY.

At a meeting of the R.K.O.T. held yesterday, the following officers for the year were elected:

Honorary president — Rev. F. E. Malott.
Superintendent—Mr. Hodgins.
President—W. E. Parsons.
Vice-President—Robert Black.
Secretary—D. E. Fry.
Treasurer—G. E. Graham.

It was decided to hold meetings each Friday evening at 7.45 o'clock and each Sunday afternoon at 3 o'clock in the club room on Reid street.

At the close of the meeting refreshments were served.

THE WEATHER

The temperature for several days past has risen to summer heat. On Thursday the thermometer went up to 81 degrees in the shade, while on Friday it reached 82 degrees. The nights also have been quite warm, the temperature going but little lower than in July. Up to date, October has certainly proved to be an ideal month.—W.P.

WINNIPEG TELEGRAM ABSORBED BY TRIBUNE

Big Western Paper Loses Its Identity This Afternoon.

(Canadian Press.)

DR. RUSSELL HANCOCK SUES HIS PHYSICIAN WIFE BECAUSE SHE TALKS TOO MUCH ABOUT HUSBAND

PLAINTIFF ALLEGES DEFENDANT'S "YOUNG CHILD" WAS "A GROWN AND BALD-HEADED MAN"—WOULD STOP HER TALKING.

NEW YORK, Oct. 16.—Dr. Charles Russell Hancock, radium expert surgeon at the Polyclinic and St. Elizabeth's Hospitals, yesterday sued his wife, Dr. Eugenia Gobell Hancock, clinical assistant in medicine at the Polyclinic Hospital and physician at the Northwestern Dispensary, in the Supreme Court. The male Dr. Hancock asks either a separation or the annulment of his marriage and also an injunction restraining Dr. Hancock, his wife, from "promulgating false stories concerning the plaintiff," which, he says, include statements that he is insane.

The plaintiff has had his office of late at 17 East Thirty-eighth street, while his wife has had hers at the Hotel LeMarquis, 12 East Thirty-first street, where they have been living. The plaintiff is now at the Hotel Pennsylvania, it was said.

The complaint alleges that when he married the defendant in June, 1909, both were practicing physicians, and he was under thirty years of age, while she was much older. He asserts that to induce him to wed, his wife represented that she was many years younger than she really was and told him that she had divorced her first husband, Harry Thompson, in Montana. She told him she was the mother of a young child in the west, he asserts, but when the "child" came on from the west after the wedding he proved to be "a grown man of the plaintiff's age and bald-headed."

The plaintiff alleges that all the statements made by his wife were untrue, and that her husband had divorced her. He contended that she was not of sound mind at the time of the marriage, and that "after the marriage she talked of suicide, used drugs that affected her mentality, consulted all kinds of fortune-tellers, talked of lying awake all night in prayer and had delusions that the plaintiff was helpless and insane, and she didn't know what to do about him." He says his wife induced him to take out a $20,000 insurance policy for her benefit, and that because she had continued to talk about his alleged insanity to his patients and others she had made it "impossible for him to support himself and dangerous to live with her."

Dr. Hancock says he had continued to live with his wife in spite of the acts of which he complains because he did not want to destroy the practice he had built up, but when she continued to tell every one he was crazy he asked his lawyer to demand that she stop. His attorney communicated with Mrs. Hancock, he says, but she told the attorney she was "praying for Divine guidance as to what to do with the plaintiff, as he was helpless."

Mrs. Hancock made a denial yesterday of her husband's charges and said he has no ground for any kind of legal relief against her. She is a graduate of the College of Physicians and Surgeons of the University of Kansas, Class of 1897, and her husband graduated from the University of Cincinnati in 1904. He has made a study of radium as an aid to the treatment of cancer.

SEWER TRAPS A BABY PLAYING IN THE PARK

INFANT FOUND BY FIREMEN HALF AN HOUR LATER 75 FEET FROM MANHOLE IT FELL THROUGH.

MANY CHEER RESCUE

NEW YORK, Oct. 16.—Two-year-old Katie Henig fell through a manhole in Tompkins Square Park shortly after noon yesterday and walked seventy-five feet toward the East River in water and mud up to her waist. Half an hour later she was found by Fireman Frank Ely of Hook and Ladder 11, clinging fast to a concrete ledge on the side of the funnel apparently not at all concerned over her predicament. Fifty feet further on the sewer joins another branch where the child would certainly have been drowned.

Katie with her brother Isadore, aged four; her mother, Mrs. Mae Henig, and her grandmother, Mrs. Celia Henig, had come to the park from their home on the fourth floor of the tenement at 122 St. Marks Place. The women found a vacant bench near the St. Marks Place entrance against the woven wire fence which surrounds the grassplots. Just inside this fence was an open manhole. At this point the wire did not reach within eight inches of the ground, and under the wire crawled Katie and Isadore to play on the green grass.

No one seems to know just how the cover happened to be off the manhole, but park employes said mischievous boys had crawled under the fence and removed the covers on several occasions recently

Boy's Scream Attracts Mother.

A minute after the children had wandered away to play Mrs. Henig heard a scream. Isadore scrambled under the wire and came running to his mother, crying:

"Mamma, Katie fell in the hole!"

Mrs. Henig told the story last night in her home with Katie sitting on her lap clutching fast to a half dozen pencils which she had garnered during the afternoon from visiting reporters.

"Izzy hollored, 'Mamma, Katie fell in the hole!' and I looked where he was pointing and saw that awful black sewer hole and no Katie anywhere. It seems like I just saw her curly hair going out of sight and then nothing—just the black hole. Then I got up on the bench to try to climb over and go after her, but grandma held me and everybody came and nobody did anything to save my baby—just held me back. Then the firemen came and got my Katie and now she's all right."

There were hundreds of mothers and children in the park and their cries attracted Sergeant Mulholland and Patrolman William Hill of the East Fifth Street Station. The policemen were both too large to get through the manhole, which is less than two feet diameter. Park Foreman Lawrence arrived with a ladder, but it also was too large for the hole. So the policeman turned in an alarm, which brought Hook and Ladder Company 1 from East Fifth Street.

The firemen, fairing that the child had been washed toward the river, opened several manholes on Avenues B and C, but could discover nothing. They then tried the hole into which Katie fell and Fireman Ely descended with a rope around him.

Fireman Tells of Rescue.

"The hole was about 10 feet deep."

(Continued on Page 2.)

WHAT TO DO ON MONDAY

Again this year hen-pecked husbands and others will bless those responsible for Thanksgiving Day being on Monday. Why should Monday be chosen when there are five other days in the week which are not bordered with red ink on the calendar? Coming as it does close on the heels of the Saturday half-holiday, it makes an excellent time for hubby to put on the storm windows or rake the leaves from the lawn in addition to the miscellany of odd jobs which have been waiting so long for him—ever since the last holiday.

For the information of those who are not hen-pecked husbands and those who are and yet bravely rebel against the tyranny of the petticoat the following schedule has been prepared:

P.A.A.A. FIELD DAY—At Riverside Park in the afternoon. Feature a ten-mile road race for which are entered several runners-up for the Canadian Olympic team and entrants for the marathon at Hamilton to-day. Smoke, Moorcroft, Tresider and White, of Toronto; McAuliffe, of Ottawa, are among the entries.

FOOTBALL—At Nicholls' Oval. Morning at 10.30 C.G.E. versus Comrades. Afternoon at 3 o'clock Caledonians versus G.W.V.A.

HORSE RACES—At Exhibition Park at 1.30 p.m. Three fast fields—2.15, 2.18 and 2.30 classes.

TEA DANSANT—In G.W.V.A. hall from 4 to 7 o'clock under auspices of Peter Robinson Chapter, I.O.D.E.

TRIP TO STONEY LAKE — Steamer Islinda leaves Lakefield on arrival of morning train for Stoney Lake.

CHURCH ENTERTAINMENT—Dinner and programme in St. James' Methodist Church under auspices of Ladies' Aid Society.

FIELD DAY AT KEENE — Sports and baseball with dance in the evening.

GUY BROTHERS' MINSTRELS —At Grand Opera House, matinee and night.

AUTUMN ART AT MURRAY STREET

The arrangement of the Murray Street Baptist Church for Thanksgiving services of to-morrow is something rarely seen in the realm of church decoration.

This beautiful edifice lends itself to several modes of treatment and has frequently on occasion been a thing of beauty and joy.

On this occasion the committee in charge of the work have adopted an altogether new plan. The whole auditorium speaks of Autumn.

The decorations are suggestive of the varied harvest of beauty and utility with which Canadain autumn abounds.

Thousands of leaves waxed and properly blended accentuate the artistic lines of altar and choir loft.

The bountiful fruitage is suggested by grape vines trailing over white trellises. Behind these stand pedestals supporting baskets of fruit.

Sheaves of grain and specimens of fruits of the ground with their complimentary tones complete a very pleasing color scheme.

A JURY OF WOMEN OUT THIRTY-FIVE MINUTES

FIRST CASE HEARD ENTIRELY BY THEIR SEX IN THE EAST DECIDED IN JERSEY.

NO DIFFICULTY AGREEING

NEW YORK, Oct. 16. — A new chapter in the history of women's activities and in the annals of the jury system was begun when twelve women answered the roll-call and filed into the jury box before Judge Daniel A. Dugan in the Disthict Court at Orange, N.J., yesterday morning. For the first time east of the Alleghanies a jury composed entirely of women performed its duties, and performed them very well.

The importance of the occasion was attested by the appearance of the court room, which was crowded to capacity. All along one side of the room was a battery of cameras aimed at the jurors' chairs and there were reporters aplenty.

After the women had taken the oath and had posed for a flashlight photograph, the Sergeant-at-Arms proposed that they and the court officials group themselves on the steps outside the City Hall for more picture-taking—"if the court approves." The court expressed its approval with a broad smile, and every one adjourned below. After that the busines of the trial proceeded.

A Simple Case.

The case was a simple one, concerning merely the property rights of Antonio Pascarelli, who brought suit to prevent the court from executing a judgment obtained by the McCall Pattern Company. The company's claim was that Mrs. Pascarelli, his wife, and not he, was the owner, and counsel for both sides produced documents and witnesses. If the husband owned a certain dry goods store in Newark, the court constable could not levy upon the property for an impaired contract which his wife had entered upon with the pattern concern. If the wife was the owner, the levy was legal.

The women, all of whom were residents of the Oranges, were ill at ease as the trial began, but all listened attentively to the examinations of witnesses, and it was soon evident from their questions that they were not in the least non-plussed by their novel duties. They could not subdue an occasional giggle at the odd answers of the two Italians on the witness stand, but neither could the audience at large.

When the estimony was finished there was an adjournment for lunch, and at two o'clock counsel for both sides presented their cases to the "ladies of the jury"—"gentlemen one of them said in an unguarded moment. Both took occasion to congratulate the women upon their first jury duty, and Judge Dugan, through whom New Jersey has credit for the new step, in his summing up was careful to make as easy as possible for them the legal points presented by the controversy. They went to the jury room at quarter of three, and thirty-five minutes later had reached their verdict, approving the husband's claim to ownership.

There was much chaffing of the ladies before the trial began, but they were quick with their answers.

"We've waited a long time for this," siad Mrs. Mosler, "and now we'll have our fun." "But," she added quickly, "we mean business." Mrs. Philip McKim Garrison, who acted as forewoman, said after the trial that she and her eleven assistants had had little difficulty in reaching their verdict. Judge Dugan discussed with a

Londonderry Scene of Severe Fighting

SOLDIERS CALLED OUT TO CLEAR THE STREETS—RIVAL GROUPS RETURN THE FIRE.

(Canadian Press.)

LONDONDERRY, Oct. 16. — Scenes of wild disorder occurred in this city last night, there being a reign of terror which virtually eclipsed that which recently preceded the curfew hour along the Carlisle road. This thoroughfare was again the scene of fighting, the trouble beginning when a band of youths suddenly appeared and began firing pistols. They maintained a running fire the whole length of the Carlisle road and rival groups returned the fire. Pedestrians fled in terror and soldiers rushed to that section of the city, finally clearing the streets. There have been no reports regarding casualties.

PETERBORO GROWER HAS GOOD POTATOES

Mr. J. Williams of North Monaghan Heads the List.

One of the agricultural experts of the Gardner Seed Co., Rochester, America's largest seed producers, recently visited the field of patatoes of J. A. Williams, Peterborough, R. R No. 5, who received the first prize on Cobblers in Eastern Ontario. While he was digging and upon his return the firm sent in an order for one barrel of hand selected stock to test out on their trial grounds at Victor, N.Y. The crop was inspected in July by the Dominion inspector and the latter told Mr. Williams it was the best field of potatoes he inspected in Ontario.

THE SHOW WAS A ROAR FROM START TO FINISH

GUY BROS'. MINSTRELS GREETED BY CAPACITY HOUSES—BILLED HERE FOR MONDAY.

Packed houses are greeting Guy Bros.' famous minstrels wherever they are billed. At Kingston a capacity audience accepted their programme with enthusiasm, and encore demands were clamorous. They will appear at the Grand on Monday, matinee and evening.

NEW YORK STOCK MARKET

(United Press.)

NEW YORK, N. Y., Oct. 16. — Prices were irregular on the Stock Exchange to-day. Fluctuations either way were fractional, however. Prices were: Union Pacific 127 1-8, off 3-8; U. S. Steel 88 1-4, off 1-4; Mexican Pet. 192, up 3-8; Crucible 131, up 1-2; Baldwin 115 7-8, up 1-4; Sinclair 32 1-8, up 1-8; Reading 99, off 1-4; Southern Pacific Railway 32 1-8, up 1-4; Studebaker 58, up 1-4; Texas Co. 50 7-8, up 3-8; Canadian Pacific 126 1-2, off 1-4; American Sugar 103 7-8, up 3-8.

FOREIGN EXCHANGE.

United Press.

New York, October 16. — Foreign exchange quotations at the opening to-day, included sterling demand $3.46 1-4, francs $.0601; lire $.0391; marks $.0142; Canadian dollars $.90.35.

TRINITY CHURCH THANKSGIVING SERVICES

The Thanksgiving services in Trinity Church to-morrow will be of more than usual interest. Under the able leadership of Mr. King and assisted by Mrs. Foster, violinist. The choir will give at night a festival of song. The programme will consist of organ numbers by Mr. King, three anthems by the choir, a soprano solo by Mrs. King and a violin solo by Mrs Foster, who will also accompany Mrs. King.

The pastor's evening theme will be "The Wise Wife of a Rich Fool," or the story of how a beautiful and wise woman saved her household from death.

Visitors are always welcome at Trinity Church.

BOY WANTED TO CAARY PARCELS AND DO GENERAL WORK. WM. LECH & SONS, LTD., 413 GEORGE STREET. 3d-92

CHAS. SCHOOLEY, PES.
FRED. E. JONES, SEC.

CHRISTIAN CONVENTION.

A Christian convention for prayer, praise and ministry of the word of God will be held (D.V.) in the Victoria Hall, 332½ George street, on Sunday and Monday, Oct. 17th and 18th. On Sunday at 2.30 a meeting will be held for the ministry of the word and prayer, and at 7 p.m. the gospel of Christ will be preached, and on Monday at 10.00 a.m., 2.00 and 7.00 p.m. for prayer, praise and ministry of God's word. Quite a number are expected fram other parts, including well-known preachers of the gospel of Christ. All are very cordialy invited to attend these meetings. "Come and bring your Bible." Isa. 8-20, and Tim. 3-16.

KNOX CHURCH TO-MORROW.

At Knox Church to-morrow the services will be in keeping with the Thanksgiving season. The evening service will be principally one of praise. The choir will be assisted by Mrs. C. B. Hughes, Mr. Tom Smith and Master Kenneth McCannon. The minister will conduct both services.

TALENT TEA WAS HELD.

The talent tea given yesterday by the teachers and officers of Knox Church Sunday School proved a splendid success, and a large amount of money was realised, to be devoted to the purchase of hymn books for the Sunday School. The Ladies' Parlours, in which the entertainment was held, was prettily decorated in autumn leaves and flowers, and the tables from which tea was served and the home-made cooking sold, were most attractive with their bouquets of flowers. A musical programme was given in the Brotherhood Room.

ARE YOU IN NEED OF GLASSES

Some folks say they can't tell whether they really need glasses or not. If you are in doubt at all about the matter, let a careful eye examination settle the question for you. See W. H. Lacey, Optometrist, 410 George street. Open Wednesday and Saturday evenings.

Biliousness and Liver Diseases

May be the result of Constipation or may exist when the bowels are regular. The Liver is congested often, giving rise to pain under the right shoulder, the complexion is yellow, headache, nausea, loss of appetite, slight fever, distress after eating, sometimes vomiting. Bile does not enter the bowels to digest the fats which decompose, forming gas, irritating the intestinal tract, often producing diarrhoea. A natural Liver Stimulant is required and DR. HENDERSON'S HERB TABLETS taken according to directions not only stimulates, but tones that organ.

Go to Warne's Drug Store and secure a box, and then watch results. Price 25c. 50c. and $1.00 per box. Each Dollar box contains a Guarantee.

Toronto, Ont.

SEWER TRAPS A BABY

(Continued from Page 1 .)

Ely said, "and there was more than a foot of mud and water at the bottom I had a lantern and I started down stream, thinking the child had been washed away. I hadn't gone twenty feet before the light went out on account of sewer gas, which was very strong, so I went back and told the boys about the gas, and then started to look for the kid again. The tunnel is about 3 feet high, so I went on my hands and knees and kept calling. Finally, after going about seventy-five feet, I saw something light ahead of me and I stopped and said, 'Come here, kid,' and I heard just a little cry, and a few feet further was the kid hanging on to a ledge in the sewer. I picked her up under my arms like a bundle and then crawled back."

Fire Lieutenant Semansky and five firemen pulled Ely and Katie out of the sewer, and Ely lifted the baby over the wire fence to the waiting arms of Mrs. Henig, while the crowd, which had grown to several thousands, cheered the firemen, Katie and her relieved family.

Dr Schwartchoug of Bellevue Hospital had been called and found the little girl sound and unhurt. Then, with grandma and Isadore, Katie and her mother went home, escorted by hundreds of sympathetic and congratulating neighbors.

"She'll be 2 years old in three days," Mrs. Henig said, "but I guess we'll have her birthday celebration tonight."

A JURY OF WOME OUT THIRTY-FIVE MINUTES

(Continued from Page 1 .)

reporter his reason for starting the empanelling of women:

"We have had great difficulty for the past five years," he said, "in getting men for jury duty. As soon as they are assigned they begin ringing my telephone with requests to be excused. Now we shall have twice the number of citizens to call upon. And it was time for the step to be taken, too. The East is naturally conservative, but the women are perfectly well fitted for jury work, and I intend to call upon them from now on. The only cases I shall not give them will be those involving slander, where they might be forced to hear bad language."

Hamilton's factories must cease using natural gas, October 31.

MOTHER!

MARGUARD'S SHARE OF SWAG ATTACHED

Two Judgments Against Pitcher Returned in New York Courts.

CINCINNATI, Oct. 15.—John T. Bruce, secretary of the National Commission, to-day was served with a notice of attachment on Pitcher "Rube" Marquard's share of the World Series receipts. The action was based on two judgments returned against the pitcher in the New York Courts.

The claim of Joseph Rosenweig is for $316.91, while the joint claims of Louis Henry and Max Robinson total $524.91. Mr. Bruce, as secreaary of the Commission, will send cheques to the players who engaged in the series. The atachment notce sent to Cincinnati did not state what the suits in New York were based on.

ST. THOMAS SHOPS.

ST. THOMAS, Oct. 15—Announcement was made yesterday that an order had been received from the M.C.R. headquarters, Detaroit, for the laying off of 10 per cent. of all the men employed in the local shops.

Seniority and rank will govern in the laying-off of the men, who are being given five days' notice, commencing yesterday.

F. R. Webb, Division Master Mechanic, stated that he was unable to give the reasons for the reductions.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a 16-oz. bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

COUGHLIN MYSTERY BELIEVED SOLVED

AUTHORITIES CONVINCED THAT BABY'S BODY DECOMPOSED AND DISAPPEARED.

WEIGHT IS FOUND

PHILADDELPHIA, Oct. 16.—By the confession of August Pasquale, "The Crank," the mystery surrounding the kidnapping of 13 months old Blakely Coughlin, who was stolen from his parents' home at Norristown last June, has been solved, according to authorities working on the case. At the same time Pasquale is alleged to have confessed to the murder of a woman in Philadelphia, which local police believe clears up the mystery surrounding the killing last June of Mrs. Rose Asherman, who conducted a rooming house here.

Story Substantiated.

In his confession, as given out in Harrisburg by Major Lynn G. Adams, superintendent of the state police, Pasquale said he tied a piece of rail to the body before castly it into the water. Yesterday the prisoner, who has been locked up in the Montgomery country jail since his capture on August 2 led Captain Samuel W. Gerhardt, of the state police and a diver to the place where he claimed to have thrown the body. The diver brought to the surface the rail with the string still attached as described by Pasquale.

Thorough search of the river botton in the vicinity, however, failed to reveal any trace of the child's body. Later Captain Gerhardt and Major C. T. Larzelere, counsel for George H. Loughlin, the baby's father, inquired of physicians at the University Hospital how long it would take the body of a 13 months 'old child to decompose and disapear in the waters of the Schuylikill. What they said is not made public, but afterward Captain Gerhardt expressed himself as satisfied that the mystery had been cleared up but that the body would never be found.

Another Murder.

Major Adams also disclosed that Pasquale had confessed to the murder of a woman in this city, believed to have been Mrs. Rose Asherman the mystery of whose death two nights before the Coughlin kidnapping is quoted as having said he killed a woman about sixty years old at a rooming house at 608 North Eighth street, with a piece of slate, "the latter part of May or the first of June." For two weeks, he said, he had a room at the house and took the key with him when he left. He went back to the house for the purpose of robbery and, finding the owner of the house, whose first name he said was 'Rose' had not retired, he hid himself in a closet and waited for her to go to bed. In opening the closet door the woman was awakened and he killed her. He said he had taken "around $300.55

Mrs. Asherman, who conducted a rooming house at the address given by Pasquale, was found dead in bed with her skull fractured on June 1. Her twelve year old granddaughter was sleeping in the room when she was killed and she was detained by the police as a material witness. The woman was said to have carried all her money in her clothes and the police were never able definitely to learn whether robbery was the motive for the killing. Captain Souder, of the local detective bureau, after reading Pasquale's confession, said he was convinced the Norristown prisoner was the slayer.

HAVELOCK

HAVELOCK, Oct. 15.—Mr. Wm. Weese, of Toronto, is in town on business.

Miss McIntosh, teacher at Blairton, is spending a holiday at Ottawa.

Mr. R. J. White of Toronto, is spending a few days with Mr. Matthew White of Belmont.

To Continue in Public Service—

The Navy League of Canada Needs $760,000

Since the money must come from the people, explanation is due to them of the need for it. The work of the Navy League is:

To Continue the Sea-Conscious Spirit in the People and in the Government.

To enlighten people upon the importance of the sea; so that Canadian products may be shipped, through Canadian ports, in Canadian ships, officered and manned by trained Canadians.

To Continue the Sea-Conscious Spirit in the Schools.

As a Merchant Navy is the first step to sea power in any nation, so is the seed-sowing of fundamental national ideals in the schools, the first step to national greatness.

To Continue Training 2,000 Canadian Lads for the Sea.

The continuous training of over two thousand Canadian lads, in the Boys' Naval Brigades of the Navy League of Canada, is to-day having an effect upon our maritime future.

Since May last, sixty of these lads have completed their training and passed into the Canadian Merchant Navy. Fifty more have gone to England to man the new ships of the re-organized Royal Canadian Navy.

Under the guidance of Experienced Sea Minds, it is being planned to give chosen lads from the Boys' Naval Brigades an ocean-going education second to none, so that Canada will have efficient master seamen.

To Continue to Relieve Distress of Canadian Merchant Sailors.

After this year the League expects to cease asking for funds for the relief of the Canadian dependents of Merchant Sailors who were killed on Active Service. With the trust funds now in hand, together with the sum set aside in the Budget, to be raised by public subscription, it should be possible to establish an endowment, the income from which will be sufficient to provide these dependents with a pension equal to that granted to the dependents of Naval men killed on Active Service.

As many of these dependents are young children, the endowment must continue for a number of years, until the children become self-supporting.

To Continue Upholding Every Sailors' Home, Institute and Sailors' Welfare Society in Canada.

The Navy League seeks to make life comfortable for our sailors when ashore. After all, Canada is their home; and the home, while they are here, of the sailors of other lands.

The Navy League endows, maintains or assists in maintaining every Sailors' Home, Institute and Welfare Society in Canada. And every dollar subscribed for the maintenance of these Homes and Institutes will be money well invested and redound to our national prosperity. . . . . .

These objects can only be achieved through an organization representative of public responsibility and outside party politics.

The obligation is apparent, simple, easy! Borne in proportion, from coast to coast, the weight is felt, but not the strain. The public expect this work to continue and to be maintained by public subscription "until it yields the true glory."

"Peterborough Presents Possibilities Unsurpassed."

SATURDAY, OCT. 16TH, 1920.

THANKSGIVING DAY.

Canadians as a people have every reason to observe Thanksgiving Day with grateful and joyous hearts this year. The general conditions in the Dominion as contrasted with those in many other countries are such as should induce a hearty observance of the annual day for national thanksgiving. The country has had remarkable crops, and vast stores of grains, fruits and vegetables have been set up. There are indications that the apex of high prices has been reached and that a downward reaction is setting in, and even at their present levels the prices prevailing in the Dominion are lower than in many other parts of the world, while Canadians as a whole are in a much better position financially to fight the battle with the high cost of living. Unemployment has been at a minimum during the summer that has just gone, there has been work at good wages for everybody. Labour troubles have been light compared to the conditions in other less favored countries, and the relations between employers and employees have been more cordial and friendly than elsewhere. Yes; Canada is a pretty fine country in which to live and we can all return thanks on Monday that our lot has been cast in a land that is literally flowing with milk and honey in comparison with other countries.

THE NAVY LEAGUE CAMPAIGN.

One hundred dollars per month for a widow with four children, or $20 per month for each member of the family, is the aim of the Navy League of Canada in pensioning the widows and orphans of Canadian mercantile sailors who lost their lives on active service during the war. The league during Trafalgar sailors' week, Oct. 18 to 23, propose to raise $760,000 for the work in general, of which $144,00 will be used as an endowment for pensions. The income from this endowment along with funds already in hand, will be sufficient to meet the rational situation.

The Navy League of Canada in appealing to the public for funds feels that no widow should go hungry or any child go through life without a proper education because the father paid the supreme sacrifice on active service. any of the men on the merchant ships carried food, munitions, troops and general supplies, were torpedoed at sea and went down as British seamen always have done standing aside, "Women and Children First."

The plan as decided upon by the executive is to grant a pension to each widow and family according to requirements, and carry on the relief work already commenced upon a larger and permanent scale. Each child who lost his or her daddy during the war will be granted a pension adequate to cover necessary expenses for a good education, and therefore the country at large, through the medium of the Nevy League of Canada, will be fathering all these children, giving them home, education, until they are able to support themselves and a proper start in life.

Through this endowment the mother will be able to remain at home, take care of her children, and make a home what it ought to be. The league considers that every woman with children should be in the home, sufficiently supported with finances, so that she can bring her children up properly and not be forced to leave them alone all day to play on the streets while she works taking the place of both father and mother.

Work Around the Home

A BASEBALL HERO.

Peterborough is to entertain in the very near future one of the supermen of baseball in the person of Tris Speaker, manager of the Cleveland Indians, who have just won in decisive fashion the title of world's champions. The very name is one to conjure with throughout the United States and Canada, for there is no more popular figure in the baseball world than the Cleveland manager, who comes to Peterborough next week. There never has been the slightest breath of scandal attached to the name of Tris Speaker. He has always been known as a player who gave of his best at all times for his team and in his managerial career he has won the highest of commendations. In this time of revelations of dishonesty and fraud among professional ball players, Speaker's straightforwardness and sincerity have gained fresh lustre and he is honoured wherever baseball is known and talked about. There have been many incidents this season that have shown the calibre of the manager of the world's champions. His action at the time of the death of Ray Chapman in leaving his team at a critical stage in the race in order that he might arrange the details of the funeral of his great friend did not escape unnoticed, while it did not surprise his admirers to hear that the first thing he did after winning the highest honours, was to race in from centre field and kiss his mother who sat in the front of the grand stand. Speaker is a wonderful ball player, a succesful manager and above all a real man, and Peterborough is honoured in his visit.

KEEPING AN EAR TO THE GROUND.

Probably the safest attitude for the manufacturer to-day when faced with the downward movement in commodities is to put himself in the closest touch with the distributors of his goods, the jobbers and the retailers. There is a much abused proverb in the retail world of merchandising that "the customer is always right." Applied to the present situation it means that the retailer is probably the one who can judge most accurately the feeling of the consumer towards existing prices and how far those prices may be adjusted before a healthy level is reached.

The shoe manufacturers of Canada and the States evidently waited too long, and their market slipped suddenly away from them, and their attempt to-day through consumer advertising to prop up those old prices is probably the most glaring instance of a hopeless and unintelligent effort to thwart the determined will of their customers, the consumer. The sugar refiners have displayed a keener insight into conditions and have made successive cuts in their commodity; to-day they would have been prepared to face the unusual conditions in that industry had they not been hampered by price-fixing that dogged them during the past two years. The woollen men waited too long, declared prices could not come down, and then when cancellations flew in, dropped their prices. The cotton textile men are in a better position technically, but they will take a wise step in a few days and down will come the prices of cotton goods; this should save their market and stimulate buying.

Meeting the ultimate buyer, the consumer, half way, looks like the wisest course for the manufacturer today. And to find out what are the wishes of these consumers he should get in immediate touch with the retailer, and where possible, with the consumer himself.—Financial Post.

PERFECT RUBENS PAINTING FOUND

(Canadian Press.)

VANCOUVER, B. C., Oct. 16. — A Rubens painting, declared by connoisseurs to be a perfect and unmistakable example of the great master's art, has been discovered in Vancouver in a humble residence on the outskirts of the city. Several other paintings of extraordinary interest, including a supposed Claude and a supposed Gainsborough, keep it company. Photographs of the Rubens painting are now on their way East to Ottawa and New York, to bring the existence of the painting to the attention of the Ottawa Government and of art lovers in the American city.

The painting is a work of exquisite beauty, depicting a bacchanalian festival in the best style of the Flemish painter. There are over twenty figures in the scene.

Identity of the owners and the whereabouts of the pictures are withheld by request of the owners for obvious reasons. They have been in the family of the young wife who owns them for over a hundred years. The pictures came to her as heirlooms. They have always been regarded as paintings of great value but the knowledge that one of them was a Rubens only came when they were inspected some little time ago by an art connoisseur.

TOM BASSOFF TO BE HANGED

(Canadian Press.)

MACLEOD, Alta., Oct. 14.—Tom Bassoff, one of the trio of bandits who held up the C.P.R., train at Sentinel on August 2, was sentenced by Justice McCarthy here yesterday, December 22, at the Lethbridge Jail.

A CHASTENED STATESMAN.

"You made a great many promises before you were elected to office."

"That's true," said the Hon. Thomas Jefferson Wapples.

"Some of your constituents say you haven't kept a single one of your pre-election pledges."

"It's this way. When I went to Washington as a member of Congress I thought the eyes of the nation were upon me and I could put through some constructive legislation that would hand my name down to posterity. I've been there four years now, and one-half the tonsorial artists in a barber shop I patronize every day don't know who I am."—Birmingham Age-Herald.

BUY Long-Term Securities NOW

Your Investments and Your Income Tax

Next year you'll pay income tax again to the federal government.

You'll pay tax on income from your securities.

But the income from some securities is tax free.

Do you realize that those Victory Bonds which are tax free may yield a larger net return than other securities paying a higher interest rate, but which are subject to tax.

Review your holdings. You place yourself under no obligation in asking our advice and assistance.

VICTORY BONDS are among the best long-term securities available. We particularly recommend those Victory Bonds which are FREE FROM INCOME TAX, and which fall due in 1933 and 1937.

Dominion of Canada 5½% Bonds

Victory Bonds Free from Dominion Income Taxes

Due	Price		Yield
Dec., 1922	98	and interest	6.37%
Nov., 1923	98	and interest	6.14%
Dec., 1927	97	and interest	6.00%
Nov., 1933	96½	and interest	5.88%
Dec., 1937	98	and interest	5.68%

Victory Bonds Subject to the Usual Income Taxes

Nov., 1924	97	and interest	6.27%
Nov., 1934	93	and interest	6.24%

We shall welcome an opportunity to serve you in your investment matters irrespective of the amount of your funds

Golden Harvests

Why speculate with hazardous hopes?

Few people realize fully the handsome returns which some of the most unquestionable securities actually bring. This applies not only to those who are just beginning to save, or are just forming investment habits, but, indeed, to many who have been investing for years.

For instance, if an investor were to purchase a $1,000 Victory Bond due 1934 on, say, October 15th, the cost and return would be:

COST		RETURN	
At 93 and interest:		29 half-yearly interest payments of $27.50 each	$ 797.50
For principal	$930.00	and at maturity	1,000.00
For accrued interest,	25.16		
TOTAL	$955.16	TOTAL	$1,797.50

If the interest payments were not spent, but were re-invested promptly in securities yielding 5½%, the total return would be still further increased to $2,196.20.

A $100 Bond costing	$ 95.52	A $50 Bond costing	$47.76
would return	179.75	would return	89.87

$10,000 worth of Bonds, costing $9,551.60, would return $17,975. or, if re-invested, $21,961.98; and other amounts in proportion This is the kind of golden harvest which the safest security in Canada will give you. Whether the amount is large or small the same proportion holds. Plant your dollars now in Victory Bonds and your harvest will be sure.

Bonds may be bought in $50, $100, $500 or $1,000 denominations.

Your inquiries and orders will receive our best attention.

STAKEHOLDER VAMOSES WITH BETS OF $20,000

There Are Various Ways of Losing on the World's Series.

BOSTON, Mass., Oct. 15.—Members of the sporting fraternity were thrown into an uproar to-day when it was learned that a prominent 'bookie' who was holding $20,000 stakes for gamblers who had bet on the World Series, had disappeared. The 'bookie' who is declared to be a close friend of 'Sport' Sullivan whose name was mentioned in the baseball scandal, disappeared Monday it is declared. Investigation by persons who had won wagers brought his absence to light.

Several days before the series the man went among his friends and volunteered to serve as stakeholder of any bets they cared to place. As he has been considered safe large sums were placed in his hands. Many are enraged at the man's disappearance, and it is the sole topic of discussion in sporting circles here to-night.

GOVERNMENT NOT TO SUSPEND RY. RATES

(Canadian Press)

OTTAWA, Oct. 15.—Intimation is given in well informed circles that there is little likelihood of the Government suspending increased railway freight and passenger rates, pending further consideration by the Railway Board of discrimination against the west in the matter of freight rates. Any such suspension of rates, it is stated, would be rather a matter for consideration by the Railway Board.

STRETCH out your arms, raise your limbs! If there is no strain, no bagginess, no discomfort, it is the perfect fitting garment that, all other things being equal, will give excellent wear.

Mercury Underwear for men is designed for the "perfect fit"—special fitting neck, neat shoulders, plenty of room under the arms. Closed crotch combinations are an improved style.

Great care is taken in the choice of materials and in the making of all Mercury goods to maintain the popular Mercury quality.

Light garments for office wear, Scotch knit garments for extra warmth and service.

Ask for "Mercury." If your dealer does not have them, send us his name.

MASTERY.

I would not have a God come in
To shield me suddenly from sin.
And set my house of life to rights,
With angels clad in bright burning whites
Ordering my carnal thoughts and things,
Rather, my own frail guttering lights.
Wind blown and nearly beaten out,
Rather the terror of the night
And howling sick groaning street doubt,
Rather be lost than let my soul
Slip vaguely from my own control—
Of my own spirit let me be
In sole though feeble mastery.

—Sara Teasdale.

Don't be afraid of work when you are young. A feast breeding in the morning of life with the appetite for a feast later in the day.

We all have troubles, little and big, but who expects to find cherries without stones or roses without thorns? Who would win must learn to bear. Work and the troubles will grow smaller and smaller until they finally evaporate. The cur in the kennel barks at fleas, but the hunting dog does not even know they are there.

"The movies" occupy a very worthy place in the world both as amusement and as education, but you cannot bring up a generation on "movies" and have the minds of that generation what it would be if it were brought up more on the church. An even balance would be an admirable arrangement.

A very famous surgeon performed an operation on a mouse which caused it to dance round and round perpetually until the poor little creature finally dropped dead from exhaustion. The thought occurs to us occasionally that the present generation seems to have gone through the same operation.

Overwork is a bad thing but underwork is far worse. All of us complain that we have too much to do, yet work is the greatest blessing in the world. Sorrow and discontent come to all of us and fortunate indeed is the man who at such times can bury himself in hard work. It keeps our reason clear and makes life seem worth living again.

How futile is all this effort and fuss so many of us make over various creeds and doctrines; and how great is the absence of charity sometimes when we are discussing the creeds of our fellowmen. What right have any of us to say which belief is correct. All of us who strive to think carefully and honestly are not so far apart at the base. It is the basic truths that help us when we come to that Gethsemane which happens to nearly every life. To say that is to imply that men at some time in their experience go beyond the place where even the nearest and dearest can accompany them. This is the No Man's Land of the Soul and fortunate is the one who has a working religion to stay by him at this time.

All these different creeds are like the different houses in which men live. They are designed to suit our needs rather than to cause our souls. It would be well if all could spend more time in getting at the basic matters. They would meet more of their brethren than they imagine.

Most of us believe we must have a vacation. We take it as our just due and we are correct. Everyone needs a vacation. However, a vacation should be a real time for rest and change, not merely a change of location that still retains all the worries and cares of home and business.

The housewife, as a rule, seldom gets a real vacation. When she has spent her holiday with the children she is as a rule, more tired than when she left home. She should have complete readjustment. When men begin to realize what continued strain means for women, how it effects matters which concern the household, as well as the very life of the women themselves, they will be the first to insist upon a separate holiday, some time, not less than a fortnight, in some place that shall mean peace—possibly pleasure, but peace first—where butchers cease from troubling and the laundress is at rest.

It is one thing not to leave home because one is too well and happy and comfortable to move, but another thing to be too languid and tired to face the fatigue of packing and travelling. This is the surest sign of all that it is necessary to go and go at once.

HOUSEHOLD RECIPES

Eggs With Tongue.

Split the required number of muffins in half and toast. Cover with cream sauce and chopped tongue. On each muffin place a poached egg.

Bananas en Casserole.

Cut six bananas into quarters and dust with salt and pepper. Roll in flour, add a little butter and place in a casserole with a cup of milk and bake until tender. About 25 minutes. Dot with butter, add bread crumbs and brown in the oven.

Mocha Cake.

Beat two eggs, add a cup of sugar, a cup of flour, a heaping teaspoon of baking powder, half a cup of boiling milk, a tablespoon of melted butter and a little salt. Divide the mixture and bake in two pans. Put together with the following: One cup of powder sugar and a quarter of a cup of butter creamed together. Add two tablespoons of hot coffee and two tablespoons of dry cocoa. Flavor with vanilla.

Frozen Peach Pudding.

Make a boiled custard from a scant pint of milk, one tablespoonful of cornstarch mixed with a little cold water, a quarter of a teaspoonful of salt, two eggs and three tablespoonfuls of sugar. Cook over hot water and when well thickened remove from fire, cool and flavor with half a teaspoonful of vanilla extract and six drops of sweet almond extract. Chill on the ice, add a quarter of a pint of chilled double cream whipped solid and turn into the freezer. Freeze, and when the mixture begins to congeal add three-quarters of a cupful of fresh, sweetened peach pulp and half a cupful of crushed, dried macaroon crumbs. Continue to freeze until firm and smooth. The peach pulp should be quite sweet.

Peach-pineapple Preserves.

Use equal quantities of ripe peaches and pineapple, ripe or canned. To each pound of fruit add 3-4 pound of white sugar. Boil to a thick preserve and fill glasses or jars. The pineapple should be cut into bits before adding to the peaches. A few blanched almonds, cut into thin slices, may be added if desired.

Peach Salad.

Cut peeled peaches in slices and marinate in French dressing made with lemon juice instead of vinegar. When ready to make the salad, drain the fruit and add for three peaches half a dozen chopped, peeled radishes, one tablespoonful of chopped nut meats, half a cupful of shredded lettuce and two slices of chopped canned pineapple. Moisten with a boiled honey dressing and serve in lettuce cups. Top each portion with a maraschino cherry.

Plum Betty.

Remove the pits from a quart of plums and cut the fruit in quarters. Sprinkle the fruit with sugar and add the juice from half a lemon and a half teaspoonful of ground cinamon. Arrange in a buttered pudding dish, alternate slices of the prepared fruit and bread crumbs and dot the cake layers lightly with bits of butter. Have the crumbs on top, pour over four tablespoonfuls of loganberry juice and bake in a moderate oven. Serve with top milk.

Peach Fritters.

Mix and sift together one large cupful of flour, one and a half teaspoonfuls of baking powder, one-quarter teaspoonful of salt and one tablespoonful of powdered sugar. Beat the yolk of one egg lightly, add a quarter of a cupful of ice water. Beat until the batter is full of bubbles and add three-quarters of a cupful of chopped, peeled peaches and the stiffly whipped egg white. Drop by the spoonful into deep hot fat and fry to rich brown. Roll while still warm in powdered sugar and ground cinnamon. Serve with hard sauce.

Grapenut Muffins.

Soak three-quarters of a cup of grapenuts in a cup of milk half an hour. Add a tablespoon of sugar, a tablespoon of melted shortening and one egg. Beat well together and add a cup and a half of flour and two teaspoons of baking powder. Bake about 20 minutes in a hot oven.

Baked Prunes.

Place the prunes in a casserole or a covered dish with just enough water to cover and a cup of sugar to a pound and a half of prunes. Bake in a slow oven until tender. A few slices of thin cut lemon peel may be added if the flavor is liked.

Salmon Croquettes.

Mix two cups of flaked salmon with two tablespoons of chopped parsley and a chopped sour pickle. Melt a tablespoon of butter, stir in the same of flour, half a cup of milk and a little salt. Boil thick, add to the salmon and, when cold, form into croquettes. Bake in the oven until brown. Serve with the following sauce: Chop fine half a cucumber and add to a cup of whipped cream.

Creamed Haddie.

Cream a tablespoon of butter and the same of flour. Stir in two cups of milk and, when thick, add a cup of diced cold boiled potatoes and two cups of flaked finnan haddie. Boil one minute longer.

Rice Soup.

Boil half a cup of rice in four quarts of water for one hour. Add a ring of onion, a teaspoon of chopped green peppers and half a cup of milk. Serve without straining.

Roquefort Dressing.

Mix six tablespoons of oil, three of lemon juice or vinegar and a little salt and pepper. When well blended add two tablespoons of mashed Roquefort cheese. Beat for one minute and pour over the lettuce.

Indian Pudding.

Pour one pint of boiling milk over half a cup of Indian meal, a quarter of a cup of molasses, half a teaspoon of ginger and a little salt. Turn into a buttered dish, add a pint of cold milk and bake in a very slow oven for four hours.

Johnny Cake.

Mix well two cups of cornmeal, one cup of flour, two cups of milk, a tablespoon of butter, two tablespoons of sugar, three teaspoons of baking powder, and a little salt. Bake in a shallow tin.

Apple Fritters.

Mix a cup and a quarter of flour, a quarter of a cup of barley flour, two thirds of a cup of milk, a tablespoon of butter, two tablespoons of corn syrup, two teaspoons of baking powder and a little salt. Drop by spoonfuls into a hot, well-greased pan and brown on both sides. Serve with maple syrup or honey.

Mock Lamb Chops.

Use a cheap piece of lamb and cut in individual pieces. Cover with cold water, add a pared and sliced carrot, a small sliced onion. Simmer two hours, drain and fry brown. Pour over the gravy thickened with dissolved corn starch.

Sweet Potato Pone.

Slice cross-wise boiled sweet potatoes. Line a deep pie plate with pie crust and put in a layer of sweet potatoes, sprinkle with sugar and five wholecolves, a little melted butter, a teaspoon of lemon juice and a little water. Cover with a crust and bake brown.

GIRLS! USE LEMONS FOR SUNBURN, TAN

Try it! Make this lemon lotion to whiten your tanned or freckled skin

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands, and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is

MAN FOUND HELPLESS BESIDE HIS TRACTOR

Herbert Ball, of Near Millbrook, Suffers Stroke.

On Monday last Herbert Ball, of the Falls Line, son of Reid Ball, Millbrook, was found beside his tractor unable to speak or move.

His man, who was in another field ploughing, saw the tractor stopped for some time, and finally decided to go over, when he found Ball as stated. He had evidently had warning of his condition and shut off the engine. The stricken man is comparatively young, and there is every hope that he may so far recover as to at least look after his business. He has a wife and family.

COMMUNION WAFER.

United Press.

LONDON, October 15. — The only food MacSwiney receives is a daily communion wafer, say his friends.

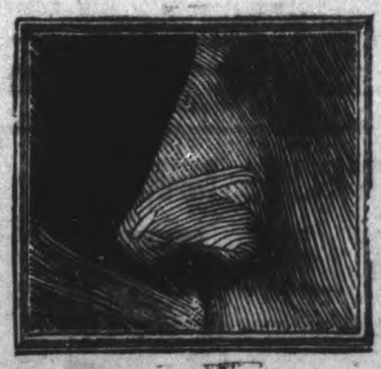
Conspicuous nose pores

How to reduce them



Complexions otherwise flawless are often ruined by conspicuous nose pores.

The pores of the face are not as fine as on other parts of the body. *On the nose especially*, there are more fat glands than elsewhere and there is more activity of the pores. These pores, if not properly stimulated and kept free from dirt, clog up and become enlarged.

To reduce enlarged nose pores: Wring a soft cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in *very gently* a fresh lather of Woodbury's. Repeat this hot water and lather application several times, *stopping at once if your nose feels sensitive*. Then finish by rubbing the nose for thirty seconds with a piece of ice.

Notice the improvement the very first treatment makes—a promise of what the steady use of Woodbury's Facial Soap will do. But do not expect to change completely in a week a condition resulting from long continued exposure and neglect. Use this treatment *persistently*. It will gradually reduce the enlarged pores and make them inconspicuous.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.

The Andrew Jergens Company, Cincinnati, New York and Perth, Ontario.

Rinso

Washes in Cold Water

Rinso saves the coal and gas formerly necessary to heat water for washing. The pure granules of Rinso loosen the dirt in any fabric. And it does this as well in cold water as in hot.

At Night—

Soak the clothes in the rich Rinso suds.

Morning—

Rinse them out, that's all! They're fresh, sweet and CLEAN. Ready for the line.

One package does the week's wash.

At your grocer's.

THE GAMBLING PIT OF THE WORLD

Senator Capper, in Speech, Declared That Chicago Wheat Gamblers Caused Growers $909,600,000 Loss.

SMITH CENTRE, Kan., Oct. 16.—Senator Arthur Capper, in a speech here declared that "the Chicago wheat gamblers had caused United States wheat growers $909,600,000 loss in the last two months by gambling in futures." He said that "the biggest gambling hell in the world was operated on the Chicago Board of Trade. Europe's suicide club at Monte Carlo being innocent and innocuous by comparison."

Wheat Crop Oversold.

Since July 15, when trading in futures was resumed by the exchange, the senator declared, the grain speculators have sold or oversold this year's crop five or six times. He asserted that only about one per cent. of the trading in futures were bona fide transactions for actual delivery.

"Because speculators are forcing down the price of wheat," said Senator Capper, "the farmer who sold his hogs and cattle at a heavy loss while meat still sells for war prices is again made the goat, and the wheat raiser whose crop costs him more for wages and equipment than any other he ever produced, sees the fair price of his product virtually cut in two with no real benefit to anybody except the brokerage firms who collect the commissions."

Importers Get Benefit.

These losses, the speaker said, amounting to nearly $1 a bushel in the farm price, "are being augmented and the speculators aided by the unrestricted influx of duty-free Canadian wheat under the Underwood tariff, and abetted by the difference in exchange value, amounting to about 30 cents a bushel in favor of the importer."

TO CULTIVATE A CLOTHES SENSE

Living in the country and not being blessed with "clothes sense," I find it hard to dress correctly. Once discovered, after having had a hat for a whole season, that I had worn it with the front to te back. Determined that it should never happen again, I now have snapshots taken of my new clothes and hats and study the results, comparing the pictures with the illustrations on fashion sheets. It is surprising how illuminating it is. A hat requires setting forward over the face. Collars are not even on each side. Skirts are too long and the narrow ones not pulled down smoothly. Slouching spoils the fit of some garments. These are the stories the snapshots sometimes tell me, and they have been a great help to me in correcting my manner of dress.—Good Housekeeping.

KINGSTON INDUSTRIES MAKING REDUCTIONS

(Canadian Press)

KINGSTON, Oct. 15.—That the labor situation in this city is serious and that there is every indication that it will become more so as the winter appears, was stated here by Major W. A. Stroud, Superintendent of the Ontario Government Bureau here.

He pointed out that one industry in the city employing 15 men has issued notice of a drop in wages of 15 per cent. and a big reduction in output Another, which up till a very short time ago was paying 50 cents an hour, is now paying 35 cents, and getting plenty of workmen at that figure, while still another is employing only 25 persons, where formerly it employed 100.

RHEUMATIC PEOPLE

Can Only Find Relief by Enriching the Blood.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but is meat the cause. The cause is in the blood and the blood only. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood which will shortly leave the victim pain-racked and helpless.

There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for $2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

LOCATING AT KINGSTON.

KINGSTON, Oct. 15.— With the opening of a branch factory here for the manufacture of paper boxes and confectioners' paper goods, the F. W. Fisher Company, Limited, has added another healthy industry to this city, giving employment to a large number of men and young women. The company's parent plant in Toronto, it is understood, is working to capacity.

Anti-dumping provisions are invoked against the importation of cheap sugar into Canada.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Lumbago, Stiffness, Rheumatism, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

THE CLOSING SESSION OF THE SCHOOL TEACHERS' CONVENTION

INTERESTING PAPERS ON BIRD STUDY AND OTHER SUBJECTS.

Mr. C. S. Browne gave a very interesting talk on the subject of practical citizenship at the closing session of the teachers' convention.

A teacher's duties, he said, do not end at 4 p.m. He is, or should be, a practical citizen and must employ his spare time in such a way as to avoid becoming narrow and getting into a rut. He pointed out the responsibility of the teacher to the public as well as to the school: that the teacher should utilize his abilities to promote the welfare of the public; that he, as an educationist, is especially well qualified to help in the work of developing the city.

Mr. Browne aso spoke of the Y.M.C.A. and Y.W.C.A. and said that the men and women teachers should take an active part in the work of each.

Mr. K. S. Wightman, in discussing Mr. Browne's address, said that teachers should stand together and help each other to the positions of serpice to the public.

Mr. R. F. Fleming.

Mr. R. F. Fleming, of Ottawa, gave a very interesting address, accompanied by lantern slides, on "Imitative and Creative Art in Our Schools." The great majority of us are imitators; only a few are creators. "Yet," he quoted, "art begins where imitation leaves off." A number of very interesting slides were shown, illustrating the work done in art in the Ottawa schools.

Interesting Paper.

Miss Helen Bonnycastle gave an interesting and practical paper on "Motivation and Its Application to Reading."

Motivation simply means having a goal for our various activities. The speaker illustrated this by referring to the preparations made by one class for a party. The pupils wrote out the invitations, decorated the room, prepared the tables and learned how to serve and receive guests. In all this they had a motive; it was not a mere routine. Incentives are artificial and are simply inducements to labor without considering necessarily the end in view. Motives always consider the end and so are more natural than incentives.

One of the chief motives of the child is to be able to do what his elders do. He finds that others reap advantages from being able to do things that he cannot do and so he becomes ambitious to learn to do what others are doing.

Subject of Reading.

The speaker then made special application to the subject of reading. Pupils learn that to be able to read carries with it many rewards which serve as a true motive. Of course there are many stages in reading. The pupil must learn first to recognize individual words and from that beginning he progresses through sentences to higher stages. To help in his progress Miss Bonnycastle recommended various devices, thus games can be used where word-recognition is necessary and the child becomes desirous to learn the words because it helps in his play. Many other plans such as this were suggested and were very helpful indeed.

Feathered Friends.

Mr. V. R. Henry, B.A., gave a systematic and pointed paper on the subject of "Our Feathered Friends." Birds are of interest to us from many standpoints. Their life history is interesting from a scientific point of view; their coloring and migrations are a source of delight and interest, and they are frequently subject of poems. He wished to deal with the subject from a purely economic standpoint.

Birds are useful to us because some destroy injurious insects; many others devour weed seeds in large quantities; some destroy rodents as rats and mice; others act as scavengers, while a fifth class are chiefly important as being a means of sport and food.

Man has always considered himself the dominant power in nature, but that is not true, insects are really so. This is proved in his helplessness when there is a plague of them. They multiply very rapidly and there are more varieties of them than in all other classes of animals combined.

Some facts regarding their fecundity are astounding. A pair of Colorado beetles, commonly called potato bugs, if left unmolested could produce sixty millions of progeny in one season. The facts concerning aphides are even more astonishing. The voracity of these insects is just as wonderful. A caterpillar will eat twice its own weight every day. Some others are still more voracious. We can scarcely estimate the destruction done to crops by these pets.

Important Agency.

Birds are one of the most important agencies in destroying injurious insects. Without their aid we would soon be helpless, but yet man has actually destroyed more birds than nature. Nature tries to keep a balance amongst its various elements and when one of these becomes weak the loss of balance is apt to be a serious misfortune. When man, with his tame cats and guns, destroys birds, he gives an opportunity to insects to multiply rapidly until they become a menace.

To illustrate the value of a bird Mr. Henry referred to the depredations of coddling moths that damage the apple crop to the extent of twenty millions of dollars per year. One woodpecker during a winter would eat at least two hundred and fifty cocoons whose larvae in the spring would have damaged ten barrels of apples. Similar illustrations were given to show the vaue of even a few birds.

Birds that frequent our gardens and orchards should be encouraged by feeding in winter. Suitable nesting sites should be provided, especially when the young are being reared. Destruction of these birds should be reported to game wardens.

Most of the seed-eating birds feed their young on insects at first. They include the sparrows, juncos, snowflakes, grosbeaks and others.

Birds of Prey.

Birds of prey as hawks and owls depend on rodents for their food. Rodents are very destructive to grain, corn, orchard and fruit trees, roots of clover and grasses. Some of them spread diseases. The destruction wrought by them is almost incalculable, especially to the farmer. One pair of owls after leaving a building left behind them four hundred and fifty-four skulls of rodents. The young of hawks and owls remain a long time in the nest, and it becomes a problem to the old birds to provide food at times. Then comes the temptation to take a chicken. Their benefits are far more valuable than the cost of an odd chicken or two. One state in United States offered bounties for hawks and owls. They paid out a few thousand dollars in bounties but lost many times as much due to the increase of rodents.

Sea Gulls.

Gulls are scavengers along the sea coast and do most valuable service. Occasionally they may eat a valuable fish, but their great assistance in advancing man's health and comfort far outweighs any loss he may have on their account.

The wild birds considered valuable for food are becoming scarce. Millions of them were wantonly destroyed so that some species are becoming rare, and people who live farther north, as along Hudson Bay for example, who depended upon these birds for part of their food supply, have had to seek other sources.

It is the duty of everyone to try to enforce the laws which have been made to protect the birds. Both United States and Canada have good laws for this purpose and teachers should help to have these enforced. They should help in protecting the birds in our own domains.

Northern Ontario.

Miss Bennett said that this trip was first proposed at the O. E. A. by Mr. Bryson, of Cobalt, six years ago. This year the trip was undertaken and 172 teachers were in the party.

Muskoka, Parry Sound and Nipissing were passed through and the first stop was at Cobalt. Miss Bennett gave a very interesting description of Cobalt, Haileybury, New Liskeard and the country there.

From Haileybury they proceeded north, stopping at Englehart, Monteith, Cochrane and Kapuskasing, the most distant point of the trip. Returning, they stopped at Timmins, the centre of a mining centre, and Temagami.

She made references to the great hospitality of the people in the various centres visited and the many arrangements made for their entertainment. The teachers on the trip were much interested in visiting the gold mines at Hollinger and the pulp mills at other centres.

Miss Walker spoke of the community spirit of the northern country. The people are all enthusiastic about the prospects. There did seem to be an idea that the north is not receiving its due consideration from the south. The resources of the north are great and much of the product goes to the Americans. In Abitibi the pulp and paper company owns the town and it is beautifully and systematically laid out.

She also dwelt on the great pleasure Peterborough's delegates had had on this trip to the north domain of Ontario.

WORLD CHAMPIONS DISBAND.

CLEVELAND, Oct. 15.—The Cleveland Indians, world's champion baseball players, held their farewell meeting at League Park here, after which they disbanded for the season. President Dunn expressed the hope that all would be back with the team next season, and it is understood signed contracts.

THE "LIFTUP"

(Patented)

ALL BIAS FILLED CORSETS are designed in conformity with the science of Anatomy.

The "Liftup" a patented invention with non-slip elastic inside belt, gently supports the abdomen, and is very beneficial for use after an operation involving an abdominal incision. Most effective in relieving those physical ailments from which many women suffer.

Nearly Insane From Leg Ulcers

She tells of suffering and brief story of her cure.

Read these two letters from Sarah D. Lawrence of Roebuck, Ontario. "I can't sleep at night from leg ulcers. I am in pain most of the time. I have doctored but no use. A lady from Winnipeg says that D. D. D. cured her of a bad case of eczema. That her sores are all healed. Can you help me?"

Now a few words from a later letter. "I have used D. D. D. as directed, and my leg is completely well."

Why not be convinced and try this remedy today for any form of skin disease? One application and the itch is gone. Your money back relief doesn't come from the first bottle. $1.00 a bottle. Try D. D. D. Soap, too.

D.D.D. THE Lotion for Skin Disease

McDermid & Jury, Druggists, L. Payne, Druggist, Peterborough.

TO PAY 10 PER CENT. ON DOM. TRUST CLAIMS

(Canadian Press)

VANCOUVER, Oct. 15.—J. G. Gwynn, liquidator of the Dominion Trust Company, received an order from Mr. Justice Murphy authorizing him to pay a dividend of ten cents on the dollar upon those claims of unsecured creditors which have so far been allowed, and set aside claims of unsecured creditors not yet allowed, but to be adjudicated upon in the near future.

Secured creditors have already been paid more than $25,000,000, and the amount of claims as adjudicated upon and allowed upon which the dividend will now be paid is $2,358,774; the unsecured claims still to be adjudicated upon total $467,748, and will likely be reduced.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GRUESGOME CONFESSION.

Sheriff Hears Grisly Tale of Child Killing From Michigan Farmer.

LANSING, Mich., Oct. 14.— Earl Ropp, a farmer living near here, has confessed, according to Sheriff Silsbee, that late yesterday he chloroformed his two daughters, aged 2 and 3 years, and buried their bodies in the bed of the Red Cedar river, a short distance from his home, where his wife lay nursing his new-born son.

PEACH SEASON IS NEARLY OVER

PETERBORO DEALERS FIND UNBLEMISHED FRUIT HARD TO GET.

The end of the peach season, probably the biggest in the history of the Niagara district, finds them selling at 90 cents and a dollars a basket in the fruit stores to-day. Wholesale they are quoted at 75 and 85 cents, and to this must be added the no inconsiderable item of freight. The dealers find great difficulty in securing unblemished fruit and have had to pick over most of the baskets.

Niagara's annual large grape production is this year practically all bound across the river to supply the American demand, and as a result of the exchange Canadians are unable to compete with the Americans. They can only watch the long trains of fruit cars pulling southward and each car that leaves the country raises the price on this side. The warm weather makes the situation worse fruit dealers say. If a cold spell came there would be plenty of grapes thrown on the market and Peterborough at present paying 55 and 65 cents a basket would get them considerably cheaper. The dealers pay 50 cents for Red Rogers from the wholesalers and pay the freight and sell them for 65 cents.

Pears are $1.25 a basket. Apples of many varieties may be seen in the store with the price, determined by quality, at 35 to 50 cents a peck.

Sweet Chestnuts.

Many people have wondered when the sweet chestnuts would once again fill the fruit store winodws. One dealer to-dav said he had ordered his supply but they would not be here till next week. This year they will be 40 cents a pound.

CUSTOMS INSPECTOR FINED THREE HUNDRED.

Scathingly denounced by the Judge for using his Position as a Cloak.

BRIDGEBURG, October 16. — Truyn Matthews, a United States Customs Inspector, who was charged with attempting to smuggle whiskey into the United States while he was still in the employ of the American Customs service, was fined $300 and costs in the Federal Court in Buffalo.

Matthews was stationed at the summer resort of Erie Beach, and when his car was searched by a fellow oficer at the Fort Erie ferry he explained the presence of six cases of Canadian whiskey with the statement that he was taking a seizure to the Federal building in Buffalo.

He was followed and it was found that his stated destination was erroneous and that it was instead delivered to a cache. He was immediately suspended from the service but his trial did not occur until to-day.

The judge scathingly denounced his using his position as a cloak for liquor smuggling.

BABY WALKER.

"Never thought he would live."

93, Queen's Head Road, Handsworth, Birmingham.

Dear Sir,—I am very pleased to write to you concerning your Virol, as when my baby was born we never thought he would live; but a friend of mine advised me to go to the Infants' Welfare, Soho Road.

I took him when one month old, and the Doctor ordered Virol. With careful attention, and Virol added regularly with his food, I am sure it has proved very successful, as you see from his photograph. Wishing your Virol every success.

Yours gratefully,
(Signed) (Mrs.) E. Walker.

Virol is invaluable for the expectant and nursing mother herself, whilst for children it supplies those vital principles that are destroyed in the sterilising of milk; it is also a bone and tissue-building food of immense value. Virol babies have firm flesh, strong bones and good colour.

Much Ingenuity Is Expressed In the New Dress Models of Silk and Serge

WE delight to dwell upon the luxuriousness of the silken ones, and the coziness and modishness of those of serge, and even though we go through them time and time again, our interest never wanes, for always some new quirk is revealed that has gone unnoticed before. They are lovely, and more than that, they are sensible.

A Range of Silk Dresses from $33 to $95 Encompasses Many Styles and Materials

There are materials to no end and models that are a credit to the designers' art. Picture those of Taffeta, with knife pleating not only on the sleeves and cuffs, but running down both sides, and often around the bottom. Then there are the filmy Georgettes, combined with Silken fabrics, and enlivened with Beads and much Embroidery. And to cap all, there is a range of beautiful colours.

We could not pass by one of Black Charmeuse. It is draped, and shows a decided fulness at the hips. The ¼ length sleeves terminate with a full, flaring cuff. The Bodice is veiled with Gold Metallic, and edging it are two panels in Tuxedo effect. A Black and Gold cord girdle, with heavy balls, describes the waist line. The price is $77.00.

All Conquering Are These Serge Dresses from $32 to $45

The undeniable charm of the Dress when it is Serge in Navy Blue, Black, or Brown, is exemplified in this pleasing assemblage. They are mostly Navy, but there are some of the other colours mentioned above. The quality is that lovely, soft Serge known as Botany. As for style—there are many; for instance, Chemise, Balkan, Tunic, Overblouse, and Coat effects. If it is tailored severely or semi-tailored, much Braiding is used—Rat Tail, Soutache, or Military. And there is much Embroidery work, and nearly all have Girdles to accentuate their smartness.

There is one at $32.00 that is worthy of note. It is Navy Blue, and its lines are those of the Suspender Blouse. A cord girdle of Navy Blue, with an interwoven thread of Gold, encircles the waist. The Skirt is patterned with many large, round dots, worked with Navy and Gold. The seams are all bound with military braid, and bone buttons are used for trimming on the Bodice.

Lingerie! Mere Wisps of Things in Delicate Colors and Fabrics

Some of it comes from the Philippines, and the work is done by those island people, who are world-famous for it. There is Nainsook, Batiste, Crepe de Chine, Witchery Crepe, and other fabrics of like sheerness. All are not elaborate, high-priced garments; there are many pretty ones that are plain, but have a charm because of their simplicity, and they are far from being expensive. If you ever find time to look them over, we will provide you with an interesting hour.

Around Her Neck She Wore a Silken Scarf

And these happen to be Silk knit, in those ever desirable patterns, Roman Stripes; so we think they will qualify. Many pretty colour blendings are shown, and far from being the least of these, is one with a Black ground, with Mauve and Grey stripes and just a hint of fine hairlines of Pale Green. Another shows a rich Gold colour, with Black and a medley of other shades sparingly used. These are only two of the many. The prices run from $6.50 to $8.75.

Knitting Wools, "Monarch Dove" and "Monarch Floss" in a Myriad of Shades

In magnificence and variety, they nearly rival nature herself. Some are brilliant, others subdued, and many with a refined delicacy of hue that is pleasing. Here is the assortment: Oriental Blue, Copen, White, Old Rose, Pink, Lavender, Black, Turquoise, Purple, Sea Green, Jade, Nile, Emerald, Mauve, Grey, Sky, Heather, Buff, and Burnt Orange.

Some of Our Colors in 2-Ounce Skeins of Sport Wool at 49c

Peacock, Natural, Salmon, Oxford, Paddy, Black, Maroon, Royal, and Mauve.

The Broiderfast Needle—a New and Better Way

It is an innovation in fancy work needles and one worthy of your consideration. It is a marked improvement on the old style methods for French knots, and will also give your work a Chenile-like finish if you desire. They are of metal, and can be worked more rapidly than the ordinary needle. Have one demonstrated to you at the Fancy Goods Counter. The price is only $1.25.

Fashion Notes from An Authoritative Source

With the new deeper neckline, comes a vogue for Collars.

Gloves, the longer the better.

Tweedie Boot Tops—the password for Winter Oxfords.

Shoes that are higher keep close to the hem of one's Skirt.

Paris says, "Drape your veil."

There are Feathers with Hats, and Hats with Feathers.

A nice, Woolly Coat Sweater, a comfort for cooler days.

Beads, Ribbon, Cords and Tassels—all spell Girdles.

Umbrellas that dispel the gloom of rainy days—colourful and gay.

What kind of Purse do you prefer? has a variety of answers.

Handkerchiefs quaintly embroidered in colour are coming in.

For the outdoor girl—a Scarf that will throw its colours to the winds.

"HOTHEADED" CITIZENS ARE RARELY CHOSEN AS JURORS

STATUTE INSTRUCTS OFFICIALS WHO MAKE FINAL SELECTION THAT MEN SHOULD POSSESS SOUND JUDGMENT, INTEGRITY OF CHARACTER AND EXTENSIVE INFORMATION.

MUST BE FROM 21 TO 60 YEARS

A certain farmer awoke one day to the realization that he had never served on a jury, and probably piqued by curiosity and a sense of pride, he approached one of the officials with the complaint that he had been overlooked while many of his neighbors had been called for one court or another.

"Can't you put me on the jury?" he asked.

"I can't do that," the official replied, "but in the ordinary procedure you may be called.

An attempt to explain to him the machinery by which jurors are appointed wasn't very successful and he went away rather annoyed by what he seemed to consider a blank refusal.

It happened that he was called for one of the juries in the following year. His presence was required in court at the height of his busy season, and he tried to evade attendance. Failing in this he had to hire a man to carry on his farm work at a cost that exceeded the allowance he received for duty in one of the most protracted courts in a decade. However, he proved an ideal juror, following the cases with intelligence and close attention, but after that experience he was probably not so keen for a repetition of it, especially when he couldn't spare the time from his farm except at a considerable loss.

A Bulwark of Liberty.

It may be of interest to this man and to the many others who are summoned for jury service to explain the operations of the machinery by which they are called to serve in this extremely important public duty. They doubtless understand that the jury system, by which an accused person is tried by "twelve good men and true," has been for centuries one of the strongest guarantees of British liberty. Time has revealed its imperfections but it is an institution so wrapped up with British tradition that the peoples of the Empire and of other countries that long ago adopted it cling to it as a cherished instrument in the administration of justice.

Decide Number Required.

This week the city jurors for service next year were selected. This was one of the advanced stages of the process by which the final lists are compiled. In the first step there is a county committee of selectors composed of the Judge, Warden, Mayor of the city, Sheriff, Clerk of the Peace, County Treasurer and City Treasurer. They meet on September 15 for the purpose of deciding how many jurors will be required for the courts in the following year, and also how many shall be chosen from each municipality.

Four courts are to be supplied each with grand and petit juries. There are the Spring and Fall Assizes of the Supreme Court and similar sittings of the County Court. That means 52 grand jurors will be required, thirteen for each court, and 192 petit jurors, forty-eight for each court.

The municipalities must nominate three times the number of jurors required. In Peterborough County the complete list this year was 732. The quotas from the municipalities are approximately proportional to their populations, or rather to the number of persons qualified to serve as jurors.

Local Board's Work.

On October 10th the local selectors meet, in the city they are the Mayor, City Clerk and Assesor. In the townships they are the same officials with the Reeve corrsponding to the Mayor. The selectors turn over the pages of the assessor's, rolls which are now identical with the voters' lists, and begin in alphabetical order where they left off in the previous selection for the preceding year. They pick out the names of the qualified persons until they have three times the number required from the city. These selctions are made from each ward, their respective quotas having been fixed by the County Board.

One-Third Eliminated.

Each of these names is numbered and the corresponding numbers are put in a box from which they are then drawn by the Mayor until two-thirds of the total have been taken out and listed in the order in which they appeared. Two copies of that list are made out by the local selectors and forwarded to the Clerk of the Peace, in this county, Mr. G. W. Hatton.

Reviewing the procedure so far it is evident that the local municipality compiles a list of names equal to twice the quota fixed by the County Board.

Consider Character.

The county selectors meet in December. Before them are all the lists from the municipalities. In the next step they continue the process of elimination which was begun when the local boards drew only two-thirds of their own original lists. There are of course certain property qualifications as an essential basis to guide the local boards, but at this stage the county selectors are to choose men for their "integrity of character, soundness of judgment and extensiveness of information."

How is this done, it may be asked. Well, the Mayor knows many of his constituents, the Warden has a similar knowledge of the farmers, the Judge and Sheriff and also the other members are acquainted with others, and their composite acquaintanceships are the deciding factor. If the Mayor knows one of the men on the list to be intemperate in his opinions, a "hot head," or a man of intense prejudices, in short if he considers him deficient in any of the qualities desired by the Statute, the Mayor is bound to reject that man. The same responsibility rests upon the other selectors. It is understood that this stage of the selective operation is secret and that none of the members should reveal any rejections that may be made.

The County Board chose from the lists submitted to them the number of jurors they decided upon at their September session, that is 52 grand and 192 petit jurors and with that act their duty is complete for the year.

Allotted to Various Courts.

The last operation takes places when the Sheriff calls in two Justices of the Peace finally to select by lot or draft the jurors for the particular courts. By this means are designated the panels for each of the grand juries and also those who are to be called for the respective petit juries. It is thus known long before the Spring Assize, for example, the personnel of the grand jury for that court and also the forty-eight petit jurors.

There is really a concluding stage enacted when the court is opened. The Grand Jury proceeds with their duties and if there are any true bills brought in a trial jury is drawn by the Clerk of the Court. Mr. George Sherry in the local court has the names of the forty-eight petit jurors each written down on a separate card. For the first case proceeding to trial he draws twelve of the forty-eight cards, calls out the names and these men take their places in the seats set apart for them. They then take the oath of service and the court proceeds with the customary statement of the case by one of the solicitors. The first witness is called and this jury is not dismissed until they have brought in a verdict. They are not dispersed from further attendance until the Court has disposed of the entire docket of cases.

BRIGHT LAD.

A tire company was giving away top balloons to the children and one little fellow asked if he might have two.

"Sorry," said the man in charge, "but we only give one ball on to each boy. Have you a brother at home?

"No," replied the truthful youngster, "but my sister has and I want it for him."

BLAIRTON NEWS.

BLAIRTON, October 16. — Mr. and Mrs. Alex. Kennedy, Miss Reta and Charles Warren, spent the last few days in Blairton.

Mr. and Mrs. Stephen McQuaig attended the Madoc Fair, and visited their daughter, Iris, who is attending the Madoc High School.

Mrs. Miller of Campbellford, is a guest of her sister, Mrs. Allen Wallbridge.

There are a few cases of mumps in the village but all are doing well.

[illegible] country attended the Bancroft Fair.

[illegible] at the lake.

Miss Gladys McQuage of Smith's Falls, spent Sunday, the guest of her parents.

Misses Flossie Boyed, M. Potts, Messrs. Wilbert Bedore and Charles Warren spent Sunday at the latter's home.

Mr. Alex. McLaughlin spent Sunday with his mother.

Mr. and Mrs. Will McLaughlin, of Havelock, visited at the home of Mrs. Brock this week.

A few of the young people motored to Norwood to attend the Norwood Fair.

Mrs. J. A. C. Young visited friends at the Cordova Mines last week.

Mrs. and Miss McNeill of Cordova Mines, are guests over the week end of Mrs. Neill's sister, Mrs. J. W. Thompson.

HENRY HOLDGATE IN WHO'S WHO

Henry Holgate, C.E., the engineer appointed by the Department of Railways and Canals to investigate the power shortage in this division of the Hydro-Electric system, is rated as one of the most prominent members of his profession in the Dominion.

Before the announcement of the man chosen to investigate the power situation was made the local branch of the Engineering Institute of Canada at an informal discussion unanimously chose Holdgate as the engineer most qualified to conduct such an investigation.

Holgate was born in Milton, Ont., on September 14, 1863, the son of John and Jane (Browne) Holgate and was educated in the schools of Toronto. At the age of 15 he was apprenticed under the late Colonel Fred W. Cumberland to the Northern Railway of Canada and was connected with railway construction and maintenance for the next thirteen years. For three years he was engaged in bridge and structural designing and in 1894 he entered the service of the Royal Electric Company in Montreal.

From then on he was intimately connected with power and built and operated the Montreal Park and Island Railway in 1898 went to Jamaica as manager of the West India Electric Company. He built and operated the Hydro-electric Tramway System in Kingston, Jamaica, and in 1901 returned to Montreal and entered into partnership with Robt. A. Ross, E.E., which lasted until 1911.

During the ten years of his partnership with Ross the firm were engineers for many big Hydro-electric enterprises. They constructed the plants of the West Kootenay Power Company, the Canadian Cooper Company, and many others.

He investigated matters regarding the Trent Valley Canal for the Dominion Government in 1900, was appointed chairman of the Royal Commission of Enquiry into the collapse of the Quebec bridge in 1907, and his report, which is unique in engineering literature, was issued in February of 1908. In 1909 he was one of a board of consulting engineers appointed to report on the future development of Montreal harbour. He became president of the Cedar Rapids Power Company in 1911.

He is a member of the Canadian Society of Civil Engineers, the American Society of Civil Engineers, the Council of the American Institute of Civil Engineers, and the Board of Management of the Montreal General Hospital.

In 1888 he married Bessie Bell Headley, of Milford, Delaware. He has two sons and lives at 44 Rosemount avenue, Westmount, having his office at 9 Victoria Square, Montreal.

HELP WANTED—MALE.

Aunt 'Liza waddled into the bank almost out of breath.

"Look-a-heah, Mistah Bankah, I wants twenty-five dollahs, an' I'se got to have it right to-day."

"Why, what in the world, Aunt 'Liza, makes yo in such a hurry for twenty-five dollars?"

"I'se got to pay some stohage."

"Got to pay some storage? What do you have to pay storage on?"

"Aw, quit foolin' wid me, Mistah Bankah, an' lemme have dat twenty-five dollahs. I'se got to pay de stohage on my husband'. De Sheriff's got 'im stored in jail, an' I got to pay de 'stohage befo' I kin git 'im out. Cotton pickin' time is gittin' close by, an' I needs dat niggah in mah busines."—Judge.

Toronto, Ont. 38

THE DUMBELLS

The "Dumbells" will offer their second edition of "Biff, Bing, Bang" at the Grand on Friday and Saturday, Oct. 22nd and 23rd.

The "Dumbells" are to well known in this city to need any introduction. suffice it to say that the organization remains the same as on their first Canadian tour, and that the new show is just as snappy and full of pep, as was the first edition of "Biff, Bing, Bang."

With last season's series of record business as his guarantee of the loyal support of the Canadian public, Captain Plunkett has felt himself safely in a position to make the second season's offering a much more elaborate affair, both in gowns, settings and numbers.

A special feature of the new show being a forty-five minute version of the greatest of Gilbert and Sullivan operas, "Pinafore," gorgeously gowned and staged.

AN OLD FRIEND THAT STOPS PAINS

Keep Sloan's Liniment handy to put the "feel good" back into the system.

ALL it needs is just one trial—a little applied without rubbing, for it penetrates—to convince you of its merit in relieving sciatica, lumbago, neuralgia, lame muscles, stiffness, bruises, pains, backaches, strains, and the after-effects of exposure.

The congestion is scattered, promptly, cleanly, without effort, economically. You become a regular user of Sloan's Liniment, adding your enthusiasm to that of its many thousands of other friends the world over, who keep it handy in case of need. Three sizes at all druggists—35c, 70c, $1.40. Made in Canada.

The Interests of Religion Are the Most Universal of All Human Interests

A vase! A beauty! It has seen years, decades, perhaps centuries, and if sheltered it will continue unchanged for milleniums to come. In its time it may have filled an honoured place in some palace of ancient days.

But however long it may continue, the most important point, by far, in all its age-long history, will have been the few minutes or hours which it spent at its beginning upon the potter's wheel. There it was shaped, "a vessel to honour," a thing of beauty; and the shaping of that time will remain.

In its history it may have had many a change of circumstance and surrounding, in shop or cot or mansion, but it retained through all the change that shaping of the potter's wheel, and the colouring burned into it by the furnace which followed close upon that wheel.

* * *

A child! More beauiful and wonderful than priceless vase or any other human creation! Not many years behind it, but eternity before it! Its body will last for a little time and then, like a worn-out garment, be laid aside; but the wearer of that garment, the soul, the spirit, the being that hopes or fears, loves or hates, joys or sorrows, lives on for ever. What a thought! Eternal existence! Beyond comprehension! Finite mind cannot grasp infinity, either in time or space.

But while we cannot grasp its meaning, we can ensure what that existence shall be, for, like the vase, the shaping of that immortal spirit is decided largely in its earliest beginnings. The moments on the potter's wheel are the shaping time of the age-long life of the vase, and the first short week of years is, in large measure, the shaping time of the endless human life.

Later years may have their influence. In them knowledge is gained, character confirmed, habits formed; but the impression, the moral and spiritual shaping for good or ill, is largely received in those first seven years. By the time that most people begin to think of training the child, a great part of that training, by look and work, by act and deed, has already taken place, and life has received its direction.

* * *

The above facts suggest some very important—all-important—considerations for parents.

1—Those first seven years that do so much to shape the child's life and destiny are the home years; the impressions made are home impressions, with litle of outside influence to help or hinder. Parents have the field to themselves.

2—These home impressions are the result not only of teaching but of "atmosphere." The whole home life, its words and deeds, even its thoughts—for these make its life—contribute to that "atmosphere."

3—For this atmosphere the parents are responsible. They have the making of it. They themselves are the centre of that home and can make its atmosphere what they choose. They themselves are that home "atmosphere," which is shaping the child's destiny.

Be that atmosphere frivolous or serious, material or spiritual, careless and worldly or deeply religious, having no place for God or realising and loving His presence, ignoring His existence or living, to Him in all things; whatever the atmosphere is to be which shapes the child, the parents have the making of it. Te parents are that atmosphere. It is the constant impress of parental character and life upon the plastic child character and life.

4.—Parents do not shape the character of the child during these seven years by directing but by being. The child is shaped, not by what the parent commands but by what the parent is. Character impresses character with its own likeness.

5—Humanly speaking, parents can thus direct the lives of their children in any direction they may choose, and that direction will largely affect their eternal destiny.

6—The responsibility of parentage for the atmosphere of the home during those first seven years is thus beyond all human reckoning.

7—In the momentous task of shaping aright this young immortal, parents have the glad assurance of the presence and help of the Almighty Spirit of God, who alone can regenerate and make anew that child nature in the image of God.

* * *

Parents; the future of the Church and of the world is largely bound up in those first seven years! These years are the home years, with the minimum of outside influence. These home years are, in great measure, in your hands. It inevitably follows that with you, under God, rests in large measure the destiny of your own children, and, through them, the future destiny of the Church and the kingdom of God in the world.

How great the responsibility of bringing a new life into the world! How great the responsibility of the parent in those first seven years of that new life! How great the reward of faithfulness by the parents in those early years, a young life with an eternal future, shaped after the likeness of Christ.

How great the guilt of the parent when these early years are wasted, and the young life allowed to take shape after other things! How unavailing the regret of parents when they realise, too late, that while they neglected those seven years or cared only for the body, the immortal spirit took its shaping without making Christ supreme.

GIVE THANKS

The day of national thanksgiving appointed by the Government falls on Monday.

By a kind of public consent this day has become a National holiday, and public services of thanksgiving are held in the churches on the preceding Sabbath.

Let all the churches be thronged at the services tomorrow.

"Come, ye thankful people, come,
Raise the song of harvest home."

A CHURCH MEMBER'S SOLILOQUY.

Let me now take stock of myself. I am a church member. What does that mean to me or for me? What is the Church, and what is is to be a member of that Church?

What is the Church.

I find that the Church is "The Body of Christ," 1 Cor. 12, 27; Eph. 4, 12; Col. 1-13. It is the body in which Christ lives.

My own body is that in which I live, and through which others have knowledge of me. My body is not "Me." I will live on after the body is laid aside. But for the present; it is that in which I live.

So the Church is Christ's body. He lives in it. Through it and by it others have knowledge of Him.

The Church, the body of Christ, in which He lives, is made up of the whole number of the saved—of every creed and class and race—in every age and clime and place—who love God, who have surrendered themselves to the Lord Jesus Christ, and whose hearts and wills are in submission to and in accord with His mind and will. This Church, thus made up, is sometimes called the Church "Invisible." It is Christ's body in which He lives, as I live in my own body.

But in order that others may know that Christ lives there, and that men's lives are guided by Him, it is necessary for those lives to tell to others that they owe to Christ all that is best in their lives, and so they band themselves together as Christians—Christ's ones—the Christian Church, or the Christian called ones, called out from the world, to Christ, to be His. Those who profess themselves followers of Christ thus make up the Church visible.

I find that the Church visible and the Church invisible are largely one and the same. Some belong to the former; who are not in the latter. They profess Christ, but know Him not. Some belong to the latter and are not in the former. Christ lives in them, but they do not acknowledge it by obeying Him and confessing Him before men.

But as a rule most of them who have given themselves to Christ, who really belong to the invisible Church, are members of the visible Church, for if they truly love Christ they will desire to ally themselves with His people, and declare themselves on His side.

I find that the Church of Christ differs from all other organisations, in that these others are all of human origin, while the visible Church, the banding together as Christ's followers, of those who make public confession of allegiance to Him, has apostolic and divine authority both in Old and New Testaments.

I find, further, that Christ Himself is with His Church. A political or labour club consists of the men who compose it. The Church consists of the men who compose it, together with Christ. "Lo, I am with you alway."

I find that the visible Church, the body of Christ, has many branches, that these branches differ, more or less, in form and name, in doctrine and teaching, but all, if worthy their name, make Christ supreme and live and work for Him, unity and love.

I find that this branch of the body of Christ, with which, by my own free choice and act, I am connected, is a right worthy branch, and now it rests with me as a member in that branch to make it effective for Him.

A Member of Christ's Body.

But what does it mean to me or for me to be a member of Christ's Body? A member of my own body is a part of that body, sharing its life and doing its work. My eye sees for my body, by ear hears for it, my foot walks for it, and my hand works for it.

If I am a living member of Christ's body, then as an eye I will see the great work that body is trying to do. I will see it holding forth the Word of Life in over four thousand preaching places in Canada, among our own people and among the strangers who have come, and I will see many other places needing that Word; I will see men and women needed to occupy these new places and means needed to support them; I will see fifteen or sixteen millions of people in our seven foreign fields—in Trinidad, Guiana, India, South China, North China, Formosa, and Korea—all left to our Church to give them the Gospel, and without that Gospel, if we do not send it.

As an ear in Christ's body, I will hear His command; "Go ye into all the world and proclaim the Good News"—I will hear the call of our workers at home and abroad for help. As a foot in the body of Christ I will hasten as best I can to respond to the need I see and the call I hear. As a hand in that body, I will lay hold of the work for Christ that I can do.

If I am not a living, active member, seeing, hearing, walking, working for the body, then I am a blind eye, a deaf ear, a paralysed, useless hand or foot in the body of Christ. What a thought; a deformed body of Christ, and I the deformed member in that body!

Lord, help me to be obedient as those of old, to "Receive thy sight," "Rise up and walk."—The Record.

A QUERY FOR THE WESTERN FARMERS

By MR. BURNHAM

The tariff commission now sitting at Winnipeg, have been requested by Mr. Burnham, ex-M.P., for West Peterborough, to ask Western farmers if they are in favor of the importation of cheap labour, and if they deny the right of protection to Canadian white labour.

Faces Over the Doors.

Those who visit Pompeii for the first time are struck by one significant feature of those little houses whose owners have been dead for 2,000 years. That is the faces which are often carved over the door or in the atrium and intended to convey a welcome or a defiance to the entering guest. The New House, as it is called, because it is the last rescued from the tomb of ashes, has before it two marble heads on pillars rising from beds of roses. Their faces are turned to greet the stranger with gay, friendly smiles. No one could enter a house which gave him so cordial a welcome without a happier throb of the heart. In the entrances of some of the other houses are set angry, frowning heads of demons.

Don't Get Bored.

Don't let yourself get into the habit of being bored. It is not worth while. When you feel it coming on plunge at once into some task that will take all your time and energy. It is better to run away from certain things than to let them irritate you.

When Pullmans Were New.

The real birth of the Pullman car dates from the closing days of the war between the states. In the Illinois Journal (Springfield) of May 30, 1865, is to be found the following:

"We are reminded of a prophecy which we heard some three years since—that the time was not far distant when a radical change would be introduced in the manner of constructing railroad cars; the public would travel upon them with as much ease as though sitting in their parlors and sleep and eat on board of them with more ease and comfort than it would be possible to do on a first class steamer. We believed the words, * * * but did not think they were so near fulfillment till Friday last, when we were invited to the Chicago and Alton depot in this city to examine an improved sleeping car manufactured * * * after a design by George M. Pullman of Chicago."

Between the great things that we cannot do and the small things we will not do the danger is that we shall do nothing.

While we were yet sinners Christ died for us.—Romans 5:8.
Welcome to all.

BOTH PLAYED FAIR.

Story of a Railroad President and a Labor Leader.

When Matthew C. Brush, president of the Boston Elevated railroad, found his men were getting restless he settled the trouble in characteristic fashion. In the American Magazine Alfred Grunberg says:

"Constant argument did not appeal to Brush. It was not his way of doing business. He buckled up his belt and plunged into the muddle. His first move was to call W. D. Mahon, head of the National Carmen's union, into his office and lock the door.

"'Now, Mahon,' he said, drawing up a chair and leaning forward with his friendly smile, 'we're here in my office. The doors are locked. There are no stenographers concealed anywhere, no dictagraphs, no one to listen. The curtains are drawn. We're here alone. But before we can do anything I've got to know you and you've got to know me. You tell me all about yourself, and I'll tell you who I am and what I've done.'

"And thus the labor leader and the frank, friendly railroad official drew back the curtains of reticence and suspicion and showed each other the goods that were within them. Mahon saw Brush the newsboy and Brush the apprentice as well as Brush the vice president. Brush saw Mahon as a fellow man whose heart was bound up in the welfare of labor.

"'Mahon found out that I was square,' Brush said afterward, 'and I found out that he was square. He was open and honest; so was I. We were both convinced that neither one was trying to play tricks on the other.'

"For nineteen hours the two men, behind locked doors, debated the complex problems, each zealous for the interests he represented. At the end of that time the labor leader walked out with a mutual agreement in his hand. Not only was this agreement satisfactory to the company, but unions have called it one of the finest documents of its kind ever drawn up."

LIVE THE CHEERFUL LIFE.

Look on the Bright Side and Enjoy What You Have.

When we are in trouble we are prone to cry out about it, complaining that we are unjustly used, that no one else has suffered as we do. When things go well with us we take it as a matter of course that so it ought to be. We are not largely given to gratitude.

We may have food enough, a comfortable shelter, be clothed comfortably; we may have health and employment in such labor as we are able and like to perform; we may have a competence which puts us above anxiety—and still we find fault and complain.

Some one may have a better dress, or a handsomer car, or may entertain more elaborately, or is greater in popular favor than ourselves. There is something that does not please us. Instead of being glad that there are so many things to make us happy we complain and find fault. We let a "crumpled roseleaf" spoil our joy amidst a wealth of things that should make us glad.

Why not set the mind on the good things of life? Ignore the things that are petty and of really small consequence. Cultivate a cheerful habit of mind, looking for all that is good and appreciating the blessings that have fallen to our share.

For every one there is something to enjoy. The sun at least shines for all. When you are heavy hearted count up the good things of life that are yours to enjoy.

Retort Caustic.

A tourist was having his boots polished by an Irish shoeblack, and as the latter was administering the finishing touches his patron rudely tossed two coppers on the pavement as a reward. This insult, added to no doubt by the fact that the reward was the mere recognized twopence, caused the shoeblack to exclaim:

"Thank ye, sir. The only polish you have is on your boots, and I gave you that."

Renew your Subscription.

COOKERY COLUMN

Cocoa Float

2 cups milk
2 eggs
salt
¼ teaspoon cinnamon
¼ cup sugar
2 tablespoons Cowan's Cocoa
2 tablespoons cornstarch
½ teaspoon vanilla

Method:—Scald milk, mix cornstarch, cocoa, salt and cinnamon. Add scalded milk slowly. Cook in a double boiler 20 minutes or until thick and there is no taste of raw starch, stirring constantly. Add egg yolks beaten slightly, and cook till egg thickens; flavor; cool. Beat egg whites until stiff and firm, add 4 tablespoonfuls of icing sugar gradually, beating all the time; flavor. Turn cocoa mixture into a glass, and drop by tablespoons the egg white mixture on top.

TRIS SPEAKER ON WAY TO PETERBORO

No trouble to show intending purchasers and give estimates on our latest designs. Call and see us at 214 Hunter street.

DOCTORS PROFIT AT CONVENTION HELD MONTREAL

SEVERAL PETERBORO DOCTORS ATTEND THE CLINICAL CONGRESS.

MONTREAL, Oct. 16. — Every minute of the time of the delegates who are attending the Clinical Congress of the American College of Surgeons at the Windsor Hotel, Montreal, has been commendably spent in seeking a wider knowledge of their work and not at innumerable meetings and conventions on useless bickering over constittions and the election of officers. Clinics in all the city hospitals have been held with leading surgeons in charge, the attendance in all cases being limited only by the accommodation. In the Windsor Hall those who prefer the theoretical as expounder in lecture and on the screen have been given opportunity to absorb the learning of prominent physicians gained through years of research.

A Wide Field.

The subjects treated have covered a wide field of medical treatment. The X-Ray department was busy showing excellent lantern slides of war injuries and their treatment At McGill University an interesting exhibit in aural and facial surgery was given by Major E. F. Risden.

An interesting report has been issued by the American College of Surgeons on hospital standardization. It gives a list of what are known as "approved hospitals" on the continent of North America and it is disappointing to see that Ontaro fails miserably to meet the required standards, Quebec leads with six hospitals, Ontario has only two, both in Toronto, while Manitoba has three, Alberta and Saskatchewan two, British Columbia five and Nova Scotia one.

"Hospital standardization," it is explained in this report, "aims to safeguard the patient against error in diagnosis, against lax or lazy treatment, against unnecessary surgical operations, or operations by unskilled surgeons; it aims to bring to every patient, however humble, the highest service known to the profession." The minimum standard for hospitals which is laid down as a condition of being placed under this category of approved hospitals, provides for the proper grouping of hospital staffs, certainty as to efficiency and character, the keeping of complete and accurate records of cases, adequate facilities for study, diagnosis and treatment of patients, and so forth.

Visits were made to these hospitals by members of the staff of the college before they were placed on the approved list.

"On every hand," concludes this report, "evidence exists to-day of a new and powerful interest on the part of the public in hospitals. The time is not far distant when a hospital, in co-operation with the doctors who practice in it, must either soundly protect the right to be well of its patients, or forfeit all claim to the confidence and good-will of its community."

New Branch of College.

Valuable progress is indicated in the annual report, just issued, of the Hospital Standardization Branch, one of the younger departments of the American College of Surgeons, but one to which the College authorities attach great importance.

The task which this department has set itself is the raising of the general standard of efficiency and organization of hospitals, by the establishment of a minimum standard, which the College requires a hospital to conform to in order to be included in its "approved list." The terms of this minimum standard, as stated by the annual repart, are as follows:

2. That physicians and surgeons privileged to practice in the hospital be organized as a definite group or staff. The word "staff" is here defined as the group of doctors who practice in the hospital inclusive of all the "visiting staff," and the "associate staff."

2. That membership upon the staff be restricted to physicians and surgeons who are (a) competent in their respective fields and (b) worthy in character and in matters of professional ethics; that in this latter connection the practice of the division of fees, under any guise whatever, be prohibited.

3. That the staff initiate and, with the approval of the governing board of the hospital, adopt rules, regulations, and policies governing the professional work of the hospital; that these rules, regulations, and policies specifically provide:

(a) That staff meetings be held at least once each month. (In large hospitals the departments may choose to meet separately.)

(b) That the staff review and analyze at regular intervals the clinical experience of the staff in the various departments of the hospital, such as medicine, surgery, and obstetrics; the clinical records of patients, free and pay, to be the basis for such review and analyses.

4. That accurate and complete case records be written for all patients and filed in the hospital, a complete case record being one, except in an emergency, which includes the personal history; the physical examination, with clinical, pathological, and X-ray findings when indicated; the working diagnosis; the treatment, medical and surgical; the medical progress, the condition on discharge with final diagnosis; and, in case of death, the autopsy findings when available.

5. That clinical laboratory facilities be available for the study, diagnosis, and treatment of patients, these facilities to include at least chemical, bacteriologic, serological, histological, radiographic, and fluoroscopic sevice in charge of trained technicians.

Protection for Patients.

Pointing out that in the case of a surgeon's decision or diagnosis, there is seldom any possibility of an appeal to a higher court, and that the surgeon's errors are generally irreparable, the report claims that the fixing of hospital standards such as laid down in its "minimum standard" are an invaluable protection for the patient against errors, lax or lazy treatment, unnecessary operations and operations by unskilled surgeons.

No fees are charged to hospitals for admission to the College's approved list, but they are required to give an undertaking that they will conform to its minimum standard, which ni itself, the report adds, costs little money, but much effort. In a few years the popularity of this scheme has grown to such an extent that 377 hospitals of over 100 bed capacity now adhere to it, this number including five Montreal institutions.

Summer Skin Troubles

are smoothed away by "ABSORBINE JR." Sunburn, chafing, ivy poisoning, mosquito and fly bites. Stings of insects are all soothed and healed by

Absorbine Jr.

As one patient expressed it; "It makes one exquisitely clean and makes one feel as clean as he is".

"ABSORBINE JR." is equally valuable for disorders beneath the skin—for abscesses, boils, carbuncles, swollen glands, varicose veins, open sores, ulcers, sprains, bruises and rheumatic, neuralgic and other inflammatory conditions.

$1.25 a bottle—at most druggists' or sent postpaid by W. F. YOUNG, Inc., 53 Lymans Building, Montreal.

WORLD HAPPENINGS

Canadian Press.

REVELSTOKE, B. C., Oct. 16. — Transcanada aviators left here on the last leg of the flight to the coast.

MINIMUM WAGE.

CASCARETS

"They Work while you Sleep"

Do you feel all "unstrung"—bilious constipated, headachy, full of cold? Cascarets to-night for your liver and bowels will have you tuned up by to-morrow. You will wake up with head clear, stomach right, breath sweet, skin rosy. No griping—no inconvenience. Children love Cascarets too. 10, 25, 50 cents.

NO REDUCTION IN DODGE CARS PRICE

DEMAND GREATER THAN THE SUPPLY—MAINTAIN QUALITY.

Offical confirmation of press dispatches from Detroit, announcing that there would be no reduction in the price of Dodge Brothers' motor cars, has been received by J. J. Duffus, the Dodge Brothers dealer in this city. A telegram from C. W. Matheson, acting general sales manager, to the local dealer, reads:

"Dodge Brothers' policy has ever been to give full value for the price asked. There will be no reduction in the present prices of Dodge Brothers' motor cars. Newspaper reports to the contrary are absolutely untrue."

"Dodge Brothers' announcement was no surprise to us," said J. J. Duffus. "In fact it is only a substantiation of Dodge Brothers' business principles. At no time have they ever demanded an excess amount for their product. As in the past, they will continue in the future to demand a fair return for their efforts."

"The mere fact that the demand for Dodge Brothers' motor cars is still greater than the supply, despite the great expansion program at the factory, has absolutely nothing to do with the decision to continue the present prices. In marketing their car Dodge Brothers have never made a point of prices and will never sacrifice the quality of their product to enter price competition."

Piles Cured Permanentley Without Drugs

Internal Bathing Relieves the Cause.

Mr. A. N. Steele Cupar, Sask., writes —"I had been troubled with my stomach, Piles and Constipation for years until I had become very thin and looked 20 years older. A leading Doctor in Regina told me that the main canal was badly ulcered. I gradually became worse until one day when purchasing a threshing outfit from Mr. Russell of Regina, Mr. Russell noticed my condition, and said: 'I can cure you. Get a J.B.L. Cascade. Well I did so, and the first night I used it I slept all night for the first time for weeks and in a very short time felt quite myself again. It also cured my piles which had troubled me for years."

If you are troubled with constipation, don't drug yourself. Internal bathing with the J. B. L. Cascade is the only permanent way. This wonderful appliance is the invention of Dr. Chas .A. Tyrrell, New York. It is pleasant and easy to use and will serve the whole family. It should be in every home. See the J. B. L. Cascade at the Warne Drug Store where it will be shown and explained to you. Ask for a 32 page booklet all about internal bathing. It is free or write Tyrrell's Hygienic Institute, 163 College street, Toronto, Ont.

GROCERY MARKET

The markets generally continue to show easy trend although some lines have advanced particularly bottled goods such as catsup, furniture polish, cooking oil and sauces, says Canadian Grocer this week. There is no change in the refiners, list for sugars but little business is being transacted direct from the refineries. Second-hand sugars still dominate the market. A feature has been the offering of a lot of refined sugar that was held n warehouse at Halifax by American interests and which has since been freely offered in Canada and found ready buyers. Raw sugars are still in a depressed condition and quotations are lower. In wholesale and manufacturing circles the opinion is expressed that lower prices for Canadian refined must prevail even if American sugar is barred in view of the beet sugar crop now coming on the market. Corn syrups are ruling steady to easy under the recent decline. There is nothing of interest to report in molasses, the market is nominally unchanged under little business.

Reductions are shown throughout almost the entire list of bulk cereals. With the exception of rolled oats and corn products the decline in bulk cereals has not as yet affected package cereals, it has been intimated, however, that reductions will materialize on some lines. The primary markets for white and black peppers show a slightly firmer undertone, outside of this the spice market is holding fairly stead under the downward revision of prices noted last week. New crop apricots are on the market and quotations are slightly higher than last year. Quotations on spot stocks of rice have been reduced. The primary markets for coffees are ruling fairly steady under the decline of several weeks ago: spot stocks are unchanged as to quotations but supplies are moving with satisfaction to holders and it is felt in most quarters that this market will be about cleaned up by the time new crop arrives. Some importers are booking new shipments of coffee at a reduction of five cents per pound under present quotations for spot stocks. Shelled Brazils are scarce and shelled pecans have a tendency to be higher in view of the reported short crop. Vegetables and fruits are arriving in heavy shipments and quotations are practically unchanged Reductions have been manifest on one brand of peanut butter, chocolate confections, cotton twine and one brand of maple syrup.

Live stock market has shown recessions in quotations during the week with slight shadings on some cuts of fresh meats. The butter market is easier. Shortening is marked higher but it is stated in some quarters that this is only temporarily. Cheese is easy. Receipts of poultry are moderate and prices are all reduced.

Discolored, Wrinkled Skin Easily Removed

Since brown or yellow, over-red or blotchy complexions are decidedly not the fashion, it is difficult to understand why so many continue to wear them. Surely every woman has heard of mercolized wax. This will positively banish every unsightly tint. The wax really takes off a bad complexion. It gradually, harmlessly, absorbs the thin layer of surface skin, freckles, blackheads. Just as gradually the discarded skin is replaced by the clear, white, youthful skin underneath. Mercolized wax, procurable at any drug store, is applied nightly like cold cream and erased mornings with warm water. One ounce will produce the loveliest girlish complexion in less than a fortnight.

It is hard to understand, also, why folks will be bothered with wrinkles, since the famous saxolite formula has become public property. Once ounce of powdered saxolite dissolved in a half-pint witch hazel, makes a wash lotion that will quickly efface every line, even the deepest.

CHOICE RECIPES

Fish Cakes.

Freshen a package of shredded fish, and add two cups of hot mashed potatoes, a tablespoon of melted butter, a quarter of a cup of milk or more if necessary and a little pepper. Form into cakes and fry brown in a little butter.

Cheese Fondu.

Cut into small pieces half a pound of cheese. Place in a pan half a cup of milk, a teaspoonful of Worcestershire sauce and the cheese. Stir over the fire until the milk is hot and the cheese is melted and then add a well beaten egg. Whip a minute and serve on thin strips of buttered rye toast.

Boston Oyster Pie.

Slice and boil tender three large potatoes. Boil a pint of oysters and the liquor with half a cup of water one minute, then place a layer of them in a baking dish with butter, pepper and salt. Then a layer of the potatoes and so on until the dish is full. Pour over the broth and cover with a rich pie crust. Bake brown.

Mock Mincemeat.

Chop two quarts of green tomatoes, drain, pour over boiling water to cover and boil for 20 minutes. Drain and add ten pared and chopped apples, a cup of chopped suet, a cup of chopped citron, two and a half cups of brown sugar, three cups of raisins, a cup of vinegar or sweet cider, half a cup of molasses, a tablespoon of cinnamon, cloves and all spice, a little salt, a tablespoon of grated orange peel, the juice of one lemon and the grated rind, and boil slowly for one hour. Seal while hot in air tight jars. This will keep all winter if kept in a cool place and sealed in glass jars.

A Corn?

Why, a touch will end it!

A corn today is needless, and millions of people know it.

Years ago nearly every woman had them. Now women who know Blue-jay never suffer corns.

Ask your own friends.

Blue-jay comes in liquid form or plaster. One applies it in a jiffy—by a touch.

The pain stops. In a little time the whole corn loosens and comes out.

The proof is everywhere. Tens of millions of corns have been ended in this simple, easy way.

This is the scientific method — the modern way of dealing with a corn. It was created by this world-famed laboratory, which every physician respects.

One test will solve all your corn problems. Make it tonight. Buy Blue-jay from your druggist.

PETERBORO REAL ESTATE IN A SLOW MARKET AT PRESENT

HOUSES ARE SCARCE BUT MANY OLD DWELLINGS ARE BEING MADE OVER.

"Jail, rather than that," a citizen remarked recently passing a tumbledown house in the west end of the city, which was apparently undergoing minor repairs. A few weeks afterwards he read with somewhat of a shock that a building permit had been issued for the transformation of the same house into three modern apartments with a monthly rental of $35 each. Being of a curious disposition the citizen followed the advertisement up and upon arrival at the house, which to his knowledge had been abandoned by all home seekers for years, transformed into a very attractive, modern, little apartment house.

Much the Same.

It's the same the town over, a contractor stated to-day. In every ward, in fact in every town and city in the Dominion, the shortage of houses has resulted in the patching up of discarded property which the owner hesitated in pulling down only on account of the expense of the wrecking process. And the contractor stated, It's a mighty good thing that such recovering of properties is possible, for that is all which has saved the housing situation from resulting in the citizens resorting to tents.

Such rebuilding of homes is a pretty good business proposition as the alterations only cost from $500 to $2000, and bring in good incomes, while the initial cost of the property was very small, the purchaser getting the house for a little more than the value of the ground that it stood upon.

Two Reasons.

There are, the builders claim, two reasons for the extensive transformation of the better homes into duplex and apartment houses. First the public is shying at the price of coal and secondly there are very few families who have not had trouble with the servant problem. Not wishing to let the household go, the majority of the householders embarrassed by the possession of a large house would rather divide it than sell, if they could do the latter.

Real Estate Quiet.

Real estate has become pretty quiet, even the real estate men admit, and one stated that there is only enough buying and selling at present to keep the business going. Farms are changing hands at a fairly rapid rate —some large properties having changed hands recently—but practically all on the usual understanding that the former owner shall remain in the house until the spring.

FIRST FITZMAURICE PRODUCTION, "ON WITH THE DANCE," COMING

TALENTED DIRECTOR HAS HAD SUCCESSFUL CAREER AS FILM MENTOR.

George Fitzmaurice, who has rapidly become one of the most successful motion picture directors in the business, passes another milestone on the road to fame with his first production to be released under his own name, "On With the Dance," featur- This picture, which is declared to be in every respect out of the ordinary, will be shown at Allen Theatre for three days commencing Monday.

Mr. Fitzmaurice started his cinema career as a scenarist with Pathe. It was there that he met Ouida Bergere, who afterward became his wife and they collaborated on several stories, among them "Via Wireless.' His first experience is a director was wth a picture called "New York," which was hailed as one of the most sympathetic and accurate portrayals of various phases of metropolitan life that has ever been screened. This film started Mr. Fitzmaurice well on the way to prominence and his successes with pictures starring Florence Reed, Fannie Ward, and Elsie Ferguson firmly established his reputation.

"On With the Dance" was worked into a photoplay by Ouida Bergere. It is a story of a Russian immigrant girl, played by Miss Murray. She is selfish, beautiful and pleasure-loving. Temporarily yielding to temptation that leads her into New York "night life" with a vengeance, the heroine later redeems herself and works out a happy destiny. David Powell has the leading male role. It is released under the Paramount Artcraft banner.

NUMBER OF STAR RUNNERS HERE FOR ROAD RACE

THE COURSE HAS BEEN MAPPED OUT—ONE OF THE BEST RACES IN YEARS.

The ten mile race on Thanksgiving Day, Monday, commencing and finishing on the track at Riverside Park promises to be the best race citizens of Peterborough have had the opportunity of witnessing. Some of the best recognized ten mile amateur runners in Canada will compete. The Amateur Athletic Association have been exceedingly fortunate in receiving entries from:

No. 1, T. J. McAuliffe, St. Brigid's Y.M.C.A., Ottawa.

No. 2, J. Moorcroft, Gladstone A.A., Toronto.

No. 3, A. Smoke, Peterborough A. A., (Chemong.)

No. 4, H. Tressider, Broadview Y. M.C.A., Toronto.

No. 5, C. White, Gladstone A.A., Toronto.

The number as designated above will be used by each of the contestants and by which they will be recognized by the spectators,

The race will commence with four laps on the track at Riverside Park at 2.30 p.m. and will then continue on the following route: The Park to George street, via Simcoe street; north on George to McDonnell; west on McDonnel to Park; south on Park to Lansdowne; east on Lansdowne to the river and over the canal bridge, following Otonabee street east to concession; north on Concession to Smith street; west on Smith street to Water street; south on Water street to Simcoe; east on Simcoe to the Park, where the ten miles will be completed on the Park track.

As the majority of the distance is level running it would not be surprising to see the 10 mile amateur record for Canada broken, and so that the contestants may not be impeded, automobiles are urged not to travel the course so as to obstruct the progress of the runners. A judge will attend each contestant to enable them to keep the course. The ten mile Canadain amateur record is—

Encourage Sports.

Although the ten mile race will be the special attraction for the day, sporting enthusiasts should not fail to see the other 24 events for which record entries have been made and a relay race will be held betwen teams representing all schools in the city.

The Amateur Athletic Association under the presidency of Mr. H. R. H. Kenner, principal of the Collegiate Institute, should be given all the encouragement possible in this first occasion of rejuvenating juvenile sport in the city. With that in view a record crowd should be at Riverside Park on Monday.

A Cook's Accidental Discovery.

One of the best ways of cooking potatoes was accidentally discovered through the unpunctuality of a train. When the line from Paris to St. Germain was opened the first train carried an official party for whom lunch was ordered. The meal was fixed for noon, and shortly before that hour the potatoes were put on to fry. A few minutes afterward a message came that the train would probably be delayed for an hour, so the potatoes were taken off the fire, but left in the pan. Then came a second message, "Train just arriving," and the potatoes were hurriedly put back to fry again. When the party sat down to lunch the potatoes were brought on with the steak. Each chip was then found to be blown out like a small, crisp, golden balloon, to the delight of the guests. The cook without knowing it had invented pommes de terre souffles.

TWO EXCELLENT FOOTBALL GAMES ON THANKSGIVING

AT NICHOLLS OVAL IN THE MORNING, C.G.E. VS. COMRADES, AT 10.30 A. M. AND AFTERNOON AT 3 O'CLOCK. THE G.W.V.A. VS. CALEDONIANS —TO-DAY'S GAME AT THE OVAL.

On Thanksgiving a day a very important local football league fixture will be played between the league leaders, G.W.V.A. and the runners up, the Caledonians, at the Nicholls Oval in the afternoon, kick off at 3 o'clock prompt, with Mr. W. R. Thompson as the official referee.

Since the beginning of the fall season the Veterans have not lost a game, but have drawn one game against the C.G.E., and head the local football league with 11 points, having played 6 games, won 5, lost none, and drawn 1, scored 12 goals for and none against. Jones has not lost a goal this season so far.

The Caledonians have played 5 games, won 4, lost 1 and drawn none, scored 14 goals for and 4 goals against with 8 points in the standing.

In the previous game a few weeks ago the Vets won one goal to nothing after an excellent exhibition of football and throughout the whole game there were only three fouls — all for handling.

Now it is up to the players to play the game and provide clean and interesting football to the public.

Two new faces in the teams for the Vets will be J. House and J. Gorman, and the G. W. V. A. team reads as follows: Wilfred Jones, goal; J. House and N. Crowe, backs; H. Burrows, P. D. Ryan and J. Peel, half backs; S. Curtiss, T. Monks, J. Gorman, A. Edwards and J. Sharman, forwards.

Owing to unforseen circumstances the Caledonians' team will not be selected until before the game through players reporting unfit but the players herein mentioned are requested to report not later than 2:30 p.m. — Ralph Brunton, W. Calder, W. T. Service, James McMillan, Stewart McMillan, Herb Frost, J. Roberts, R. Hannah, R. Dingwall, A. McCrone, J. Brown, Sam McMillan, Hector McDonald, J. Clark, J. Willshaw and R. McDowall.

Morning Game.

At the Nicholls' Oval in the morning at 10.30 a.m., the C. G. E. and the Comrades play in a league fixture. In the previous game the new aggregation were very unfortunate through players turning up late. The Comrades team will be J. Young, goal, R. Jofliffe and F. Mallison, backs; J. Shaw, H. Cowie and T. Bolam, half backs; C. Hopkins, M. Dunkley, Ben Martin, William McDougall and A. Morris, reserves; G. Grieves, W. Yates and J. H. Haw. Referee Mr. T. Hensby.

To-Day's Game.

At the Nicholls Oval the only football game in the city will be played between the Canadian Woollens and Caledonians this afternoon at three o'clock with Mr. Alex. McKinley as official referee.

LAKEFIELD AND PETERBORO MET IN RUGBY GAME

THE NORTHERN TEAM SCORED FIRST—FINAL SCORE 36 TO 5.

The senior Rugby team from the Peterbrough Collegiate Institute defeated a team from Lakefield yesterday at Nicholls Oval. The day was ideal for rugby and the game was more closely contested than a score of 36 to 5 would indicate.

Peterborough won the toss and elected to kick against the wind during the first quarter. Lakefield scored first, getting 5 points when their quarter-back went over the Collegiate goal line on a fake buck. It was not converted. The score was soon evened. Fanning scored Peterborough's first try, which Breyfogle converted nicely. The quarter ended 6-5.

With the wind and sun at their backs in the second quarter the local boys scored another try. Long kicks by Green resulted in two points, a deadline and a rouge. Half time score 13-5.

Shortly after the intermission Fanning broke through the enemy line on a wing buck and after a nice run went across for his second try. This was the only score of the quarter, which ended 18-5.

Last Period.

In the last period the Collegiate boys played a strong game against their weakening opponents, who were lacking in condition. Green kicked often for long gains. Two of his kicks resulted in tryz, one when Stacey picked up a fumbled ball and one when Lakefield made a fumble return right into McBrien's arms. McBrien soon covered the ten yards to the goal line and placed 5 points to his credit. Bleeker made a beautitul run from about centre field and placed the ball directly behind the posts. Breyfogle converted easily. A rouge and a dead line must also be credited to Green, whose kicking was a feature of the game. The final score was 36-5.

Mr. Browne as referee and Mr. Hamilton as umpire, handled the game to the satisfaction of both teams.

The Peterborough team lined-up as follows: Backs, Green, Browne, Kirn, G. Maniece and E. Maniece. Outside wings, Stevens, Johnston. Middle wings, Hay and Stacey. Inside wings, Bleeker and Fanning. Srimmage, McBrien, Breyfogle and McClellan.

Warfare in the Air.

A high powered airplane engine of the best type—say 120 to 150 horsepower—cannot be purchased for much less than $3,000. And the whole airplane, a big one, may readily cost $10,000 to $20,000.

A fast modern airplane has an average life of only about two or three hundred hours of active service—say two months at the outside. This means that to keep 10,000 airplanes on a battle line you have to be able to build 5,000 per month or more. The cost would be almost unthinkable. That is why warfare in the air for any length of time would bankrupt the world. And that in turn is why warfare in the air means the end of all warfare.

No Chasing.

A young man visited a jeweler's and asked to look at some wedding rings. He selected a very handsome ring, and the jeweler said:

"H'm! That one is dearer than the others. Yes, sir; I have to charge $10 extra for that one on account of the chasing."

The young man flushed.

"You won't have to chase me, mister," he said coldly. "I pay cash."

"THE MAID OF THE MOUNTAINS"

The greatest event in Canadian theatrical history is the importation direct from Daly's Theatre, London, Eng., of the world famous musical comedy, "The Maid of the Mountains," which comes to the Grand on Wednesday, October 27th.

The story of "The aid of the Mountains" possesses real dramatic interest and shows throughout the hand of a skilful constructor allied to that of a musical collaborator who has very effectively reflected the story and its main incidents.

The piece, with its fascinating and daring Gypsy heroine, never degenerates into a go-as-you-please show, and with is picturesque settings—in which one can trace the master hand of Mr. Oscar Asche—and presented, as it is, by an all-star company, strong in dramatic and vocal talent, should score a complete success on this side of the Atlantic, as it has in England. The cast includes Fred Wright as Tonio and Viva Daron as Teresa.

STONEY LAKE DISTRICT REVELS IN RIOT OF AUTUMN COLOUR AND MANY VISITORS ARE MAKING LAKE TRIP

SEVERAL COTTAGES REMAIN OPEN—STONEY LAKE TOURIST SEASON IS A VALUABLE ASSET TO PETERBORO—SUPPLY BOATS MISSING

Tourists who extoll the beauties of Stoney Lake would be well repaid if they paid it a visit now as it is wonderful beyond all description. The woods are gorgeous and the effect is magnificent. The sombre green of the pines and the crimson and gold of the maples, the yellow of the poplars, the scarlet of the sumachs and the dark rich wine tints of the oaks blend together in a veritable riot of color.

From Lakefield to Stoney Lake the western shore (which is the most beautiful) is worth seeng. The men on the steam boats say the lake was never more beautful and the beautiful weather makes the trip as pleasant as any mid-summer day. If the present good weather holds its safe betting that a good many Peterborough and Toronto people will re-open their cottages for Thanksgiving.

Cottages Open.

There are still some cottages open but very few as the season is practically over. Though the lake is so beautiful in autumn very few can stay later than September. The echo of the school bell calls those people who have children home eary in September. This has been the best season in the history of Stoney Lake and though the exact figures are not yet available, still Mr. P. P. Young, lock master at Young's Point, says that more than 30,000 people came up the lake this year. When one considers the amount of money spent by the summer colony, which must came close to the half million dollar mark, one realizes that the lake is a valuable commercial asset to the County of Peterborough and to both Lakefield and Peterborough, from which places large quantities of supplies come.

The fishing is an industry in itself as non-residents of the provinces pay a small license fee, which rolls up a neat sum for the department at the end of the season. Guides are available for the fishermen who do not know the haunts of the fish. Guides this year were in great demand and in the busiest season the demand exceeded the supply by far.

Supply Bases Absent.

This year the supply boats were not conspicuous and the cottagers who dwelt on islands were loud in their regrets for the old steam launches that visited the islands each day with meat, vegetables, milk, etc. A supply boat, which would make regular trips would be much appreciated by the cottagers and also a dairy, or at least some dependable milk supply. The farmers ship cream to the dairies in the cities for which no one can blame them but the cottagers this year were in many cases compelled to use the condensed variety which, though very convenient, has its limitations.

However, even with these small drawbacks the summer of 1920 has passed into history as one of the best on Stoney Lake. The organized dances were very popular and retained for Juniper its place as the hub of Stoney Lake gaiety.

A great many new cottages were erected this year in spite of the high cost of material and labor and quite a number of places changed hands, among the latter being "Dunlogie," owned by Mrs. Dunn, of Quebec, and purchased by Mr. Morson, of Toronto ,and Miss Traill's "Minnewawa," which was sold this year.

This season was a summer of prosperity and progress for Stoney Lake, which will mean that it will take a higher place among the playgrounds of Canada.

ATLANTIC SUGAR DOWN 25 POINTS.

Dropped to 88 During the First Hours of This Morning's Trading.

(Canadian Press.)

MONTREAL, Oct. 16.—Atlantic Sugar, which yesterday lost 20 points, slid down 5 points further, to 88, during the first hours of trading on the stock market here this morning, under the influences caused by the Government's suspension of the order of the Board of Commerce regarding sugar.

During the past summer, the stock reached 164.

MUSIC IN THE HOME

THIS COMPOSER WAS POOR BUSINESS MAN

Should Wagner be classed among the rich or the needy composers Both!

During the three years he spent in Paris he was so poor that his wife had to pawn her last jewels and even to beg on the streets. During the twelve years of exile from Germany, Wagner constantly borrowed or begged money from Liszt and other friends because as in his Paris days every effort to make a living failed. While he was at work on Tristan there was a day when he had to pawn his watch and his gold snuff box, a Ducal present. He wondered why he shouldn't have a pension of say $1,500 to $2,000 a year such as others had had, including Mendelssohn who did not need one. This was at the age of 46.

Wagner's operas for many years did not bring him much income. He was 44 years old and had written all but three of his works before any of his operas were sung in Vienna, Munich or Stuttgart. It was partly his own fault that the royalties from his operas always remained small, for he had a way when in immediate need of money of selling his rights for a mess of potage. Had he been a better business man he would not have obliged so often to borrow money.

NOTED BARITONE'S REMINISCENCES

David Bispham, the noted baritone, under the title "A Quaker Singer's Recollections," has written a book of reminiscences, which, according to critics, is not merely a record of his journeys and triumphs, but a very entertaining book. Mr. Bispham was born of Quaker parents in Philadelphia in 1857, but the first twenty years of his life were spent in New Jersey, where music as an art did not exist. His mother "never permitted a piano in her house, though she was not unmoved by the concord of sweet sounds, and, eventually accepted a cabinet organ as a gift from my father." It was on this instrument that young Bispham began to pick out harmonies. Attaining manhood he sang in various church choirs.

Bispham was intended for a commercial career, but his real bent lay in other directions. He had some correspondence with Sir George Grove, who gave him a letter of introduction to Henschel, conductor of the Boston Symphony Orchestra. In deference to family susceptibilities, however, he did not immediately embark on a musical career, keeping to his job of earning twelve dollars a week. Becoming disgusted at last with his prospects in a business life, he decided to become a singer in oratorio and concert and went to Europe, placing himself under Vannuccini at Florence.

Bispham's first public appearance on the concert platform in London, England, was in 1890 and in oratorio in the following year. Since that time he has played practically every important baritone part in the operatic repertoire and in concert throughout Europe and America.

PLANTATION SONGS THREATENED WITH EXTINCTION

Every person love the old plantation songs. The folk songs of the south, the negro spirituals, the Southern melodies never fail to take with the average audience. It will be a surprise though to many to learn that there is concern lest these songs should in time become extinct. In writing about the collection in book form of Old Melodies of the South by Mary Gillen a writer in Musical America says: "Apropos of Southern melodies and negro spirituals, there is justification for the opinion that that class of music has been overworked. The fact is to be regretted, for we all agree that the songs that are a part of our national development ought to be preserved in their original beauty and appeal.

"The darkey is a part of his own music, and the person brought up in the South is therefore, its best interpreter. "Deep River" or "Swing Low Sweet Chariot" done by a Southerner, white or black, with sympathetic delivery, thrills an audience and puts it under a spell of mysticism. There are songs that date back far before the conception of the beautiful spirituals, and these are the plantation songs of slavery days. Who the makers of the melodies were, no one knows. The music may have been brought from Africa and handed down from father to son, with English used to supplement the foreign words. It may have been the outburst of an oppressed race finding expression in broken phrase.

"Certainly the simple and mournful cadences were not composed by whites. They seem characteristic of the black race. Heard once, they are forever associated with blacks, and in many instances are but the inflections of the negro's conversational voice put to music. Education and ambition are shifting the negro from his haunts, and it is but a question of time before the air as sung by the negro will be but a part of folk-lore literature.

With the realization that the plantation songs were threatened with extinction, Mary Gillen, who loved them and the traditions of her South, undertook to assemble them as they were sung by the negroes and taught by them to their children.

"The negro is by nature musical, and Antonin Dvorak was right when he said that in our plantation melodies the composer has a wealth of material for the basis of musical art in its highest form. To prove what he said, the Bohemian composer made a sympathetic study of negro tunes, and announced that the real American music was in the folk-song of the South. In his 'New World' or 'American Symphony,' his Adagio movement gives a full illustration of one of the plantation spirituals developed and broadened in a most masterful manner."

HUMOR AND MUSIC

What a piquant pleasure it is to go to a musical show and to be thoroughly entertained—to be made to enjoy oneself without concentration of effort—to be sent off into ripples and roars of happy laughter, not by anything untoward or grotesque, but by the sheer innate fun of the thing!

For years and years it has seemed almost an impiety to think of humor in connection with music. Music as an accompaniment to comedy and farce, music as a handmaiden to the banalities of that girth lacking production of a blase age, the modern revue—ah yes! But humor in the music and the musicians themselves, oh, dear me, no! That were a contradiction in terms.

If these colored musicians, in their happy go lucky performances, their humorous improvisation embroidered, as you might say, all about the motif of their design without in the least destroying its rhythmical balance of the strict discipline of their ensemble playing—if they can demonstrate to our sophisticated musical scientists that music is not necessarily a serious business for the mathematicians and the virtuosi, but can be also an ebullition of spontaneous art instinct with the viscomica to which music has been so long a stranger, they will have done much more for us than merely to give our blase Londoners a chance of a real good laugh.

CHURCH ORGANISTS GOING TO THE MOVIES

Only rarely is there an approach to a living wage in an organist's page. It perhaps is to be expected that the church musician will be compelled to do some teaching or other additional work to earn his keep, but he should not be called upon to give to the church his time, his talents and the art he has acquired only through years of hard study, for a mere pittance.

If the churches of the country do not meet the issue, what will be the result? They will have no organ music worth while the name. Already there is a perceptible trek of organists to the moving picture houses, where a good living awaits them, and where they can centre all their energies, instead of scattering them in a patchwork, pick up business of church work, teaching, arranging and perhaps accompanying. This trek augurs well for the picture houses. But it spells diaster for music in the churches. And, however much this may be deplored by those of drastic Calvinistic thought, it is to be remembered that the power of churchly music often is greater than the power of spoken sermons. There is perhaps nothing to be gained in comparisons of the salaries of organist and pastor, for ministers, too, are notoriously under paid. But it certainly is the acme of short sightedness for a congregation to raise the money with which to equip a church with a superb organ and then from year to year fail to supply the funds necessary for its proper use.

MOVE FUTURE ARMIES IN HUGE AIRPLANES

LONDON.—A former British air officer, writing in the Daily Mail, says:

A Belgian writer forecasts the possibility in "the next war" of moving 500,000 men a distance of 250 miles in three hours by means of 10,000 large airplanes and so executing a surprise attack or invasion on a large scale.

The difficulties of landing 10,000 large airplanes, or even 1,000, in any reasonable space or time, will at once occur to those who frequented air stations during the war. The station which accommodated more than two service squadrons—thirty-six machines—was the exception; those machines were small compared with the aerial transport of "the next war," and they never had to get off or to land all together.

The difficulties of space and time cannot be overcome by improvements in the airplane, though the helicopter, which could descend vertically, would largely reduce the difficulty of space. Even with the helicopter the landing of 10,000 machines and 500,000 men would be a vulnerable enterprise from the point of view of space and time—elements which do not change.

But figures which seem exaggerated to-day may be facts to-morrow, and nobody who has watched the development of the airplane during the war can doubt that the airplane in a few years will be a far more effective carrier and will be also a more tractable machine, no longer needing half a square mile of dead flat to land and get off in. Airplanes to-day can carry twenty passengers, and there are machines that could carry an eighteen-pounder gun with its limber and supply of shells.

Planes to Carry Horses.

Airplanes do not yet carry horses, but they could, and they certainly can carry cycles and motor cars. The time is not far distant when an expeditionary force, with guns, ammunition and train, will find aerial transport available, and will be able to strike more quickly than any expeditionary force or any naval force ever struck before.

It is a flesh creeping idea, but it is a certainty, that surprise movements by air of considerable bodies of troops will be a formidable danger in future warfare. The idea is not new. During the last year of the great war I helped to compile a memorandum advocating that very thing.

Probably some German staff officers compiled a similar memorandum and presumbly aircraft and air organization were not sufficiently developed on either side for the attempt to be made. But it will be made, and it should be prepared for. Let us hope that our air staff has advanced studies on the subject and is keeening them constantly up to date, both from the offensive and defensive aspects.

Imagine the havoc that could be wrought by even 2,000 well trained troops, officered by daredevils equipped with cycle transport and a sufficiency of destructive weapons, and landed a few miles behind the enemy's lines. By the destruction of communications, of headquarters of airdromes, and of heavy artillery, they could turn the tide of one of the colossal battles of 1918 and convert a retreat into a devastating rout and a wholesale surrender. The stakes are so large that the game is certain to be played; the future general staff and the future commander-in-chief will have another terrible anxiety hovering over them. A "break-through" from behind is a military nightmare.

Imagine a few thousand men landed on our east coast, which abounds in natural airdromes and landing places, a sufficient army to take and hold a port whereat to disembark the main army of invsiaon with its heavy gear. Organized airdromes could be captured by aerial invasion and turned to the uses of the invaders. Bombing machines in sufficient numbers could keep off attacking re-enforcements. There would be some lively fighting, but an attempt of this sort to create a bridgehead for invasion in force by means of preliminary aerial invasion might succeed—unless we are always prepared for instant action for defence.

Some one wrote the other day that we have never assimilated the lessons of the last great war. As nations do not readily change their characteristics, perhaps we shall continue this unhappy practice and go on believing in permanent peace until unexpected war wakes us up again.

The great lesson of the great war was undoubtedly the unbounded possibilities of aircraft.

The regular airplane service to Paris, Brussels and Rotterdam have shown since the war the steadily increasing capacity and effectiveness of the airplanes as a means of rapid transport. Now is the time to prepare systematically, not necessarily for the next war, but for whatever may arise through the development of aircraft and its possible extended use as a war machine.

Such a policy means not only intensive development of the airplane and constant practical study of its growing capabilities, but also study—incessant study by the best minds—of all possible measures of defence against air eventualities even of the most unlikely kind. One would like to think that the air department of the Government is pursuing a policy along these lines. But is it?

What You Can Afford To Pay For Milk

BLANCHE INGERSOLL, well known throughout Canada and the United States as an expert in food values, in a recent article says:

"On the basis of food solids contained, if we pay 50c a pound for pork chops, we can pay 34c per quart for milk. If we pay 48c a pound for round steak, we can pay 40c a quart for milk. If we pay 42c a pound for halibut, we can pay 51c a quart for milk. If we pay 80c dozen for eggs we can pay 68c a quart for milk."

"In comparing costs we must also consider that milk is 100 per cent. edible—there is no waste and no expense for fuel or for time for preparation—it is ready to serve. A quart of milk is equal to ¾ pound of steak at any time, and anyone who can afford to buy meat at all can afford to buy milk."

The above comparisons are worked out on the basis of the American quart—the Canadian quart contains one-fourth more. Work these out on the basis you pay for these foods in Peterboro. You cannot help but be convinced that

CARD OF THANKS.

Mrs. May Found and family desire to thank all those who showed kindness or sympathy in their recent bereavement, and also for the beautiful floral offerings.

MURRAY STREET BAPTIST.

There will be special music of a Thanksgiving character at both services to-morrow. There will be a solo by Miss Florence Scott entitled "Thanksgiving," by Cowan. Mr. Asa Huycke will also sing. There will be a male quartette by the choir's newly organized male quartette, as well as Thanksgiving anthems and hymns.

THANKSGIVING SUNDAY AT ST. LUKE'S CHURCH.

To-morrow (Thanksgiving Sunday) is also Children's Day at St. Luke's Church ,East City, and will be fittingly observed. Rev. C. R. Spencer, M.A., of Millbrook, will be the special preacher for this occasion. Instead of Sunday School in the afternoon, a young people's service will be conducted at 3 o'clock, at which every teacher and scholar is expected to be present.

MANY APPLICATIONS AT THE EMPLOYMENT BUREAU.

At the Employment Bureau one hundred and twenty-three jobs are open to men seeking work, mostly for construction work.

During the past week 42 applications were received for work. Twenty-seven men were placed locally, and five were shipped out of the city.

The Female Department continues to be very quiet.

SERVICES AT GEORGE STREET.

Thanksgiving services will be held at George street Methodist church to-morrow, the pastor being in charge both morning and evening. The subject for the morning discourse will be "Our Thanksgiving."

The evening service will be of special interest to young and old. It will be of a patriotic and musical nature. The pastor will give a short address on "Canada, the Land of Destiny," while the choir will render several special music numbers. The church will be appropriately decorated for the occasion.

A very cordial invitation is extended to all, especially strangers and visitors in town over the holiday.

TRINITY CHURCH W. M. S.

A very special Programme is being prepared by the Woman's Missionary Society of Trinity Church for the Thanksgiving Meeting on Tuesday, 19th October, at 3.30 p.m., in the Reid Street S.S. Hall:
Thanksgiving Message—Mrs. Kendry.
Piano Duet—Mrs. Moncrief, Miss Caldwell.
Solo—Mrs. Thomas.
Dramatic Reproduction—
"Mrs. Smith's Mite Box,"
By Eight Ladies.
Thanksgiving Refreshments will be served, and a very cordial greeting awaits all who attend. If you are

LOTS OF FOWL ON THE MARKET

THANKSGIVING MARKET WAS WELL ATTENDED—WEATHER NUFAVOURABLE.

The large number of fowl in the basket market to-day were ample evidence that this was Thanksgiving market, but outside there were no distinguishing marks to be noticed. There were fowl of every edible variety and size. Chickens, of course, predominated, but there were many gees and ducks and a few turkeys. Chickens were 30 cents a pound and a nice little pullet could be bought for $1.25. Geese commanded the same price. There were not a large showing of ducks and they sold at 40 cents a pound. To watch the market-goer hurry up and take an admiring look at a ponderous turkey one would think it was the last specimen of a once flourishing family on exhibit in the National Museum. They were labelled 12, 13 and 14 lbs. and priced 45 cents a pound. At this rate about $5.40 was the lowest price one could expect to secure a turkey for and the big ones were up over $7.00. A plump goose at 30 cents a pound was evidently more in keeping with the purse of the people and although they dearly wished to buy one they scattered sentiments to the winds. There were few family buyers who escaped from the market powers without having succumbed to the lure of a goose or chicken. Butter was 65 cents a pound and eggs 68 and 70 cents.

Apples Plentiful.

There were wagonfulls of nice rosy-cheeked Snows, Weathies, Wolff Rivers and other varieties of apples for Thanksgiving Day on the outside market. The prevailing price was 30 and 35 cents a peck, but some were only 25. In a few wagons there were grapes. By the peck they sold at 25 cents. Wild ones that make delicious jam or (whisper so the Inland Revenue inspectors won't hear) indescribable wine. Canteloupes, pumpkins, squash, melons and citrons that added a Thanksgiving touch were from 10 to 20 cents. Pears, one farmer was selling at 35 cents a peck. Big imported ones were 85 cents at a local fruit dealer's stand. Second growth strawberries were the interesting fruit displayed by one gardener. At 30 cents they were soon snapped up.

Paying Prices.

Potatoes sold all the way from $1.2 5to $1.50. There were considerable quantities of many varieties. Tomatoes, of which there were only a few baskets, were 50 cents. One man, evidently wanting to get rid of a big basket full, offered them for 25 cents without the container. Onions were 60 cents a peck whether pickling or winter ones. One whole wagon was full of cabbage selling at 5 cents a head or by the dozen 50 cents. Cauiflower was 15 and 25 cents. Turnips were $1.00 a bag and beets 5 cents a bunch or $1.00 bag. Carrots were 5 cents a bunch or $1.50 a bag. Parsnips and winter radishes sold at only 5 cents a bunch. There were green and red peppers galore at three for 5 cents or 25 cents a dozen. Brussels sprouts were 35 cents a quart and green beans, of which were represented by one lonely looking basket, were 15 cents a quart.

Weather Unfavorable.

The weather to-day was not as fine as the farmers had hoped for and man apprehensive glances were paid the dark overhanging clouds that threatened a heavy rain that never developed into much more than a drizzle. This did not deter the crowds of buyers to a great extent and some of the rigs were cleaned ot before 10.30.

IN MEMORIAM.

BROWN.—In ever loving memory of my dear husband, Flight-Lieut. Percy Lewelland Brown, who was killed 16th October, 1918, while instructing in England.
—Inserted by his Wife, and little Daughter, Eleanor.

IN MEMORIAM.

In fond memory of my esteemed friend, Flight Lieut. Percy Llewellyn Brown, R.A.F., who lost his young life on Oct. 16, 1918, while instructing in England.
—Inserted by Professor F. Sewell Southgate.

IN MEMORIAM.

In proud and loving memory of our dear son, Flight Lieut. Percy Llewellyn Brown, R.A.F., who died from injuries received in an aeroplane accident while instructing in England, Oct. 16, 1918.
—Inserted by His Loving Father and Mother.

IN MEMMORIAM.

In loving memory of Eliza Harding Eggleton, who departed this life on Oct. 18, 1919:
It is not the tears at the moment shed
That tell how beloved is the soul that is fled.
But the tears through many a long day wept,
And the sad remembrance fondly kept.
—Inserted by Husband and Children.

IN MEMORIAM.

CHILDS.—In loving memory of our dear sister, Clara Maggie Childs, who died 18th October, 1918.
Two years have passed, our hearts still sore,
As time rolls on we miss her more;
It was hard to lose you, sister dear,
But God, Who knoweth best,
Held wide His loving arms, and said,
"Come unto Me, and rest."
—Sadly missed by Sister and Brothers

WEDDING BELLS

WALLACE—MORROW.

The marriage of Miss Velma, eldest daughter of Mr. and Mrs. W. G. Morrow to Mr. Peter G. Wallace, both of this city, was quietly solemnized this Morning at the George street Methodist church, by the Rev. W. H. Young.

The attendants were Miss Hazel Morrow, sister of the bride, and Mr. Horace Ballard.

The bride was prettily attired in a French blue tricotine suit, trimmed with beaver fur, and a picturesque hat of panne velvet. She also wore a corsage bouquet of Ophelia roses.

The happy couple left on the 12.00 o'clock train for Ottawa and other points, amid the best wishes of their many friends.

OBITUARY

THE LATE JAMES McNEIL OF KEENE.

(Contributed.)

At the ripe age of 84 years there passed away on Tuesday last the most prominent man in Keene in the person of James McNeil. Mr. McNeil was born in the memorable year in the history of Canada, 1837. It was the year of Queen Victoria's coronation and of the McKenzie rebellion. He came to Keene 75 years ago and 60 years of his long and useful life was given to business in Keene. He was a man of excellent business, a man of high integrity and strong convictions. He was deacon, treasurer and S. S. superintendent for three-score years in the Presbyterian church, and a prominent member of the A.F. and A.M. An impressive funeral service was held in the Keene Presbyterian church on Thursday afternoon when a large concourse of friends met to pay their last respects to the deceased and express their sympathy for the bereaved relatives. The service was conducted by the Rev. R. McEachern, pastor of the deceased, assisted by the Rev. D. D. McDonald, a former pastor, the Rev. Mr. Honey of the Methodist church, Keene, and the Rev. D. A. Thomson, Hastings. It was well expressed by the speakers when they said that he would be missed in the home, the church and the community. He was a great and good man.

MRS. JOSEPH MORIN.

Evelyn McClavey, beloved wife of Joseph Morin, died this morning at the family residence, 265 Lake street, after an illness of several months' duration.

She leaves of the immediate family her husband and three small children, her mother and one brother, John McClavey of this city.

Funeral on Monday morning at 9 o'clock to the Sacred eHart church, thence to St. Peter's cemetery.

CHARLES O'BRIEN.

The body of the late Charles O'Brien who died this week in Kamloops, B.C., arrived in the city last evening. Funeral on Sunday afternoon at 3 o'clock from the residence of Mr. O'Brien's brother-in-law, Mr. P. G. Towns, Douro, to St. Joseph's cemetery.

W. E. SCULLY.

William Edward Scully died on Thursday, October 14th, in the Rockwood Hospital at Kingston. Deceased who enlisted with the 8th C. M. R.'s. in June, 1915, saw several months active service in France.

He leaves of the immediate family his wife and five small children, residing in the city.

Funeral at 3 o'clock this afternoon from the family residence, 29 Ware Street to the Little Lake cemetery, under G.W.V.A. auspices.

MRS. JOHN KING.

Susie Grose, wife of John King, 227 Bethune street, died yesterday in Toronto, after several months illness. She leaves besides her husband four small children.

Funeral this afternoon from the Grand Trunk station on the arrival of the 5.30 train to the Little Lake cemetery.

NOTICE.

The Regular Meeting of Local 101, A. F. of M., will be Postponed on account of the Band Concert in Victoria Park.—W. F. Leader, Secy.

JAPANESE KNOTS.

They Have a Language of Their Own and Their Making Is an Art.

The Japanese have no use for buttons buckles or hooks and eyes. Cord serves every purpose of fasteuing and furnishes artistic possibilities seemingly without end.

The Japanese have hundreds of knots made necessary by the ornamental use of cord. Some are as old as the time when history was recorded by a series of knots, just as it was in China and Peru before writing was invented. There are dozens of knots in common and ceremonial usage, and these every child can tie.

In one educational museum of Japan is a great frame of the most beautiful knots, tied in silken and gold thread. This had formed a part of Japan's exhibit at a certain world's fair. For six months this wonderful collection had hung upon the wall and only two visitors had noticed and inquired about it. Even these thought the knots must be industrial samples inteuded for dress trimmings. No one offered to buy the uhique exhibit, no museum begged for it, and the wonderful knots were taken home again.

There is an appeal to the imagination even in the knots intended for common use. There are plum blossom, cherry blossom, iris, chrysanthemum and pine tree knots. There are fujiyama knots, turtle and stork knots, the "old man's," which is easy to tie, and the "old woman's" also.

There is only one way of knotting a cord when sending a New Year's or birthday gift and another for doing up a funeral offering. There is one way to tie the brocade bag of the tea jar when it is full and another when it is empty. A sword bag, a flag or spear bag, a dispatch bag, or the box containing some precious piece of porcelain or lacquer, must each be tied in a certain way.

The ill bred person classes himself with the foreigner by ignoring such niceties of custom, and an object tied in a slovenly manner may not only bear witness to the sender's ignorance, but it may carry with it a deadly insult.

THANKSGIVING DAY
Studio will be Open from 10 a.m. until 4 p.m.
CHRISTMAS
Is just around the Corner. We would suggest an early appointment.

HEALTH AND THE NERVE SUPPLY
GOOD HEALTH DEPENDS UPON AN UNIMPEDED FLOW OF NERVE FORCE.
CHIROPRACTIC VERTEBRAL ADJUSTMENTS MAKE SUCH A FLOW POSSIBLE.
THERE IS NOTHING MIRACULOUS IN THE THOUSANDS OF WONDERFUL CURES AND CASES OF HEALTH PERMANENTLY RESTORED AS A RESULT OF CHIROPRACTIC ADJUSTMENTS, BECAUSE THE PRINCIPLES OF CHIROPRACTIC ARE ABSOLUTELY NATURAL.
Given a normal flow of the vital force from the brain through the spinal column by way of the Nerves to the various organs, unimpeded by any nerve pressure, the result is Health.
On the other hand, if this flow of vital force is impeded by a pressure on the nerves at the part of the spine where they branch out, the result is a lack of sufficient vital force to that particular organ which, not receiving its full quota, refuses to function properly, and becomes diseased.
THE CHIROPRACTOR CAREFULLY PALPATES THE SPINE AND LOCATES THE EXACT SPOT WHERE THE NERVE IS PINCHED, FINDING THAT THE IMPINGEMENT (pinching) IS CAUSED BY A SUBLUXATION (displacement) of the VERTIBRÆ (small bones of the Spine) BY A MOVEMENT OF THE BARE HANDS ONLY, CALLED AN ADJUSTMENT, HE PUTS THE SUBLUXATED VERTIBRÆ BACK INTO PLACE. THE PRESSURE ON THE NERVES IS RELIEVED AND THE ORGAN AFFECTED AGAIN RECEIVES ITS FULL QUOTA OF VITAL FORCE. THE RESULT IS HEALTH.
